(c) When the owner of the whole or any part of such a vessel dies and there is an administration of his estate, an authenticated copy of the letters of appointment of the personal representative of the deceased owner shall be filed with the collector of customs before a new document is granted to that personal representative or to any of his successors in interest. In such a case, before a new document for a vessel is granted to one who acquires an interest therein as the beneficiary under a will, to the person succeeding to the interest of the deceased owner in case of intestacy, or to any successor in interest of either of them, an authenticated copy of the decree of distribution shall be filed with the collector of customs. The filing of an authenticated copy of the certificate of death or of the will of the deceased owner shall not be required.

and by deleting "(c) or" from paragraph (e) thereof.

5. Section 3.33 (d) is amended by adding at the end thereof the following: "A mortgage, whether ordinary or preferred, may, but need not necessarily, recite in full the last marine document of the vessel; if such marine document is not recited, the vessel shall be described by rig, name, official number, and gross tonnage."

6. The citation of authority for § 3.34 is amended to read "R. S. 161, sec. 2, 23 Stat. 118, as amended, R. S. 4159, 4160, sec. 30, subsecs. C, H, W, 41 Stat. 1000, 1002, 1006, as amended, sec. 2, 43 Stat. 948; 5 U. S. C. 22, 46 U. S. C. 2, 29, 30, 921, 926, 983, 1012."

7. Section 3.42 (b) is amended by changing the period at the end of the first sentence to a comma and adding: "together with a duly authenticated translation of any such evidence that may be written in a foreign language."

and by deleting the period at the end of the third sentence and adding: "but no approval of a foreign government shall be required."

8. Section 3.43 (c) is amended by changing the period at the end of the first sentence to a comma and adding: "together with a duly authenticated translation of any such document that may be written in a foreign language."

(R. S. 161, 251, sec. 624, 46 Stat. 759, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended; 5 U. S. C. 22, 19 U. S. C. 66, 1624, 46 U. S. C. 2, 3)

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

1. Since the inspection of vehicles is not within the purview of Part 4, § 4.1 (a) is amended by deleting the words "or vehicle" from each of the three places in which these words appear.

2. Note 19, appended to § 4.9 (a), is amended by substituting "Secretary of the Treasury" for "Secretary of Commerce [Commissioner of Customs]".

3. Section 4.14 is amended by inserting the following new sentence after the first sentence of paragraph (a): "Although an entry may not be required for certain items, as stated in paragraph (b) (1), such items must nevertheless be reported on customs Form 3415."

by inserting "as amended," after "Revised Statutes," in both places in which the term appears in the first sentence of paragraph (e) and in paragraph (g), and by inserting ", as amended," after "Statutes" in the first sentence of paragraph (k).

4. Section 4.20 (c) is amended by deleting footnote reference "43" following "Foreign vessels:" in the table and by changing footnote references "44" in the last two columns of the table to "43".

5. Footnote 43, appended to § 4.20 (c), is deleted and footnote 44, appended to the same section, is renumbered 43.

6. Section 4.21 (b) is amended by substituting "A vessel shall not be liable to the payment of tonnage tax or light money merely because—" for the language preceding the numbered subparagraphs; by deleting subparagraph (4); by renumbering subparagraphs (5) through (17) as (4) through (16), respectively; by revising renumbered subparagraph (4) to read:

(4) It is a vessel of war or other vessel which is owned by, or under the complete control and management of the United States or the government of a foreign country, and which is not carrying passengers or merchandise in trade or, if in ballast, which is not arriving from a foreign port during the usual course of its employment as a vessel engaged in trade.

by substituting "It is a" for "A" in renumbered subparagraph (5), by substituting "It is engaged" for "Engaged" in renumbered subparagraphs (6), (7), and (8), and by changing footnote reference "44a" in renumbered subparagraph (13) to "44".

7. Footnote 44a, appended to § 4.21 (b), is renumbered 44.

8. In order to avoid unnecessary correspondence in connection with applications for refund of tonnage tax payments and to help insure that payments rightfully due the Government are not avoided because a refund of a previous payment has been approved, and to delete matter pertaining only to internal management, § 4.24 of this part is amended by inserting the following sentence after the first sentence of paragraph (b): "The application shall include a certificate by the owner or by the owner's agent that payment of tonnage tax at the applicable rate has been or will be made for each entry of the vessel on a voyage on which that rate is applicable before the end of the current tonnage year, exclusive of any payment which has been refunded or which may be refunded as a result of such application."

and by deleting the second and third sentences of paragraph (d).

9. Section 4.63 (a) is amended to read as follows:

(a) No vessel shall be cleared for a foreign port unless there has been filed with the collector a manifest on customs Form 1374 covering the complete lading of the vessel, together with such export declarations as are required by pertinent regulations of the Bureau of the Census, Department of Commerce, or unless the vessel is cleared on the basis of a pro forma manifest (customs Form 1375) as provided for in § 4.75 of this part.

10. Since a certificate is to be accepted in lieu of the affidavit heretofore prescribed in certain cases, § 4.72 (b) is amended by substituting "a certificate" for "an affidavit".

11. Section 4.75 is amended to read as follows:

§ 4.75 *Incomplete manifest; incomplete export declarations; bond.* (a) If a master desiring to clear his vessel for a foreign port does not have available for filing with the collector a complete cargo manifest [106] or all required shippers' export declarations,[107] the collector may accept in lieu thereof a pro forma manifest on customs Form 1375 if there is on file in his office a bond on customs Form 7567 or 7569 executed by the vessel owner or some other person as attorney in fact of the vessel owner.

(b) Not later than the fourth business day after clearance [108] from each port in the vessel's itinerary, except the final port, the master, or the vessel's agent on behalf of the master, shall deliver to the collector at each such port a complete manifest (customs Form 1374) of the cargo laden at such port together with duplicate copies of all required shippers' export declarations for such cargo. If the vessel is cleared at the final port of departure from the United States on the basis of the pro forma manifest prescribed in paragraph (a) of this section, there shall be filed with the collector for that port within 4 business days after clearance therefrom a complete manifest of all cargo on board, together with duplicate copies of all required shippers' export declarations for cargo laden at that port. That portion of the manifest covering cargo laden at any prior port may consist of a certified copy of the final manifest filed at such port. It shall be the responsibility of the vessel's agent at each such prior port to deliver a copy of the manifest covering cargo laden at that port to the collector at the final port within 4 business days after the vessel's clearance from such final port. The oath of the master or agent on customs Forms 1374 and 1375 shall be properly executed before acceptance.

(c) During any period covered by a finding by the President under section 1 of the act of June 15, 1917, as amended (50 U. S. C. 191), that the security of the United States is endangered by reason of actual or threatened war, or invasion, or insurrection, or subversive activity, or of disturbances or threatened disturbances of the international relations of the United States, no vessel shall be cleared for a foreign port until a complete outward foreign manifest and all required export declarations have been filed with the collector, unless clearance in accordance with paragraphs (a) and (b) of this section is authorized by the Commissioner of Customs.

(R. S. 161, 4197, as amended, 4200, as amended, sec. 2, 23 Stat. 118, as amended; 5 U. S. C. 22, 46 U. S. C. 2, 91, 92)

12. A new footnote is appended to § 4.75 (b) to read as follows:

[106] The statutory grace period of 4 days for filing the complete manifest and missing export declarations begins to run on the first day (exclusive of any day on which the customhouse is not open for marine business) following the date on which clearance is granted.

13. The citation of authority for § 4.83 is amended to read "R. S. 161, sec. 2, 23 Stat. 118, as amended, R. S. 2793, as amended, 4197, as amended, 4200, as amended, 4318, as amended, 32 Stat. 172, as amended; 5 U. S. C. 22, 46 U. S. C. 2, 91, 92, 95, 111, 123, 258."

(R. S. 161, 251, sec. 624, 46 Stat. 759, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended; 5 U. S. C. 22, 19 U. S. C. 66, 1624, 46 U. S. C. 2, 3)

PART 7—CUSTOMS RELATIONS WITH INSULAR POSSESSIONS AND GUANTANAMO BAY NAVAL STATION

1. In view of Executive Order 10264 (16 F. R. 6417) and section 27 of the Organic Act of Guam, approved August 1, 1950 (48 U. S. C. 1421–1424b), footnote 14, appended to § 7.8, is amended to read as follows:

"Guam, Wake Island, Midway Islands, Kingman Reef, and American Samoa are American territory, but not within the customs territory of the United States. Importations into those islands are not governed by the Tariff Act of 1930 or these customs regulations. The customs administration of American Samoa is under the jurisdiction of the Department of the Interior (Office of Territories). The customs administration of Wake Island is under the jurisdiction of the Department of Commerce (Civil Aeronautics Administration). The customs administration of Midway Islands and Kingman Reef is under the jurisdiction of the Department of the Navy. The customs administration of Guam is under the Government of Guam.

2. Footnote 15, appended to § 7.9, is amended by adding the following immediately before the closing quotation mark: "In determining whether such a Virgin Islands article contains foreign material to the value of more than 20 per centum, no material shall be considered foreign which, at the time the Virgin Islands article is entered, or withdrawn from warehouse, for consumption, may be imported into the continental United States free of duty generally."

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

1. Section 8.39 (a), as amended by T. D. 53336, is further amended by inserting "10.60 (b) or" between "section" and "18.16 (a)" in the first clause of the first sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

1. Section 10.31 (c) is amended by deleting the next to the last sentence.

2. Section 10.39 (a) is amended by inserting "as amended," after "1930," in the second sentence, by substituting "the purpose of importation" for "experimental purposes" in the same sentence, and by substituting "use" for "experiment" in the same sentence.

3. Section 10.40 is amended by deleting "the collector shall place such cash deposit in his deposit fund account and" from paragraph (a) and by substituting "Bureau" for "Commissioner of Customs" in the last sentence of paragraph (b).

4. Section 10.42 (g) is amended by substituting "paragraph" for "subsection" in the second sentence.

5. Section 10.48 (b) (1) is amended by substituting "foreign service" for "consular".

6. Section 10.50 is amended by substituting "foreign service" for "consular".

7. In view of the amendment of section 484 (f), Tariff Act of 1930, by section 3 (b), Customs Simplification Act of 1953, § 10.53 (e) is amended by deleting the last two sentences and substituting therefor the following: "However, such furniture may be entered at any port for transportation in bond to one of the ports named herein, or to any authorized place of deposit outside one of those ports, for examination and release, as contemplated by section 484 (f), Tariff Act of 1930, as amended, if the port of entry designated in the transportation entry is one at which furniture may be entered for consumption and there is a compliance with the procedure prescribed by § 18.11 (c) of this chapter."

8. Section 10.58 (a) (2) is amended by deleting "certifying".

9. Section 10.59 (a) is amended by deleting "from bonded warehouses".

10. Section 10.65 (c) (5) is amended by substituting "declaration" for "affidavit".

11. Section 10.66 (a) (2) is amended by substituting "foreign service" for "consular".

12. Section 10.67 (a) (2) is amended by substituting "foreign service" for "consular".

13. Section 10.73 is amended by deleting "(a)" from the beginning of the first paragraph, by substituting "General Agreement on Tariffs and Trade" for "Canadian Trade Agreement" in the first sentence of the first paragraph, by deleting "certifying" from the second and third sentences of the first paragraph, by transferring the citation of authority to the end of the first paragraph, and by deleting paragraph (b).

14. Footnote 67, appended to § 10.73, is revised to read as follows:

[67] Item 701, General Agreement on Tariffs and Trade (T. D. 51802):

| Tariff Act of 1930, paragraph | Description of products | Rate of duty |
|---|---|---|
| 701 | Cattle weighing less than 200 pounds each or 700 pounds or more each ..... *Provided*, That not more than 200,000 head of cattle weighing less than 200 pounds each entered in the 12-month period beginning Apr. 1 in any year, and not more than 400,000 head of cattle weighing 700 pounds or more each (other than cows imported specially for dairy purposes) entered in any such period, but not more than 120,000 head of such cattle weighing 700 pounds or more each entered in any 3-month period beginning Apr. 1, July 1, Oct. 1, or Jan. 1 within any such 12-month period, shall be dutiable at 1½ cents per pound, and any of the foregoing cattle not subject to that rate of duty shall be dutiable at .. (Second proviso obsolete.) | 1½¢ per lb.<br>2½¢ per lb. |

15. Section 10.75 is amended by substituting "1607 (b)" for "1607" in both places in which the latter number appears.

16. Note 69, appended to § 10.75, is amended by substituting "(b) Wild" for "* * * wild" at the beginning of the quoted matter and by substituting "1607 (b)" for "1607" and "1607 (b)" for "1682" in the parenthetical matter.

17. Section 10.78 (b) is amended by inserting "Tariff Act of 1930," after "1730 (a),".

18. Section 10.79 is amended by substituting "of" for the "by" following "3295," in the first sentence of paragraph (a) and by deleting "authorized to administer oaths" from the second sentence of paragraph (b).

19. As customs Form 7506–A has been abolished, § 10.80 is amended by substituting "7506" for "7506–A" in the last sentence.

20. Section 10.84 (c) is amended by substituting "lower rate" for "rate of 10 percent ad valorem" in the first sentence.

21. Section 10.89 is amended by inserting "as modified," after "1930," and inserting "(or 0.8 cent, if exposed in Cuba)" after "foot" in paragraph (a) and by substituting "appropriate rate" for "rate of 1 cent per linear foot" in paragraph (c).

22. Section 10.90 (c) is amended by substituting "$250" for "$100" in the second sentence.

23. As the matter now in § 10.93 (c) is covered by § 10.94 (a) (1), § 10.93 is amended by transferring the citation of authority to the end of paragraph (b) and deleting the remainder of paragraph (c).

24. Section 10.94 is amended by inserting "bonded" before "wool" in the first sentence of paragraph (a), by substituting "subparagraph" for "paragraph" in paragraph (a) (3), and by deleting "of 1942" from the first paragraph of the form of certificate in paragraph (e).

25. Section 10.103 is amended by substituting "section" for "sections" in the first clause and by inserting "or other free list provision" after "1628".

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 11—PACKING AND STAMPING; MARKING; TRADE-MARKS AND TRADE NAMES; COPYRIGHTS

1. Section 11.8 is amended by deleting "not" and substituting "in accordance with" for "except as provided for in" in paragraph (h) and by inserting "or transfer to customs territory" immediately after "withdrawal" in paragraph (l).

2. Section 11.9 (a) is amended by substituting "No" for "Any" at the beginning of the first sentence and by deleting "not" from that sentence.

3. Section 11.13 is amended by deleting footnote reference "15" at the end of paragraph (b) and by substituting "section 294, 1124, or 1125, title 15," for "the law set forth in footnote 14 or 15" in paragraph (d).

4. The contents of footnote 15 are added at the beginning of footnote 14 and footnote 15 is deleted.

5. Section 11.14 is amended by inserting the following immediately before the footnote reference "16" at the end of paragraph (a): "The prohibition does not apply to articles to which a copying or simulating mark has been applied, if such mark is removed or completely obliterated before importation. See § 11.17 (b)."

by changing the period at the end of paragraph (b) to a comma and adding "or by a related company as defined in section 45 of the Trade-Mark Act of 1946,[15]", and by revising the citation of authority to read "R. S. 161, secs. 42, 45, 60 Stat. 440, 443, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 15 U. S. C. 1124, 1127, 19 U. S. C. 1624.".

6. Footnote 17, appended to § 11.15 (a), is deleted and the following new footnote is appended to § 11.14 (b):

[15] The term "related company" means any person, partnership, association, or corporation which legitimately controls, or is controlled by, the registrant or applicant for registration in respect to the nature and quality of the goods in connection with which the mark is used. See 15 U. S. C. 1127.

7. Section 11.15 is amended to read as follows:

§ 11.15 *Trade-marks; recording;*[16] *change of ownership; renewal.* (a) To record a trade-mark with the Treasury Department, an application, which may be in the form of a letter, shall be addressed to the Commissioner of Customs, Washington 25, D. C., stating the name, residence, and citizenship of the owner or owners (if a partnership, the citizenship of each partner; if a corporation or association, the country or State within which it was organized or created), the name of the locality in which the goods are manufactured, and the name and address of each related company or foreign person, partnership, association, or corporation using the trade-mark while acting as the principal or agent of the trade-mark owner. The application shall be accompanied by one certified copy of the original certificate of registration issued by the Commissioner of Patents in accordance with the Trade-Mark Act of February 20, 1905, or section 7 of the Trade-Mark Act of July 5, 1946, to which shall be attached one printed Patent Office facsimile of the statement and drawing covering the trade-mark; such of the documents mentioned in paragraph (b) or (c) of this section as may be required to show the ownership of the applicant, or renewal of the trade-mark; 500 uncertified facsimiles of the statement and drawing covering the trade-mark (which may be reproduced privately from a Patent Office facsimile) for distribution to all collectors of customs and appraisers of merchandise; and the fee of $25 prescribed by § 24.12 of this chapter. Checks or money orders in payment of the fee shall be made payable to the Head, Fiscal Section, Bureau of Customs.

(b) If ownership of a registered trade-mark is claimed by an applicant by virtue of an assignment of such trade-mark, there shall be transmitted with the application for recording, in addition to the documents and information specified in paragraph (a) of this section, a certified abstract of title from the records of the United States Patent Office showing the ownership of the applicant and a statement as to whether or not the mark has been reassigned without recordation of the reassignment. Similar documentary evidence shall accompany an application for recording if the commercial name of the applicant has been changed subsequent to the registration of the trade-mark.

(c) If the application for recording is presented after the expiration of the period for which the certificate of registration or a renewal thereof was issued, the application shall be accompanied by a certified copy of a certificate of renewal from the United States Patent Office showing that the registration is in force. In order to continue to receive the protection of the trade-mark statutes with respect to imported merchandise, such a certified copy of each subsequent certificate of renewal shall be promptly filed with the Treasury Department.

(R. S. 161, sec. 42, 60 Stat. 440, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 15 U. S. C. 1124, 19 U. S. C. 1624)

8. Section 11.16 is amended by substituting "Commissioner" for "Bureau" in the first sentence of paragraph (a); by deleting the last "and" in that sentence; by deleting the footnote reference "17" and changing the period at the end of that sentence to a comma and adding "and the name and address of each related company or foreign person, partnership, association, or corporation using the trade name while acting as the principal or agent of the trade name owner."; by inserting "not associated with or related to the applicant but" after "two other persons" in the second sentence of paragraph (a); and by revising the citation of authority to read "R. S. 161, sec. 42, 60 Stat. 440, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 15 U. S. C. 1124, 19 U. S. C. 1624.".

9. Footnote 17, appended to § 11.16 (a), is deleted.

10. Section 11.17 is amended by deleting "of foreign manufacture which bears a trade-mark entitled to the protection of section 526, Tariff Act of 1930," and merchandise" from paragraph (a) and by revising the citation of authority to read "R. S. 161, sec. 42, 60 Stat. 440, secs. 618, 624, 46 Stat. 757, 759; 5 U. S. C. 22, 15 U. S. C. 1124, 19 U. S. C. 1618, 1624.".

11. Footnote 18, appended to § 11.17 (a), is deleted.

12. Section 11.18 is amended by deleting "16," from the citation of authority.

13. Section 11.19 is amended by deleting "(61 Stat. 652)" from paragraph (a), by deleting paragraph (e), and by revising paragraph (d) to read as follows:

(d) In the case of copyrighted works other than those specified in paragraph (b) of this section, application for recordation shall be made to the Commissioner of Customs, Washington 25, D. C. Such application shall be accompanied by one certified copy of the certificate of registration issued by the Copyright Office pursuant to the provisions of section 209 of the Copyright Act, 500 photographic or other adequate likenesses of the copyrighted work for distribution to all collectors of customs and appraisers of merchandise, and the fee of $25 prescribed by § 24.12 of this chapter. Checks or money orders in payment of the fee shall be made payable to the Head, Fiscal Section, Bureau of Customs.

(Sec. 1, 61 Stat. 652, 17 U. S. C., Sup., 109)

14. Section 11.21 is amended by substituting "section 1 of the act of July 30, 1947, as amended," for "section 16, Title 17, United States Code, as amended by the act of June 3, 1949 (Pub. Law No. 84, 81st Cong.)," in the first sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 12—SPECIAL CLASSES OF MERCHANDISE

1. Section 12.1 is amended by deleting the last sentence from paragraph (a) and the last sentence from paragraph (c).

2. Section 12.3 is amended by substituting "Department of Health, Education, and Welfare" for "Federal Security Agency".

3. Section 12.7 is amended by deleting "from Federal Security Agency" from the heading and by substituting "Department of Health, Education, and Welfare" for "Federal Security Agency" in the first sentence of paragraph (a) and in the first sentence of paragraph (b).

4. Section 12.11 (b) is amended by substituting "under an entry for immediate transportation" for "I. T." and "certified" for "consular".

5. Section 12.18 is amended by inserting "such" after "container of" in the first sentence.

6. Section 12.26 (b) (4) is amended by substituting "Department of Health, Education, and Welfare" for "Federal Security Agency" in the first sentence.

7. Section 12.28 (b) is amended by deleting "of Customs".

8. Section 12.33 is amended by deleting "regulations of Federal Security Agency;" from the heading, by substituting "certified" for "consular" in paragraph (c), and by substituting "Department of Health, Education, and Welfare" for "Federal Security Agency" in paragraph (c).

9. Section 12.35 (b) is amended by substituting "carrier" for "vessel" in the first sentence.

10. Section 12.37 (a) is amended by substituting "(27 U. S. C. 203)" for "(Sec. 3, 49 Stat. 878)".

11. Section 12.40 is amended by substituting "described" for "included" in paragraph (b) and by substituting "an action" for "in action" in paragraph (d).

12. Section 12.48 is amended by inserting "any token, disk, or device in the likeness or similitude of any coin of the United States or of a foreign country;" after "Code," in paragraph (a); by inserting footnote reference "31" after "securities of the United States" in paragraph (a); by deleting the footnote reference "31" at the end of paragraph (a); by deleting "489 or" from both places in the first sentence of paragraph (c); and by deleting "illustrations of coins or medals, or" from the first sentence of paragraph (c).

13. Footnote 31, appended to § 12.48 (a), is amended to read as follows:

[31] The term "obligations or other security of the United States" includes all bonds, certificates of indebtedness, national bank currency, Federal Reserve notes, Federal Reserve bank notes, coupons, United States notes, Treasury notes, gold certificates, silver certificates, fractional notes, certificates of deposit, bills, checks, or drafts for money, drawn by or upon authorized officers of the United States, stamps and other representatives of value, of whatever denomination, issued under any act of Congress, and canceled United States stamps. (18 U. S. C. 8.)

14. Footnote 32, appended to § 12.48 (c), is amended by deleting the first paragraph.

15. Section 12.50 is amended as follows:

a. Paragraph (c) is amended to read as follows:

(c) Merchandise entered for warehouse for which a withdrawal for consumption has been made in the manner stated in § 8.4 (g) of this chapter prior to the opening of any quota period may not be accorded any quota benefit which may become effective after the time of such withdrawal, even though the permit of delivery for the withdrawn merchandise is not delivered to the customs warehouse officer until after the effective date of the quota benefit.

b. Paragraph (d) is amended by inserting "or withdrawals, or both," after "entries" in the first clause of the first sentence; by deleting "warehouse" from the second clause of the first sentence; by substituting "or" for "and" in the last clause of the first sentence; by inserting the following new sentence after the second sentence: "No importer shall be permitted to present entries or withdrawals for a quantity in excess of the quota quantity."

and by substituting "withdrawals for consumption" for "warehouse withdrawals" in the next sentence.

c. Paragraph (e) is amended by inserting "or withdrawal" after "entry".

d. Paragraph (f) is amended by inserting "or withdrawals" after "entries" in both places in which the latter term appears.

16. Section 12.51 (a) is amended by substituting "$250" for "$100" in the second sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 13—EXAMINATION AND MEASUREMENT OF CERTAIN PRODUCTS

1. To eliminate an unnecessary administrative requirement of an oath, § 13.3 is amended by substituting "a certificate" for "an affidavit".

2. To correct an inadvertence, § 13.4 (a), as amended by T. D. 53336, is further amended by inserting a footnote reference "4" immediately after "human consumption" in the first place in which that term appears.

3. Section 13.11 (a) (3) is amended by inserting "in whose name the entry is filed or" after "actual owner".

4. Section 13.13 (c) is amended by substituting "provisions of" for "authority vested in the collector and the appraiser by" in the first sentence and by substituting "the collector or the appraiser" for "officer" in the same sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 14—APPRAISEMENT

1. Section 14.5 (1) is amended by deleting "not previously imported".

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 15—RELIEF FROM DUTIES ON MERCHANDISE LOST, STOLEN, DESTROYED, INJURED, ABANDONED, OR SHORT-SHIPPED

1. Section 15.7 (a) is amended by substituting "report" for "return".

2. Section 15.8 (b) is amended by deleting "paragraph 813 and".

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 16—LIQUIDATION OF DUTIES

1. Section 16.4 is amended by substituting "subparagraph" for "paragraph" in paragraph (d) (4) and by substituting "or" for "and" and deleting "of Customs" in paragraph (e).

2. To eliminate an unnecessary administrative requirement of an oath, § 16.6 (c) is amended by substituting "a certificate" for "an affidavit" in the last subparagraph.

3. Section 16.8 is deleted.

4. Section 16.10 is amended by deleting "; duress entries" from the heading.

5. Section 16.10a (c) is amended by substituting "paragraph" for "subsection" and "315 (d)" for "315" in the first sentence.

6. Section 16.14 (b) is amended by substituting "the collector" for "collectors".

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 17—PROTESTS AND REAPPRAISEMENTS

1. Section 17.4 (c) is amended by substituting "§ 24.36 of this chapter" for "Part 24".

2. Section 17.5 is amended by deleting "following decisions of the courts" from the heading; by revising paragraph (a) to read as follows:

(a) Each stipulation, whether following a decision of the Customs Court or the Court of Customs and Patent Appeals or embracing an agreed statement of facts, which is to be certified by a customs employee, shall be presented in triplicate to the office of the Assistant Attorney General, Civil Division, Customs Section, 201 Varick Street, New York 14, N. Y., from which it will be forwarded for certification to the appraiser or collector for the district in which the related protest or appeal for reappraisement was filed. The said Customs Section will forward with the stipulation the pertinent entry papers and other documents.

by deleting the last sentence of paragraph (c); by transferring the citation of authority for the section to the end of paragraph (e); and by deleting paragraph (f).

3. Section 17.11 (a) is amended by substituting "The complaint" for "Complaint" in the last sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

1. Section 18.1 (a) is amended by changing the period at the end of the last sentence to a comma and adding "as amended (49 U. S. C. 1002 (a) (5).".

2. Section 18.8 (c) is amended by substituting "the required" for "such".

3. Section 18.10 is amended by inserting "or rewarehouse" after "Warehouse" in paragraph (a) (3), by deleting "bonded" from the second sentence of paragraph (b), and by inserting "under subparagraphs (3), (4), or (5) of paragraph (a) of this section" after "shipments" in the second sentence of paragraph (b).

4. Section 18.12 (a) is amended by inserting "an" after "under" in the first clause of the first sentence.

5. Section 18.13 is amended by substituting "carrier" for "vessel" in the first sentence of paragraph (a), by inserting "in paragraph (c) of this section" after "described" in the same sentence, and by inserting "first" after "actual" and ", unless such place is the final destination" after the last "States" in the second sentence of paragraph (e).

6. Section 18.25 (c) is amended by substituting "New York Office, Foreign Trade Division, Bureau of the Census" for "Section of Customs Statistics".

7. Section 18.30 (a) is amended by inserting a period after "required" and deleting the remainder of the paragraph.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 19—CUSTOMS WAREHOUSES AND CONTROL OF MERCHANDISE THEREIN

1. Section 19.1 (a) is amended by deleting the second sentence from subparagraph (1).

2. Section 19.2 (d) is amended by changing the period at the end of the second sentence to a comma and adding "as amended by T. D. 52403.".

3. Section 19.5 is amended by inserting "(5 U. S. C. 921)" immediately before the period at the end of the first sentence of paragraph (b); by substituting "(5 U. S. C. 911, 922)" for "by the Federal Employees Pay Act of 1946" and "(19 U. S. C. 267, 1451)" for "(the act of February 13, 1911, as amended, and section 451 of the Tariff Act of 1930, as amended)" in the second sentence; and by revising the citation of authority to read as follows: "Secs. 201, 301, 302, 604, 59 Stat. 296, 298, as amended, 303, 304, as amended, sec. 603, 63 Stat. 965, as amended, secs. 203, 204, 65 Stat. 679, as amended, 681, sec. 5, 36 Stat. 901, as amended, secs. 451, 555, 556, 624, 46 Stat. 715, as amended, 743, 759; 5 U. S. C. 911, 921, 922, 944, 1113, 2062, 2063, 19 U. S. C. 267, 1451, 1555, 1556, 1624."

4. Section 19.13 (c) is amended by changing the comma to a period and deleting the remainder of the sentence.

5. Section 19.14 (c) is amended by substituting "customs warehouse officer" for "storekeeper" in the text preceding the form and in the second part of the form.

6. Section 19.17 is amended by deleting paragraphs (b), (c), and (f); by redesignating paragraphs (d), (e), (g), (h), and (i) as (b) through (f), respectively; and by inserting ", as amended by T. D. 52403," after "50267" in the second sentence of redesignated paragraph (e).

7. Section 19.18 is amended by substituting "lead, tin, or copper" for "lead and tin, copper" in the last sentence.

8. Section 19.22 is amended by inserting "which have been lost and are attributable to the exported product" immediately before the period at the end of the first sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 20—DISPOSITION OF UNCLAIMED AND ABANDONED MERCHANDISE

1. Section 20.4 is amended by substituting "General Services Administration" for "Division of Procurement" and by revising the citation of authority to read "R. S. 161, 251, sec. 492, 46 Stat. 727, 53 Stat. 245, 304; 5 U. S. C. 22, 19 U. S. C. 66, 1492, 26 U. S. C. 2190, 2805.".

2. Section 20.6 (g) is amended by changing the comma following "1930" in the first sentence to a period and deleting the remainder of the sentence (not including the footnote reference "9").

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 22—DRAWBACK

1. Section 22.5 (a) is amended by inserting "as amended," after "1930," in the text preceding the subparagraphs.

2. Section 22.6 (b) (4) is amended by inserting "refined" after "All" in the second sentence.

3. In order to provide for the extension of a prescribed period for the completion of a drawback claim when failure to complete the claim within the prescribed period is occasioned by action of a responsible customs officer, § 22.13 (a) is amended by substituting ", unless it is established that failure to complete the claim within 3 years was occasioned by action of a responsible customs officer" for "for any cause" in the last sentence.

4. Section 22.18 (g) is amended by substituting "imported" for "important" in the last sentence.

5. Section 22.28 (b) is amended by substituting "a temporary importation" for "6-months'".

6. In view of the amendment of section 313 (c), Tariff Act of 1930, by section 12 (b), Customs Simplification Act of 1953, and to simplify administrative procedure, § 22.32 is amended by revising the caption to read "Drawback entry."; by substituting "a drawback entry in triplicate on customs Form 7539" for "an application in duplicate on customs Form 7537" in the first sentence of paragraph (a); by substituting "drawback entry" for "application" in the second sentence of paragraph (a); by substituting "Each drawback entry covering" for "All applications for the exportation of" in the first sentence of paragraph (b); by inserting "import" after "named in the" and substituting "drawback entry" for "application" in the first sentence of paragraph (b); by substituting "drawback entry" for "application" in the second sentence of paragraph (b); by inserting the following new sentence before the last sentence in paragraph (b): "If the merchandise was shipped to the importer without his consent, a clear statement of that fact shall be submitted, together with all information in the possession of the importer as to the reason for the shipment."

and by inserting "or circumstances" immediately after "specifications" in the last sentence of paragraph (b).

7. For the reasons last indicated, § 22.33 is amended as follows:

a. The first sentence of paragraph (a) is deleted and the following is substituted therefor: "Upon receipt of the drawback entry, the collector shall assign a number thereto, by appropriate notation on all copies, approve the place of deposit of the merchandise specified by the person making the entry or designate another place if that one is not deemed suitable, and return the original to the entrant for presentation with the merchandise to the customs officer at the place of deposit. If the merchandise is to be exported otherwise than by mail, one copy of the entry shall be returned to the entrant for resubmission to the collector in accordance with paragraph (e) of this section."

b. Paragraph (a) is further amended by substituting "after" for "from" in the present second sentence and by substituting "drawback shall be denied" for "the application shall be disapproved" in the last sentence.

c. Paragraph (c) is amended by deleting the first two sentences and substituting therefor the following: "The drawback entry, fully executed in triplicate on customs Form 7539, shall accompany or be mailed simultaneously with the parcel, unless such form is not available to the exporter, or unless the information necessary to complete the entry is not available at the time of mailing, in either of which cases the merchandise may be submitted without the entry to the postmaster for delivery to the collector of customs. When the returned merchandise is received by the collector without the related drawback entry, he shall immediately furnish the exporter with the proper number of copies of Form 7539 for prompt execution and return."

d. Paragraph (e) is amended by substituting "entrant" for "applicant" in the first sentence and "entry" for "application" in both places in the same sentence; by deleting the second sentence and substituting therefor the following: "If the entry has been approved and the merchandise is to be exported otherwise than by mail, the importer or whoever shall have been designated by the importer in writing shall file with the collector, at least 6 hours before lading of the merchandise, a copy of the entry with the name of the exporting carrier and the place of lading shown thereon and the exporter's declaration thereon fully executed. The export procedure and liquidation of the entry shall be the same, so far as applicable, as in the case of an exportation of merchandise from continuous customs custody with benefit of drawback."

and by substituting "drawback is denied, the entrant" for "the application has been disapproved, the applicant" in the last sentence.

8. Section 22.34 is amended by substituting "drawback entry" for "application for exportation" in the second sentence.

9. Section 22.35 is amended by substituting "drawback entry" for "application of the importer" and by inserting ", or of shipment without the consent of the consignee," after "specifications".

10. The foregoing amendments of §§ 22.32 to 22.35 contemplate the use of a revised customs Form 7539, which will be in effect a consolidation of the present customs Forms 7537 and 7539. Customs Form 7537 is therefore abolished, but the stocks of the present Forms 7537 and 7539 shall be used, the two forms in conjunction to be substituted for the Form 7539 prescribed in these amendments, until such stocks are exhausted.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 23—ENFORCEMENT OF CUSTOMS AND NAVIGATION LAWS

1. Footnote 1, appended to § 23.1 (a), is amended by deleting the last paragraph.

2. Section 23.10 is amended by substituting "Administration" for "Commission" in the heading and by substituting "Maritime Administration" for "United States Maritime Commission" in paragraph (a).

3. Section 23.12 is amended by substituting "such section 606" for "this section" in paragraph (b), by deleting paragraph (e) and redesignating paragraph (f) as (e), and by deleting "by the appraiser" from the first sentence of redesignated paragraph (e).

4. Footnote 23, appended to § 23.12 (a), is amended by adding the following new paragraph:

The function of determining the domestic value of seized property under section 606, Tariff Act of 1930, in any case where the aggregate value of the seizure is not over $250 has been transferred from the appraiser to the collector. (T. D. 53322.)

5. Section 23.25 (a) is amended by substituting "6.13 (a)" for "6.10e (a)" in subparagraph (3) and by inserting "imported" after "When" in subparagraph (4).

6. Section 23.26 (a) is amended by inserting "it has received due notice that" after "until" in the first sentence, by inserting a period after "bank" in that sentence and deleting the remainder of the sentence (not including the footnote reference "41"), and by changing the semicolon in the last sentence to a period and deleting the remainder of that sentence.

7. Section 23.32 is amended by revising the heading and paragraph (a) to read as follows:

§ 23.32 *Pollution of coastal and navigable waters.* (a) When any customs officer has reason to believe that any refuse matter is being or has been deposited in navigable waters in violation of section 13 of the act of March 3, 1899 (33 U. S. C. 407) or that oil is being or has been discharged into or upon the coastal navigable waters of the United States in violation of the Oil Pollution Act of 1924 (33 U. S. C. 431–437),[**] he shall promptly furnish to the collector a full report of the incident, together with the names of the witnesses, and, when practicable, a sample of the material discharged from the vessel in question.

and by revising the citation of authority to read "R. S. 161, sec. 13, 30 Stat. 1152, sec. 7, 43 Stat. 605; 5 U. S. C. 22, 33 U. S. C. 407, 436.".

8. A new footnote is appended to § 23.32 (a), to read as follows:

[**] See Appendix VII, Customs Regulations.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

1. Section 24.3 is amended by redesignating paragraph (c) as (d) and inserting a new paragraph (c) to read as follows:

(c) When an importer desires a receipt for duties or taxes paid on a formal or appraisement entry, he shall prepare and present with the entry a copy of customs Form 5101 for such purpose.

2. Section 24.9 is deleted.

3. Section 24.11 (a) (2) is amended by substituting "25.4(31)" for "25.4 (32)".

4. Section 24.17 (a) (6) is amended by substituting "25.4 (31)" for "25.4 (32)".

5. Section 24.31 (b) (3) is amended by substituting "(section 481 (c), Title 40, United States Code)" for "(sec. 201 (c), Pub. Law 152, 81st Cong.)".

6. Section 24.36 (b) is amended by substituting "a transferee provided for in section 557 (b), Tariff Act of 1930, as amended," for "the transferee" in the third sentence, by inserting a period after "such transferee" in the same sentence, and by deleting the remainder of that sentence.

7. Section 24.70 is amended by substituting "section 61f–61k, title 5, United States Code" for "Public Law 636, approved August 3, 1950" in the first sentence of paragraph (a), by changing the last comma in the second sentence of paragraph (c) to a period and deleting the remainder of that sentence, and by deleting the parenthetical matter following the second sentence of paragraph (c).

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 25—CUSTOMS BONDS

1. Section 25.3 (a) is amended by substituting "Bureau" for "Commissioner of Customs" in the text preceding the numbered subdivisions and by inserting "as amended by T. D. 52403," after "50267," in subparagraph (4).

2. Section 25.4 is amended by substituting "This" for "The penalty on this" in the second sentence of redesignated subparagraph (26) of paragraph (a), by substituting "This" for "The penalty of this" in the second sentence of redesignated subparagraph (27) of paragraph (a), by substituting "amount of" for "penalty named in" in the first sentence of paragraph (b), by substituting "amount" for "penal sum" in the second sentence of paragraph (b), and by substituting "amount" for "penalty" in the third sentence of paragraph (b).

3. Section 25.12 (b) is amended by substituting "amount" for "penal sum" in the first sentence.

4. Section 25.14 is amended by substituting "amount" for "penalty" in the first sentence.

5. Section 25.16 (c) is amended by inserting "Saturday," before and a comma after "Sunday" in the last sentence.

6. Section 25.17 (f) is amended by substituting "Bureau" for "Commissioner of Customs" in the first sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 26—DISCLOSURE OF INFORMATION

1. Section 26.2 is amended by substituting "and hypothecations pertaining to vessels of the United States" for "hypothecations" in paragraph (a) (11) and by substituting "16 F. R. 6964" for "19 CFR 100.4" in paragraph (c).

2. Section 26.7 (c) is amended by inserting ", as amended" after "1917" and by deleting "as amended by Public Law No. 679, 81st Congress,".

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

PART 14—APPRAISEMENT

MISCELLANEOUS AMENDMENTS

If the designations which, under section 499 of the Tariff Act of 1930, as amended, a collector is required to make of packages or quantities of imported merchandise are to serve as an effective control, such designations must be made before the merchandise is examined and released.

However, perishable and other merchandise for which an immediate delivery permit may be issued in order that it may be released prior to formal entry under section 448 (b) of the tariff act often arrives at night, or on Saturday, Sunday, or a holiday, when the officer authorized to designate packages or quantities for examination is not on duty. It is impracticable in such cases to make

such designations after the arrival of the merchandise but before its examination and release under an immediate delivery permit.

It is therefore necessary to authorize the designation of examination packages to be made under proper safeguards before the arrival of the merchandise which is to be released under an immediate delivery permit, and to include a requirement for the furnishing to the examining officer of a document containing data which will enable him to make a proper examination of the importation and to identify it with the special delivery permit. It is also deemed necessary to make certain minor changes in the regulations in order to prevent abuse of the immediate delivery permit procedure. Accordingly, the Customs Regulations are hereby amended as follows:

1. Section 8.5 (d) is amended by changing the period before the parenthetical matter to a comma and adding "except as provided for in § 8.59 (c), relating to merchandise released under immediate delivery permits."

(R. S. 251, sec. 624, 46 Stat. 759; 19 U. S. C. 66, 1624)

2. Section 8.22 is amended by adding the following sentence before the parenthetical matter: "As to the designation for examination of merchandise to be released under immediate delivery permits, see § 8.59 (c)."

(Sec. 499, 46 Stat. 728, secs. 15, 16, 52 Stat. 1084, sec. 624, 46 Stat. 759; 19 U. S. C. 1499, 1624)

3. Section 8.59 is amended as follows:

a. Paragraph (a) is amended by deleting the last sentence. This deletion will not establish any new privilege since the effective rate of duty for goods released under an immediate delivery permit is the rate in effect when the entry covering the goods is finally accepted.

b. Paragraph (b) is amended by adding the following sentence: "No special permits shall be issued with respect to merchandise subject to quota except for arrivals after official hours or on a Saturday, Sunday, or holiday."

c. Paragraph (c) as amended, is further amended by inserting the following matter after the first sentence: "Designations and orders for examination of merchandise to be released under immediate delivery permits may be made before the arrival of the merchandise by the collector, the assistant collector, a deputy collector, or a customs officer officially acting as one of the foregoing. Such designations and orders shall be made in the space provided therefor on the special permit, customs Form 3461, when possible, and the designations may be by minimum percentages of packages or quantities which shall be examined, unless the collector shall be of the opinion that the proper protection of the revenue requires packages to be otherwise designated for examination. Information as to particular packages designated for examination, when less than the total number of packages in the shipment, shall not be given or be accessible to anyone, other than the customs officers necessarily concerned, prior to the arrival of the merchandise within the limits of the port."

d. Paragraph (h), as amended, is further amended by inserting in the first sentence "(1 day in the case of merchandise subject to a quota)" after "2 days".

e. Paragraph (i) is amended by inserting after "release" the words "of merchandise not subject to a quota".

f. Paragraphs (j) and (k) are redesignated (k) and (l), respectively, and a new paragraph (j) is added, reading as follows:

(j) When timely entry has not been made for merchandise, other than merchandise subject to a quota, released under a special permit, and the importer files an application for relief from liquidated damages assessed, the collector may cancel such liquidated damages upon the payment of $10, if he is satisfied that the delay in filing the entry was not due to willful negligence and was occasioned by circumstances reasonably beyond the control of the parties.

g. Redesignated paragraph (k) is amended by adding the following: "Examination and release of merchandise under the special delivery provisions of this section shall not be made unless there is first furnished to the examining officer an invoice, waybill, or other satisfactory document setting forth an adequate description of the merchandise and the quantities thereof, together with the values or approximate values thereof when the latter information is needed in connection with the examination. If an annual special delivery permit is involved, the invoice or other document so presented to the examining officer shall also have shown thereon, when possible, the special delivery permit number, to facilitate the identification of the importation with the permit."

(R. S. 161, sec. 448 (b), 46 Stat. 714, sec. 499, 46 Stat. 728, secs. 15, 16 (a), 52 Stat. 1084, sec. 623, 46 Stat. 759, sec. 30, 52 Stat. 1089, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1448, 1499, 1623, 1624)

4. To conform with the foregoing amendments to Part 8 of the regulations, § 14.1 (a), is amended to read as follows:

(a) The designation of packages or quantities of merchandise for examination shall be deemed an order of appraisement for the purposes of section 488, Tariff Act of 1930.

(Sec. 488, 46 Stat. 725, sec. 624, 46 Stat. 759; 19 U. S. C. 1488, 1624)

## PART 22—DRAWBACK

### CERTIFICATE

To eliminate matters of internal procedure, § 22.25 (c) of the Customs Regulations (19 CFR 22.25 (c)) is amended to read as follows:

(c) If a certification as to any portion of the alcohol described in a certificate on internal revenue Form 646 should be required for the liquidation of drawback entries filed at another port, the collector, on written application of the person who requested its issuance, shall transmit an extract from the certificate for use at such port. The extract shall be made on customs Form 4541 and shall show the Internal Revenue Service certificate number on the original certificate. (Secs. 313, 624, 46 Stat. 693, as amended, 759; 19 U. S. C. 1313, 1624.)

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies sec. 313, 46 Stat. 693, as amended; 19 U. S. C. 1313)

# TITLE 20—EMPLOYEES' BENEFITS

## Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Department of Health, Education, and Welfare

[Regs. 4, as amended]

## PART 404—FEDERAL OLD-AGE AND SURVIVORS INSURANCE (1950——)

### COORDINATION OF RAILROAD RETIREMENT PROGRAM WITH OLD-AGE AND SURVIVORS INSURANCE PROGRAM; BENEFITS IN CASE OF VETERANS

Regulations No. 4 (20 CFR, Cum. Supp., 404.1 et seq.) are amended as follows:

1. Section 404.206 (d) is amended to read as follows:

§ 404.206 *Wages and self-employment income used in determining average monthly wage.* * * *

(d) All wages deemed paid to an individual by reason of his service in the active military or naval service of the United States after September 15, 1940, and prior to July 1, 1955, provided such wages are otherwise creditable under the provisions of Subpart N of this part.

2. Section 404.213 (b) is amended to read as follows:

§ 404.213 *Recomputation of benefits for survivors.* * * *

(b) *Recomputation to include railroad compensation of earnings after individual's entitlement.* A survivor entitled to monthly benefits or a lump-sum death payment on the basis of the wages and self-employment income of an individual who died after August 1950 and who had been entitled to an old-age insurance benefit at the time of death, may secure recomputation of the decedent's primary insurance amount without filing application therefor provided:

(1) The decedent would have been entitled to a recomputation under § 404.212 (b) had he filed application therefor in the month of death, or

(2) The decedent during his lifetime was paid compensation under the Railroad Retirement Act (see Subpart O of this part) and his old-age insurance benefits had not been recalculated pursuant to the provisions of § 404.216.

3. There is inserted immediately after § 404.215 a new section, designated as § 404.216, which reads as follows:

§ 404.216 *Recalculation of benefits of an individual entitled to old-age insurance benefits to include compensation for railroad services.* Any individual who is entitled to old-age insurance benefits under section 202 (a) for months after October 1951 and whose benefits do not include the compensation received by him for his service in the railroad industry may have his benefits recalculated to include such compensation, provided such compensation may otherwise be treated as wages under the provisions of Subpart O of this part. No application is necessary for such recalculation. Such recalculation shall be made in the same manner as such individual's monthly benefits under section 202 (a) were last computed; any increase in such benefit amount due to such recalculation shall be effective for and after November 1951.

4. Section 404.304 is amended to read as follows:

§ 404.304 *Old-age insurance benefits; duration of benefits.* An individual is entitled to an old-age insurance benefit for each month beginning with the first month after August 1950 in which all of the conditions of entitlement are satisfied. The last month for which such individual is entitled to such benefit is the month preceding the month in which he dies. (See § 404.1405 for circumstances under which old-age insurance benefits may be terminated prior to the death of the individual.)

5. The following material is added as an appendix to Subpart G:

APPENDIX

1. *Applications filed with the Railroad Retirement Board.* Notwithstanding the provisions of § 403.701 of this chapter (Regulations No. 3) restricting the place for filing an application, which have been incorporated into this part by § 404.601, any application filed with the Railroad Retirement Board on or after August 1951 on its prescribed forms by an individual who at the time of filing such application had less than 10 years of service in the railroad industry (as defined in § 404.1403), by his spouse, or by or on behalf of his child, shall be deemed to be an application for benefits under title II of the act and shall be deemed filed with the Administration on the date as of which the Railroad Retirement Board certifies that such application is deemed filed with that agency.

2. *Time of filing applications for lump-sum death payment in case of serviceman dying outside the continental United States.* Where an individual, on the basis of whose wages and self-employment income a lump-sum death payment under section 202 (i) is claimed, died outside the forty-eight States or the District of Columbia after August 1950 and prior to July 1955, while he was in the active military or naval service of the United States, and where he is returned to any of such States, the District of Columbia, Alaska, Hawaii, Puerto Rico, or the Virgin Islands for interment or reinterment, the application for such lump-sum death payment may, notwithstanding the 2-year filing requirement of section 202 (i) (see § 404.338 (b)), be filed prior to the expiration of 2 years after the date of such interment or reinterment, but only if such application is filed by or on behalf of the person equitably entitled to the lump-sum death payment (see § 404.340).

6. Section 404.701 (e) is amended to read as follows:

§ 404.701 *Evidence as to right to receive monthly benefits and lump-sum death payments.* * * *

(e) *Evidence filed with Railroad Retirement Board.* When applications are made for annuities and lump sums under the Railroad Retirement Act (see Subpart O of this part), which under certain circumstances are also applications for benefits and lump-sum death payments under title II of the act, evidence developed and received by the Railroad Retirement Board in support of claims under the Railroad Retirement Act which are later transferred to the Administration may be used in determining entitlement to or eligibility for such benefits or lump-sum death payments payable under title II. Where a claim which has been completely adjudicated by the Railroad Retirement Board is transferred from that agency to the Administration, the Administration may, after examination, adopt as its initial determination any determination made by the Railroad Retirement Board (except as to compensation or periods of service—see section 5 (k) (3) of the Railroad Retirement Act), or, in light of the sufficiency of the supporting evidence or of new evidence which is introduced, may make such determination as shall be proper.

7. Section 404.806 (i) is amended to read as follows:

§ 404.806 *Revision of records of earnings after expiration of time limitation.* * * *

(i) To enter items of compensation for railroad service which constitute remuneration for employment pursuant to the provisions of Subpart O of this part, such entries to be in accordance with certified reports of records made by the Railroad Retirement Board pursuant to section 5 (k) (3) of the Railroad Retirement Act; or

8. Section 404.1001 (t) is amended to read as follows:

§ 404.1001 *General definitions and use of terms.* * * *

(t) "Railroad Retirement Act" means the Railroad Retirement Act of 1937 (50 Stat. 307), as amended by the following acts: Act of July 31, 1946 (60 Stat. 722), act of June 23, 1948 (62 Stat. 576), act of October 30, 1951 (65 Stat. 683).

9. Section 404.1017 is amended to read as follows:

§ 404.1017 *Railroad industry; employees and employee representatives under section 1532 of the Internal Revenue Code.* Except as particularly set forth in Subpart O of this part, services performed by an individual as an "employee" or as an "employee representative," as those terms are defined in section 1532 of subchapter B of chapter 9 of the Internal Revenue Code, are excepted from employment.

10. Section 404.1351 is amended to read as follows:

§ 404.1351 *Effect of section 217 (c) of the act.* Any veteran who served in the active military or naval service of the United States on or after July 25, 1947, and prior to July 1, 1955, will be deemed to have been paid wages (in addition to the wages, if any, actually paid to him) of $160 for each month during any part of which he rendered such service. Such wages will be credited to the account of such veteran for the purposes of determining entitlement to and the amount of any monthly benefit or lump-sum death payment payable under section 202 of the act on the basis of the wages and self-employment income of such veteran. Such crediting is subject to the limitations of the succeeding sections of this part.

11. Section 404.1353 is amended to read as follows:

§ 404.1353 *Meaning of "Federal benefit."* For the purposes of § 404.1352 and §§ 404.1354 to 404.1356, inclusive, a "Federal benefit" means any benefit (other than a lump-sum payment which is not a commutation of or substitute for periodic payments) under the civil service, railroad retirement, military or other Federal program which provides for retirement on account of age, length of service, or disability, or for survivors insurance, where the amount of such benefit is based, in whole or in part, upon active military or naval service during the period beginning with July 25, 1947, and ending prior to July 1, 1955, and such benefit is determined by any agency or wholly owned instrumentality of the United States (other than the Veterans' Administration) to be payable by it under any other law of the United States or under a system established by such agency or instrumentality.

12. Section 404.1355 is amended to read as follows:

§ 404.1355 *Effect of notice of determination that a "Federal benefit" is payable.* If the Administration has been notified by a department, agency, or wholly owned instrumentality of the United States that a "Federal benefit" (see § 404.1353) has been determined by it to be payable (even though later terminated) to anyone (including dependents or survivors) on the basis of the active service during the period beginning with July 25, 1947, and ending prior to July 1, 1955, of a veteran, any benefits or a lump sum payable under title II with respect to the wages and self-employment income of such veteran shall be determined without regard to the provisions in § 404.1351 for the crediting of wages granted under such section. If, prior to the receipt of such notification, the Administration has made a determination and pursuant to such deter-

mination has certified a benefit for payment to the veteran, his dependents or survivors, or has certified for payment a lump-sum death payment, as provided by § 404.1354, the Administration, upon the receipt of such notification, shall certify no further benefits for payment or shall recompute the amount of any further benefits as may otherwise be payable under title II, and shall also determine the existence and amount of any erroneous payment (see § 404.1356).

13. Section 404.1359 is amended to read as follows:

§ 404.1359 *Definition of the term "veteran"*—(a) *Included individuals.* The term "veteran," as used in §§ 404.1351 to 404.1358, inclusive, and §§ 404.1360 to 404.1362, inclusive, includes any individual who was in the active service of any of the armed forces of the United States, including the Army, Air Force, Navy, Marine Corps, and the Coast Guard or any of the components thereof on or after July 25, 1947, and prior to July 1, 1955, and including also any member of the commissioned corps of the United States Public Health Service in the active service of the Public Health Service on or after July 25, 1947, and prior to July 4, 1952, and who, if discharged or released from such active service, was so separated under conditions other than dishonorable (see § 404.1361) after service of at least 90 days or by reason of a disability or injury incurred or aggravated in service in line of duty.

(b) *Excluded individuals.* The term "veteran," as used in §§ 404.1351 to 404.1358, inclusive, and §§ 404.1360 to 404.1362, inclusive, does not include, among others, any individual who died in the active service if his death was inflicted as a punishment for a military or naval offense, other than by an enemy of the United States. Neither does it include a member of any of the units designated in the second sentence of § 404.1321 (b) insofar as such units were in existence during the period beginning with July 25, 1947, and ending prior to July 1, 1955.

14. Section 404.1360 is amended to read as follows:

§ 404.1360 *Active service of 90 days; defined.* Active service of 90 days means one or more periods totalling at least 90 days (whether or not consecutive) which are served in the period beginning with July 25, 1947, and ending prior to July 1, 1955. Where 90 days were not served wholly within such period, but such service began prior to July 25, 1947, and concluded on or after that date or began prior to July 1, 1955, and concluded on or after that date, the requirement of active service of 90 days is met only if such service of 90 days was continuous. Active service of 90 days is not necessary in the case of a veteran who was in the active service during the period referred to in the preceding sentence and who was separated therefrom by reason of a disability or injury incurred or aggravated in service in line of duty.

15. Subpart O is amended to read as follows:

SUBPART O—INTERRELATIONSHIP OF OLD-AGE AND SURVIVORS INSURANCE PROGRAM WITH THE RAILROAD RETIREMENT PROGRAM

§ 404.1401 *General relationship of Railroad Retirement Act with the old-age and survivors insurance program of the act.* The Railroad Retirement Act sets up a system of benefits for railroad employees, their dependents and survivors, and has in many respects been integrated with the Social Security Act to provide a coordinated system of retirement and survivor benefits payable on the basis of an individual's work in the railroad industry and in employment and self-employment covered by the Social Security Act. With respect to the coordination of the two programs the Railroad Retirement Act distinguishes between "career" railroaders and those individuals who may be considered "casual" railroad workers, the line of demarcation being 10 years of service in the railroad industry, including service prior to 1937. It transfers to the old-age and survivors insurance system individuals who at the time of retirement or death have less than 10 years of service in the railroad industry. Any compensation paid to such individuals for such service becomes wages under the Social Security Act so that whatever benefits are payable to them, their dependents, or their survivors come from the old-age and survivors insurance trust fund under the conditions set forth in title II of the Social Security Act. Those with 10 or more years of railroad service remain under the Railroad Retirement Act, except that under certain circumstances survivors of such workers may be shifted to the old-age and survivors insurance system.

§ 404.1402 *When services in the railroad industry are covered.* Services performed by an individual in the railroad industry which would, but for the provisions of this section, be excepted from "employment" by reason of § 404.1017 shall be considered to be in "employment" as defined in section 210 of the act in the following situations:

(a) For the purpose of determining entitlement to or the amount of any monthly benefit or lump-sum death payment on the basis of the wages and self-employment income of an individual whose years of service in the railroad industry are less than 10;

(b) For the purpose of determining entitlement to or the amount of any survivor monthly benefit or any lump-sum death payment on the basis of wages and self-employment income of an individual whose years of service in the railroad industry at the time of death were 10 or more (see § 404.1406 for circumstances under which no payment may be made even though services are in "employment");

(c) For the purpose of applying the provisions of section 203 of the act (see Subpart E of this part).

§ 404.1403 *Definition of "years of service."* The term "years of service" as used in this subpart has the same meaning as assigned to it by section 1 (f) of the Railroad Retirement Act.

§ 404.1404 *Effective date of coverage of railroad services under the act.* The provisions of paragraphs (a) and (b) of § 404.1402, insofar as they relate to survivor monthly benefits and lump-sum death payments, are effective:

(a) In the case of monthly benefits, for months after December 1946, and

(b) In the case of lump-sum death payments, with respect to deaths after 1946.

The remaining provisions of such section are effective November 1, 1951.

§ 404.1405 *When the provisions of § 404.1402 do not apply*—(a) *Awards by the Railroad Retirement Board prior to October 30, 1951.* The provisions of § 404.1402 (a) shall not apply with respect to the wages and self-employment income of an individual if, prior to October 30, 1951, the Railroad Retirement Board has awarded under the Railroad Retirement Act a retirement annuity to such individual or a survivor annuity with respect to the death of such individual and such retirement or survivor annuity, as the case may be, was payable at the time an application for benefits is filed under the act on the basis of the wages and self-employment income of such individual. A pension payable under section 6 of the Railroad Retirement Act or an annuity paid in a lump sum equal to its commuted value under section 3 (i) of the Railroad Retirement Act in effect prior to the act of October 30, 1951, is not a "retirement or survivor annuity" for the purpose of this paragraph.

(b) *Individual continues to work in railroad industry after establishing entitlement to benefits under section 202 (a).* An individual's service in the railroad industry used, pursuant to the provisions of § 404.1402, to establish entitlement to or to determine the amount of, his old-age insurance benefits under section 202 (a) shall not be deemed to be in "employment" as defined in section 210 of the act, if he renders service in the railroad industry after the effective date of such benefits and his years of service attributable thereto when added to his years of service prior to such effective date are 10 or more. Such benefits and any benefits payable to the spouse or child of such individual under sections 202 (b), (c), or (d) of the act on the basis of his wages and self-employment income shall be terminated with the month preceding the month in which such individual acquires his tenth year of service. If, however, an insured status (see Subpart B of this part) exists without the use of compensation, such benefits shall, in lieu of termination, be recalculated without using such compensation and the recalculated benefits shall be payable with the month in which the tenth year of service was acquired. Any monthly benefits paid prior to such month shall not be deemed erroneous by reason of the use of such compensation.

§ 404.1406 *Eligibility to railroad retirement benefits as a bar to payment of social security benefits.* Notwithstanding the fact that, pursuant to the preceding provisions of this subpart, services rendered by an individual in the railroad industry are in employment, no lump-sum death payment or survivor monthly benefits shall be paid (except as provided in § 404.1407) under the regulations in this part on the basis of such individual's wages and self-employment income if any person, upon filing application therefor, would be entitled to an annuity under section 5 of the Railroad Retirement Act or a lump-sum payment under section 5 (f) (1) of such act with respect to the death of such individual.

§ 404.1407 *When railroad retirement benefits do not bar payment for social security benefits.* The provisions of § 404.1406 shall not operate if:

(a) The survivor is, or upon filing application, would be entitled to a monthly benefit with respect to the death of an insured individual for a month prior to January 1947, if such monthly benefit is greater in amount than the survivor annuity payable to such survivor after 1946 under the Railroad Retirement Act; or

(b) The residual lump-sum payment provided by section 5 (f) (2) of the Railroad Retirement Act with respect to the death of an insured individual is paid by the Railroad Retirement Board in accordance with the provisions of said section 5 (f) (2) and pursuant to an irrevocable election filed with board by the widow or parent of such individual to waive all annuities to which such widow or parent might otherwise become entitled, but only to the extent that widow's or parent's benefits may be payable under the regulation of this part to such widow or parent, as the case may be, solely on the basis of the wages and self-employment income of such deceased individual and without regard to any compensation which may be treated as wages pursuant to § 404.1408.

§ 404.1408 *Compensation to be treated as wages.* Where, pursuant to the preceding provisions of this subpart, services rendered by an individual in the railroad industry are considered to be in "employment" as defined in section 210 of the act, any compensation received by such individual for such service shall be treated as wages, provided the provisions of § 404.1406 do not operate to bar the payment of benefits under title II of the act; except that where war-service wages for any month are credited to the wage record of the World War II veteran (see § 404.1321 (a)) under § 404.1305 or where wages are credited to a veteran as defined in § 404.1359, under § 404.1351, compensation is attributable as having been paid during such month on account of military service creditable under section 4 of the Railroad Retirement Act. As used in this part, the term "compensation" shall have the meaning assigned to it by section 1 (h) of the Railroad Retirement Act.

§ 404.1409 *Purposes of using compensation.* Compensation which is treated as wages under § 404.1408 shall be used, together with wages (see Subpart K of this part) and self-employment income (see Subpart K of this part), for purposes of determining an individual's insured status (see Subpart B of this part), computing such individual's primary insurance amount (see Subpart C of this part), and applying the deduction provisions of section 203 of the act (see Subpart E of this part).

§ 404.1410 *Presumption on basis of certified compensation record.* Where the Railroad Retirement Board certifies to the Administration a report of record of compensation, which is treated as wages under § 404.1408, and periods of service which does not identify the months or quarters in which such compensation was paid, the sum of the compensation quarters of coverage (see § 404.1412) will be presumed, in the absence of evidence to the contrary, to represent an equivalent number of quarters of coverage (see §§ 404.103 and 404.104). No more than four quarters of coverage shall be credited to an individual in a single calendar year. However, if such individual also had self-employment income for a taxable year and the sum of such income and wages (including compensation which is treated as wages under § 404.1408) paid to him during such taxable year equals $3,600, each quarter any part of which falls in such year shall be a quarter of coverage.

§ 404.1411 *Allocation of compensation to months of service.* If by means of the presumption under § 404.1410:

(a) An individual does not have an insured status (see Subpart B of this part) on the basis of the quarters of coverage with which he is credited; or

(b) A deceased individual's average monthly wage (see § 404.205) may be affected because he attained age 22 after 1936, the Administration will request the Railroad Retirement Board to furnish a report of the months in which such individual rendered services for compensation which is treated as wages under § 404.1408 if it appears that identification of such months may result in an insured status or if it will affect such average monthly wage.

§ 404.1412 *Compensation quarter of coverage.* As used in this subpart, a compensation quarter of coverage is any quarter of coverage computed with respect to compensation paid to an individual for railroad employment after 1936 in accordance with the provisions for determining such quarters of coverage as contained in section 5 ( ) (4) of the Railroad Retirement Act.

(Sec. 205, 49 Stat. 624, as amended, sec. 1102, 49 Stat. 647, sec. 218, 64 Stat. 514; 42 U. S. C. 405, 418, 1302)

[SEAL] JOHN W. TRAMBURG,
*Commissioner of Social Security.*

Approved: December 18, 1953.

OVETA CULP HOBBY,
*Secretary.*

# TITLE 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

BACITRACIN-NEOMYCIN-POLYMYXIN TABLETS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 146) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.421 *Bacitracin-neomycin-polymyxin tablets*—(a) *Potency*—(1) *Bacitracin content.* Proceed as directed in § 141.403 (a). Its content of bacitracin is satisfactory if it contains not less than 85 percent of the number of units per tablet that it is represented to contain.

(2) *Neomycin content.* Proceed as directed in § 141.410 (a) (1) (ii). Its content of neomycin is satisfactory if it contains not less than 85 percent of the number of milligrams of activity per tablet that it is represented to contain.

(3) *Polymyxin content.* Proceed as directed in § 141.112 (a) (1) (ii), except calculate from the quantity of neomycin found (using the method prescribed in subparagraph (2) of this paragraph) the quantity of neomycin that would be present when the sample is diluted to contain 100 units of polymyxin (labeled potency) per milliliter. Prepare the polymyxin standard curve by adding this calculated quantity of neomycin to each concentration of polymyxin used for the curve. Use this standard curve to calculate the polymyxin content of the sample. Its content of polymyxin is satisfactory if it contains not less than 85 percent of the number of units per tablet that it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.5 (a).

2. Part 146 is amended by adding the following new section:

§ 146.421 *Bacitracin-neomycin-polymyxin tablets.* (a) Bacitracin-neomycin-polymyxin tablets conform to all requirements and are subject to all procedures prescribed by § 146.412 for bacitracin-polymyxin tablets, except that:

(1) Each tablet contains not less than 6 milligrams of neomycin. The neomycin used conforms to the requirements prescribed therefor by § 146.410 (a) (2).

(2) In lieu of the labeling prescribed for bacitracin-polymyxin tablets by

§ 146.412 (a) (3), each package shall bear on the outside wrapper or container and the immediate container the number of units of bacitracin, the number of units of polymyxin B, and the number of milligrams of neomycin in each tablet of the batch.

(3) In addition to complying with the requirements of § 146.412 (a) (4), a person who requests certification of a batch shall submit with his request a statement showing the batch mark and (unless it was previously submitted) the results and the date of the latest tests and assays of the neomycin used in making the batch for potency, toxicity, moisture, and pH. He shall also submit in connection with his request a sample consisting of 5 packages containing approximately equal portions of not less than 0.5 gram each of the neomycin used in making such batch.

(b) The fee for the services rendered with respect to each immediate container in the sample of neomycin submitted in accordance with the requirements prescribed therefor by this section shall be $4.00.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: December 18, 1953.

[SEAL] OVETA CULP HOBBY, *Secretary.*

## TITLE 22—FOREIGN RELATIONS

### Chapter V—United States Information Agency

PART 502—CERTAIN MEASURES TO FACILITATE THE CIRCULATION ABROAD OF AMERICAN-MADE VISUAL AND AUDITORY EDUCATIONAL MATERIALS

Sec.

502.1 Background and purpose of the Attestation program.
502.2 Functions of the Committee on Attestation.
502.3 Criteria.
502.4 Interpretation of criteria.
502.5 Classes of materials.
502.6 Consultation.
502.7 Application of criteria.
502.8 Method of requesting certification.
502.9 Certification not required for exportation of materials from the United States or for importation into other countries.
502.10 Certain governments recognizing certificates or finding them helpful in establishing educational character of imported materials.
502.11 Simplified procedure for duty-free return to a United States exporter of films and filmstrips made in the United States and exported temporarily on a rental or loan basis.
502.12 Motion picture and filmstrip catalogue.
502.13 Explanation of UNESCO film coupon.
502.14 Inquiries.

AUTHORITY: §§ 502.1 to 502.14 issued under R. S. 161; 5 U. S. C. 22.

§ 502.1 *Background and function of the Attestation program.* (a) On August 1, 1953, the Attestation program was transferred from the Department of State to the U. S. Information Agency, in accordance with Reorganization Plan No. 8.

(b) This program facilitates the circulation abroad of eligible American visual and auditory materials by certification of their international educational character. Certificates issued in consequence of this program are recognized by certain other governments, which accord duty free entry and other privileges to materials covered by them.

(c) Following a policy established in 1938 of assisting in every appropriate way the circulation abroad of American visual and auditory materials, the Department of State in 1942 undertook to certify eligible materials, which had previously suffered a disadvantage abroad for lack of a certification program, and in 1946 established an interdepartmental Committee on Attestation to review material submitted and to recommend eligible materials for certification.

(d) Set forth in §§ 502.3 through 502.7 are the criteria employed by the Committee on Attestation in recommending to the U. S. Information Agency (hereinafter referred to as the Agency) whether materials submitted may appropriately be certified as of international educational character.

§ 502.2 *Functions of the Committee on Attestation.* The Committee on Attestation (hereinafter referred to as the Committee) exercises the following responsibilities in regard to facilitating the circulation abroad of American visual and auditory materials:

(a) The review of motion pictures, kinescopes, filmstrips, slides, wall charts, posters, maps, models, and sound recordings upon request of owners of the rights to reproduce such materials.

(b) The evaluation of such materials from the standpoint of their international application and educational purpose and effect.

(c) The formulation with respect to each subject of a position of the U. S. Information Agency consistent with accepted criteria of evaluation.

(d) The attestation of materials by the issuance of a certificate signed by the Attestation Officer.

§ 502.3 *Criteria.* The Agency acting through the Committee applies the criteria set forth in the Agreement for Facilitating the International Circulation of Visual and Auditory Materials of an Educational, Scientific and Cultural Character (adopted at the Third Session, General Conference of UNESCO, Beirut, 1948):

ARTICLE I. Visual and auditory materials shall be deemed to be of an educational, scientific or cultural character:

(a) When their primary purpose or effect is to instruct or inform through the development of a subject or aspect of a subject, or when their content is such as to maintain, increase or diffuse knowledge and augment international understanding and good will;

(b) When the materials are representative, authentic, and accurate; and

(c) When the technical quality is such that it does not interfere with the use made of the material.

§ 502.4 *Interpretation of criteria.* (a) The Agency does not certify materials the primary purpose or effect of which is to amuse or entertain.

(b) The Agency does not certify materials the primary purpose of which is to inform concerning current events (newsreels, newscasts, other forms of "spot news").

(c) The Agency does not certify materials which by special pleading attempt to influence opinion, conviction or policy (religious, economic, or political propaganda), to inculcate any dogma, to constitute a ritual or denominational service.

(d) The Agency does not certify materials the purpose or effect of which is to stimulate the use of a patented process or product, to advertise a particular organization or individual, or to raise funds. The Agency considers that an incidental appeal does not invalidate the educational character of material when such appeal is for service or help in noncompetitive, voluntary, cooperative participation in public services and does not involve contributions of money or marketable commodities.

(e) The Agency does not regard as augmenting international understanding or good will and cannot attest any material which may be perceived to lend itself to misinterpretation or misrepresentation of the United States or other countries, their peoples or institutions.

(f) The Agency does not knowingly certify any materials which have not in fact already been produced at the time of application.

§ 502.5 *Classes of material.* (a) The Committee may be called upon to review the following classes of visual and auditory materials.

(b) Films, filmstrips and microfilm in either negative form, exposed and developed; or positive form, printed and developed; and teletranscriptions and kinescopes.

(c) Sound recordings of all types and forms.

(d) Glass slides; models, static and moving; wall charts, maps and posters.

(e) Recorded music, although not specifically mentioned in the Agreement, may be considered for certification, the Agency recognizing that certain music recordings have as their primary purpose or effect "to instruct or inform" and do otherwise conform to the above requirements. In considering recorded music for which certification is requested, the Committee may be guided by evidence in the recordings or in collateral submitted material, such as teaching guides, etc., which support the educational or informational purpose or effect of the recordings.

§ 502.6 *Consultation.* (a) The Committee in appraising materials submitted will consider their purpose or effect in relation to their intended educational level. When advisable the Committee will seek professional advice from appropriate officers of government or of national organizations with professional competence in the fields concerned.

(b) In determining matters of policy which the Committee believes require examination by a committee or broader composition, or require consultation with a number of national organizations, these matters may be referred to the Interdepartmental Committee on Visual and Auditory Materials for Distribution Abroad, or for advice to the Joint Advisory Review Committee.

(c) The Committee may in its discretion request any officer of the Federal Government to participate in its decisions with respect to submitted material, provided that the material under consideration is within the area of special competence or responsibility of that officer.

§ 502.7 *Application of criteria.* (a) The Committee has as its general approach to attestation the facilitation, in so far as appropriate, of circulation abroad of American-owned visual and auditory materials. However, the Committee will exercise its judgment in determining whether the content of the material is of sufficient substance to maintain, increase or diffuse knowledge of the subject it covers, at the intended educational level.

(b) The Committee will avoid the certification of classes of materials which it believes this country would be unwilling to admit free of duty under the terms of the Agreement for Facilitating the International Circulation of Visual and Auditory Materials of an Educational, Scientific and Cultural Character.

§ 502.8 *Method of requesting certification.* Application for certification of the international educational character of visual and auditory material must be made to the Agency by the American owner of the right to reproduce it. Application is made on Forms IAP 1, IAP 2, IAP 3, IAP 4, and DSP 47. A form should be executed for each subject or series it is desired to have considered for certification. As a part of the application, the following should also be submitted.

(a) *Notarized document.* Notarized document in evidence of applicant's ownership of the right to reproduce the material. One such affidavit may cover all the titles for which application is made at a given time, provided they are mentioned in it.

(b) *Description of content of productions.* Action will be facilitated if narrations, captions, advertising leaflets, catalogues, etc., are furnished.

(c) *Examples of production.* Examples of productions if the Agency has not had the opportunity of seeing the material concerned. Screening print of film, representative selections of slides, filmstrips, recordings, maps, wall charts or posters, should be transmitted carriage prepaid. Such material will be returned promptly.

§ 502.9 *Certification not required for exportation of materials from the United States or for importation into other countries.* This Agency's attestation of the international educational character of material is not required for its distribution abroad. Lack of a certificate does not prevent any producer from exporting uncertified material as he may see fit. Its certificates may, however, procure for attested materials exemptions from customs duties and some other taxes, when filed in connection with their entry into certain foreign countries, Canada among them.

§ 502.10 *Certain governments recognizing certificates or finding them helpful in establishing the educational character of imported materials.* (a) The following are among the governments reported as recognizing the certificates outright or finding them helpful in making local determination of the educational character of materials covered:

Australia, Bermuda, Canada, Ceylon, Columbia, Costa Rica, Dominican Republic, Dutch Guiana, Formosa, Gibraltar, Gold Coast, Guatemala, Israel, Liberia, Malta, New Zealand, Nicaragua, Nigeria, Panama, South Rhodesia, Tunisia, Turkey, Uruguay.

(b) Certain countries also have signed and ratified the Agreement for Facilitating the International Circulation of Visual and Auditory Materials of an Educational, Scientific and Cultural Character which provides for the recognition of certified visual and auditory materials.

(1) This agreement has been ratified by the following countries:

Cambodia, Canada, El Salvador, Iraq, Norway, Pakistan, Philippines, Syria, Yugoslavia.

(2) In addition the following countries have signed but have not yet ratified:

Afghanistan, Brazil, Denmark, Dominican Republic, Ecuador, Greece, Haiti, Iran, Lebanon, Netherlands, United States of America, Uruguay.

(3) One more ratification is required to bring the Agreement into effect among those countries that have ratified.

§ 502.11 *Simplified procedure for the duty free return to a United States Exporter of films and filmstrips made in the United States and exported temporarily on a rental or loan basis.* Bureau of Customs Circular Letter No. 2859 dated September 8, 1953, outlines a simplified procedure for the return of films made in the United States and not exceeding $250 in value, when returned to the sender in this country through postal channels from loan or rental abroad, and the means by which they may be permitted duty-free entry. The procedure permits the customs clearance of such shipments merely upon the enclosure therewith of customs Form 3311, signed by the United States exporter (who must also be the importer) and including the following statement under "Remarks": "It is requested that all other forms required by section 10.1 of the regulations be waived. These films contain no obscene or immoral matter, nor any matter advocating or urging treason or insurrection against the United States or forcible resistance to any law of the United States, nor any threat to take the life of or inflict bodily harm upon any person in the United States."

§ 502.12 *Motion picture and filmstrip catalogue.* For circulation abroad, the Agency compiles and publishes a catalogue entitled *United States Educational, Scientific and Cultural Motion Pictures and Filmstrips Suitable and Available for Use Abroad.* It is the purpose of this catalogue to facilitate the circulation abroad of available American-made films and filmstrips approved by an advisory board of American visual education specialists, by listing and describing the materials and indicating from whom and on what terms prints may be obtained.

(a) *Classes of films and filmstrips to be considered for listing.* Educational, scientific and cultural motion pictures and filmstrips, approved by the Board of Advisers, which the owners of the reproduction rights are willing to make available by sale (on receipt of acceptable purchase order from abroad), or on loan or by gift to legitimately interested reputable organizations abroad. Films and filmstrips depicting life in other countries are customarily not included.

(b) *Submittal of information.* Catalogues or lists, or other printed matter, descriptive of available materials should be submitted to the Agency by the owner of reproduction rights. After study of this information and consultation with advisers, forms will be sent to the owners of reproduction rights, requesting any additional data needed concerning films and filmstrips considered to be within the categories of materials which may properly be included in the catalogue. From the information obtained, draft entries will be prepared for approval by the aforesaid owners.

(c) *Distribution.* Copies of the catalogue are distributed abroad through United States Information Centers and are presented to outstanding educational, scientific and cultural institutions abroad. They are not intended for domestic circulation (within the United States).

(d) *Orders and inquiries from abroad.* All inquiries about materials listed in the catalogue should be addressed to the owners of the reproduction rights whose names, addresses and conditions of sale, loan or gift of materials are given in the catalogue. No correspondence or orders are transmitted through the Agency.

§ 502.13 *Explanation of the UNESCO film coupon.* Producers and distributors of educational films encountering currency difficulties in arranging for sales of films, filmstrips and projection equipment abroad, may find assistance in overcoming these difficulties through the UNESCO Coupon. The coupon permits institutions and individuals in "soft currency" countries to buy films and filmstrips and related materials for educational, scientific and cultural purposes from suppliers in "hard currency" countries. In the case of the United States, producers may redeem coupons received in payment for their materials at the UNESCO Liaison Office, United Nations Building, New York City, or the UNESCO Coupon Office, 19 Avenue Kleber, Paris. UNESCO redeems the full amount of the coupons in U. S. dollars, less five percent for handling charges with the approval of the dis-

tributors. Folders describing the UNESCO Coupon are available.

§ 502.14 *Inquiries.* Requests for application forms and further information about facilitating the circulation abroad of American visual and auditory materials by the means outlined above, may be obtained from:

U. S. Information Agency, attention: (COA-REV), Washington 25, D. C.

Issued: December 17, 1953.

ABBOTT WASHBURN,
*Acting Director.*

## TITLE 24—HOUSING AND HOUSING CREDIT

### Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter B—Property Improvement Loans

PART 201—CLASS 1 AND CLASS 2 PROPERTY IMPROVEMENT LOANS

INSURANCE RESERVE

Section 201.12 (e) is hereby amended to read as follows:

(e) *Adjustment of 1950 reserve.* The amount of the 1950 insurance reserve to the credit of each insured shall be adjusted on January 1, 1953, and on the first day of each semiannual period thereafter by deducting therefrom an amount equivalent to one-fifth of the amount of such insurance reserve on the records of the Commissioner as of the date of such adjustment: *Provided*, That no such adjustment shall reduce the insurance reserve of any insured to an amount less than $5,000.00: *And provided further*, That no such adjustment shall be made in the insurance reserve of any financial institution until the first day of January or the first day of July next following the expiration of a period of 30 months after the issuance of a Contract of Insurance to such institution by the Commissioner, and no such adjustment shall be made in the insurance reserve of any financial institution after the termination of the Contract of Insurance issued to such institution by the Commissioner, or after the termination of the Commissioner's authority to insure against losses pursuant to section 2 of Title I of the National Housing Act.

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. and Sup., 1703)

Issued at Washington, D. C., December 18, 1953.

## TITLE 32—NATIONAL DEFENSE

### Chapter V—Department of the Army

Subchapter E—Organized Reserves

PART 562—RESERVE OFFICERS' TRAINING CORPS

TRANSPORTATION

In § 562.66, paragraph (a) (2) (i) is amended to read as follows:

§ 562.66 *Transportation*—(a) *Transportation authority.* * * *

(2) In exceptional circumstances, continental army and oversea commanders may:

(i) Authorize a student to proceed to the camp designated for his unit from his legal residence when the distance from such residence to the camp is greater than from the institution to the camp. This authorization will be given only to students whose institutions close so early in the year as to make it impracticable for them to proceed direct from the institution to the camp, and will apply only when both school and legal residence are located within continental limits of United States; territorial limits of Hawaii; territorial limits of Alaska; or territorial limits of Puerto Rico. When army or oversea commanders deem it necessary to order ROTC students to camp within the United States when both the legal residence and institution attended are situated in Puerto Rico, Alaska, or Hawaii, transocean travel by Government transportation (air or water) on a space required basis will be secured for students. If such transportation is not available, the army or oversea commanders will request Department of the Army approval for travel by commercial carrier and provision for any additional funds required. If orders are issued while he is at the institution, he shall be returned to the institution.

### Chapter XI—Division of Liquidation, Department of Commerce

[Supp. Order 189, Amdt. 7]

PART 1305—ADMINISTRATION

PRESERVATION OF RECORDS

DECEMBER 17, 1953.

Pursuant to the Emergency Price Control Act of 1942, as amended, Executive Orders Nos. 9809, 9841, and 9842, and Department of Commerce Order 75, as amended, it is hereby ordered that section 1 of Supplementary Order 189 issued by the Administrator, Office of Price Administration, on October 23, 1946 (11 F. R. 12568), as amended on November 12, 1946 (11 F. R. 13442), November 6, 1947 (12 F. R. 7327), February 20, 1948 (13 F. R. 1262), June 30, 1949 (14 F. R. 3707), December 27, 1951 (17 F. R. 18), and December 11, 1952 (18 F. R. 33), be, and it is hereby, further amended by changing the date January 1, 1954, wherever it occurs in subsection (a) of the said section 1, to January 1, 1955.

(56 Stat. 23, as amended; 50 U. S. C. App. 901 et seq.; E. O. 9809, Dec. 12, 1946, 3 CFR, 1946 Supp.; E. O. 9841, April 23, 1947, 3 CFR, 1947 Supp.; E. O. 9842, April 23, 1947, 3 CFR, 1947 Supp.)

This amendment shall become effective January 1, 1954.

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter II—Corps of Engineers, Department of the Army

PART 204—DANGER ZONE REGULATIONS

ATLANTIC OCEAN AND CONNECTING WATERS IN VICINITY OF MYRTLE ISLAND, VIRGINIA

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), and Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.48 establishing and governing the use and navigation of a danger zone in the waters of the Atlantic Ocean, South Bay and connecting waters, is hereby modified to include an additional water area, as follows:

§ 204.48 *Atlantic Ocean and connecting waters in vicinity of Myrtle Island, Va.; Air Force practice bombing, rocket firing, and gunnery range*—(a) *The danger zone.* The waters of the Atlantic Ocean and connecting waters within an area described as follows: Beginning at latitude 37°12'18", longitude 75°46'00"; thence southwesterly to latitude 37°08'21", longitude 75°50'00"; thence northwesterly along the arc of a circle having a radius of three nautical miles and centered at latitude 37°11'16", longitude 75°49'29", to latitude 37°10'14", longitude 75°52'57"; thence northeasterly to latitude 37°14'30", longitude 75°48'32"; thence southeasterly to 37°13'38", longitude 75°46'18"; and thence southeasterly to the point of beginning.

(b) *The regulations.* (1) No vessel shall enter or remain in the danger zone except during intervals specified and publicized from time to time in local newspapers or by radio announcement.

(2) This section shall be enforced by the Commanding General, Tactical Air Command, Langley Air Force Base, Virginia, and such agencies as he may designate.

## TITLE 44—PUBLIC PROPERTY AND WORKS

### Chapter I—General Services Administration

Subchapter C—Real Property Management

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART A—GENERAL REGULATIONS

EDITORIAL NOTE: The regulations in §§ 100.1-100.12 (18 F. R. 8621) are assigned to Subpart A—General Regulations of this part.

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

PENTAGON AREA TRAFFIC AND PARKING REGULATIONS

Sec.
100.21 Vehicular parking.
100.22 Pedestrian traffic.
100.23 Penalties.

AUTHORITY: §§ 100.21 to 100.23 issued under sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a.

§ 100.21 *Vehicular parking.* The regulations in this section for the Pentagon area are applicable 7:30 a. m. to 6:00 p. m. on regular work days, Monday through Saturday, 7:30 a. m. to 1:00 p. m. on holidays, except that in addition, directions by police officers on duty will apply at all times.

(a) No person shall operate or park a motor vehicle in the parking areas of or on the roads adjacent to the Pentagon contrary to these regulations or to the directions of police officers on duty or to the directions of posted signs.

(b) Park only in assigned section or space. Parking permit must be conspicuously displayed inside front windshield. When and if assigned section is filled, park in unreserved parking section in the North Parking Area, and report the situation to your parking control office. Motorcycles, motor bicycles, motor scooters, and all similar type motor vehicles shall be parked in Lane 19 only and no parking permit will be required.

(c) Bona fide occupants of the Pentagon who have no parking assignment within the reserved section shall park in the unreserved section.

(d) Newly assigned personnel shall park in the unreserved section. Application for a permanent parking permit shall be presented to departmental parking control officer.

(e) Personnel assigned to the Pentagon on temporary duty shall park in the unreserved section.

(f) Vehicles shall be parked well inside the marked parking spaces. Parking in areas other than designated parking spaces and parking in parking lanes at tree wells or in such a manner as to block or partially block such lanes is prohibited at all times.

(g) No vehicle shall be parked or operated in bus lanes except as follows:

(1) Authorized transit busses in Lanes "A" and "B".

(2) Authorized official shuttle busses in Lane "C".

(3) Taxis in Lane "C".

(4) Commercial and official vehicles authorized to make delivery to concessionaires and post office while loading and unloading at specially designated platforms in Lane "C".

(h) No vehicle shall be parked in interior roads except as follows:

(1) Commercial vehicles, either official or private, while unloading and loading authorized supplies.

(2) Official cars transporting prisoners under guard.

(3) Other specially authorized vehicles.

(i) Visitors shall park only in visitors' space as follows:

(1) South Parking—Three-hour parking only.[1] Special spaces designated by posted signs.

(2) North Parking—Unreserved section.

(3) Mall and River Terraces—Designated parking spaces. At the Mall and River Terraces a number of parking spaces are reserved for the exclusive use of Congressional, diplomatic, official, and press representatives. Spaces are also available for certain other visitors not to exceed a two-hour limit,' and parking shall be requested of the guard on duty.

§ 100.22 *Pedestrian traffic.* Pedestrians shall not walk in roadways in and immediately outside the bus terminals, walk on the curb alongside stairways in bus lanes, or walk in other areas prohibited by the direction of posted signs.

§ 100.23 *Penalties.* Whoever shall be found guilty of violating these regulations shall be fined not more than $50.00 or imprisoned for not more than thirty days, or both.

Approved: December 1, 1953.

WILLIAM A. MILLER,
*Regional Director.*

[F. R. Doc. 53-10711; Filed, Dec. 23, 1953; 8:52 a. m.]

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

SUITLAND RESERVATION TRAFFIC AND PARKING REGULATIONS

Sec.
100.25 Vehicular parking.
100.26 Pedestrian traffic.
100.27 Penalties.

AUTHORITY: §§ 100.25 to 100.27 issued under sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a.

§ 100.25 *Vehicular parking.* The regulations in this section for the Suitland Reservation are applicable 7:30 a. m. to 5:30 p. m., on regular work days, Monday through Friday, except that in addition, directions by police officers on duty will apply at all times:

(a) No person shall operate or park a motor vehicle on the grounds or roadways of the Suitland Reservation contrary to these regulations or to the directions of police officers on duty or to the directions of posted signs.

(b) Park only in assigned section or space. Parking permits must be conspicuously displayed inside front windshield. When and if assigned space is filled, park in unreserved area and report the situation to your parking control officer. Motorcycles, motor bicycles, motor scooters, and all similar type motor vehicles shall be parked in Area "A" and no parking permits will be required.

(c) Newly assigned personnel shall park in Visitor's Area. Application for a permanent parking permit shall be presented to parking control officers.

(d) Vehicles shall be parked well inside the marked parking spaces.

(e) Visitors shall park only in Visitor's Area. Only non-occupants on official business to the Suitland Reservation are recognized as bona fide visitors.

(f) Vehicles entering the area for the purpose of loading or unloading passengers, will do so only at places designated as loading places or at the direction of police officers on duty.

[1] Only non-occupants of the Pentagon are recognized as bona fide visitors.

(g) The operation of vehicles will be permitted only on recognized roadways or parking areas.

(h) The riding of horses will be permitted only on bridle paths.

§ 100.26 *Pedestrian traffic.* Pedestrians shall not walk in areas prohibited by direction of posted signs or contrary to directions of police officers on duty.

§ 100.27 *Penalties.* Whoever shall be found guilty of violating these regulations shall be fined not more than $50.00 or imprisoned for not more than thirty days, or both.

Approved: December 1, 1953.

WILLIAM A. MILLER,
*Regional Director.*

PART 100—PUBLIC BUILDINGS AND GROUND

SUBPART B—SUPPLEMENTAL REGULATIONS

BUREAU OF YARDS AND DOCKS ANNEX AREA TRAFFIC AND PARKING REGULATIONS

Sec.
100.31 Vehicular parking.
100.32 Pedestrian traffic.
100.33 Penalties.

AUTHORITY: §§ 100.31 to 100.33 issued under sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a.

§ 100.31 *Vehicular parking.* The regulations in this section for the Bureau of Yards and Docks Annex Area are applicable 7:30 a. m. to 5:00 p. m., on regular work days, Monday through Friday, except that in addition, directions by police officers on duty will apply at all times.

(a) No person shall operate or park a motor vehicle in the parking areas of or on the roads adjacent to the Bureau of Yards and Docks Annex contrary to these regulations or to the directions of police officers on duty or to the directions of posted signs.

(b) Park only in assigned section or space. Parking permits must be conspicuously displayed inside the front windshield. When and if assigned space is filled, park in Area "C" and report the situation to your parking supervisors. Motorcycles, motor bicycles, motor scooters, and all similar type motor vehicles shall be parked in Visitor's Area or "C" Area and no parking permits will be required.

(c) Newly assigned and temporarily employed personnel shall park in "C" Area. Application for a permanent parking permit shall be presented to parking supervisor.

(d) In Area "A", Area "C", and Visitor's Area park well inside the marked parking spaces.

(e) Visitors shall park only in Visitor's Area. Only non-occupants on official business at the Bureau of Yards and Docks Annex, are recognized as bona fide visitors.

(f) Taxis shall park in the established taxi stands (limited to three vehicles) located on the access road in front of the building. Parking of all other vehicles is prohibited within these three spaces.

§ 100.32 *Pedestrian traffic.* Pedestrians shall not walk in areas prohibited by direction of posted signs or contrary to directions of police officers on duty.

§ 100.33 *Penalties.* Whoever shall be found guilty of violating these regulations shall be fined not more than $50.00 or imprisoned for not more than thirty days, or both.

Approved: December 1, 1953.

WILLIAM A. MILLER,
*Regional Director.*

PART 100—BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

USE OF DEPARTMENTAL AUDITORIUM AND ADJACENT CONFERENCE ROOMS

§ 100.35 *Use of Departmental Auditorium and adjacent conference rooms.* This section governs the use of the Departmental Auditorium and adjacent conference rooms, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C.

(a) The Departmental Auditorium and Conference Rooms A, B, and C adjacent thereto shall be available for assignment to:

(1) Agencies of the Federal Government and the government of the District of Columbia, for official use.

(2) Officially recognized agencies, clubs, or educational units of the Federal Government or the government of the District of Columbia.

The foregoing shall not be construed to include sponsored meetings, meetings of a political, sectarian, fraternal, or similar nature, or meetings held for the purpose of promotion of commercial enterprises or commodities.

(b) Application for the use of the Auditorium or Conference Rooms should be submitted at least one week in advance. It should be addressed as follows and include the information outlined below:

General Services Administration, Region 3, Attention: Triangle Area Manager, Room 1408, New Post Office Building, Twelfth Street and Pennsylvania Avenue NW., Washington 25, D. C.

a. Name of agency in whose behalf the application is submitted.

b. Date of requested assignment, and hours proposed for its commencement and termination.

c. Nature of the contemplated program.

d. Approximate number of persons expected to attend.

e. Whether motion pictures or lantern slides are to be exhibited, stating (1) size of film, 35 or 16 mm; (2) size of lantern slide.

(c) No program shall continue beyond midnight.

(d) If the projection of motion pictures or lantern slides is a part of the program, competent operators will be furnished under the supervision of the General Services Administration.

(e) Music racks, ushers, and attendants for checking wraps, if needed, must be furnished by and at the expense of the permittee.

(f) No admission fee shall be charged, no indirect assessment shall be made for admission, and no collection shall be taken. Commercial advertising or the sale of articles of any character will not be permitted.

(g) The serving of refreshments is prohibited.

(h) A sample of any literature or folders to be distributed or posted shall be forwarded for review when formal request is made for either the Auditorium or Conference Rooms.

(i) All persons attending meetings will be required to go directly to the Auditorium or Conference Rooms and to leave by the most direct exit. They shall be provided with tickets or other identification, except when the general public is invited. No one will be admitted to other parts of the building unless in the possession of a properly signed pass.

(j) All persons attending meetings will be subject to the "Rules and Regulations Governing Public Buildings and Grounds," promulgated by the Administrator of General Services.

(k) Smoking is prohibited within the Auditorium.

(Sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a)

Approved: December 1, 1953.

WILLIAM A. MILLER,
*Regional Director.*

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

#### Subchapter A—General Rules and Regulations

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

RAILWAY LESSOR COMPANY ANNUAL REPORT FORM E

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 14th day of December A. D. 1953.

The Matter of Annual Reports from Lessors to Steam Railways being under consideration, and it appearing that the changes in existing regulations to be effectuated by this order are only minor changes with respect to the data to be furnished, and that public rule-making procedures are unnecessary;

*It is ordered*, That the order of December 10, 1952, In the Matter of Annual Reports from Lessors to Steam Railway Companies (49 CFR 120.14) be, and it is hereby modified with respect to annual reports for the year ended December 31, 1953, and subsequent years, as follows:

§ 120.14 *Form prescribed for lessors to steam railways.* All lessors to steam railway companies, subject to the provisions of section 20, Part I of the Interstate Commerce Act, shall file under oath an annual report for the year ended December 31, 1953, and for each succeeding year until further order, in accordance with Annual Report Form E[1] (Railway Lessor Companies) which is hereby approved and made a part of this section. The annual report shall be filed, in duplicate, in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D. C., on or before March 31 of the year following the one to which it relates.

(Sec. 12, 24 Stat. 383, as amended, sec. 201, 54 Stat. 933; 49 U. S. C. 12, 904. Interprets or applies sec. 20, 24 Stat. 386, as amended, 54 Stat. 944; 49 U. S. C. 20, 913)

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

[1] Filed as part of the original document.

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Bureau of Entomology and Plant Quarantine

[7 CFR Part 301]

PINK BOLLWORM

PROPOSED EXTENSION OF REGULATED AREA TO ARKANSAS

Notice is hereby given in accordance with section 8 of the Plant Quarantine Act of August 20, 1912, as amended (37 Stat. 318, as amended; 7 U. S. C. 161), that the Secretary of Agriculture has information that the pink bollworm (Pectinophora gossypiella Saund.), a dangerous insect not heretofore widely prevalent or distributed within or throughout the United States, but which previously has been found to exist in certain parts of Arizona, Louisiana, New Mexico, Oklahoma, and Texas, has recently been discovered in certain parts of the State of Arkansas.

It is therefore proposed under the authority of said section 8 of the Plant Quarantine Act to amend the Pink Bollworm Quarantine (7 CFR 301.52; 18 F. R. 6348) to quarantine the State of Arkansas because of pink bollworm and to amend the regulations supplemental to said quarantine (7 CFR and Supp. 301.52-1 et seq., as amended, 18 F. R. 6348 and 7339) to designate as regulated areas the Arkansas counties of Hempstead and Miller and possibly the counties of Columbia, Howard, Lafayette, Little River, Nevada, and Sevier. Prohibitions and restrictions as prescribed in said regulations would thus be made applicable to the movement from such regulated areas in the State of Arkansas into or through any other State, Territory, or District of the United States of the following:

(a) Okra and kenaf, including all parts of the plants; (b) cotton and wild cotton, including all parts of both cotton and wild cotton plants, seed cotton, cotton lint, linters, lint waste products derived from the milling of cottonseed, nonlint oil mill trash, gin waste, gin trash, and all other forms of unmanufactured cotton fiber, cottonseed, cottonseed hulls, cottonseed cake, and cottonseed meal; (c) bagging and other containers and wrappers for cotton and cotton products; (d) railway cars, boats, and other means of transportation which have been used in conveying regulated cotton or cotton products or which are fouled therewith; and (e) when contaminated with live pink bollworms or regulated cotton or cotton products, any commodities, including farm products, farm household goods, and farm equipment.

A public hearing will be held before a representative of the Agricultural Research Service in Room 304, Federal Building, Memphis, Tennessee, at 10 a. m., January 14, 1954, at which hearing any interested party may appear and be heard, either in person or by attorney, on the aforesaid proposals. Any interested person who desires to submit written data, views, or arguments on the proposals may do so by filing the same with the Administrator of the Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., on or before January 14, 1954, or with the presiding officer at the hearing.

Done at Washington, D. C., this 18th day of December 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10669; Filed, Dec. 23, 1953; 8:49 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 63]

[Docket No. 10816]

EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 63 of the Commission's rules and regulations governing extension of lines and discontinuance of service by carriers; Docket No. 10816.

1. American Communications Association, a union representing certain employees of The Western Union Telegraph Company, has filed a petition with the Commission alleging that the Commission's current rules fail to require any sort of effective notice to the public of applications filed by communications common carriers, pursuant to section 214 of the Communications Act of 1934, as amended, for authority to close branch telegraph offices. The union further alleges that a hearing is necessary in cases where objection is made to applications for authority to close or reduce the hours of service at telegraph offices in order to provide, in a form most useful to the Commission, the facts upon which the public convenience and interest best can be judged.

2. The petitioner requests, therefore, that the folowing changes be made in Part 63 of the Commission's rules and regulations:

1. Section 63.90 (a) to be amended to add thereto the following sentence: "When the office affected shall have window space fronting on a public street, said public notice shall be posted in such window."

2. Section 63.90 (b) to be amended to strike therefrom all matters appearing after the words "of the community affected."

3. Section 63.90 to be amended to add thereto a new paragraph after paragraph (b), to be numbered paragraph (c) and to read as follows:

(c) Immediately upon the filing of an application or informal request (except a request under § 63.67, § 63.68 or § 63.69) affecting a telegraph office or a branch office, the applicant shall mail or deliver by messenger a notification containing information similar to that specified in paragraph (a) of this section to each telegraph user served by messenger callbox circuit, or tieline terminating at the office or branch office affected, and to each person to whom a telegram is delivered by messenger from said office or branch office during the 20 days following the making of such application.

4. A new section to be added to Part 63 of the rules to be numbered § 63.100 and to provide as follows:

Whenever an application is filed to discontinue, reduce or impair telegraph service, pursuant to § 63.62 and wherever, within twenty days of the filing of the application, posting of the notice as required by § 63.90 (a), or mail or delivery of the notice as provided in § 63.90 (c) (whichever shall be later), objection to the proposed action by the carrier shall be received by the Commission, the Commission shall, on ten days notice to the carrier, to the objecting person or persons and to the Public Service Commission of the state in which any discontinuance, reduction or impairment is proposed, hold a hearing upon the said application, pursuant to § 1.802 et seq. of this chapter.

3. This notice of proposed rule making is being issued to afford interested parties an opportunity to present their views to the Commission concerning the proposal advanced by American Communications Association.

4. The proposed amendments are issued pursuant to the authority of sec-

tions 4 (i) and 214 of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendments should not be adopted should file with the Commission on or before February 1, 1954, a written statement or brief setting forth his comments. Persons desiring to support the amendments may also file comments by the same date. Comments or briefs in reply to the original comments or briefs may be filed within 10 days from the last day for filing said original briefs or comments. An original and 14 copies of each brief or written statement should be filed as required by § 1.764 of the Commission's rules and regulations.

Adopted: December 17, 1953.
Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Alaska Road Commission

[Public Order 4]

KENAI, ALASKA

ABANDONMENT OF ROAD AND DOCK

DECEMBER 15, 1953.

Pursuant to authority vested in me by the Secretary of the Interior by Department of the Interior Order No. 2448, dated July 19, 1948, approved by the President July 20, 1948, I find it to be in the public interest and hereby declare the abandonment of that certain temporary finger dock adjacent to real property owned by Kenai Packers, together with that area known as the tank farm site, also that certain road located in Lots 1, 2, and 6 in Section 5, T5N, R11W, Seward Meridian, beginning at its junction with the Kenai Spur of the Sterling Highway, thence traversing the lots mentioned above to its terminus near the aforementioned temporary finger dock.

A complete file on this matter is located in the Real Estate records of the Alaska Road Commission, Department of the Interior, Juneau, Alaska.

M. W. BALES,
*Chief, Administrative Division, Alaska Road Commission.*

### Bureau of Land Management

WYOMING

STOCK DRIVEWAY WITHDRAWAL NO 44, WYOMING NO. 8, ENLARGED

By virtue of the authority contained in section 10 of the act of December 29, 1916 (39 Stat. 865; 43 U. S. C. 300), as amended by the act of January 29, 1929 (45 Stat. 1144; 43 U. S. C. 300), and in section 7 of the act of June 28, 1934 (48 Stat. 1272), as amended by the act of June 26, 1936 (49 Stat. 1976; 43 U. S. C. 315f), and pursuant to the authority delegated by the Director, Bureau of Land Management, in section 2.22 (a) (1) of Order No. 427, dated August 16, 1950 (15 F. R. 5639), it is ordered as follows:

The following described public land in Wyoming is hereby classified as necessary and suitable for stock driveway and stock watering purposes and, excepting any mineral deposits therein, is withdrawn from all disposal under the public land laws and reserved, subject to valid existing rights, for the use of the general public as an addition to Stock Driveway Withdrawal No. 44, Wyoming No. 8:

SIXTH PRINCIPAL MERIDIAN

T. 52 N., R. 102 W.,
Sec. 1: Lots 3 and 4.

The area described aggregates 52.36 acres.

Any mineral deposits in the lands shall be subject to location and entry only in the manner prescribed by the Secretary of the Interior in accordance with the provisions of the aforesaid act of January 29, 1929, and existing regulations.

W. B. WALLACE,
*Regional Administrator.*

[F. R. Doc. 53-10647; Filed, Dec. 23, 1953; 8:45 a. m.]

WYOMING

NOTICE FOR FILING OBJECTIONS TO ENLARGEMENT OF STOCK DRIVEWAY WITHDRAWAL NO. 44, WYOMING NO. 8

For a period of 30 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

W. B. WALLACE,
*Regional Administrator.*

[Montana 02275]

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MONTANA PRINCIPAL MERIDIAN

T. 24 N., R. 36 E.,
Sec. 34: SE¼; 35: SW¼.
T. 24 N., R. 39 E.,
Sec. 8: S½NE¼; 9: SW¼NW¼.

The area described aggregates 440 acres.

This land is rolling to broken. The soils are clay in the rough breaks and sandy and gravelly on the ridges. The vegetative covering consists chiefly of threadleaf sedge, needle and thread grass, and bluestem wheatgrass. The lands are classified as primarily suited for grazing purposes.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as suitable or valuable for such type of application, or shall be classified upon consideration of application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to Montana Land Office, Billings, Montana.

W. B. WALLACE,
*Regional Administrator.*

[F. R. Doc. 53-10649; Filed, Dec. 23, 1953; 8:45 a. m.]

[Great Falls 087188]

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MONTANA PRINCIPAL MERIDIAN

T. 29 N., R. 33 E.
Sec. 15: W½NE¼, NW¼SE¼, NE¼SW¼.

The area described aggregates 160 acres.

The topography of the land is rolling to rough, and the vegetative covering consists principally of sagebrush, western wheatgrass and grama grass. The soil is heavy clay, which, together with the rough topography, precludes cultivation of the land. The land is primarily suitable for grazing purposes.

No applications for these lands may be allowed under the homestead, small tract, desert land, or other nonmineral public land laws unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. It is unlikely that the lands will be classified for homestead, small tract, or desert land use.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m., on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m., on the said 35th day, shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the land office at Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to Manager, Land Office, Billings, Montana.

W. B. WALLACE,
*Regional Administrator.*

[F. R. Doc. 53-10650; Filed, Dec. 23, 1953; 8:45 a. m.]

[Wyoming 06062]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

SIXTH PRINCIPAL MERIDIAN

T. 29 N., R. 68 W.,
Sec. 24: N½S½, SE¼SE¼.

The area described aggregates 200 acres.

These lands are rolling to rough in topography, and the soils are stony to sandy loam. The vegetative covering consists chiefly of grass with scattered pine and juniper.

This land was acquired by the Federal Government through exchange for use and development by the Bureau of Reclamation to benefit a Federal land program. This restoration is therefore not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, granting preference rights to veterans of World War II and others.

W. B. WALLACE,
*Regional Administrator.*

WYOMING

AIR NAVIGATION SITE WITHDRAWAL NO. 211, REDUCED

In accordance with the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 728; 49 U. S. C. 214), and pursuant to section 2.22 (a) of the Delegation Order No. 427 of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Departmental order of September 27, 1935, withdrawing certain lands in Wyoming for use by the Department of Commerce in the maintenance of air navigation facilities, is hereby revoked so far as it affects the following described lands, and the lands are hereby opened to disposition under the applicable public land laws, subject to valid existing rights:

SIXTH PRINCIPAL MERIDIAN

T. 21 N., R. 116 W.,
Sec. 10: Lots 1, 2, 3, 8, 9, 10, 11, NE¼NE¼.
Sec. 11: Lot 14.

The area described aggregates 226.58 acres.

The topography of the land is rough to mountainous, which precludes sustained crop production. The land is primarily suitable for grazing purposes. It will not be subject to occupancy or disposition under the homestead, desert land, small tract, or any other nonmineral public land laws until it has been classified.

This order shall become effective immediately as to administration of grazing on this land by the Bureau of Land Management, but shall not otherwise become effective to change the status of such land until 10:00 a. m. on the 35th day after the date hereof. At that time the said land shall become subject to valid existing rights, the provisions of existing withdrawals, the requirements of the applicable law, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the period during which and the conditions under which veterans and others may file applications for this land may be obtained on request from the Manager, Cheyenne Land and Survey Office, Bureau of Land Management, Cheyenne, Wyoming.

W. B. WALLACE,
*Regional Administrator.*

MONTANA

RESTORATION ORDER UNDER FEDERAL POWER ACT; POWER PROJECT NO. 653

Pursuant to determination DA–114, Montana, of the Federal Power Commission issued July 10, 1953, and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights (and the provisions of existing withdrawals) the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to the status of public domain under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and subject to the reservation and stipulation of the right of the United States, its permittees or licensees to use the land for power purposes, that no use shall be made by others which will in any way interfere or be inconsistent with the use of the land by the United States, its permittees, or licensees for power purposes; that any structures, machinery, or improvements placed thereon which shall be found to interfere with power development shall be removed or relocated as may be necessary to eliminate interference with such development, without expense to the United States, its permittees or licensees and that the United States, its permittees or licensees shall not be held liable for any damage to structures, machinery, or improvements placed thereon resulting from construction, operation, or maintenance of hydroelectric power facilities authorized by the United States.

MONTANA PRINCIPAL MERIDIAN

T. 2 S., R. 3 W.
Sec. 18: that portion of Lot 3 within the right-of-way location in Project No. 653.

The area described aggregates a fractional part of one (1) acre.

The land is rolling to steep in topography, and lies in the canyon of South Boulder River within the Deerlodge National Forest. None of the land is suitable for agricultural use.

No applications for these lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Applications filed involving any or all of these lands must describe the land in accordance with the most recent approved plat of survey.

The land described shall be subject to application by the State of Montana for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for a right of way for public highways or a source of materials for the construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended and the stipulations herein provided.

This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after date of the publication of this order in the FEDERAL REGISTER. At that time, the land shall be subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (50 Stat. 747; 43 U. S. C. 279–284) as amended.

W. B. WALLACE,

## DEPARTMENT OF LABOR

### Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

Angelica Uniform Co., Eminence, Mo., effective 12-9-53 to 6-8-54; 35 learners for expansion purposes (women's service apparel).

Anvil Brand, Inc., 146 South Hamilton Street, High Point, N. C., effective 12-13-53 to 12-12-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (dungarees).

Calloway Manufacturing Co., Murray, Ky., effective 12-10-53 to 12-9-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's work trousers and jackets).

Feldt Manufacturing Co., Inc., P. O. Box 51, Temple, Tex., effective 12-22-53 to 12-21-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (shirts).

Indiana Rayon Corp., Greenfield, Ind., effective 12-11-53 to 6-10-54; 15 learners for expansion purposes (knitted polo shirts) (replacement certificate).

Junior Form Lingerie Corp., 428 Morris Avenue, Boswell, Pa., effective 12-10-53 to 6-9-54, 10 learners for expansion purposes (slips).

Junior Form Lingerie Corp., Atkinson Way, Boswell, Pa., effective 12-10-53 to 6-9-54, 10 learners for expansion purposes (slips).

Kinston Shirt Co., Kinston, N. C., effective 12-11-53 to 12-10-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's shirts and pajamas).

Kleeson Co., Moundsville, W. Va., effective 12-18-53 to 12-17-54; 10 learners for normal labor turnover purposes (work pants and semidress pants).

National Pants Co., Macon, Miss., effective 12-9-53 to 12-8-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' pants).

Over The Top, Inc., Picayune, Miss., effective 12-20-53 to 12-19-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' shirts and dungarees).

Princess Peggy, Inc., Items Division, Belleville, Ill., effective 12-7-53 to 12-6-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton dresses).

Top Notch Manufacturing Co., Inc., 400 South Kansas Street, El Paso, Tex., effective 12-29-53 to 12-28-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (overalls).

The Warner Bros. Co., Moultrie, Ga., effective 12-10-53 to 5-9-54; 25 learners for expansion purposes (corsets and brassieres).

Cigar Industry Learner Regulations (29 CFR 522.201 to 522.211, as amended October 27, 1952, 17 F. R. 8633).

The S. Frieder & Sons Co., Mill Street and Gardner Avenue, Wilkes-Barre, Pa., effective 12-31-53 to 12-30-54; 10 percent of the total number of factory production workers engaged in each occupation listed below: cigar machine operating, 320 hours; machine stripping, 160 hours; packing cigars retailing for more than 6 cents, 320 hours; cigars retailing for 6 cents or less, 160 hours; each 65 cents an hour.

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended July 13, 1953, 18 F. R. 3292).

Ideal Glove Co., Inc., Maben, Miss., effective 12-15-53 to 6-14-54; 25 learners for expansion purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as amended November 19, 1951, 16 F. R. 10733).

Boyd Lee Hosiery Mills, Inc., 54B Seventh Street SE., Hickory, N. C., effective 12-11-53 to 12-10-54; 5 learners for normal labor turnover purposes.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Ellwood Knitting Mills, Inc., 911 Lawrence Avenue, Ellwood City, Pa., effective 12-11-53 to 12-10-54; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' knitted outerwear).

Indiana Rayon Corp., Greenfield, Ind., effective 12-11-53 to 6-10-54; 15 learners for expansion purposes (polo shirts).

Taylor Manufacturing Co., Greensburg Road, Campbellsville, Ky., effective 12-10-53 to 6-9-54; 50 learners for expansion purposes (men's and boys' knit underwear).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952, 17 F. R. 1500).

B. E. Cole Co., Beal and Lynn Streets, Norway, Maine, effective 12-15-53 to 12-14-54; 10 percent of the number of productive factory workers in the plant for normal labor turnover purposes.

Francine Shoe Co., Norway, Maine, effective 12-15-53 to 12-14-54; 10 percent of the number of productive factory workers in the plant for normal labor turnover purposes.

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Rosanne Optical Manufacturing Co., Inc., 430 Carpenter Road, Hato Rey, P. R., effective 12-8-53 to 3-22-54; 30 learners; all productive factory operations in the power molding, assembly, and polishing departments, 200 hours at 35 cents an hour (plastic optical frames) (supplemental certificate).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 14th day of December 1953.

MILTON BROOKE,
*Authorized Representative of the Administrator.*

CITRUS FRUIT INDUSTRY IN FLORIDA

NOTICE OF PUBLIC HEARING TO DETERMINE WHETHER INDUSTRY IS OF A SEASONAL NATURE

A petition has been filed by the Florida Council of Citrus Workers Unions, A. F. of L., for revocation of the seasonal industry determinations under section 7 (b) (3) of the Fair Labor Standards Act which apply to the handling, packing, storing, preparing in their raw or natural state, first processing or canning of perishable or seasonal fresh fruits or vegetables (5 F. R. 3167) and to the dehydration of citrus pulp and waste in the States of Florida and Texas (8 F. R. 3811), to the extent that they apply to citrus fruit operations in Florida.

Notice is hereby given pursuant to § 526.6 of the regulations, of a public hearing to be held at the Chamber of Commerce Auditorium, Tampa, Florida, on February 10, 1954, at 10:00 a. m. before an authorized representative of the Administrator, for the purpose of receiving evidence and hearing arguments on the following questions:

1. Whether the handling, packing, storing, preparing in their raw or natural state, first processing or canning of citrus fruit in the State of Florida, or any of these operations separately, constitute a branch or branches of an industry separable from the industry performing such operations on perishable or seasonal fresh fruits or vegetables generally.

2. Whether such citrus operations in Florida, if separable from operations on other fresh fruits and vegetables, constitute a branch or branches of an industry separable from citrus operations in other parts of the United States.

3. Whether operations performed on any particular kind of citrus fruit constitute a branch of an industry separable from operations performed on other kinds.

4. Whether the dehydrating of citrus pulp in the State of Florida is separable from the dehydrating operations in Texas.

5. Whether the handling, packing, storing, preparing in their raw or natural state, first processing or canning of citrus fruit, or any particular kind of citrus fruit, or the dehydration of citrus pulp and waste, or any one or more of these operations in the State of Florida if separable as an industry or as a branch or branches of an industry, are of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526, as amended.

Any interested person may appear at the hearing to offer evidence provided that not later than February 3, 1954, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, 14th Street and Constitution Avenue NW., Washington 25, D. C., a notice of intention to appear which should contain the following information:

1. The name and address of the person appearing.

2. If he is appearing in a representative capacity, the names and addresses of the persons or organizations which he is representing.

3. Whether he is appearing in support of or in opposition to the application for exemption.

Such notice may be mailed to the Administrator and shall be considered filed upon receipt. Written statements in lieu of personal appearance may be mailed to the Administrator at any time prior to the date of hearing or may be filed with the presiding officer at the hearing.

(52 Stat. 1060, as amended, 29 U. S. C., and Sup., 201 et seq.)

Signed at Washington, D. C., this 21st day of December 1953.

WM. R. MCCOMB,
*Administrator,*
*Wage and Hour Division.*

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

KOKUSAI LINE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to Section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. Section 814.

(1) Agreement No. 7843-1, between the carriers comprising the Kokusai Line joint service and Waterman Steamship Corporation, modifies transshipment agreement No. 7843 by removing Korea, Manchuria (Manchukuo), Siberia, China, and Kwantung from the geographical scope thereof. Agreement No. 7843 presently covers the trade from Japan, Korea, Formosa, Manchuria (Manchukuo), Siberia, China, Hong Kong, Siam, Indo-China, Hong Kong, Siam, Indo-China, Kwantung, and Philippine Islands to Puerto Rico, with transshipment at U. S. Pacific Coast ports.

(2) Agreement No. 7934 between the American President Lines, Ltd., and Alcoa Steamship Company, Inc., covers the transportation of cargo under through bills of lading from Japan, China (including Hong Kong), Federation of Malaya, Colony of Singapore, and Indonesia to Puerto Rico, with transshipment at New York.

(3) Agreement No. 7943 between Pope & Talbot, Inc., Pacific Argentine Brazil Line, Inc., and Pacific Far East Line, Inc., covers the transportation of cargo under through bills of lading from Puerto Rico to Japan, China, Hong Kong or Philippine Islands, with transshipment at Los Angeles or San Francisco.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: December 21, 1953.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
*Secretary.*

## DEPARTMENT OF DEFENSE

### Department of the Navy

[No. 15]

CERTAIN NAVAL VESSELS

NAVIGATIONAL LIGHT WAIVERS

Whereas, sections 360 and 143a, Title 33, United States Code, provide that any requirements as to number, position, range of visibility, or arc of visibility of navigation lights, required to be displayed by naval vessels under acts of Congress, as enumerated in said sections 360 and 143a, Title 33, United States Code, shall not apply to any vessels of the Navy where the Secretary of the Navy shall find and certify that, by reason of special construction, it is not possible with respect to such vessels or class of vessels to comply with statutory requirements as to the number, position, range of visibility, or arc of visibility of navigation lights; and

Whereas, a study of the arrangement and position of the navigation lights of certain naval vessels, as hereinafter listed in the attached tabulation which is made a part hereof, has been made in the Navy Department, and, as a result of such study, it has been determined that because of their construction, it is not possible for these naval vessels to comply with the requirements of the statutes enumerated in said sections 360 and 143a, Title 33, United States Code:

Now, therefore, I, Robert B. Anderson, Secretary of the Navy, as a result of the aforesaid study do hereby find and certify that these vessels are naval vessels of special construction and that on such vessels with respect to the position of those certain navigation lights listed, it is not possible to comply with the requirements of the statutes enumerated in sections 360 and 143a, Title 33, United States Code.

Further, I do find and certify that it is feasible to locate the aforesaid navigation lights where listed;

And, further, I direct that the aforesaid lights, if such lights are installed, shall be located in the manner described;

And, further, I certify that such locations constitute compliance as closely with the applicable statutes as I hereby find to be feasible.

I withdraw herewith any previous certifications issued by me prior to the effective date of this certificate.

I do specify that the effective date of this certificate is January 1, 1954.

Dated at Washington, D. C., this 19th day of December A. D. 1953.

R. B. ANDERSON
*Secretary of the Navy.*

## FEDERAL POWER COMMISSION

[Docket No. G-2294]

ALGONQUIN GAS TRANSMISSION CO.

NOTICE OF APPLICATION TO AMEND APPLICATION FOR CERTIFICATE

Take notice that Algonquin Gas Transmission Company (Applicant), a Delaware corporation, with its principal place of business in Boston, Massachusetts, filed, on December 7, 1953, an application to amend its application for a certificate of public convenience and necessity filed October 26, 1953, in Docket No. G-2294, pursuant to section 7 of the Natural Gas Act.

By the application to amend Applicant proposes to reduce the authorization for construction sought in the original application by one 4" main line tap at the metering station, Stony Point, New York, formerly proposed in the application of Rockland Light and Power Company, Docket No. G-2295. Said application in Docket No. G-2295 having been withdrawn, the 4" main line tap is unnecessary.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 7th day of January 1954. The application is on file with the Commission for public inspection.

[Docket No. G-2317]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

DECEMBER 17, 1953.

Take notice that El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at El Paso, Texas, filed on November 18, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of 6.5 miles of $2^3/_8$-inch O. D. pipeline, together with regulating and metering equipment to supply natural gas to Arizona Public Service Company for ultimate distribution in the communities of Wenden and Salome, Arizona.

The total cost of the facilities is estimated to be $56,672, which Applicant proposes to finance out of funds on hand.

The application recites that the third year requirements of the above named communities are: Wenden 5,677 Mcf annually and 45 Mcf on a peak day, and Salome 14,314 Mcf annually and 114 Mcf on a peak day.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 7th day of January 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10656; Filed, Dec. 23, 1953; 8:46 a. m.]

[Docket No. G-2326]

PENNSYLVANIA GAS CO.

NOTICE OF APPLICATION

DECEMBER 17, 1953.

Take notice that Pennsylvania Gas Company (Applicant), a Pennsylvania Corporation, with its principal place of business in the Borough of Warren, Pennsylvania, filed, on December 7, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of the following natural-gas facilities:

(1) 12.5 miles of 6-inch transmission line from a point on its existing transmission system in Venango Township, Pennsylvania, to a point approximately 4,000 feet west of the western borough limits of the Borough of North East in Erie County, Pennsylvania.

(2) Four new gas engine driven compressor units at 440 H. P. each to replace two 1,200 H. P. steam-driven units at Roystone Compressing Station, Sheffield Township, Warren County, Pennsylvania.

The transmission line is proposed to be used to augment present and supply future demands of Applicant's retail and

wholesale customers as well as to facilitate uninterrupted service during a period of highway construction necessitating removal and relay of Applicant's existing line. The new compressor units are proposed to replace two old steam-driven units outmoded due to age and design.

The estimated over-all cost of the proposed facilities is $545,000 which Applicant proposes to finance with funds available from current operations. Additional financing may be necessary to complete the total 1954 construction program, however, this financing is proposed to be secured through the issuance and sale of common capital stock, or the incurring of long-term funded debt, or both.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 7th day of January 1954.

The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[Docket No. G-2267]

TRANSCONTINENTAL GAS PIPE LINE CORP.

NOTICE OF APPLICATION

DECEMBER 18, 1953.

Take notice that on October 6, 1953, Transcontinental Gas Pipe Line Corporation (Applicant), a Delaware corporation, having its principal place of business at Houston, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 2,160 feet of 12-inch natural gas lateral pipeline extending from a point on its Marcus Hook lateral in Pennsylvania to the Delaware-Pennsylvania state line, together with a meter and regulator station at or near the point of interconnection of the proposed 12-inch lateral with Applicant's Marcus Hook lateral. The estimated total over-all capital cost of the facilities herein described is $58,764 which cost will be paid for by the Delaware Power & Light Company (Delaware). Thus no new financing will be necessary for the construction of the proposed facilities by Applicant.

The application recites that Applicant proposes to deliver directly to Delaware the volumes of natural gas requested by the latter as set forth on Schedule M of Exhibit No. 40 RE in Docket No. G-1277 (Reopened), or the volumes of natural gas ultimately allocated to Delaware by the Commission and acceptable to said company for direct deliveries from Applicant. Schedule M of Exhibit 40 RE, sets forth Delaware's estimates of its natural gas requirements in Mcf for the first 5 years of straight natural gas operations as follows:

| | Peak day | Annual |
|---|---|---|
| First year | 13,800 | 2,549,000 |
| Second year | 17,200 | 2,947,700 |
| Third year | 20,600 | 3,371,600 |
| Fourth year | 24,500 | 3,786,800 |
| Fifth year | 28,100 | 4,201,100 |

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of January 1954.

The application is on file with the Commission for public inspection.

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 8809, 10788, 10789, 10790]

ST. LOUIS TELECAST, INC. ET AL.

ORDER CONTINUING HEARING

In re applications of St. Louis Telecast, Inc., St. Louis, Missouri, Docket No. 8809, File No. BPCT-294; St. Louis Amusement Company, St. Louis, Missouri, Docket No. 10788, File No. BPCT-745; Columbia Broadcasting System, Inc., St. Louis, Missouri, Docket No. 10789, File No. BPCT-1565; 220 Television, Inc., St. Louis, Missouri, Docket No. 10790, File No. BPCT-1778; for construction permits for new television stations.

On December 3, 1953, St. Louis Telecast, Inc., filed a motion to continue the above proceedings for 30 days from the presently scheduled hearing date, December 31, 1953. On December 9, 1953, Columbia Broadcasting System, Inc., filed an opposition to that motion and on the same date 220 Television, Inc., filed a partial opposition. Oral argument was held on the motion on December 16, 1953, at the conclusion of which all participants agreed to a continuance to January 14, 1954.

*Accordingly, it is ordered,* This 17th day of December 1953 that hearing in the above-entitled proceeding is continued from December 31, 1953, to January 14, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[Docket Nos. 8945, 10805]

RICHMOND NEWSPAPERS, INC., AND RICHMOND TELEVISION CORP.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Richmond Newspapers, Incorporated, Richmond, Virginia, Docket No. 8945, File No. BPCT-321; Richmond Television Corporation, Richmond, Virginia, Docket No. 10805, File No. BPCT-1622; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 16th day of December 1953;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 12 in Richmond, Virginia; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

*It is ordered,* That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m., on the 15th day of January 1954 in Washington, D. C., to determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

*It is further ordered,* That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: December 18, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[Docket No. 10450]

FRANKLIN COUNTY BROADCASTING CO.

ORDER CONTINUING HEARING

In the matter of Leslie P. Ware tr/as Franklin County Broadcasting Company, Washington, Missouri, Docket No. 10450, File No. BP-8241; for construction permit for standard broadcast station.

It appearing that the hearing on the above-entitled application is now scheduled for December 22, 1953; that the application of Belleville Broadcasting Company, Inc., Belleville, Illinois (File No. BP-6480) is mutually exclusive with the above-entitled application of Leslie P. Ware; trading as Franklin County Broadcasting Company, Inc., Washington, Missouri; and that a "McFarland letter" to that effect was sent that applicant on December 2, 1953; that in view of the state of the mutually exclusive application of Belleville Broadcasting Company, Inc., it would be impracticable to proceed with the hearing conference on the above-entitled application prior to action by the Commission on the Belleville Broadcasting Company, Inc. application;

*Therefore, it is ordered,* This 16th day of December 1953, that the hearing on the above-entitled application be continued to 10 o'clock a. m., Thursday, January 21, 1954, in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

SCHEDULED TRANSMISSION AND RECEPTION OF MARINE WEATHER BULLETINS FOR GREAT LAKES REGION

CHANGE IN POLICY

DECEMBER 21, 1953.

The Federal Communications Commission, in coordination with the Department of Transport, Canadian Government, hereby announces a change in policy in reference to the use of certain radio channels for the scheduled transmission of Government weather information to ships navigating the Great Lakes, beginning with the 1954 season of navigation.

Standard operating procedure approved for several years and through the 1953 season of Great Lakes navigation has made use of not less than three separate radiotelephone shore-to-ship channels in the 2500-2600 kc frequency band for the scheduled transmission of Government weather information to all ships on the Great Lakes. Because of the generally expressed need for more radio channel time in this frequency band, as well as others, for commercial ship-shore telephone messages, it has become evident that all practicable measures capable of conserving the use of these radio frequencies should be taken. To this end, the International Joint Conference—1953—of the Dominion Marine Association and the Lake Carriers' Association unanimously adopted on January 22, 1953, a resolution recommending that their respective governments take appropriate coordinated action wherein all Great Lakes scheduled marine weather transmissions from shore stations in the frequency band 2000-3000 kc would, beginning March 15, 1954, be confined to a single radiotelephone channel in this band, namely 2514 kc which has been customarily identified by U. S. stations as "Channel 39" and by Canadian stations as "Range 3". Subsequently, this resolution was concurred in by the International Shipmasters Association (Great Lakes).

In consideration of this resolution and other known factors relative to the need for conservative use of the radio spectrum, the Commission hereby informs all interested persons that, in granting authority for coast stations in the Great Lakes region to transmit by telephony (after March 15, 1954) marine weather information in accordance with an approved schedule, as contemplated by § 7.185 of the Commission's rules, the Commission will expect any person who may request approval of the use of any radio-channel in the 2000-3000 kc band for this purpose, other than the channel utilizing the carrier frequency 2514 kc, to show, before February 15, 1954, why the desired service cannot be effectively provided in this band on the 2514 kc channel only.

The Commission therefore, recommends that shipping interests, station licensees and others concerned take such measures as may be necessary to assure, after March 15, 1954, reception of the desired Great Lakes weather information on the 2514 kc channel in place of any other channel in the band 2000-3000 kc heretofore used for this weather service.

Adopted: December 18, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3237]

ADOLF GOBEL, INC.

ORDER SUMMARILY SUSPENDING TRADING

In the matter of trading on the American Stock Exchange in the $1.00 par value Common Stock of Adolf Gobel, Inc., File No. 1-3237.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of December A. D. 1953.

The Commission by order adopted March 13, 1953, pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, having summarily suspended trading in the $1.00 par value common stock of Adolf Gobel, Inc. on the American Stock Exchange for a period of ten days from that date, and subsequently having entered additional orders further suspending such trading in order to pre-

vent fraudulent, deceptive or manipulative acts or practices; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on that Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

*It is ordered*, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, effective at the opening of the trading session on said Exchange on December 21, 1953, for a period of ten days.

By the Commission.

[File No. 70-3150]

CENTRAL AND SOUTH WEST CORP.

ORDER PERMITTING DECLARATION REGARDING ISSUANCE OF NOTES TO BECOME EFFECTIVE

DECEMBER 18, 1953.

Central and South West Corporation ("Central"), a registered holding company, having filed a declaration pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") regarding certain proposed transactions, which are summarized as follows:

Pursuant to two loan agreements, the one between Central and The First National Bank of Chicago, Bankers Trust Company, The Chase National Bank of the City of New York, Harris Trust and Savings Bank, and Equitable Security Trust Company, and the other between Central and John Hancock Mutual Life Insurance Company, Central proposes to borrow up to an aggregate amount not exceeding $12,750,000, of which not exceeding $10,000,000 will be borrowed from said banks from time to time, from December 31, 1953, to December 31, 1954, and of which $2,750,000 will be borrowed from said insurance company on December 31, 1953. Each loan will be evidenced by a promissory note or notes of Central maturing December 31, 1955, and bearing interest from the date thereof until maturity at the rate of 3½ percent per annum, payable semiannually June 30 and December 31 of each year, and after maturity at the rate of 6 percent per annum. Under the loan agreements between Central and said banks and said insurance company, each of the notes (but in the case of notes payable to said banks, only those notes outstanding on December 1, 1955) may be renewed by a new note or notes dated December 31, 1955, maturing December 31, 1957, and bearing interest until maturity at an annual rate equal to ½ of 1 percent above the prime rate then in effect at the First National Bank of Chicago, but not less than 3½ percent or more than 3¾ percent per annum, and after maturity at the rate of 6 percent per annum.

Under the loan agreement with said banks, Central may prepay at any time, or from time to time, any of such notes, in whole or in part, without premium, unless prepayment is made from the proceeds of any bank borrowings (other than from said banks), in which event Central shall pay a premium of ½ of 1 percent of the amount of any prepayment made on or prior to December 31, 1956, and of ¼ of 1 percent of any prepayment made thereafter. Said agreement further provides for the payment of a commitment fee computed from December 31, 1953, to December 31, 1954, at the rate of ½ of 1 percent per annum on the daily average unused amount of the commitment of each said bank, Central having the right to terminate on five days written notice the unused amount of the commitment of said banks. Under the loan agreement with the insurance company, Central may prepay, without premium, at any time, or from time to time, the insurance company note, in whole or in part, except where such prepayment is made directly or indirectly from the proceeds of any loan from any bank or insurance company (other than said insurance company), in which event the company shall pay at the same time a premium equal to ½ of 1 percent of the amount of the prepayment made on or prior to December 31, 1956, and equal to ¼ of 1 percent of the amount of the prepayment if made thereafter. Any such "loan" shall not include the purchase of debentures and other securities of Central payable five years or more from the date thereof, or serially during said period. Both loan agreements provide that if a prepayment is made, 78 percent of such prepayment shall be made under the agreement with said banks, and 22 percent under the agreement with said insurance company.

The entire proceeds of the bank loans will be invested by Central in common stock of one or more of its subsidiaries and will be used by such subsidiaries to finance, in part, their immediate construction programs. The note to the insurance company will be delivered in full payment and discharge of the 3 percent notes of Central now outstanding in the aggregate principal amount of $2,750,000 payable to said insurance company which mature January 1, 1954, to July 1, 1959. The declaration states that it is contemplated that the proposed notes will be paid at or before their maturity, or their extended maturity, through the issuance and sale by Central of such securities as may be appropriate and approved by the Commission. By amendment to the declaration, Central agrees that such securities will meet the requirements of section 7 (c) (1) of the act or that it will demonstrate that such securities are for necessary and urgent corporate purposes and that the requirements of section 7 (c) (1) would impose an unreasonable financial burden upon Central and are not necessary or appropriate in the public interest or for the protection of investors or consumers.

Central requests authority to renew on December 31, 1955, the notes to be issued under the bank loan agreement and the note to be issued under the insurance company agreement by the issuance of the renewal notes described above. The declaration as amended states that should the Commission prefer to withhold action at this time with respect to the renewal notes, Central requests the Commission to retain jurisdiction with respect thereto.

The declaration states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Fees and expenses are estimated at $4,500, including legal fees not to exceed $1,500 to be paid to counsel for the insurance company.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commisison; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration be permited to become effective forthwith, except that, jurisdiction should be reserved over the renewal of the notes maturing December 31, 1955, as alternatively proposed in the declaration as amended:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of said act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the reservation of jurisdiction hereinafter set forth; and

*It is further ordered*, That jurisdiction be, and the same hereby is, reserved over the renewal of the notes maturing December 31, 1955, as alternatively proposed in the declaration as amended.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 70-3154]

CENTRAL AND SOUTH WEST CORP. ET AL.

ORDER REGARDING ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARIES AND ACQUISITION THEREOF BY PARENT

DECEMBER 18, 1953.

In the matter of Central and South West Corporation, Central Power and Light Company, Public Service Company of Oklahoma, Southwestern Gas and Electric Company; File No. 70-3154.

Central and South West Corporation ("Central"), a registered holding company, and its public-utility subsidiaries, Central Power and Light Company ("Power and Light"), Public Service Company of Oklahoma ("Public Service"), and Southwestern Gas and Electric Company ("Southwestern"), all of whose common stocks are owned by Central, having filed a joint application-declaration pursuant to sections 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-43 of the rules and regulations promulgated thereunder with this Commission with respect to proposed transactions which are summarized as follows:

A. Power and Light proposes:

(1) By amendment to its Articles of Incorporation to increase the number of authorized shares of its common stock ($10 par value) from 2,397,300 shares to 2,697,300 shares.

(2) On or about January 4, 1954, to issue, sell and deliver 300,000 shares of its common stock ($10 par value) to Central for the sum of $3,000,000, payable in cash upon delivery of the shares.

B. Public Service proposes:

(1) On or before December 31, 1953, to issue and deliver 300,000 additional shares of its common stock ($10 par value) to Central and to transfer on its books from "Earned Surplus" to "Stated Capital" in respect of its common stock, the sum of $10 for each of said additional shares, or a total of $3,000,000.

(2) On or before December 31, 1953, to issue, sell and deliver 300,000 shares of its common stock ($10 par value) to Central for the sum of $3,000,000, payable in cash upon delivery of the shares.

C. Southwestern proposes:

(1) On or before December 31, 1953, to issue, sell and deliver 100,000 shares of its common stock ($10 par value) to Central for the sum of $1,000,000, payable in cash upon delivery of the shares.

D. Central proposes:

(1) To purchase and pay for in cash, at par, the 300,000 shares of common stock of Power and Light on the terms stated in paragraph A (2).

(2) To acquire the 300,000 shares of common stock of Public Service to be issued as stated in paragraph B (1).

(3) To purchase and pay for in cash, at par, the 300,000 shares of common stock of Public Service on the terms stated in paragraph B (2) above.

(4) To purchase and pay for in cash, at par, the 100,000 shares of common stock of Southwestern on the terms stated in paragraph C (1) above.

The joint application-declaration recites that the proposed issue and sale of the additional common shares by Power and Light, Public Service and Southwestern to Ceneral is necessary to finance, in part, the construction programs of the respective companies. The purchase of the shares by Central will be made out of funds received from the sale of 606,084 shares of its common stock as authorized by this Commission (File No. 70-3004).

The joint application-declaration states that no Federal or State commission, other than this Commission and the Corporation Commission of the State of Oklahoma, has jurisdiction over any of the proposed transactions. The Corporation Commission of the State of Oklahoma has authorized the actions proposed to be taken by Public Service. The filing indicates that no attorneys' fees are to be paid and that other fees and expenses are estimated at $28,000, which include Federal Stamp Taxes of $11,000 and state taxes and fees and miscellaneous expenses of $17,000.

Due notice having been given of the filing of the joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said joint application-declaration be granted and permitted to become effective:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of said act, that said joint application-declaration be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

ORDER REGARDING ISSUANCE OF COMMON STOCK DIVIDEND BY SUBSIDIARY AND ACQUISITION OF ITS PRO-RATA SHARES BY PARENT COMPANY

DECEMBER 18, 1953.

Duval Sulphur & Potash Company ("Duval"), a non-utility subsidiary of United Gas Corporation ("United") which in turn is a public-utility subsidiary of Electric Bond and Share Company, a registered holding company, and United having filed a joint application with this Commission pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to proposed transactions, which are summarized as follows:

The authorized Capital Stock of Duval consists of 1,000,000 shares, no par value, of which 875,000 shares are issued and outstanding. United owns 653,724 shares (74.71 percent) of Duval's outstanding Capital Stock, the balance thereof being held by the public generally. In addition to its regular cash dividend, Duval proposes the payment of a stock dividend to the holders of its Capital Stock. On November 19, 1953, the Board of Directors of Duval, subject to obtaining appropriate authorization under the Act, declared a dividend on Duval's Capital Stock, no par value, at the rate of one share of Duval's Capital Stock for each seven shares of such stock held. The record date and payment date for such dividend are December 10, 1953, and December 31, 1953, respectively. No fractional shares of Capital Stock will be issued. Dividend Scrip Certificates representing fractional shares of Capital Stock of Duval will be delivered which may be combined with other Dividend Scrip Certificates representing in the aggregate one or more full shares of Capital Stock of Duval and may be exchanged for such share or shares during a period which expires on December 31, 1954.

Prior to the close of business on December 31, 1954, Manufacturers Trust Company, 45 Beaver Street, New York 15, New York, Transfer and Dividend Disbursing Agent for Duval, will act as the agent of holders of Dividend Scrip Certificates who may desire (a) to purchase additional Dividend Scrip Certificates so that their holdings will aggregate one full share of Capital Stock of Duval, or (b) to sell their Dividend Scrip Certificates. Such purchases and sales will be based on market prices for full shares on the American Stock Exchange. Dividend Scrip Certificate holders will not be charged for such services. As soon as practicable after December 31, 1954, all shares of Capital Stock represented by Dividend Scrip Certificates then outstanding will be sold, and holders of Dividend Scrip Certificates will, until December 31, 1955, be entitled to surrender said certificates for their pro rata share of the cash net proceeds of such sale. After December 31, 1955, Dividend Scrip Certificates will be void.

Dividend Scrip Certificates do not confer upon the holder any voting or other rights of a stockholder, nor shall any of the shares of Capital Stock represented by Dividend Scrip Certificates be voted.

In connection with the payment of the stock dividend, the Board of Directors fixed the amount to be transferred from "Earned Surplus" (which at September 30, 1953, was $7,116,422.59) to "Capital Stock" on Duval's books at $26.75 for each share of additional Capital Stock to be issued (being the closing price on November 18, 1953, for Duval's Capital Stock on the American Stock Exchange, to which such stock is admitted to unlisted trading privileges), or a total of $3,343,750 for the entire 125,000 shares to be issued.

In connection with the transactions proposed, United will be entitled to receive 93,389 shares and a Dividend Scrip Certificate entitling it to receive one-seventh of a share of Duval's Capital Stock. United's investment in Duval is carried on its books at $4,679,352. Upon consummation, the transaction will be reflected by an increase in the number of shares of Capital Stock of Duval owned by United from 653,724 shares to 747,113 shares with no change in the dollar investment, except to the extent that the dollar investment would be increased by the cost of United's exercise of its privilege to purchase additional Dividend Scrip Certificates sufficient to aggregate one full share of the Capital Stock of Duval.

Applicants estimate that fees and expenses incurred in connection with the proposed transactions will amount to

$7,575, including $2,175 fees and expenses of Manufacturers Trust Company as agent in behalf of holders of Dividend Scrip Certificates. Applicants state that legal services in respect of the proposed transactions are covered by annual retainer of Duval's counsel.

Due notice having been given of the filing of the application and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted effective forthwith without the imposition of terms and conditions, other than those contained in Rule U-24:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and it hereby is, granted, to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 53-10662; Filed, Dec. 23, 1953; 8:48 a. m.]

[File No. 812-860]

E. I. DU PONT DE NEMOURS AND CO.

NOTICE OF FILING OF APPLICATION REQUESTING ORDER EXEMPTING CERTAIN TRANSACTIONS BETWEEN AFFILIATES

DECEMBER 18, 1953.

Notice is hereby given that E. I. du Pont de Nemours and Company ("Du Pont"), Wilmington, Delaware, which is controlled by Christiana Securities Corporation, a registered closed-end, non-diversified investment company, which in turn is controlled by Delaware Realty and Investment Company, also a registered closed-end, non-diversified investment company, has filed an application, and an amendment thereto, pursuant to section 17 (b) of the Investment Company Act of 1940 ("act") for an order exempting from the prohibitions contained in section 17 (a) of the act the transaction described below whereby Du Pont proposes to purchase from Imperial Chemical Industries Limited ("ICI"), a corporation of the United Kingdom, 28,735 shares of the common stock of Canadian Industries Limited ("CIL"), a Canadian company. The amendment to the application states that ICI proposes to transfer the 28,735 shares of CIL stock to a newly organized wholly owned subsidiary, Imperial Chemical Industries of Canada, Limited, just prior to the sale of the stock to Du Pont.

CIL is primarily a chemical manufacturing concern, producing in Canada such products as agricultural and industrial chemicals, ammunition, cellophane, explosives, "Fabrikoid," nylon, paint, varnish, and polythene. It also resells in Canada various chemical and related products of Du Pont, ICI and other companies. CIL has 7,059,081 shares of common stock outstanding, of which 2,981,390 shares or 42.24 percent are owned by ICI, 2,923,920 shares or 41.42 percent are owned by Du Pont, with the balance of 1,153,771 shares or 16.34 percent being publicly owned. The purchase of the CIL stock by Du Pont from ICI, which would result in Du Pont and ICI each owning the same number of shares of CIL, is proposed as a preliminary step in an over-all plan for compliance with a judgment of the United States District Court for the Southern District of New York entered on July 30, 1952, in United States of America v. Imperial Chemical Industries Limited, E. I. du Pont de Nemours and Company et al. (Civil Action 24-13) directing that Du Pont and ICI terminate their joint interests in CIL and other jointly-owned companies. The judgment requires that such termination be by sale of the shares of the jointly-owned companies by one or both of the above-named parties or by segregation or physical division of the plants and properties of said jointly-owned companies. It is stated that in the course of developing such a plan Canadian legal counsel advised that presentation thereof to shareholders under Canadian corporation law would be greatly simplified and its execution would be facilitated if ICI and Du Pont each owned the same number of shares of CIL.

Du Pont proposes to pay ICI in Canadian dollars $833,315 ($29 per share) for the 28,735 shares of CIL stock. ICI would be entitled to receive the 1953 year-end dividend on the said shares usually declared in December and paid in January. The common stock of CIL is admitted to unlisted trading on the Canadian and Toronto Stock Exchanges. The price of the stock on the Canadian Stock Exchange has ranged during 1953 from a low of 32 in September to a high of 42 in February. At the time the transaction was entered into the CIL stock was selling at 32. The closing price of the stock on December 9, 1953, was 37½.

The application states that price of $29 per share offered by Du Pont and accepted by ICI took into account (1) the large block of stock involved in relation to the small number of shares traded daily on the Canadian exchange, (2) a fair estimate of the earning power of CIL for this purpose of $1.75 per share and (3) a price earnings ratio of 16–17 times the estimated earnings of $1.75 per share. For the four years 1950 through 1953 (including an estimate for the year 1953), earnings have averaged $1.65 per share, and during the same period dividends paid per annum have amounted to $1.00 per share.

Section 17 (a) of the act prohibits an affiliated person of a registered investment company, including an affiliate of such a person, from selling any security or other property to such registered company or to any company controlled by such registered company, subject to certain exceptions, unless the Commission upon application pursuant to section 17 (b) of the act, grants an exemption from the provisions of section 17 (a) of the act and finds that the terms of the proposed transaction, including the consideration, are reasonable and fair and do not involve overreaching on the part of anyone concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act and is consistent with the general purposes of the act.

Notice is further given that any interested person may, not later than December 30, 1953, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28762]

CRUDE SULPHUR FROM TEXAS AND LOUISIANA TO VIRGINIA

APPLICATION FOR RELIEF

DECEMBER 21, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Sulphur (brimstone), crude, carloads.

From: Points in Texas and Louisiana.

To: Bellwood, Norfolk, Hopewell and Richmond, Va., and other Virginia points.

Grounds for relief: Rail competition, circuity, and competition with water carriers.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3862, supp. 203.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28763]

GRAIN, GRAIN PRODUCTS AND CEREAL FOOD PREPARATIONS FROM CINCINNATI, OHIO AND LOUISVILLE, KY. TO TENNESSEE AND MISSISSIPPI

APPLICATION FOR RELIEF

DECEMBER 21, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Southern Railway Company for itself and on behalf of the Cincinnati, New Orleans & Texas Pacific Railway Company.

Commodities involved: Grain and grain products, and cereal food preparations, carloads.

From: Cincinnati, Ohio and Louisville, Ky.

To: Memphis, Tenn., and other points in Tennessee and to Corinth, Miss.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1353, supp. 19; C. A. Spaninger, Agent, I. C. C. No. 1062, supp. 125.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

VOLUME 18 NUMBER 251

*Washington, Friday, December 25, 1953*

## TITLE 6—AGRICULTURAL CREDIT

### Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Export and Diversion Programs

PART 571—WHEAT

SUBPART A—WHEAT AND WHEAT-FLOUR EXPORT PROGRAM—INTERNATIONAL WHEAT AGREEMENT

GENERAL CONDITIONS OF ELIGIBILITY

The Terms and Conditions of 1953–54 Commodity Credit Corporation Wheat and Wheat-Flour Export Program (18 F.R. 5189) issued on August 24, 1953, are amended as follows:

Section 571.430 is amended to include the following additional paragraph:

(d) Neither wheat exported pursuant to Announcement GR 261 nor flour exported pursuant to Announcement GR 262 shall be eligible for export payment under this subpart.

(Sec. 2, 63 Stat. 945, 946, 67 Stat. 358, sec. 104, 64 Stat. 198; 7 U. S. C. Sup. 1641, 1642)

Issued this 21st day of December 1953.

[SEAL] HOWARD H. GORDON,
*President,*
*Commodity Credit Corporation.*

## TITLE 7—AGRICULTURE

### Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 721—CORN

PROCLAMATION OF COMMERCIAL CORN-PRODUCING AREA FOR 1954

§ 721.501 *Basis and purpose.* (a) This document is issued to proclaim the commercial corn-producing area for 1954 pursuant to sections 301 (b) (4) and 327 of the Agricultural Adjustment Act of 1938, as amended, and is contingent upon the proclamation of an acreage allotment for corn for 1954 for the commercial corn-producing area by the Secretary of Agriculture pursuant to section 328 of the Agricultural Adjustment Act of 1938, as amended. Prior to preparing the proclamation herein, public notice (18 F. R. 6456) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to this proclamation which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

(b) In making the determinations contained in § 721.502, the corn acreage estimates of the Agricultural Marketing Service (formerly Bureau of Agricultural Economics) and the statistics of the Bureau of the Census relating to numbers of farms and acreage of farmland were used, adjusted where necessary to reflect the difference in the definition of "farm" used by the Commodity Stabilization Service and the Agricultural Conservation Program Service from that of the Bureau of the Census. It is hereby found and determined that the statistics of the Agricultural Marketing Service (formerly Bureau of Agricultural Economics) and the Bureau of the Census, as so adjusted and supplemented by Agricultural Conservation Program Service data, constitute the latest and most reliable statistics of the Federal Government.

§ 721.502 *Commercial corn-producing area for the year 1954.* The commercial corn-producing area for the year 1954 comprises the following counties:

ARKANSAS

Clay.
Craighead.
Greene.
Mississippi.

DELAWARE

Kent.
New Castle.
Sussex.

ILLINOIS

All counties except Williamson.

INDIANA

All counties except:

Brown.
Crawford.
Switzerland.

IOWA

All counties.

KANSAS

Anderson.
Atchison.
Brown.
Clay.
Cloud.
Crawford.
Doniphan.
Douglas.
Franklin.
Jackson.
Jefferson.
Jewell.
Johnson.
Leavenworth.

## Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 11]

### PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.311 *Navel Orange Regulation 11*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time

when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 22, 1953, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., December 27, 1953, and ending at 12:01 a. m., P. s. t., January 3, 1954, is hereby fixed as follows:

(i) District 1: 800 carloads;
(ii) District 2: 82.22 carloads;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section "handled," "handler," "carloads," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 23d day of December 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

[Lemon Reg. 517]

### PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.624 *Lemon Regulation 517*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 21, 1953 such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 27, 1953, and ending at 12:01 a. m., P. s. t., January 3, 1954, is hereby fixed as follows:

(i) District 1: 40 carloads;
(ii) District 2: 195 carloads;
(iii) District 3: 15 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 22d day of December, 1953.

## PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

*Findings.* 1. Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provision of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, as amended, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, and (iv) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

*Order as amended.* The provisions of § 959.310 (b) (1) (FEDERAL REGISTER, June 13, July 23, and August 4 and 12, 1953; 18 F. R. 3380, 4280, 4552, 4761) are hereby amended to read as follows:

(b) *Order.* (1) During the period December 28, 1953, to May 31, 1954, both dates inclusive, no handler shall ship (i) potatoes of the Russet Burbank or Netted Gem varieties unless such potatoes meet the requirements of the U. S. No. 1, or better grade, size A, 2 inch or 4 ounce minimum, (ii) any other grades of Russet Burbank or Netted Gem varieties of potatoes, up to but not including U. S. No. 1 grade, unless such potatoes meet the requirements of U. S. No. 2, or better grade, 8 ounce minimum weight, or (iii) potatoes of any other varieties unless such potatoes meet the requirements of the U. S. No. 2, or better grade, 2 inch minimum diameter or 4 ounces minimum weight, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (§ 51.366 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 22d day of December 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch.*

## PART 959—IRISH POTATOES GROWN IN THE COUNTIES OF CROOK, DESCHUTES, JEFFERSON, KLAMATH, AND LAKE IN OREGON, AND MODOC AND SISKIYOU IN CALIFORNIA

LIMITATION OF SHIPMENTS

*Findings.* 1. Pursuant to Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR Part 959), regulating the handling of Irish potatoes grown in the counties of Crook, Deschutes, Jefferson, Klamath, and Lake in the State of Oregon, and Modoc and Siskiyou in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Oregon-California Potato Committee, established pursuant to said marketing agreement and amended order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any preparation on the part of handlers which cannot be completed by the effective date, and (iv) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

*Order as amended.* The provisions of § 959.309 (b) (1), (3), (4) and (5), FEDERAL REGISTER, August 29, October 22, November 10, and December 5 and 19, 1953; 18 F. R. 5163, 6697, 7055, 7844, 8567) are hereby amended to read as follows:

(b) *Order.* (1) During the period December 28, 1953 to June 30, 1954, both dates inclusive, no handler shall ship (i) potatoes of the Russet Burbank or Netted Gem varieties unless such potatoes meet the requirements of the U. S. No. 1, or better grade, 2 inches minimum diameter or 4 ounces minimum weight, (ii) any other grades of Russet Burbank or Netted Gem varieties of potatoes, up to but not including the U. S. No. 1 grade, unless such potatoes meet the requirements of the U. S. No. 2, or better grade, 8 ounces minimum weight, or (iii) potatoes of any other varieties unless such potatoes meet the requirements of the U. S. No. 2, or better grade, 2 inches minimum diameter or 4 ounces minimum weight, as such terms, grades, and sizes are defined in the U. S. Standards for potatoes (§ 51.366 of this title), including the tolerances set forth therein.

(3) During the period December 28, 1953 to June 30, 1954, both dates inclusive, no handler shall ship potatoes for dehydration, or manufacture or conversion into starch, flour, or alcohol unless such potatoes meet the requirements of the U. S. No. 2, or better grade, 1½ inches minimum diameter, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (§ 51.366 of this title), including the tolerances set forth therein.

(4) The limitations set forth in subparagraph (1) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Grading or storing in the production area, (ii) seed, (iii) canning or freezing, (iv) charity, and (v) livestock feed within the production area.

(5) Each handler making shipments of potatoes pursuant to subparagraphs (3) and (4) of this paragraph shall (except for shipments of potatoes for grading or storing in the production area, and shipments of potatoes for livestock feed within the production area) (i) file an application with the committee pursuant to § 959.130 for permission to make such shipments, (ii) pay assessments on such shipments pursuant to § 959.41, and (iii) have such shipments (except shipments of seed potatoes) inspected pursuant to § 959.60, and for each shipment made pursuant to subparagraph (3) and subdivisions (iii) and (iv) of subparagraph (4) of this paragraph shall furnish a record of shipment applicable thereto to the committee: *Provided*, That each application to ship potatoes made pursuant to subparagraph (3) and subdivisions (iii) and (iv) of subparagraph (4) of this paragraph shall be accompanied by the applicant handler's certification and buyer's certification that the potatoes to be shipped are to be used for the purpose stated in the application: *And provided further*, That each handler agrees in his application to furnish a copy of the bill of lading on each such shipment and to bill each such shipment directly to the applicable processor.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 605c)

Done at Washington, D. C., this 22d day of December 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch.*

[Docket No. AO-166-A17]

## PART 965—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

SUBPART—ORDER REGULATING HANDLING

Sec.

965.0 Findings and determinations.

DEFINITIONS

965.1 Act.
965.2 Secretary.
965.3 Cincinnati, Ohio, marketing area.
965.4 Person.
965.5 Route.
965.6 Fluid milk plant.
965.7 Pool plant.
965.8 Producer.
965.9 Handler.
965.10 Producer milk.
965.11 Emergency milk.

MARKET ADMINISTRATOR

965.20 Designation.
965.21 Powers.
965.22 Duties.

REPORTS, RECORDS, AND FACILITIES

965.30 Reports of handlers to market administrator.
965.31 Verification of handler reports.
965.32 Reports of market administrator to cooperative associations.
965.33 Records and facilities.
965.34 Retention of records.

CLASSIFICATION

965.40 Basis of classification.
965.41 Classes of utilization.
965.42 Responsibility of handlers and reclassification of milk.
965.43 Transfers.
965.44 Shrinkage.
965.45 Computation of milk and butterfat in each class.
965.46 Allocation of milk and butterfat classified.

MINIMUM PRICES

965.50 Basic formula price.
965.51 Class prices.
965.52 Butterfat differentials to handlers.

DETERMINATION OF UNIFORM PRICES

965.60 Computation of value of milk for each handler.
965.61 Computation of obligation to the producer-settlement fund for handlers operating a fluid milk plant which is not a pool plant.
965.62 Correction of errors.
965.63 Notification to handler of the value of his milk.
965.64 Computation of uniform prices for Grade A producers and Grade B producers.

PAYMENT FOR MILK

965.70 Payments to producers.
965.71 Producer-settlement fund.
965.72 Payment to producer-settlement fund.
965.73 Payments from producer-settlement fund.
965.74 Expense of administration.
965.75 Marketing services.
965.77 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

965.80 Effective time.
965.81 Suspension or termination.
965.82 Continuing power and duty of the market administrator.
965.83 Liquidation after suspension or termination.

MISCELLANEOUS PROVISIONS

965.90 Agents.
965.91 Separability of provisions.

AUTHORITY: §§ 965.0 to 965.91 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 965.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order,

as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended and as hereby further amended, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (August 1953), were engaged in the production of milk for sale in the said marketing area.

*Order relative to handling.* It is therefore ordered that on and after the effective date hereof the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 965.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 *et seq.*).

§ 965.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 965.3 *Cincinnati, Ohio, marketing area.* "Cincinnati, Ohio, marketing area," hereinafter called the "marketing area," means the city of Cincinnati, Ohio, and the territory geographically included within the boundary lines of Hamilton County, Ohio.

§ 965.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 965.5 *Route.* "Route" means a delivery (including a sale from a store) of milk, flavored milk drinks, or cream in fluid form to a wholesale or retail stop(s) other than to a milk processing plant(s).

§ 965.6 *Fluid milk plant.* "Fluid milk plant" means a plant or other facilities used in preparation or processing of milk all or a portion of which is disposed of on routes operating wholly or partially in the marketing area.

§ 965.7 *Pool plant.* "Pool plant" means:

(a) A fluid milk plant as described in § 965.6 located in the marketing area;

(b) A fluid milk plant located outside the marketing area and disposing of not less than 10 percent of its entire route disposition of Class I milk on routes operating wholly or partially within the marketing area; or

(c) A plant, receiving milk from dairy farms, which the market administrator determines has moved to a plant(s) described under paragraph (a) or (b) of this section an amount of milk equal to not less than one percent of the total Class I utilization of plants described in paragraphs (a) and (b) of this section during the second month preceding such movement as specified in the following schedule:

| Months milk is moved: | *Months plant is pool plant* |
|---|---|
| One of the months of October and November. | November. |
| Two of the months of October, November, and December. | December. |
| Three of the months of October, November, December, and January. | January through October. |

*Provided,* That upon written request to the market administrator by the operator of a plant which is a pool plant pursuant to this paragraph for the discontinuance of such plant as a pool plant, such plant shall cease to be a pool plant in the first month, following such request, during which no milk is moved to a plant described in paragraph (a) or (b) of this section and shall not become a pool plant until such plant again meets the requirements for a pool plant pursuant to this paragraph.

§ 965.8 *Producer.* "Producer" means any person operating a dairy farm, producing milk under a dairy farm permit issued by an appropriate health authority, which is received at a "pool plant" described in § 965.7 or diverted from a pool plant by a cooperative association: *Provided,* That any producer whose milk has been approved as "Grade A milk" by an appropriate health authority for any month, or portion thereof, shall be a "Grade A producer" for such month, and any producer whose milk has not been so approved shall be a "Grade B producer."

§ 965.9 *Handler.* "Handler" means (a) any person who: (1) Operates a pool plant; or (2) operates a nonpool plant and either directly or indirectly disposes of Class I or Class II milk, on a route extending into the marketing area; or (b) any cooperative association with respect to the milk of any producer(s) whose milk has been received previously at a pool plant described in § 965.7 which milk has been caused to be diverted by a cooperative association, to a plant from which no milk is disposed of in the marketing area, if payment therefor has been collected by such association, and such milk shall be deemed to have been received from producers by such cooperative association.

§ 965.10 *Producer milk.* "Producer milk" means milk produced by one or more producers under the conditions set forth in § 965.8.

§ 965.11 *Emergency milk.* "Emergency milk" means milk or skim milk other than producer milk in excess of the milk and skim milk, respectively, used in Class III milk and Class IV milk received by a handler under a permit to receive such milk or skim milk issued to him by an appropriate health authority during months when receipts of producer milk or skim milk of the individual handler are less than 120 percent of such handler's Class I utilization of milk or skim milk, respectively.

MARKET ADMINISTRATOR

§ 965.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 965.21 *Powers.* The market administrator shall have the power to:

(a) Administer the terms and provisions of this subpart;

(b) Report to the Secretary complaints of violations of the provisions of this subpart;

(c) Make rules and regulations to effectuate the terms and provisions of this subpart; and

(d) Recommend to the Secretary amendments to this subpart.

§ 965.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Within 45 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(c) Pay, out of the funds provided by § 965.74, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for herein, and surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.30 or has not made payments pursuant to §§ 965.70 and 965.72;

(f) Promptly verify the information contained in the reports submitted by handlers;

(g) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times; and

(h) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month, the minimum class prices computed pursuant to § 965.51 and the butterfat differentials computed pursuant to § 965.52; and

(2) On or before the 20th day after the end of such month the uniform prices computed pursuant to § 965.64, and the producer butterfat differential.

REPORTS, RECORDS AND FACILITIES

§ 965.30 *Reports of handlers to market administrator.* Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in detail and on forms prescribed by the market administrator as follows:

(a) On or before the 10th day after the end of each month, each handler who receives milk from producers shall report with respect to all milk, skim milk, cream and milk products received by him during the month:

(1) The receipts at each plant from producers, from his own production, and from other handlers;

(2) The receipts of emergency milk, the date or dates upon which such milk was received during the month, the plant from which such milk was shipped, the price per hundredweight paid or to be paid for such milk;

(3) The receipts from any other source together with the butterfat content;

(4) The utilization of all receipts during the month;

(5) The name and address of each new producer; and

(6) His producer payroll, which shall show for each producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer made pursuant to § 965.70 and the deductions and charges made by the handler.

(b) Each handler who receives no milk from producers shall make reports to the market administrator at such times and in such manner as the market administrator may request.

§ 965.31 *Verification of handler reports.* Each handler shall make available to the market administrator or to his agent, or to such other person as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to § 965.30, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 965.32 *Reports of market administrators to cooperative associations.* On or before the 13th day after the end of each month, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers who have authorized such association to receive payments for them under § 965.73 (b), to each handler to whom the cooperative association sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.

§ 965.33 *Records and facilities.* Each handler required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as in the opinion of the market administrator are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, and for other contents, of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 965.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 965.40 *Basis of classification.* Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in § 965.41 subject to the provisions of §§ 965.42, 965.43 and 965.44.

§ 965.41 *Classes of utilization.* The classes of utilization of milk and butterfat shall be as follows:

(a) Class I milk shall be (1) all milk and skim milk disposed of in the form of milk and milk drinks; (2) all milk and skim milk used to produce concentrated milk (excluding those products commonly known as evaporated milk and condensed milk) for fluid consumption; (3) all milk and skim milk disposed of in the form of any product containing less than 8.0 percent of butterfat not specified in Class II milk, Class III milk, or Class IV milk; or (4) all shrinkage of butterfat in receipts of butterfat from producers and emergency milk in excess of 2.5 percent of such receipts.

(b) Class II milk shall be all milk and skim milk disposed of as buttermilk, cream for consumption as cream, and any product containing 8.0 percent or more of butterfat not specified in Class I milk, Class III milk or Class IV milk.

(c) Class III milk shall be all milk (1) disposed of as plain or sweetened, condensed or evaporated milk, spray or roller powder, margarine, animal feed, all cheese, commercially manufactured candy, eggnog, and whipped cream and whipped cream substitutes; (2) used to produce ice cream, ice cream mix and frozen desserts; (3) dumped or spilled; and (4) in inventory variations; and all butterfat in shrinkage up to 2.5 percent of total receipts of butterfat in producer milk and in emergency milk and in shrinkage of butterfat in milk other than producer milk or emergency milk.

(d) Class IV milk shall be all milk disposed of as butter.

§ 965.42 *Responsibility of handlers and reclassification of milk.* (a) In establishing the classification as required in §§ 965.41 and 965.43, the burden rests upon the handler to account for all milk and milk products received by him and to prove to the market administrator that such milk, or milk products, should not be classified as Class I milk.

(b) Any milk or milk product classified in one class shall be reclassified if such milk or milk product is later used or disposed of by any handler in another class, in accordance with such later use or disposition.

§ 965.43 *Transfers.* (a) Milk and skim milk transferred from a pool plant to another pool plant shall be Class I milk, and cream so transferred shall be Class II milk, unless another class use is indicated in writing to the market administrator by the operators of both plants on or before the 10th day after the end of the month within which such transfer was made: *Provided,* That if either or both plants have received milk other than producer milk or emergency milk, the milk, skim milk or cream so transferred shall be classified at both

plants so as to allocate the highest possible utilization to producer milk.

(b) Milk or skim milk transferred from a pool plant to a plant other than a pool plant shall be classified as Class I milk and cream so transferred shall be Class II milk: *Provided*, That if the operator of the pool plant on or before the 10th day after the end of the month furnishes to the market administrator a statement, which is signed by the operators of both plants, that such milk, skim milk, or cream was used in a lower class, such milk, skim milk, or cream shall be classified accordingly; subject to verification by the market administrator: *And provided further*, That in making such verification for months other than April, May, June, July, and August, the market administrator will assign milk, skim milk, or cream so transferred to the highest use classification in the plant or the receiver.

§ 965.44 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of butterfat in producer milk and in milk other than producer milk.

§ 965.45 *Computation of milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for obvious errors the report submitted by each handler and compute the total pounds of milk and butterfat, respectively, in Class I milk, Class II milk, Class III milk, and Class IV milk for such handler.

§ 965.46 *Allocation of milk and butterfat classified.* The pounds of milk and butterfat remaining in each class after making the following computations shall be the pounds of milk and butterfat, respectively, in such class allocated to producer milk:

(a) The pounds of milk in Class III shall be decreased by any excess of utilization of all classes over total receipts and shall be increased by any excess of total receipts over total utilization of all classes.

(b) Subtract from the pounds of butterfat in Class III the pounds of producer butterfat in plant shrinkage which is not in excess of 2.5 percent of all butterfat received from producers and in emergency milk.

(c) Subtract from the remaining pounds of milk and butterfat, respectively, in each class, the pounds of milk and butterfat, respectively, received from other handlers, in the classes transferred pursuant to § 965.43.

(d) Subtract from the remaining pounds of milk and butterfat, respectively, in series beginning with the lowest-priced use available, the pounds of milk and butterfat, respectively, except emergency milk, received other than producer milk.

(e) Add to the Class III butterfat the pounds of butterfat subtracted pursuant to paragraph (b) of this section.

(f) Subtract pro rata out of the remaining pounds of milk and butterfat, respectively, in each class, the total pounds of emergency milk and butterfat.

(g) If the pounds of butterfat remaining in all classes exceed the pounds of butterfat received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest-priced class.

MINIMUM PRICES

§ 965.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum prices for Class I milk and Class II milk shall be the higher of the prices computed by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic (or field) prices per hundredweight ascertained to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator or to the United States Department of Agriculture:

*Company and Location*

Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply by 3.5 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month for which payment is to be made, and add 20 percent thereof;

(2) From the simple average as computed by the market administrator of the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents and multiply the result by 8.2.

§ 965.51 *Class prices.* Each handler shall pay, at the time and in the manner set forth in § 965.72, not less than the following prices per hundredweight, on the basis of milk of 3.5 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.46:

(a) The price for Class I milk shall be the basic formula price, plus $1.05 for the months of April through July and $1.35 for the months of August through March, plus or minus "a supply-demand adjustment" computed as follows:

(1) Divide the total gross volume of Class I milk (less interhandler transfers) in the second and third months preceding by total receipts of producer milk for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the Class I utilization percentage.

(2) Compute a "net utilization percentage" by subtracting from the utilization percentage as computed in subparagraph (1) of this paragraph, the Class I utilization percentage shown below:

| Month for which the price is being computed: | *Class I utilization percentage* |
|---|---|
| January | 73 |
| February | 75 |
| March | 74 |
| April | 70 |
| May | 63 |
| June | 56 |
| July | 47 |
| August | 44 |
| September | 45 |
| October | 47 |
| November | 54 |
| December | 64 |

(3) Determine the amount of the supply-demand adjustment as follows:

| If net utilization percentage is— | Supply-demand adjustment for specified months is— | | |
|---|---|---|---|
| | Jan., Feb., Mar., Aug., and Sept. | Apr., May, June, July | Oct., Nov., and Dec. |
| | *Cents* | *Cents* | *Cents* |
| +12 or over | +38 | +25 | +38 |
| +9 or +10 | +28 | +19 | +28 |
| +6 or +7 | +20 | +13 | +20 |
| +3 or +4 | +10 | +7 | +10 |
| +1 or −1 | 0 | 0 | 0 |
| −3 or −4 | −10 | −14 | −10 |
| −6 or −7 | −20 | −26 | −20 |
| −9 or −10 | −28 | −38 | −28 |
| −12 or −13 | −38 | −50 | −38 |
| −15 or −16 | −38 | −50 | −38 |
| −18 or −19 | −38 | −50 | −38 |
| −21 or −22 | −38 | −50 | −38 |
| −24 or under | −38 | −50 | −38 |

When the difference from the base period Class I utilization percentage does not fall within the tabulated brackets the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month: *Provided*, That the Class I differential adjusted pursuant to this subparagraph for the month of July shall not be more than such adjusted differential for the immediately preceding month of June and for each of the months of August and September the Class I differential adjusted pursuant to this subparagraph shall not be more than such adjusted differential for the immediately preceding month of June plus 30 cents; and the Class I differential adjusted pursuant to this subparagraph for each of the months of December, January and February shall not be less than the adjusted differential for the immediately preceding month of November.

(b) The price for Class II milk shall be the price for Class I milk minus $0.45.

(c) The price for Class III milk during each of the months of March through September shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph; and the price for Class III milk during each of the months of October through February, shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph, plus 30 cents.

(1) The price as computed pursuant to § 965.50 (b);

(2) The simple average, as computed by the market administrator, of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants:

M and R Dietetic Laboratories, Inc., Chillicothe, Ohio.
Carnation Milk Co., Hillsboro, Ohio.
Nestles Milk Products, Inc., Greenville, Ohio.
Nestles Milk Products, Inc., (Osgood Milk Co.) Osgood, Indiana.
Carnation Milk Co., Maysville, Ky.

(d) The price for Class IV milk shall be the price of Class III milk less 17.5 cents.

§ 965.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, from the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: For Class I, Class II and Class III, determine the percent of the alternate basic formula price as computed pursuant to § 965.50 (b) represented by the sum computed pursuant to § 965.50 (b) (1), apply the percentage so determined to the respective Class I, Class II and Class III prices for 3.5 percent milk computed pursuant to § 965.51 (a), (b), and (c) and divide by 35, the resulting sum (to the nearest hundredth of a cent) shall be the handler butterfat differential for each class, respectively. The handler butterfat differential for Class IV milk shall be such differential for Class III milk less 0.5 cent.

DETERMINATION OF UNIFORM PRICES

§ 965.60 *Computation of value of milk for each handler.* The value of the milk received from producers during each month by each handler shall be a sum of money computed by the market administrator by multiplying the hundredweight of milk in each class by the applicable class prices, subject to the butterfat differential provided in § 965.52 and adding any amount resulting from the following computation: Multiply the pounds of butterfat subtracted pursuant to § 965.46 (g) by the price for the applicable class adjusted by the applicable butterfat differential.

§ 965.61 *Computation of obligation to the producer-settlement fund for handlers operating a fluid milk plant which is not a pool plant.* For each month, the obligation to the producer-settlement fund for each handler operating a fluid milk plant which is not a pool plant shall be computed by the market administrator by multiplying by the difference between the Class I and the Class III prices, the hundredweight of milk disposed of as Class I milk by such handler on routes operating within the marketing area less the hundredweight of Class I milk purchased by such handler during the month from a pool plant. On or before the 13th day after the end of each month, the market administrator shall notify each such handler of the amount so computed for him subject to adjustment pursuant to § 965.62 and on or before the 17th day after the end of each month each such handler shall make payment to the market administrator.

§ 965.62 *Correction of errors.* If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payment due the producer-settlement fund or the handler for any previous month, there shall be added or subtracted as the case may be, the amount necessary to correct such errors.

§ 965.63 *Notification to handler of the value of his milk.* On or before the thirteenth day after the end of each month, the market administrator shall notify each handler of the value of milk computed for him in accordance with § 965.60 and of any adjustments pursuant to § 965.62.

§ 965.64 *Computation of uniform prices for Grade A producers and Grade B producers*—(a) *Computation of uniform price for Grade A producers.* For each month, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade A producers as follows:

(1) Add together the values of milk as computed pursuant to § 965.60 for handlers other than those in arrears in payment (other than in payment for any amount pursuant to § 965.62) to the producer-settlement fund as required by § 965.72 for the preceding month;

(2) Subtract, if the weighted average butterfat test of all milk received from producers by handlers whose milk is represented in the sum computed under subparagraph (1) of this paragraph, is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed as follows: Multiply the hundredweight of such milk by the difference of its weighted average butterfat test from 3.5 percent, and multiply the resulting amount by 50 cents if the average price of butter, described under § 965.50 (b) (1), was more than 40 cents but not more than 50 cents, such amount (50 cents) to be increased or decreased, as the case may be, by 10 cents for each 10-cent range in such price of butter above or below the range "more than 40 cents but not more than 50 cents";

(3) Add the unobligated balance in the producer-settlement fund;

(4) Add an amount computed by multiplying the total hundredweight of milk received from Grade B producers by $0.40;

(5) Divide by the total hundredweight of milk of all producers represented in the sum computed pursuant to subparagraph (1) of this paragraph; and

(6) Subtract from the figure obtained in subparagraph (5) of this paragraph not less than 4 cents or more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade A producers.

(b) Computation of uniform price for Grade B producers. For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade B producers as follows: From the uniform price computed pursuant to paragraph (a) (6) of this section subtract 40 cents. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade B producers.

PAYMENT FOR MILK

§ 965.70 *Payments to producers.* On or before the 5th day after the end of each month, each handler shall pay, with respect to all milk received during the month, $1.00 per hundredweight of milk to each producer: *Provided*, That in the event the total amount of deductions and charges authorized by any producer against payments due such producer for the month next preceding is greater than the payment computed for such producer pursuant to § 965.73 (a) with respect to the milk received from such producer during such preceding month, the handler may deduct from the payment required by this section a sum equal to the difference between such amounts.

§ 965.71 *Producer-settlement fund.* The market administrator shall maintain a separate fund, known as the producer-settlement fund, in which he shall deposit all payments made pursuant to §§ 965.61 and 965.72 and from which he shall make all payments pursuant to § 965.73.

§ 965.72 *Payment to producer-settlement fund.* On or before the 17th day after the end of each month, each handler shall pay to the market administrator the amount of money which represents the value of milk for such month of which he is notified pursuant to § 965.63 less the amount paid out to each producer in accordance with § 965.70, and less the amount of the deductions and charges authorized by such producer which are itemized on the handler's producer payroll: *Provided*, That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than an amount which, when added to the payment made to such producer in accordance with § 965.70 (inclusive of the

deductions and charges authorized by § 965.70) will not exceed the total value of the milk received from such producer.

§ 965.73 *Payments from producer-settlement fund.* (a) For each month the market administrator shall compute the payment due each producer for milk received during such month from such producer by a handler who made the payments for such month pursuant to § 965.72 by multiplying the hundredweight of such milk by the uniform price computed pursuant to § 965.64 adjusted to the butterfat test of such milk by adding or subtracting, respectively, for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent one-tenth of the rate provided in § 965.64 (a) (2) and subtracting any charges and deductions made pursuant to § 965.72.

(b) On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, to each cooperative association authorized to receive payments due producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to paragraph (a) of this section, for all producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments. On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, direct to each producer who has not authorized a cooperative association to receive payments for such producer, the amount of the payment calculated for such producer pursuant to paragraph (a) of this section.

§ 965.74 *Expense of administration.* As his pro rata share of the expense incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler shall pay to the market administrator, on or before the 17th day after the end of each month, 2 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received from producers and produced by him during the month: *Provided*, That any cooperative association which has handled milk during the month under the conditions set forth in § 965.9, shall pay such pro rata share of expense of administration on only that quantity of milk so handled.

§ 965.75 *Marketing services.* (a) The market administrator shall deduct an amount not exceeding 6 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.73 (b), with respect to the milk of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in paragraph (b) of this section.

(b) The moneys received by the market administrator pursuant to paragraph (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in paragraph (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to review of the Secretary.

§ 965.77 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 965.80 *Effective time.* The provisions of this subpart, or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 965.81 *Suspension or termination.* Any or all provisions of this subpart, or amendments to this subpart, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 965.82 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under this subpart, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such person as the Secretary may designate, shall continue in such capacity until removed by the Secretary; account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct and execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 965.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 965.90 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 965.91 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 22d day of December to be effective on and after the 1st day of February 1954.

[SEAL] JOHN H. DAVIS,
*Assistant Secretary of Agriculture.*

## TITLE 9—ANIMALS AND ANIMAL PRODUCTS

### Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 14]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

DESIGNATION OF AREAS IN WHICH SWINE ARE AFFECTED WITH VESICULAR EXANTHEMA

Pursuant to the authority conferred upon the Administrator of the Agricultural Research Administration by § 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), § 76.27a of said Subpart B (18 F. R. 3829, as amended) is hereby amended to read as follows:

§ 76.27a *Designation of areas in which swine are affected with vesicular exanthema.* The following areas are hereby designated as areas in which swine are affected with vesicular exanthema:

The State of California;

The Town of Manchester in Hartford County, in Connecticut;

That area in Fulton County lying south and west of State Highways Nos. 139 and 154 and west of U. S. Highway No. 29 excluding Fort McPherson, in Georgia;

Androscoggin, Cumberland, Kennebec, and York Counties, in Maine;

That area consisting of Hampden, Worcester, Middlesex, Essex, Suffolk, Norfolk, Bristol and Plymouth Counties, in Massachusetts;

Atlantic, Bergen, Camden, Gloucester, Hudson, Hunterdon, and Morris Counties, that area consisting of Union, Middlesex, Monmouth, and Ocean Counties, that area in Lower Township in Cape May County lying east of U. S. Highway No. 9, that area in Dennis Township in Cape May County bounded by the Belleplain State Forest on the south and east and State Highway No. 550 on the north and west and State Highway Spur No. 550 on the west, and all of Burlington County except Delran, Washington, Shamong, Tabernacle, and Bass River Townships, in New Jersey;

Poughkeepsie Township, in Dutchess County, and that area in Clarkstown Township lying north of New York State Route No. 59, in Rockland County, in New York;

Bucks and Delaware Counties, in Pennsylvania;

That area in Atascosa County lying west of State Highway No. 346 and north of State Highway No. 173, and that area in Bell County lying north of U. S. Highway No. 190 and west of State Highways No. 36 and No. 317, in Texas.

*Effective date.* The foregoing amendment shall become effective upon issuance.

Section 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), quarantines the areas so designated.

The amendment designates the following as an area in which swine are affected with vesicular exanthema in addition to the areas heretofore designated:

That area in Fulton County lying south and west of State Highways Nos. 139 and 154 and west of U. S. Highway No. 29 excluding Fort McPherson, in Georgia.

Hereafter, the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), apply to this area.

The amendment excludes from the areas heretofore designated as areas in which swine are affected with vesicular exanthema:

Delran, Washington, Shamong, Tabernacle, and Bass River Townships, in Burlington County, in New Jersey;

Anderson, Calhoun, Charleston, Greenwood, and Orangeburg Counties, in South Carolina.

The Administrator of the Agricultural Research Administration has determined that swine in these areas are not now affected with the disease, and that the quarantine of such areas is no longer required to prevent the dissemination thereof. Accordingly, these areas are no longer quarantined under said § 76.27, and the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), no longer apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas contained in said Subpart B, as amended, apply thereto.

The effect of the amendment is to impose certain further restrictions necessary to prevent the spread of vesicular exanthema, a contagious, infectious, and communicable disease of swine, and to relieve certain restrictions presently imposed. The amendment must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111. Interprets or applies secs. 4, 5, 23 Stat. 32, sec. 1, 32 Stat. 791; 21 U. S. C. 120)

Done at Washington, D. C., this 18th day of December 1953.

[SEAL] M. R. CLARKSON,
*Acting Administrator,*
*Agricultural Research Administration.*

## TITLE 24—HOUSING AND HOUSING CREDIT

### Chapter I—Home Loan Bank Board, Housing and Home Finance Agency

Subchapter C—Federal Savings and Loan System

[No. 6704]

PART 143—INCORPORATION, ORGANIZATION AND CONVERSION

PART 144—CHARTER AND BYLAWS

PART 145—OPERATIONS

AMENDMENTS: PROVIDING FOR A REVISED FORM OF CHARTER K

DECEMBER 18, 1953.

Resolved, that pursuant to Part 108 of the general regulations of the Home Loan Bank Board (24 CFR Part 108) and § 142.1 of the rules and regulations for the Federal Savings and Loan System (24 CFR 142.1), notice and public procedure having been duly afforded (17 F. R. 5255) the rules and regulations for the Federal Savings and Loan System, are hereby amended, effective December 25, 1953, as hereinafter set forth:

a. Amend §143.5 by striking the phrase "in the form of Charter N" from the last sentence thereof.

b. Amend the last sentence of paragraph (c) of §143.11 to read as follows: "Upon approval by the Board of a formal application for conversion into a Federal association, the Board will issue a Charter, as provided in §144.1 of this subchapter; conversion into a Federal association is completed upon the issuance of such charter and upon compliance with all relevant requirements of law, if any, which expressly provide for such conversion."

c. Amend the provisions preceding the first colon in § 144.1 to read as follows:

§ 144.1 *Issuance of charter—(a) Charter N.* Except as provided in paragraph (b) of this section and in § 144.2, the following form of charter, which shall be known as Charter N, will be issued on and after the effective date of the rules and regulations in this subchapter, upon approval by the Board of any petition for a charter for a Federal association pursuant to the provisions of subsections (a) or (i) of section 5 of Home Owners' Loan Act of 1933, as amended.

d. Amend § 144.1 by adding a new paragraph (b) at the end thereof, as follows:

(b) *Charter K (rev.).* If expressly requested in the Petition for Charter, or in the Application for Conversion into a Federal Association, the Board, in lieu of Charter N, will issue a Charter K (rev.), reading as follows:

CHAPTER K (REV.)

1. *Corporate title.* The full corporate title of the Federal association hereby chartered is ---------- Federal Savings and Loan Association ----------.

2. *Office.* The home office shall be located at ----------, in the County of ----------, State of ----------.

3. *Objects and powers.* The objects of the association are to promote thrift by providing a convenient and safe method for people to save and invest money and to provide for the sound and economical financing of homes; and, in the accomplishment of such objects, it shall have perpetual succession and power: (1) To act as fiscal agent of the United States when designated for that purpose by the Secretary of the Treasury, under such regulations as he may prescribe, and shall perform all such reasonable duties as fiscal agent of the United States as he may require and to act as agent for any other instrumentality of the United States when designated for that purpose by any such instrumentality; (2) To sue and be sued, complain and defend in any court of law or equity; (3) To have a corporate seal, affixed by imprint, facsimile or otherwise; (4) To appoint officers and agents as its business shall require, and allow them suitable compensation; (5) To adopt bylaws not inconsistent with the Constitution or laws of the United States and rules and regulations adopted thereunder and this charter; (6) To raise its capital, which shall be unlimited, by accepting payments on savings accounts representing share interests in the association; (7) To borrow money; (8) To lend and otherwise invest its funds; (9) To wind up and dissolve, merge, consolidate, convert, or reorganize; (10) To purchase, hold, and convey real and personal estate consistent with its objects, purposes, and powers; (11) To mortgage or lease any real and personal estate and take such property by gift, devise, or bequest; and (12) To exercise all powers conferred by law. In addition to the foregoing powers expressly enumerated, this association shall have power to do all things reasonably incident to the accomplishment of its express objects and the performance of its express powers. It shall exercise its powers in conformity with all laws of the United States as they now are, or as they may hereafter be amended, and with all rules and regulations which are not in conflict with this charter now or hereafter made thereunder.

4. *Members.* All holders of the association's savings accounts and all borrowers therefrom are members. In the consideration of all questions requiring action by the members of the association, each holder of a savings account shall be permitted to cast one vote for each $100, or fraction thereof, of the withdrawal value of his account. A borrowing member shall be permitted, as a borrower, to cast one vote, and to cast the number of votes to which he may be entitled as the holder of a savings account. No member, however, shall cast more than 50 votes. Voting may be by proxy. Any number of members present at a regular or special meeting of the members shall constitute a quorum. A majority of all votes cast at any meeting of members shall determine any question. The members who shall be entitled to vote at any meeting of the members shall be those owning savings accounts and borrowing members of record on the books of the association at the end of the calendar month next preceding the date of such meeting. The number of votes which each member shall be entitled to cast at any meeting of the members shall be determined from the books of the association as of the end of the calendar month next preceding the date of such meeting. Those who were members at the end of the calendar month next preceding the date of a meeting of members but who shall have ceased to be members prior to such meeting shall not be entitled to vote thereat. All savings accounts shall be nonassessable.

5. *Directors.* The association shall be under the direction of a board of directors of not less than 5 nor more than 15, as fixed in the association's bylaws or, in the absence of any such bylaw provision, as from time to time expressly determined by resolution of the association's members. Each director of the association shall be a member of the association, and a director shall cease to be a director when he ceases to be a member. Directors of the association shall be elected by its members by ballot: *Provided*, That in the event of a vacancy in the directorate, including vacancies created by an increase in the number of directors, the board of directors may fill such vacancy, if the members of the association fail so to do, by electing a director to serve until the next annual meeting of the members. Directors shall be elected for periods of 3 years and until their successors are elected and qualified, but provision shall be made for the election of approximately one-third of the board of directors each year.

6. *Withdrawals.* The association shall have the right to pay the withdrawal value of its savings accounts at any time upon application therefor and to pay the holders thereof the withdrawal value thereof. Upon receipt of a written request from any holder of a savings account of the association for the withdrawal from such account of all or any part of the withdrawal value thereof, the association shall within 30 days pay the amount requested: *Provided*, That if the association is unable to pay all withdrawals requested at the end of 30 days from the date of such requests, it shall then proceed in the following manner while any withdrawal request remains unpaid for more than 30 days:

Withdrawal requests shall be paid in the order received and if any holder of a savings account or accounts has requested the withdrawal of more than $1,000, he shall be paid $1,000 in order when reached and his withdrawal request shall be charged with such amount as paid and shall be renumbered and placed at the end of the list of withdrawal requests, and thereafter, upon again being reached, shall be paid a like amount, but not exceeding the withdrawal value of his savings account, and until such withdrawal request shall have been paid in full, shall continue to be so paid, renumbered, and replaced at the end of the withdrawal requests on file: *Provided*, That when any such request is reached for payment, the association shall so advise the holder of such savings account by registered mail to his last address as recorded on the books of the association and, unless such holder shall apply in person or in writing for the payment of such withdrawal request within 30 days from the date of the mailing of such notice, no payment on account of such withdrawal request shall be made and such request shall be cancelled: *And provided further*, That the board of directors shall have absolute right to pay on an equitable basis an amount not exceeding $200 to any holder of a savings account or accounts in any calendar month and without regard to any other provision of this section.

When the association is unable to pay all withdrawal requests within a period not exceeding 30 days from the date of receipt of written request therefor it shall allot to the payment of such requests and remainder of the association's receipts from all sources after deducting from total receipts appropriate amounts for expenses, required payments on indebtedness, earnings distributable in cash to holders of savings accounts, and a fund for general corporate purposes equivalent to not more than 20 percent of the association's receipts from holders of its savings accounts and from its borrowers. Holders of savings accounts for which application for withdrawal has been made shall remain holders of savings accounts until paid and shall not become creditors.

7. *Redemption.* At any time sufficient funds are on hand, the association shall have the right to redeem, by lot or otherwise as the board of directors may determine, all or any part of any of its savings accounts on June 30 or December 31, by giving 30 days' notice of such redemption by registered mail addressed to the holder of each such savings account at his last address as recorded on the books of the association. The association may not redeem any of its savings accounts when there is an impairment of its capital or when it has any request for withdrawal which has been on file and unpaid for more than 30 days. The redemption price of each savings account redeemed shall be the full value thereof, as determined by the board of directors, but in no event shall the redemption price be less than the withdrawal amount of such savings account. If a savings account which is redeemed is entitled to participate in any reserve for bonus, the amount in such reserve for bonus which is properly allocable to such savings account shall be paid as part of the redemption price thereof. If any notice of redemption shall have been duly given, and if the funds necessary for such redemption shall have been set aside so as to be and to continue to be available for that purpose, earnings upon such account shall cease to accrue from and after the date specified as the redemption date and all rights with respect to each such account shall forthwith, after such redemption date, terminate, except only the right of the holder of record of such savings account to receive the redemption price thereof without earnings.

8. *Loans and investments.* The association may make any loan or investment authorized by statute and the rules and regulations made by the Home Loan Bank Board and in effect on August 15, 1949; it may make such additional loans and investments as may thereafter be authorized by amendments of the said rules and regulations.

9. *Power to borrow.* The association may borrow money in an aggregate amount not exceeding one-half of its capital; the amount which may be borrowed from sources other than a Federal home loan bank shall not exceed one-tenth of such capital. Notwithstanding the foregoing limitations, the association may, with prior approval by the Home Loan Bank Board, borrow from a Federal home loan bank or from any Federal agency or instrumentality without limitation, upon such terms and conditions as may be required by such bank or agency. The association may pledge and otherwise encumber any of its assets to secure its debts.

10. *Reserves, surplus, and distribution of earnings.* The association shall maintain general reserves for the sole purpose of meeting losses; such reserves shall include the reserve required for insurance of accounts. Any losses may be charged against general reserves. If and whenever the general reserves of the association are not equal to at least 10 percent of its capital, it shall, as of June 30 and December 31 of each year, credit to such reserves an amount equivalent to at least 5 percent of its net earnings for the 6 months' period, or such amount as may be required by the Federal Savings and Loan Insurance Corporation, whichever is greater, until such reserves are equal to at least 10 percent of the association's capital. As of June 30 and December 31 of each year, after payment or provision for payment of all expenses, credits to general reserves and such credits to surplus as the board of directors may determine, and provision for bonus on savings accounts as authorized by regulations made by the Home Loan Bank Board, the board of directors of the association shall cause the remainder of the net earnings of the association for the 6 months' period to be distributed promptly on its savings accounts, ratably, as declared by the board of directors, to the withdrawal value thereof; in lieu of or in addition to such net earnings, any of the association's surplus funds may be likewise distributed. Such net earnings shall be credited to savings accounts or paid, as directed by the owner. All holders of savings accounts shall participate at the same rate and on the same basis in the distribution of earnings: *Provided*, That the association is not required to distribute earnings on short-term savings accounts or on accounts of $10 or less. Except as provided above, earnings shall be declared on all savings accounts of record at the close of each such 6 months' period, on the withdrawal value of each such account at the beginning of the said 6 months' period, plus the payments made thereon during such period (less amounts withdrawn, and, for purposes of participation in earnings, deducted from the latest previous payments), computed at the declared rate for the time invested, determined as provided below. The date of investment shall be the date of actual receipt of such payments by the association, unless the board of directors fixes a date, not later than the tenth of the month, for determining the date of investment of payments on savings accounts or designated classes thereof. Payments, affected by such determination date, received by the association on or before such determination date, shall receive earnings as if invested on the first of such month. Payments, affected by such determination date, received subsequent to such determination date, shall receive earnings as if invested on the first of the next succeeding month. Notwithstanding any other provision of its charter, the association may distribute net earnings on its savings accounts on such other basis and in accordance with such other terms and conditions as may from time to time be authorized by regulations made by the Home Loan Bank Board. All holders of savings accounts of the association shall be entitled to equal distribution of assets, pro rata to the value of their savings accounts, in the event of voluntary or involuntary liquidation, dissolution, or winding up of the association.

11. *Amendment of charter.* No amendment, addition, alteration, change, or repeal of this charter shall be made unless such proposal is made by the board of directors of the association, and submitted to and approved by the Home Loan Bank Board, and is thereafter submitted to and approved by the members at a legal meeting. Any amendment, addition, alteration, change, or repeal so acted upon and approved shall be effective, if filed with and approved by the Home Loan Bank Board, as of the date of the final approval of, or as fixed by, the members.

HOME LOAN BANK BOARD,
By ----------
(Chairman)

Attest:

----------
(Secretary)

e. Amend § 144.3 to read as follows:

§ 144.3 *Adoption of Charter N.* A Federal association that has a Charter E or a Charter K may amend such charter in its entirety to read in the form of Charter N or Charter K (rev.), by majority vote of such association's members present at any duly called regular or special meeting of members: *Provided*, That, in the case of a Federal association that has a Charter K, the board of directors of such association shall first have proposed such amendment, and the provisions of this section shall be deemed to be the approval by the Board of such proposal. Upon receipt of the following petition from a Federal association that has amended its charter as provided in this section, the Board will issue to such Federal association, as requested by it a Charter N or a Charter K (rev.) in the same name and showing the same location of home office as is prescribed in such association's present charter, unless the Board when petitioned approves a change in such name or location:

HOME LOAN BANK BOARD,
*Washington, D. C.*

The undersigned, pursuant to § 144.3 of the rules and regulations for the Federal Savings and Loan System, respectfully petitions the Board to issue an amended charter in the form of Charter (insert "N" or "K (rev.)", as voted by the members), to the undersigned, fixing the name and home office of the undersigned which its present charter prescribes.

The undersigned, by its secretary, hereby certifies that the members at a meeting duly called and held adopted the following resolution:

*Be it resolved*, That the present charter of this association be amended to read in the form of Charter (insert "N" or "K (rev.)", as voted by the members) as set forth in § 144.1 of the rules and regulations for the Federal Savings and Loan System, prescribing the present name and home office fixed by the present charter of this association.

In witness whereof, the Secretary of the undersigned has hereunto affixed his hand and the seal of the undersigned this ---- day of ----------, 19----.

FEDERAL SAVINGS AND LOAN ASSOCIATION,
[CORPORATE SEAL] By ----------

f. Amend the language preceding the first colon in § 144.5 to read as follows:

§ 144.5 *Prescribed form.* A Federal association that has a Charter N or Charter K (rev.) shall operate under the following prescribed bylaws, unless and until such bylaws are amended in accordance with the procedure therein set forth.

g. Amend the second sentence of § 145.1 to read as follows: "The savings accounts of a Federal association that has a Charter E or a Charter K and which amends such charter to read in the form of Charter N or Charter K (rev.) shall continue to have the same rights and privileges and to be subject to the same duties and liabilities as were provided in the charter in effect at the time such savings accounts were created, until exchanged for a savings account issued under the provisions of Charter N or Charter K (rev.)."

h. Amend § 145.1–1 by inserting, immediately after the phrase "Charter N", the following additional language: "or Charter K (rev.)".

i. Amend the first and second sentences of paragraph (b) of § 145.2 by inserting in each such sentence after the phrase "Charter N", the following additional language: "or Charter K (rev.)".

Resolved further that, as the foregoing amendments in effect relieve a restriction and as they should take effect immediately in order to enable Federal savings and loan associations desiring to do so, to take advantage of the provisions thereof at their annual meetings of members to be held in January of 1954, it is determined that the effective date thereof should not be deferred and such amendments shall take effect upon publication in the FEDERAL REGISTER.

(Sec. 5, 48 Stat. 132, as amended; 12 U. S. C. 1464)

By the Home Loan Bank Board

[SEAL] J. FRANCIS MOORE,
*Secretary.*

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127, International Postal Service: Postage Rates, Service Available and Instructions for Mailing, make the following changes:

a. In § 127.4 *Post cards* make the following changes:

1. Amend paragraph (j) (1) to read as follows:

(1) International reply-paid postal cards bearing the required endorsements and postage are available in two denominations (2 cents on each half for Canada and Mexico, and 4 cents on each half for other countries), and shall be carried in stock at all post offices where there is a demand for such reply-paid postal cards. The United States domestic reply-paid postal card should not be used for other countries.

2. In paragraph (j), amend the last sentence of subparagraph (2) to read as follows: "Prepayment of the two halves shall be by means of United States postage stamps (2 cents for Canada and Mexico and 4 cents for other countries) affixed to each half."

b. In § 127.284 *Japan* make the following changes:

1. Amend paragraph (b) (7) to read as follows:

(b) *Parcel post.* • • •

(7) *Prohibitions*—(i) *For reasons of health.* Hemp and its seeds, except ripe stems and dead seeds, and products thereof. Medicines containing amphetamine or its salts.

(ii) *For the protection of animals and plants.* Walnuts in the shell.

Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that

Bureau located at principal ports of entry. The following must be accompanied by official inspection certificates showing that they are free from domestic animals' infectious disease: Meat, bones, skin, hair, feathers, horns, or hoofs of hoofed animals, rabbits, or poultry; poultry eggs for hatching; honey bees.

(iii) *State monopolies.* Salt, camphor, camphor oil, tobacco leaves and seeds, and apparatus and papers for tobacco manufacture, unless addressed to the Japanese monopoly authorities or agents thereof. The same applies to manufactured tobacco, except that individuals in Japan may receive for their personal use up to 200 cigarettes, 50 cigars, and 250 grams (8¾ ounces) of smoking or chewing tobacco or snuff.

(iv) *For other reasons.* (*a*) Articles violating Japanese patents, copyrights or trademark rights.

(*b*) Counterfeit or altered currency, postage or revenue stamps or securities; postage stamps from which cancellation marks have been removed.

(*c*) Firearms (except shotguns for hunting) and swords, unless addressed to the Japanese government or agents thereof. See subparagraph (8) of this paragraph concerning shotguns for hunting.

2. Amend paragraph (b) (8) to read as follows:

(8) *Import restrictions; the attention of senders should be called to the following requirements, which are to be met by the addressees.* (i) Import licenses are required for all commercial parcels, except for (*a*) trade samples declared as such; (*b*) personal or household articles, professional articles and tools of trade declared to be for the addressee's personal use; and (*c*) scientific research material declared as such.

(ii) Addressees must comply with the applicable Japanese regulations in order to take delivery of the following:

(*a*) Banknotes, currency, checks and other instruments of payment. Securities and documents embodying tangible assets.

(*b*) Articles made from precious metals.

(*c*) Shotguns for hunting.

(*d*) Rice, barley, rye, or wheat (except when sent as food in gift parcels).

(*e*) Silkworm eggs.

c. In § 127.300 *Malaya (the postal territory of Malaya includes the Federation of Malaya (Johore, Kedah, Kelantan, Malacca, Negri Sembilan, Pahang Penang (including Province Wellesley), Perak, Perlis, Selangor, and Trengganu) and the Colony of Singapore (including the Christmas and Cocas (Keeling) Islands))* make the following changes:

1. In paragraph (a) (7) amend subdivision (i) by striking out the following: ", upon special authorization obtained in advance from the Controller of Posts of Malaya at Kuala Lumpur."

2. In subdivision (ii) of paragraph (a) (7) delete the following: "(This does not apply to Trengganu.)"

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] LOUIS J. DOYLE, *Acting Solicitor.*

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

TABLE OF FORMS AND REFERENCES

In the matter of amendment of the table of forms in Part 1 of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission having under consideration the desirability of making certain editorial changes in Part 1 of its rules and regulations; and

It appearing that the amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's Order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1952, as amended;

*It is ordered*, This 21st day of December 1953, that, effective immediately, the "Table showing forms currently in effect and where they are referred to in Part 1 of the rules and regulations," appearing in Part 1 immediately following the Table of Contents, is amended to read as set forth in the Appendix below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended, sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: December 22, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING, *Acting Secretary.*

No. 251——3

[F. R. Doc. 53-10721; Filed, Dec. 24, 1953; 8:48 a. m.]

[Docket No. S. 10107, 10746]

PART 1—PRACTICE AND PROCEDURE

ANNUAL FINANCIAL REPORT, BROADCAST LICENSEES AND PERMITTEES

In the matter of Amendment of Annual Report Form 324 and deletion of Annual Report Form 324-A; applicable to Standard Broadcast, FM, Television and International Stations; amendment of Schedules 10-A and 10-B (Employees and Their Compensation) of Annual Report Form 324; applicable to Standard Broadcast, FM, Television and International Stations.

1. On November 5, 1953, the Commission adopted a notice of proposed rule making (18 F. R. 7250) in the above-entitled matter. The period in which interested parties were afforded an opportunity to submit written comments has expired. Numerous comments were received supporting the proposed revisions and deletions, and no comments were received opposing the changes. The Commission, therefore, is adopting the proposed revisions and excisions, with minor editorial changes.

2. *It is ordered, therefore*, That, effective 30 days after publication in the FEDERAL REGISTER, pursuant to authority under section 4 (i), 303 (r), and 308 (b) of the Communications Act of 1934, as amended, F. C. C. Form 324, Annual Financial Report of Networks and Licensees of Broadcast Stations, is amended accordingly. Section 1.341 (a) of the Commission's rules and regulations is also amended as set forth below.

3. *It is further ordered*, That Annual Financial Report Form 324-A, Summary Estimates of Station Broadcast Revenues and Expenses, is hereby deleted, and accordingly, § 1.341 (b) of the rules is deleted.

4. *It is further ordered*, That each network and licensee of broadcast stations and each permittee whose station was operated during 1953 shall prepare and file its annual financial report to the Commission for the year 1953 on or before April 1, 1954 and for each calendar year thereafter in the form and manner herein prescribed.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 303, 308, 48 Stat. 1082, 1085; 47 U. S. C. 303, 308.)

Adopted: December 18, 1953.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING, *Acting Secretary.*

1. Amend § 1.341 (a) to read, as follows:

§ 1.341 *Financial report, broadcast licensees and permittees.* Each licensee of a broadcast station (standard, FM, television and international) and each permittee of a broadcast station engaged in interim operation shall file with the Commission on or before April 1 of each year on Form 324 broadcast revenue and expense statements for the preceding calendar year together with a statement as to investment in tangible broadcast property as of December 31 of such calendar year.

2. Delete § 1.341 (b).

[F. R. Doc. 53-10720; Filed, Dec. 24, 1953; 8:48 a. m.]

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

[S. O. 869, Amdt. 10]

PART 95—CAR SERVICE

USE OF REFRIGERATOR CARS FOR CERTAIN COMMODITIES PROHIBITED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of December A. D. 1953.

Upon further consideration of Service Order No. 869 (15 F. R. 8824, 9109; 16 F. R. 2040, 3619, 10994; 17 F. R. 2765, 8582; 18 F. R. 1858, 3733, 6214), and good

cause appearing therefor: It is ordered, that:

Section 95.869 *Use of Refrigerator Cars for Certain Commodities Prohibited*, of Service Order No. 869 be, and it is hereby amended by substituting the following paragraph (f) hereof for paragraph (f) thereof:

(f) *Expiration date.* This section shall expire at 11:59 p. m., May 31, 1954, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 11:59 p. m., December 31, 1953; and that a copy of this order and direction shall be served upon the State railroad regulatory body of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[S. O. 873, Amdt. 8]

PART 95—CAR SERVICE

CONTROL OF TANK CARS, APPOINTMENT OF AGENT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of December A. D. 1953.

Upon further consideration of the provisions of Service Order No. 873 (16 F. R. 1131, 7359; 17 F. R. 482, 6558; 18 F. R. 473, 2235, 3733, 6214), and good cause appearing therefor: It is ordered, that:

Section 95.873 *Control of tank cars; appointment of agent*, of Service Order No. 873 be, and it is hereby, amended by substituting the following paragraph (e) hereof for paragraph (e) thereof:

(e) *Expiration date.* This section shall expire at 11:59 p. m., May 31, 1954, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 11:59 p. m., December 31, 1953; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD, *Secretary.*

# PROPOSED RULE MAKING

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

### [ 50 CFR Parts 46, 161–165 ]

ALASKA WILDLIFE PROTECTION

NOTICE OF PROPOSED RULE MAKING

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 237, 239), notice is hereby given:

(a) That under authority contained in section 9 of the Alaska Game Law of July 1, 1943, as amended (57 Stat. 301), the Secretary of the Interior proposes to adopt amendments to the regulations under the statute which will specify open seasons, means of taking, bag and possession limits, the closing or reopening of areas, and the issuance of permits to insure proper conservation and utilization of the wildlife resources of the Territory. In addition, some amendments may be adopted for the purpose of clarifying the application of the regulations and to facilitate administration of the act.

(b) That under authority of section 8 and subdivisions D and M of section 10 of the Alaska Game Law of July 1, 1943, as amended (57 Stat. 301), the Alaska Game Commission intends to consider the advisability of amending the regulations of the Alaska Game Commission respecting poisons, licenses, the qualification of guides, and the establishment of fur management areas.

The regulations referred to in paragraphs (a) and (b) above are to be effective beginning July 1, 1954.

Interested persons are hereby notified that at a hearing of the Alaska Game Commission to be held in Juneau, Alaska, on February 15, 1954, the said proposed regulations will be considered, and any such person may present his views, data or arguments with respect thereto. Such interested persons are also hereby given an opportunity to participate in preparing the regulations for issuance as set forth by submitting their views, data, or arguments in writing to John L. Farley, Director, Fish and Wildlife Service, Washington 25, D. C. To assure full consideration of such communications, they must be received in the Fish and Wildlife Service not later than February 20, 1954.

Dated: December 18, 1953.

ORME LEWIS, *Assistant Secretary of the Interior.*

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

### [ 7 CFR Part 51 ]

U. S. STANDARDS FOR POTATOES [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of revised United States Standards for Potatoes under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953) to supersede the existing United States Standards for Potatoes (14 F. R. 1955, 2161, as recodified in 18 F. R. 7129), effective June 1, 1949.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with E. E. Conklin, Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t. on the sixtieth day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

GRADES

Sec.
51.1540 U. S. Extra No. 1.
51.1541 U. S. No. 1.
51.1542 U. S. Commercial.

51.1546 U. S. Extra No. 1 Grade.
51.1547 U. S. No. 1 and U. S. No. 2 Grades.
51.1548 U. S. Commercial Grade.

SIZE CLASSIFICATION

51.1549 Size classification.

TOLERANCES FOR SIZE

51.1550 Tolerances for size.

SKINNING CLASSIFICATION

Sec.
51.1551 Skinning classification.

APPLICATION OF TOLERANCES

51.1552 Application of tolerances.

DEFINITIONS

51.1553 Fairly well matured.
51.1554 Fairly well shaped.
51.1555 Fairly clean.
51.1556 Soft rot or wet breakdown.
51.1557 Damage.
51.1558 Internal discoloration.
51.1559 Diameter.
51.1560 Seriously misshapen.
51.1561 Serious damage.

GRADES

§ 51.1540 *U. S. Extra No. 1.* U. S. Extra No. 1 consists of potatoes of one variety or similar varietal characteristics which are fairly well matured, fairly well shaped, fairly clean, and not frozen; which are free from freezing injury, blackheart, late blight, southern bacterial wilt, ring rot, and soft rot or wet breakdown, and free from damage caused by sunburn, second growth, growth cracks, air cracks, hollow heart, internal discoloration, external discoloration, cuts, shriveling, sprouting, scab, dry rot, rhizoctonia, other disease, wireworm, other insects, dried stems, or mechanical or other means. (See §§ 51.1545, 51.1546 and 51.1551)

(a) Unless otherwise specified, size of potatoes (see §§ 51.1549 and 51.1550) shall be as follows:

(1) For round or intermediate shaped varieties, such as Irish Cobbler, Katahdin, Bliss Triumph, Green Mountain or other similar varieties, each potato shall have a diameter of not less than 2 inches, nor more than 4 inches and not less than 60 percent of the potatoes in the lot shall be 2¼ inches or larger, of which not less than one-half, or 30 percent, shall be 2¾ inches, or larger in diameter.

(2) For long varieties such as Burbank, Russet Burbank, Early Ohio, White Rose, or other similar varieties, each potato shall have either a diameter of not less than 2 inches or a weight of not less than 4 ounces and not less than 60 percent of the potatoes in the lot shall be 6 ounces or larger, of which not less than one-half, or 30 percent, shall be 10 ounces or more in weight.

§ 51.1541 *U. S. No. 1.* U. S. No. 1 consists of potatoes of one variety or similar varietal characteristics which are fairly well shaped, fairly clean, and not frozen; which are free from freezing injury, blackheart, late blight, southern bacterial wilt, ring rot, and soft rot or wet breakdown, and free from damage caused by sunburn, second growth, growth cracks, air cracks, hollow heart, internal discoloration, external discoloration, cuts, shriveling, sprouting, scab, dry rot, rhizoctonia, other disease, wireworm, other insects, dried stems, or mechanical or other means. (See §§ 51.1545, 51.1547 and 51.1551.)

(a) Unless otherwise specified, for round or intermediate shaped varieties each potato shall have a diameter of not less than 2 inches, nor more than 4 inches; for long varieties each potato shall have either a diameter of not less than 2 inches or a weight of not less than 4 ounces. (See §§ 51.1549 and 51.1550.)

§ 51.1542 *U. S. Commercial.* U. S. Commercial consists of potatoes which meet the requirements for U. S. No. 1 grade except for maximum size and which are free from serious damage caused by dirt, russet scab, rhizoctonia, and except for the increased tolerance for defects. (See §§ 51.1545, 51.1548 and 51.1551.)

(a) Unless otherwise specified, for round or intermediate shaped varieties each potato shall have a diameter of not less than 2 inches; for long varieties, each potato shall have either a diameter of not less than 2 inches or a weight of not less than 4 ounces. (See §§ 51.1549 and 51.1550.)

§ 51.1543 *U. S. No. 2.* U. S. No. 2 consists of potatoes of one variety or similar varietal characteristics which are not seriously misshapen or frozen; which are free from freezing injury, blackheart, late blight, southern bacterial wilt, ring rot, and soft rot or wet breakdown, and from serious damage caused by dirt or other foreign matter, sunburn, second growth, growth cracks, air cracks, hollow heart, internal discoloration, external discoloration, cuts, shriveling, scab, dry rot, other disease, wireworm, and other insects, or mechanical or other means. (See §§ 51.1545, 51.1547 and 51.1551.)

(a) Unless otherwise specified, for round or intermediate shaped varieties each potato shall have a diameter of not less than 2 inches; for long varieties, each potato shall have either a diameter of not less than 2 inches or a weight of not less than 4 ounces. (See §§ 51.1549 and 51.1550.)

UNCLASSIFIED

§ 51.1544 *Unclassified.* Unclassified consists of potatoes which have not been classified in accordance with any of the foregoing grades. The term "Unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES FOR DEFECTS

§ 51.1545 *Tolerances for defects.* In order to allow for variations, other than size, incident to proper grading and handling in each of the foregoing grades, the tolerances set forth in §§ 51.1546 through 51.1548 are provided as specified.

§ 51.1546 *U. S. Extra No. 1 Grade.* Not more than a total of 4 percent, by weight, of the potatoes in any lot may fail to meet the requirements of this grade, but not more than 3 percent shall be allowed for potatoes affected by southern bacterial wilt, ring rot, or late blight, and including therein not more than 1 percent for potatoes which are frozen, or affected by soft rot or wet breakdown.

§ 51.1547 *U. S. No. 1 and U. S. No. 2 Grades.* Not more than a total of 6 percent, by weight, of the potatoes in any lot may fail to meet the requirements of the grade, but not more than 3 percent shall be allowed for potatoes affected by southern bacterial wilt, ring rot, or late blight, and including therein not more than 1 percent for potatoes which are frozen, or affected by soft rot or wet breakdown.

§ 51.1548 *U. S. Commercial Grade.* Not more than a total of 20 percent, by weight, of the potatoes in any lot may fail to meet the requirements of this grade, but not more than 6 percent may fail to meet the requirements of U. S. No. 2 grade: *Provided*, That not more than one-half of this amount, or 3 percent, shall be allowed for potatoes affected by southern bacterial wilt, ring rot, or late blight and including therein not more than 1 percent for potatoes which are frozen, or affected by soft rot or wet breakdown.

SIZE CLASSIFICATION

§ 51.1549. *Size classification.* (a) When the potatoes are designated as "U. S. No. 1", "U. S. Commercial", or "U. S. No. 2", it is understood that the potatoes meet the minimum size specified in the grade, but that no definite percentage of the potatoes is required to be larger than this minimum size.

(b) When potatoes meet the requirements of Size A as described below the size classification may be specified in connection with any of the U. S. Grades except U. S. Extra No. 1 as "U. S. No. 1, Size A", "U S. Commercial, Size A", or "U. S. No. 2, Size A" in accordance with the facts. When Size A is used in connection with the grade, it is not permissible to specify any smaller sizes than those specified under this designation.

(c) When the potatoes meet the requirements of Size B or Size C as described below, the size classification may be specified only in connection with U. S. No. 1 or U. S. Commercial grades as "U. S. No. 1, Size B", "U. S. Commercial, Size C" etc., in accordance with the facts. When Size B or Size C is used in connection with these grades, it is not permissible to specify any smaller sizes than those specified under these designations.

(d) Size A: (1) For round or intermediate shaped varieties such as Irish Cobbler, Katahdin, Bliss Triumph, Green Mountain, or other similar varieties, the diameter of each potato shall be not less than 2 inches and not less than 60 percent of the potatoes in the lot shall be 2¼ inches or larger but not larger than 4 inches in diameter.

(2) For long varieties such as Burbank, Russet Burbank, Early Ohio, White Rose, or other similar varieties, each potato shall have either a diameter of not less than 2 inches or a weight of not less than 4 ounces and not less than 40 percent of the potatoes in the lot shall be 6 ounces or more in weight.

(e) Size B: For all varieties the size shall be from 1½ inches to not more than 2¼ inches in diameter.

(f) Size C: For all varieties the size shall be from 1 inch to not more than 1½ inches in diameter.

(g) Other sizes: When size A is not used in connection with U. S. No. 1, U. S. Commercial or U. S. No. 2 Grades and Size B and Size C are not used in con-

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

nection with U. S. No. 1 or U. S. Commercial Grades, it is permissible to specify any other minimum size, such as "1½ inches minimum", "2 inches minimum", or both a minimum and a maximum size as "2 inches to 3 inches", "6 to 10 ounces"; or to specify a certain percentage over a certain size as "25 percent or more 2¼ inches and larger", "50 percent or more 5 ounces and larger".

TOLERANCES FOR SIZE

§ 51.1550 *Tolerances for size.* (a) In order to allow for variations incident to proper sizing, not more than 3 percent of the potatoes in any lot may fail to meet the specified minimum size, except that when potatoes are packed to meet a minimum size of 2¼ inches or more in diameter, or 6 ounces or more in weight, not more than 5 percent of the potatoes in the lot may fail to meet the specified minimum size. In addition, not more than 10 percent may fail to meet any specified maximum size.

(b) When a percentage of the potatoes is specified to be of a certain size and larger, no part of any tolerance shall be used to reduce such a percentage for the lot as a whole, but individual containers may have not more than 15 percent less than the percentage required or specified: *Provided*, That the entire lot averages within the percentage specified. For example, a lot specified as 25 percent 2½ inches and larger may have containers with not less than 10 percent 2½ inches and larger if the lot as a whole averages 25 percent 2½ inches and larger.

SKINNING CLASSIFICATION

§ 51.1551 *Skinning classification.* (a) The following optional skinning classifications are provided as a basis for classifying lots of potatoes as to the degree of skinning:

(1) "Practically no skinning" means that not more than 5 percent of the potatoes in any lot have more than one-tenth of the skin missing or "feathered".

(2) "Slightly skinned" means that not more than 10 percent of the potatoes in any lot have more than one-fourth of the skin missing or "feathered".

(3) "Moderately skinned" means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or "feathered".

(4) "Badly skinned" means that more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or "feathered".

APPLICATION OF TOLERANCES

§ 51.1552 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade.

(1) For packages which contain more than 15 pounds, and a tolerance of 10 percent or more is provided (as in the case of over-size, where a tolerance of 10 percent is provided) individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 15 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one defective and one off-size potato shall be permitted in a package.

(2) For packages which contain 15 pounds or less, individual packages in any lot are not restricted as to the percentage of defects: *Provided*, That not more than one potato which is frozen or affected by soft rot or wet breakdown may be permitted in any package.

DEFINITIONS

§ 51.1553 *Fairly well matured.* "Fairly well matured" means that the potatoes meet the requirements of "slightly skinned" as defined under "Skinning Classification." (See § 51.1551 (a) (2).)

§ 51.1554 *Fairly well shaped.* "Fairly well shaped" means that the appearance of the individual potato or the general appearance of the potatoes in the container is not materially affected by pointed, dumbbell-shaped or otherwise ill-formed potatoes.

§ 51.1555 *Fairly clean.* "Fairly clean" means that, from the viewpoint of general appearance, the potatoes in the container are reasonably free from dirt or other foreign matter and that individual potatoes are not materially caked with dirt or materially stained.

§ 51.1556 *Soft rot or wet breakdown.* "Soft rot or wet breakdown" means any soft, mushy, or leaky condition of the tissue such as slimy soft rot, leak, or wet breakdown following freezing injury or sunscald.

§ 51.1557 *Damage.* "Damage" means any defect which materially affects the edible or shipping quality, or the appearance of the individual potato or the general appearance of the potatoes in the container, or which cannot be removed without a loss of more than 5 percent of the total weight of the potato including peel covering defective area. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Second growth or growth cracks which have developed to such an extent as to materially affect the appearance of the individual potato or the general appearance of the potatoes in the container;

(b) Air cracks which are deep, or shallow air cracks which materially affect the appearance of the individual potato or the general appearance of the potatoes in the container;

(c) External discoloration when skinned areas on individual potatoes are materially affected by dark discoloration, or when the general appearance of the lot is materially affected by discoloration;

(d) Shriveling when the potato is more than moderately shriveled, spongy or flabby;

(e) External sprouting when more than 10 percent of the potatoes have sprouts over three-fourths of an inch long, or have clusters of sprouts which affect the appearance to a greater extent than single sprouts three-fourths of an inch long;

(f) Internal sprouting when the sprouts cannot be removed without a loss of more than 5 percent of the total weight of the potato including peel covering defective area;

(g) Surface scab which covers an area of more than 5 percent of the surface of the potato in the aggregate;

(h) Pitted scab which affects the appearance of the potato to a greater extent than the amount of surface scab permitted or causes a loss of more than 5 percent of the total weight of the potato including peel covering defective area;

(i) Rhizoctonia when the general appearance of the potatoes in the container is materially affected or when individual potatoes are badly affected;

(j) Wireworm, grass root or similar injury when any hole, on potatoes ranging in weight from 6 to 8 ounces, is longer than ¾ inch or when the aggregate length of all holes is more than 1¼ inches. Smaller potatoes shall have lesser amounts, and larger potatoes may have greater amounts: *Provided*, That the removal of the injury by proper trimming does not cause the appearance of such potatoes to be affected to a greater extent than that caused by the proper trimming of such injury permitted on a 6 to 8 ounce potato; and,

(k) Dried stems when more than 25 percent of the potatoes have pliable, dried stems over 2½ inches in length and not over ⅛ inch in diameter. Correspondingly lesser amounts shall be permitted for stiff, dried stems over ⅛ inch in diameter.

§ 51.1558 *Internal discoloration.* "Internal discoloration" means discoloration such as is caused by net necrosis or any other type of necrosis, stem-end browning, internal brown spot, or other similar types of discoloration not visible externally, except blackheart.

§ 51.1559 *Diameter.* "Diameter" means the greatest dimension at right angles to the longitudinal axis. The long axis shall be used without regard to the position of the stem (rhizome).

§ 51.1560 *Seriously misshapen.* "Seriously misshapen" means that the appearance of the individual potato or the general appearance of the potatoes in the container is seriously affected by pointed, dumbbell-shaped, or otherwise badly deformed potatoes.

§ 51.1561 *Serious damage.* "Serious damage" means any defect which seriously affects the edible or shipping quality, or the appearance of the individual potato or the general appearance of the potatoes in the container, or which cannot be removed without a loss of more than 10 percent of the total weight of the potato including peel covering defective area. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Dirt when the general appearance of the potatoes in the container is seriously affected by tubers badly caked with dirt, or other foreign matter which seriously affects the appearance of the potatoes;

(b) External discoloration when skinned areas on individual potatoes are seriously affected by very dark discoloration, or when the general appearance of the lot is seriously affected by discoloration;

(c) Fairly smooth cuts such as are made by the digger or by a knife to remove injury when both ends are clipped, or in the case of round varieties when more than an estimated one-fourth of the potato is cut away, and in the case of long varieties when the length of the remaining portion of the clipped potato is less than 1½ times the diameter of the clipped end or when the remaining portion weighs less than 6 ounces. Irregular types of cuts which seriously affect the appearance of the individual potato, or which cannot be removed without a loss of more than 10 percent of the total weight of the potato including peel covering defective area;

(d) Shriveling when the potato is excessively shriveled, spongy, or flabby;

(e) Surface scab which covers an area of more than 50 percent of the surface of the potato in the aggregate;

(f) Pitted scab which affects the appearance of the potato to a greater extent than the amount of surface scab permitted or causes a loss of more than 10 percent of the total weight of the potato including peel covering defective area; and,

(g) Wireworm, grass root or similar injury when any hole, on potatoes ranging in weight from 6 to 8 ounces, is longer than 1¼ inches or when the aggregate length of all holes is more than 2 inches. Smaller potatoes shall have lesser amounts and larger potatoes may have greater amounts: *Provided*, That the removal of the injury by proper trimming does not cause the appearance of such potatoes to be affected to a greater extent than that caused by the proper trimming of such injury permitted on a 6 to 8 ounce potato.

Done at Washington, D. C., this 22d day of December 1953.

[SEAL] ROY W. LENNARTSON,
*Assistant Administrator, Production and Marketing Administration.*

## FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Part 3 ]

[Docket No. 10817]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments*, rules governing television broadcast stations; Docket No. 10817.

1. The Commission has before it for consideration the petition of WITH-TV, Inc., Baltimore, Maryland, filed October 30, 1953, requesting that § 3.606 of the Commission's rules be amended to add the assignment of Channel 72 to Baltimore.

2. Petitioner presently holds a permit to construct a television station on Channel 60 in Baltimore, which was granted on December 17, 1952. On August 7, 1953 the date for completion of construction for petitioner's station was extended to December 31, 1953. Petitioner represents that while it is "ready, able and willing" to proceed with the construction of its station on Channel 60 as soon as the equipment on order becomes available, certain "economic problems" would be encountered in the employment of Channel 60 in Baltimore. It is explained that the area surrounding Baltimore is relatively flat and near sea level with the exception of certain sectors north and west of the city where a considerable rise in ground elevation occurs. In light of the assignment of Channel 46 in Chambersburg, Pennsylvania, the more highly elevated areas cannot be employed as transmitter sites for Channel 60 at Baltimore. This results from the fact that channels spaced 14 apart must maintain separations of at least 60 miles to protect against sound image interference, and the distance between the site of Station WCHA-TV in Chambersburg on Channel 46 and the center of Baltimore is only 60.2 miles. In order to meet the minimum spacing requirements, therefore, petitioner would be required to locate its site, as it has in its present authorization, in a flat area close to sea level. Furthermore, it is explained that the spacing requirements on Channel 60 preclude the use of petitioner's present FM site and tower.

3. In view of the foregoing, petitioner requests that the Table of Television Channel Assignments contained in § 3.606 of the rules be amended to assign Channel 72 to Baltimore for which it proposes to apply. Such assignment, petitioner contends, would mean "substantial economies which are important to UHF stations in the initial stage at least." The assignment of Channel 72 in Baltimore would meet all minimum spacing requirements and can be accomplished without changing assignments in any other communities. No close separations would be involved, and the more highly elevated areas north and west of the city could be employed as sites.

4. Six channels are presently assigned to Baltimore, a city with a population of some 950,000 persons. These are Channels 2, 11 and 13 which have been in operation for some time; Channel 18 for which an application is pending; Channel 24 reserved for education; and Channel 60. The assignment of Channel 72 to Baltimore as requested by petitioner would represent a 7th channel. We believe, however, that six channels for this community constitutes a fair and equitable assignment of the available television facilities. We do not think that the assignment of a 7th channel to Baltimore is warranted. See our Memorandum Opinions and Orders denying requests for additional assignments to Cleveland, St. Louis, and Los Angeles (FCC 53-1172) (FCC 53-838). We are impressed, however, that the assignment of Channel 72 in Baltimore would represent a distinct improvement over the assignment of Channel 60 in light of the severely limited transmitter sites available with the employment of Channel 60. We believe that the assignment of Channel 72 in place of Channel 60 would effect a more efficient utilization of the spectrum and would serve the public interest, convenience and necessity. The Commission, therefore, is hereby giving notice that it proposes to amend § 3.606 by substituting Channel 72 in Baltimore in place of Channel 60, as follows:

| City | Delete | Add |
|---|---|---|
| Baltimore, Md. | 60- | 72- |

5. Station WITH-TV presently holds an authorization for Channel 60. Accordingly, pursuant to sections 303 (f) and 316 of the Communications Act of 1934, as amended, WITH-TV, Inc. is hereby afforded an opportunity to Show Cause in this proceeding why its authorization should not be modified to specify Channel 72 in lieu of Channel 60.

6. Any interested party who is of the view that the proposed amendment should not be adopted, or should not be adopted in the form proposed, may file with the Commission on or before January 18, 1954 a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. WITH-TV, Inc. shall make any reply it wishes to submit to the Show Cause Order in this proceeding by this date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. An original and 14 copies of all statements, briefs or comments shall be filed.

7. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), 307 (b) and 316 of the Communications Act of 1934, as amended.

Adopted: December 18, 1953.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[ 17 CFR Parts 240, 249 ]

REGISTRATION OF BROKERS AND DEALERS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt Form BD as the form of application for registration as a broker or dealer, as the form to amend such an application, and as a form of supplemental report by a registered broker or dealer. The proposal also contemplates the rescission of

Forms 3–M, 4–M, 5–M and 6–M (17 CFR 249.503, 249.504, 249.505, 249.506) now used in connection with broker-dealer registration, and the revision of applicable rules. The action would be taken pursuant to the Securities Exchange Act of 1934, particularly sections 15 (b), 17 (a) and 23 (a) thereof.

The above proposals are being considered by the Commission in connection with its comprehensive review of its rules, regulations, forms and procedures in order to eliminate duplication and to simplify its requirements wherever practicable without prejudice to the public interest or the protection of investors.

Under existing requirements the principal form of application for registration as a broker or dealer is Form 3–M. This is a 12-page application requesting a considerable amount of information which is not necessary to determine whether the registrant is eligible for registration under the provisions of section 15 (b) of the act, even though the information may have served other administrative purposes at one time or another. In substance, section 15 (b) provides that the Commission shall deny or revoke the registration of any broker or dealer if it finds that such denial or revocation is in the public interest and that such broker or dealer, or any person directly or indirectly controlling or controlled by such broker or dealer (A) has wilfully made any false or misleading statement in an application for registration, in any document supplemental thereto, or in any proceeding with respect to registration; or (B) has been convicted within 10 years of any felony or misdemeanor involving the purchase or sale of any security or arising out of the conduct of the business of a broker or dealer; or (C) is permanently or temporarily enjoined from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security; or (D) has wilfully violated any provision of the Securities Act of 1933, the Securities Exchange Act of 1934, or any rule or regulation under either of said acts.

Form BD, a much shorter form requesting much less information than Form 3–M, was prepared on the theory that the application for registration should generally be limited to the information necessary to determine whether or not the registrant, or any person controlling or controlled by the registrant, is subject to a disqualification within the meaning of section 15 (b) of the act. As will be seen from the copy of the form attached hereto, it would require information concerning: the identity of the registrant; his or its principal place of business; the form of organization; the predecessor, if registrant is succeeding to the business of another broker-dealer; the names of partners, officers and directors, and holders of 10 percent or more of any class of equity security issued by a corporate registrant; the names of other persons directly or indirectly controlling the business of the registrant; the broker-dealer connections of the persons named above for the past 10 years; and specific information with respect to whether the registrant or any person controlling or controlled by the registrant is subject to one of the disqualifications mentioned in section 15 (b) of the act.

Comparison of Form 3–M with proposed Form BD will indicate that approximately 20 categories of information previously required to be furnished in Form 3–M would no longer be required under Form BD. These categories of information include: The address of branch offices and the name of the manager of each such office; the number of salesmen, traders, customers' men and other employees; whether registrant transacts business as a broker; whether registrant transacts business as a dealer; whether registrant carries margin accounts for customers; whether registrant holds customers' securities in safekeeping; whether registrant transacts business through the medium of a member of a national securities exchange; whether registrant is engaged in the sale of oil and gas securities; whether registrant is engaged in business as an investment adviser; and various other items of information which administrative experience has indicated are not essential in connection with determining the eligibility of the registrant for registration.

*The ways in which Form BD would be used.* Form BD would be used for the following purposes:

1. *As an application for registration of a broker-dealer.* Where the application is filed by the broker-dealer on its own behalf category A on page 1 of the form would be checked. The instructions under category A provide that if (1) the broker-dealer filing an application on its own behalf is a partnership succeeding to and continuing the business of another broker-dealer partnership registered when the application is filed and (2) the predecessor partnership has filed its application (or supplement) on Form BD—then the registrant need furnish only such information as is necessary to bring the information previously filed by the predecessor up to date. This is intended to cover the situation where, under applicable law, the predecessor partnership is dissolved by reason of the death, withdrawal or admission of one or more partners, and the successor partnership continues the business. Form 4–M, a short form of registration, has been available in these situations, and these provisions in the instructions to Form BD make an even shorter form available in such situations.

Where the application is filed by the predecessor on behalf of a broker-dealer successor to be formed or organized category B on page 1 of the form would be checked. (Section 15 (b) of the act provides that an application for registration of a broker-dealer to be formed or organized may be filed by the predecessor, but that such registration shall terminate on the 45th day after the effective date unless prior thereto the successor adopts the application as its own in accordance with such rules and regulations as the Commission may prescribe. These rules are discussed below.)

2. *To amend an application for registration.* When the form is used for this purpose category C would be checked. The instructions specifically state that when the form is used for his purpose only the corrected information should be furnished.

3. *As a supplement to an application for registration filed on any other form.* There are now approximately 4,000 registered broker-dealers, most of whom have furnished the information required by Form 3–M. Under existing rules this information must be kept current by amendment. It was felt that when the new simplified form is adopted all brokers and dealers (those previously registered and those who become registered on the new form) should be subject to the same simplified requirements with respect to amendments. It appears that the fairest and most practical way to accomplish this is to provide that all brokers and dealers whose application has been filed on any form other than Form BD shall file, as a "supplement" to such application, the information required by Form BD, so that thereafter amendments to keep the information current need apply only to the information in Form BD. This supplement could be filed anytime within six months, except that if any information in the old application becomes inaccurate before the expiration of the six-month period the supplement would be filed at that time. This last provision is to make certain that important information is not withheld for six months. Once a broker-dealer has filed such a supplement, he will be relieved of the burden of amending many items of information in his old application; thereafter he need keep current only the limited information in Form BD. This approach also eliminates the need for Form 6–M, the form now used for amending an application for registration.

As mentioned above, the proposal contemplates the rescission of Forms 3–M, 4–M, 5–M and 6–M. Form 5–M is now designated as the form to be used by a broker or dealer in adopting as its own an application for registration previously filed on its behalf by a broker or dealer to which it is the successor. Under the proposed revisions the required "adoption" would not have to be filed on any specific form; a letter submitted by the successor firm adopting the application filed by a predecessor would be adequate. In this connection, it should be noted that proposed Rule X–15B–3, set out below, provides that any statement adopting such an application shall constitute a representation to the Commission that the information contained in the application, and in any supplements and amendments thereto, is true and correct.

The proposal contemplates that the following rules would be adopted as "amendments" to the existing rules of the same number.

§ 240.15b–1 *Application for registration of broker or dealer.* An application for registration of a broker-dealer filed pursuant to section 15 (b) on or after (February 1, 1954) shall be filed on Form BD in accordance with the instructions contained therein.

§ 240.15b–2 *Supplements and amendments to applications.* (a) Every broker or dealer whose application for registration is effective on or before (February 1, 1954), or is pending on that date, shall file a supplement to such application on Form BD not later than (August 1, 1954): *Provided, however,* That if any information in such application is or becomes inaccurate for any reason prior to (August 1, 1954), such supplement shall be filed when such information is or becomes inaccurate.

(b) If the information contained in any application for registration of a broker or dealer, or in any supplement or amendment thereto, is or becomes inaccurate for any reason, such broker or dealer shall promptly file an amendment on Form BD correcting such information: *Provided, however,* That if the application for registration was filed on any form other than Form BD and the supplement required by paragraph (a) of this section has been filed, amendments need be filed only to keep current the information in the supplement.

§ 240.15b–3 *Adoption of application filed by predecessor.* Registration of a broker or dealer pursuant to an application filed on behalf of such broker or dealer by a predecessor shall terminate on the 45th day after the effective date thereof unless the successor shall adopt the application as its own by filing a statement adopting such application on or before such date. Any statement adopting such an application shall constitute a representation to the Commission that the information contained in such application, and in the supplements and amendments thereto, is true and correct.

§ 240.15b–4 *Registration of successor to partnership.* (a) In the event that a partnership registered as a broker or dealer shall have been dissolved by the death, withdrawal, or admission of one or more partners and another broker or dealer shall become the successor to and continue the business of such predecessor partnership, the registration of such predecessor partnership shall be deemed to remain effective as the registration of the successor broker or dealer for a period of 60 days after such succession: *Provided,* That an application for registration on Form BD is filed by the successor within 30 days after such succession.

(b) A Form BD, filed by a successor partnership continuing the business of a predecessor partnership dissolved by the death, withdrawal, or admission of one or more partners, shall be deemed to be an application for registration even though designated an amendment if the Form BD is filed to reflect the change of partners and to furnish required information concerning any new partners.

Most of the above sections will be understood from the preceding discussion. Some further explanation should be made with respect to § 240.15b–4, however. The present § 240.15b–4 provides a temporary exemption from registration for a successor partnership continuing the business of a predecessor partnership. This section was found to be inadequate in some situations, particularly where there was a partnership of two partners, one of the partners died, and the surviving partner wanted to carry on the business. In this situation, since the successor is not a partnership, the present § 240.15b–4 provides no temporary exemption. Under paragraph (a) of the proposed revision the temporary exemption would be available to any broker-dealer successor continuing the business of a registered partnership which has been dissolved by the death, withdrawal or admission of one or more partners. Paragraph (b) of this section was intended to take care of the following situations: sometimes it is difficult to determine under applicable local law whether the death, withdrawal or admission of a partner effects a dissolution of the old partnership or sometimes a change of partners technically effects a dissolution but the firm inadvertently files an amendment to report the change when it should file a new application. Paragraph (b) of the section should eliminate the effect of such mistakes. Under the proposed rule, if the form is filed to reflect the change of partners and to furnish the information required concerning any new partners, the firm will have the same protection whether the form is designated as an amendment or an application.

The substance of §§ 240.15b–5, 240.15b–6 and 240.15b–7 would not appear to need any modification by reason of these proposals, except that § 240.15b–5 would be amended to reflect the adoption of Form BD. Paragraph (a) of § 240.15b–8, which requires the filing of a financial statement by a broker-dealer filing an application for registration on Form 3–M, would be revised to conform its requirements to the adoption of the new form and to require the statement of financial condition to be filed in duplicate; and paragraph (c) of the rule, which was intended to cover applications pending at the time that § 240.15b–8 was adopted, would be deleted from the rule.

All interested persons are invited to submit data, views, and comments on these proposals in writing to the Secretary, Securities and Exchange Commission, at its principal offices, 425 Second Street NW., Washington 25, D. C., on or before January 8, 1954.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3160]

UNITED GAS CORP. AND UNION PRODUCING CO.

ORDER REGARDING LOAN BY PARENT COMPANY TO SUBSIDIARY

DECEMBER 21, 1953.

United Gas Corporation ("United"), a public-utility subsidiary of Electric Bond and Share Company, a registered holding company, and its non-utility subsidiary, Union Producing Company ("Union"), having filed a joint application with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act"), particularly sections 6 (b), 9 and 10 thereof with respect to transactions proposed therein which are summarized as follows:

United proposes to lend to Union, its wholly owned subsidiary, and the latter proposes to borrow from United, not to exceed an aggregate amount of $2,000,000 during a period following the date of the entry of the Commission's order herein to the end of 1954 in such installments and at such times as funds may be required and requested from United. The proceeds from the loan will be used by Union to increase its working capital.

The proposed loan will be evidenced by unsecured promissory notes issued by Union to United or order, from time to time, payable on or before six years from the date of issue of such notes, bearing interest at the rate of 5 percent per annum, payable semi-annually on July 1 and January 1 of each year.

Union has presently issued and outstanding $15,000,000 principal amount of its promissory notes consisting of $7,000,000 principal amount of 3 percent Notes, $4,000,000 principal amount of 4 percent Notes, and $4,000,000 principal amount of 5 percent Notes, all such notes being payable on or before six (6) years from dates of issue. All of said notes are owned by United, and $12,000,000 principal amount of such notes are pledged with the Guaranty Trust Company of New York, the Corporate Trustee, under United's Mortgage and Deed of Trust, dated as of October 1, 1944, in favor of Guaranty Trust Company of New York and Henry A. Theis (Herbert E. Twyeffort, Successor Trustee), Trustees, as supplemented. The additional promissory notes of Union to be acquired from time to time by United in connection with the transactions proposed herein, will, upon acquisition by United, be pledged with the Corporate Trustee under its Mortgage and Deed of Trust.

Due notice having been given of the filing of the application and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted effective forthwith without the imposition of terms and conditions, other than those contained in Rule U-24:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and it hereby is, granted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 53-10702; Filed, Dec. 24, 1953; 8:46 a. m.]

[File No. 70-3157]

QUINCY ELECTRIC LIGHT AND POWER CO., ET AL.

ORDER AUTHORIZING ISSUANCE AND SALE OF SHORT-TERM UNSECURED PROMISSORY NOTES TO PARENT COMPANY

DECEMBER 22, 1953.

In the matter of Quincy Electric Light and Power Company, Suburban Electric Company, New England Electric System; File No. 70-3157.

New England Electric System ("NEES"), a registered holding company, and its subsidiary public utility companies, Quincy Electric Light and Power Company ("Quincy") and Suburban Electric Company ("Suburban"), having filed with this Commission a joint application-declaration pursuant to sections 7, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-43, promulgated thereunder, with respect to the following proposed transactions:

Quincy presently has outstanding unsecured promissory notes payable to NEES in the principal amount of $1,080,000 and notes payable to banks in the principal amount of $200,000. Suburban presently has outstanding $3,800,000 principal amount of unsecured promissory notes payable to banks.

Quincy and Suburban propose to issue to NEES, from time to time but not later than December 31, 1953, unsecured promissory notes in the respective aggregate principal amounts of $1,280,000 and $2,500,000. Each of said notes will mature April 1, 1954, and may be prepaid in whole or in part without payment of a premium. The proceeds derived from such notes will be used by Quincy and Suburban to prepay a like principal

amount of note indebtedness to NEES and to banks. The interest rate on such notes will be at the prime interest rate being paid by Quincy and Suburban on the notes prepaid until their maturity date and thereafter at the prime interest rate at the time of issuance. The notes to be prepaid bear interest at 3¼ percent which, according to the application-declaration, is also the present prime interest rate.

The application-declaration states that incidental services in connection with the proposed note issues will be performed at cost by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $150 for each applicant-declarant, or an aggregate of $450.

The application-declaration further states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order herein become effective forthwith upon issuance.

Due notice having been given of the filing of the application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said application-declaration be granted and permitted to become effective forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of said act, that said application-declaration be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 53-10742; Filed, Dec. 24, 1953; 8:51 a. m.]

[File No. 70-3158]

WHEELING ELECTRIC CO.

ORDER REGARDING PROPOSED ISSUE AND SALE OF SHORT-TERM NOTES

DECEMBER 22, 1953.

Wheeling Electric Company ("Wheeling"), a public utility subsidiary of American Gas and Electric Company, a registered holding company, having filed a declaration with this Commission pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act"), with respect to a proposed transaction which is summarized as follows:

The proposed transaction covers the establishment of a line of credit with a banking institution and the proposed borrowing under such line of credit of an amount not to exceed $1,000,000 outstanding at any one time, from time to time, prior to December 31, 1954, from such banking institution and the issuance and delivery of notes evidencing such borrowings by Wheeling.

The notes to be issued by Wheeling in evidence of such borrowings will be dated as of the date of such borrowings in each case and will in no event mature in more than 270 days after the date of issuance.

Of the $1,000,000 proposed to be borrowed, Wheeling has already borrowed $400,000 from the said banking institution and has issued its note in evidence thereof. This borrowing, in the amount of $400,000, was made on October 6, 1953, and was exempted from the provisions of section 6 (a) by the first sentence of section 6 (b) of the act.

It is expected that the next borrowing, in the amount of $100,000 will be made on or about January 1, 1954. The note evidencing such borrowing of $100,000 will bear interest from the date thereof at the then current prime credit rate which is currently 3¼ percent per annum.

Subsequent borrowings will be made from time to time prior to December 31, 1954, in amounts depending upon Wheeling's cash requirements and not to exceed $1,000,000 outstanding at any one time under the said line of credit. Such subsequent borrowings will bear interest from the respective dates thereof at the then current prime credit rate.

Wheeling may prepay the notes from time to time, in whole or in part, without premium.

No finders' fees or commissions are to be paid by Wheeling in connection with the proposed transactions, and it is estimated that miscellaneous expenses to be incurred by Wheeling will not exceed the nominal amount of $250.00.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration be permitted to become effective forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 53-10744; Filed, Dec. 24, 1953; 8:51 a. m.]

[File No. 70-3166]

ELECTRIC BOND AND SHARE CO.

SUPPLEMENTAL ORDER REGARDING THE SALE BY PARENT OF SECURITIES OF SUBSIDIARY

DECEMBER 21, 1953.

The Commission by order dated December 17, 1953, having granted and permitted to become effective an application-declaration, as amended, filed by Electric Bond and Share Company ("Bond and Share"), a registered holding company, regarding, among other things, the sale at public offering, after receiving competitive bids, of 100,000 shares of its present holdings of common stock of United Gas Corporation ("United Gas") plus such additional shares not exceeding 15,000 as Bond and Share should acquire during the course of stabilizing operations to be effected by Bond and Share, subject to the reservation of jurisdiction with respect to (1) the results of the competitive bidding; (2) the fees and expenses in connection with said transactions; and (3) the making, to the extent appropriate, of further orders, findings and recitals pursuant to Supplement R and section 1808 (f) of the Internal Revenue Code, as amended; and

A further amendment having been filed on December 21, 1953, setting forth the action taken by Bond and Share to comply with the requirements of Rule U-50, stating that 1,300 shares of common stock of United Gas were acquired through stabilization operations, that 101,300 shares of common stock were offered at competitive bidding, and that pursuant to the invitation for competitive bids, the following bids for the common stock have been received:

| Bidding group headed by— | *Price per share to Bond and Share* |
|---|---|
| Blyth & Co | $28.095 |
| Kidder, Peabody & Co | 28.086 |
| Merrill Lynch, Pierce, Fenner & Beane | 28.086 |
| Goldman, Sachs & Co | 28.08 |
| The First Boston Corp | 27.896 |
| Lehman Bros | 27.808 |

The amendment having further stated that Bond and Share has accepted the bid of Blyth & Co. for the common stock of United Gas as set forth above and that said common stock will be offered to the public at a price of $28.625 per share, resulting in an underwriters' spread of $0.53 per share; and

The application-declaration, as amended, having estimated the fees and expenses of Bond and Share relating to said transaction to be as follows:

| | *Estimate* |
|---|---|
| Filing fee—Securities and Exchange Commission | $345 |
| Fees of counsel: | |
| Reid & Priest, New York City | 3,500 |
| Simpson, Thatcher & Bartlett, New York City | 3,500 |
| Baker, Botts, Andrews & Parish, Houston, Tex | 3,000 |
| Auditors' fees | 1,500 |
| Printing, including registration statement, prospectus, etc | 9,500 |
| Report of Ralph E. Davis, independent engineer | 5,000 |
| Miscellaneous | 6,655 |
| Total estimated fees and expenses | 33,000 |

and the fees of Milbank, Tweed, Hope & Hadley, New York City, independent counsel for the successful purchasers to be $3,500; and

The Commission having examined said application-declaration, as amended, and having considered the record herein, and finding no reason for the imposition of terms and conditions with respect to the results of the competitive bidding, and deeming it appropriate to make the re-

No. 251——4

quested recitals pursuant to Supplement R and section 1808 (f) of the Internal Revenue Code, as amended:

*It is ordered*, That the jurisdiction heretofore reserved with respect to matters to be determined as a result of competitive bidding for the sale of said common stock of United Gas and with respect to the fees and expenses relating to said sale of common stock be, and hereby is, released, and that said application-declaration, as amended, in respect of the issuance and sale of said common stock by Bond and Share be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U–24.

*It is further ordered and recited*, That the sale and transfer by Bond and Share of 101,300 shares of common stock of United Gas is necessary or appropriate to the integration or simplification of the holding company system of which Bond and Share is a member and is necessary or appropriate to effectuate the provisions of section 11 (b) of the act, all in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28764]

FERTILIZER COMPOUNDS FROM JACKSONVILLE, ARK., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

DECEMBER 22, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Fertilizer compounds and related articles, carloads.

From: Jacksonville, Ark.

To: Southern territory.

Grounds for relief: Rail competition, circuity, market competition, to apply rates constructed on the basis of the short line distance formula, and additional origin.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, supp. 133.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 53–10703; Filed, Dec. 24, 1953; 8:46 a. m.]

[4th Sec. Application 28765]

PHOSPHATIC FEED SUPPLEMENTS FROM SOUTHERN TERRITORY TO CENTRAL VERMONT RAILWAY STATIONS

APPLICATION FOR RELIEF

DECEMBER 22, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1395.

Commodities involved: Phosphatic feed supplements, carloads.

From: Points in southern territory.

To: Stations on Central Vermont Railway.

Grounds for relief: Rail competition, circuity, and to maintain grouping.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

WOODEN BUILDING MATERIAL FROM CENTER, TEX., TO THE SOUTH

APPLICATION FOR RELIEF

DECEMBER 22, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Building material, viz: doors, sash, frames, and related articles, carloads.

From: Center, Texas.

To: Points in southern territory.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional origin.

Schedules filed containing proposed rates; F. C. Kratzmeir, Agent, I. C. C. No. 3967, supp. 300.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28767]

FURNITURE FROM SHREVEPORT, LA., TO COLORADO AND WYOMING

APPLICATION FOR RELIEF

DECEMBER 22, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Furniture and furniture parts, carloads.

From: Shreveport, La.

To: Colorado Springs, Denver, Greeley, Pueblo and Trinidad, Colo., and Cheyenne, Wyo.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional origin.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3886, supp. 103.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved

in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

# FEDERAL REGISTER

VOLUME 18 NUMBER 252

*Washington, Tuesday, December 29, 1953*

## TITLE 14—CIVIL AVIATION

### Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 41-10]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

ELIMINATION OF REQUIREMENT FOR CERTIFICATION IN TRANSPORT CATEGORY AFTER DECEMBER 31, 1953, AND ESTABLISHMENT OF NONTRANSPORT CATEGORY OPERATING LIMITATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

This amendment to Part 41 of the Civil Air Regulations eliminates the requirement for certification in the transport category after December 31, 1953, and establishes nontransport category operating limitations to become effective on July 1, 1954.

Section 41.26 (c) of Part 41 currently states that after December 31, 1953, all aircraft operating under this part shall comply with the transport category certification requirements of either Part 4a or 4b and with the operating limitations prescribed in this part for transport category airplanes. This requirement was intended to remove from the scheduled air transportation such aircraft types as the Douglas DC–3 and Lockheed L–18 after this date unless recertificated in the transport category. This provision was also contained in Part 40 of the Civil Air Regulations. In view of the safety record of the DC–3 and L–18 and their continued use in scheduled passenger operation, the Board, in revised Part 40, permitted the continued operation of these airplanes but required that they comply with certain performance operating limitations based on the nontransport category performance limitations that presently appear in Part 42.

In view of the action taken with respect to these airplanes in revised Part 40, this regulation permits operation of nontransport category airplanes under Part 41 after December 31, 1953, but at the same time prescribes the same performance operating limitations that are prescribed in revised Part 40. Since it is estimated that the affected air carriers will require about six months to implement these operating limitations for these aircraft, the operating limitations will not become effective until July 1, 1954. This will permit continued operation of these aircraft under present conditions until that date.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented. Since this regulation imposes no immediate additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR, Part 41, as amended) effective immediately:

1. By amending § 41.26 (b) (1) to read as follows:

(1) Retain their present airworthiness certification status and meet the requirements of § 41.36 except that until July 1, 1954, these aircraft may be operated in accordance with such operating limitations as the Administrator finds will provide a safe relation between the performance of the aircraft and the dimensions of airports and terrain; or

2. By deleting § 41.26 (c).

3. By adding new §§ 41.36, 41.36a, 41.36b, 41.36c, and 41.36d to read as follows:

§ 41.36 *Nontransport category airplane operating limitations.* In operating any nontransport category airplane in passenger service on or after July 1, 1954, the provisions of §§ 41.36a through 41.36d shall be complied with, unless deviations therefrom are specifically authorized by the Administrator on the ground that the special circumstances of a particular case make a literal observance of the requirements unnecessary for safety. Prior to that date such airplanes shall be operated either in accordance with §§ 41.36a through 41.36d or in accordance with such operating limitations as the Administrator determines will provide a safe relation between the performance of the airplanes and the airports to be used and the areas to be tra-

versed. Performance data published or approved by the Administrator for each such nontransport category airplane shall be used in determining compliance with the provisions of §§ 41.36a through 41.36d.

§ 41.36a *Take-off limitations.* No take-off shall be made at a weight in excess of that which will permit the airplane to be brought to a safe stop within the effective length of the runway from any point during the take-off up to the time of attaining 105 percent of minimum control speed or 115 percent of the power-off stalling speed in the take-off configuration, whichever is the greater. In applying the requirements of this section:

(a) It may be assumed that take-off power is used on all engines during the acceleration;

(b) Account may be taken of not more than 50 percent of the reported wind component along the take-off path if opposite to the direction of take-off, and account shall be taken of not less than 150 percent of the reported wind component if in the direction of the take-off;

(c) Account shall be taken of the average runway gradient when the average gradient is greater than ½ percent. The average runway gradient is the difference between the elevations of the end points of the runway divided by the total length;

(d) It shall be assumed that the airplane is operating in the standard atmosphere.

§ 41.36b *En route limitations; one engine inoperative.* (a) No take-off shall be made at a weight in excess of that which will permit the airplane to climb at a rate of at least 50 feet per minute with the critical engine inoperative at an altitude of at least 1,000 feet above the elevation of the highest obstacle within 5 miles on either side of the intended track or at an altitude of 5,000 feet, whichever is the higher: *Provided*, That in the alternative an air carrier may utilize a procedure whereby the airplane is operated at an altitude such that, in event of an engine failure, the airplane can clear the obstacles within 5 miles on either side of the intended track by 1,000 feet, if the air carrier can demonstrate to the satisfaction of the Administrator that such a procedure can be used without impairing the safety of operation. If such a procedure is utilized, the rate of descent for the appropriate weight and altitude shall be assumed to be 50 feet per minute greater than indicated by the performance information published or approved by the Administrator. Before approving such a procedure, the Administrator shall take into account, for the particular route, route segment, or areas concerned, the reliability of wind and weather forecasting, the location and types of aids to navigation, the prevailing weather conditions, particularly the frequency and amount of turbulence normally encountered, terrain features, air traffic control problems, and all other operational factors which affect the safety of an operation utilizing such a procedure.

(b) In applying the requirements of paragraph (a) of this section, it shall be assumed that:

(1) The critical engine is inoperative;

(2) The propeller of the inoperative engine is in the minimum drag position;

(3) The wing flaps and landing gear are in the most favorable positions;

(4) The operative engine or engines are operating at the maximum continuous power available;

(5) The airplane is operating in the standard atmosphere;

(6) The weight of the airplane is progressively reduced by the weight of the anticipated consumption of fuel and oil.

§ 41.36c *Landing distance limitations; airport of intended destination.* No take-off shall be made at a weight in excess of that which, allowing for the anticipated weight reduction due to consumption of fuel and oil, will permit the airplane to be brought to a stop within 60 percent of the effective length of the most suitable runway at the airport of intended destination.

(a) This weight shall in no instance be greater than that permissible if the landing were to be made:

(1) On the runway with the greatest effective length in still air, and

(2) On the runway required by the probable wind, taking into account not more than 50 percent of the probable headwind component and not less than 150 percent of the probable tailwind component.

(b) In applying the requirements of this section it shall be assumed that:

(1) The airplane passes directly over the intersection of the obstruction clearance plane and the runway at a height of 50 feet in a steady gliding approach at a true indicated air speed of at least 1.3 $V_{s_0}$;

(2) The landing is made in such a manner that it does not require any exceptional degree of skill on the part of the pilot;

(3) The airplane is operating in the standard atmosphere.

§ 41.36d *Landing distance limitations; alternate airports.* No airport shall be designated as an alternate airport in a dispatch release unless the airplane at the weight anticipated at the time of arrival at such airport can comply with the requirements of § 41.36c: *Provided*, That the airplane can be brought to rest within 70 percent of the effective length of the runway.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–604, 52 Stat. 1007–1010; 49 U. S. C. 551–554)

[Reg. SR-356A]

## PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

### SPECIAL CIVIL AIR REGULATION; LANDING WEIGHTS FOR NONTRANSPORT CATEGORY AIRPLANES IN SCHEDULED OVERSEAS AND FOREIGN PASSENGER OPERATION

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

This Special Civil Air Regulation extends the provisions of Special Civil Air Regulation SR–356 until July 1, 1954.

Certain airplanes certificated as a basic type prior to June 30, 1942, and currently used in scheduled air carrier passenger operations have at various times since original certification been allowed increases in their maximum certificated take-off and landing weights. The increases have been allowed under the provisions of later adopted airworthiness requirements based upon different and more realistic safety criteria where the airplanes have been shown to comply with such requirements for particular operations.

However, these developments have not followed a consistent pattern, and prior to the adoption of SR–356 in 1950, airplanes of the same basic type were operated at differing maximum landing weights. For example, the usual maximum landing weight for a Douglas DC–3 (not certificated in the transport cate-

gory) operated in scheduled passenger service is 24,400 pounds when operated in accordance with limitations established in the air carrier's operations specifications, whereas the maximum landing weight for a comparable airplane used by an irregular air carrier or commercial operator is 25,000 pounds subject, however, to operating limitations provided for in Part 42 of the Civil Air Regulations.[1]

The Board was asked by certain scheduled air carriers to permit operation of the DC–3 and the Lockheed Model 18 as nontransport category airplanes at the landing weights authorized for these same airplanes in irregular passenger service. The Board authorized the use of these higher weights for nontransport category airplanes by SR–356 on the condition that they be operated in accordance with the operating limitations established for such airplanes in Part 42.

Revised Part 40, effective January 1, 1954, prescribes operating rules for scheduled air carriers engaged in the carriage of passengers in interstate commerce which require these carriers to operate their nontransport category airplanes in accordance with requirements that are similar to those currently prescribed in Part 42 for such airplanes. An amendment to Part 41, which will be issued concurrently with this regulation proposes that the nontransport category performance operating limitations for these airplanes be incorporated in Part 41 as of July 1, 1954, thus applying these rules to scheduled carriers carrying passengers in overseas and foreign air transportation. In view of the fact that these airplanese will be able to receive the same landing weights currently authorized by SR–356 when operating in accordance with the requirements in revised Part 40 and those proposed for Part 41, it is not necessary to extend this regulation with respect to operations under Part 40, or to extend it with respect to Part 41 after June 30, 1954. Accordingly, this regulation only extends the provisions of SR–356 with respect to those operations under Part 41, scheduled service in overseas and foreign air transportation, until July 1, 1954. After that date SR–356 will not be necessary and it is not intended that elimination of this rule operate to affect the weights of aircraft previously established under SR–356.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

[1] The DC–3 is also eligible and is being operated at a maximum certificated takeoff weight of 26,200 pounds and a maximum certificated landing weight of 26,000 pounds in accordance with transport category performance rules. The DC–3 when used for the carriage of cargo only is eligible and is being operated at maximum certificated take-off and landing weights as high as 26,900 pounds. Furthermore, corresponding military versions of the DC–3 have been operated at maximum weights in excess of 30,000 pounds.

In consideration of the foregoing the Civil Aeronautics Board makes and promulgates the following Special Civil Air Regulation, effective January 1, 1954.

Contrary provisions of the Civil Air Regulations notwithstanding, an airplane type certificated prior to June 30, 1942, may be used for the carriage of persons in scheduled overseas and foreign air transportation at a maximum landing weight not exceeding its maximum certificated take-off weight for passenger service: *Provided*, That such landing weight does not exceed the weight for which the structure has been substantiated in accordance with the structural requirements upon which the original certification was based: *Provided further*, That the airplane is operated in accordance with the operating limitations prescribed in Part 42 of the Civil Air Regulations as heretofore or hereafter amended, for aircraft not certificated in the transport category: *And provided further*, That if an air carrier elects to operate aircraft under the provisions of this Special Civil Air Regulation it shall be required that all of its aircraft of the same or related types be operated thereunder.

This Special Civil Air Regulation shall supersede Special Civil Air Regulation SR–356 and terminate on June 30, 1954, unless sooner rescinded or superseded by the Board.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[Reg. SR–391B]

## PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SPECIAL CIVIL AIR REGULATION; EXTENSION OF DATE FOR APPLICATION OF TRANSPORT CATEGORY PERFORMANCE REQUIREMENTS TO C–46 TYPE AIRPLANE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

Special Civil Air Regulation SR–391 permits operators of C–46 type aircraft used in the carriage of passengers to operate at a maximum certificated takeoff weight of 44,300 pounds except for those airplanes having a certain type propeller which are allowed an additional 1,000 pounds. Special Civil Air Regulation SR–391 permits such operation only until January 1, 1954.

For the past several years it has been anticipated that after December 31, 1953, all airplanes used in irregular passenger operation shall comply with the transport category requirements of Parts 4a or 4b and with transport category operating limitations. This provision, which was identical to provisions in Parts 40 and 41 of the Civil Air Regulations, was intended to require nontransport category airplanes, principally the Douglas DC–3, the Lockheed L–18, and the Curtiss C–46, to comply with stricter requirements than those now in effect for passenger operations pursuant to Part 42. In the case of the C–46, these operations are further limited by Special Civil Air Regulation SR–391 which temporarily establishes a maximum certificated weight for this airplane of 44,300 pounds with an additional 1,000 pounds for those airplanes having certain type propellers.

Tests are currently being conducted with the C–46, incorporating certain modifications which are designed to improve performance and the general safety of operation. These tests are being conducted by the Aircraft Engineering Foundation, representing the C–46 operators, which has requested that the Board extend the present applicable regulations until June 30, 1954. It is stated that these tests will be completed soon and that the results will be presented to the Civil Aeronautics Administration for appraisal in the early part of 1954. In consideration of the foregoing, SR–391 is being extended to not later than March 31, 1954; which, in view of the ample notice which has been given for consideration by the industry of the factors involved in the continued use of nontransport category airplanes in passenger operations, should constitute sufficient time for presentation to and consideration by the Board of the necessary data derived from the tests.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all the relevant matter presented. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Special Civil Air Regulation SR–391, effective immediately:

By amending paragraph 1 of Special Civil Air Regulation SR–391 by deleting the date "January 1, 1954" and inserting in lieu thereof the date "April 1, 1954".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

---

[Civil Air Reg., Amdt. 42–19]

## PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

EXTENSION OF DATE FOR REQUIREMENT OF APPROVED TYPE RADIO EQUIPMENT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

This amendment to Part 42 of the Civil Air Regulations extends the date by which approved type radio equipment must be installed in airplanes used in operations conducted under Part 42.

Part 42 requires that after December 31, 1953, radio equipment used in large airplanes operated under this part shall be of an approved type. This requirement was adopted in August 1951, and thus allowed two years for the type certification of equipment then being used by many carriers operating under this part. Although the Civil Aeronautics Administration and industry groups have been working on the type certification of this equipment for some time, it is not expected that this will be completed until early in 1954. The Board has been requested, therefore, to extend the date by which the requirement for approved radio equipment must be met. In view of the fact that an extension of the date by which nontransport category airplanes must comply with transport category requirements is being granted until March 31, 1954, the Board has determined that the requirement that large airplanes operating under Part 42 be equipped with approved type radio equipment should also be extended to that date. This will permit sufficient time for the type certification of the equipment used by many operators conducting operations under this part.

Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective immediately:

By amending § 42.23 by deleting the date "December 31, 1953" and inserting in lieu thereof the date "March 31, 1954".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 603, 52 Stat. 1007, 1009; 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 42–20]

## PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

EXTENSION OF DATE REQUIRING NONTRANSPORT CATEGORY AIRPLANES USED IN PASSENGER OPERATIONS TO COMPLY WITH STANDARDS OTHER THAN THOSE CURRENTLY IN EFFECT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

This amendment to Part 42 of the Civil Air Regulations extends the date by which nontransport category airplanes must comply with transport category rules.

Section 42.15 (c) for the past several years has stated that after December 31, 1953, all airplanes used in irregular passenger operation shall comply with the transport category requirements of Parts 4a or 4b and with transport category operating limitations. This provision, which was identical to provisions in Parts 40 and 41 of the Civil Air Regulations, was intended to require nontransport category airplanes, principally the Douglas DC–3, the Lockheed L–18, and the Curtiss C–46, to comply with stricter requirements than those now in effect for passenger operations pursuant to Part 42. In the case of the C–46, these operations are further limited by Special Civil Air Regulation SR–391, which temporarily establishes a maximum certificated weight for this airplane of 44,300 pounds with an additional 1,000 pounds for those airplanes having certain type propellers.

Tests are currently being conducted with the C–46, incorporating certain modifications which are designed to improve performance and the general safety of operation. These tests are being conducted by the Aircraft Engineering Foundation, representing the C–46 operators, who have requested that the Board extend the present applicable regulations until June 30, 1954. It is stated that these tests will be completed soon and that the results will be presented to the Civil Aeronautics Administration for appraisal in the early part of 1954. In consideration of the foregoing, the compliance date in Part 42 is being extended to not later than March 31, 1954; which, in view of the ample notice which has been given for consideration by the industry of the factors involved in the continued use of nontransport category airplanes in passenger operations, should constitute sufficient time for presentation to and consideration by the Board of the necessary data derived from the tests.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all the relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective immediately:

By amending § 42.15 (c) by deleting the date "December 31, 1953" and inserting in lieu thereof the date "March 31, 1954".

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604; 52 Stat. 1007, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[Reg. No. PR–23]

## PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

REDESIGNATION OF THE OFFICE OF ENFORCEMENT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 22d day of December 1953.

Effective November 23, 1953, the Office of Enforcement of the Civil Aeronautics Board was redesignated and renamed the Office of Compliance. Accordingly, it is appropriate to amend the rules of practice of the Civil Aeronautics Board to reflect this change by referring therein to the "Office of Compliance" and "Compliance Attorney" rather than "Office of Enforcement" and "Enforcement Attorney".

Since this amendment is not a substantive rule but one of agency organization and procedure, notice and public procedure hereon are unnecessary and the amendment may be made effective upon less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR 302) as follows:

1. By substituting the term "Office of Compliance" for "Office of Enforcement" in §§ 302.201, 302.203, 302.205, 302.206 (a), (b) and (c), and § 302.215.

2. By substituting the term "Compliance Attorney" for "Enforcement Attorney" in §§ 302.9, 302.28, 302.30, 302.205 and 302.210.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interpret or apply § 1001; 52 Stat. 1017; 49 U. S. C. 641)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[Regulations 4, further amended]

## PART 404—FEDERAL OLD-AGE AND SURVIVORS INSURANCE (1950——)

WAGE REPORTS AND CONTRIBUTION RETURNS

Section 404.1250 of Regulations No. 4, as amended (20 CFR, 1952 Supp., 404.1250), is amended by adding a new paragraph (c) to read:

§ 404.1250 *Wage reports and contribution returns.* * * *

(c) *Filing of wage reports and contribution returns with directors of internal revenue.* (1) Where a State or any of its political subdivisions has in its employ individuals performing services for the State or a political subdivision of the State as members of a coverage group included under an agreement and such

individuals also regularly perform services identical in nature in the employ of employers who are subject to the provisions of subchapter A or E of chapter 9 of the Internal Revenue Code with respect to the wages paid by such employers for such services to such individuals, and where, with the approval of the Internal Revenue Service, the payment of the taxes and the filing of information returns required of employers under subchapter A or E of chapter 9 of the Internal Revenue Code are made for all such employers by an agent appointed by them, such State may, with respect to such individuals, elect to permit the agent of such employers to file tax and information returns with, and to make payment thereon to, a director of internal revenue in the manner and according to the conditions prescribed in regulations of the Internal Revenue Service relating to the employees' tax and the employers' tax under subchapter A or E of chapter 9 of the Internal Revenue Code.

(2) Where the Secretary has been furnished with written evidence to the effect that a State has made such an election and that the Commissioner of Internal Revenue has agreed to permit a director of internal revenue to accept and receive such contribution and information returns and payment of contributions, the filing of such tax and information returns with, and the payment of such contributions to, the director shall be deemed to be compliance with the requirements imposed upon the State by paragraph (a) of this section, except that nothing contained in this paragraph shall relieve any such State of its obligations and responsibilities under its agreement and the regulations in this subpart relative to its liability for the payments required under its agreement.

(Sec. 205, 49 Stat. 624, as amended, sec. 1102, 49 Stat. 647, sec. 218, 64 Stat. 514; 42 U. S. C. 405, 418, 1302. Interprets or applies sec. 218, 64 Stat. 514, 42 U. S. C. 418)

## TITLE 22—FOREIGN RELATIONS

### Chapter I—Department of State

[Dept. Reg. 108.206]

PART 44—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE REFUGEE RELIEF ACT OF 1953

AMENDMENTS TO REFUGEE REGULATIONS

Part 44, Chapter I, Title 22 of the Code of Federal Regulations, is hereby amended as follows:

1. Paragraph (a) *Submission of assurances*, of § 44.3, *Assurance of employment, housing, and against becoming a public charge*, is amended to read as follows:

(a) *Submission of assurances.* The assurance required by section 7 (a) of the act relating to employment, housing, and against becoming a public charge shall be given in writing by a responsible citizen or citizens of the United States. The assurance shall be (1) in such form and content as shall be prescribed by the Administrator; (2) accompanied by such documentary evidence as may be required by written instructions attached thereto; and (3) forwarded in triplicate to the Director of the Visa Office, Department of State, Washington 25, D. C. An assurance shall be the personal obligation of the individual citizen or citizens signing it. Several citizens may give individual assurances to cover the members of a family. Assurances which do not specifically identify the prospective employment and housing accommodation shall be considered blanket assurances and shall not be considered as meeting the requirements of section 7 of the act. The following assurance forms shall be used exclusively and may be obtained from the Visa Office of the Department of State, from any District Office of the Immigration and Naturalization Service, or from any voluntary or other recognized agency which performs services in connection with the immigration, settlement, or welfare of aliens:

Form DSR 1—Assurance by an individual sponsor for named alien.

Form DSR 2—Assurance by more than one sponsor for named alien.

Form DSR 3—Assurance by an individual sponsor for alien nominated by agent.

Form DSR 4—Assurance by more than one sponsor for alien nominated by agent.

2. Paragraph (f) *Procedure in case of unknown alien*, of § 44.3, *Assurance of employment, housing, and against becoming a public charge*, is amended to read as follows:

(f) *Procedure in case of unknown alien.* A United States citizen who desires to sponsor an unknown alien shall execute Form DSR–3 (Form DSR–4 if more than one sponsor) in an original and four copies and, in his discretion, may designate therein an individual or public or private agency or organization as his agent for the purpose of nominating the alien beneficiary of the assurance in accordance with its specifications. The original and three signed copies of the assurance shall be transmitted by the sponsor to the designated agent. At such time as an alien beneficiary has been nominated and the "Statement by Agent", annexed to the assurance form, has been properly completed by the agent, including the name of the nominated alien, the original and two signed copies of the assurance shall be forwarded to the Director of the Visa Office, Department of State, Washington 25, D. C. The assurance shall be accompanied by such documentary evidence as the attached instructions may require.

3. Paragraph (a) *Assurance of adoption and proper care*, of § 44.4, *Eligible orphans*, is amended to read as follows:

(a) *Assurance of adoption and proper care.* The assurance of adoption and proper care required by section 5 (b) of the act in the case of an orphan to be adopted in the United States shall be given in writing jointly by the adoptive United States citizen and spouse, and forwarded in triplicate (original and two signed copies) to the Director of the Visa Office, Department of State, Washington 25, D. C. Form DSR–5 shall be used in the case of an orphan known to the adoptive parents. Form DSR–6 shall be used in the case of an orphan to be selected by a designated agency. An assurance of adoption and proper care shall provide such information and be accompanied by such documentary evidence as may be required to satisfy the Administrator and the consular officer that (1) proper care will be provided the orphan in conformity with standards established by an appropriate public agency of the State in which the orphan will reside, (2) appropriate proceedings for the adoption of such orphan in the United States will be initiated and completed as soon as possible in accordance with the applicable State law, (3) no legal obstacle to a lawful adoption is known or believed to exist under the laws of the State of prospective adoption, (4) permission to bring the orphan into the State of prospective adoption has been obtained from the appropriate State agency, if such permission is necessary, (5) the orphan has been irrevocably released in writing for emigration and adoption in accordance with the law governing the relinquishment of a child for adoption in the country of the orphan's residence and the release is deemed acceptable to the court of prospective adoption, (6) a satisfactory investigation of the proposed adoptive home and parents has been made by a local child-care agency recognized by the State in which the orphan will reside, which investigation shall be compatible with the requirements, procedures and practices of the appropriate State welfare agency, (7) a satisfactory investigation in the country of the orphan's residence has been made by a qualified welfare agency concerning the orphan's mental and physical health, family background and other pertinent matters, and (8) arrangements have been made with an appropriate local agency or any other local child-care agency for the supervision of the orphan pending his legal adoption, and, in the event the adoption petition is denied by the court, for the assumption by such agency of responsibility for the care and resettlement of the orphan.

4. Paragraph (b) *Affidavit by social welfare agency*, of § 44.4 *Eligible orphans*, is amended to read as follows:

(b) *Statement by social welfare agency.* Every assurance of adoption and proper care given for an eligible orphan shall be a named assurance and shall be accompanied by a statement signed by a responsible officer of a national or other social welfare agency, recognized for such purpose by the Administrator, attesting to the authenticity and bona fides of the assurance, which statement shall be considered by the Administrator as a confirmation that the requirements and conditions, specified in paragraph (a) of this section, have been satisfied. The United States citizen and spouse who execute an assurance of adoption and proper care shall designate therein a recognized social welfare agency to provide the necessary statement. It shall be incumbent upon such agency to report to the appropriate State Department of Welfare whenever an eligible orphan is to be placed within the State, and to indicate in the report what local agency will assume responsibility for the supervision of the orphan pending his or her legal adoption.

5. Paragraph (c) *Procedure in case of unknown orphan*, of § 44.4, *Eligible orphans*, is amended to read as follows:

(c) *Procedure in case of unknown orphan.* In the case of an orphan who is not known to the adoptive parents, the United States citizen and spouse shall execute Form DSR–6 in an original and four copies and shall authorize therein the designated social welfare agency to act as their agent in the selection of an eligible orphan in accordance with the specifications of the assurance. The original of the assurance and three signed copies thereof shall be transmitted by the adoptive parents to the designated agency. At such time as an eligible orphan has been selected and the required statement has been executed by a responsible officer of the designated agency, the complete file in the case, including the original and two signed copies of the assurance, shall be forwarded to the Director of the Visa Office, Department of State, Washington 25, D. C.

6. Paragraph (e) *Procedure in case of orphan adopted abroad*, of § 44.4, *Eligible orphans*, is amended to read as follows:

(e) *Procedure in case of orphan adopted abroad.* In the case of an orphan who has been adopted abroad, the adoptive United States citizen and spouse shall execute Form DSR–5 only to the extent required in such form, and if residing abroad, may submit the original and one signed copy thereof directly to the consular officer to whom an application for an immigrant visa will be made in behalf of such orphan. In the event the adoptive parents of an orphan adopted abroad are residing in the United States, the executed Form DSR–5 shall be submitted in triplicate (original and two signed copies) to the Director of the Visa Office, Department of State, Washington 25, D. C.

(Sec. 4, 63 Stat. 111; 5 U. S. C. 151c)

The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

Dated: December 21, 1953.

SCOTT MCLEOD,
*Administrator, Bureau of Security, Consular Affairs, and Personnel.*

## TITLE 26—INTERNAL REVENUE

### Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[Regulations 20]

PART 194—WHOLESALE AND RETAIL DEALERS IN LIQUORS

*Preamble.* 1. These regulations "Regulations 20, Wholesale and Retail Dealers in Liquors" (26 CFR, Part 194), are a republication of Regulations 20, 1940 edition (26 CFR, Part 194), as amended to date by approved Treasury decisions.

2. These regulations, except for the revision of one section to conform with the delegation of authority made in IR-Mimeograph No. 232, dated July 6, 1953, consist only of previously approved material but the text has been rearranged and renumbered to conform to the Federal Register Regulations (13 F. R. 5929).

3. This republication of these regulations shall not affect or limit any act done or any liability previously incurred, or any suit, action or proceeding had or commenced in any civil, administrative, or criminal cause and proceeding prior to the date of republication, nor shall this republication release, acquit, affect, or limit any offense committed in violation of these regulations prior to republication, or any penalty, liability or forfeiture incurred prior to such date.

4. It is found that compliance with the notice and public rule-making procedure of section 4 (a) and the effective date limitations of section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1001, et seq.) is unnecessary in connection with the republication of the regulations in this part for the reason that the changes made relate merely to form and not substance.

Sec.

194.0 Statutory provisions.
194.0–1 Departmental regulations.
194.0–2 Stamps for containers of distilled spirits.
194.0–3 Signs of distillers, rectifiers, and wholesale liquor dealers.
194.0–4 Books of rectifiers and wholesale dealers.

194.45 Sales of denatured alcohol or articles.
194.46 Sales by agencies and instrumentalities of the United States.
194.47 Warehouse receipts covering spirits.
194.48 Single sale of warehouse receipts by an investor.

Limited Special Tax

194.49 Sales of wines and malt liquors at fairs, picnics and similar entertainments.
194.50 Persons who may not procure limited special tax stamps.
194.51 Change of location.

Subpart D—Places Subject to Special Tax

194.60 Each place of business taxable.
194.61 Place of sale.
194.62 Place of offering for sale.
194.63 Place of storage.
194.64 Caterers.
194.65 Peddling.

Sales at Two or More Bars on the Same Premises

194.66 Two or more bars with intercommunication.
194.67 Two or more bars without intercommunication.
194.68 Segregated establishment.
194.69 Hotel, ball park, race track, etc.; sales throughout the premises.
194.70 Hotel, ball park, race track, etc.; sales confined to limited area.

Subpart E—Each Business Taxable

194.80 Different businesses of same ownership and location.
194.81 Retail and wholesale dealer in liquors at same location.
194.82 Retail and wholesale malt liquor dealer at same location.
194.83 Retail dealer in malt liquors and retail dealer in liquors at same location.
194.84 Mixing cocktails.

Subpart F—Partnerships

194.90 Liability of partners.
194.91 Preparation of special tax stamp.
194.92 Addition of partners or incorporation of partnership.
194.93 Formation of a partnership by two dealers.
194.94 Withdrawal of one or more partners.

Subpart G—Payment of Special Tax

194.100 Special tax rates.
194.101 Date special tax is due.
194.102 Computation of special tax.
194.103 Filing of return and payment of special tax.
194.104 Method of payment.

Special Tax Return, Form 11

194.105 Data required.
194.106 Execution of Form 11.
194.107 Extensions of time for filing returns.
194.108 Penalty for failure to file return.

Delinquent Returns

194.109 Reasonable causes for delinquency.
194.110 Other alleged causes.
194.111 Delinquency discovered by officer working under direction of Assistant Regional Commissioner.
194.112 Causes not considered reasonable.

Subpart H—Special Tax Stamps

194.120 Issuance of stamps.
194.121 Receipt in lieu of stamp prohibited.
194.122 Stamps covering business in violation of State law.
194.123 Stamps not transferrable.

Stamps for Passenger Trains and Vessels

194.124 General.
194.125 Transfer of special tax stamps.
194.126 Sales on passenger trains and vessels.
194.127 Vessel not engaged in carrying passengers.

Stamps for Retail Dealers "At Large"

194.128 General.
194.129 Form 11 to show nature of business.
194.130 Business in more than one State.

Stamps for Dealers in Wines Only, or Wines and Malt Liquors Only

194.131 General.
194.132 Stamps as receipts for special taxes.
194.133 Sales of distilled spirits by dealers in wines or wines and malt liquors.
194.134 Stamps not exchangeable.

Medicinal Spirits Stamps

194.135 Stamps for drug stores and pharmacies selling through licensed pharmacists.

Stamp To Be Posted

194.136 General.

Missing Stamps

194.137 Lost or destroyed.
194.138 Seizure by State authorities.

Correction of Errors on Special Tax Stamps

194.139 Errors disclosed by taxpayers.
194.140 Errors discovered on inspection.

Stamps for Improper Periods

194.141 General.
194.142 Liability within current fiscal year.
194.143 Liability within a past fiscal year.
194.144 Amended return required.

Record 10

194.145 Public list of taxpayers.
194.146 Use of Record 10.
194.147 Furnishing copy of Record 10.

Subpart I—Change of Location

194.150 Amended return, Form 11.
194.151 Removal within same internal revenue district.
194.152 Removal to another internal revenue district.
194.153 Failure to register change of address within 30 days.
194.154 Certificate in lieu of lost or destroyed special tax stamp.

Subpart J—Change in Proprietorship or Control

194.160 Sale of business.
194.161 Incorporation of business.
194.162 New corporation.
194.163 Stockholder continuing business of corporation.
194.164 Change in trade name or style of business.
194.165 Change of name or increase in capital stock of a corporation.
194.166 Change in ownership of capital stock.
194.167 Change in membership of unincorporated club.
194.168 Change of control; right of succession.
194.169 Persons having right of succession.
194.170 Failure to register right of succession within 30 days.
194.171 Certificate in lieu of lost or destroyed special tax stamps.

Subpart K—Exceptions and Exemptions

194.180 Sales of liquors for immediate consumption on premises.
194.181 Sales of malt liquors for immediate consumption on premises.
194.182 Dealers consummating sales of malt liquors at premises of other dealers.
194.183 Deliveries of malt liquors from place of storage not covered by special tax stamp.
194.184 Distillers selling in original stamped packages.
194.185 Distillers selling in other than original stamped packages.

194.194 Sales of entire stock by retail malt liquor dealer in liquidation.
194.195 Sales by qualified winemakers.
194.196 Sales by apothecaries and druggists.
194.197 Sales by proprietors of industrial alcohol plants or warehouses.

Subpart L—Refund and Redemption of Special Taxes

194.200 Claims.
194.201 Time limit on filing of claim.
194.202 Discontinuance of business.
194.203 Dealer in malt liquors who sells distilled spirits or wines.
194.204 Dealer in liquors who actually sells only malt liquors.

Subpart M—Maintenance of Records and Posting of Signs

Wholesale Liquor Dealer Records

194.210 General requirements, Record 52.
194.211 Warehouse receipts, Form 52F.
194.212 Dealer selling distilled spirits at retail only.
194.213 Dealers not selling distilled spirits.
194.214 Proprietors.
194.215 Entries on Record 52.
194.216 Entry of miscellaneous items.
194.217 Separate record of name of distiller, rectifier, or bottler.
194.218 Separate record of serial numbers of cases.
194.219 Form of separate records.
194.220 Place where Record 52 shall be kept; general.
194.221 Exception.
194.222 Place where Form 52–F shall be kept.
194.223 Requirements when wholesale liquor dealer maintains a retail department.
194.224 Records to be kept by States.

Retail Liquor Dealers

194.225 Requirements where wholesale department is kept.
194.226 Requirements for dealers in distilled spirits.
194.227 Requirements for dealers in malt liquors.

Reports

194.228 Time of filing.
194.229 No transactions during month.
194.230 Discontinuance of business.

Report of Third Party Transactions

194.231 Additional requirements.
194.232 Shipment or delivery to third party.

Procurement of Forms

194.233 Forms to be provided by users at own expense.

Posting of Signs

194.234 By wholesalers.
194.235 By retailers.

Subpart N—Strip Stamps

194.240 Strip stamps required on all bottles.
194.241 Destruction of strip stamp on opening bottle.
194.242 Mutilated or missing red strip stamps.
194.243 Replacement of mutilated or missing red strip stamps found by dealer.
194.244 Mutilated or missing red strip stamps found by internal revenue officer.
194.245 Replacement not required.
194.246 Strip stamp missing; open bottle.

Subpart O—Miscellaneous

194.250 Purchase or sale of used containers.
194.251 Reuse or refilling containers.
194.252 Possession of used containers.
194.253 Tapping of beer barrels and kegs.
194.254 Possession of undestroyed beer stamps.
194.255 Destruction of stamps, marks, and brands on wine containers.

Subpart P—Packaging Alcohol for Industrial Purposes

194.260 Requirements and procedure.
194.261 Labeling.

Authority: §§ 194.1 to 194.261 issued under 53 Stat. 375, 467; 26 U. S. C. 3176, 3791. Other statutory provisions interpreted or applied are cited to the text in parenthesis.

§ 194.0 *Statutory provisions.* The provisions of law having more common application to wholesale and retail dealers in liquors are contained in §§ 194.0–1 to 194.0–41.

§ 194.0–1 *Departmental regulations.*

5 U. S. C. 22. Departmental regulations.

The head of each department is authorized to prescribe regulations, not inconsistent with law, for the government of his department, the conduct of its officers and clerks, the distribution and performance of its business, and the custody, use, and preservation of the records, papers and property appertaining to it.

§ 194.0–2 *Stamps for containers of distilled spirits.*

26 U. S. C. 2803. Stamps for containers of distilled spirits.

(a) *Requirement.* No person shall transport, possess, buy, sell, or transfer any distilled spirits, unless the immediate container thereof has affixed thereto a stamp denoting the quantity of distilled spirits contained therein and evidencing payment of all internal-revenue taxes imposed on such spirits. The provisions of this section shall not apply to—

(1) Distilled spirits placed in a container for immediate consumption on the premises or for preparation for such consumption;

(2) Distilled spirits in bond or in customs custody;

(3) Distilled spirits in immediate containers required to be stamped under existing law;

(4) Distilled spirits in actual process of rectification, blending, or bottling, or in actual use in processes of manufacture;

(5) Distilled spirits on which no internal-revenue tax is required to be paid;

(6) Distilled spirits not intended for sale or for use in the manufacture or production of any article intended for sale; or

(7) Any regularly established common carrier receiving, transporting, delivering, or holding for transportation or delivery distilled spirits in the ordinary course of its business as a common carrier.

(b) *Purchase and supply.* Any person placing or intending to place any distilled spirits upon which all internal-revenue taxes have been paid into any container upon which a stamp is required by this section, or withdrawing or intending to withdraw any imported spirits in such containers from customs custody, shall be entitled to purchase sufficient stamps for stamping such containers. Such stamps shall be issued by the Commissioner to each Collector, upon his requisition, in such numbers as may be necessary in his district, and shall be sold by the Collectors to persons entitled thereto upon application therefor and compliance with regulations under this section, at a price of 1 cent for each stamp, except that in the case of stamps for containers of less than one half pint the price shall be one quarter of 1 cent for each stamp. When in his judgment there is no danger to the revenue, and upon the giving of such bonds or other security as he may deem necessary, the Commissioner may authorize the sale of such stamps to importers for stamping containers in the country from which imported.

(c) *Unused stamps; exchange, refund, etc.* The Commissioner of Internal Revenue, under regulations prescribed by him and approved by the Secretary of the Treasury, may redeem or make allowance for any unused stamps issued under section 203 of the Liquor Taxing Act of 1934 or subsection (b) of this section by exchanging them for other stamps of the same kind or by refunding moneys received therefor: *Provided*, That stamps may be exchanged or the value thereof refunded only in quantities of the value of $5 or more: *And provided further*, That no claim for the exchange of strip stamps or refund therefor shall be allowed unless presented within two years after the date on which such stamps were lawfully issued. There are hereby authorized to be appropriated annually, out of any money in the Treasury not otherwise appropriated, such sums as may be necessary to carry out this provision.

(d) *Regulations for issuing, affixing, and canceling stamps.* The Commissioner, with the approval of the Secretary, shall prescribe (a) regulations with respect to the time and manner of applying for, issuing, affixing, and destroying stamps required by this section, the form and denominations of such stamps, proof that applicants are entitled to such stamps, and the method of accounting for receipts from the sale of such stamps, and (b) such other regulations as he shall deem necessary for the enforcement of this section.

(e) *Destruction of stamps.* Every person emptying any container stamped under the provisions of this section shall at the time of emptying such container destroy the stamp thereon.

(f) *Forfeiture of spirits.* All distilled spirits found in any container required to bear a stamp by this section, which container is not stamped in compliance with this section and regulations issued thereunder, shall be forfeited to the United States.

(g) *Penalties.* Any person who violates any provision of this section, or who, with intent to defraud, falsely makes, forges, alters, or counterfeits any stamp made or used under this section, or who uses, sells, or has in his possession any such forged, altered, or counterfeited stamp, or any plate or die used or which may be used in the manufacture thereof, or any stamp required to be destroyed by this section, or who makes, uses, sells, or has in his possession any paper in imitation of the paper used in the manufacture of any such stamp, or who reuses any stamp required to be destroyed by this section, or who places any distilled spirits in any bottle which has been filled and stamped under this section without destroying the stamp previously affixed to such bottle, or who affixes any stamp issued under this section to any container of distilled spirits on which any tax due is unpaid, or who makes any false statement in any application for stamps under this section, or who has in his possession any such stamps obtained by him otherwise than as provided in subsection (b), shall on conviction be punished by a fine not exceeding $1,000, or by imprisonment at hard labor not exceeding five years, or by both. Any officer authorized to enforce any provisions of law relating to internal revenue stamps is authorized to enforce the provisions of this section and the provisions of section 2909 relating to the bottling of distilled spirits in bond.

(h) *Transfer of duties.* For transfer of duties and powers of the Commissioner and his agents, see section 3170.

§ 194.0–3 *Signs of distillers, rectifiers, and wholesale liquor dealers.*

26. U. S. C. 2831. Signs of distillers, rectifiers, and wholesale liquor dealers.

Every person engaged in distilling or rectifying spirits, and every wholesale liquor dealer, shall place and keep conspicuously

Sec.
194.0–39 Definitions.
194.0–40 Delegation of authority.
194.0–41 Forms prescribed.

Subpart Q—Scope of Regulations

194.270 Persons engaged in business as brewers.
194.271 Persons not engaged in business as brewers.
194.272 Territorial extent.

194.500 Purchase or sale of used containers.
194.501 Reuse or refilling containers.
194.502 Possession of used containers.
194.503 Tapping of beer barrels and kegs.

Authority: §§ 194.0–39 to 194.503 issued under 53 Stat. 375, 467; 26 U. S. C. 3176, 3791. Other statutory provisions interpreted or applied are cited to the text in parenthesis.

§ 194.0 *Statutory provisions.* The provisions of law having more common application to brewers are contained in §§ 194.0–39 to 194.0–41.

§ 194.0–39 *Definitions.* When used in this part and in forms prescribed thereunder, unless the context otherwise requires, the following terms shall have the meanings ascribed to them in this section:

(a) *Assistant Regional Commissioner.* The Assistant Regional Commissioner, Alcohol and Tobacco Tax, Internal Revenue Service, for the region in which the brewer is located.

(b) *Beer.* Beer, ale, porter, stout, and other similar fermented beverages (including sake or similar products) containing not more than 24 per centum of alcohol by volume, brewed or produced from malt, wholly or in part, or from any substitute therefor.

(c) *Brewer.* Any person who brews beer or produces beer, except for personal consumption.

(d) *Commissioner.* The Commissioner of Internal Revenue, Internal Revenue Service, Treasury Department, Washington, D. C.

(e) *District Director.* The District Director of Internal Revenue, Internal Revenue Service, for the district in which the brewer is located.

(f) *Fiscal year.* The period beginning July 1 and ending June 30.

(g) *Gallon.* The wine gallon of 231 cubic inches.

(h) *I. R. C.* The Internal Revenue Code.

(i) *Person.* A partnership, association, company, or corporation, as well as a natural person.

(j) *U. S. C.* The United States Code.

§ 194.0–40 *Delegation of authority.* The Commissioner is authorized by the Secretary of the Treasury to perform the functions vested in the Secretary of the Treasury by the provisions of law relating to the taxation of beer, except the power to make regulations and the power to make recommendations to the Congress.

§ 194.0–41 *Forms prescribed.* The Commissioner is authorized to prescribe all forms required by this part.

on the outside of the place of such business a sign, exhibiting in plain and legible letters, not less than three inches in length, painted in oil-colors or gilded, and of a proper and proportionate width, the name or firm of the distiller, rectifier, or wholesale dealer, with the words: "Registered distillery," "rectifier of spirits," or "wholesale liquor dealer," as the case may be. Every person who violates the foregoing provision by negligence or refusal, or otherwise, shall pay a penalty of $500.

And every person, other than a rectifier or wholesale liquor dealer who has paid the special tax, or a distiller who has given bond as required by law, who puts up or keeps up the sign required by this section, or any sign indicating that he may lawfully carry on the business of a distiller, rectifier, or wholesale liquor dealer, shall forfeit and pay $1,000, and shall be imprisoned not less than one month nor more than six months. And every person who works in any distillery, rectifying establishment, or wholesale liquor store, on which no sign is placed and kept, as hereinbefore provided; and every person who knowingly receives at, carries or conveys any distilled spirits to or from, any such distillery, rectifying establishment, warehouse, or store, or who knowingly carries and delivers any grain, molasses, or other raw material to any distillery on which such sign is not placed and kept, shall forfeit all horses, carts, drays, wagons, or other vehicle or animal used in carrying or conveying such property aforesaid, and shall be fined not less than $100 nor more than $1,000, or be imprisoned not less than one month nor more than six months.

### § 194.0–4 *Books of rectifiers and wholesale dealers.*

26 U. S. C. 2857. BOOKS OF RECTIFIERS AND WHOLESALE DEALERS.

(a) *Requirements.* Every rectifier and every wholesale liquor dealer who sells, or offers for sale, distilled spirits in quantities of five wine-gallons or more to the same person at the same time shall keep daily, at his place of business covered by his special tax stamp, a record of distilled spirits received and disposed of by him, and shall render under oath correct transcripts and summaries of such records: *Provided*, That the Commissioner may in his discretion require such record to be kept at the place where the spirits are actually received and sent out. The records shall be kept and the transcripts shall be rendered in such form, and under such rules and regulations as the Commissioner, with the approval of the Secretary, may prescribe.

The records required to be kept under the provisions of this section and regulations issued pursuant thereto, shall be preserved for a period of four years, and during such period shall be available during business hours for inspection and the taking of abstracts therefrom by the Commissioner or any internal revenue officer.

Every rectifier and wholesale liquor dealer who refuses or neglects to keep such records in the form prescribed by the Commissioner, with the approval of the Secretary, or to make entries therein, or cancels, alters, or obliterates any entry therein (except for the purpose of correcting errors) or destroys any part of such records, or any entry therein, or makes any false entry therein, or hinders or obstructs any internal revenue officer from inspecting such records or taking any abstracts therefrom, or neglects or refuses to preserve or produce such records as required by this chapter or by regulations issued pursuant thereto, shall pay a penalty of $100 and, on conviction, shall be fined not less than $100 nor more than $5,000, and be imprisoned not less than three months nor more than three years.

Every rectifier and wholesale liquor dealer who refuses or neglects to render transcripts or summaries in the form required by the Commissioner, with the approval of the Secretary, shall, upon conviction, be fined not more than $100 for each such neglect or refusal.

(b) *Transfer of Duties.* For transfer of powers and duties of Commissioner and his agents, see section 3170.

### § 194.0–5 *Exemption of States from provisions of section 2857.*

26 U. S. C. 2858. EXEMPTION OF STATES FROM PROVISIONS OF SECTION 2857.

The provisions of section 2857 shall not apply to States and Commonwealths and liquor stores operated by such States and Commonwealths that maintain and make available to inspection by internal-revenue officers such records as will enable such officers to readily trace all distilled spirits received and disposed of by them: *Provided*, That such States and Commonwealths, and the liquor stores operated by them, shall, upon the request of the Commissioner, furnish to the Commissioner such transcripts, summaries, and copies of their records as he shall require.

### § 194.0–6 *Limitation on purchases by rectifiers and dealers.*

26 U. S. C. 2860. LIMITATION ON PURCHASES BY RECTIFIERS AND DEALERS.

It shall not be lawful for any rectifier of distilled spirits, or wholesale or retail liquor dealer, to purchase or receive any distilled spirits in quantities greater than twenty gallons from any person other than an authorized rectifier of distilled spirits, distiller, or wholesale liquor dealer. Every person who violates this section shall forfeit and pay $1,000: *Provided*, That this provision shall not be held to apply to judicial sales, or to sales at public auction made by an auctioneer, or to sales upon which no special tax accrues as enumerated and provided for in section 3251. This section shall not be held to prohibit a rectifier or liquor dealer from purchasing, in quantities greater than twenty wine-gallons, the distilled spirits sold in one parcel as provided in section 3251 (c).

### § 194.0–7 *Regulation of traffic in containers of distilled spirits.*

26 U. S. C. 2871. REGULATION OF TRAFFIC IN CONTAINERS OF DISTILLED SPIRITS.

Whenever in his judgment such action is necessary to protect the revenue, the Secretary is authorized, by the regulations prescribed by him, and permits issued thereunder if required by him (1) to regulate the size, branding, marking, sale, resale, possession, use, and re-use of containers (of a capacity of less than five wine-gallons) designed or intended for use for the sale at retail of distilled spirits (within the meaning of such term as it is used in section 2803) for other than industrial use, and (2) to require, of persons manufacturing, dealing in, or using any such containers, the submission to such inspection, the keeping of such records, and the filing of such reports as may be deemed by him reasonably necessary in connection therewith. Whoever willfully violates the provisions of any regulation prescribed, or the terms or conditions of any permit issued, pursuant to the authorization contained in this section, and any officer, director, or agent of any corporation who knowingly participates in such violation, shall, upon conviction, be fined not more than $1,000 or be imprisoned for not more than two years, or both; and, notwithstanding any criminal conviction, the containers involved in such violation shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for forfeitures, seizures, and condemnations for violations of the internal-revenue laws, and any such containers so seized and condemned shall be destroyed and not sold. Any requirements imposed under this section shall be in addition to any other requirements imposed by, or pursuant to, law, and shall apply as well to persons not liable for tax under the internal-revenue laws as to persons so liable.

### § 194.0–8 *Exemption of industrial alcohol plants and warehouses from certain laws.*

26 U. S. C. 3103. EXEMPTION OF INDUSTRIAL ALCOHOL PLANTS AND WAREHOUSES FROM CERTAIN LAWS.

Industrial alcohol plants and bonded warehouses established under the provisions of this part shall be exempt from the provisions of sections 3154, 3244, 3258, 3259, 3260, 3263, 3264, 3266, 3267, 3268, 3269, 3271, 3273, 3274, 3275, 3279, 3280, 3283, 3284, 3285, 3286, 3287, 3288, 3289, 3290, 3291, 3292, 3293, 3294, 3295, 3302, 3303, 3307, 3308, 3309, 3310, 3311, 3312, 3313, 3314, and 3327 of the Revised Statutes; sections 48 to 60, inclusive, and sections 62 and 67 of the Act of August 27, 1894 (Twenty-eighth Statutes, pages 563 to 568), as such sections existed on October 28, 1919, and from such other provisions of laws existing on October 28, 1919, relating to distilleries and bonded warehouses as may, by regulations, be declared inapplicable to industrial alcohol plants and bonded warehouses established under this subchapter.

Regulations may be made embodying any provision of the sections above enumerated.

### § 194.0–9 *Taxability of denatured alcohol or articles produced, transferred, used, or sold in violation of law or regulations.*

26 U. S. C. 3111. TAXABILITY OF DENATURED ALCOHOL OR ARTICLES PRODUCED, TRANSFERRED, USED, OR SOLD IN VIOLATION OF LAW OR REGULATIONS.

Any person who shall produce, withdraw, sell, transport, or use denatured alcohol, denatured rum, or articles in violation of laws or regulations now or hereafter in force pertaining thereto, and all such denatured alcohol, denatured rum, or articles shall be subject to all provisions of law pertaining to alcohol that is not denatured, including those requiring the payment of tax thereon; and the person so producing, withdrawing, selling, transporting, or using the denatured alcohol, denatured rum, or articles shall be required to pay such tax.

### § 194.0–10 *Penalties and forfeitures.*

26 U. S. C. 3159, PENALTIES AND FORFEITURES.

(a) *Evasion of tax or noncompliance with requirements on brewers.* Every owner, agent, or superintendent of any brewery, vessels, or utensils used in making fermented liquors, who evades or attempts to evade the payment of the tax thereon, or fraudulently neglects or refuses to make true and exact entry and report of the same in the manner required by law, or to do, or cause to be done, any of the things by law required to be done by him, or who intentionally makes false entry in said book or in said statement, or knowingly allows or procures the same to be done, shall—

(1) *Forfeitures.* Forfeit, for every such offense, all the liquors made by him or for him, and all the vessels, utensils, and apparatus used in making the same, and

(2) *Penalties.* Be liable to a penalty of not less than $500 nor more than $1,000, to be recovered with costs of suit, and shall be deemed guilty of a misdemeanor, and be imprisoned for a term not exceeding one year.

(b) *Neglect to keep books or furnish accounts.* Every brewer who neglects to keep books or refuses to furnish the account and duplicate thereof as provided by law, or refuses to permit the proper officer to examine the books in the manner provided, shall, for every such refusal or neglect, forfeit and pay the sum of $300.

(c) *Flagrant and willful removal of malt liquors without tax payment.* For flagrant and willful removal of taxable malt liquors for consumption or sale, without payment of tax thereon, all the right, title, and interest of each person, who has knowingly suffered or permitted such removal or has connived at the same, in the lands and buildings constituting the brewery premises and bottling house shall be forfeited by a proceeding in rem in the District Court of the United States having jurisdiction thereof.

(d) *Fraud or neglect in affixing or canceling stamps.* Every brewer who refuses or neglects to affix and cancel, in the manner provided under section 3152 (b), the stamps required by law, or who affixes a false or fraudulent stamp, or knowingly permits the same to be done, shall pay a penalty of $100 for each hogshead, barrel, or keg on which such omission or fraud occurs, and be imprisoned not more than one year.

(e) *Sale, removal, or receipt without proper stamp or permit.* Whenever any brewer, cartman, agent for transportation, or other person, sells, removes, receives, or purchases, or in any way aids in the sale, removal, receipt, or purchase, of any fermented liquor contained in any hogshead, barrel, keg, or other vessel from any brewery or brewery warehouse, upon which the stamp, or permit, in case of removal, required by law, has not been affixed, or on which a false or fraudulent stamp, or permit, in case of removal, is affixed, with knowledge that it is such, or on which a stamp, or permit, in case of removal, once canceled, is used a second time, he shall be fined $100 and imprisoned for not more than one year.

(f) *Withdrawal from improperly stamped containers or without destroying stamps, penalty.* Whenever any retail dealer, or other person, withdraws or aids in the withdrawal of any fermented liquor from any hogshead, barrel, keg, or other vessel containing the same, without destroying or defacing the stamp affixed thereon, or withdraws or aids in the withdrawal of any fermented liquor from any hogshead, barrel, keg, or other vessel, upon which the proper stamp has not been affixed or on which a false or fraudulent stamp is affixed, he shall be fined $100 and imprisoned not more than one year.

(g) *Counterfeiting stamps and permits and trafficking in used stamps, penalty.* Every person who makes, sells, or uses any false or counterfeit stamp or permit, or die for printing or making stamps or permits, which is in imitation of or purports to be a lawful stamp, permit, or die of the kind before mentioned in this chapter, or who procures the same to be done, and every person who shall remove, or cause to be removed, from any cask or package of fermented liquors, any stamp denoting the tax thereon, with intent to reuse such stamp, or who, with intent to defraud the revenue, knowingly uses, or permits to be used, any stamp removed from another cask or package, or receives, buys, sells, gives away, or has in his possession, any stamp so removed, or makes any fraudulent use of any stamp for fermented liquors, shall be fined not less than $100 nor more than $1,000, and imprisoned not less than six months nor more than three years.

(h) *Possession with tax not paid, forfeiture.* The ownership or possession by any person of any fermented liquor after its sale or removal from the brewery or warehouse, or other place where it was made, upon which the tax required has not been paid, shall render such liquor liable to seizure wherever found, and to forfeiture, removal under said permits excepted.

And the absence of the proper stamps from any hogshead, barrel, keg, or other vessel containing fermented liquor, after its sale or removal from the brewery where it was made, or warehouse as aforesaid, shall be notice to all persons that the tax has not been paid thereon, and shall be prima facie evidence of the nonpayment thereof.

(i) *Removal or defacement of stamps by others than the owner.* Every person, other than the purchaser or owner of any fermented liquor, or person acting on his behalf, or as his agent, who intentionally removes or defaces the stamp or permit affixed upon the hogshead, barrel, keg, or other vessel, in which the same is contained, shall be liable to a fine of $50 for each such vessel from which the stamp or permit is so removed or defaced, and to render compensation to such purchaser or owner for all damages sustained by him therefrom.

(j) *Fraudulent removal of bottled fermented malt liquors.* Any brewer or other person who removes or in any way aids in the removal from any brewery or brewery bottling house of any bottled fermented malt liquors on which the required tax has not been paid shall be fined $100 and imprisoned for not more than one year.

(k) *Intentional removal or defacement of manufacturer's marks on containers.* For penalty imposed for intentional removal or defacement of manufacturer's marks required upon a hogshead, barrel, keg, or other vessel containing fermented liquor, see section 3155 (f).

* * * * * *

### § 194.0–11 *Tax.*

26 U. S. C. 3250. TAX.

(a) *Wholesale dealers in liquors*—(1) *In general.* Wholesale dealers in liquors shall pay a special tax of $200.

(2) *Wholesale dealers in liquors dealing in wines or wines and malt liquors.* For the designation of wholesale dealers in liquors as wholesale dealers in wines or wholesale dealers in wines and malt liquors, and the issuance of the appropriate special tax stamps, see section 3254 (b).

(3) *Retailers selling at wholesale.* Except as provided in section 3254 (c) (2), a qualified retail dealer in liquors may not sell distilled spirits, wines, or malt liquors in quantities of five wine-gallons or more to the same person at the same time without incurring liability to special tax as a wholesale dealer in liquors.

(4) *Distillers selling at wholesale.* No distiller who has given the required bond and who sells only distilled spirits of his own production at the place of manufacture, or at the place of storage in bond, in the original packages to which the tax-paid stamps are affixed, shall be required to pay the special tax of a wholesale dealer in liquors on account of such sales.

(5) *Retail dealers in liquidation.* For exemption of retailers liquidating entire stock from payment of special tax as wholesalers, see section 3251 (c).

(6) *Creditors, fiduciaries, officers of court, and partners.* For exemption of creditors, fiduciaries, officers of court, and partners from the payment of any special tax by reason of casual sales, see section 3251 (a) and (b).

(b) *Retail dealers in liquors*—(1) *In general.* Except as provided in paragraph (3) of subsection (e), retail dealers in liquors shall pay a special tax of $50.

(2) *Retail drug stores or pharmacies.* The tax required to be paid by paragraph (1) shall in the case of a retail drug store or pharmacy making sales of liquors through a duly licensed pharmacist, be designated as a "medicinal spirits stamp tax."

(3) *Retail dealers in liquors dealing in wines or wines and malt liquors.* For the designation of retail dealers in liquors as retail dealers in wines and malt liquors, and the issuance of appropriate special tax stamps, see section 3254 (c) (1).

(4) *Wholesalers selling at retail.* A qualified wholesale dealer in liquors may not sell distilled spirits, wines, or malt liquors in quantities of less than five wine gallons without incurring liability to special tax as a retail dealer in liquors.

(5) *Creditors, fiduciaries, officers of court, and partners.* For exemption of creditors, fiduciaries, officers of court, and partners from the payment of any special tax by reason of casual sales, see section 3251 (a) and (b).

(c) *Brewers*—(1) *In general.* Brewers shall pay $110 in respect of each brewery: *Provided*, That any brewer of less than 500 barrels a year shall pay the sum of $55.

(2) *Cross reference.* For effect upon special tax of purchases or sales of malt liquors by brewers, see paragraph (3) of subsection (d).

(d) *Wholesale dealers in malt liquors*—(1) *In general.* Wholesale dealers in malt liquors shall pay a special tax of $100.

(2) *Retailers selling at wholesale.* A qualified retail dealer in malt liquors may not sell such liquors in quantities of five gallons or more to the same person at the same time without incurring liability to special tax as a wholesale dealer in malt liquors. No retail dealer in malt liquors shall be held to be a wholesale dealer in malt liquors solely by reason of sales of five gallons or more to the same person at the same time if such sales are for immediate consumption on the premises where sold.

(3) *Brewers selling at wholesale.* No brewer shall be obliged to pay special tax as a dealer by reason of selling in the original stamped hogsheads, barrels, or kegs, whether at the place of manufacture or elsewhere, malt liquors manufactured by him, or purchased and procured by him in his own hogsheads, barrels, or kegs, under provisions of section 3155 (f), but the quantity of malt liquors so purchased shall be included in calculating the liability to brewers' special tax of both the brewer who manufactures and sells the same and the brewer who purchases the same.

(4) *Retail dealers in liquidation.* For exemption of retailers liquidating entire stock from payment of special tax as wholesalers, see section 3251 (c).

(e) *Retail dealers in malt liquors*—(1) *In general.* Retail dealers in malt liquors shall pay a special tax of $22.

(2) *Wholesalers selling at retail.* A qualified wholesale dealer in malt liquors may not sell such liquors in quantities of less than five gallons without incurring liability to special tax as a retail dealer in malt liquors.

(3) *Persons selling to entertainments and outings.* Notwithstanding the provisions of this part, each person making sales of fermented malt liquor or wine to the members, guests, or patrons of bona-fide fairs, reunions, picnics, carnivals, or other similar outings, and each fraternal, civic, church, labor, charitable, benevolent, or ex-service men's organization making sales of fermented malt liquor or wine on the occasion of any kind of entertainment, dance, picnic, bazaar, or festival held by it, if such person or organization is not otherwise engaged in business as a wholesale or retail liquor dealer or as a wholesale or retail malt liquor dealer, shall pay, before any such sales are made and in lieu of the special taxes imposed by paragraph (1) of this subsection and of subsection (b) a special tax of $2.20 as a retail dealer in malt liquors, if fermented malt liquor only is sold, or a special tax of $2.20 as a retail dealer in liquors if wine only, or wine and fermented malt liquor only, are sold for each calendar month in which any such sales are made.

(4) *Brewers selling at retail.* No collection of special tax as a retail dealer in malt liquors shall be made from brewers for selling malt liquors of their own manufacture in the original stamped eighth-barrel packages.

(5) *Other provisions.* For other provisions relating to brewers as dealers, see paragraph (3) of subsection (d).

(6) *Transfer of duties.* For transfer of the powers and duties of the Commissioner and his agents, see section 3170.

* * * * *

(g) *Winemakers.* Nothing in this chapter or chapter 26 shall be construed to impose a special tax upon winemakers who have qualified as such under the internal-revenue laws and regulations, and who sell wines of their own production where the same are made or at the general business office of such winemaker: *Provided,* That no winemaker shall have more than one place of business for the sale of such wine that shall be exempt from the special tax.

(h) *Apothecaries.* No special tax shall be imposed upon apothecaries as to wines or spirituous liquors which they use exclusively in the preparation or making up of medicines unfit for use for beverage purposes.

• • • • •

(k) *Cross reference.* For transfer of the powers and duties of the Commissioner and his agents, see section 3170.

• • • • •

§ 194.0–12 *Casual sales.*

26 U. S. C. 3251. CASUAL SALES.

(a) *By creditors, fiduciaries, and officers of court.* No special tax shall be held to accrue on a sale of distilled spirits, wines, or malt liquors made by a person who is not otherwise a dealer in liquors, where such spirits, wines, or liquors have been received by the person so selling as security for or in payment of a debt, or as executor, administrator, or other fiduciary, or have been levied on by any officer, under order or process of any court or magistrate, and where such spirits are sold by such person in one parcel only, or at public auction in parcels not less than twenty wine-gallons.

(b) *By retiring or deceased partners to incoming or remaining partners.* No special tax shall be held to accrue on a sale of distilled spirits, wines, or malt liquors made by a retiring partner, or the representatives of a deceased partner to the incoming, remaining, or surviving partner or partners of a firm.

(c) *By retail dealers in liquidation.* The special tax of a wholesale dealer in liquors or wholesale dealer in malt liquors shall not be held to apply to a retail dealer in liquors or a retail dealer in malt liquors, because of such retail dealer selling out his entire stock of liquors in one parcel, or in parcels embracing not less than his entire stock of distilled spirits, of wines, or of malt liquors. Section 2860 shall not be held to prohibit a rectifier or liquor dealer from purchasing, in quantities greater than twenty wine-gallons, the distilled spirits sold in one parcel as aforesaid.

§ 194.0–13 *Retail liquor dealers' records.*

26 U. S. C. 3252. RETAIL LIQUOR DEALERS' RECORDS.

(a) *Requirement.* Each retail liquor dealer shall provide at his own expense, and keep in his place of business, a record in book form, or shall keep all invoices of, and bills for, all distilled spirits, wines, and fermented malt liquors received, the quantity thereof, and from whom and the date when received.

(b) *Inspection.* Such records, invoices, and bills shall be open to inspection during the usual business hours of the retailer by Government officers upon identification and request.

(c) *Preservation.* Such records, invoices, and bills shall be kept for a period of two years after the time of the transactions to which they relate.

(d) *Penalty.* For each willful violation of the provisions hereof the retailer shall be subject to a fine of $25.

§ 194.0–14 *Penalties and forfeitures for nonpayment of special tax.*

26 U. S. C. 3253. PENALTIES AND FORFEITURES FOR NONPAYMENT OF SPECIAL TAX.

Any person who shall carry on the business of a brewer, rectifier, wholesale liquor dealer, retail liquor dealer, wholesale dealer in malt liquors, retail dealer in malt liquors, or manufacturer of stills, and willfully fails to pay the special tax as required by law, shall, for every such offense, be fined not less than $100 nor more than $5,000 and be imprisoned for not less than thirty days nor more than two years. And all distilled spirits or wines, and all stills or other apparatus, fit or intended to be used for the distillation or rectification of spirits, or for the compounding of liquors, owned by such person, wherever found, and all distilled spirits or wines and personal property found in the distillery or rectifying establishment, or in any building, room, yard, or enclosure connected therewith and used with or constituting a part of the premises, shall be forfeited to the United States.

§ 194.0–15 *Definitions.*

26 U. S. C. 3254. DEFINITIONS.

(a) *Distiller.* For definition of distiller, see section 2809 (a).

(b) *Wholesale dealer in liquors.* Except as otherwise provided, every person who sells, or offers for sale, foreign or domestic distilled spirits, wines, or malt liquors in quantities or five wine-gallons or more to the same person at the same time, shall be regarded as a wholesale dealer in liquors: *Provided,* That the Commissioner may, by regulations, with the approval of the Secretary, provide for the issuance of a stamp denoting payment of such special tax as a "wholesale dealer in wines" or a "wholesale dealer in wines and malt liquors" if, as the case may be, wines only, or wines and malt liquors only, are sold by a wholesale dealer in liquors.

(c) *Retail dealer in liquors.* Except as otherwise provided, (1) every person who sells, or offers for sale, foreign or domestic distilled spirits, wines, or malt liquors in less quantities than five wine-gallons to the same person at the same time, shall be regarded as a retail dealer in liquors: *Provided,* That the Commissioner may, by regulations, with the approval of the Secretary, provide for the issuance of a stamp denoting payment of such special tax as a "retail dealer in wines" or a "retail dealer in wines and malt liquors" if, as the case may be, wines only, or wines and malt liquors only, are sold by a retail dealer in liquors.

(2) No retail dealer in liquors shall be held to be a wholesale dealer in liquors solely by reason of sales of five wine-gallons or more to the same person at the same time if such sales are for immediate consumption on the premises where sold.

• • • • •

(e) *Wholesale dealer in malt liquors.* Except as otherwise provided, every person who sells, or offers for sale, malt liquors in quantities of five gallons or more, to the same person at the same time, and who does not deal in distilled spirits or wines at wholesale, shall be regarded as a wholesale dealer in malt liquors.

(f) *Retail dealer in malt liquors.* Except as otherwise provided, every person who sells, or offers for sale, malt liquors in less quantities than five gallons to the same person at the same time, and does not deal in distilled spirits or wines, shall be regarded as a retail dealer in malt liquors.

• • • • •

§ 194.0–16 *Liability in case of business in more than one location.*

26 U. S. C. 3255. LIABILITY IN CASE OF BUSINESS IN MORE THAN ONE LOCATION.

(a) *Retail dealers in liquors or malt liquors.* Any retail dealer in liquors or retail dealer in malt liquors whose business is such as to require him to travel from place to place in different States of the United States may, under regulations prescribed by the Commissioner, with the approval of the Secretary, procure a special-tax stamp "At large" covering his activities throughout the United States with the payment of but one special tax as a retail dealer in liquors or as a retail dealer in malt liquors, as the case may be.

(b) *Dealers in liquors or malt liquors.* Nothing contained in this chapter shall prevent the issue, under such regulations as the Commissioner may prescribe, of special tax stamps to persons carrying on the business of retail dealers in liquors, or retail dealers in malt liquors, upon passenger railroad trains or upon steamboats or other vessels engaged in the business of carrying passengers.

(c) *Dealers in liquors or malt liquors making sales on purchaser dealers' premises.* No wholesale or retail dealer in liquors or wholesale or retail dealer in malt liquors who has paid the special tax as such a dealer shall again be required to pay special tax as such dealer on account of sales of beer, lager beer, ale, porter, or other similar fermented malt liquor to wholesale or retail dealers in liquors or wholesale or retail dealers in malt liquors consummated at the purchaser's place of business covered by the stamp issued to him to denote the payment of the special tax imposed upon such dealers.

§ 194.0–17 *Registration.*

26 U. S. C. 3270. REGISTRATION.

(a) *Requirements.* Every person engaged in any trade or business on which a special tax is imposed by law shall register with the collector of the district his name or style, place of residence, trade or business, and the place where such trade or business is to be carried on. In case of a firm or company, the names of the several persons constituting the same, and the places of residence, shall be so registered.

(b) *Cross references.*

• • • • •

§ 194.0–18 *Payment of tax.*

26 U. S. C. 3271. PAYMENT OF TAX.

(a) *Condition precedent to doing business.* No person shall be engaged in or carry on any trade or business mentioned in this chapter until he has paid a special tax therefor in the manner provided in this chapter.

(b) *Due date.* All special taxes shall become due on the 1st day of July in each year, or on commencing any trade or business on which such tax is imposed. In the former case the tax shall be reckoned for one year, and in the latter case it shall be reckoned proportionately, from the 1st day of the month in which the liability to a special tax commenced, to and including the 30th day of June following.

(c) *How paid*—(1) *Stamp.* All special taxes imposed by law, including the tax on stills or worms, shall be paid by stamps denoting the tax.

(2) *Assessment.* For authority of Commissioner to make assessments where the special taxes have not been duly paid by stamp, at the time and in the manner provided by law, see section 3640.

§ 194.0–19 *Returns.*

26 U. S. C. 3272. RETURNS.

(a) *Time for filing.* It shall be the duty of the special taxpayers to render their returns with remittances to the collector at such times within the calendar month in which the special tax liability commenced as shall enable him to receive such returns, duly signed and verified, together with the remittances, not later than the last day of the month, except in cases of sickness or absence, as provided for in section 3634.

(b) *Transfer of duties.*

• • • • •

(c) *Penalties.* For penalties imposed for failure to file returns or for making false or fraudulent returns, see section 3612.

§ 194.0–20 *Stamps.*

26 U. S. C. 3273. *Stamps.*

(a) *Supply.* The Commissioner is required to procure appropriate stamps for the payment of all special taxes imposed by law, including the tax on stills or worms; and the provisions of section 2802 (a) and of sections 3330, 3331, and 3302, and all other provisions of law relating to the preparation and issue of stamps for distilled spirits, fermented liquors, tobacco, and cigars, shall, so far as applicable, extend to and include such stamps for special taxes; and the Commissioner shall have authority to make all needful regulations relative thereto.

(b) *Posting.* Every person engaged in any business, avocation, or employment, who is thereby made liable to a special tax, shall place and keep conspicuously in his establishment or place of business all stamps denoting the payment of said special tax.

(c) *Transfer of duties.*

• • • • •

§ 194.0–21 *Penalties relating to posting of special tax stamp.*

26 U. S. C. 3274. PENALTIES RELATING TO POSTING OF SPECIAL TAX STAMP.

Any person who shall, through negligence, fail to place and keep stamps denoting the payment of the special tax as provided in section 3273 (b) shall be liable to a penalty equal to the special tax for which his business rendered him liable, and the costs of prosecution; but in no case shall said penalty be less than $10. And where the failure to comply with the provisions of section 3273 (b) shall be through willful neglect or refusal, then the penalty shall be double the amount above prescribed: *Provided,* That nothing in this section shall in any way affect the liability of any person for exercising or carrying on any trade, business, or profession, or doing any act for the exercising, carrying on, or doing of which a special tax is imposed by law, without the payment thereof.

§ 194.0–22 *List of special-taxpayers for public inspection.*

26 U. S. C. 3275. LIST OF SPECIAL-TAXPAYERS FOR PUBLIC INSPECTION.

(a) *In collector's office.* Each collector shall, under regulations of the Commissioner, place and keep conspicuously in his office, for public inspection, an alphabetical list of the names of all persons who shall have paid special taxes within his district, and shall state thereon the time, place, and business for which such special taxes have been paid, and upon application of any prosecuting officer of any State, county, or municipality, he shall furnish a certified copy thereof, as of a public record, for which a fee of $1 for each one hundred words or fraction thereof in the copy or copies so requested, may be charged.

(b) *Transfer of duties.*

• • • • •

§ 194.0–23 *Application of State laws.*

26 U. S. C. 3276. APPLICATION OF STATE LAWS.

The payment of any tax imposed by the internal revenue laws for carrying on any trade or business shall not be held to exempt any person from any penalty or punishment provided by the laws of any State for carrying on the same within such State, or in any manner to authorize the commencement or continuance of such trade or business contrary to the laws of such State or in places prohibited by municipal law; nor shall the payment of any such tax be held to prohibit any State from placing a duty or tax on the same trade or business, for State or other purposes.

§ 194.0–24 *Liability of partners.*

26 U. S. C. 3277. LIABILITY OF PARTNERS.

Any number of persons doing business in copartnership at any one place shall be required to pay but one special tax.

§ 194.0–25 *Liability in case of business in more than one location.*

26 U. S. C. 3278. LIABILITY IN CASE OF BUSINESS IN MORE THAN ONE LOCATION.

The payment of the special tax imposed shall not exempt from an additional special tax the person carrying on a trade or business in any other place than that stated in the collector's register; but nothing herein contained shall require a special tax for the storage of goods, wares, or merchandise in other places than the place of business, nor, except as provided in this chapter for the sale by manufacturers or producers of their own goods, wares, and merchandise, at the place of production or manufacture, and at their principal office or place of business, provided no goods, wares, or merchandise shall be kept except as samples at said office or place of business.

§ 194.0–26 *Liability in case of different businesses of same ownership and location.*

26 U. S. C. 3279. LIABILITY IN CASE OF DIFFERENT BUSINESSES OF SAME OWNERSHIP AND LOCATION.

Whenever more than one of the pursuits or occupations described in this chapter are carried on in the same place by the same person at the same time, except as otherwise provided in this chapter, the tax shall be paid for each according to the rates severally prescribed.

§ 194.0–27 *Liability in case of death or change of location.*

26 U. S. C. 3280. LIABILITY IN CASE OF DEATH OR CHANGE OF LOCATION.

(a) *Requirements.* When any person who has paid the special tax for any trade or business dies, his wife or child, or executors or administrators or other legal representatives, may occupy the house or premises, and in like manner carry on, for the residue of the term for which the tax is paid, the same trade or business as the deceased before carried on, in the same house and upon the same premises, without the payment of any additional tax. And when any person removes from the house or premises for which any trade or business was taxed to any other place, he may carry on the trade or business specified in the collector's register at the place to which he removes, without the payment of any additional tax: *Provided,* That all cases of death, change, or removal, as aforesaid, with the name of the successor to any person deceased, or of the person making such change or removal, shall be registered with the collector, under regulations to be prescribed by the Commissioner.

(b) *Registration.*

• • • • •

(c) *Transfer of duties.*

• • • • •

§ 194.0–28 *Establishment and alteration.*

26 U. S. C. 3300. ESTABLISHMENT AND ALTERATION.

(a) *Authorization.* The Commissioner, with the approval of the Secretary, may establish and, from time to time, alter or change the form, style, character, material, and device of any stamp, mark, or label used under any provision of the laws relating to internal revenue.

(b) *Application of penalty and forfeiture provisions.* All pains, penalties, fines, and forfeitures provided by law relating to internal revenue stamps shall apply to and have full force and effect in relation to any and all stamps so established by the Commissioner.

(c) *Cross references.* For other provisions giving the Commissioner general authority to establish, alter, and renew stamps, see section 3901 (a) (2).

• • • • •

§ 194.0–29 *Redemption of stamps.*

26 U. S. C. 3304. REDEMPTION OF STAMPS.

(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same cannot be returned; or, if so required by the said Commissioner, when the person presenting the same cannot satisfactorily trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claim for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

(d) *Finality of Commissioner's decisions.* The finding of facts in and the decision of the Commissioner upon the merits of any claim presented under or authorized by this section shall, in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

• • • • •

§ 194.0–30 *Period of limitation upon refunds and credits.*

26 U. S. C. 3313. PERIOD OF LIMITATION UPON REFUNDS AND CREDITS.

All claims for the refunding or crediting of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty alleged to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected must, except as otherwise provided by law in the case of income, war-profits, excess-profits, estate, and gift taxes, be presented to the Commissioner within four years next after the payment of such tax, penalty, or sum. The amount of the refund (in the case of taxes other than income, war-profits, excess-profits, estate, and gift taxes) shall not exceed the portion of the tax, penalty, or sum paid during the four years immediately preceding the filing of the claim, or if no claim was filed, then during the four years immediately preceding the allowance of the refund.

§ 194.0–31 *Entry of premises for examination of taxable objects.*

26 U. S. C. 3601. ENTRY OF PREMISES FOR EXAMINATION OF TAXABLE OBJECTS.

(a) *Authority*—(1) *Entry during day.* Any collector, deputy collector, internal revenue agent, or inspector may enter, in the daytime, any building or place where any articles or objects subject to tax are made, produced,

or kept, within his district, so far as it may be necessary for the purpose of examining said articles or objects.

§ 194.0–32 *Returns executed by Commissioner or Collector.*

26 U. S. C. 3612. RETURNS EXECUTED BY COMMISSIONER OR COLLECTOR.

(a) *Authority of collector.* If any person fails to make and file a return or list at the time prescribed by law or by regulation made under authority of law, or makes, willfully or otherwise, a false or fraudulent return or list, the collector or deputy collector shall make the return or list from his own knowledge and from such information as he can obtain through testimony or otherwise.

(b) *Authority of Commissioner.* In any such case the Commissioner may, from his own knowledge and from such information as he can obtain through testimony or otherwise—

(1) *To make return.* Make a return, or

(2) *To amend collector's return.* Amend any return made by a collector or deputy collector.

(c) *Legal status of returns.* Any return or list so made and subscribed by the Commissioner, or by a collector or deputy collector and approved by the Commissioner, shall be prima facie good and sufficient for all legal purposes.

(d) *Additions to tax—(1) Failure to file return.* In case of any failure to make and file a return or list within the time prescribed by law, or prescribed by the Commissioner or the collector in pursuance of law, the Commissioner shall add to the tax 25 per centum of its amount, except that when a return is filed after such time and it is shown that the failure to file it was due to a reasonable cause and not to willful neglect, no such addition shall be made to the tax: *Provided*, That in the case of a failure to make and file a return required by law, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, if the last date so prescribed for filing the return is after August 30, 1935, then there shall be added to the tax, in lieu of such 25 per centum: 5 per centum if the failure is for not more than 30 days, with an additional 5 per centum for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 per centum in the aggregate.

(2) *Fraud.* In case a false or fraudulent return or list is willfully made, the Commissioner shall add to the tax 50 per centum of its amount.

(3) *Cross reference.* For additions to tax in the case of income tax, see sections 291 and 293, and in the case of a deficiency in gift tax, see section 1019.

(e) *Collection of additions to tax.* The amount added to any tax under paragraphs (1) and (2) of subsection (d) shall be collected at the same time and in the same manner and as a part of the tax unless the tax has been paid before the discovery of the neglect, falsity, or fraud, in which case the amount so added shall be collected in the same manner as the tax.

(f) *Determination and assessment.* The Commissioner shall determine and assess all taxes, other than stamp taxes, as to which returns or lists are so made under the provisions of this section.

§ 194.0–33 *Extension of time for filing returns.*

26 U. S. C. 3634. EXTENSION OF TIME FOR FILING RETURNS.

If the failure to file a return (other than a return of income tax) or list at the time prescribed by law or by regulation made under authority of law is due to sickness or absence, the collector may allow such further time, not exceeding thirty days, for making and filing the return or list as he deems proper.

§ 194.0–34 *Payment by check and money orders.*

26 U. S. C. 3656. PAYMENT BY CHECK AND MONEY ORDERS.

(a) *Certified, cashiers', and treasurers' checks and money orders—(1) Authority to receive.* It shall be lawful for collectors to receive for internal revenue taxes or in payment of stamps to be used in payment of internal revenue taxes certified, cashiers' and treasurers' checks drawn on National and State banks and trust companies, and United States postal, bank, express, and telegraph money orders, during such time and under such regulations as the Commissioner, with the approval of the Secretary, may prescribe.

(b) *Other checks.—(1) Authority to receive.* Collectors may receive checks in addition to those specified in subsection (a) in payment of taxes other than those payable by stamp during such time and under such rules and regulations as the Commissioner, with the approval of the Secretary, shall prescribe.

§ 194.0–35 *Receipts for taxes.*

26 U. S. C. 3659. RECEIPTS FOR TAXES.

(a) *In general.* Every collector and deputy collector shall give receipts for all sums collected by him, excepting only when the same are in payment for stamps sold and delivered; but no collector or deputy collector shall issue a receipt in lieu of a stamp representing a tax.

• • • • •

§ 194.0–36 *Authority to make abatements, credits, and refunds.*

26 U. S. C. 3770. AUTHORITY TO MAKE ABATEMENTS, CREDITS, AND REFUNDS.

(a) *To taxpayers—(1) Assessments and collections generally.* Except as otherwise provided by law in the case of income, estate, and gift taxes, the Commissioner, subject to regulations prescribed by the Secretary, is authorized to remit, refund, and pay back all taxes erroneously or illegally assessed or collected, all penalties collected without authority, and all taxes that appear to be unjustly assessed or excessive in amount, or in any manner wrongfully collected.

(2) *Assessments and collections after limitation period.* Any tax (or any interest, penalty, additional amount, or addition to such tax) assessed or paid after the expiration of the period of limitation properly applicable thereto shall be considered an overpayment and shall be credited or refunded to the taxpayer if claim therefor is filed within the period of limitation for filing such claim.

(3) *Date of allowance.* Where the Commissioner has signed a schedule of overassessments in respect of any internal revenue tax imposed by this title, the Revenue Act of 1932, or any prior revenue Act, the date on which he first signed such schedule (if after May 28, 1928) shall be considered as the date of allowance of refund or credit in respect of such tax.

(4) *Credit of overpayment of one class of tax against another class of tax due.* Notwithstanding any provision of law to the contrary, the Commissioner may, in his discretion, in lieu of refunding an overpayment of tax imposed by any provision of this title, credit such overpayment against any tax due from the taxpayer under any other provision of this title.

(5) *Delegation of authority to collectors to make refunds.* The Commissioner, with the approval of the Secretary, is authorized to delegate to collectors any authority, duty, or function which the Commissioner is authorized or required to exercise or perform under paragraph (1), (2), (3), or (4) of this subsection, or under section 322 or 1027, where the amount involved (exclusive of interest, penalties, additions to the tax, and additional amounts) does not exceed $10,000.

(6) *Cross references.*

• • • • •

§ 194.0–37 *Rules and regulations.*

26 U. S. C. 3791. RULES AND REGULATIONS.

(a) *Authorization—(1) In general.* Except as provided in section 1928 (a), Cotton Futures, section 2599, Marihuana, section 2559, Narcotics, section 3176, Liquor, and section 1805, Silver, the Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this title.

(2) *In case of change in law.* The Commissioner may make all such regulations, not otherwise provided for, as may have become necessary by reason of any alteration of law in relation to internal revenue.

(b) *Retroactivity of regulations or rulings.* The Secretary, or the Commissioner with the approval of the Secretary, may prescribe the extent, if any, to which any ruling, regulation, or Treasury Decision, relating to the internal revenue laws, shall be applied without retroactive effect.

§ 194.0–38 *Verification of returns; penalties of perjury.*

26 U. S. C. 3809. VERIFICATION OF RETURNS; PENALTIES OF PERJURY.

(a) *Penalties.* Any person who willfully makes and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter, shall be guilty of a felony, and, upon conviction thereof, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

(b) *Signature presumed correct.* The fact that an individual's name is signed to a return, statement, or other document filed shall be prima facie evidence for all purposes that the return, statement, or other document was actually signed by him.

(c) *Verification in lieu of oath.* The Commissioner, under regulations prescribed by him with the approval of the Secretary, may require that any return, statement, or other document required to be filed under any provision of the internal revenue laws shall contain or be verified by a written declaration that it is made under the penalties of perjury, and such declaration shall be in lieu of any oath otherwise required.

### Subpart A—Scope of Regulations

§ 194.1 *Wholesale and retail dealers in liquors.* These regulations, "Regulations 20, Wholesale and Retail Dealers in Liquors" (26 CFR Part 194) contain the procedural and substantive requirements relative to special taxes and other requirements as to wholesale and retail dealers in distilled spirits, wines, and fermented malt liquors. The provisions of this part cover special taxes incurred through the sale of liquors, changes in location, proprietorship, or control of premises subject to special tax; refunds and redemption of special tax stamps; packaging of alcohol for industrial purposes; use of bottle strip stamps; and the maintenance of records by dealers in liquors.

§ 194.2 *Territorial extent.* The provisions of this part shall be applicable to the several States of the United States, the Territories of Alaska and Hawaii, and the District of Columbia.

### Subpart B—Definitions

§ 194.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 194.6 *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean an Assistant Regional Commissioner, Alcohol and Tobacco Tax.

§ 194.7 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 194.8 *District Director.* "District Director" shall mean a District Director of Internal Revenue.

§ 194.9 *Fiscal year.* "Fiscal year" shall mean the period from July 1 of each calendar year to and including June 30 of the following calendar year.

§ 194.10 *Gallon.* "Gallon" or "wine gallon" shall mean a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

§ 194.11 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code.

§ 194.12 *Person.* "Person" shall include a natural person, corporation, partnership, trust or estate, joint-stock company, association or other unincorporated organization or group, fiduciary, a State, city, county, municipality, or other political subdivision.

§ 194.13 *U. S. C.* "U. S. C." shall mean the United States Code.

### Subpart C—Special Taxes

§ 194.20 *Basis of tax.* Special taxes are imposed upon the engaging in or carrying on the business or occupation of selling or offering for sale alcoholic liquors fit for use as a beverage. No person shall be engaged in or carry on any business or occupation hereinafter mentioned unless he has paid special tax therefor in the manner provided in this part.

(53 Stat. 388 as amended, 391; 26 U. S. C. 3250, 3253)

§ 194.21 *Agents and auctioneers.* A person who sells merely as the agent or employee of another is not subject to special tax. Auctioneers selling on behalf of others are within this category.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.22 *Selling or offering for sale.* Whether the activities of any person constitute selling or offering for sale is to be determined by the facts in each case, but any course of selling, though to a restricted class of persons or without a view to profit, is within the meaning of the statute.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.23 *Single sale.* A single sale, unattended by circumstances showing the one making the sale to be engaged in business, does not create special tax liability.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.24 *Brokers or agents.* A broker or agent may solicit orders for liquors in the name of a customer or principal, receive a commission for his services and make collections for his customer or principal without incurring liability to special tax. A retail dealer in liquors, or a retail dealer in malt liquors, receiving and transmitting to a wholesale dealer orders for liquors or malt liquors, as the case may be, in wholesale quantities does not incur liability to special tax as a wholesale dealer if he merely transmits the orders and the liquors or malt liquors, as the case may be, are billed, charged, and shipped to the customers by the wholesaler. No special tax liability is incurred even though the retail dealer receives a commission on such sales or guarantees the payment of the accounts.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.25 *Classification of alcoholic liquors.* There are three general classifications of alcoholic liquors for purposes of special tax: (a) distilled spirits, (b) wines, and (c) fermented malt liquors. Distilled spirits include alcohol, whisky, brandy, gin, rum, vodka, cordials, liqueurs, cocktails, etc. Wines include still wines, champagne, sparkling and carbonated wines, vermouth, etc. Fermented malt liquors include such products as beer, ale, stout, porter, sake, etc.

(53 Stat. 298 as amended, 347 as amended, 365 as amended; 26 U. S. C. 2800, 3030, 3150)

§ 194.26 *Retail dealers in liquors; persons liable.* Every person who sells, or offers for sale, foreign or domestic distilled spirits, wines, or malt liquors, otherwise than as provided in this part, in less quantities than 5 wine gallons to the same person at the same time is a retail dealer in liquors and shall pay the special tax imposed.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.27 *Lawful sales by retail dealer in liquors.* A person who pays special tax as a retail dealer in liquors may sell either distilled spirits, wines, or malt liquors, or any two or all three of them. He may sell all three classes of liquors to the same person at the same time: *Provided*, That the quantity of each class is less than 5 wine gallons. For example, he may sell 4 gallons of distilled spirits, 4 gallons of wine, and 4 gallons of malt liquors in one transaction. He may not sell either distilled spirits, wines, or malt liquors in quantities of 5 wine gallons or more to the same person at the same time without incurring liability to special tax as wholesale dealer in liquors.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.28 *Wholesale sales by retail dealer in liquors.* Where a retail dealer in liquors accepts an order for 5 wine gallons or more of distilled spirits or wines, a transaction has been made in a wholesale quantity, notwithstanding the order is filled and delivery is made in parcels of less than 5 wine gallons and on different dates. Except as provided in § 194.180, liability to special tax as a wholesale liquor dealer is incurred where two or more orders for 5 wine gallons or more are accepted under such conditions during a fiscal year, or where circumstances surrounding acceptance of a single order show the person is engaged in business as a wholesale liquor dealer. Similarly, liability to special tax as a wholesale dealer in malt liquors is incurred by a retail dealer in liquors when he accepts orders for 5 wine gallons or more of malt liquors, except as provided in § 194.181.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.29 *Wholesale dealers in liquors; persons liable.* Every person who sells, or offers for sale, foreign or domestic distilled spirits, wines, or malt liquors in quantities of 5 wine gallons or more to the same person at the same time is a wholesale dealer in liquors and shall pay the special tax imposed.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.30 *Retail sales by wholesale dealers in liquors.* A wholesale dealer in liquors who sells or offers for sale distilled spirits, wines, or malt liquors in quantities of less than 5 wine gallons to the same person at the same time must pay special tax as a retail dealer in liquors.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.31 *Retail dealers in malt liquors; persons liable.* Every person who sells, or offers for sale, malt liquors in less quantities than 5 gallons to the same person at the same time, and who does not sell or offer for sale distilled spirits or wines, shall be regarded as a retail dealer in malt liquors and shall pay the special tax imposed.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.32 *Wholesale sales by retail dealers in malt liquors.* A retail dealer in malt liquors who sells, or offers for sale, malt liquors in quantities of 5 gallons or more to the same person at the same time subjects himself to special tax as a wholesale dealer in malt liquors.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.33 *Retail dealer in malt liquors selling other classes of alcoholic liquors.* When a retail dealer in malt liquors sells, or offers for sale, other classes of alcoholic liquors in quantities of less than 5 wine gallons to the same person at the same time, he must pay special tax as retail dealer in liquors.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.34 *Wholesale dealers in malt liquors; persons liable.* Every person who sells, or offers for sale, malt liquors in quantities of 5 gallons or more to the same person at the same time, and who does not sell or offer for sale distilled spirits or wines at wholesale, shall be regarded as a wholesale dealer in malt liquors and shall pay the special tax imposed.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.35 *Retail sales by wholesale dealers in malt liquors.* A wholesale dealer in malt liquors may not sell or offer for sale such liquors in quantities of less than 5 gallons to the same person at the same time without incurring liability to special tax as a retail dealer in malt liquors.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.36 *Wholesale dealer in malt liquors selling other classes of alcoholic liquors.* A wholesale dealer in malt liquors may not sell, or offer for sale, distilled spirits or wines without incurring liability to special tax as a retail or wholesale dealer in liquors, depending upon the quantity sold to the same person at the same time.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.37 *Sales to members by clubs or similar organization.* A club or similar organization furnishing liquors to its members under conditions constituting sale is required to pay special tax.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.38 *Club or similar organization accepting orders from members.* A club or similar organization which sells liquors to its members by accepting orders therefor, furnishing the liquors so ordered and collecting the price thereof, is required to pay special tax.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.39 *Bar conducted by club or similar organization at outings.* A club or similar organization conducting a bar for the sale of liquors, on the occasion of an outing, picnic, or other entertainment, must pay special tax. The special tax stamp held by the proprietor of the premises where the bar is located will not relieve the club or similar organization from special tax liability.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.40 *Purchases by club or similar organization for members.* Special tax is not incurred when a club or similar organization collects money in advance from its members for the purchase of liquors for their consumption, or advances such money upon an agreement with the members for reimbursement. However, special tax is incurred if the club or similar organization purchases liquors without prior agreement with the members and subsequently recoups.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.41 *Restaurants serving liquors with meals.* Proprietors of restaurants and other persons who serve liquors with meals to customers, though no separate or specific charge for the liquors is made, are required to pay special tax.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.42 *Hospitals.* Hospitals and similar institutions furnishing liquors to patients are not required to pay special tax, provided no specific or additional charge is made for the liquors so furnished.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.43 *States, counties, and municipalities.* A State, county, city, municipality, or other political subdivision engaged in the business of selling, or offering for sale, liquors is not exempt from the payment of special tax.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.44 *Sales in violation of State law.* Persons who engage in the sale, or offering for sale, of liquors in violation of State laws, are required to pay special tax. The special tax stamp is not a license or permit, and does not protect such persons from prosecution under the State laws.

(53 Stat. 395; 26 U. S. C. 3276)

§ 194.45 *Sales of denatured alcohol or articles.* Any person who sells denatured alcohol, denatured rum, or any substance or preparation made with or containing denatured alcohol or denatured rum, for use, or for sale for use, for beverage purposes, or who sells any of such products under circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or use for beverage purposes, shall pay special tax.

(53 Stat. 359; 26 U. S. C. 3111)

§ 194.46 *Sales by agencies and instrumentalities of the United States.* Section 3283 of the Internal Revenue Code, effective September 23, 1950, provides that any tax imposed by Chapter 27 of the Internal Revenue Code shall apply to any agency or instrumentality of the United States unless such agency or instrumentality is granted by statute a specific exemption from such tax. Accordingly, any agency or instrumentality of the United States, including post exchanges, ship's stores, ship's service stores, and commissaries established and conducted under the regulations of the Department of Defense, engaging in the business of selling, or offering for sale, alcoholic liquors, must pay special tax for the carrying on of such business on and after September 23, 1950. Any canteen, club, mess or similar organization operated under regulations of the Department of Defense, whether or not located on the premises of the Department of Defense, selling, or offering for sale, liquors, is liable to special tax for any period during which the organization carries on the business.

(53 Stat. 391, 64 Stat. 964; 26 U. S. C. 3254, 3283)

§ 194.47 *Warehouse receipts covering spirits.* Since the sale of warehouse receipts for distilled spirits is equivalent to the sale of distilled spirits, every person who sells, or offers for sale, warehouse receipts for distilled spirits held in registered or fruit distilleries or stored in internal revenue bonded warehouses, customs bonded warehouses, or elsewhere, incurs liability to special tax as a dealer in liquors at the place where such warehouse receipts are sold, or offered for sale, and must file return and pay occupational tax as provided in §§ 194.103 and 194.104, unless exempted by the provisions of §§ 194.189–194.194 and 194.197.

(53 Stat. 388 as amended, 391; 26 U. S. C. 3250, 3254)

§ 194.48 *Single sale of warehouse receipts by an investor.* A single sale involving one or more warehouse receipts by an investor, as distinguished from one who is engaged in the business of selling warehouse receipts, does not subject the vendor to special tax.

(53 Stat. 390; 26 U. S. C. 3251)

### Limited Special Tax

§ 194.49 *Sales of wines and malt liquors at fairs, picnics and similar entertainments.* Each person desiring to sell fermented malt liquor or wine, or both, at retail to members, guests, or patrons of bona fide fairs, reunions, picnics, carnivals, or similar outings, and each fraternal, civic, church, labor, charitable, benevolent, or ex-service men's organization desiring to sell fermented malt liquor or wine, or both, on the occasion of any kind of entertainment, dance, picnic, bazaar, or festival held by it, may obtain from the District Director for each calendar month for which any such sales are to be made (a) a retail dealer in malt liquor limited special tax stamp, if fermented malt liquor only is to be sold, or (b) a retail dealer in liquors limited special tax stamp, if wine only, or wine and fermented malt liquor only, are to be sold. Application on Form 11, and payment of the special tax of $2.20 shall be made to the District Director before any such sales are made.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.50 *Persons who may not procure limited special tax stamps.* No person or organization otherwise engaged in business as a wholesale or retail dealer in liquors, or as a wholesale or retail dealer in malt liquors, will be permitted to procure a limited special tax stamp as a retail dealer in liquors or as a retail dealer in malt liquors.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.51 *Change of location.* A person holding a limited ($2.20) special tax stamp as a retail dealer in liquors or as a retail dealer in malt liquors may, during the calendar month for which the stamp is issued, remove his business to a location other than that stated on the stamp and continue such business for the remainder of the calendar month without paying additional special tax, provided the removal is registered with the District Director, as provided in §§ 194.150–194.152.

(53 Stat. 396; 26 U. S. C. 3280)

### Subpart D—Places Subject to Special Tax

§ 194.60 *Each place of business taxable.* Except as provided in §§ 194.182 and 194.183, liability to special tax is incurred at each and every place where distilled spirits, wines, or malt liquors are sold or offered for sale.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.61 *Place of sale.* The place at which ownership of liquors is transferred, actually or constructively, is the place of sale.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.62 *Place of offering for sale.* Liquors are offered for sale (a) at the place where they are kept for sale and where a sale may be effected, or (b) at any place where sales are consummated. Liquors are not offered for sale by sending abroad an agent to take orders, or by establishing an office elsewhere for the mere purpose of taking orders, provided in each case the orders received by the agent are transmitted to the principal for acceptance at the place where the principal holds a special tax stamp.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.63 *Place of storage.* Special tax is not required to be paid for warehouses and similar places which are used by dealers merely for the storage of liquors and which are not places where orders for liquors are accepted. Where orders for liquors are received and duly accepted at a place where a special tax stamp is held, the subsequent actual delivery of the liquors from a place of storage does not require the payment of special tax at such place of storage. A dealer holding a special tax stamp at a given place, who permits actual delivery of liquors from a warehouse at another place, without prior constructive delivery by the acceptance of an order therefor at the place covered by the special tax stamp, is liable for special tax at the place of delivery.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.64 *Caterers.* Where the contract of a caterer for the furnishing of a dinner, including liquors, is made at his place of business where he holds a special tax stamp, no liability to special tax is incurred by the serving of the liquors at a different location.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.65 *Peddling.* Except as set forth in §§ 194.182 and 194.183, internal revenue laws do not contemplate the peddling of distilled spirits, wines, or malt liquors, nor permit the issuance of any special tax stamp to cover peddling activities. Persons peddling liquors and not meeting the exemption in §§ 194.182 and 194.183, are subject to special tax at each place where sales are consummated.

(53 Stat. 395; 26 U. S. C. 3278)

### Sales at Two or More Bars on the Same Premises

§ 194.66 *Two or more bars with intercommunication.* Where an owner or lessee conducts two or more bars, which have such intercommunication as will enable patrons to move freely from one bar to another without leaving the premises under his control, the various bars shall be regarded as parts of one place of business for which but one special tax stamp is required.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.67 *Two or more bars without intercommunication.* Where the proprietor of premises, other than those described in §§ 194.69 and 194.70, lets to another the privilege of selling liquors thereon at two or more bars, which are separated from each other by space under the control of the proprietor or any other person, such bars shall be regarded as separate places of business and special tax must be paid for each bar.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.68 *Segregated establishment.* One special tax stamp is not sufficient to cover the operation of two bars on the same premises, if the proprietor excludes, for example, Negroes from the bar reserved for whites, or whites from the bar reserved for Negroes. One special tax stamp is sufficient for one bar at which, for example, both whites and Negroes are served, notwithstanding the races are separated by a partition.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.69 *Hotel, ball park, race track, etc.; sales throughout the premises.* The proprietor of a hotel, ball park, race track, stadium, pavilion, or other similar enclosure constituting one premises, who engages in the business of selling liquors throughout such enclosure, including sales from baskets or containers by his employees in his behalf, is required to pay but one special tax for such enclosure. Each concessionaire having the same privilege throughout the enclosure, whether such privilege is exercised separately or simultaneously with the proprietor or another concessionaire, or concessionaires, is likewise required to pay but one special tax for such enclosure.

(53 Stat. 395; 26 U. S. C. 3278)

§ 194.70 *Hotel, ball park, race track, etc.; sales confined to limited area.* Where the proprietor of a hotel, ball park, race track, stadium, pavilion, or other similar enclosure constituting one premises confines the operations of a concessionaire, or concessionaires, to a limited area, or areas, within the enclosure, special tax is due from each concessionaire for each such area regardless of the number of bars therein: *Provided,* That if there are two or more bars within one such limited area, there must be intercommunication within such area freely open to the public, otherwise special tax will be due for each place of sale. A proprietor who reserves the right to sell liquor within an enclosure where a limited concession, or concessions, have been granted, but outside the area, or areas, allotted to the concessionaire, or concessionaires, is subject to one special tax unless the space, or spaces, reserved by the proprietor are completely separated by the area, or areas, allotted to the concessionaire, or concessionaires, in which case the proprietor is subject to special tax for each such separate space where sales are made and is also subject to the ruling as to intercommunication, if two or more bars are maintained in any area.

(53 Stat. 395; 26 U. S. C. 3278)

### Subpart E—Each Business Taxable

§ 194.80 *Different businesses of same ownership and location.* Where more than one taxable business is conducted by the same person at the same place, special tax for each business must be paid at the rates severally prescribed.

(53 Stat. 396; 26 U. S. C. 3279)

§ 194.81 *Retail and wholesale dealer in liquors at same location.* A person who engages in or carries on the businesses of a retail and wholesale dealer in liquors (different businesses under the law) at the same place is subject to special tax for each business.

(53 Stat. 396; 26 U. S. C. 3279)

§ 194.82 *Retail and wholesale malt liquor dealer at same location.* A person who engages in or carries on the businesses of a retail and wholesale malt liquor dealer (different businesses under the law) at the same place is subject to special tax for each business.

(53 Stat. 396; 26 U. S. C. 3279)

§ 194.83 *Retail dealer in malt liquors and retail dealer in liquors at same location.* A person who begins business as a retail dealer in malt liquors and procures the requisite special tax stamp as such, and thereafter during the same or a subsequent month begins business as a retail dealer in liquors (a different business under the law) must pay special tax and procure a special tax stamp as a retail dealer in liquors. Under such conditions, the retail dealer in malt liquors special tax stamp is not subject to redemption.

(53 Stat. 396; 26 U. S. C. 3279)

§ 194.84 *Mixing cocktails.* A retail dealer in liquors who mixes cocktails or compounds any alcoholic liquors in advance of sale, except for the purpose of filling, for immediate consumption on the premises, orders received at the bar or in the expectation of the immediate receipt of such orders, incurs liability to special tax as a rectifier.

(53 Stat. 396; 26 U. S. C. 3279)

### Subpart F—Partnerships

§ 194.90 *Liability of partners.* Any number of persons carrying on one business in copartnership at any one place during any fiscal year shall be required to pay but one special tax for such business.

(53 Stat. 388 as amended, 394, 395; 26 U. S. C. 3250, 3270, 3277)

§ 194.91 *Preparation of special tax stamp.* In issuing a special tax stamp to a partnership, the District Director shall show thereon the name of each and every person disclosed on the partnership's Form 11, followed by the firm or trade name, if any. The issuance by the District Director of a special tax stamp in a firm or trade name only is not authorized.

(53 Stat. 388 as amended, 394, 395; 26 U. S. C. 3250, 3270, 3277)

§ 194.92 *Addition of partners or incorporation of partnership.* Where a number of persons who have paid special tax as copartners admit one or more new members to the firm or form a corporation (a separate legal entity) to take over the business, the new firm or corporation so formed shall pay special tax computed from the first day of the month in which it commenced business.

(53 Stat. 388 as amended, 394, 395; 26 U. S. C. 3250, 3270, 3277)

§ 194.93 *Formation of a partnership by two dealers.* Where two persons, each holding a special tax stamp for a business carried on by himself, form a partnership, the firm must pay special tax to cover the business conducted by the partnership.

(53 Stat. 388 as amended, 394, 395; 26 U .S. C. 3250, 3270, 3277)

§ 194.94 *Withdrawal of one or more partners.* When a member, or members, withdraw from the partnership the remaining partner, or partners, may, without incurring additional special tax liability, carry on the same business at the same address for the balance of the taxable period for which special tax was paid, provided the partner, or partners, remaining file with the District Director from whom the special tax stamp was purchased, within 30 days after the date he or they begin to carry on the business, a return on Form 11, showing the basis of succession. If the notice of succession is not filed with the District Director

within 30 days from the date the remaining partner, or partners, begin to carry on the business, he or they will become liable to additional special tax computed from the 1st day of the calendar month in which he or they began to carry on the business to and including June 30 following. (See §§ 194.168–194.171.)

(53 Stat. 388 as amended, 394, 395; 26 U. S. C. 3250, 3270, 3277)

Subpart G—Payment of Special Tax

§ 194.100 *Special tax rates.* Special taxes are imposed upon liquor dealers at the following annual (fiscal year) rates:

| | |
|---|---|
| Retail dealers in liquors | $50.00 |
| Wholesale dealers in liquors | 200.00 |
| Retail dealers in fermented malt liquors | 22.00 |
| Wholesale dealers in fermented malt liquors | 100.00 |

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.101 *Date special tax is due.* All special taxes become due on the 1st day of July of each year, or on the 1st day of the month in which a taxable business or occupation is commenced.

(53 Stat. 394; 26 U. S. C. 3271)

§ 194.102 *Computation of special tax.* In the case of a person engaged in business during the month of July, the liability shall be reckoned for the entire fiscal year beginning July 1 and ending June 30 following. Where business is commenced subsequent to July, the liability shall be reckoned proportionately from the 1st day of the month in which business is commenced to June 30 following. For example, a person commencing business in August is liable to special tax for 11 months, or eleven-twelfths of the annual tax. If business is discontinued before the end of the fiscal year, the amount of tax is not thereby reduced.

(53 Stat. 394; 26 U. S. C. 3271)

§ 194.103 *Filing of return and payment of special tax.* Persons liable to special tax shall render their returns on Form 11, with remittances to the District Director of the district in which the business is carried on, at such time within the calendar month in which the special tax liability commenced as shall enable the District Director to receive such return and remittance not later than the last day of the month.

(53 Stat. 394; 26 U. S. C. 3272)

§ 194.104 *Method of payment.* Payment must be made in cash, or by United States post office money order, or certified check; uncertified checks will not be accepted.

(53 Stat. 394, 58 Stat. 912; 26 U. S. C. 3272, 3656)

Special Tax Return, Form 11

§ 194.105 *Data required.* Special tax returns shall be made on Form 11, which may be procured from the District Director of Internal Revenue of the district in which the business is located, and shall disclose, in the space provided, the following:

(a) The true name of the taxpayer, which may be followed by the words "trading as" and any trade name under which the business may be conducted.

(b) In the case of a partnership, the true names of each and every person comprising the partnership.

(c) The exact location of the place of business, as by name and number of building or street and, where these do not exist, by some particularization in addition to the post office address.

(d) The kind of liquor business carried on.

(53 Stat. 394; 26 U. S. C. 3270)

§ 194.106 *Execution of Form 11.* The return of an individual proprietor shall be signed by the proprietor; the return of a partnership shall be signed by a member of the firm; and the return of a corporation shall be signed by an officer thereof. In each case, the person signing the return shall designate his capacity as "individual owner," "member of firm," or, in the case of a corporation, the title of the officer. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the business of a bankrupt, insolvent, deceased person, etc., will indicate the fiduciary capacity in which they act. Returns signed by persons as agents will not be accepted unless they file with the District Director a power of attorney, authorizing them so to act. Form 11 must be verified by a written declaration that the return has been executed under the penalties of perjury.

(53 Stat. 394, 63 Stat. 667; 26 U. S. C. 3270, 3809)

§ 194.107 *Extensions of time for filing returns.* In the case of illness of the sole proprietor, or the unavoidable absence of the sole proprietor from his business, the District Director may grant such further extension of time, not exceeding 30 days from the date the return is due, for the filing of Form 11 as he deems proper. Application for extension of time for filing the return must be made in writing and addressed to the District Director of the district in which the business is located and must contain a full recital of the causes of delay.

(53 Stat. 394, 441; 26 U. S. C. 3272, 3634)

§ 194.108 *Penalty for failure to file return.* Any person liable to special tax who, without reasonable cause, fails to file a return on Form 11 within the calendar month in which special tax ability commenced shall be subject to a delinquency penalty computed on the total amount of special tax due. The penalty shall be 5 percent if the failure is not for more than 30 days, and an additional 5 percent for each additional 30 days or fraction thereof during which the delinquency continues, but not to exceed 25 percent in the aggregate.

(53 Stat. 437; 26 U. S. C. 3612)

Delinquent Returns

§ 194.109 *Reasonable causes for delinquency.* The penalty set forth in § 194.108 will be asserted and collected in every case in which a special tax return is not filed within the calendar month in which the tax liability commenced, unless an extension of time is granted under § 194.107 or a reasonable cause for delinquency is clearly established by the taxpayer. The following, when clearly established, may be accepted by District Directors and Assistant Regional Commissioners as reasonable causes:

(a) Where the return was mailed in time (whether or not the envelope containing the return had sufficient postage) to reach the District Director's office, in normal course of mails, on or before the last day of the month in which the special tax liability commenced. If the due date falls on a non-work day, whether Saturday, Sunday, or some other specified day, a return mailed in time to reach the District Director's office before the close of the first work day immediately following the due date shall be considered to have been timely filed.

(b) Where return was filed within the legal period but in the wrong internal revenue district, or directly in the Commissioner's office.

(c) Where the delay or failure to file was due to erroneous information given the taxpayer by an internal revenue officer or employee.

(d) Where the delay was caused by death or serious illness of the taxpayer or by serious illness in his immediate family.

(e) Where the delay was caused by unavoidable absence of the taxpayer.

(f) Where delinquency was caused by the destruction by fire or other casualty of the taxpayer's place of business or business records.

(g) Where the taxpayer, prior to the time for filing return, made timely application to the District Director's office for proper blanks and these were not furnished him in sufficient time to permit the executed return to be filed on or before its due date.

(h) Where the taxpayer proves that he personally visited the office of the District Director or collection officer before the expiration of the time within which to file return for the purpose of securing information or aid properly to make out his return, and through no fault of his own was unable to see the representatives of the Service.

§ 194.110 *Other alleged causes.* Where other grounds are alleged as reasonable causes for delinquency in filing a return on Form 11, a statement in explanation thereof shall be filed by the taxpayer with the District Director with the Form 11, except as provided in § 194.111. The reasonableness of other alleged causes will be determined by the District Director on the facts submitted. The policy generally to be followed is that a cause for delinquency which appeals to a man of ordinary prudence and intelligence as a reasonable cause for delay in filing the return and which clearly negatives a willful intent to disobey the taxing statutes, or gross negligence, will be accepted as reasonable. Mere ignorance of the law will not be considered a reasonable cause.

(53 Stat. 437; 26 U. S. C. 3612)

§ 194.111 *Delinquency discovered by officer working under direction of Assistant Regional Commissioner.* Where the delinquency is discovered by an internal revenue officer working under the direction of the Assistant Regional Commissioner, and the return on Form 11 is filed by or with such officer, a statement in explanation of the delinquency shall be attached to the Form 11 and transmitted to the Assistant Regional Commissioner, who will determine the reasonableness of other alleged causes on the facts submitted.

(53 Stat. 437; 26 U. S. C. 3612)

§ 194.112 *Causes not considered reasonable.* Where grounds other than those listed in § 194.109 are alleged as reasonable causes, but it is determined by the Assistant Regional Commissioner or District Director, as the case might be, that the cause is not one to be considered as reasonable within the provisions of §§ 194.110 and 194.111 the penalty shall be asserted, entered on the District Director excise tax list, and collected.

(53 Stat. 437; 26 U. S. C. 3612)

Subpart H—Special Tax Stamps

§ 194.120 *Issuance of stamps.* Upon receipt of a return properly executed on Form 11, together with a remittance in the proper amount, the District Director will issue an appropriately designated stamp to the taxpayer. District Directors and collection officers are prohibited from issuing special tax stamps before the tax is fully paid.

(53 Stat. 394; 26 U. S. C. 3273)

§ 194.121 *Receipt in lieu of stamp prohibited.* District Directors and collection officers are prohibited from issuing a receipt in lieu of a stamp. A receipt may be furnished only pending the issuance of a stamp, or where the tax liability relates to a prior fiscal year.

(53 Stat. 448; 26 U. S. C. 3659)

§ 194.122 *Stamps covering business in violation of State law.* District Directors are without authority to refuse to issue a special tax stamp to a liquor dealer engaged in business in violation of State law. The stamp is not a Federal permit or license, but is merely a receipt for the tax. The stamp affords the holder no protection against prosecution for violation of State law.

(53 Stat. 395; 26 U. S. C. 3276)

§ 194.123 *Stamps not transferable.* A special tax stamp may not be sold or transferred to another dealer.

(53 Stat. 394; 26 U. S. C. 3273)

Stamps for Passenger Trains and Vessels

§ 194.124 *General.* Special tax stamps may be issued to persons carrying on the business of retail dealers in liquors or retail dealers in malt liquors upon passenger railroad trains or upon steamboats or other vessels engaged in the business of carrying passengers. The regular retail liquor dealer and retail malt liquor dealer stamps shall be issued in such cases.

(53 Stat. 392; 26 U. S. C. 3255)

§ 194.125 *Transfer of special tax stamps.* Special tax stamps issued for the retailing of liquors on passenger trains and vessels are to be made in general terms "In the United States." The taxpayer may transfer such stamps from one passenger train or vessel to another on which he does business without registering the transfer with a District Director.

(53 Stat. 392; 26 U. S. C. 3255)

§ 194.126 *Sales on passenger trains and vessels.* The provisions of §§ 194.69 and 194.70 are equally applicable to passenger railroad trains and to steamboats or other vessels engaged in the business of carrying passengers.

(53 Stat. 392, 395; 26 U. S. C. 3255, 3278)

§ 194.127 *Vessel not engaged in carrying passengers.* A special tax stamp may not be issued for the retailing of liquor on any boat that is not engaged in the business of carrying passengers.

(53 Stat. 392; 26 U. S. C. 3255)

Stamps for Retail Dealers "At Large"

§ 194.128 *General.* A retail liquor dealer or retail dealer in malt liquors whose business is such as to require him to travel from place to place in different States of the United States, such as those who sell at carnivals or circuses, may procure a special tax stamp "At Large" covering his activities throughout the United States with the payment of but one special tax as a retail dealer in liquors or as a retail dealer in malt liquors, as the case may be.

(53 Stat. 392; 26 U. S. C. 3255)

§ 194.129 *Form 11 to show nature of business.* A retail liquor dealer or retail dealer in malt liquors who desires a special tax stamp "At Large" will so note on Form 11 filed with the District Director to whom the special tax is paid, and will state thereon the nature of his business. Before issuing a special tax stamp "At Large," the District Director will satisfy himself that the applicant is entitled to obtain a stamp so designated.

(53 Stat. 392; 26 U. S. C. 3255)

§ 194.130 *Business in more than one State.* A special tax stamp "At Large" may not be issued to a dealer whose business does not require him to travel from place to place in more than one State.

(53 Stat. 392; 26 U. S. C. 3255)

Stamps for Dealers in Wines Only, or Wines and Malt Liquors Only

§ 194.131 *General.* Retail and wholesale dealers in liquors who sell or offer for sale wines only, or wines and malt liquors only, may obtain stamps as retail or wholesale dealers in liquors, as the case may be, under the following designations upon application and payment of special tax at the annual (fiscal year) rates indicated:

| | |
|---|---|
| Retail dealer in wines | $50.00 |
| Retail dealer in wines and malt liquors | 50.00 |
| Wholesale dealer in wines | 200.00 |
| Wholesale dealer in wines and malt liquors | 200.00 |

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.132 *Stamps as receipts for special taxes.* Special tax stamps as dealers in wines only, or dealers in wine and malt liquors only, are receipts for the special taxes imposed upon retail and wholesale liquor dealers, and the holders of such stamps are subject to all provisions of internal revenue laws and regulations relating to such dealers, except as provided in §§ 194.210–194.232, inclusive.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.133 *Sales of distilled spirits by dealers in wines or wines and malt liquors.* A qualified retail dealer in wines, or in wines and malt liquors, may also sell distilled spirits in less quantities than 5 wine gallons without payment of additional special tax. A qualified wholesale dealer in wines, or in wines and malt liquors, may also sell distilled spirits in quantities of 5 wine gallons or more without payment of additional special tax.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.134 *Stamps not exchangeable.* The holders of special tax stamps as dealers in wines only, or dealers in wine and malt liquors only, may not exchange them for the regular retail and wholesale liquor dealer stamps. In the absence of specific demand or application for such stamps, District Directors shall issue the regular stamps to persons paying special tax as retail or wholesale dealers in liquors.

(53 Stat. 391; 26 U. S. C. 3254)

Medicinal Spirits Stamps

§ 194.135 *Stamps for drug stores and pharmacies selling through licensed pharmacists.* Proprietors of drug stores and pharmacies making sales of distilled spirits through duly licensed pharmacists, may procure stamps designated "Medicinal Spirits Stamp Tax" upon application and payment of special tax at the $50 annual rate. The holders of such stamps are subject to all provisions of internal revenue laws relating to retail liquor dealers. District Directors shall, in the absence of specific demand or application for such stamps, issue the regular retail liquor dealer special tax stamp.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

Stamp To Be Posted

§ 194.136 *General.* (a) A special-tax payer shall conspicuously display his special tax stamp in his place of business.

(b) A person holding a special tax stamp as a retail dealer in liquors or a retail dealer in malt liquors "At Large" must place and keep the stamp conspicuously posted at the place where he is conducting such business.

(53 Stat. 394, 395; 26 U. S. C. 3273, 3274)

Missing Stamps

§ 194.137 *Lost or destroyed.* If a special tax stamp has been lost or destroyed, the taxpayer should immediately notify the District Director of internal revenue. A "Certificate in Lieu of Lost or Destroyed Special Tax Stamp" will be issued to the taxpayer who submits an affidavit showing to the satisfaction of the District Director that the stamp was lost or destroyed. The certificate must be posted in place of the stamp; otherwise, liability for failure to post the stamp will be incurred.

§ 194.138 *Seizure by State authorities.* Where a stamp designated "Retail Dealer in Liquors" is seized by State authorities because it does not conform to the dealer's local license or permit (wine, or wine and beer), the District Director will, upon request, issue a "Certificate in Lieu of Lost or Destroyed Special Tax Stamp" to show that the dealer has paid special tax as a "Retail Dealer in Wine" or "Retail Dealer in Wines and Malt Liquors," as the case may require. However, where a special tax stamp has been seized by State authorities because the dealer has operated in violation of local law, a "Certificate in Lieu of Lost or Destroyed Special Tax Stamp" will not be issued by the District Director.

CORRECTION OF ERRORS ON SPECIAL TAX STAMPS

§ 194.139 *Errors disclosed by taxpayers.* On receipt of a special tax stamp, the taxpayer will examine it to insure that the name and address are correctly stated. If an error has been made, the stamp should be returned to the District Director, with a statement showing the nature of the error and the proper name or address. The District Director, on receipt of such stamp and statement, will compare the data with that on Form 11, and if an error on the part of the District Director has been made, will make the necessary correction and return the stamp to the taxpayer. If the Form 11 agrees with the data on the stamp, the District Director will require the taxpayer to file a new Form 11, designated "Amended Return," disclosing the proper name and address, and, on receipt of the amended Form 11, will amend his Record 10 accordingly, attach the amended Form 11 to the original Form 11, make the proper correction on the stamp, and return it to the taxpayer.

§ 194.140 *Errors discovered on inspection.* When an inspector ascertains that an error appears on the special tax stamp as to the name, ownership, address, etc., he will require the taxpayer to prepare a new Form 11, designated "Amended Return," showing the proper name, address, or other correction. Where a special tax stamp is issued in the name of an individual and the business is owned and conducted by a partnership from the beginning of the period of liability covered by the stamp, the names and addresses of all partners will be shown on the amended Form 11. The body of the amended Form 11 must show the reasons for requesting the correction of the special tax stamp. The inspector should also obtain the special tax stamp from the taxpayer, giving him a receipt therefor on Form 1670 (which receipt shall be kept on the dealer's premises), and forward the amended Form 11, the special tax stamp, the duplicate copy of the Form 1670, and the inspection report to the Assistant Regional Commissioner. Upon receipt of the amended Form 11, the special tax stamp, etc., the Assistant Regional Commissioner will examine the amended Form 11 to determine whether correction of the stamp is in order and all necessary data appear on the amended Form 11. If the Assistant Regional Commissioner is satisfied that the papers are in order, he will write or stamp the word "approved" followed by his signature, in any available space on the face of the amended Form 11 and on the inspection report and forward the amended form with the special tax stamp to the proper District Director. Upon receipt of these documents, the District Director will make the proper correction on the special tax stamp, amend his Record 10 accordingly, attach the amended Form 11 to the original Form 11, and return the special tax stamp to the taxpayer.

STAMPS FOR IMPROPER PERIODS

§ 194.141 *General.* Where a dealer has paid special tax and received a stamp for a certain period, whereas he actually incurred liability to special tax for one or more months prior to such period, the procedure outlined in §§ 194.142–194.144 will govern.

§ 194.142 *Liability within current fiscal year.* When the period of the liability not covered by the special tax stamp is within the current fiscal year, a remittance should be secured from the taxpayer covering the full period of the liability to June 30 following, plus the delinquency penalty described in § 194.108, computed on the full amount of the tax. When the remittance is received in the District Director's office, an appropriate stamp for the full period of the liability should be issued. The taxpayer should be advised by the inspector of his privilege of filing a claim on Form 843 for redemption of the stamp covering the shorter period.

§ 194.143 *Liability within a past fiscal year.* When the period of the liability not covered by the special tax stamp is within a past fiscal year, the additional amount due for such period, including the delinquency penalty described in § 194.108, computed on the basis of the tax for the full period, should be collected and listed for assessment by the District Director on his current excise tax list. When the remittance covering such liability is received by an inspector, a serially-numbered receipt on Form 809 should be issued to the taxpayer in order that he may have evidence of tax-payment for such additional period.

§ 194.144 *Amended return required.* In each instance the taxpayer will file a new return on Form 11, designated "Amended Return," showing the proper period of liability. Appropriate notation should be made by the District Director on Record 10.

RECORD 10

§ 194.145 *Public list of taxpayers.* The District Director shall maintain and keep conspicuously in his office on Record 10, for public inspection, a list of all persons who have paid special taxes within his district, and shall state thereon the time, place, and business for which such special taxes have been paid. The names on this list shall be the true names and not the fictitious ones under which persons may elect to do business.

(53 Stat. 395; 26 U. S. C. 3275)

§ 194.146 *Use of Record 10.* All persons shall be entitled to inspect Record 10 in the District Director's office at reasonable and proper times, and are not prohibited from copying the names and addresses of special-tax payers, but no person shall use the record to the extent of interfering with the District Director's use thereof, or unduly to the exclusion of other persons.

(53 Stat. 395; 26 U. S. C. 3275)

§ 194.147 *Furnishing copy of Record 10.* Upon application of any prosecuting officer of any State, county, or municipality, the District Director shall furnish a certified copy of Record 10, or such portions thereof as may be requested, for which a fee of $1 for each hundred words or fraction thereof in the copy or copies so requested shall be charged.

(53 Stat. 395; 26 U. S. C. 3275)

Subpart I—Change of Location

§ 194.150 *Amended return, Form 11.* A special-tax payer who, during the taxable period for which special tax was paid, removes his business to a place other than that specified in his original return on Form 11, and stated on his special tax stamp, must register the change with the District Director from whom the special tax stamp was purchased, within 30 days after he begins to sell or offer for sale liquors at the new location, by executing a new return on Form 11, designated as "Amended Return," setting forth the time when and the place to which such removal was made, and shall surrender the special tax stamp to the District Director for endorsement of the change in location.

(53 Stat. 396; 26 U. S. C. 3280)

§ 194.151 *Removal within same internal revenue district.* When a special-tax payer removes his business to another address within the same internal revenue district, the District Director will enter on his Record 10 the new address and the date of removal, and will note the change on the face of the special tax stamp, stating clearly thereon the new location where said business is to be carried on, and will return the special tax stamp to the taxpayer.

(53 Stat. 396; 26 U. S. C. 3280)

§ 194.152 *Removal to another internal revenue district.* When a taxpayer removes his business to a location within an internal revenue district other than that in which the special tax stamp was issued, the District Director who issued the special tax stamp will enter on his Record 10 the new address and date of removal, stating clearly the new location where said business is to be carried on, and will transmit the stamp to the District Director in charge of the district to which the taxpayer removed. The District Director of that district will make entry on his Record 10, as in the case of a new registrant, and note the taxpayer's new address and the District Director's name, title, and district, and the date on the special tax stamp, which will be returned to the taxpayer.

(53 Stat. 396; 26 U. S. C. 3280)

§ 194.153 *Failure to register change of address within 30 days.* A person who removes his place of business and fails to register such removal with the District Director, within 30 days after he begins to sell or offer for sale liquors at the new location, will be liable to special tax at the new location computed from the 1st day of the calendar month in which he began business at the new location.

(53 Stat. 388 as amended, 396; 26 U. S. C. 3250, 3280)

§ 194.154 *Certificate in lieu of lost or destroyed special tax stamp.* The provisions of this part shall apply to certificates issued to taxpayers in lieu of special tax stamps lost or destroyed in accordance with §§ 194.137 and 194.138.

Subpart J—Change in Proprietorship or Control

§ 194.160 *Sale of business.* A special tax stamp is a receipt for tax, personal to the one to whom issued, and is not transferable from one dealer to another. Where there occurs a change in the proprietorship of a business for which special tax has been paid, a new special tax liability is incurred, except as provided in §§ 194.168–194.169.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.161 *Incorporation of business.* Where an individual or a firm engaged in business requiring payment of special tax forms a corporation to take over and conduct the business, the corporation (a separate legal entity) must pay special tax and procure a stamp in its own name.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.162 *New corporation.* Where a new corporation is formed to take over and conduct the business of one or more corporations which have paid special tax, the new corporation must pay special tax and procure a stamp in its own name.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.163 *Stockholder continuing business of corporation.* A special tax stamp held by a corporation as a liquor dealer cannot cover the same business carried on by one or more of its stockholders after dissolution of the corporation.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.164 *Change in trade name or style of business.* The law requires the payment of but one special tax from the person who carries on the same business at the same place during the same special tax period. A person who pays the requisite special tax upon his business does not incur liability to additional special tax by reason of a mere change in the trade name or style under which such business is conducted, nor by reason of a change in management which involves no change in the proprietorship of the business.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.165 *Change of name or increase in capital stock of a corporation.* Additional special tax is not required by reason of a change of name or increase in the capital stock of a corporation if the laws of the State of incorporation provide for such changes without the creation of a new corporation.

§ 194.166 *Change in ownership of capital stock.* No additional special tax is required by reason of the sale or transfer of all or a controlling interest in the capital stock of a corporation.

§ 194.167 *Change in membership of unincorporated club.* Additional special tax is not required of an unincorporated club by reason of changes in membership, where such changes do not result in the dissolution thereof and the formation of a new club.

§ 194.168 *Change of control; right of succession.* Certain persons other than the special taxpayer may, without incurring additional special tax liability, carry on the same business at the same address for the remainder of the taxable period for which the special tax was paid. To secure such right, the person or persons continuing the business must file with the District Director from whom the special tax stamp was purchased, within 30 days after the date on which the successor begins to carry on the business, a return on Form 11, showing the basis of the succession.

(53 Stat. 396; 26 U. S. C. 3280)

§ 194.169 *Persons having right of succession.* Under the conditions indicated above, the persons having such right of succession are as follows:

Death—The widow or child, or executor, administrator, or other legal representative of the taxpayer.

Husband and wife—A husband or wife succeeding to the business of his or her spouse (living).

Insolvency—A receiver or trustee in bankruptcy, or an assignee for benefit of creditors.

Withdrawal from firm—The partner or partners remaining after death or withdrawal of a member.

(53 Stat. 396; 26 U. S. C. 3280)

§ 194.170 *Failure to register right of succession within 30 days.* A person succeeding, as provided in § 194.69, to a business for which special tax has been paid, and who fails to register such succession with the District Director, within 30 days from the date he begins to carry on the business, will become liable to additional special tax computed from the 1st day of the calendar month in which he began to carry on such business.

(53 Stat. 388 as amended, 396; 26 U. S. C. 3250, 3280)

§ 194.171 *Certificate in lieu of lost or destroyed special tax stamp.* The provisions of this part apply to certificates issued to taxpayers in lieu of special tax stamps lost or destroyed in accordance with §§ 194.137 and 194.138.

Subpart K—Exceptions and Exemptions

§ 194.180 *Sales of liquors for immediate consumption on premises.* A retail dealer in liquors will not be required to pay special tax as wholesale dealer in liquors solely by reason of making sales of liquors in quantities of 5 wine gallons or more to the same person at the same time if such sales are made for immediate consumption of the liquors on the premises where sold.

(53 Stat. 391; 26 U. S. C. 3254)

§ 194.181 *Sales of malt liquors for immediate consumption on premises.* A retail dealer in malt liquors will not be required to pay special tax as wholesale dealer in malt liquors solely by reason of making sales of malt liquors in quantities of five gallons or more to the same person at the same time if such sales are made for immediate consumption of the liquors on the premises where sold.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.182 *Dealers consummating sales of malt liquors at premises of other dealers.* A retail or wholesale dealer in liquors, or a retail or wholesale dealer in malt liquors, who has paid the requisite special tax imposed upon his business, may, without incurring liability for additional special tax, sell fermented malt liquors, at the premises of other dealers, provided the purchaser's place of business is covered by a special tax stamp issued to him to denote the payment of the special tax imposed upon such dealers. The premises of both the selling dealer and the purchasing dealer must be covered by the requisite special tax stamps.

(53 Stat. 392; 26 U. S. C. 3255)

§ 194.183 *Deliveries of malt liquors from place of storage not covered by special tax stamp.* Deliveries of fermented malt liquors may be made by a retail or wholesale dealer in malt liquors from a place of storage, not covered by his special tax stamp, without incurring liability to special tax at such place, provided orders therefor are not accepted at such place of storage, and sales thereof are consummated at the purchaser's place of business covered by a requisite special tax stamp, or orders therefor are accepted at the place where the vendor holds a requisite special tax stamp.

(53 Stat. 388 as amended, 392, 395; 26 U. S. C. 3250, 3255, 3278)

§ 194.184 *Distillers selling in original stamped packages.* No distiller who has given the required bond and who sells only distilled spirits of his own production at the place of manufacture, or at the place of storage in bond, in the original packages to which the tax-paid stamps are affixed, shall be required to pay the special tax as wholesale liquor dealer on account of such sales.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.185 *Distillers selling in other than original stamped packages.* The expression "in the original packages to which the tax-paid stamps are affixed" excludes from the exemption provided in § 194.184 sales of distilled spirits in any packages other than those which have the distilled spirits tax-paid stamp affixed thereto. The sale of distilled spirits in bottles or other containers by distillers necessitates the payment of special tax.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.186 *Brewers selling in original stamped packages.* A brewer is not required to pay special tax as dealer in malt liquors by reason of selling in the original stamped barrel or keg, whether at the place of manufacture or elsewhere,

malt liquors manufactured by him, or purchased and procured by him pursuant to Regulations 18 (26 CFR Part 192) from another brewer in his own barrels or kegs.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.187 *Agent of a brewer.* Any person holding himself out as an agent of a brewer in selling original stamped packages of malt liquors will become liable to special tax unless it is shown that the malt liquor is the property of the brewer and is sold by him for and on account of the brewer, and not on his own account.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.188 *Brewers selling in other than original stamped packages.* Brewers are required to pay special tax as dealers in malt liquor for the sale of malt liquors packaged in bottles or cans or in containers other than the original stamped barrels or kegs.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.189 *Sales by executor, administrator, or other fiduciary.* No special tax shall accrue on a sale of distilled spirits, wines, or malt liquors made by a person who is not otherwise a dealer in liquors, where such liquors have been received by him as executor, administrator, or other fiduciary, if such liquors are sold by such person in one parcel only, or at public auction in parcels of not less than 20 wine gallons.

(53 Stat. 390; 26 U. S. C. 3251)

§ 194.190 *Sales of liquors received as security for or in payment of a debt.* A person, not otherwise a dealer in liquors, who receives a stock of distilled spirits, wines, or malt liquors as security for or in payment of a debt, may sell such liquors in one parcel only, or at public auction in parcels of not less than 20 wine gallons, without paying special tax.

(53 Stat. 390; 26 U. S. C. 3251)

§ 194.191 *Sales of liquors levied on by public officer under order of any court or magistrate.* No special tax shall accrue on a sale of distilled spirits, wines, or malt liquors by a person who is not otherwise a dealer in liquors, where such liquors have been levied on by any officer under order of any court or magistrate, and are sold in one parcel only, or at public auction in parcels of not less than 20 wine gallons.

(53 Stat. 390; 26 U. S. C. 3251)

§ 194.192 *Sales of liquors by retiring partner or by representative of a deceased partner.* No special tax as retail or wholesale dealer shall accrue on a sale made by a retiring partner or the representative of a deceased partner to the incoming, remaining, or surviving partner or partners of a firm.

(53 Stat. 390; 26 U. S. C. 3251)

§ 194.193 *Sales of entire stock by retail liquor dealer in liquidation.* A retail dealer in liquors may, without incurring special tax as a wholesale dealer in liquors, sell out his entire stock of alcoholic liquors in one parcel or in a number of parcels composing his entire stock, which parcels may contain distilled spirits, wines, or malt liquors, or a combination of any or all such liquors.

(53 Stat. 390; 26 U. S. C. 3251)

§ 194.194 *Sales of entire stock by retail malt liquor dealer in liquidation.* A retail dealer in malt liquors may sell out his stock of malt liquors in one parcel or in parcels embracing not less than his entire stock of malt liquors without incurring special tax as a wholesale dealer in malt liquors.

(53 Stat. 390; 26 U. S. C. 3251)

§ 194.195 *Sales by qualified winemakers.* A winemaker who has qualified as such under internal revenue laws and regulations, and who sells wines of his own production where the same are made, or at his general business office, is not required to pay special tax as a retail or wholesale dealer in liquors: *Provided*, That a winemaker shall not have more than one place of business that shall be exempt from special tax.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.196 *Sales by apothecaries and druggists.* Apothecaries and druggists who use wines or spirituous liquors for compounding medicines and in making tinctures which are unfit for use for beverage purposes are not liable to special tax as liquor dealers by reason of the sale of such compounds or tinctures.

(53 Stat. 388 as amended; 26 U. S. C. 3250)

§ 194.197 *Sales by proprietors of industrial alcohol plants or warehouses.* A proprietor of an industrial alcohol plant or a bonded warehouse established under the provisions of 26 U. S. C. 3100 and 3101, may sell, or offer for sale, alcohol stored in such plant or warehouse without payment of special tax as a retail or wholesale liquor dealer.

(53 Stat. 357; 26 U. S. C. 3103)

### Subpart L—Refund and Redemption of Special Taxes

§ 194.200 *Claims.* Claims for abatement or refund of special taxes and delinquency penalties erroneously or illegally assessed or collected, and claims for the redemption of special tax stamps shall be filed on Form 843, in duplicate, with the District Director. The claim must set forth in detail and state each ground upon which it is made, and facts sufficient to apprise the Assistant Regional Commissioner of the exact basis thereof. If the claim is for redemption of a special tax stamp, such stamp shall be attached to and made a part of the claim.

(53 Stat. 399, 464 as amended; 63 Stat. 667; 26 U. S. C. 3304, 3770, 3809)

§ 194.201 *Time limit on filing of claim.* No claim for the refund of a special tax or penalty or for the redemption of a special tax stamp shall be allowed unless presented within four years next after the payment of such tax or penalty or the purchase of such stamp.

(53 Stat. 399; 26 U. S. C. 3304)

§ 194.202 *Discontinuance of business.* A special-tax payer who for any reason discontinues business is not entitled to any refund for the unexpired portion of the fiscal year for which the special tax stamp was issued.

(53 Stat. 394; 26 U. S. C. 3271)

§ 194.203 *Dealer in malt liquors who sells distilled spirits or wines.* A person who pays a special tax as a dealer in malt liquors and who at the time is liable as a dealer in liquors on account of sales of distilled spirits or wines in addition to malt liquors, and thereafter pays the requisite special tax as a dealer in liquors for the same taxable period, may file a claim for redemption of the special tax stamp issued to him as a dealer in malt liquors.

(53 Stat. 388 as amended, 399; 26 U. S. C. 3250, 3304)

§ 194.204 *Dealer in liquors who actually sells only malt liquors.* A person who pays special tax as a dealer in liquors but who actually sells or offers for sale malt liquors only, and later during the same or a subsequent month pays the special tax as a dealer in malt liquors, may not redeem the special tax stamp issued to him as a dealer in liquors. But in such event, a claim for redemption of the special tax stamp as a dealer in malt liquors may be filed.

(53 Stat. 388 as amended, 391, 399; 26 U. S. C. 3250, 3254, 3304)

### Subpart M—Maintenance of Records and Posting of Signs

#### Wholesale Liquor Dealer Records

§ 194.210 *General requirements, Record 52.* Except as provided in § 194.214, every wholesale dealer in liquors who sells distilled spirits shall keep Record 52, and render monthly transcripts, Forms 52A and 52B, and Form 338, of the physical receipt and disposition of distilled spirits by him. Daily entries shall be made on Record 52 of all distilled spirits received and disposed of, as indicated by the headings of the columns and lines of the form and the instructions printed thereon or issued in respect thereto, as required by the provisions of this part, before the close of the business day next succeeding the day on which the transactions occur. Where the wholesale dealer defers the making of the entries to the next business day, as authorized herein, he shall keep a separate record such as invoices, of the removals of distilled spirits, showing the removal data required to be entered on Record 52, and appropriate memoranda of other transactions required to be entered on such record, for the purpose of making the entries correctly.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.211 *Warehouse receipts, Form 52F.* Except as provided in § 194.214, every wholesale dealer in liquors who sells, or offers for sale, distilled spirits by warehouse receipts, shall keep a separate record, and render a monthly transcript, of all purchases and sales of warehouse receipts, on Form 52F. There need not be reported on Form 52F transactions in warehouse receipts not involving the purchase or sale of distilled spirits, such as the receipt from a warehouseman of warehouse receipts covering the deposit or bottling of the spirits in his warehouse or the surrender of warehouse receipts for the bottling of the spirits in bond or their transfer in bond to another warehouse. Entries on Form 52F shall be made as indicated by the headings of the columns and lines of the form and the instructions printed thereon or issued in respect thereto, and as required by the provisions of this part. The provisions of § 194.210 with respect to the time of making entries, and of § 194.233 with respect to forms to be provided by users, are hereby made applicable to Form 52F. The monthly transcript on Form 52F shall be forwarded to the Assistant Regional Commissioner on or before the tenth day of the succeeding month.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.212 *Dealer selling distilled spirits at retail only.* A dealer who sells wines or malt liquors, or both, in wholesale quantities, and who sells distilled spirits in retail quantities, is not required to keep Record 52 or to file monthly transcripts, Forms 52A and 52B, and report, Form 338.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.213 *Dealers not selling distilled spirits.* Wholesale liquor dealers who sell wines and malt liquors only, and wholesale malt liquor dealers are not required to keep Record 52 or to file monthly transcripts, Forms 52A and 52B, and report, Form 338.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.214 *Proprietors.* The proprietor of an industrial alcohol plant or industrial alcohol bonded warehouse shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 3 (26 CFR Part 182). The proprietor of a registered distillery shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 4 (26 CFR Part 183). The proprietor of a fruit distillery shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 5 (26 CFR Part 184). The proprietor of an internal revenue bonded warehouse shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 10 (26 CFR Part 185). The proprietor of a tax-paid bottling house shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 11 (26 CFR Part 189). The proprietor of a rectifying plant shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 15 (26 CFR Part 190). An importer shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 21 (26 CFR Part 191). Any person bringing distilled spirits into the United States from Puerto Rico or the Virgin Islands shall keep records in his capacity as a wholesale dealer in liquors in accordance with Regulations 24 (26 CFR Part 180).

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.215 *Entries on Record 52.* Where more than one shipment of distilled spirits is received from the same consignor during any month, there will be entered on Record 52 for the first shipment received, the name and address of such consignor, followed by the registry number (preceded by appropriate identifying symbols) and the State of the consignor's plant or warehouse (for example, IRBW–4–Ky.) or, in the case of shipments received from wholesale liquor dealers or importers, the permit number of the consignor (for example, 3–I–1234). For the remaining shipments received from such consignor during the month, there may be entered in the column designated "Name" such registry number or permit number, as the case may be, and the name and address of the consignor may be omitted. Likewise, where more than one shipment of distilled spirits is sent to the same consignee during any month, there will be entered on Record 52 for the first shipment made the name and address of such consignee followed by the registry number or permit number of the consignee. For the remaining shipments made to such consignee during the month, there may be entered in the column designated "Name" such registry number or permit number, as the case may be, and the name and address of the consignee may be omitted. Where the consignor or consignee is a retail dealer in liquors, the name and address must be entered on Record 52 for each shipment received or sent.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.216 *Entry of miscellaneous items.* Wholesale liquor dealers may enter on Record 52 as one item the total quantity of different kinds of spirits made up from broken cases sold to the same person on the same day, provided such total quantity is not in excess of 10 gallons. The entry of such items shall be stated as "Miscellaneous" or "Misc." and shall show the date, the name and address of the person to whom sold, and the quantity. The total quantity of such miscellaneous spirits so disposed of during the month shall be reported in the monthly summary, Form 338, as "Miscellaneous": *Provided*, That the wholesale liquor dealer determines by actual inventory the quantity of each kind of spirits remaining on hand at the end of the month.

(53 Stat. 327 as amended; 26 U. S. C. 2857)

§ 194.217 *Separate record of name of distiller, rectifier, or bottler.* The name of the person by whom the distilled spirits were distilled, rectified or bottled, need not be entered on Record 52 provided the proprietor keeps at his place of business a separate record of such information, available for inspection by internal revenue officers. The registry number or permit number must be entered in column 5 and the State or country in column 6.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.218 *Separate record of serial numbers of cases.* Serial numbers of cases of distilled spirits received, or disposed of, need not be entered on Record 52, and the serial numbers of packages and cases purchased or sold by warehouse receipts need not be entered on Form 52 F, provided that the wholesale dealer in liquors keeps at his place of business a separate record, showing such serial numbers, with necessary identifying data, including the date of the physical receipt or disposition of distilled spirits and the name and address of the person from whom received or to whom sent, and the date of purchase or sale of warehouse receipts and the name and address of the purchaser or seller, as the case may be, and provided further, that the keeping of such record is approved by the Assistant Regional Commissioner.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.219 *Form of separate records.* The separate records prescribed by §§ 194.217 and 194.218 may be kept in book form (including loose-leaf books) or may consist of commercial papers, such as invoices or bills. Such books, invoices, and bills shall be preserved for a period of four years and in such manner that the required information may be readily ascertained therefrom, and, during such period, shall be available during business hours for inspection and the taking of abstracts therefrom by internal revenue officers. If a record in book form is kept, entries shall be made on such separate record before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized herein, appropriate memoranda shall be maintained for the purpose of making the entries correctly. The dealer shall note on Record 52, and on Form 52 F, in the column for reporting serial numbers, "Serial numbers shown on commercial record per authority, dated ----------"

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.220 *Place where Record 52 shall be kept; general.* Except as provided in § 194.221, the wholesale dealer in liquors shall keep Record 52 at the place of business covered by his wholesale liquor dealer special tax stamp, if spirits are received and sent out from such premises.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.221 *Exception.* If the place of business covered by the wholesale liquor dealer special tax stamp is not the same premises where the spirits are received and sent out, the wholesale liquor dealer shall keep his Record 52 at the latter place and render transcripts from such place on Forms 52A and 52B and summary report on Form 338: *Provided*, That, if approved by the Assistant Regional Commissioner, a wholesale liquor dealer may keep his Record 52 at the place of business covered by the special tax stamp and render transcripts on Forms 52A and 52B and summary report on Form 338 from such place. If, how-

ever, the place of business covered by the special tax stamp is not in the same region as the place where the spirits are received and sent out, Record 52 must be kept at the latter place and transcripts on Forms 52A and 52B and summary report on Form 338 rendered to the Assistant Regional Commissioner of that region.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.222 *Place where Form 52F shall be kept.* Every wholesale dealer in liquors shall keep Form 52F at the place of business where warehouse receipts are sold or offered for sale.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.223 *Requirements when wholesale liquor dealer maintains a retail department.* A wholesale liquor dealer who sells distilled spirits at wholesale and at the same premises sells distilled spirits at retail in his capacity as a retail dealer in liquors, and who maintains a separate retail department, shall keep Record 52 at his wholesale department of all distilled spirits there received and disposed of. Distilled spirits transferred from the wholesale department to the retail department shall be reported on Record 52, part 2, as "Transferred to Retail Department." Where it is necessary in the filling of a wholesale order to take liquor out of the retail department, the quantity removed from the retail department must be shown on Record 52, part 1, as "Transferred from Retail Department," and the entire sale shown in Record 52, part 2, as a disposal. The retail department need not be maintained in a separate room or be partitioned off from the wholesale department, but the retail department must in fact be separate from the wholesale department. Where a wholesale liquor dealer sells at both wholesale and retail, and does not maintain a separate retail department, all distilled spirits received and disposed of shall be entered on Record 52.

(53 Stat. 327 as amended; 26 U. S. C. 2857)

§ 194.224 *Records to be kept by States.* The provisions of §§ 194.210–194.223, 194.225 and 194.228–194.233, shall not apply to States and Commonwealths and liquor stores operated by such entities that maintain and make available for inspection by internal revenue officers such records as will enable such officers to trace readily all distilled spirits received and disposed of by them: *Provided*, That such States and Commonwealths, and the liquor stores operated by them, shall, on request of the Assistant Regional Commissioner, furnish such transcripts, summaries, and copies of their records as he shall require.

(53 Stat. 328; 26 U. S. C. 2858)

RETAIL LIQUOR DEALERS

§ 194.225 *Requirements where wholesale department is kept.* A liquor dealer engaged in the business of selling primarily at retail, who at the same premises also makes occasional sales of distilled spirits in quantities of 5 wine gallons or more in his capacity as a wholesale liquor dealer, need not enter in Record 52 all distilled spirits received at the premises as required by § 194.223. As used in this subpart, the term "selling primarily at retail" shall mean that sales at retail must normally represent at least 90 percent of the volume of distilled spirits sold during a month. Where a liquor dealer is engaged in such business, all distilled spirits at the premises may be considered as having been received in the retail department. When a sale of 5 wine gallons or more is made, the distilled spirits involved in the transaction must be shown in Record 52 as received from the retail department and as disposed of. Entries will be made in the various columns of the record pursuant to the provisions of §§ 194.210–194.214 and 194.216. The provisions of §§ 194.215, 194.217–194.219, 194.228, 194.231 and 194.232, relative to separate records, the daily filing of transcripts of Record 52 and certain additional requirements, are not applicable to such liquor dealers. The wholesale department need not be maintained in a separate room or be partitioned off from the retail department, but sales at wholesale must be made in a part of the premises designated as the wholesale department.

(53 Stat. 327 as amended, 391; 26 U. S. C. 2857, 3254)

§ 194.226 *Requirements for dealers in distilled spirits.* Each retail dealer in liquors shall provide, at his own expense, and keep in his place of business a record in book form, or shall keep all invoices or bills for distilled spirits, wines, or malt liquors received, showing the quantity thereof, from whom and the date received. Such records, bills, or invoices shall be kept for two years after the date of the transactions to which they relate and shall be open to inspection during business hours of the dealer by internal revenue officers upon identification and request.

(53 Stat. 391; 26 U. S. C. 3252)

§ 194.227 *Requirements for dealers in malt liquors.* Retail dealers in malt liquors are not required to keep records of malt liquors received.

REPORTS

§ 194.228 *Time of filing.* Except as otherwise provided in this subpart, a wholesale liquor dealer shall file, daily, transcripts of Record 52 on Forms 52A and 52B with the Assistant Regional Commissioner by delivering or mailing them to such officer on the date the transactions entered therein occurred: *Provided*, That in any case in which the Assistant Regional Commissioner shall direct, the transcripts shall be so filed with the Supervisor in Charge instead of with the Assistant Regional Commissioner. The transcripts shall bear the following certification signed by the person or officer authorized to execute Form 338:

I hereby certify that these transcripts, consisting of ------ pages, disclose all the transactions which occurred during the period covered thereby, and that each entry is correct.

If in any case the Assistant Regional Commissioner shall so authorize, the transcripts, in lieu of being filed daily, may be filed with him on or before the 10th day of the month succeeding the month in which the transactions in distilled spirits occurred. In such event, transactions will be entered on Record 52 in accordance with the provisions of § 194.211. Summary report on Form 338 shall be filed with the Assistant Regional Commissioner on or before the 10th day of the month succeeding the month in which the transactions in distilled spirits occurred. Record 52 shall be preserved for a period of 4 years and, during such period, shall be available during business hours for inspection and the taking of abstracts therefrom by any internal revenue officer.

(53 Stat. 327 as amended; 26 U. S. C. 2857)

§ 194.229 *No transactions during month.* If there were no receipts and disposals of distilled spirits by a wholesale liquor dealer during a month, it will not be necessary to prepare Forms 52A and 52B. However, a summary on Form 338 must be prepared and forwarded to the Assistant Regional Commissioner, showing the quantity on hand the first day of the month and the quantity on hand the last day of the month and marked "No transactions during month." Wholesale liquor dealers maintaining records in the simplified manner prescribed by § 194.225 should show in the summary on Form 338 that no distilled spirits were on hand the first day and the last day of the month.

(53 Stat. 327 as amended; 26 U. S. C. 2857)

§ 194.230 *Discontinuance of business.* When a wholesale liquor dealer discontinues business as such, he shall render monthly reports, Forms 52A and 52B and the summary report on Form 338, covering transactions for the month in which business is discontinued, and mark such reports "Final." Record 52 shall be preserved by the dealer for a period of 4 years.

(53 Stat. 327 as amended; 26 U. S. C. 2857)

REPORT OF THIRD PARTY TRANSACTIONS

§ 194.231 *Additional requirements.* The wholesale liquor dealer shall report on Record 52, Part 2, and on transcript, Form 52B, the name and address of each consignee, in the column now designated "Name." In the column now designated "Address," there will be reported the name and address of the person, firm, or corporation paying (by advancement or reimbursement) either tax, bottling charge, brokerage fee, handling charge, or clearance fee, indicating which are included. The heading of both columns will be amended accordingly.

(53 Stat. 327 as amended, 373; 26 U. S. C. 2857, 3171)

§ 194.232 *Shipment or delivery to third party.* Where a wholesale liquor dealer ships or delivers distilled spirits to a consignee on the order of another wholesale liquor dealer detailed records of the transactions shall be kept on Record 52 by (*a*) the wholesale liquor dealer making the shipment or delivery, (*b*) the wholesale liquor dealer giving the order, and (*c*) the consignee if he is a wholesale liquor dealer. For example, assuming that wholesale dealer (A) ships or delivers the distilled spirits to consignee (C) on the order of wholesale dealer (B), entries will be made in Record 52 by the parties involved as follows:

(a) Wholesale dealer (A) will show in his Record 52 the name and address of wholesale dealer (B), who ordered the distilled spirits, as well as the name and address of consignee (C), the person to whom the distilled spirits are actually shipped or delivered;

(b) Wholesale dealer (B) will show in his Record 52 that the distilled spirits were purchased from wholesale dealer (A), giving both the name and address of (A), and will at the same time make an entry showing that the distilled spirits were shipped or delivered by (A) to consignee (C), giving the name and address of (C); and

(c) Consignee (C), if a wholesale liquor dealer, will show in his Record 52 that the distilled spirits were purchased from wholesale dealer (B) and received by him from wholesale dealer (A), giving name and address of both. Transcripts of Record 52 on Forms 52 A and 52 B, required to be filed with the Assistant Regional Commissioner, will similarly show the details of such transactions.

(53 Stat. 327 as amended, 373; 26 U. S. C. 2857, 3171)

PROCUREMENT OF FORMS

§ 194.233 *Forms to be provided by users at own expense.* Record 52, Forms 52A, 52B, and 338 will be provided by users at their own expense, but must be in the form prescribed by the Commissioner: *Provided*, That, with the approval of the Commissioner, they may be modified to adapt their use to tabulating or other mechanical equipment: *Provided further*, That where the form is printed in book form, including loose-leaf books, the instructions may be printed on the cover or the fly leaf of the book instead of on the individual form.

(53 Stat. 327 as amended; 26 U. S. C. 2857)

POSTING OF SIGNS

§ 194.234 *By wholesalers.* Every person engaged in business as wholesale dealer in liquors shall place and keep conspicuously on the outside of his place of business a sign exhibiting in plain and legible letters, not less than 3 inches in height, painted in oil colors or gilded, and of a proper and proportionate width, the name or firm of the dealer, with the words "Wholesale Liquor Dealer." In the case of a wholesale liquor dealer who procures and posts a special tax stamp designated "Wholesale Dealer in Wines" or "Wholesale Dealer in Wines and Malt Liquors," the requirements of this section will be met by the posting of a sign of the character and dimensions prescribed herein, but with words conforming to the designation of the special tax stamp.

(53 Stat. 318; 26 U. S. C. 2831)

§ 194.235 *By retailers.* Internal revenue laws do not require the posting of signs by retail dealers in liquors, retail malt liquor dealers, and wholesale malt liquor dealers.

Subpart N—Strip Stamps

§ 194.240 *Strip stamps required on all bottles.* All distilled spirits, whether domestic or imported, in the possession of wholesale dealers in liquors or retail dealers in liquors must be in bottles or similar containers of a capacity of 1 gallon or less and must bear either a green or red strip stamp on the neck of the bottle passing over the cork, stopper, or cap.

(53 Stat. 303 as amended, 342 as amended; 26 U. S. C. 2803, 2903)

§ 194.241 *Destruction of strip stamp on opening bottle.* The strip stamp affixed to containers of distilled spirits shall be destroyed upon the opening of the container: *Provided*, That a portion of the strip stamp shall be left attached to the container while any part of the contents remain therein.

(53 Stat. 303 as amended, 345; 26 U. S. C. 2803, 2908)

§ 194.242 *Mutilated or missing red strip stamps.* Unopened bottles containing tax-paid distilled spirits required to be stamped under 26 U. S. C. 2803, from which the (red) strip stamps are missing, or on which the (red) strip stamp is mutilated to the extent that the contents of the bottle are accessible without further destruction of the stamp, or on which the (red) strip stamp is so mutilated that the genuineness thereof cannot be determined, may be restamped pursuant to §§ 194.243–194.246.

(53 Stat. 303 as amended; 26 U. S. C. 2803)

§ 194.243 *Replacement of mutilated or missing red strip stamps found by dealer.* The bottle should be set aside by the dealer and proper remittance (1 cent for each red strip stamp of one-half pint or greater, or one quarter cent for each red strip stamp of less than one-half pint) and application under oath for the necessary stamps submitted with Form 428, in triplicate, to the Assistant Regional Commissioner. Copies of Form 428 may be obtained from the Assistant Regional Commissioner. The applicant in every case will state the cause of mutilation or absence of the stamps and submit evidence that the spirits are tax-paid. Such evidence may consist of the invoices covering the purchase of the spirits, in addition to other available documents. The Assistant Regional Commissioner will approve the requisition, Form 428, if he is satisfied from the evidence submitted that the tax has been paid on the spirits, and that the mutilation or absence of the stamps has been explained. He will forward the original Form 428 and one copy with the remittance to the proper District Director. The District Director will enter the serial numbers of the stamps issued and stamp the date of sale on both copies of Form 428. He will send the stamps and the copy of Form 428 to the Assistant Regional Commissioner, who will deliver the stamps to the applicant, either by mail or by a representative of his office, together with instructions in regard to affixing them to the containers.

(53 Stat. 303 as amended; 26 U. S. C. 2803)

§ 194.244 *Mutilated or missing red strip stamps found by internal revenue officer.* When an internal revenue officer discovers an unopened bottle containing distilled spirits, to which no red strip stamp is affixed, or on which the red strip stamp is mutilated to the extent that the contents of the bottle are accessible without further destruction of the stamp, or on which the red strip stamp is so mutilated that the genuineness thereof cannot be determined, the officer will direct that the bottle be set aside. If the officer is satisfied that the spirits in the bottle have been tax-paid, and the original contents of the bottle have not been replaced or increased by the addition of any substance, he shall secure an affidavit from the proper person setting forth the reason for the absence or mutilation of the stamp, accompanied by documentary evidence, if any, in support thereof. The officer shall assist the person in executing an application on Form 428 in order to procure a red strip stamp to be affixed to the bottle, pursuant to the procedure outlined in § 194.243. When the internal revenue officer has good reason to believe that the distilled spirits have not been tax-paid, or that the original contents of the bottle have been replaced or increased by the addition of a substance, he will seize the spirits for forfeiture.

(53 Stat. 303 as amended; 26 U. S. C. 2803)

§ 194.245 *Replacement not required.* It will not be necessary to require the replacement of strip stamps where an immaterial portion of the stamp is missing, or where the strip stamp has dropped off a bottle and may be reaffixed thereto by the dealer.

§ 194.246 *Strip stamp missing; open bottle.* In the case of an opened bottle of distilled spirits from which all portions of the strip stamp have been removed, there will be no necessity to require the restamping of the bottle if the internal revenue officer is satisfied the bottle contains all or a part of its original tax-paid contents only.

Subpart O—Miscellaneous

§ 194.250 *Purchase or sale of used containers.* The purchase or sale of used liquor bottles, and other authorized marked containers bearing the penalty clause, "Federal Law Forbids Sale or Reuse of This Bottle," and other indicia is prohibited.

(53 Stat. 331; 26 U. S. C. 2871)

§ 194.251 *Reuse or refilling containers.* No liquor bottle or other authorized container shall be reused for the packaging of distilled spirits, nor shall the original contents, or any portion of such original contents, remaining in a liquor bottle or other authorized container, be increased by the addition of any substance.

(53 Stat. 331; 26 U. S. C. 2871)

§ 194.252 *Possession of used containers.* The possession of used liquor bottles or other authorized marked containers by any person other than the person who empties the contents thereof is

prohibited. This shall not prevent the dealer upon whose premises such bottles or containers may lawfully be emptied from assembling the containers in reasonable quantities upon such premises for the purpose of destruction.

(53 Stat. 331; 26 U. S. C. 2871)

§ 194.253 *Tapping of beer barrels and kegs.* Fermented malt liquor tax stamps must be affixed by the brewer to all barrels and kegs of beer before removing them from the brewery. Beer kegs or barrels must be tapped by driving the faucet or tap rod or an air faucet of equal size through the stamp. The stamp thus destroyed must remain on the barrel or keg until it is emptied.

(53 Stat. 371 as amended; 26 U. S. C. 3159)

§ 194.254 *Possession of undestroyed beer stamps.* The possession by any dealer of fermented malt liquor tax stamps which have not been destroyed is evidence of failure on the part of such dealer to destroy such stamps, as required by § 194.253, at the time of tapping of the containers.

(53 Stat. 371 as amended; 26 U. S. C. 3159)

§ 194.255 *Destruction of stamps, marks, and brands on wine containers.* A dealer who empties any receptacle to which wine tax stamps have been affixed shall destroy such stamps by scraping or obliterating immediately on emptying the receptacles to which they are affixed. If the receptacle is a cask, barrel, or keg, the dealer must, in addition to destroying the stamps, scrape or obliterate all marks or brands affixed to such containers immediately upon emptying.

(53 Stat. 398; 26 U. S. C. 3301)

### Subpart P—Packaging Alcohol for Industrial Purposes

§ 194.260 *Requirements and procedure.* Wholesale dealers in liquors may package alcohol for industrial purposes in containers in excess of 1 wine gallon and less than 5 wine gallons and shall be governed by those provisions of Regulations 11 (26 CFR Part 189) which pertain to the filing of notice on Form 27 E, the procurement, overprinting as to denomination, attachment, and accounting of strip stamps, and the maintenance of Form 52 D. Form 27 E, properly modified, will be approved by the Assistant Regional Commissioner, and will not be forwarded to the Commissioner. Requisitions on Form 428 for strip stamps will be submitted to and approved by the Assistant Regional Commissioner. The strip stamps will be transmitted directly by the District Director to the wholesale dealer in liquors. The wholesale dealer in liquors shall keep records and render monthly reports on Form 96 showing strip stamps received, used, mutilated, and on hand. Bottling operations will be carried on without supervision of a storekeeper-gauger. Form 52 D, properly modified, will be used for accounting for alcohol received, dumped, and packaged. Preparation of Forms 230 will not be required.

(53 Stat. 303 as amended, 331; 26 U. S. C. 2803, 2871)

§ 194.261 *Labeling.* The wholesale dealer in liquors packaging alcohol for industrial purposes will affix to such package a label bearing the word "Alcohol," and in conspicuous type the words "For Industrial Use," and showing the proof, the capacity of the container, and his name and address. The wholesaler may incorporate in the label other appropriate statements: *Provided*, That such statements shall not obscure or contradict the data required hereby to be shown on such labels.

(53 Stat. 303 as amended, 331; 26 U. S. C. 2803, 2871)

*Effect.* These regulations shall be effective as of December 1, 1953.

[SEAL] JUSTIN F. WINKLE,
*Acting Commissioner of Internal Revenue.*

Approved: December 22, 1953.

MARION B. FOLSOM,
*Acting Secretary of the Treasury.*

### Subchapter D—Employment Taxes

[Regulations 120]

### PART 406—COLLECTION OF INCOME TAX AT SOURCE ON WAGES; APPLICABLE ON AND AFTER JANUARY 1, 1954

On October 10, 1953, there was published in the FEDERAL REGISTER (18 F. R. 6469) a notice of proposed rule making, regarding regulations relating generally to collection of income tax at source on wages under subchapter D of chapter 9 of the Internal Revenue Code with respect to wages paid on or after January 1, 1954. After consideration of all relevant matter presented by interested parties regarding the rules proposed, the regulations so published are hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. Section 406.206, relating to statutory provisions, is revised as follows:

(A) By striking subparagraph (A) of section 1621 (a) (8) and inserting in lieu thereof the following:

(8) (A) For services for an employer (other than the United States or any agency thereof) (i) performed by a citizen of the United States if, at the time of the payment of such remuneration, it is reasonable to believe that such remuneration will be excluded from gross income under section 116 (a), or (ii) performed in a foreign country by such a citizen if, at the time of the payment of such remuneration, the employer is required by the law of any foreign country to withhold income tax upon such remuneration, or,

(B) By inserting immediately preceding the period and closing bracket of the historical note immediately following the text of section 1621 (a) "; sec. 204 (b), Technical Changes Act 1953".

PAR. 2. Section 406.501, relating to receipts for employees, is revised as follows:

(A) By striking in subparagraph (1) of paragraph (a) the words "original and duplicate" and inserting in lieu thereof "tax return copy and the employee's copy".

(B) By striking all of paragraph (d) which follows the heading "*Undelivered Forms W-2.*" and inserting in lieu thereof the following: "The tax return copy and the employee's copy of each withholding statement on Form W-2 for the calendar year which the employer is required to furnish to the employee and which after reasonable effort he is unable to deliver to the employee shall be transmitted to the district director with the return on Form 941 filed by the employer for the first calendar quarter of the next succeeding calendar year or with the employer's final return if filed at an earlier date. Thus, the undelivered copies of Forms W-2 ordinarily will be transmitted to the district director on or before April 30th or May 10th of the year following that for which they were issued, depending upon when the return for the first calendar quarter of such year is required to be filed. In the case of an employer having branch offices, the undelivered copies of Forms W-2 held in such branch offices may be transmitted by the employer with his return or, at the option of the employer, may be transmitted by the branch office directly to the district director for the internal revenue district in which the branch office is located. Such direct transmittal by branch offices shall be made at the time prescribed for the filing of the employer's return for the first quarter of the calendar year following that for which the Forms W-2 were issued or at the time of the filing of the employer's final return if filed at an earlier date. The provisions of this paragraph are also applicable with respect to any corrected statements issued for a prior calendar year."

(C) By striking in paragraph (e) the words "triplicates of the statements (Form W-2a)" and inserting in lieu thereof "district director's copies of the Forms W-2".

PAR. 3. Section 406.600, relating to statutory provisions, is revised by striking in section 3612 the words "internal revenue agent" wherever they appear therein in brackets and inserting in lieu thereof "collection officer".

PAR. 4. Section 406.601, relating to returns, is revised by striking paragraph (b) and inserting in lieu thereof the following:

(b) *District director's copies of Forms W-2.* (1) The district director's copy of each withholding statement on Form W-2 required to be furnished by the employer with respect to wages paid during the calendar year (as well as such copy of each corrected statement for a prior year) shall be included with the return filed for the fourth quarter of the calendar year or with the employer's final return if filed at an earlier date.

(2) The copies of withholding statements for the current calendar year transmitted with the return shall be accompanied by a list (preferably in the form of an adding machine tape) of the amounts of income tax withheld shown on such forms. If an employer's total payroll is made up on the basis of a number of separate units or establishments, the forms may be assembled accordingly and a separate list or tape submitted for each unit. In such case, a summary list or tape should be submitted, the total of which will agree with the corresponding entry to be made on Form 941. Where the number of forms is large, they may be forwarded in packages of convenient size. When this is done, the packages should be identified with the name of the employer and consecutively numbered. The number of packages should be indicated at the top of Form 941. The tax return, Form 941, and remittance in cases of this kind should be filed in the usual manner, accompanied by a brief statement that the district director's copies of Forms W-2 are in separate packages.

(3) The district director's copies of corrected Forms W-2 for a prior calendar year shall be assembled separately from the forms for the current calendar year and shall be accompanied by a statement explaining the corrections.

PAR. 5. Section 406.801, relating to jeopardy assessments, is revised by striking paragraph (a) and inserting in lieu thereof the following:

(a) Whenever, in the opinion of the district director, the collection of the tax will be jeopardized by delay, he should assess the tax, together with all penalties and interest due. Upon assessment such tax, penalty, and interest shall become immediately due and payable.

PAR. 6. Section 406.812, relating to additions to tax for delinquent or false returns, is revised by striking in subparagraph (1) (i) (*a*) of paragraph (a) the words "an internal revenue agent" and inserting in lieu thereof "a collection officer".

[SEAL] T. COLEMAN ANDREWS,
*Commissioner of Internal Revenue.*

Approved: December 22, 1953.

M. B. FOLSOM,
*Acting Secretary of the Treasury.*

SUBPART A—INTRODUCTORY PROVISIONS

Sec.
406.100 Statutory provisions; citation.
406.101 Introduction.
406.102 Scope of regulations.

SUBPART B—DEFINITIONS

406.200 Statutory provisions; definitions; in general.
406.201 General definitions and use of terms.
406.202 Statutory provisions; definitions; employee.
406.203 Employee.
406.204 Statutory provisions; definitions; employer.
406.205 Employer.
406.206 Statutory provisions; definitions; wages.
406.207 Wages.
406.208 Exclusions from wages.
406.209 Statutory provisions; income tax collected at source; included and excluded wages.
406.210 Included and excluded wages.
406.211 Statutory provisions; definitions; wages; public official.
406.212 Fees paid a public official.
406.213 Statutory provisions; definitions; wages; members of the Armed Forces.

Sec.
406.214 Remuneration of members of the Armed Forces of the United States for active service in combat zone or while hospitalized as a result of such service.
406.215 Statutory provisions; definitions; wages; agricultural labor.
406.216 Remuneration for agricultural labor.
406.217 Statutory provisions; definitions; wages; domestic service.
406.218 Remuneration for domestic service.
406.219 Statutory provisions; definitions; wages; service not in the course of employer's trade or business.
406.220 Remuneration for service not in the course of employer's trade or business.
406.221 Statutory provisions; definitions; wages; foreign government or international organization.
406.222 Remuneration for services for foreign government or international organization.
406.223 Statutory provisions; definitions; wages; nonresident aliens.
406.224 Remuneration for services of nonresident alien individuals.
406.225 Statutory provisions; definitions; wages; citizens outside the United States.
406.226 Remuneration for services of citizens outside the United States.
406.227 Statutory provisions; definitions; wages; minister of a church.
406.228 Remuneration for services performed by a minister of a church or by a member of a religious order.
406.229 Statutory provisions; definitions; wages; delivery or distribution of newspapers.
406.230 Remuneration for delivery and distribution of newspapers, shopping news, and magazines.
406.231 Statutory provisions; definitions; wages; certain tax-exempt trusts and annuity plans.
406.232 Payments from or to certain tax-exempt trusts or under or to certain annuity plans.

SUBPART C—DETERMINATION OF TAX

406.300 Statutory provisions; determination of tax.
406.301 Payroll period.
406.302 Requirement of withholding.
406.303 Percentage method withholding.
406.304 Wage bracket withholding.
406.305 Statutory provisions; income tax collected at source; supplemental wage payments.
406.306 Supplemental wage payments.
406.307 Statutory provisions; income tax collected at source; payroll period of more than one year.
406.308 Wages paid for payroll period of more than one year.
406.309 Statutory provisions; income tax collected at source; wages paid on behalf of two or more employers.
406.310 Wages paid on behalf of two or more employers.
406.311 Statutory provisions; income tax collected at source; average wages.
406.312 Withholding on basis of average wages.
406.313 Statutory provisions; income tax collected at source; additional withholding.
406.314 Additional withholding.
406.315 Statutory provisions; income tax collected at source; withholding exemptions.
406.316 Withholding exemptions.
406.317 Statutory provisions; definitions; number of withholding exemptions claimed.
406.318 Number of withholding exemptions claimed.
406.319 Withholding exemption certificates.
406.320 When withholding exemption certificates effective.

SUBPART D—LIABILITY FOR TAX

406.400 Statutory provisions; liability for tax.
406.401 Liability for tax.
406.402 Statutory provisions; nondeductibility of tax in computing net income.
406.403 Nondeductibility of tax.

SUBPART E—RECEIPTS

406.500 Statutory provisions; receipts for employees.
406.501 Receipts for employees.

SUBPART F—RETURNS, PAYMENT OF TAX, AND RECORDS

406.600 Statutory provisions; returns; payment of tax; and records.
406.601 Returns.
406.602 Final returns.
406.603 Execution of returns.
406.604 Use of prescribed forms.
406.605 Place and time for filing returns.
406.606 Payment of tax.
406.607 Records.

SUBPART G—ADJUSTMENTS, REFUNDS, CREDITS, AND ABATEMENTS

406.700 Statutory provisions; adjustments.
406.701 Quarterly adjustments.
406.702 Statutory provisions; refunds; credits; and abatements.
406.703 Refund or credit of overpayments which are not adjustable; abatement of overassessments.
406.704 Statutory provisions; credit for tax withheld.
406.705 Credit for tax withheld; credit or refund of overpayment of tax withheld.
406.706 Statutory provisions; period of limitation upon refunds and credits.
406.707 Period of limitation upon refunds and credits.

SUBPART H—MISCELLANEOUS PROVISIONS

406.800 Statutory provisions; jeopardy assessment.
406.801 Jeopardy assessments.
406.802 Statutory provisions; period of limitation upon assessment and collection.
406.803 Period of limitation upon assessment and collection.
406.804 Statutory provisions; collection of tax in Puerto Rico.
406.805 Collection of tax in Puerto Rico.
406.806 Statutory provisions; acts to be performed by agents.
406.807 Acts to be performed by agents.
406.808 Statutory provisions; additions to tax for failure to pay an assessment after notice and demand.
406.809 Interest.
406.810 Addition to tax for failure to pay an assessment after notice and demand.
406.811 Statutory provisions; additions to tax for delinquent or false returns.
406.812 Additions to tax for delinquent or false returns.
406.813 Statutory provisions; penalties.
406.814 Promulgation of regulations.

AUTHORITY: §§ 406.101 to 406.814 issued under sec. 1429, 53 Stat. 178, sec. 3791, 53 Stat. 467; 26 U. S. C. 1429, 3791. Interpret or apply sec. 1627, 57 Stat. 138; 26 U. S. C. 1627.

SUBPART A—INTRODUCTORY PROVISIONS

§ 406.100 *Statutory provisions; citation.*

SEC. 2. CITATION. (Pub. 1 (76th Cong.).) This act [enacting the Internal Revenue Code] and the internal revenue title incorporated herein shall be known as the Internal Revenue Code and may be cited as "I. R. C.".

§ 406.101 *Introduction.* These regulations, which constitute Part 406 of Title 26 of the Code of Federal Regulations, are prescribed under subchapter D, chapter 9, Internal Revenue Code. The applicable provisions of subchapter D, as well as certain applicable provisions of other internal revenue laws of particular importance, will be found in the appropriate places in, and are to be read in connection with, the regulations in this part. References to sections of law are references to the Internal Revenue Code unless otherwise expressly indicated. Inasmuch as these regulations constitute Part 406 of Title 26 of the Code of Federal Regulations, each section of the regulations bears a number commencing with 406 and a decimal point.

§ 406.102 *Scope of regulations.* (a) The regulations in this part relate to the collection of income tax at source on wages paid on or after January 1, 1954, regardless of when such wages were earned.

(b) The regulations in this part, with respect to the subject matter within the scope thereof, supersede Regulations 116, approved December 9, 1944 [26 CFR, Part 405], as amended, relating to the collection of income tax at source on wages under subchapter D, chapter 9, Internal Revenue Code, in force prior to January 1, 1954.

SUBPART B—DEFINITIONS

§ 406.200 *Statutory provisions; definitions; in general.*

SEC. 3797. DEFINITIONS.

(a) When used in this title [Internal Revenue Code] • • •—

(1) *Person.* The term "person" shall be construed to mean and include an individual, a trust, estate, partnership, company, or corporation.

(2) *Partnership and partner.* The term "partnership" includes a syndicate, group, pool, joint venture, or other unincorporated organization, through or by means of which any business, financial operation, or venture is carried on, and which is not, within the meaning of this title, a trust or estate or a corporation; and the term "partner" includes a member in such a syndicate, group, pool, joint venture, or organization. A person shall be recognized as a partner for income purposes if he owns a capital interest in a partnership in which capital is a material income-producing factor, whether or not such interest was derived by purchase or gift from any other person.

(3) *Corporation.* The term "corporation" includes associations, joint-stock companies, and insurance companies.

(4) *Domestic.* The term "domestic" when applied to a corporation or a partnership means created or organized in the United States or under the law of the United States or of any State or Territory.

(5) *Foreign.* The term "foreign" when applied to a corporation or partnership means a corporation or partnership which is not domestic.

(6) *Fiduciary.* The term "fiduciary" means a guardian, trustee, executor, administrator, receiver, conservator, or any person acting in any fiduciary capacity for any person.

• • • • •

(9) *United States.* The term "United States" when used in a geographical sense includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

(10) *State.* The word "State" shall be construed to include the Territories and the District of Columbia, where such construction is necessary to carry out provisions of this title.

(11) *Secretary.* The term "Secretary" means the Secretary of the Treasury.

(12) *Commissioner.* The term "Commissioner" means the Commissioner of Internal Revenue.

• • • • •

(14) *Taxpayer.* The term "taxpayer" means any person subject to a tax imposed by this title.

• • • • •

(18) *International organization.* The term "international organization" means a public international organization entitled to enjoy privileges, exemptions, and immunities as an international organization under the International Organizations Immunities Act.

• • • • •

[Sec. 3797 (a), as amended by sec. 511, Revenue Act 1942; sec. 4 (i), Pub. Law 291 (79th Cong.); sec. 340 (a), Revenue Act 1951.]

(b) *Includes and including.* The terms "includes" and "including" when used in a definition contained in this title shall not be deemed to exclude other things otherwise within the meaning of the term defined.

• • • • •

§ 406.201 *General definitions and use of terms.* As used in the regulations in this part—

(a) The terms defined in the provisions of law contained in the regulations in this part shall have the meanings so assigned to them.

(b) "Internal Revenue Code" means the act approved February 10, 1939 (53 Stat., Part 1), entitled "An act to consolidate and codify the internal revenue laws of the United States," as amended.

(c) "Regulations 116" means the regulations approved December 9, 1944 (26 CFR, Part 405), as amended, relating to the collection of income tax at source on wages under subchapter D, chapter 9, Internal Revenue Code, in force prior to January 1, 1954.

(d) "Person" includes an individual, a corporation, a partnership, a trust or estate, a joint-stock company, an association, or a syndicate, group, pool, joint venture or other unincorporated organization or group, through or by means of which any business, financial operation, or venture is carried on. It includes a guardian, committee, trustee, executor, administrator, trustee in bankruptcy, receiver, assignee for the benefit of creditors, conservator, or any person acting in a fiduciary capacity.

(e) "District director" means district director of internal revenue.

(f) "Identification number" means the identifying number of an employer assigned, as the case may be, under the Federal Insurance Contributions Act or Title VIII of the Social Security Act, or by the district director in accordance with § 406.606 (b) (3).

(g) "Calendar quarter" means a period of three calendar months ending on March 31, June 30, September 30, or December 31.

(h) The term "Armed Forces of the United States" includes all regular and reserve components of the uniformed services which are subject to the jurisdiction of the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, or the Secretary of the Air Force. The term also includes the Coast Guard. The members of such forces include commissioned officers and the personnel below the grade of commissioned officer in such forces.

(i) The cross references in the regulations in this part to other portions of the regulations, when the word "see" is used, are made only for convenience and shall be given no legal effect.

§ 406.202 *Statutory provisions; definitions; employee.*

SEC. 1621. DEFINITIONS.

As used in this subchapter [subchapter D of chapter 9]—

• • • • •

(c) *Employee.* The term "employee" includes an officer, employee, or elected official of the United States, a State, Territory, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing. The term "employee" also includes an officer of a corporation.

[Sec. 1621 (c), as added by sec. 2 (a), Current Tax Payment Act 1943.]

• • • • •

§ 406.203 *Employee.* (a) The term "employee" includes every individual performing services if the relationship between him and the person for whom he performs such services is the legal relationship of employer and employee. The term includes officers and employees, whether elected or appointed, of the United States, a State, Territory, Puerto Rico, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing.

(b) Generally the relationship of employer and employee exists when the person for whom services are performed has the right to control and direct the individual who performs the services, not only as to the result to be accomplished by the work but also as to the details and means by which that result is accomplished. That is, an employee is subject to the will and control of the employer not only as to what shall be done but how it shall be done. In this connection, it is not necessary that the employer actually direct or control the manner in which the services are performed; it is sufficient if he has the right to do so. The right to discharge is also an important factor indicating that the person possessing that right is an employer. Other factors characteristic of an employer, but not necessarily present in every case, are the furnishing of tools and the furnishing of a place to work to the individual who performs the services. In general, if an individual is subject to the control or direction of another merely as to the result to be accomplished by the work and not as to the means and methods for accomplishing the result, he is not an employee.

(c) Generally, physicians, lawyers, dentists, veterinarians, contractors, subcontractors, public stenographers, auctioneers, and others who follow an independent trade, business, or profession, in which they offer their services to the public, are not employees.

(d) Whether the relationship of employer and employee exists will in doubtful cases be determined upon an examination of the particular facts of each case.

(e) If the relationship of employer and employee exists, the designation or description of the relationship by the parties as anything other than that of employer and employee is immaterial. Thus, if such relationship exists, it is of no consequence that the employee is designated as a partner, coadventurer, agent, or independent contractor.

(f) The measurement, method, or designation of compensation is also immaterial, if the relationship of employer and employee in fact exists.

(g) No distinction is made between classes or grades of employees. Thus, superintendents, managers, and other superior employees are employees. Generally, an officer of a corporation is an employee of the corporation. However, an officer of a corporation who as such does not perform any services or performs only minor services and who neither receives nor is entitled to receive, directly or indirectly, any remuneration is not considered to be an employee of the corporation. A director of a corporation in his capacity as such is not an employee of the corporation.

(h) Although an individual may be an employee under this section, his services may be of such a nature, or performed under such circumstances, that the remuneration paid for such services does not constitute wages within the meaning of section 1621 (a).

§ 406.204 *Statutory provisions; definitions; employer.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

• • • • •

(d) *Employer.* The term "employer" means the person for whom an individual performs or performed any service, of whatever nature, as the employee of such person, except that—

(1) If the person for whom the individual performs or performed the services does not have control of the payment of the wages for such services, the term "employer" (except for the purposes of subsection (a)) means the person having control of the payment of such wages; and

(2) In the case of a person paying wages on behalf of a nonresident alien individual, foreign partnership, or foreign corporation, not engaged in trade or business within the United States, the term "employer" (except for the purposes of subsection (a)) means such person.

[Sec. 1621 (d), as added by sec. 2 (a), Current Tax Payment Act 1943.]

• • • • •

§ 406.205 *Employer.* (a) The term "employer" means any person for whom an individual performs or performed any service, of whatever nature, as the employee of such person.

(b) It is not necessary that the services be continuing at the time the wages are paid in order that the status of employer exist. Thus, for purposes of withholding, a person for whom an individual has performed past services for which he is still receiving wages from such person is an "employer."

(c) If the person for whom the services are or were performed does not have legal control of the payment of the wages for such services, the term "employer" means (except for the purpose of the definition of "wages") the person having such control. For example, where wages, such as certain types of pensions or retired pay, are paid by a trust and the person for whom the services were performed has no legal control over the payment of such wages, the trust is the "employer."

(d) The term "employer" also means (except for the purpose of the definition of "wages") any person paying wages on behalf of a nonresident alien individual, foreign partnership, or foreign corporation, not engaged in trade or business within the United States (including Puerto Rico as if a part of the United States).

(e) It is a basic purpose to centralize in the employer the responsibility for withholding, returning, and paying the tax and furnishing the statements required under section 1633. The foregoing two special definitions of the term "employer" are designed solely to meet unusual situations. They are not intended as a departure from the basic purpose.

(f) An employer may be an individual, a corporation, a partnership, a trust, an estate, a joint-stock company, an association, or a syndicate, group, pool, joint venture, or other unincorporated organization, group, or entity. A trust or estate, rather than the fiduciary acting for or on behalf of the trust or estate, is generally the employer.

(g) The term "employer" embraces not only individuals and organizations engaged in trade or business, but organizations exempt from income tax, such as religious and charitable organizations, educational institutions, clubs, social organizations and societies, as well as the governments of the United States, the States, Territories, Puerto Rico, and the District of Columbia, including their agencies, instrumentalities, and political subdivisions.

§ 406.206 *Statutory provisions; definitions; wages.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

(a) *Wages.* The term "wages" means all remuneration (other than fees paid to a public official) for services performed by an employee for his employer, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include remuneration paid—

(1) For active service as a member of the armed forces of the United States performed prior to January 1, 1955, in a month for which such member is entitled to the benefits of section 22 (b) (13), or

(2) For agricultural labor (as defined in section 1426 (h)), or

(3) For domestic service in a private home, local college club, or local chapter of a college fraternity or sorority, or

(4) For service not in the course of the employer's trade or business performed in any calendar quarter by an employee, unless the cash remuneration paid for such service is $50 or more and such service is performed by an individual who is regularly employed by such employer to perform such service. For the purposes of this paragraph, an individual shall be deemed to be regularly employed by an employer during a calendar quarter only if (A) on each of some twenty-four days during such quarter such individual performs for such employer for some portion of the day service not in the course of the employer's trade or business, or (B) such individual was regularly employed (as determined under clause (A)) by such employer in the performance of such service during the preceding calendar quarter, or

(5) For services by a citizen or resident of the United States for a foreign government or an international organization or for the government of the Commonwealth of the Philippines, or

(6) For services performed by a nonresident alien individual, other than (A) a resident of a contiguous country who enters and leaves the United States at frequent intervals, or (B) a resident of Puerto Rico if such services are performed as an employee of the United States or any agency thereof, or

(7) For such services, performed by a nonresident alien individual who is a resident of a contiguous country and who enters and leaves the United States at frequent intervals, as may be designated by regulations prescribed by the Commissioner with the approval of the Secretary, or

(8) (A) For services for an employer (other than the United States or any agency thereof) (i) performed by a citizen of the United States if, at the time of the payment of such remuneration, it is reasonable to believe that such remuneration will be excluded from gross income under section 116 (a), or (ii) performed in a foreign country by such a citizen if, at the time of the payment of such remuneration, the employer is required by the law of any foreign country to withhold income tax upon such remuneration, or

(B) For services for an employer (other than the United States or any agency thereof) performed by a citizen of the United States within a possession of the United States (other than Puerto Rico), if it is reasonable to believe that at least 80 per centum of the remuneration to be paid to the employee by such employer during the calendar year will be for such services, or

(C) For services for an employer (other than the United States or any agency thereof) performed by a citizen of the United States within Puerto Rico, if it is reasonable to believe that during the entire calendar year the employee will be a bona fide resident of Puerto Rico, or

(9) For services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry or by a member of a religious order in the exercise of duties required by such order, or

(10) (A) For services performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution, or

(B) For services performed by an individual in, and at the time of, the sale of newspapers or magazines to ultimate consumers, under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price, his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back, or

(11) For services not in the course of the employer's trade or business, to the extent paid in any medium other than cash, or

(12) To, or on behalf of, an employee or his beneficiary (A) from or to a trust exempt from tax under section 165 (a) at the time of such payment unless such payment is made to an employee of the trust as remuneration for services rendered as such employee and not as a beneficiary of the trust, or (B) under or to an annuity plan which, at the time of such payment, meets the requirements of section 165 (a) (3), (4), (5), and (6).

[Sec. 1621 (a), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 4 (e), Pub. Law 291 (79th Cong.); sec. 10, Pub. Law 384 (80th Cong.); sec. 209 (c), Social Security Act Amendments 1950; secs. 202 (b), 221 (f) (1), and (2), Revenue Act 1950; secs. 305 (c), 321 (b), Revenue Act 1951; sec. 2, Pub. Law 213 (83d Cong.); sec. 204 (b), Technical Changes Act 1953.]

* * * * *

§ 406.207 *Wages*—(a) *In general.* (1) The term "wages" means all remuneration for services performed by an employee for his employer unless specifically excepted under section 1621 (a) or excepted under section 1622 (g). See §§ 406.206 to 406.232, inclusive.

(2) The name by which the remuneration for services is designated is immaterial. Thus, salaries, fees, bonuses, commissions on sales or on insurance premiums, pensions, and retired pay are wages within the meaning of the statute if paid as compensation for services performed by the employee for his employer.

(3) The basis upon which the remuneration is paid is immaterial in determining whether the remuneration constitutes wages. Thus, it may be paid on the basis of piecework, or a percentage of profits; and may be paid hourly, daily, weekly, monthly, or annually.

(4) Generally the medium in which the remuneration is paid is also immaterial. It may be paid in cash or in something other than cash, as for example, stocks, bonds, or other forms of property. If services are paid for in a medium other than cash, the fair market value of the thing taken in payment is the amount to be included as wages subject to withholding. If the services were rendered at a stipulated price, in the absence of evidence to the contrary, such price will be presumed to be the fair value of the remuneration received. If a corporation transfers to its employees its own stock as remuneration for services rendered by the employee, the amount of such remuneration is the fair market value of the stock at the time of the transfer.

(5) If a person receives as remuneration for services rendered a salary and in addition thereto living quarters or meals, the value to such person of the quarters and meals so furnished shall be added to the remuneration otherwise paid for the purpose of determining the amount of wages subject to withholding. If, however, living quarters or meals are furnished to an employee for the convenience of the employer, the value thereof need not be included as wages subject to withholding.

(6) Ordinarily, facilities or privileges (such as entertainment, medical services, or so-called "courtesy" discounts on purchases), furnished or offered by an employer to his employees generally, are not considered as wages subject to withholding if such facilities or privileges are of relatively small value and are offered or furnished by the employer merely as a means of promoting the health, good will, contentment, or efficiency of his employees.

(7) Where wages are paid in property other than cash, the employer should make necessary arrangements to insure that the amount of the tax required to be withheld is available for payment to the district director.

(8) Tips or gratuities paid directly to an employee by a customer of an employer, and not accounted for by the employee to the employer, are not subject to withholding.

(9) Remuneration for services, unless such remuneration is specifically excepted by the statute, constitutes wages even though at the time paid the relationship of employer and employee no longer exists between the person in whose employ the services were performed and the individual who performed them.

*Example.* A is employed by R during the month of January 1954 and is entitled to receive remuneration of $100 for the services performed for R, the employer, during the month. A leaves the employ of R at the close of business on January 31, 1954. On February 15, 1954 (when A is no longer an employee of R), R pays A the remuneration of $100 which was earned for the services performed in January. The $100 is wages within the meaning of the statute.

(b) *Pensions and retirement pay.* (1) In general, pensions and retired pay are wages subject to withholding. However, no withholding is required with respect to amounts paid to an employee upon retirement which are taxable as annuities under the provisions of section 22 (b) (2). So-called pensions awarded by one to whom no services have been rendered are mere gifts or gratuities and do not constitute wages. Those payments of pensions or other benefits by the Federal Government under Title 38 of the United States Code which are excluded from gross income are not wages subject to withholding.

(2) Retirement pay for service in the Armed Forces of the United States is subject to withholding unless such pay is excluded from gross income under section 22 (b) (5). Where such retirement pay (not excluded from gross income under section 22 (b) (5)) is paid to a nonresident alien individual, withholding is required only in the case of such amounts paid to a nonresident alien individual who is a resident of Puerto Rico.

(c) *Traveling and other expenses.* Amounts paid specifically—either as advances or reimbursements—for traveling or other bona fide ordinary and necessary expenses incurred or reasonably expected to be incurred in the business of the employer are not wages and are not subject to withholding. Traveling and other reimbursed expenses must be identified either by making a separate payment or by specifically indicating the separate amounts where both wages and expense allowances are combined in a single payment.

(d) *Vacation allowances.* Amounts of so-called "vacation allowances" paid to an employee constitute wages. Thus, the salary of an employee on vacation, paid notwithstanding his absence from work, constitutes wages.

(e) *Dismissal payments.* Any payments made by an employer to an employee on account of dismissal, that is, involuntary separation from the service of the employer, constitute wages regardless of whether the employer is legally bound by contract, statute, or otherwise to make such payments.

(f) *Deductions by employer from wages of employee.* The amount of any tax which is required by law to be deducted by the employer from the wages of an employee is considered to be a part of the employee's wages and is deemed to be paid to the employee as wages at the time the deduction is made. Other amounts deducted from the wages of an employee by an employer also constitute wages paid to the employee at the time of the deduction. It is immaterial that the Internal Revenue Code, or any Act of Congress, or the law of any State or of Puerto Rico, requires or permits such deductions and the payment of the amounts thereof to the United States, a State, a Territory, Puerto Rico, or the District of Columbia, or any political subdivision of any one or more of the foregoing.

(g) *Payment by an employer of employee's tax, or employee's contributions under a State law.* The term "wages" includes the amount paid by an employer on behalf of an employee (without deduction from the remuneration of, or other reimbursements from, the employee) on account of any payment required from an employee under a State unemployment compensation law, or on account of any tax imposed upon the employee by any taxing authority, including the taxes imposed by sections 1400 and 1500.

(h) *Remuneration for services as employee of nonresident alien individual or foreign entity.* The term "wages" includes remuneration for services performed by a citizen or resident of the United States as an employee of a nonresident alien individual, foreign partnership, or foreign corporation whether or not such alien individual or foreign entity is engaged in trade or business within the United States. Any person paying wages on behalf of a nonresident alien individual, foreign partnership, or foreign corporation, not engaged in trade or business within the United States (including Puerto Rico as if a part of the United States), is subject to all the provisions of law and regulations applicable with respect to an employer. See § 406.205. See § 406.226 (c) for the treatment of wages paid for services performed by a citizen of the United States in Puerto Rico.

§ 406.208 *Exclusions from wages.* (a) Remuneration for services performed by an employee for his employer does not constitute wages for purposes of withholding if it is specifically excepted from wages under any of the numbered paragraphs of section 1621 (a). Remuneration so excepted does not constitute wages for purposes of withholding even though it is for services performed within the United States or for services performed outside the United States by a citizen of the United States for an American employer.

(b) The exception attaches to the remuneration for services performed by an employee and not to the employee as an individual; that is, the exception applies only to the remuneration in an excepted category.

*Example.* A is an individual who is employed part time by B to perform domestic service in his home (see § 406.218). A is also employed by C part time to perform services as a clerk in a department store owned by him. While no withholding is required with respect to A's remuneration for services performed in the employ of B (the remuneration being excluded from wages), the exception does not embrace the remuneration for services performed by A in the employ of C and withholding is required with respect to the wages for such services.

(c) For provisions relating to the circumstances under which remuneration which is excepted is nevertheless deemed to be wages, and relating to the circumstances under which remuneration which is not excepted is nevertheless deemed not to be wages, see § 406.210.

§ 406.209 *Statutory provisions; income tax collected at source; included and excluded wages.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * *

(g) *Included and excluded wages.* If the remuneration paid by an employer to an employee for services performed during one-half or more of any payroll period of not more than thirty-one consecutive days constitutes wages, all the remuneration paid by such employer to such employee for such period shall be deemed to be wages; but if the remuneration paid by an employer to an employee for services performed during more than one-half of any such payroll period does not constitute wages, then none of the remuneration paid by such employer to such employee for such period shall be deemed to be wages.

[Sec. 1622 (g), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

§ 406.210 *Included and excluded wages.* (a) If a portion of the remuneration paid by an employer to his employee for services performed during a payroll period constitutes wages, and the remainder does not constitute wages, all the remuneration paid the employee for services performed during such period shall for purposes of withholding be treated alike, that is, either all included as wages or all excluded. The time during which the employee performs services, the remuneration for which under section 1621 (a) constitutes wages, and the time during which he performs services, the remuneration for which under such section does not constitute wages, determine whether all the remuneration for services performed during the payroll period shall be deemed to be included or excluded.

(b) If one-half or more of the employee's time in the employ of a particular person in a payroll period is spent in performing services the remuneration for which constitutes wages, then all the remuneration paid the employee for services performed in that payroll period shall be deemed to be wages.

(c) If less than one-half of the employee's time in the employ of a particular person in a payroll period is spent in performing services the remuneration for which constitutes wages, then none of the remuneration paid the employee for services performed in that payroll period shall be deemed to be wages.

*Example (1).* Employee A is employed by B who operates a farm and a store. The remuneration paid A for services on the farm is excepted as remuneration for agricultural labor, and the remuneration for services performed in the store constitutes wages. Employee A is paid on a monthly basis. During a particular month, A works 120 hours on the farm and 80 hours in the store. None of the remuneration paid A for services performed during the month is deemed to be wages, since the remuneration paid for less than one-half of the services performed during the month constitutes wages.

During another month A works 75 hours on the farm and 120 hours in the store. All of the remuneration paid A for services performed during the month is deemed to be wages since the remuneration paid for one-half or more of the services performed during the month constitutes wages.

*Example (2).* Employee C is employed as a maid by D, a physician, whose home and office are located in the same building. The remuneration paid C for services in the home is excepted as remuneration for domestic service, and the remuneration paid for her services in the office constitutes wages. C is paid on a weekly basis. During a particular week C works 20 hours in the home and 20 hours in the office. All of the remuneration paid C for services performed during that week is deemed to be wages, since the remuneration paid for one-half or more of the services performed during the week constitutes wages.

During another week C works 22 hours in the home and 15 hours in the office. None of the remuneration paid C for services performed during that week is deemed to be wages, since the remuneration paid for less than one-half of the services performed during the week constitutes wages.

(d) The rules set forth in this section do not apply (1) with respect to any remuneration paid for services performed by an employee for his employer if the periods for which remuneration is paid by the employer vary to the extent that there is no period which constitutes a payroll period within the meaning of section 1621 (b), or (2) with respect to any remuneration paid for services performed by an employee for his employer if the payroll period for which remuneration is paid exceeds 31 consecutive days. In any such case withholding is required with respect to that portion of such remuneration which constitutes wages.

§ 406.211 *Statutory provisions; definitions; wages; public official.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

(a) *Wages.* The term "wages" means all remuneration (other than fees paid to a public official) for services performed by an employee for his employer. * * *

[Sec. 1621 (a), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 4 (e), Pub. Law 291 (79th Cong.); sec. 10, Pub. Law 384 (80th Cong.); sec. 209 (c), Social Security Act Amendments 1950; secs. 202 (b), 221 (f) (1), and (2), Revenue Act 1950; secs. 305 (c), 321 (b), Revenue Act 1951.]

* * * * *

§ 406.212 *Fees paid a public official.* (a) Authorized fees paid to public officials such as notaries public, clerks of courts, sheriffs, etc., for services rendered in the performance of their official duties are excepted from the definition of the term "wages" and hence are not subject to withholding. However, salaries paid such officials by the Government, or Government agency or instrumentality, are subject to withholding.

(b) Amounts paid to precinct workers for services performed at election booths in State, county, and municipal elections and fees paid to jurors and witnesses are in the nature of fees paid to public officials and therefore are not subject to withholding.

§ 406.213 *Statutory provisions; definitions; wages; members of the Armed Forces.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

(1) For active service as a member of the armed forces of the United States performed prior to January 1, 1955, in a month for which such member is entitled to the benefits of section 22 (b) (13), or

[Sec. 1621 (a) (1), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 10, Pub. Law 384 (80th Cong.); sec. 202 (b), Revenue Act 1950; sec. 205 (c), Revenue Act 1951; sec. 2, Pub. Law 213 (83d Cong.).]

* * * * *

§ 406.214 *Remuneration of members of the Armed Forces of the United States for active service in combat zone or while hospitalized as a result of such service.* Remuneration paid for active service as a member of the Armed Forces of the United States performed prior to January 1, 1955, in a month during any part of which such member served in a combat zone (as determined under section 22 (b) (13)) or is hospitalized at any place as a result of wounds, disease, or injury incurred while serving in such a combat zone, is excepted from the definition of the term "wages" and is, therefore, not subject to withholding. The exception with respect to hospitalization is applicable, however, only if during all of such month there are combatant activities in some combat zone (as determined under section 22 (b) (13)).

§ 406.215 *Statutory provisions; definitions; wages; agricultural labor.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

* * * * *

(2) For agricultural labor (as defined in section 1426 (h)), or

[Sec. 1621 (a) (2), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

SEC. 1426. DEFINITIONS.

When used in this subchapter [subchapter A of chapter 9]—

* * * * *

(h) *Agricultural Labor.* The term "agricultural labor" includes all service performed—

(1) On a farm, in the employ of any person, in connection with cultivating the soil, or in connection with raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training, and management of livestock, bees, poultry, and fur-bearing animals and wildlife.

(2) In the employ of the owner or tenant or other operator of a farm, in connection with the operation, management, conservation, improvement, or maintenance of such farm and its tools and equipment, or in salvaging timber or clearing land of brush and other debris left by a hurricane, if the major part of such service is performed on a farm.

(3) In connection with the production or harvesting of any commodity defined as an agricultural commodity in section 15 (g) of the Agricultural Marketing Act, as amended, or in connection with the ginning of cotton, or in connection with the operation or maintenance of ditches, canals, reservoirs, or waterways, not owned or operated for profit, used exclusively for supplying and storing water for farming purposes.

(4) (A) In the employ of the operator of a farm in handling, planting, drying, packing, packaging, processing, freezing, grading, storing, or delivering to storage or to market or to a carrier for transportation to market, in its unmanufactured state, any agricultural or horticultural commodity; but only if such operator produced more than one-half of the commodity with respect to which such service is performed.

(B) In the employ of a group of operators of farms (other than a cooperative organization) in the performance of service described in subparagraph (A), but only if such operators produced all of the commodity with respect to which such service is performed. For the purposes of this subparagraph, any unincorporated group of operators shall be deemed a cooperative organization if the number of operators comprising such group is more than twenty at any time during the calendar quarter in which such service is performed.

(C) The provisions of subparagraphs (A) and (B) shall not be deemed to be applicable with respect to service performed in connection with commercial canning or coummercial freezing or in connection with any agricultural or horticultural commodity after its delivery to a terminal market for distribution for consumption.

(5) On a farm operated for profit if such service is not in the course of the employer's trade or business or is domestic service in a private home of the employer.

As used in this section, the term "farm" includes stock, dairy, poultry, fruit, fur-bearing animal, and truck farms, plantations, ranches, nurseries, ranges, greenhouses or other similar structures used primarily for the raising of agricultural or horticultural commodities, and orchards.

[Sec. 1426 (h), as added by sec. 606, Social Security Act Amendments 1939, and as amended by sec. 204 (d), Social Security Act Amendments 1950.]

* * * * *

SEC. 15. MISCELLANEOUS PROVISIONS (AGRICULTURAL MARKETING ACT).

* * * * *

(g) As used in this act, the term "agricultural commodity" includes * * * crude gum (oleoresin) from a living tree, and the following products as processed by the original producer of the crude gum (oleoresin) from which derived: Gum spirits of turpentine and gum rosin, as defined in the Naval Stores Act, approved March 3, 1923.

[Sec. 15 (g), Pub. Law 10 (71st Cong.), as added by sec. 3, Pub. Law 867 (71st Cong.).]

SEC. 2. (THE NAVAL STORES ACT).

That, when used in this act—

* * * * *

(c) "Gum spirits of turpentine" means spirits of turpentine made from gum (oleoresin) from a living tree.

* * * * *

(h) "Gum rosin" means rosin remaining after the distillation of gum spirits of turpentine.

[Sec. 2 (c), (h), Pub. Law 478 (67th Cong.).]

* * * * *

§ 406.216 *Remuneration for agricultural labor*—(a) *In general.* (1) The term "wages" does not include remuneration for services which constitute agricultural labor as defined in section 1426 (h). The term "agricultural labor" as so defined includes services of a character described in paragraphs (b), (c), (d), (e), and (f) of this section. In general, however, the term agricultural labor does not include services performed in connection with forestry, lumbering, or landscaping.

(2) The term "farm" as used in the regulations in this part includes stock, dairy, poultry, fruit, fur-bearing animal, and truck farms, plantations, ranches, nurseries, ranges, orchards, and such greenhouses and other similar structures as are used primarily for the raising of agricultural or horticultural commodities. Greenhouses and other similar structures used primarily for other purposes (for example, display, storage, and fabrication of wreaths, corsages, and bouquets) do not constitute "farms."

(b) *Services described in section 1426 (h) (1).* (1) Remuneration paid for services performed on a farm by an employee of any person in connection with any of the following activities is excepted as remuneration for agricultural labor:

(i) The cultivation of the soil;

(ii) The raising, shearing, feeding, caring for, training, or management of livestock, bees, poultry, fur-bearing animals, or wildlife; or

(iii) The raising or harvesting of any other agricultural or horticultural commodity.

(2) Remuneration paid for services performed in connection with the production or harvesting of maple sap, or in connection with the raising or harvesting of mushrooms, or in connection with the hatching of poultry is excepted only if such services are performed on a farm. Thus, services performed in connection with the operation of a hatchery, if not operated as part of a poultry or other farm, do not constitute agricultural labor. Services performed in the processing (as distinguished from the gathering) of maple sap into maple sirup or maple sugar do not constitute agricultural labor, even though such services are performed on a farm.

(c) *Services described in section 1426 (h) (2).* (1) The remuneration paid for the following services performed by an employee in the employ of the owner or tenant or other operator of one or more farms is excepted as remuneration for agricultural labor, provided the major part of such services is performed on a farm:

(i) Services performed in connection with the operation, management, conservation, improvement, or maintenance of any of such farms or its tools or equipment; or

(ii) Services performed in salvaging timber, or clearing land of brush and other debris, left by a hurricane.

(2) The services described in subparagraph (1) (i) of this paragraph may include, for example, services performed by carpenters, painters, mechanics, farm supervisors, irrigation engineers, bookkeepers, and other skilled or semiskilled workers, which contribute in any way to the conduct of the farm or farms, as such, operated by the person employing them, as distinguished from any other enterprise in which such person may be engaged.

(3) Since the services described in this paragraph must be performed in the employ of the owner or tenant or other operator of the farm, the exception does not extend to remuneration paid for services performed by employees of a commercial painting concern, for example, which contracts with a farmer to renovate his farm properties.

(d) *Services described in section 1426 (h) (3).* Remuneration paid for services performed by an employee in the employ of any person in connection with any of the following operations is excepted as remuneration for agricultural labor without regard to the place where such services are performed:

(1) The ginning of cotton;

(2) The operation or maintenance of ditches, canals, reservoirs, or waterways, not owned or operated for profit, used exclusively for supplying or storing water for farming purposes; or

(3) The production or harvesting of crude gum (oleoresin) from a living tree or the processing of such crude gum into gum spirits of turpentine and gum rosin, provided such processing is carried on by the original producer of such crude gum.

(e) *Services described in section 1426 (h) (4).* (1) Remuneration paid for services performed by an employee in the handling, planting, drying, packing, packaging, processing, freezing, grading, storing, or delivering to storage or to market or to a carrier for transportation to market, of any agricultural or horticultural commodity is excepted as remuneration for agricultural labor if:

(i) Such services are performed by the employee in the employ of an operator of a farm or in the employ of a group of operators of farms (other than a cooperative organization);

(ii) Such services are performed with respect to the commodity in its unmanufactured state; and

(iii) (*a*) Such operator produced more than one-half of the commodity with respect to which such services are performed during the pay period, or (*b*) such group of operators produced all of the commodity with respect to which such services are performed during the pay period.

(2) The term "operator of a farm" as used in this paragraph means an owner, tenant, or other person, in possession of a farm and engaged in the operation of such farm.

(3) The services described in this paragraph do not constitute agricultural labor if performed in the employ of a cooperative organization. The term "organization" includes corporations, joint-stock companies, and associations which are treated as corporations under the Internal Revenue Code. For the purposes of this paragraph, any unincorporated group of operators shall be deemed a cooperative organization if the number of operators comprising such group is more than 20 at any time during the calendar quarter in which the services involved are performed.

(4) Processing services which change the commodity from its raw or natural state do not constitute agricultural labor. For example, the extraction of juices from fruits or vegetables is a processing operation which changes the character of the fruits or vegetables from their raw or natural state and, therefore, does not constitute agricultural labor. On the other hand, services rendered in the cutting and drying of fruits or vegetables are processing operations which do not change the character of the fruits or vegetables and, therefore, constitute agricultural labor, if the other requisite conditions are met. Services performed with respect to a commodity after its character has been changed from its raw or natural state by a processing operation do not constitute agricultural labor.

(5) The term "commodity" refers to a single agricultural or horticultural product, for example, all apples are to be treated as a single commodity, while apples and peaches are to be treated as two separate commodities. The services with respect to each such commodity are to be considered separately in determining whether the condition set forth in subparagraph (1) (iii) of this paragraph has been satisfied. The portion of the commodity produced by an operator or group of operators with respect to which the services described in this paragraph are performed by a particular employee shall be determined on the basis of the pay period in which such services were performed by such employee.

(6) The services described in this paragraph do not include services performed in connection with commercial canning or commercial freezing, or in connection with any commodity after its delivery to a terminal market for distribution for consumption. Moreover, since the services described in this paragraph must be rendered in the actual handling, planting, drying, packing, packaging, processing, freezing, grading, storing, or delivering to storage or to market or to a carrier for transportation to market, of the commodity, such services do not, for example, include services performed as stenographers, bookkeepers, clerks, and other office employees, even though such services may be in connection with such activities. However, to the extent that the services of such individuals are performed in the employ of the owner or tenant or other operator of a farm and are rendered in major part on a farm, they may be within the provisions of paragraph (c) of this section.

(f) *Services described in section 1426 (h) (5).* Remuneration paid for services not in the course of the employer's trade or business (see § 406.220) or for domestic service in a private home of the employer (see § 406.218) is excepted as remuneration for agricultural labor if such services are performed on a farm operated for profit. Generally, a farm

is not operated for profit if it is occupied by the employer primarily for residential purposes, or is used primarily for the pleasure of the employer or his family such as for the entertainment of guests or as a hobby of the employer or his family.

§ 406.217 *Statutory provisions; definitions; wages; domestic service.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

* * * * *

(3) For domestic service in a private home, local college club, or local chapter of a college fraternity or sorority, or

[Sec. 1621 (a) (3), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

§ 406.218 *Remuneration for domestic service.* (a) Remuneration paid for services of a household nature performed by an employee in or about the private home of the person by whom he is employed, or performed in or about the club rooms or house of a local college club or local chapter of a college fraternity or sorority by which he is employed, is excepted from the term "wages."

(b) A private home is the fixed place of abode of an individual or family.

(c) A local college club or local chapter of a college fraternity or sorority does not include an alumni club or chapter.

(d) If the home is utilized primarily for the purpose of supplying board or lodging to the public as a business enterprise, it ceases to be a private home and the remuneration paid for services performed therein is not excepted. Likewise, if the club rooms or house of a local college club or local chapter of a college fraternity or sorority is used primarily for such purpose, the remuneration paid for services performed therein is not within the exception.

(e) In general, services of a household nature in or about a private home include services rendered by cooks, maids, butlers, valets, laundresses, furnacemen, gardeners, footmen, grooms, and chauffeurs of automobiles for family use. In general, services of a household nature in or about the club rooms or house of a local college club or local chapter of a college fraternity or sorority include services rendered by cooks, waiters, butlers, maids, janitors, laundresses, furnacemen, handymen, gardeners, housekeepers, and housemothers.

(f) The remuneration paid for services of a household nature is not within the exception if performed in or about rooming or lodging houses, boarding houses, clubs (except local college clubs), hotels, hospitals, eleemosynary institutions, or commercial offices or establishments.

(g) Remuneration paid for services performed as a private secretary, even though performed in the employer's home, is not within the exception.

§ 406.219 *Statutory provisions; definitions; wages; service not in the course of employer's trade or business.*

SEC. 1621. DEFINITIONS.

As used in this subchapter—

(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

* * * * *

(4) For service not in the course of the employer's trade or business performed in any calendar quarter by an employee, unless the cash remuneration paid for such service is $50 or more and such service is performed by an individual who is regularly employed by such employer to perform such service. For the purposes of this paragraph, an individual shall be deemed to be regularly employed by an employer during a calendar quarter only if (A) on each of some twenty-four days during such quarter such individual performs for such employer for some portion of the day service not in the course of the employer's trade or business, or (B) such individual was regularly employed (as determined under clause (A)) by such employer in the performance of such service during the preceding calendar quarter, or

* * * * *

(11) For services not in the course of the employer's trade or business, to the extent paid in any medium other than cash, or

[Sec. 1621 (a) (4), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 209 (c), Social Security Act Amendments 1950; and sec. 1621 (a) (11), as added by sec. 209 (c), Social Security Act Amendments 1950.]

* * * * *

§ 406.220 *Remuneration for service not in the course of employer's trade or business.* (a) The term "wages" does not include remuneration paid in any medium other than cash for service not in the course of the employer's trade or business. Cash remuneration paid for service not in the course of the employer's trade or business performed by an employee for an employer in a calendar quarter is excepted from the term "wages" unless—

(1) The cash remuneration paid for such service performed by the employee for the employer in the calendar quarter is $50 or more; and

(2) Such employee is regularly employed in the calendar quarter by such employer to perform such service.

Unless the tests set forth in both subparagraphs (1) and (2) of this paragraph are met, cash remuneration for service not in the course of the employer's trade or business is excluded from wages.

(b) The term "service not in the course of the employer's trade or business" includes service that does not promote or advance the trade or business of the employer. Remuneration paid for service performed for a corporation does not come within the exception.

(c) The test relating to cash remuneration of $50 or more is based on the remuneration earned during a calendar quarter rather than on the remuneration paid in a calendar quarter. However, for purposes of determining whether the test is met, it is also re-

quired that the remuneration be paid, although it is immaterial when the remuneration is paid. Furthermore, in determining whether $50 or more has been paid for service not in the course of the employer's trade or business, only cash remuneration for such service shall be taken into account. The term "cash remuneration" includes checks and other monetary media of exchange. Remuneration paid in any other meduim, such as lodging, food, or other goods or commodities, is disregarded in determining whether the cash-remuneration test is met.

(d) For the purposes of this exception, an individual is deemed to be regularly employed by an employer during a calendar quarter only if:

(1) Such individual performs service not in the course of the employer's trade or business for such employer for some portion of the day on at least 24 days (whether or not consecutive) during such calendar quarter; or

(2) Such individual was regularly employed (as determined under subparagraph (1)) by such employer in the performance of service not in the course of the employer's trade or business during the preceding calendar quarter.

(e) In determining whether an employee has performed service not in the course of the employer's trade or business on at least 24 days during a calendar quarter, there shall be counted as one day—

(1) Any day or portion thereof on which the employee actually performs such service; and

(2) Any day or portion thereof on which the employee does not perform service of the prescribed character but with respect to which cash remuneration is paid or payable to the employee for such service, such as a day on which the employee is sick or on vacation.

An employee who on a particular day reports for work and, at the direction of his employer, holds himself in readiness to perform service not in the course of the employer's trade or business shall be considered to be engaged in the actual performance of such service on that day. For the purposes of this exception, a day is a period of 24 hours commencing at midnight and ending at midnight.

(f) For provisions relating to service not in the course of the employer's trade or business and domestic service performed on a farm operated for profit, see § 406.216 (f). For provisions relating to domestic service in a private home, local college club, or local chapter of a college fraternity or sorority, see § 406.218.

§ 406.221 *Statutory provisions; definitions; wages; foreign government or international organization.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—
(a) *Wages.* The term "wages" means all remuneration • • • for services performed by an employee for his employer • • •; except that such term shall not include remuneration paid—

• • • • •

(5) For services by a citizen or resident of the United States for a foreign government or an international organization or for the government of the Commonwealth of the Philippines, or

[Sec. 1621 (a) (5), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 4 (e), Pub. Law 291 (79th Cong.).]

• • • • •

SEC. 3797. DEFINITIONS.
(a) When used in this title • • •

• • • • •

(18) *International organization.* The term "international organization" means a public international organization entitled to enjoy privileges, exemptions, and immunities as an international organization under the International Organizations Immunities Act.

[Sec. 3797 (a) (18), as added by sec. 4 (i), Pub. Law 291 (79th Cong.).]

• • • • •

SEC. 1. (INTERNATIONAL ORGANIZATIONS IMMUNITIES ACT).

For the purposes of this title [International Organizations Immunities Act], the term "international organization" means a public international organization in which the United States participates pursuant to any treaty or under the authority of any Act of Congress authorizing such participation or making an appropriation for such participation, and which shall have been designated by the President through appropriate Executive order as being entitled to enjoy the privileges, exemptions, and immunities herein provided. The President shall be authorized, in the light of the functions performed by any such international organization, by appropriate Executive order to withhold or withdraw from any such organization or its officers or employees any of the privileges, exemptions, and immunities provided for in this title (including the amendments made by this title) or to condition or limit the enjoyment by any such organization or its officers or employees of any such privilege, exemption, or immunity. The President shall be authorized, if in his judgment such action should be justified by reason of the abuse by an international organization or its officers and employees of the privileges, exemptions, and immunities herein provided or for any other reason, at any time to revoke the designation of any international organization under this section, whereupon the international organization in question shall cease to be classed as an international organization for the purposes of this title.

[Sec. 1, Pub. Law 291 (79th Cong.).]

§ 406.222 *Remuneration for services for foreign government or international organization*—(a) *Services for foreign government.* (1) Remuneration paid for services performed as an employee of a foreign government, or the government of the Commonwealth of the Philippines, is excepted. The exception includes not only remuneration paid for services performed by ambassadors, ministers, and other diplomatic officers and employees but also remuneration paid for services performed as a consular or other officer or employee of a foreign government, or the government of the Commonwealth of the Philippines, or as a nondiplomatic representative of such a government. However, the exception does not include remuneration for services performed for a corporation created or organized in the United States or under the laws of the United States or of any State (including the District of Columbia or the Territory of Alaska or Hawaii) or of Puerto Rico even though such corporation is wholly owned by such a government.

(2) The citizenship or residence of the employee and the place where the services are performed are immaterial for purposes of the exception.

(b) *Services for international organization.* Subject to the provisions of section 1 of the International Organizations Immunities Act, remuneration paid for services performed within or without the United States by an employee for an international organization as defined in section 3797 (a) (18) is excepted from the term "wages." The term "employee" as used in the preceding sentence includes not only an employee who is a citizen or resident of the United States but also an employee who is a nonresident alien individual. The term "employee" also includes an officer. An organization designated by the President through appropriate Executive order as entitled to enjoy the privileges, exemptions, and immunities provided in the International Organizations Immunities Act may enjoy the benefits of the exclusion from wages with respect to remuneration paid for services performed for such organization prior to the date of the issuance of such Executive order, if (1) the Executive order does not provide otherwise and (2) the organization is a public international organization in which the United States participates, pursuant to a treaty or under the authority of an Act of Congress authorizing such participation or making an appropriation for such participation, at the time such services are performed.

§ 406.223 *Statutory provisions; definitions; wages; nonresident aliens.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—
(a) *Wages.* The term "wages" means all remuneration • • • for services performed by an employee for his employer • • •; except that such term shall not include remuneration paid—

• • • • •

(6) For services performed by a nonresident alien individual, other than (A) a resident of a contiguous country who enters and leaves the United States at frequent intervals, or (B) a resident of Puerto Rico if such services are performed as an employee of the United States or any agency thereof, or

(7) For such services performed by a nonresident alien individual who is a resident of a contiguous country and who enters and leaves the United States at frequent intervals, as may be designated by regulations prescribed by the Commissioner with the approval of the Secretary, or

[Sec. 1621 (a) (6), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 221 (f) (1), Revenue Act 1950; and sec. 1621 (a) (7), as added by sec. 2 (a), Current Tax Payment Act 1943.]

• • • • •

§ 406.224 *Remuneration for services of nonresident alien individuals.* (a) Except in the case of certain nonresident alien individuals who are residents of Canada, Mexico, and Puerto Rico, remuneration for services performed by nonresident alien individuals does not constitute wages subject to withholding under section 1622. For withholding of income tax on wages paid for services performed within the United States in the case of nonresident alien individuals generally, see section 143 and regulations thereunder.

(b) Withholding is required in the case of wages paid to nonresident aliens who are residents of a contiguous country (Canada or Mexico) and who enter and leave the United States at frequent intervals, except such aliens who, in the performance of their duties in transportation service between points in the United States and points in a contiguous country, enter and leave the United States at frequent intervals. This exception applies to personnel engaged in railroad, ferry, steamboat, and aircraft services and applies alike whether the employer is a domestic or foreign entity. Thus, the wages of a nonresident alien individual who is a resident of Canada and an employee of a domestic railroad, for services as a member of the crew of a train operating between points in Canada and points in the United States, shall not be subject to withholding under section 1622. The exemption, however, has no application to a resident of Canada who, for example, is employed at a fixed point in the United States, such as a factory, store, or office, and who commutes from his home in Canada in the pursuit of his employment within the United States; nor does it apply to an alien employee of a railroad corporation who is on duty within the United States, even though he enters and leaves the United States in reaching his place of employment from his home in a contiguous country.

(c) In order for the exemption to apply, the nonresident alien employee must file with his employer a certificate containing the following: The employee's name and address, and a statement that he is not a citizen of the United States, and that he is a resident of the named contiguous country and the approximate period of time during which he has occupied such status. Such certificate shall contain, or be verified by, a written declaration that it is made under the penalties of perjury. Although the form is not prescribed, the certificate must contain all the information required by this section.

(d) Withholding is not required in the case of wages paid to a nonresident alien individual for services performed in Puerto Rico for an employer (other than the United States or any agency thereof), even though such alien individual is a resident of Puerto Rico at the time when such services are performed. Wages paid for services performed by a nonresident alien individual who is a resident of Puerto Rico are subject to withholding if such services are performed as an employee of the United States or any agency thereof. The place of performance of such services is immaterial, provided such alien individual is a resident of Puerto Rico at the time of performance. Wages representing retired pay for service in the Armed Forces of the United States are subject to withholding under the limitations specified in § 406.207 (b) (2), in the case of an alien resident of Puerto Rico.

§ 406.225 *Statutory provisions: definitions; wages; citizens outside the United States.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—
(a) *Wages.* The term "wages" means all remuneration • • • for services performed by an employee for his employer • • •; except that such term shall not include remuneration paid—

• • • • •

(8) (A) For services for an employer (other than the United States or any agency thereof) (i) performed by a citizen of the United States if, at the time of the payment of such remuneration, it is reasonable to believe that such remuneration will be excluded from gross income under section 116 (a), or (ii) performed in a foreign country by such a citizen if, at the time of the payment of such remuneration, the employer is required by the law of any foreign country to withhold income tax upon such remuneration, or

(B) For services for an employer (other than the United States or any agency thereof) performed by a citizen of the United States within a possession of the United States (other than Puerto Rico), if it is reasonable to believe that at least 80 per centum of the remuneration to be paid to the employee by such employer during the calendar year will be for such services, or

(C) For services for an employer (other than the United States or any agency thereof) performed by a citizen of the United States within Puerto Rico, if it is reasonable to believe that during the entire calendar year the employee will be a bona fide resident of Puerto Rico, or

[Sec. 1621 (a) (8), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 10, Pub. Law 384 (80th Cong.); sec. 221 (f) (2), Revenue Act 1950; sec. 321 (b), Revenue Act 1951; sec. 204 (b), Technical Changes Act 1953.]

• • • • •

SEC. 116. EXCLUSIONS FROM GROSS INCOME.
In addition to the items specified in section 22 (b), the following items shall not be included in gross income and shall be exempt from taxation under this chapter [Chapter 1]:

(a) *Earned income from sources without the United States*—(1) *Bona fide resident of foreign country.* In the case of an individual citizen of the United States, who establishes to the satisfaction of the Secretary that he has been a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year, amounts received from sources without the United States (except amounts paid by the United States or any agency thereof) if such amounts constitute earned income (as defined in paragraph (3)) attributable to such period; but such individual shall not be allowed as a deduction from his gross income any deductions properly allocable to or chargeable against amounts excluded from gross income under this paragraph.

(2) *Presence in foreign country for 17 months.* In the case of an individual citizen of the United States, who during any period of 18 consecutive months is present in a foreign country or countries during at least 510 full days in such period, amounts received from sources without the United States (except amounts paid by the United States or any agency thereof) if such amounts constitute earned income (as defined in paragraph (3)) attributable to such period; but such individual shall not be allowed as a deduction from his gross income any deductions properly allocable to or chargeable against amounts excluded from gross income under this paragraph. If the 18-month period includes the entire taxable year, the amount excluded under this paragraph for such taxable year shall not exceed $20,000. If the 18-month period does not include the entire taxable year, the amount excluded under this paragraph for such taxable year shall not exceed an amount which bears the same ratio to $20,000 as the number of days in the part of the taxable year within the 18-month period bears to the total number of days in such year.

[Sec. 116 (a) (1), (2), as amended by sec. 148 (a), Revenue Act 1942; sec. 107, Revenue Act 1943; sec. 321 (a), Revenue Act 1951; sec. 204 (a), Technical Changes Act 1953.]

• • • • •

§ 406.226 *Remuneration for services of citizens outside the United States*—(a) *Citizens in foreign countries*—(1) *Elimination of double withholding.* (i) The remuneration paid for services performed in a foreign country for an employer (other than the United States or any agency or instrumentality thereof) by a citizen of the United States does not constitute wages and hence is not subject to withholding, if at the time of the payment of such remuneration the employer is required by the law of any foreign country to withhold income tax upon such remuneration.

(ii) The remuneration is not exempt from withholding under this subparagraph if the employer is not required by the law of a foreign country to withhold income tax upon such remuneration. Mere agreements between the employer and the employee whereby the estimated income tax of a foreign country is withheld from the remuneration in anticipation of actual liability under the law of such country will not suffice.

(iii) The exemption from withholding provided by this subparagraph does not apply by reason of withholding of income tax pursuant to the law of a possession or territory of the United States or of a political subdivision of a foreign state.

(2) *Resident of a foreign country.* (i) The remuneration paid for services performed outside the United States for an employer (other than the United States or any agency or instrumentality thereof) by a citizen of the United States does not constitute wages and hence is not subject to withholding, if at the time of payment it is reasonable to believe that such remuneration will be excluded from gross income under the provisions of section 116 (a) (1).

(ii) Section 116 (a) (1) provides that, in the case of an individual citizen of the United States who establishes to the satisfaction of the Commissioner that he has been a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year, all amounts received from sources without the United States (except amounts paid by the United States or any agency or instrumentality thereof) shall be excluded from gross income if such amounts constitute earned income, as defined in section 116 (a) (3), which is attributable to such uninterrupted period. See section 116 (a) and the regulations thereunder.

(iii) The employer may, in the absence of cause for a reasonable belief to the contrary, presume that remuneration for services performed outside the United States during the taxable year, or applicable portion thereof, will be excluded from gross income under the provisions of section 116 (a) (1) for each taxable year in respect of which the employee properly executes and files in duplicate with the employer a statement in the following form:

STATEMENT FOR CLAIMING BENEFIT OF SECTION 116 (a) (1)

For calendar year ----------
or fiscal year
beginning ---------- and ending ----------

(A) My name is ----------. My present address is ----------. I am employed by ----------.

(B) My last address in the United States was ----------. The internal revenue district in which I filed my last income tax return is ----------.

(C) I ---------- file my income tax return on the calendar-year basis.
(Do or do not)

(D) I file my income tax return on the basis of the fiscal year beginning ----------, 19----, and ending ----------, 19----.

(E) I am a citizen of the United States.

(F) I have been a bona fide resident of the following foreign country or countries, namely, ----------, for an uninterrupted period which began on ----------, 19----.

(G) I expect to remain a bona fide resident of a foreign country or countries from the date of this statement until the end of the taxable year in respect of which this statement is filed.

(H) On the basis of the facts in my case I have good reason to believe that, with respect to the above period of foreign residence falling within the taxable year, I will satisfy the bona fide foreign-residence requirement prescribed by section 116 (a) (1) of the Internal Revenue Code.

(I) I understand that any exemption from withholding of tax permitted by reason of the filing of this statement is not a determination by the Commissioner of Internal Revenue that any remuneration paid to me for any services performed during the taxable year is excludable from gross income under the provisions of section 116 (a) (1) of the Internal Revenue Code.

I declare under the penalties of perjury that this statement has been examined by me and to the best of my knowledge and belief is true and correct.

----------
(Signature of taxpayer)

Date: ----------, 19----.

(iv) If with respect to any employee the employer was entitled to presume for the two consecutive taxable years immediately preceding the employee's current taxable year that the employee's remuneration for services performed outside the United States during such preceding taxable years would be excluded from gross income under the provisions of section 116 (a) (1), he may, if such employee is residing in a foreign country on the first day of such current taxable year, presume that, in the absence of cause for a reasonable belief to the contrary, the remuneration for services performed outside the United States during such current taxable year will be excluded from gross income under the provisions of section 116 (a) (1).

(3) *Physical presence in a foreign country.* (i) The remuneration paid for services performed outside the United States for an employer (other than the United States or any agency or instrumentality thereof) by a citizen of the United States does not constitute wages and hence is not subject to withholding, if at the time of payment it is reasonable to believe that such remuneration will be excluded from gross income under the provisions of section 116 (a) (2).

(ii) Section 116 (a) (2) provides that, in the case of an individual citizen of the United States who during any period of 18 consecutive months is present in a foreign country or countries during at least 510 full days in such period, amounts received from sources without the United States (except amounts paid by the United States or any agency or instrumentality thereof) shall be excluded from gross income if such amounts constitute earned income, as defined in section 116 (a) (3), which is attributable to such period. However, the total amount so excluded from gross income under the provisions of such section shall not exceed $20,000 for each taxable year if the 18-month period includes the entire taxable year. If the 18-month period does not include the entire taxable year, the amount excluded from gross income under such section for such taxable year shall not exceed an amount which bears the same ratio to $20,000 as the number of days in the part of the taxable year within the 18-month period bears to the total number of days in such year. See section 116 (a) and the regulations thereunder.

(iii) The employer may, in the absence of cause for a reasonable belief to the contrary, presume that remuneration for services performed outside the United States during the taxable year, or applicable portion thereof, will be excluded from gross income under the provisions of section 116 (a) (2) for each taxable year in respect of which the employee properly executes and files in duplicate with the employer a statement in the form set forth below. The presumption shall not apply after the total payments made during the taxable year of the employee equal $20,000 or such lesser amount as may be allowable under section 116 (a) (2) on the basis of the facts shown in such statement.

STATEMENT FOR CLAIMING BENEFIT OF SECTION 116 (a) (2)

For calendar year ----------
or fiscal year
beginning ---------- and ending ----------

(A) My name is ----------. My present address is ----------. I am employed by ----------.

(B) My last address in the United States was ----------. The internal revenue district in which I filed my last income tax return is ----------.

(C) I ---------- file my income tax return on the calendar-year basis.
(Do or do not)

(D) I file my income tax return on the basis of the fiscal year beginning ----------, 19----, and ending ----------, 19--.

(E) I am a citizen of the United States.

(F) Except for occasional absences which have not disqualified me for the benefit of section 116 (a) (2) of the Internal Revenue Code, I have been present in the following foreign country or countries, namely ------, during the period of time which began on ----------, 19----.

(G) I expect to be present in a foreign country or countries, except for occasional absences not disqualifying me for the benefit of section 116 (a) (2), from the date of this statement until the end of the taxable year in respect of which this statement is filed, or, if not for such period, from the date of this statement until the following date within such taxable year, namely, ----------, 19----.

(H) On the basis of the facts in my case I have good reason to believe that, with respect to the above period of presence in a foreign country or countries falling within the taxable year, I will satisfy the 510 full-day requirement prescribed by section 116 (a) (2) of the Internal Revenue Code.

(I) In the event I become disqualified for the exclusion provided by section 116 (a) (2) in respect of all or part of the above period of presence in a foreign country or countries falling within the taxable year, I will immediately notify my employer, giving sufficient facts to indicate the part, if any, of such period falling within such year in respect of which I am qualified for such exclusion.

(J) I understand that any exemption from withholding of tax permitted by reason of the filing of this statement is not a determination by the Commissioner of Internal Revenue that any remuneration paid to me for any services performed during the taxable year is excludable from gross income under the provisions of section 116 (a) (2) of the Internal Revenue Code.

I declare under the penalties of perjury that this statement has been examined by me and to the best of my knowledge and belief is true and correct.

----------
(Signature of taxpayer)

Date: ----------, 19----.

(4) *General.* The original of each statement filed with the employer pursuant to subparagraphs (2) and (3) of this paragraph (a) shall be transmitted to the district director with the employer's return on Form 941 required by § 406.601 for the quarter of the calendar year within which such statement is filed. The duplicate copy shall be retained by the employer.

(b) *Citizens in possessions of the United States other than Puerto Rico.* (1) Remuneration paid for services for an employer (other than the United States or any agency thereof) performed by a citizen of the United States within a possession of the United States, other than Puerto Rico, is not subject to withholding, if it is reasonable to believe that at least 80 percent of the remuneration to be paid to the employee by such employer during the calendar year will be for such services.

(2) Withholding is required in the case of remuneration paid to a citizen of the United States for services performed as an employee of the United States or any agency thereof in any possession of the United States, including Puerto Rico.

(c) *Citizens in Puerto Rico.* (1) Remuneration paid for services performed within Puerto Rico for an employer (other than the United States or any agency thereof) by a citizen of the United States is not subject to withholding, if it is reasonable to believe that during the entire calendar year the employee will be a bona fide resident of Puerto Rico.

(2) In addition, the employer may, in the absence of cause for a reasonable belief to the contrary, presume that an employee will be a bona fide resident of Puerto Rico during the entire calendar year—

(i) In every case except where the employee is known by the employer to have maintained his abode at a place outside Puerto Rico at some time during the current or the preceding calendar year; or

(ii) In every case where the employee files with the employer a statement (containing a declaration under the penalties of perjury that such statement is true to the best of the employee's knowledge and belief) that such employee has at all times during the current calendar year been a bona fide resident of Puerto Rico and that he intends to remain a bona fide resident of Puerto Rico during the entire remaining portion of such current calendar year.

(d) *Reasonable belief.* The reasonable belief referred to in subparagraph (A), (B), or (C) of section 1621 (a) (8) may be based upon any evidence reasonably sufficient to induce such belief, even though such evidence may be insufficient upon closer examination by the Commissioner or the courts finally to establish that the remuneration is excludable from gross income under the provisions of section 116 (a), section 116 (l), or section 251.

§ 406.227 *Statutory provisions; definitions; wages; minister of a church.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—
(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

* * * * *

(9) For services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry or by a member of a religious order in the exercise of duties required by such order, or

[Sec. 1621 (a) (9), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 209 (c), Social Security Act Amendments 1950.]

* * * * *

§ 406.228 *Remuneration for services performed by a minister of a church or by a member of a religious order.* Remuneration paid for services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order in the exercise of duties required by such order, is not subject to withholding under section 1622. The duties of ministers include the ministration of sacerdotal functions and the conduct of religious worship, and the control, conduct, and maintenance of religious organizations (including the religious boards, societies, and other integral agencies of such organizations), under the authority of a religious body constituting a church or church denomination.

§ 406.229 *Statutory provisions; definitions; wages; delivery or distribution of newspapers.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—
(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

* * * * *

(10) (A) For services performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution, or

(B) For services performed by an individual in, and at the time of, the sale of newspapers or magazines to ultimate consumers, under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price, his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back, or

[Sec. 1621 (a) (10), as added by sec. 209 (c), Social Security Act Amendments 1950.]

* * * * *

§ 406.230 *Remuneration for delivery and distribution of newspapers, shopping news, and magazines*—(a) *In general.* Subparagraph (A) of section 1621 (a) (10) excepts from wages the remuneration for certain services performed by an employee under the age of 18 in the delivery or distribution of newspapers or shopping news. This exception is dealt with in paragraph (b) of this section. Subparagraph (B) of section 1621 (a) (10) excepts from wages the remuneration for certain services in the sale of newspapers or magazines without regard to the age of the individual performing the services. Such exception is dealt with in paragraph (c) of this section.

(b) *Services of individuals under age 18.* Remuneration for services performed by an employee under the age of 18 in the delivery or distribution of newspapers, or shopping news, not including delivery or distribution (as, for example, by a regional distributor) to any point for subsequent delivery or distribution, is excepted from wages. Thus, remuneration for services performed by an employee under the age of 18 in making house-to-house delivery or sale of newspapers or shopping news, including handbills and other similar types of advertising material, is excepted from wages. The remuneration is excepted irrespective of the form or method thereof. The remuneration for incidental services by the employee who makes the house-to-house delivery, such as services in assembling newspapers, are considered to be within the exception. The exception continues only during the time that the employee is under the age of 18.

(c) *Services of individuals of any age.* Remuneration for services performed by an employee in, and at the time of, the sale of newspapers or magazines to ultimate consumers under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price, his remuneration being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, is excepted from wages. The remuneration is excepted whether or not the employee is guaranteed a minimum amount of remuneration, or is entitled to be credited with the unsold newspapers or magazines turned back. Moreover, the remuneration is excepted without regard to the age of the employee. Remuneration for services performed other than at the time of sale to the ultimate consumer is not within the exception. Thus, remuneration for services of a regional distributor which are antecedent to but not immediately part of the sale to the ultimate consumer are not within the exception. However, remuneration for incidental services by the employee who makes the sale to the ultimate consumer, such as services in assembling newspapers or in taking newspapers or magazines to the place of sale, is considered to be within the exception.

§ 406.231 *Statutory provisions; definitions; wages; certain tax-exempt trusts and annuity plans.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—
(a) *Wages.* The term "wages" means all remuneration * * * for services performed by an employee for his employer * * *; except that such term shall not include remuneration paid—

* * * * *

(12) To, or on behalf of, an employee or his beneficiary (A) from or to a trust exempt from tax under section 165 (a) at the time of such payment unless such payment is made to an employee of the trust as remuneration for services rendered as such employee and not as a beneficiary of the trust, or (B) under or to an annuity plan which, at the time of such payment, meets the requirements of section 165 (a) (3), (4), (5), and (6).

[Sec. 1621 (a) (12), as added by sec. 209 (c), Social Security Act Amendments 1950.]

* * * * *

§ 406.232 *Payments from or to certain tax-exempt trusts or under or to certain annuity plans.* Any payment from or to a trust or annuity plan is excepted from wages if:

(a) The payment is made by an employer, on behalf of an employee or his beneficiary, into a trust or annuity plan, if at the time of such payment the trust is exempt from tax under section 165 (a) or the annuity plan meets the requirements of section 165 (a) (3), (4), (5), and (6); or

(b) The payment is made to, or on behalf of, an employee or his beneficiary from a trust or under an annuity plan, if at the time of such payment the trust is exempt from tax under section 165 (a) or the annuity plan meets the requirements of section 165 (a) (3), (4), (5), and (6).

A payment made to an employee of a trust exempt from tax under section 165 (a) for services rendered as an employee of such trust and not as a beneficiary of the trust is not within this exception.

SUBPART C—DETERMINATION OF TAX

§ 406.300 *Statutory provisions; determination of tax.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

(a) *Requirement of withholding.* Every employer making payment of wages shall deduct and withhold upon such wages a tax equal to 18 per centum of the amount by which the wages exceed the number of withholding exemptions claimed multiplied by the amount of one such exemption as shown in subsection (b) (1) • • •.

[Sec. 1622 (a), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 22 (b), Individual Income Tax Act 1944; sec. 104 (a), Revenue Act 1945; sec. 501, Revenue Act 1948; sec. 141, Revenue Act 1950; sec. 201, Revenue Act 1951.]

(b) (1) The table referred to in subsection (a) is as follows:

PERCENTAGE METHOD WITHHOLDING TABLE

| Payroll period | *Amount of one withholding exemption* |
|---|---|
| Weekly | $13.00 |
| Biweekly | 26.00 |
| Semimonthly | 28.00 |
| Monthly | 56.00 |
| Quarterly | 167.00 |
| Semiannual | 333.00 |
| Annual | 667.00 |
| Daily or miscellaneous (per day of such period) | 1.80 |

(2) If wages are paid with respect to a period which is not a payroll period, the withholding exemption allowable with respect to each payment of such wages shall be the exemption allowed for a miscellaneous payroll period containing a number of days (including Sundays and holidays) equal to the number of days in the period with respect to which such wages are paid.

(3) In any case in which wages are paid by an employer without regard to any payroll period or other period, the withholding exemption allowable with respect to each payment of such wages shall be the exemption allowed for a miscellaneous payroll period containing a number of days equal to the number of days (including Sundays and holidays) which have elapsed since the date of the last payment of such wages by such employer during the calendar year, or the date of commencement of employment with such employer during such year, or January 1 of such year, whichever is the later.

(4) In any case in which the period, or the time described in paragraph (3), in respect of any wages is less than one week, the Commissioner, under regulations prescribed by him with the approval of the Secretary, may authorize an employer, in computing the tax required to be deducted and withheld, to use the excess of the aggregate of the wages paid to the employee during the calendar week over the withholding exemption allowed by this subsection for a weekly payroll period.

(5) In determining the amount to be deducted and withheld under this subsection, the wages may, at the election of the employer, be computed to the nearest dollar.

[Sec. 1622 (b), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 22 (b), Individual Income Tax Act 1944; sec. 104 (a), Revenue Act 1945; sec. 501, Revenue Act 1948.]

(c) *Wage bracket withholding*—(1) (A) • • •

(B) *Wages paid after December 31, 1953.* At the election of the employer with respect to any employee, the employer shall deduct and withhold upon the wages paid to such employee after December 31, 1953, a tax determined in accordance with the following tables, which shall be in lieu of the tax required to be deducted and withheld under subsection (a):

IF THE PAYROLL PERIOD WITH RESPECT TO AN EMPLOYEE IS WEEKLY

| And the wages are— | | And the number of withholding exemptions claimed is— | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| At least | But less than | 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 or more |
| | | The amount of tax to be withheld shall be— | | | | | | | | | | |

| $30.00 and over | | 5.40 | 5.05 | 4.75 | 4.40 | 4.10 | 3.75 | 3.45 | 3.10 | 2.75 | 2.45 | 2.10 |

(2) If wages are paid with respect to a period which is not a payroll period, the amount to be deducted and withheld shall be that applicable in the case of a miscellaneous payroll period containing a number of days (including Sundays and holidays) equal to the number of days in the period with respect to which such wages are paid.

(3) In any case in which wages are paid by an employer without regard to any payroll period or other period, the amount to be deducted and withheld shall be that applicable in the case of a miscellaneous payroll period containing a number of days equal to the number of days (including Sundays and holidays) which have elapsed since the date of the last payment of such wages by such employer during the calendar year, or the date of commencement of employment with such employer during such year, or January 1 of such year, whichever is the later.

(4) In any case in which the period, or the time described in paragraph (3), in respect of any wages is less than one week, the Commissioner, under regulations prescribed by him with the approval of the Secretary, may authorize an employer to determine the amount to be deducted and withheld under the tables applicable in the case of a weekly payroll period, in which case the aggregate of the wages paid to the employee during the calendar week shall be considered the weekly wages.

(5) If the wages exceed the highest wage bracket, in determining the amount to be deducted and withheld under this subsection, the wages may, at the election of the employer, be computed to the nearest dollar.

[Sec. 1622 (c), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 22 (c), Individual Income Tax Act 1944; sec. 104 (b), Revenue Act 1945; sec. 502, Revenue Act 1948; sec. 142, Revenue Act 1950; sec. 202, Revenue Act 1951.]

* * * * * *

SEC. 1621. DEFINITIONS.

As used in this subchapter—

* * * * * *

(b) *Payroll period.* The term "payroll period" means a period for which a payment of wages is ordinarily made to the employee by his employer, and the term "miscellaneous payroll period" means a payroll period other than a daily, weekly, biweekly, semimonthly, monthly, quarterly, semiannual, or annual payroll period.

[Sec. 1621 (b), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * * *

§ 406.301 *Payroll period.* (a) The term "payroll period" means the period of service for which a payment of wages is ordinarily made to an employee by his employer. It is immaterial that the wages are not always paid at regular intervals. For example, if an employer ordinarily pays a particular employee for each calendar week at the end of the week, but if for some reason the employee in a given week receives a payment in the middle of the week for the portion of the week already elapsed and receives the remainder at the end of the week, the payroll period is still the calendar week; or if, instead, that employee is sent on a 3-week trip by his employer and receives at the end of the trip a single wage payment for three weeks' services, the payroll period is still the calendar week, and the wage payment shall be treated as though it were three separate weekly wage payments.

(b) For the purpose of section 1622, an employee can have but one payroll period with respect to wages paid by any one employer. Thus, if an employee is paid a regular wage for a weekly payroll period and in addition thereto is paid supplemental wages (for example, bonuses) determined with respect to a different period, the payroll period is the weekly payroll period. For computation of tax on supplemental wage payments see § 406.306.

(c) The term "miscellaneous payroll period" means a payroll period other than a daily, weekly, biweekly, semimonthly, monthly, quarterly, semiannual, or annual payroll period.

§ 406.302 *Requirement of withholding.* Section 1622 provides, at the election of the employer, alternative methods for computing the income tax collected at source on wages. Under the percentage method of withholding, the employer is required to deduct and withhold a tax computed in accordance with the provisions of section 1622 (a). Under the wage bracket method of withholding, the employer is required to deduct and withhold a tax determined in accordance with the tables provided in subsection (c) of section 1622. The employer may elect to use the percentage method in the case of one group of employees and the wage bracket method in the case of another group of employees.

§ 406.303 *Percentage method withholding*—(a) *In general.* (1) The percentage method of computing the amount of tax to be withheld makes use of the percentage method withholding table contained in section 1622 (b) (1). This table shows with respect to each of the designated payroll periods the amount allowable for one withholding exemption. The amount of the withholding exemption allowable with respect to a particular payroll period depends upon the number of withholding exemptions claimed.

(2) The steps in computing the tax under such method are summarized as follows:

*Step 1.* Determine the amount of one withholding exemption for the particular payroll period from the percentage method withholding table.

*Step 2.* Multiply the amount of one withholding exemption by the number of exemptions claimed by the employee.

*Step 3.* Subtract the amount determined in step 2 from the employee's wages.

*Step 4.* Multiply the difference by the applicable percentage figure under section 1622 (a).

The result is the amount of tax to be withheld.

*Example.* During a year in which the effective rate under the percentage method of withholding is 0.18, an employee has a weekly payroll period, for which he is paid $75, and has in effect a withholding certificate claiming three exemptions. His employer, using the percentage method, computes the tax to be withheld as follows:

| | |
|---|---|
| Step 1: | |
| Amount of one withholding exemption | $13.00 |
| Step 2: | |
| Multiplied by number of exemptions claimed on Form W-4 | X3 |
| Total withholding exemption | 39.00 |
| Step 3: | |
| Total wage payment | 75.00 |
| Less amount determined in step 2 | 39.00 |
| Balance subject to tax | 36.00 |
| Step 4: | |
| Tax to be withheld (balance multiplied by 0.18) | 6.48 |

(b) *Established payroll periods, other than daily or miscellaneous, as shown in percentage method withholding table.* The amount of one withholding exemption, allowable with respect to each of the established payroll periods contained in the percentage method withholding table, is determined by reference to the line applicable to such payroll period and without reference to the time the employee is actually engaged in the performance of services during such payroll period.

*Example (1).* During 1954 employee C has a semimonthly payroll period. The number of withholding exemptions claimed by C is two. C's wages are determined at the rate of $1.20 per hour. During a certain payroll period he works only 40 hours and earns $48. Although C worked only 40 hours during the semimonthly payroll period, the applicable withholding exemption is $28, and the amount of two withholding exemptions, or $56, is allowable. Since the amount of the wages paid for the semimonthly payroll period is less than the amount allowed for two withholding exemptions for such period, the employer is not required to withhold any tax.

*Example (2).* During 1954 employee D has a weekly payroll period. The number of withholding exemptions claimed by D is two. D's wages are determined at the rate of $1.20 per hour. During a certain payroll period D works 30 hours and earns $36. Although D worked only 30 hours during the weekly payroll period, the applicable withholding exemption is $13, and the amount of two withholding exemptions, or $26, is allowable. The balance of $10 is subject to withholding.

(c) *Periods to which the daily or miscellaneous withholding exemption is applicable*—(1) *In general.* The percentage method withholding table shows for a daily or miscellaneous payroll period the withholding exemption allowable with respect to one day. Thus, in computing the withholding exemption allowable with respect to a particular miscellaneous payroll period, the withholding exemption shown in the table for one day of such period and the wages paid for the period must be placed on a comparable basis. This may be accomplished by either of the following methods:

(i) Adjust the percentage method withholding table to accord with the number of days in the period by multiplying the amount shown in the table as applicable per day of a miscellaneous payroll period by the number of days in such period.

(ii) Reduce the wages paid for the period to a daily basis by dividing the total wages by the number of days in the period.

(2) *Period not a payroll period.* If wages are paid for a period which is not a payroll period, the withholding exemption allowable with respect to each payment of such wages shall be the exemption allowed for a miscellaneous payroll period containing a number of days (including Sundays and holidays) equal to the number of days in the period with respect to which such wages are paid.

*Example.* An individual is hired by a contractor to perform services in connection with a building project. The number of withholding exemptions claimed by such individual is two. Wages were fixed at the rate of $9 per day, to be paid upon completion of the project. The project was completed during 1954 in 12 consecutive days, at the end of which period the individual is paid wages of $90 for 10 days' services performed during the period. For the purpose of computing the tax the amount of the withholding exemption allowable for the 12-day period is $43.20 ($12 \times (2 \times \$1.80)$).

(3) *Wages paid without regard to any period.* In the case of wages paid without regard to any particular period, as, for example, commissions paid to a salesman upon completion of a sale, the withholding exemption is measured by the number of days elapsed (including Sundays and holidays) since the date of the last payment of wages to such employee by such employer during the calendar year, or the date on which employment with such employer began during the calendar year, or January 1 of such calendar year, whichever is the latest.

*Example.* On April 2, 1954, A was employed by the X Real Estate Co. to sell real estate on a commission basis, commissions to be paid only upon consummation of sales. The number of withholding exemptions claimed by A is one. On May 21, 1954, A received a commission of $300. Again, on June 16, 1954, A received a commission of $400. The amount of the withholding exemption with respect to the commission paid on May 21 is $90 ($1.80 \times 50$). With respect to the commission paid on June 16, the amount of the withholding exemption is $46.80 ($1.80 \times 26$).

(d) *Period or elapsed time less than one week.* (1) It is the general rule that if wages are paid for a payroll period or other period of less than one week, the withholding exemption allowable shall be the exemption allowable for a daily payroll period, or a miscellaneous payroll period containing the same number of days (including Sundays and holidays) as the payroll period or other period for which such wages are paid. The same rule is applicable in the case of wages paid without regard to a payroll period or other period, where the elapsed time as determined in accordance with the rule prescribed in paragraph (c) of this section is less than one week.

*Example (1).* During 1954 an employee having a daily payroll period is paid wages of $12 per day. The number of withholding exemptions claimed by such employee is one. The amount of each such daily wage payment subject to withholding is $10.20 ($12.00 - $1.80$).

*Example (2).* During 1954 an employee works for a certain employer for four days, for which he is paid wages of $36. The number of withholding exemptions claimed by the employee is two. The amount of the withholding exemption allowable is $14.40 ($4 \times \$3.60$).

(2) Under certain conditions, however, if the payroll period, other period, or elapsed time where wages are paid without regard to any period, is less than one week, the employer may, at his election, deduct and withhold the tax computed as if the aggregate of the wages paid to the employee during the calendar week were paid for a weekly payroll period. Such election by the employer is limited to the case of an employee who works for wages only for such employer during the calendar week. Any employer electing to compute the tax upon the excess of the wages paid during the calendar week over the weekly exemption must secure a statement in writing from the employee, stating that he works for wages only for such employer, and that if he should thereafter secure additional employment for wages, he will within 10 days after the beginning of such additional employment, notify such employer of that fact. Such statement shall be signed by the employee and shall contain or be verified by a written declaration that it is made under the penalties of perjury. No form of statement is specified, but any form used must include the contents specified above. An employer electing to compute the tax in accordance with the provisions of this paragraph should withhold from each wage payment an amount sufficient to insure withholding of the correct amount of tax.

(3) If such employee secures additional employment for wages, such employer may not thereafter use the weekly exemption in computing the amount of tax to be withheld from the wages of such employee. In such event the daily or miscellaneous exemption will take effect as of the beginning of the first payroll period ending, or the first payment of wages made without regard to a payroll period, on or after 30 days from the date on which such employee notifies such employer that he has secured additional employment for wages.

(4) To illustrate the use of the weekly exemption in such a case: Assume the facts stated in example (2) of subparagraph (1) of this paragraph, except that the employer elects to use the weekly

withholding exemption after securing the proper statement from the employee. In such case, the amount of the withholding exemption allowable is $26 (2×$13).

(5) As used in this paragraph the term "calendar week" means a period of seven consecutive days beginning with Sunday and ending with Saturday.

(e) *Rounding off of wage payment.* In determining the amount of tax to be deducted and withheld under the percentage method, the last digit of the wage amount may, at the election of the employer, be reduced to zero, or the wage amount may be computed to the nearest dollar. Thus, if the weekly wage is $45.37, the employer may, in determining the amount of tax to be deducted and withheld, reduce the last digit to zero and determine the tax on the basis of a wage payment of $45.30 or he may determine the tax on the basis of a wage payment of $45.

§ 406.304 *Wage bracket withholding*—(a) *In general.* The employer may elect to use the wage bracket method provided in section 1622 (c) instead of the percentage method with respect to any employee. The tax computed under the wage bracket method shall be in lieu of the tax required to be deducted and withheld under section 1622 (a). Wage bracket withholding tables for weekly, biweekly, semimonthly, monthly, and daily or miscellaneous payroll periods are contained in section 1622 (c).

(b) *Established payroll periods, other than daily or miscellaneous, covered by wage bracket withholding tables.* The wage bracket withholding tables contained in section 1622 (c) for established payroll periods other than daily or miscellaneous should be used in determining the tax to be withheld for any such period without reference to the time the employee is actually engaged in the performance of services during such payroll period.

*Example (1).* During 1954 employee C has a semimonthly payroll period. The number of withholding exemptions claimed by C is two. During a certain payroll period C works only 40 hours and earns $48. Although C worked only 40 hours during the semimonthly payroll period, the wage bracket withholding table for a semimonthly payroll period should be used in determining the tax to be withheld. Under this table it will be found that no tax is required to be withheld from a wage payment of $48 when two withholding exemptions are claimed.

*Example (2).* During 1954 employee D has a weekly payroll period. The number of withholding exemptions claimed by D is two. D's wages are determined at the rate of $1.20 per hour. During a certain payroll period D works 30 hours and earns $36. Although D worked only 30 hours during the weekly payroll period, the wage bracket withholding table for a weekly payroll period should be used in determining the tax to be withheld. Under this table it will be found that $2.00 is the amount of tax to be withheld from a wage payment of $36 when two withholding exemptions are claimed.

(c) *Periods to which the table for a daily or miscellaneous payroll period is applicable*—(1) *In general.* The table applicable to a daily or miscellaneous payroll period shows the tax on the amount of wages for one day. Where the withholding is computed under the rules applicable to a miscellaneous payroll period, the wages and the amounts shown in the table must be placed on a comparable basis. This may be accomplished by either of the following methods:

(i) Adjust the amounts shown in the table to accord with the number of days in the period by multiplying such amounts by the number of days in such period. The amount of the tax required to be withheld is determined by applying the table as adjusted to the total wages paid for the period.

(ii) Reduce the wages paid for the period to a daily basis by dividing the total wages by the number of days in the period. Apply the table to the wages so determined and multiply the result by the number of days in the period.

(2) *Period not a payroll period.* If wages are paid for a period which is not a payroll period, the amount to be deducted and withheld under the wage bracket method shall be the amount applicable in the case of a miscellaneous payroll period containing a number of days (including Sundays and holidays) equal to the number of days in the period with respect to which such wages are paid.

*Example.* During 1954, an individual is hired by a contractor to perform services in connection with a construction project. The number of withholding exemptions claimed by the individual is two. Wages were fixed at the rate of $9 per day, to be paid upon completion of the project. The project was completed during 1954 in 12 days, at the end of which period the individual was paid $90, representing wages for 10 days' services performed during the period. Under the wage bracket method the amount to be deducted and withheld from such wages is determined by dividing the amount of the wages ($90) by the number of days in the period (12), the result being $7.50. The amount of tax required to be withheld is determined under the table applicable to a miscellaneous payroll period. Under this table the tax required to be withheld is $8.40 (12 x $0.70).

(3) *Wages paid without regard to any period.* If wages are paid without regard to any period, as, for instance, commissions paid to a salesman upon consummation of a sale, the amount of tax to be deducted and withheld shall be determined in the same manner as in the case of a miscellaneous payroll period containing a number of days equal to the number of days (including Sundays and holidays) which have elapsed since the date of the last payment of wages by such employer during the calendar year, or the date of commencement of employment with such employer during such year, or January 1 of such year, whichever is the latest.

*Example.* On April 2, 1954, A is hired by the X Real Estate Co. to sell real estate on a commission basis, commissions to be paid only upon consummation of sales. The number of withholding exemptions claimed by A is one. On May 21, 1954, A receives a commission of $300. Again, on June 16, 1954, A receives a commission of $400. Under the wage bracket method, the amount of tax to be deducted and withheld in respect of the commission paid on May 21 is $37.50, which amount is obtained by multiplying $0.75 (tax under wage bracket table for a daily or miscellaneous payroll period where wages are at least $6 but less than $6.25 a day) by 50 (number of days elapsed); and the amount of tax to be withheld with respect to the commission paid on June 16 is $62.40, which amount is obtained by multiplying $2.40 (tax under wage bracket table for a daily or miscellaneous payroll period where wages are at least $15 but less than $15.50 a day) by 26 (number of days elapsed).

(d) *Period or elapsed time less than one week.* (1) It is the general rule that if wages are paid for a payroll period or other period of less than one week, the tax to be deducted and withheld under the wage bracket method shall be the amount computed for a daily payroll period, or for a miscellaneous payroll period containing the same number of days (including Sundays and holidays) as the payroll period, or other period, for which such wages are paid. In the case of wages paid without regard to any period, if the elapsed time computed as provided in paragraph (c) of this section is less than one week, the same rule is applicable.

*Example (1).* During 1954 an employee having a daily payroll period is paid wages of $7 per day. The number of withholding exemptions claimed by the employee is one. Under the table applicable to a daily payroll period, the amount of tax to be deducted and withheld from each such payment of wages is $0.95.

*Example (2).* During 1954 an individual is hired for four days, for which he is paid wages of $36. The number of withholding exemptions claimed by him is two. The amount of tax to be deducted and withheld under the wage bracket method is $4.00 (4×$1.00).

(2) If the payroll period, other period, or elapsed time where wages are paid without regard to any period, is less than one week, the employer may, under certain conditions, elect to deduct and withhold the tax determined by the application of the wage table for a weekly payroll period to the aggregate of the wages paid to the employee during the calendar week. The election to use the weekly wage table in such cases is subject to the limitations and conditions prescribed in § 406.303 (d) with respect to employers using the percentage method in similar cases.

(e) *Rounding off of wage payment.* In determining the amount to be deducted and withheld under the wage bracket method the wage amount may, at the election of the employer, be computed to the nearest dollar, provided such amount is in excess of the highest wage bracket of the applicable table. Thus, if the payroll period of an employee is weekly and the wage payment of such employee is $255.25 the employer may compute the tax on the excess over $200 as if the excess were $55 instead of $55.25.

§ 406.305 *Statutory provisions; income tax collected at source; supplemental wage payments.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * * *

(1) *Overlapping pay periods, and so forth.* If a payment of wages is made to an employee by an employer—

(1) With respect to a payroll period or other period, any part of which is included in a payroll period or other period with respect to which wages are also paid to such employee by such employer, or

(2) Without regard to any payroll period or other period, but on or prior to the expiration of a payroll period or other period with respect to which wages are also paid to such employee by such employer, or

(3) With respect to a period beginning in one and ending in another calendar year, or

* * * * * *

the manner of withholding and the amount to be deducted and withheld under this subchapter shall be determined in accordance with regulations prescribed by the Commissioner with the approval of the Secretary under which the withholding exemption allowed to the employee in any calendar year shall approximate the withholding exemption allowable with respect to an annual payroll period.

[Sec. 1622 (f), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * * *

§ 406.306 *Supplemental wage payments*—(a) *In general.* (1) An employee's remuneration may consist of wages paid for a payroll period and supplemental wages, such as bonuses, commissions, and overtime pay, paid for the same or a different period, or without regard to a particular period. When such supplemental wages are paid (whether or not at the same time as the regular wages) the amount of the tax required to be withheld under section 1622 (a) (the percentage method) or under section 1622 (c) (the wage bracket method) shall be determined in accordance with either subparagraph (2) or (3) of this paragraph.

(2) The supplemental wages shall be aggregated with the wages paid for the payroll period, or, if not paid concurrently, shall be aggregated with the wages paid for the last preceding payroll period within the same calendar year or the current payroll period, and the amount of tax to be withheld shall be determined as if the aggregate of the supplemental wages and the regular wages constituted a single wage payment for the regular payroll period.

*Example (1).* A is employed as a salesman at a monthly salary of $100 plus commissions on sales made during the month. The number of withholding exemptions claimed is one. During January 1954 A earned $275 in commissions, which together with the salary of $100 was paid on February 10, 1954. Under the wage bracket method the amount of the tax required to be withheld is shown in the table applicable to a monthly payroll period. Under this table it will be found that the amount of tax required to be withheld is $57.00.

*Example (2).* B is employed at a salary of $3,000 per annum paid semimonthly on the 15th day and the last day of each month, plus a bonus and commission determined at the end of each 3-month period. The number of withholding exemptions claimed is four. The bonus and commission for the 3-month period ending on March 31, 1954, amount to $250, which was paid on April 10, 1954. Under the wage bracket method, the amount of tax required to be withheld on the aggregate of the bonus of $250 and the last preceding semimonthly wage payment of $125, or $375, is $46.60. Since tax in the amount of $2.70 was withheld on the semimonthly wage payment of $125, the amount to be withheld on April 10, 1954, is $43.90.

(3) If supplemental wages are paid and tax has been withheld from the employee's regular wages, the employer may determine the tax to be withheld from supplemental wages by using the applicable rate under section 1622 (a) without allowance for exemption and without reference to any regular payment of wages.

(b) *Special rule where aggregate withholding exemption exceeds wages paid.* (1) If supplemental wages are paid to an employee during a calendar year for a period which involves two or more consecutive payroll periods the wages for which are also paid during such calendar year and the aggregate of the wages paid for such payroll periods is less than the aggregate of the amounts determined under the table provided in section 1622 (b) (1) as the withholding exemptions applicable for such payroll periods, the amount of the tax required to be withheld on the supplemental wages shall be computed as follows:

(i) Determine an average wage for each of such payroll periods by dividing the sum of the supplemental wages and the wages paid for such payroll periods by the number of such payroll periods.

(ii) Determine a tax for each payroll period as if the amount of the average wage constituted the wages paid for such payroll period.

(iii) From the sum of the taxes computed on the basis of the average wage per payroll period subtract the sum of the taxes previously withheld for such payroll periods and the remainder, if any, shall constitute the amount of the tax to be withheld upon the supplemental wages.

(2) The rules prescribed in this paragraph shall, at the election of the employer, be applied in lieu of the rules prescribed in paragraph (a) of this section except that this paragraph shall not be applicable in any case in which the payroll period of the employee is less than one week.

*Example.* An employee has a weekly payroll period ending on Saturday of each week, the wages for which are paid on Friday of the succeeding week. On the 10th day of each month he is paid a bonus based upon production during the payroll periods for which wages were paid in the preceding month. The employee was paid a weekly wage of $64 on each of the five Fridays occurring in January 1954. On February 10, 1954, the employee was paid a bonus of $125 based upon production during the five payroll periods covered by the wages paid in January. On the date of payment of the bonus, the employee, who is married and has three children, has a withholding exemption certificate in effect claiming five withholding exemptions. The amount of the tax to be withheld from the bonus paid on February 10, 1954, is computed as follows:

| | |
|---|---|
| Wages paid in January 1954 for 5 payroll periods (5×$64) | $320.00 |
| Bonus paid Feb. 10, 1954 | 125.00 |
| Aggregate of wages and bonus | 445.00 |
| Average wage per payroll period ($445÷5) | 89.00 |
| Computation of tax under percentage method: | |
| Withholding exemptions (5×$13) | 65.00 |
| Remainder subject to tax | 24.00 |
| Tax on average wage for 1 week (18 percent of $24) | 4.32 |
| Tax on average wage for 5 weeks | $21.60 |
| Less: Tax previously withheld on weekly wage payments of $64 | None |
| Tax to be withheld on supplemental wages | 21.60 |
| Computation of tax under wage bracket method: | |
| Tax on $89 wage under weekly wage table ($4.50 per week for 5 weeks) | 22.50 |
| Less: Tax previously withheld on weekly wage payments of $64 ($0.20 per week for 5 weeks) | 1.00 |
| Tax to be withheld on supplemental wages | 21.50 |

(c) *Vacation allowances.* Amounts of so-called "vacation allowances" shall be subject to withholding as though they were regular wage payments made for the period covered by the vacation. If the vacation allowance is paid in addition to the regular wage payment for such period, the rules applicable with respect to supplemental wage payments shall apply to such vacation allowance.

§ 406.307 *Statutory provisions; income tax collected at source; payroll period of more than one year.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * * *

(1) *Overlapping pay periods, and so forth.* If a payment of wages is made to an employee by an employer—

* * * * * *

(3) With respect to a period beginning in one and ending in another calendar year, or

* * * * * *

the manner of withholding and the amount to be deducted and withheld under this subchapter shall be determined in accordance with regulations prescribed by the Commissioner with the approval of the Secretary under which the withholding exemption allowed to the employee in any calendar year shall approximate the withholding exemption allowable with respect to an annual payroll period.

[Sec. 1622 (f), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * * *

§ 406.308 *Wages paid for payroll period of more than one year.* If wages are paid to an employee for a payroll period of more than one year, for the purpose of determining the amount of tax required to be deducted and withheld in respect of such wages—

(a) Under the percentage method, the amount of the tax shall be determined as if such payroll period constituted an annual payroll period, and

(b) Under the wage bracket method, the amount of the tax shall be determined as if such payroll period constituted a miscellaneous payroll period of 365 days.

§ 406.309 *Statutory provisions; income tax collected at source; wages paid on behalf of two or more employers.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * * *

(1) *Overlapping pay periods, and so forth.* If a payment of wages is made to an employee by an employer—

* * * * * *

(4) Through an agent, fiduciary, or other person who also has the control, receipt, custody, or disposal of, or pays, the wages payable by another employer to such employee,

the manner of withholding and the amount to be deducted and withheld under this subchapter shall be determined in accordance with regulations prescribed by the Commissioner with the approval of the Secretary under which the withholding exemption allowed to the employee in any calendar year shall approximate the withholding exemption allowable with respect to an annual payroll period.

[Sec. 1622 (i), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

§ 406.310 *Wages paid on behalf of two or more employers.* (a) If a payment of wages is made to an employee by an employer through an agent, fiduciary, or other person who also has the control, receipt, custody, or disposal of, or pays the wages payable by another employer to such employee, the amount of the tax required to be withheld on each wage payment made through such agent, fiduciary, or person shall, whether the wages are paid separately on behalf of each employer or paid in a lump sum on behalf of all such employers, be determined upon the aggregate amount of such wage payment or payments in the same manner as if such aggregate amount had been paid by one employer. Hence, under either the percentage method or the wage bracket method the tax shall be determined upon the aggregate amount of the wage payment.

(b) In any such case, each employer shall be liable for the return and payment of a pro rata portion of the tax so determined, such portion to be determined in the ratio which the amount contributed by the particular employer bears to the aggregate of such wages.

(c) For example, three companies maintain a central management agency which carries on the administrative work of the several companies. The central agency organization consists of a staff of clerks, bookkeepers, stenographers, etc., who are the common employees of the three companies. The expenses of the central agency, including wages paid to the foregoing employees, are borne by the several companies in certain agreed proportions. Companies X and Y each pay 40 percent and Company Z pays 20 percent. The amount of the tax required to be withheld on the wages paid to persons employed in the central agency should be determined in accordance with the provisions of this section. In such event, Companies X and Y are each liable as employers for the return and payment of 40 percent of the tax required to be withheld and Company Z is liable for the return and payment of 20 percent of the tax. (See § 406.807, relating to acts to be performed by agents.)

§ 406.311 *Statutory provisions; income tax collected at source; average wages.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * *

(j) *Withholding on basis of average wages.* The Commissioner may, under regulations prescribed by him with the approval of the Secretary, authorize employers (1) to estimate the wages which will be paid to any employee in any quarter of the calendar year, (2) to determine the amount to be deducted and withheld upon each payment of wages to such employee during such quarter as if the appropriate average of the wages so estimated constituted the actual wages paid, and (3) to deduct and withhold upon any payment of wages to such employee during such quarter such amount as may be necessary to adjust the amount actually deducted and withheld upon the wages of such employee during such quarter to the amount required to be deducted and withheld during such quarter without regard to this subsection.

[Sec. 1622 (j), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

§ 406.312 *Withholding on basis of average wages.* The Commissioner may authorize the employer to withhold the tax under section 1622 on the basis of the employee's average estimated wages, with necessary adjustments, for any quarter. Before using such method the employer must receive authorization from the Commissioner. Applications to use such method must be accompanied by evidence establishing the need for the use of such method.

§ 406.313 *Statutory provisions; income tax collected at source; additional withholding.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * *

(k) *Additional withholding.* The Secretary is authorized by regulations to provide, under such conditions and to such extent as he deems proper, for withholding in addition to that otherwise required under this section in cases in which the employer and the employee agree (in such form as the Secretary may by regulations prescribe) to such additional withholding. Such additional withholding shall for all purposes be considered tax required to be deducted and withheld under this subchapter.

[Sec. 1622 (k), as added by sec. 203, Revenue Act 1951.]

§ 406.314 *Additional withholding.* (a) In addition to the tax required to be deducted and withheld in accordance with the provisions of section 1622, the employer and employee may agree that an additional amount shall be withheld from the employee's wages. The agreement shall be in writing and shall be in such form as the employer may prescribe. The agreement shall be effective for such period as the employer and employee mutually agree upon. However, unless the agreement provides for an earlier termination, either the employer or the employee, by furnishing a written notice to the other, may terminate the agreement effective with respect to the first payment of wages made on or after the first "status determination date" (January 1 and July 1 of each year) which occurs at least 30 days after the date on which such notice is furnished.

(b) The amount deducted and withheld pursuant to an agreement between the employer and employee shall be considered as tax required to be deducted and withheld under section 1622. All provisions of law and regulations applicable with respect to the tax required to be deducted and withheld under section 1622 shall be applicable with respect to any amount deducted and withheld pursuant to the agreement.

(c) The amount deducted and withheld pursuant to an agreement between the employer and employee, together with the tax required to be deducted and withheld under section 1622, shall be reported on Form W–2 and on Form 941 as Federal income tax withheld from wages.

§ 406.315 *Statutory provisions; income tax collected at source; withholding exemptions.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * *

(h) *Withholding exemptions*—(1) *In general.* An employee receiving wages shall on any day be entitled to the following withholding exemptions:

(A) An exemption for himself.

(B) One additional exemption for himself if, on the basis of facts existing at the beginning of such day, there may reasonably be expected to be allowable an exemption under section 25 (b) (1) (B) (i) (relating to old age) for the taxable year under Chapter 1 in respect of which amounts deducted and withheld under this subchapter in the calendar year in which such day falls are allowed as a credit.

(C) One additional exemption for himself if, on the basis of facts existing at the beginning of such day, there may reasonably be expected to be allowable an exemption under section 25 (b) (1) (C) (i) (relating to the blind) for the taxable year under Chapter 1 in respect of which amounts deducted and withheld under this subchapter in the calendar year in which such day falls are allowed as a credit.

(D) If the employee is married, any exemption to which his spouse is entitled, or would be entitled if such spouse were an employee receiving wages, under subparagraph (A), (B), or (C), but only if such spouse does not have in effect a withholding exemption certificate claiming such exemption.

(E) An exemption for each individual with respect to whom, on the basis of facts existing at the beginning of such day, there may reasonably be expected to be allowable an exemption under section 25 (b) (1) (D) for the taxable year under Chapter 1 in respect of which amounts deducted and withheld under this subchapter in the calendar year in which such day falls are allowed as a credit.

(2) *Exemption certificates.*

(A) *On commencement of employment.* On or before the date of the commencement of employment with an employer, the employee shall furnish the employer with a signed withholding exemption certificate relating to the number of withholding exemptions which he claims, which shall in no event exceed the number to which he is entitled.

(B) *Change of status, etc.* If, on any day during the calendar year, the number of withholding exemptions to which the employee is entitled is less than the number of withholding exemptions claimed by the employee on the withholding exemption certificate then in effect with respect to him, the employee shall within ten days thereafter furnish the employer with a new withholding exemption certificate relating to the number of withholding exemptions which the employee then claims, which shall in no event exceed the number to which he is entitled on such day. If, on any day during the calendar year, the number of withholding exemptions to which the employee is entitled is greater than the number of withholding exemptions claimed, the employee may furnish the employer with a new withholding exemption certificate relating to the number of withholding exemptions which the employee then claims, which shall in no event exceed the number to which he is entitled on such day.

(C) *Change of status, etc., which affects next calendar year.* If on any day during the calendar year the number of withholding exemptions to which the employee will be, or may reasonably be expected to be, entitled at the beginning of his next taxable year under Chapter 1 is different from the number to which the employee is entitled on such day, the employee shall, in such cases and at such times as the Commissioner, with the approval of the Secretary, may by regulations prescribe, furnish the employer with a withholding exemption certificate relating to the number of withholding exemptions which he claims with respect to such next taxable year, which shall in no event exceed the number to which he will be, or may reasonably be expected to be, so entitled.

(3) *When certificate takes effect.*

(A) *First certificate furnished.* A withholding exemption certificate furnished the employer in cases in which no previous such certificate is in effect shall take effect as of the beginning of the first payroll period ending, or the first payment of wages made without regard to a payroll period, on or after the date on which such certificate is so furnished.

(B) *Furnished to take place of existing certificate.* A withholding exemption certificate furnished the employer in cases in which a previous such certificate is in effect shall take effect with respect to the first payment of wages made on or after the first status determination date which occurs at least thirty days from the date on which such certificate is so furnished, except that at the election of the employer such certificate may be made effective with respect to any payment of wages made on or after the date on which such certificate is so furnished; but a certificate furnished pursuant to paragraph (2) (C) shall not take effect, and may not be made effective, with respect to any payment of wages made in the calendar year in which the certificate is furnished. For the purposes of this subparagraph the term "status determination date" means January 1 and July 1 of each year.

(4) *Period during which certificate remains in effect.* A withholding exemption certificate which takes effect under this subsection shall continue in effect with respect to the employer until another such certificate takes effect under this subsection.

(5) *Contents of certificate.* Withholding exemption certificates shall be in such form and contain such information as the Commissioner may, with the approval of the Secretary, by regulations prescribe.

[Sec. 1622 (h), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 137, Revenue Act 1943; sec. 22 (d) and (f), Individual Income Tax Act 1944; sec. 104 (c), Revenue Act 1945; sec. 202 (b) (1), Revenue Act 1948.]

* * * * *

SEC 1626. PENALTIES.

* * * * *

(d) *Penalties in respect of withholding exemption certificates.* Any individual required to supply information to his employer under section 1622 (h) who willfully supplies false or fraudulent information, or who willfully fails to supply information thereunder which would require an increase in the tax to be withheld under section 1622, shall, in lieu of any penalty otherwise provided, upon conviction thereof, be fined not more than $500, or imprisoned for not more than one year, or both.

[Sec 1626 (d), as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 25. CREDITS OF INDIVIDUAL AGAINST NET INCOME.

* * * * *

(b) *Credits for both normal tax and surtax*—(1) *Credits.* There shall be allowed for the purposes of both the normal tax and the surtax, the following credits against net income:

(A) An exemption of $600 for the taxpayer; and an additional exemption of $600 for the spouse of the taxpayer if a separate return is made by the taxpayer, and if the spouse, for the calendar year in which the taxable year of the taxpayer begins, has no gross income and is not the dependent of another taxpayer;

(B) (i) An additional exemption of $600 for the taxpayer if he has attained the age of 65 before the close of his taxable year; and

(ii) An additional exemption of $600 for the spouse of the taxpayer if a separate return is made by the taxpayer, and if the spouse has attained the age of 65 before the close of such taxable year, and, for the calendar year in which the taxable year of the taxpayer begins, has no gross income and is not the dependent of another taxpayer;

(C) (i) An additional exemption of $600 for the taxpayer if he is blind at the close of his taxable year; and

(ii) An additional exemption of $600 for the spouse of the taxpayer if a separate return is made by the taxpayer, and if the spouse is blind and, for the calendar year in which the taxable year of the taxpayer begins, has no gross income and is not the dependent of another taxpayer. For the purposes of this clause the determination of whether the spouse is blind shall be made as of the close of the taxable year of the taxpayer, unless the spouse dies during such taxable year, in which case such determination shall be made as of the time of such death;

(iii) For the purposes of this subparagraph an individual is blind only if either: his central visual acuity does not exceed 20/200 in the better eye with correcting lenses, or his visual acuity is greater than 20/200 but is accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees;

(D) An exemption of $600 for each dependent whose gross income for the calendar year in which the taxable year of the taxpayer begins is less than $600, except that the exemption shall not be allowed in respect of a dependent who has made a joint return with his spouse under section 51 for the taxable year beginning in such calendar year.

(2) *Determination of status.* For the purposes of this subsection—

(A) The determination of whether an individual is married shall be made as of the close of his taxable year, unless his spouse dies during his taxable year, in which case such determination shall be made as of the time of such death; and

(B) An individual legally separated from his spouse under a decree of divorce or of separate maintenance shall not be considered as married.

(3) *Definition of dependent.* As used in this chapter the term "dependent" means any of the following persons over half of whose support, for the calendar year in which the taxable year of the taxpayer begins, was received from the taxpayer:

(A) A son or daughter of the taxpayer, or a descendant of either,

(B) A stepson or stepdaughter of the taxpayer,

(C) A brother, sister, stepbrother, or stepsister of the taxpayer,

(D) The father or mother of the taxpayer, or an ancestor of either,

(E) A stepfather or stepmother of the taxpayer,

(F) A son or daughter of a brother or sister of the taxpayer,

(G) A brother or sister of the father or mother of the taxpayer,

(H) A son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law of the taxpayer.

As used in this paragraph, the terms "brother" and "sister" include a brother or sister by the half-blood. For the purposes of determining whether any of the foregoing relationships exist (1) a legally adopted child of a person or (2) a child for which petition for adoption was filed by a person in the appropriate court and denied because of mental incapacity of surviving natural parent to agree to such adoption, shall be considered a child of such person by blood. The term "dependent" does not include any individual who is a citizen or subject of a foreign country unless such individual is a resident of the United States or of a country contiguous to the United States. A payment to a wife which is includible under section 22 (k) or section 171 in the gross income of such wife shall not be considered a payment by her husband for the support of any dependent.

[Sec. 25 (b), as amended by sec. 6 (a), Revenue Act 1940; secs. 111 (a), 113, Revenue Act 1941; secs. 120 (e) (1), 131 (a) (1) and (b), Revenue Act 1942; sec. 103, Revenue Act 1943; sec. 10 (b), Individual Income Tax Act 1944; sec. 102 (a), Revenue Act 1945; sec. 201, Revenue Act 1948; sec. 310 (a), Revenue Act 1951; sec. 3, Pub. Law 213 (83d Cong.).]

§ 406.316 *Withholding exemptions*—(a) *In general.* (1) An employee receiving wages shall on any day be entitled to withholding exemptions as provided in section 1622 (h) (1). In order to receive the benefit of such exemptions, the employee must file with his employer a withholding exemption certificate as provided in section 1622 (h) (2). See § 406.319.

(2) The number of exemptions to which an employee is entitled on any day depends upon his status as single or married, upon his status as to old age and blindness, upon the number of his dependents, and, if married, upon the number of exemptions claimed by his spouse.

(3) An employee is entitled to one withholding exemption for himself and he may also be entitled to withholding exemptions for old age and blindness.

(b) *Old age or blindness.* If an employee will have attained 65 years before the end of the taxable year he may claim an additional withholding exemption on account of age. If the employee is blind, he may claim an additional withholding exemption for blindness. For the purposes of claiming a withholding exemption for blindness, an individual shall be considered blind only if either his central visual acuity does not exceed 20/200 in the better eye with correcting lenses or his visual acuity is greater than 20/200 but is accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

(c) *Spouse.* (1) A married employee is entitled to one withholding exemption for himself. He is also entitled to one withholding exemption for his spouse, unless his spouse is employed and claims the withholding exemption for herself. Thus, a married couple is entitled to one withholding exemption for each spouse and they each may claim one exemption, but if one spouse does not claim his exemption the other spouse may claim it. If the employee's spouse will have attained 65 years before the end of such employee's taxable year and such spouse has no withholding exemption certificate in effect claiming such exemption, the employee may also claim an additional withholding exemption on account of the

age of his spouse. If the employee's spouse is blind and has no withholding exemption certificate in effect claiming such exemption, the employee may also claim an additional withholding exemption for the blindness of his spouse. If both husband and wife are employees receiving wages subject to withholding and the wife is over the age of 65 and has in effect a withholding exemption certificate claiming only one exemption, then the husband may claim one exemption for her on his certificate.

(2) For the purpose of determining the number of withholding exemptions to which an employee is entitled for himself and his spouse on any day, the employee's status as a single person or a married person and, if married, whether a withholding exemption is claimed by his spouse shall be determined as of such day, but, in the case of a married person, the withholding exemption claimed by an employee for his spouse or on account of the age or blindness of his spouse may be claimed by the employee for that portion of his taxable year which occurs after his spouse's death.

(d) *Dependent.* (1) Subject to the limitations stated in this paragraph, an employee shall also be entitled on any day to a withholding exemption for each individual who may be reasonably expected to be his dependent for the taxable year beginning in the calendar year in which such day falls. For the purposes of the withholding exemption for an individual who may be reasonably expected to be a dependent, the following rules shall apply:

(i) The determination that an individual may or may not be reasonably expected to be a dependent shall be made on the basis of facts existing at the beginning of the day for which a withholding exemption for such individual is to be claimed. The individual in respect of whom an exemption is claimed must be in existence and bear the required relationship to the employee on the day in question.

(ii) The determination that an individual may or may not be reasonably expected to be a dependent shall be made for the taxable year of the employee under chapter 1 of the Internal Revenue Code in respect of which amounts deducted and withheld in the calendar year in which the day in question falls are allowed as a credit. In general, amounts deducted and withheld during any calendar year are allowed as a credit against the tax imposed by chapter 1 for the taxable year which begins in, or with, such calendar year. For example, in order for an employee to be able to claim for a calendar year a withholding exemption with respect to a particular individual (other than the employee's spouse) there must be a reasonable expectation that the employee will be allowed an exemption with respect to such individual under section 25 (b) for his income tax taxable year.

(iii) For the employee to be entitled on any day of the calendar year to a withholding exemption for an individual as a dependent, such individual must on such day be reasonably expected to receive less than $600 of gross income for such calendar year, receive over half of his support from the employee during such calendar year, and be related to the employee in one of the relationships specified in section 25 (b) (3).

(2) If an employee undertakes the support of an individual before July 1 of any calendar year and intends to support such individual for the rest of such year, it will be considered reasonable for such employee to claim for the purposes of the withholding exemption that he expects to furnish more than half the support of such individual for such calendar year.

(3) If a dependent of an employee dies during the calendar year, the withholding exemption for the dependent continues for that portion of the employee's taxable year which follows the dependent's death.

(4) An employee is not entitled to claim a withholding exemption for an individual otherwise reasonably expected to be a dependent of the employee if such individual is a citizen of a foreign country, unless such individual is at any time during the calendar year a resident of the United States, Canada, or Mexico.

§ 406.317 *Statutory provisions; definitions; number of withholding exemptions claimed.*

SEC. 1621. DEFINITIONS.
As used in this subchapter—

* * * * *

(e) *Number of withholding exemptions claimed.* The term "number of withholding exemptions claimed" means the number of withholding exemptions claimed in a withholding exemption certificate in effect under section 1622 (h), except that if no such certificate is in effect, the number of withholding exemptions claimed shall be considered to be zero.

[Sec. 1621 (e), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 22 (a), Individual Income Tax Act 1944.]

§ 406.318 *Number of withholding exemptions claimed.* (a) The term "number of withholding exemptions claimed" is defined in section 1621 (e). The number of withholding exemptions claimed must be taken into account in determining the amount of tax to be deducted and withheld under section 1622, whether the employer computes the tax in accordance with the provisions of subsection (a) or subsection (c) of section 1622.

(b) The employer is not required to ascertain whether or not the number of withholding exemptions claimed is greater than the number of withholding exemptions to which the employee is entitled. If, however, the employer has reason to believe that the number of withholding exemptions claimed by an employee is greater than the number to which such employee is entitled, the district director should be so advised.

(c) As to the number of withholding exemptions to which an employee is entitled, see § 406.316.

§ 406.319 *Withholding exemption certificates*—(a) *In general.* Every employee receiving wages shall furnish his employer a signed withholding exemption certificate on Form W–4, relating to the number of withholding exemptions which he claims, which shall in no event exceed the number to which he is entitled. A withholding exemption certificate shall be furnished the employer by such employee on or before the date of the commencement of employment with the employer. The employer is required to request a withholding exemption certificate from each employee, but if the employee fails to furnish such certificate, such employee shall be considered as claiming no withholding exemptions. Forms of certificate (Form W–4) will be supplied employers upon request to the district director. In lieu of the prescribed form of certificate, employers may prepare and use a form the provisions of which are identical with the prescribed form. The certificate must be retained by the employer as a supporting record of the withholding exemption claimed. Section 1622 (h) (2) (B) provides for the filing of a new withholding exemption certificate when any change occurs which affects the number of withholding exemptions to which an employee is entitled.

(b) *Change in exemptions.* (1) If, on any day during the calendar year, the number of withholding exemptions of an employee is more than the number of withholding exemptions claimed on the withholding exemption certificate then in effect, the employee may furnish the employer with a new withholding exemption certificate on which the employee must in no event claim more than the number of withholding exemptions to which he is entitled on such day.

(2) If, however, on any day during the calendar year, the number of withholding exemptions to which the employee is entitled is less than the number of withholding exemptions claimed on the withholding exemption certificate then in effect, the employee must within 10 days after the change occurs furnish the employer with a new withholding exemption certificate relating to the number of withholding exemptions which the employee then claims, which must in no event exceed the number to which he is entitled on such day. The number of withholding exemptions to which an employee is entitled decreases for any of the following reasons:

(i) The employee's wife (or husband) for whom the employee has been claiming a withholding exemption, is divorced or legally separated from the employee, or claims her (or his) own withholding exemption on a separate certificate.

(ii) The support of an individual for whom the employee has been claiming a withholding exemption is taken over by someone else, so that it can no longer be reasonably expected that the employee will furnish over half of the support of such individual for the particular calendar year.

(iii) The employee finds that an individual claimed as a dependent on a withholding exemption certificate will receive $600 or more of gross income of his or her own during the current calendar year.

(c) *Change in exemptions which affects next taxable year.* (1) If on any day during the calendar year the number of exemptions to which the employee will be, or may be reasonably expected to be, entitled at the beginning of his next taxable year under chapter 1 of the Internal Revenue Code is different from the number to which the employee is entitled on such day, the following rules shall be applicable:

(i) If such number is greater than the number of withholding exemptions claimed in a withholding exemption certificate in effect on such day, the employee may, on or before December 1 of the year in which such change occurs, unless such change occurs in December, furnish his employer with a new withholding exemption certificate reflecting the increase in the number of withholding exemptions. If the change occurs in December, the certificate may be furnished on or after the date on which the change occurs.

(ii) If such number is less than the number of withholding exemptions claimed in a withholding exemption certificate in effect on such day, the employee must, on or before December 1 of the year in which the change occurs, unless such change occurs in December, furnish his employer with a new withholding exemption certificate reflecting the decrease in the number of withholding exemptions. If the change occurs in December, the new certificate must be furnished within 10 days of the date on which the change occurs.

(2) Before December 1 of each year, every employer should request his employees to file new withholding exemption certificates for the ensuing year, in the event of change in their exemption status since the filing of their latest certificates. The number of exemptions to which an employee is entitled at the beginning of the next taxable year under chapter 1 of the Code decreases, for example, for any of the following reasons:

(i) The spouse or a dependent of the employee dies.

(ii) The employee ceases late in the year to support an individual so that it is not reasonable to expect that more than half of the individual's support will be received from the employee during the ensuing year.

(iii) A dependent of the employee begins to receive income late in the year so that it is reasonable to expect that the dependent will have a gross income of $600 or more for the ensuing year.

(d) *Penalties.* Section 1626 (d) provides criminal penalties applicable with respect to individuals who are required under section 1622 (h) to furnish to their employers information relating to the number of withholding exemptions claimed. The penalties are imposed upon any such individual (1) who willfully supplies false or fraudulent information or (2) who willfully fails to supply information which would increase the tax required to be withheld at the source on his wages. The penalty in each instance is a fine of not more than $500 or imprisonment for not more than one year, or both. Such penalties are in lieu of any penalties otherwise provided by law for failure to furnish the information required by section 1622 (h) or for the furnishing of false or fraudulent information under such section.

§ 406.320 *When withholding exemption certificates effective.* (a) A withholding exemption certificate furnished the employer in any case in which no previous withholding exemption certificate is in effect with such employer, shall take effect as of the beginning of the first payroll period ending, or the first payment of wages made without regard to a payroll period, on or after the date on which such certificate is so furnished.

(b) A withholding exemption certificate furnished the employer in any case in which a previous withholding exemption certificate is in effect with such employer shall, except as hereinafter provided, take effect with respect to the first payment of wages made on or after the first status determination date which occurs at least 30 days from the date on which such certificate is so furnished. However, at the election of the employer, except as hereinafter provided, such certificate may be made effective with respect to any payment of wages made on or after the date on which such certificate is so furnished.

(c) A withholding exemption certificate furnished the employer pursuant to section 1622 (h) (2) (C) which effects a change for the next year, shall not take effect, and may not be made effective, with respect to the calendar year in which the certificate is furnished.

(d) For the purposes of this section the term "status determination date" means January 1 and July 1 of each year.

(e) A withholding exemption certificate which takes effect under section 1622 (h) shall continue in effect with respect to the employee until another withholding exemption certificate takes effect under such section.

SUBPART D—LIABILITY FOR TAX

§ 406.400 *Statutory provisions; liability for tax.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

(a) *Requirement of withholding.* Every employer making payment of wages shall deduct and withhold upon such wages a tax equal to 18 per centum of the amount by which the wages exceed the number of withholding exemptions claimed multiplied by the amount of one such exemption as shown in subsection (b) (1) * * *.

* * * * *

(d) *Tax paid by recipient.* If the employer, in violation of the provisions of this subchapter, fails to deduct and withhold the tax under this subchapter, and thereafter the tax against which such tax may be credited is paid, the tax so required to be deducted and withheld shall not be collected from the employer; but this subsection shall in no case relieve the employer from liability for any penalties or additions to the tax otherwise applicable in respect of such failure to deduct and withhold.

[Sec. 1622 (a), as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 22 (b), Individual Income Tax Act 1944; sec. 104 (a) (1), Revenue Act 1945; sec. 501, Revenue Act 1948; sec. 141, Revenue Act 1950; sec. 201, Revenue Act 1951; and sec. 1622 (d), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

SEC. 1623. LIABILITY FOR TAX.

The employer shall be liable for the payment of the tax required to be deducted and withheld under this subchapter, and shall not be liable to any person for the amount of any such payment.

[Sec. 1623, as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 3661. ENFORCEMENT OF LIABILITY FOR TAXES COLLECTED.

Whenever any person is required to collect or withhold any internal-revenue tax from any other person and to pay such tax over to the United States, the amount of tax so collected or withheld shall be held to be a special fund in trust for the United States. The amount of such fund shall be assessed, collected, and paid in the same manner and subject to the same provisions and limitations (including penalties) as are applicable with respect to the taxes from which such fund arose.

§ 406.401 *Liability for tax.* (a) The employer is required to collect the tax by deducting and withholding the amount thereof from the employee's wages as and when paid, either actually or constructively. Wages are constructively paid when they are credited to the account of or set apart for an employee so that they may be drawn upon by him at any time although not then actually reduced to possession. To constitute payment in such a case, the wages must be credited or set apart to the employee without any substantial limitation or restriction as to the time or manner of payment or condition upon which payment is to be made, and must be made available to him so that they may be drawn upon at any time, and their payment brought within his control and disposition.

(b) An employer is required to deduct and withhold the tax notwithstanding the wages are paid in something other than money (for example, wages paid in stocks or bonds; see § 406.207 (a)) and to pay the tax to the district director or duly designated depositary of the United States, as the case may be, in money. If wages are paid in property other than money, the employer should make necessary arrangements to insure that the amount of the tax required to be withheld is available for payment to the district director in money.

(c) Every person required to deduct and withhold the tax under section 1622 from the wages of an employee is liable for the payment of such tax whether or not it is collected from the employee. If, for example, the employer deducts less than the correct amount of tax, or if he fails to deduct any part of the tax, he is nevertheless liable for the correct amount of the tax. However, if the employer in violation of the provisions of section 1622 fails to deduct and withhold the tax, and thereafter the income tax against which the tax under section 1622 may be credited is paid, the tax under section 1622 shall not be collected from the employer. Such payment does not, however, operate to relieve the employer from liability for penalties or additions to the tax for failure to deduct and withhold within the time prescribed by law or regulations made in pursuance of law. The employer will not be relieved of his liability for payment of the tax required to be withheld unless he can show that the tax against which the tax under section 1622 may be credited has been paid.

(d) The amount of any tax withheld and collected by the employer is a special fund in trust for the United States.

(e) The employer or other person required to deduct and withhold the tax under section 1622 is relieved of liability to any other person for the amount of any such tax withheld and paid to the district director or deposited with a duly designated depositary of the United States.

(f) Section 2707 provides severe penalties for a willful failure to pay, collect, or truthfully account for and pay over, the tax imposed by section 1622, or for a willful attempt in any manner to evade or defeat the tax. Such penalties may be incurred by any person, including the employer, and any officer or employee of a corporate employer, or member or employee of any other employer, who as such employer, officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

(g) As a matter of business administration, certain of the mechanical details of the withholding process may be handled by representatives of the employer. Thus, in the case of a corporate employer having branch offices, the branch manager or other representative may actually, as a matter of internal administration, withhold the tax or prepare the statements required under section 1633. Nevertheless, the legal responsibility for withholding, paying, and returning the tax and furnishing such statements rests with the corporate employer.

§ 406.402 *Statutory provisions; nondeductibility of tax in computing net income.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * *

(e) *Nondeductibility of tax in computing net income.* The tax deducted and withheld under this subchapter shall not be allowed as a deduction either to the employer or to the recipient of the income in computing net income for the purpose of any tax on income imposed by Act of Congress.

[Sec. 1622 (e), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * *

§ 406.403 *Nondeductibility of tax.* The tax deducted and withheld at the source upon wages shall not be allowed as a deduction either to the employer or the recipient of the income in computing net income under chapter 1 of the Internal Revenue Code. The entire amount of the wages from which the tax is withheld shall be included in gross income in the return required to be made by the recipient of the income without deductions for such tax. The tax withheld at source, however, is allowable as a credit against the tax imposed by chapter 1 of the Internal Revenue Code upon the recipient of the income. See § 406.705.

SUBPART E—RECEIPTS

§ 406.500 *Statutory provisions; receipts for employees.*

SEC. 1633. RECEIPTS FOR EMPLOYEES.

(a) *Requirement.* Every person required to deduct and withhold from an employee a tax under section 1400 or 1622, or who would have been required to deduct and withhold a tax under section 1622 if the employee had claimed no more than one withholding exemption, shall furnish to each such employee in respect of the remuneration paid by such person to such employee during the calendar year, on or before January 31 of the succeeding year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of remuneration is made, a written statement showing the following: (1) the name of such person, (2) the name of the employee (and his social security account number if wages as defined in section 1426 (a) have been paid), (3) the total amount of wages as defined in section 1621 (a), (4) the total amount deducted and withheld as tax under section 1622, (5) the total amount of wages as defined in section 1426 (a), and (6) the total amount deducted and withheld as tax under section 1400. In the case of compensation paid for service as a member of the armed forces, the statement shall show, as wages paid during the calendar year, the amount of such compensation paid during the calendar year which is not excluded from gross income under chapter 1 (whether or not such compensation constituted wages as defined in section 1621 (a)); such statement to be furnished if any tax was withheld during the calendar year or if any of the compensation paid is includible under chapter 1 in gross income.

(b) *Statements to constitute information returns.* The statements required to be furnished by this section in respect of any remuneration shall be furnished at such other times, shall contain such other information, and shall be in such form as the Commissioner, with the approval of the Secretary, may by regulations prescribe. A duplicate of any such statement if made and filed in accordance with regulations prescribed by the Commissioner with the approval of the Secretary shall constitute the return required to be made in respect of such remuneration under section 147.

(c) *Extension of time.* The Commissioner, under such regulations as he may prescribe with the approval of the Secretary, may grant to any person a reasonable extension of time (not in excess of thirty days) with respect to the statements required to be furnished under this section.

[Sec. 1633, as added by sec. 206 (a), Social Security Act Amendments 1950, and as amended by sec. 202 (c), Revenue Act 1950.]

SEC. 1634. PENALTIES.

(a) *Penalties for fraudulent statement or failure to furnish statement.* In lieu of any other penalty provided by law (except the penalty provided by subsection (b) of this section), any person required under the provisions of section 1633 to furnish a statement who willfully furnishes a false or fraudulent statement, or who willfully fails to furnish a statement in the manner, at the time, and showing the information required under section 1633, or regulations prescribed thereunder, shall for each such failure, upon conviction thereof, be fined not more than $1,000, or imprisoned for not more than one year, or both.

(b) *Additional penalty.* In addition to the section, any person required under the provisions of section 1633 to furnish a statement who willfully furnishes a false or fraudulent statement, or who willfully fails to furnish a statement in the manner, at the time, and showing the information required under section 1633, or regulations prescribed thereunder, shall for each such failure be subject to a civil penalty of $50. Such penalty shall be assessed and collected in the same manner as the tax imposed by section 1410.

[Sec. 1634, as added by sec. 206 (a), Social Security Act Amendments 1950.]

§ 406.501 *Receipts for employees—*(a) *Requirement.* (1) Every person required to deduct and withhold from an employee a tax under section 1622, or who would have been required to deduct and withhold a tax under section 1622 if the employee had claimed no more than one withholding exemption, shall furnish to each such employee, in respect of the remuneration paid by such person to such employee during the calendar year, the tax return copy and the employee's copy of a statement on Form W–2 showing the following: (i) The name and address of such person, (ii) the name and address of the employee, and, if wages as defined in section 1426 (a) have been paid, his social security account number, (iii) the total amount of wages as defined in section 1621 (a), (iv) the total amount deducted and withheld as tax under section 1622, (v) the total amount of wages as defined in section 1426 (a), and (vi) the total amount of employee tax under section 1400 deducted and withheld (increased by any adjustment in the calendar year for overcollection, or decreased by any adjustment in such year for undercollection, of such tax during any prior year).

(2) For example, if the wage bracket method of withholding is used, a withholding statement must be furnished each employee whose wages during any payroll period are equal to or in excess of the smallest wage for which tax must be withheld from employees claiming one exemption. If the percentage method is used, a withholding statement must be furnished each employee whose wages during any payroll period are in excess of one withholding exemption for such payroll period as shown in the percentage method withholding table contained in section 1622 (b) (1).

(3) If (i) the amount of employee tax under section 1400 deducted and withheld in the calendar year from the wages as defined in section 1426 (a) paid during such year was less or greater than the tax imposed by section 1400 on such wages by reason of the adjustment in such year of an overcollection or undercollection of the tax in any prior year, or (ii) regardless of the reason for the error or the method of its correction, the amount of wages as defined in section 1426 (a) or tax under section 1400 entered on a statement furnished to the employee for a prior year was incorrect, a corrected statement for such prior year reflecting the adjustment or the correct data shall be furnished to the employee.

(4) Likewise, a corrected statement on Form W–2 shall be furnished the employee with respect to a prior calendar year (i) to show the correct amount of wages (as defined in section 1621 (a)) paid during the prior calendar year if the amount of such wages entered on a statement furnished to the employee for such prior year is incorrect or (ii) to show the amount actually deducted and withheld as tax under section 1622 if such amount is less or greater than the amount entered as tax withheld on the statement furnished the employee for such prior year.

(5) The statement on Form W–2 for the calendar year and the corrected statement for any prior year shall be furnished to the employee on or before January 31 of the year succeeding such calendar year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of wages is made. See paragraph (c) of this section for extension of time for furnishing statements.

(6) See the applicable regulations under the Federal Insurance Contributions Act for the requirement as to the furnishing of a statement in cases where such statement is required solely by reason of the tax under section 1400 of such Act. Also see such regulations with respect to adjustments of that tax.

(b) *Receipts for members of the Armed Forces of the United States.* Section 1633 (a) contains certain special provisions which are applicable in the case of members of the Armed Forces of the United States in active service. In such case, Form W–2 shall be furnished to each such member of the Armed Forces of the United States if any tax has been withheld during the calendar year from the remuneration of such member or if any of the remuneration paid during the calendar year for such active service is includible under chapter 1 in the gross income of such member. Form W–2, in the case of such member, shall show, as wages paid during the calendar year, the amount of the remuneration paid during the calendar year which is not excludable under chapter 1 from the gross income of such member, whether or not such remuneration constitutes wages as defined in section 1621 (a) and whether or not paid for such active service.

(c) *Extension of time for furnishing receipts to employees—*(1) *In general.* For good cause shown upon application by the employer, the district director of internal revenue may grant an extension of time within which to furnish the written statement provided for in paragraph (a) of this section.

(2) *Upon termination of employment.* An extension of time, not exceeding 30 days, within which to furnish the written statement provided for in paragraph (a) of this section upon termination of employment is hereby granted to any employer with respect to any employee whose employment is terminated during the calendar year. In the case of intermittent or interrupted employment where there is reasonable expectation on the part of both employer and employee of further employment, there is no requirement that a written statement be immediately furnished the employee; but when such expectation ceases to exist, the statement must be furnished within 30 days from that time.

(d) *Undelivered Forms W–2.* The tax return copy and the employee's copy of each withholding statement on Form W–2 for the calendar year which the employer is required to furnish to the employee and which after reasonable effort he is unable to deliver to the employee shall be transmitted to the district director with the return on Form 941 filed by the employer for the first calendar quarter of the next succeeding calendar year or with the employer's final return if filed at an earlier date. Thus, the undelivered copies of Forms W–2 ordinarily will be transmitted to the district director on or before April 30th or May 10th of the year following that for which they were issued, depending upon when the return for the first calendar quarter of such year is required to be filed. In the case of an employer having branch offices, the undelivered copies of Forms W–2 held in such branch offices may be transmitted by the employer with his return or, at the option of the employer, may be transmitted by the branch office directly to the district director for the internal revenue district in which the branch office is located. Such direct transmittal by branch offices shall be made at the time prescribed for the filing of the employer's return for the first quarter of the calendar year following that for which the Forms W–2 were issued or at the time of the filing of the employer's final return if filed at an earlier date. The provisions of this paragraph are also applicable with respect to any corrected statements issued for a prior calendar year.

(e) *Form 1099 information returns.* The making of an information return on Form 1099 will not be required with respect to any wages reported on Form W–2, provided the district director's copies of the Forms W–2 are transmitted with the returns on Form 941, as provided in § 406.601.

(f) *Penalties for fraudulent receipt or failure to furnish receipt.* Section 1634 imposes criminal and civil penalties for the willful failure to furnish a statement in the manner, at the time, and showing the information required under section 1633 or regulations prescribed thereunder or for willfully furnishing a false or fraudulent statement. For each such violation, the criminal penalty is a fine of not more than $1,000 or imprisonment for not more than one year, or both, and the civil penalty is a fine of $50. The civil penalty shall be assessed and collected in the same manner as the tax imposed by section 1410. These penalties are in lieu of any other penalties provided by law respecting the failure to furnish a statement or the furnishing of a false or fraudulent statement.

SUBPART F—RETURNS, PAYMENT OF TAX, AND RECORDS

§ 406.600 *Statutory provisions; returns; payment of tax; and records.*

SEC. 1420. COLLECTION AND PAYMENT OF TAXES.

(a) *Administration.* The taxes imposed by this subchapter shall be collected by the Bureau of Internal Revenue [Internal Revenue Service] under the direction of the Secretary and shall be paid into the Treasury of the United States as internal-revenue collections.

* * * * *

(c) *Method of collection and payment.* Such taxes shall be collected and paid in such manner, at such times, and under such conditions, not inconsistent with this subchapter (either by making and filing returns, or by stamps, coupons, tickets, books, or other reasonable devices or methods necessary or helpful in securing a complete and proper collection and payment of the tax or in securing proper identification of the taxpayer), as may be prescribed by the Commissioner, with the approval of the Secretary.

(d) *Fractional parts of a cent.* In the payment of any tax under this subchapter a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to 1 cent.

* * * * *

SEC. 1624. RETURN AND PAYMENT BY GOVERNMENTAL EMPLOYER.

If the employer is the United States, or a State, Territory, or political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing, the return of the amount deducted and withheld upon any wages may be made by any officer or employee of the United States, or of such State, Territory, or political subdivision, or of the District of Columbia, or of such agency or instrumentality, as the case may be, having control of the payment of such wages, or appropriately designated for that purpose.

[Sec. 1624, as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 3310. RETURNS AND PAYMENT OF TAX.

* * * * *

(f) *Discretion allowed Commissioner—*(1) *Returns and payment of tax.* Notwithstanding any other provision of law relating to the filing of returns or payment of any tax imposed by chapter 9 * * *, the Commissioner may by regulations approved by the Secretary prescribe the period for which the return for such tax shall be filed, the time for the filing of such return, the time for the payment of such tax, and the number of copies of the return required to be filed.

(2) *Use of Government depositaries.* The Secretary may authorize Federal Reserve banks, and incorporated banks or trust companies which are depositaries or financial agents of the United States, to receive any tax imposed by this title, in such manner, at such times, and under such conditions as he may prescribe; and he shall prescribe the manner, times, and conditions under which the receipt of such tax by such banks and trust companies is to be treated as payment of such tax to the collector [district director].

[Sec. 3310 (f), as added by sec. 7 (a), Pub. Law 271 (81st Cong.), and as amended by sec. 471 (b), Revenue Act 1951.]

SEC. 1627. OTHER LAWS APPLICABLE.

All provisions of law, including penalties, applicable with respect to the tax imposed by section 1400 shall, insofar as applicable and not inconsistent with the provisions of this subchapter [subchapter D of chapter 9], be applicable with respect to the tax under this subchapter.

[Sec. 1627, as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 1430. OTHER LAWS APPLICABLE.

All provisions of law, including penalties, applicable with respect to any tax imposed by section 2700 or section 1800, and the provisions of section 3661, shall, insofar as applicable and not inconsistent with the provisions of this subchapter, be applicable with respect to the taxes imposed by this subchapter.

[Sec. 1430, as amended by sec. 903, Social Security Act Amendments 1939.]

SEC. 2709. RECORDS, STATEMENTS, AND RETURNS.

Every person liable to any tax imposed by this subchapter, or for the collection thereof, shall keep such records, render under oath such statements, make such returns, and comply with such rules and regulations, as the Commissioner, with the approval of the Secretary, may from time to time prescribe.

SEC. 2701. RETURNS.

Every person liable for the tax * * * shall make * * * returns under oath * * * to the collector [district director] for the district in which is located the prin-

cipal place of business. Such returns shall contain such information and be made at such times and in such manner as the Commissioner, with the approval of the Secretary, may by regulations prescribe.

SEC. 3603. NOTICE REQUIRING RECORDS, STATEMENTS, AND SPECIAL RETURNS.

Whenever in the judgment of the Commissioner necessary he may require any person, by notice served upon him, to make a return, render under oath such statements, or keep such records as the Commissioner deems sufficient to show whether or not such person is liable to tax.

SEC. 3632. AUTHORITY TO ADMINISTER OATHS, TAKE TESTIMONY, AND CERTIFY.

(a) *Internal Revenue personnel*—(1) *Persons in charge of administration of internal revenue laws generally.* Every collector [district director], * * * internal revenue agent, and internal revenue officer assigned to duty under an internal revenue agent, is authorized to administer oaths and to take evidence touching any part of the administration of the internal revenue laws with which he is charged, or where such oaths and evidence are authorized by law or regulation authorized by law to be taken.

(2) *Persons in charge of exports and drawbacks.* Every collector [district director] of internal revenue and every superintendent of exports and drawbacks is authorized to administer such oaths and to certify to such papers as may be necessary under any regulation prescribed under the authority of the internal revenue laws.

(b) *Others.* Any oath or affirmation required or authorized by any internal revenue law or by any regulations made under authority thereof may be administered by any person authorized to administer oaths for general purposes by the law of the United States, or of any State, Territory, or possession of the United States, or of the District of Columbia, wherein such oath or affirmation is administered, or by any consular officer of the United States. This subsection shall not be construed as an exclusive enumeration of the persons who may administer such oaths or affirmations.

SEC. 3809. VERIFICATION OF RETURNS; PENALTIES OF PERJURY.

(a) *Penalties.* Any person who willfully makes and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter, shall be guilty of a felony, and, upon conviction thereof, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

(b) *Signature presumed correct.* The fact that an individual's name is signed to a return, statement, or other document filed shall be prima facie evidence for all purposes that the return, statement, or other document was actually signed by him.

(c) *Verification in lieu of oath.* The Commissioner, under regulations prescribed by him with the approval of the Secretary, may require that any return, statement, or other document required to be filed under any provision of the internal revenue laws shall contain or be verified by a written declaration that it is made under the penalties of perjury, and such declaration shall be in lieu of any oath otherwise required.

[Sec. 3809, as added by sec. 4 (a), Pub. Law 271 (81st Cong.).]

SEC. 3612. RETURNS EXECUTED BY COMMISSIONER OR COLLECTOR [DISTRICT DIRECTOR].

(a) *Authority of collector [district director].* If any person fails to make and file a return or list at the time prescribed by law or by regulations made under authority of law, or makes, willfully or otherwise, a false or fraudulent return or list, the collector [district director] or deputy collector [collection officer] shall make the return or list from his own knowledge and from such information as he can obtain through testimony or otherwise.

(b) *Authority of Commissioner.* In any such case the Commissioner may, from his own knowledge and from such information as he can obtain through testimony or otherwise—

(1) *To make return.* Make a return, or

(2) *To amend collector's [district director's] return.* Amend any return made by a collector [district director] or deputy collector [collection officer].

(c) *Legal status of returns.* Any return or list so made and subscribed by the Commissioner, or by a collector [district director] or deputy collector [collection officer] and approved by the Commissioner, shall be prima facie good and sufficient for all legal purposes.

* * * * *

SEC. 3614. EXAMINATION OF BOOKS AND WITNESSES.

(a) *To determine liability of the taxpayer.* The Commissioner, for the purpose of ascertaining the correctness of any return or for the purpose of making a return where none has been made, is authorized, by any officer or employee of the Bureau of Internal Revenue [Internal Revenue Service], including the field service, designated by him for that purpose, to examine any books, papers, records, or memoranda bearing upon the matters required to be included in the return, and may require the attendance of the person rendering the return or of any officer or employee of such person, or the attendance of any other person having knowledge in the premises, and may take his testimony with reference to the matter required by law to be included in such return, with power to administer oaths to such person or persons.

* * * * *

SEC. 2702. PAYMENT OF TAX.

(a) *Date of payment.* The tax shall, without assessment by the Commissioner or notice from the collector [district director], be due and payable to the collector [district director] for the district in which is located the principal place of business, at the time fixed * * * for filing the return.

* * * * *

§ 406.601 *Returns*—(a) *Requirement.* Every person shall make a return for the first calendar quarter after December 31, 1953, within which he is required under section 1622 to deduct and withhold the tax on wages, and for each subsequent quarter (whether or not wages are paid therein) until a final return is filed as required by § 406.602. Every person required to make a return for the calendar quarter ended December 31, 1953, shall make a return for each subsequent calendar quarter (whether or not wages are paid therein) until a final return is filed as required by § 406.602. Form 941 is the form prescribed for making a return of the tax required under section 1622 to be deducted and withheld from wages.

(b) *District director's copies of Forms W–2.* (1) The district director's copy of each withholding statement on Form W–2 required to be furnished by the employer with respect to wages paid during the calendar year (as well as such copy of each corrected statement for a prior year) shall be included with the return filed for the fourth quarter of the calendar year or with the employer's final return if filed at an earlier date.

(2) The copies of withholding statements for the current calendar year transmitted with the return shall be accompanied by a list (preferably in the form of an adding machine tape) of the amounts of income tax withheld shown on such forms. If an employer's total payroll is made up on the basis of a number of separate units or establishments, the forms may be assembled accordingly and a separate list or tape submitted for each unit. In such case, a summary list or tape should be submitted, the total of which will agree with the corresponding entry to be made on Form 941. Where the number of forms is large, they may be forwarded in packages of convenient size. When this is done, the packages should be identified with the name of the employer and consecutively numbered. The number of packages should be indicated at the top of Form 941. The tax return, Form 941, and remittance in cases of this kind should be filed in the usual manner, accompanied by a brief statement that the district director's copies of Forms W–2 are in separate packages.

(3) The district director's copies of corrected Forms W–2 for a prior calendar year shall be assembled separately from the forms for the current calendar year and shall be accompanied by a statement explaining the corrections.

(c) *Period covered by return.* Except in the case of quarterly adjustments, as explained in § 406.701, the return on Form 941 may not be made for more than one calendar quarter of the year, nor may a portion of one calendar quarter be included with a portion of another calendar quarter in a single return on Form 941 even though the entire period does not exceed three months.

§ 406.602 *Final returns.* (a) The last return on Form 941 for any employer required to deduct and withhold any tax under section 1622 who ceases to pay wages shall be marked "Final return" by such employer or the person filing the return. Such final return shall be filed with the district director on or before the thirtieth day after the date on which the final payment of wages is made for services performed for such employer, and shall plainly show the period covered by the return and the date of the last payment of wages. An employer required to make a return on Form 941, who has only temporarily ceased to pay wages, including an employer engaged in seasonal activities, shall continue to file returns, but shall enter on the face of any return on which no tax is required to be reported the date of the last payment of wages and the date when he expects to resume paying wages. If an employer ceases to pay wages as defined in section 1621 (a) but continues to pay wages as defined in section 1426 (a), no final return on Form 941 should be filed so long as he continues to pay such wages. However, if an employer who has been paying remuneration which constitutes wages as defined in each of such sections permanently ceases to pay such wages, a final return is required of such employer.

(b) There shall be executed as a part of each final return on Form 941 a statement giving the address at which the records required by § 406.607 will be kept, the name of the person keeping such records, and, if the business has been sold or otherwise transferred to another person, the name and address of such person and the date on which the sale or other transfer took effect. If no such sale or transfer occurred or the employer does not know the name of the person to whom the business was sold or transferred, that fact should be included in the statement.

§ 406.603 *Execution of returns*—(a) *Requirement.* Each return shall be signed by the employer or other person required to deduct and withhold the tax and shall contain or be verified by a written declaration that it is made under the penalties of perjury. The return shall be signed and verified by (1) the individual, if the employer is an individual; (2) the president, vice-president, or other principal officer, if the employer is a corporation; (3) a responsible and duly authorized member or officer having knowledge of its affairs, if the employer is a partnership or other unincorporated organization; or (4) the fiduciary, if the employer is a trust or estate. The employer's return may be executed by an agent in the name of the employer if an acceptable power of attorney is filed with the district director and if such return includes the wages paid to all employees of the employer for the period covered by the return. If the United States, a State, Territory, Puerto Rico, or political subdivision, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing, is the employer, the return may be made by the officer or employee having control of the payment of wages or other officer or employee appropriately designated for that purpose.

(b) *Penalties of perjury.* Section 3809 (a) provides that any person who willfully makes and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter, shall be guilty of a felony. The punishment for such offense, upon conviction thereof, is a fine of not more than $2,000 or imprisonment for not more than five years, or both.

§ 406.604 *Use of prescribed forms.* (a) Copies of the prescribed return forms will so far as possible be regularly furnished employers by district directors without application therefor. An employer will not be excused from making a return, however, by the fact that no return form has been furnished to him. Employers not supplied with the proper forms should make application therefor to the district director in ample time to have their returns prepared, verified, and filed with the district director on or before the due date. (See § 406.605, relating to the place and time for filing returns; see also § 406.602, relating to final returns.) If the prescribed form is not available, a statement made by the employer disclosing the amount of tax due may be accepted as a tentative return. If filed within the prescribed time the statement so made will relieve the employer from liability for the addition to tax imposed for the delinquent filing of the return (see § 406.810, relating to the addition to tax), provided that without unnecessary delay such tentative return is supplemented by a return made on the proper form.

(b) Each return, together with a copy thereof and any supporting data, shall be filled in and disposed of in accordance with the instructions and regulations applicable thereto. (See § 406.605, relating to the place and time for filing returns, and § 406.607 (c) and (e), relating to copies of returns, schedules, and statements, and to the place and period for keeping records.) The return shall be carefully prepared so as fully and accurately to set forth the data therein called for. Returns which have not been so prepared will not be accepted as meeting the requirements of the statute. Only one return on any one prescribed form for a tax-return period shall be filed by or for an employer.

§ 406.605 *Place and time for filing returns.* Each return on Form 941 shall be filed with the district director for the district in which is located the principal place of business of the employer, or, if the employer has no principal place of business in an internal revenue district of the United States, with the district director at Baltimore, Md. Except as provided in § 406.602, relating to final returns, each return shall be filed on or before the last day of the first month following the period for which it is made. However, if, and only if, the return is accompanied by depositary receipts, Form 450, showing timely deposits, in full payment of the taxes due for the entire calendar quarter, the return may be filed on or before the 10th day of the second month following the period for which it is made. For the purpose of the preceding sentence, the timeliness of the deposit will be determined by the date of the endorsement by a designated commercial bank or by a Federal Reserve bank made on the reverse side of Form 450. Deposit of the taxes for the last month of the calendar quarter with a designated commercial bank or a Federal Reserve bank, as the case may be, may be made on or before the last day of the first month following the close of such quarter. If the last day for filing any return falls on Sunday or a legal holiday, the return may be filed on the next following business day. If placed in the mails, the return shall be posted in ample time to reach the district director's office, under ordinary handling of the mails, on or before the due date. As to additions to tax for failure to file the return within the prescribed time, see § 406.810. See also section 2707, relating to penalties.

§ 406.606 *Payment of tax*—(a) *In general.* The tax required to be reported on each return on Form 941 is due and payable to the district director, without assessment by the Commissioner or notice by the district director, at the time fixed for filing such return. For provisions relating to interest, additions to tax, and penalties, see §§ 406.809, 406.810, and 406.812 and section 2707.

(b) *Use of Federal Reserve banks and authorized commercial banks in connection with payment of taxes*—(1) *Requirement.* Except as provided in subparagraph (2) of this paragraph, if during any calendar month the aggregate amount of—

(i) The employee tax withheld under section 1401,

(ii) The employer tax for such month under section 1410, and

(iii) The income tax withheld at source on wages under section 1622,

exclusive of taxes under sections 1401 and 1410 with respect to wages of household employees, exceeds $100 in the case of an employer, it will be the duty of such employer to deposit such amount within 15 days after the close of such calendar month with a Federal Reserve bank. The remittance of such amount shall be accompanied by a Federal Depositary Receipt (Form 450). Such depositary receipt shall be prepared in accordance with the instructions and regulations applicable thereto. The employer, at his election, may forward such remittance, together with such depositary receipt, to a commercial bank authorized in accordance with Treasury Department Circular No. 848 to accept remittances of the aforementioned taxes for transmission to a Federal Reserve bank. After the Federal Reserve bank has validated the depositary receipt, such depositary receipt will be returned to the employer. Every employer making deposits pursuant to this paragraph shall attach to his return for the calendar quarter with respect to which such deposits are made, in part or full payment of the taxes shown thereon, depositary receipts so validated, and shall pay to the district director the balance, if any, of the taxes due for such quarter.

(2) *Payments for last month of the calendar quarter.* With respect to the taxes specified in subparagraph (1) of this paragraph for the last month of the calendar quarter, the employer may either include with his return direct remittance to the district director for the amount of such taxes or attach to such return a depositary receipt validated by a Federal Reserve bank as provided in subparagraph (1) of this paragraph. Payment of the taxes required to be reported on each return, in the form of validated depositary receipts or direct remittances, shall be made to the district director at the time fixed for filing such return. If a deposit is made for the last month of the quarter, the employer shall make it in ample time (whether before, on, or after the 15th day of the succeeding month) to enable the Federal Reserve bank to return the validated receipt to the employer so that it can be attached to and filed with the employer's return at the time so fixed.

(3) *Procurement of prescribed form.* Initially, Form 450, Federal Depositary Receipt, will so far as possible be furnished the employer by the district director. An employer not supplied with the proper form should make application therefor to the district director in ample time to have such form available for use in making his initial deposit within the

time prescribed in subparagraph (1) of this paragraph. Thereafter a blank form will be sent to the employer by the Federal Reserve bank when returning the validated depositary receipt. An employer may secure additional forms from a Federal Reserve bank by applying therefor and advising the bank of his identification number. (See § 405.201 (f).) The district director will assign an identification number to each employer who is not required either to withhold the employee tax under section 1401 or to pay the employer tax under section 1410. Every employer making deposits pursuant to this paragraph shall make such use of his identification number as is prescribed by this paragraph and by the instructions relating to Form 941 and to Form 450. The employer's identification number and name, on each depositary receipt, should be the same as they are required to be shown on the return to be filed with the district director. The address of the employer, as shown on each depositary receipt, should be the address to which the receipt should be returned following validation by the Federal Reserve bank.

§ 406.607 *Records*—(a) *Records of employers.* (1) Every employer required to deduct and withhold the tax shall keep accurate records of all remuneration paid to his employees. Such records shall show with respect to each employee—

(i) The name and address of the employee;

(ii) To the extent material to the determination of tax liability, the dates on which the employee worked during each calendar quarter, including the days for which remuneration is paid or payable, and the character of the services performed;

(iii) The total amount (including any sum withheld therefrom as tax or for any other reason) and date of each remuneration payment, and the period of services covered by such payment;

(iv) The amount of each remuneration payment which constitutes wages subject to withholding;

(v) The amount of tax withheld or collected with respect to each remuneration payment and, if collected at a time other than the time such payment was made, the date collected;

(vi) The withholding exemption certificates (Form W–4) filed with the employer by the employee;

(vii) The agreements, if any, between the employer and the employee for the withholding of additional amounts of tax pursuant to § 406.314;

(viii) Copies of any statements furnished by the employee pursuant to § 406.224 (c) (relating to nonresident alien individuals who are residents of a contiguous country);

(ix) Copies of any statements furnished by the employee pursuant to § 406.226 (a) (relating to residence or physical presence in a foreign country); and

(x) Copies of any statements furnished by the employee pursuant to § 406.226 (c) (relating to citizens resident in Puerto Rico).

The term "remuneration", as used in this paragraph (a), includes all payments whether in cash or in a medium other than cash, except that the term does not include payments in a medium other than cash for services not in the course of the employer's trade or business. If the total remuneration payment (subdivision (iii) of subparagraph (1)) and the amount thereof which is taxable (subdivision (iv) of subparagraph (1)) are not equal, the reason therefor shall be made a matter of record.

(2) Accurate records of the details of each adjustment or settlement made pursuant to § 406.701 shall also be kept.

(3) No particular form is prescribed for keeping the records required by this paragraph (a). Each employer shall use such forms and systems of accounting as will enable the Commissioner to ascertain whether the taxes for which the employer is liable are correctly computed and paid.

(b) *Records of employees.* While not mandatory, it is advisable for each employee to keep permanent, accurate records showing the name and address of each employer for whom he performs services as an employee, the dates of beginning and termination of such services, the information with respect to himself which is required by paragraph (a) of this section to be kept by employers, and the receipts furnished in accordance with the provisions of § 406.501. (See, however, paragraph (d) of this section, relating to records of claimants.)

(c) *Copies of returns, schedules, and statements.* Every employer who is required, by the regulations in this part or by instructions applicable to any form prescribed thereunder, to keep any copy of any return, schedule, statement, or other document, shall keep such copy as part of his records.

(d) *Records of claimants.* Any person (including an employee) claiming refund, credit, or abatement of any tax, penalty, or interest shall keep a complete and detailed record with respect to such tax, penalty, or interest.

(e) *Place and period for keeping records.* (1) All records required by the regulations in this part shall be kept, by the person required to keep them, at one or more convenient and safe locations accessible to internal revenue officers. Such records shall at all times be open for inspection by such officers. If the employer has a principal place of business in the United States, the records required by paragraphs (c) and (d) of this section shall be kept at such place of business.

(2) Records required by paragraphs (a) and (c) of this section shall be maintained for a period of at least four years after the date the tax to which they relate becomes due, or the date the tax is paid, whichever is the later. Records required by paragraph (d) of this section (including any record required by paragraph (a) or (c) which relates to a claim) shall be maintained for a period of at least four years after the date the claim is filed.

SUBPART C—ADJUSTMENTS, REFUNDS, CREDITS, AND ABATEMENTS

§ 406.700 *Statutory provisions; adjustments.*

SEC. 1627. OTHER LAWS APPLICABLE.

All provisions of law, including penalties, applicable with respect to the tax imposed by section 1400 shall, insofar as applicable and not inconsistent with the provisions of this subchapter [subchapter D of chapter 9], be applicable with respect to the tax under this subchapter.

[Sec. 1627, as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 1401. DEDUCTION OF TAX FROM WAGES.

* * * * *

(c) *Adjustments.* If more or less than the correct amount of tax imposed by section 1400 is paid with respect to any payment of remuneration, proper adjustments, with respect both to the tax and the amount to be deducted, shall be made, without interest, in such manner and at such times as may be prescribed by regulations made under this subchapter.

[Sec. 1401 (c), as amended by sec. 602 (a), Social Security Act Amendments 1939.]

* * * * *

§ 406.701 *Quarterly adjustments*—(a) *In general.* If, for any quarter of the calendar year, more or less than the correct amount of the tax is withheld, or more or less than the correct amount of the tax is paid to the district director, proper adjustment, without interest, may be made in any subsequent quarter of the same calendar year. No adjustment, however, under the provisions of this section shall be made in respect of an underpayment for any quarter after receipt from the district director of notice and demand for payment thereof based upon an assessment but the amount shall be paid in accordance with such notice and demand; nor shall any adjustment under the provisions of this section be made in respect of an overpayment for any quarter after the filing of a claim for refund thereof. Every return on which an adjustment for a preceding quarter is reported must have securely attached as a part thereof a statement explaining the adjustment, and designating the quarterly return period in which the error occurred. If an adjustment of an overcollection of tax which the employer has repaid to an employee is reported on a return, such statement shall include the fact that such tax was repaid to the employee.

(b) *Less than correct amount of tax withheld.* (1) If none, or less than the correct amount, of the tax is deducted from any wage payment and the error is ascertained prior to the making of the return on Form 941 for the quarter in which such wages are paid, the employer shall nevertheless report on such return and pay to the district director the correct amount of the tax required to be withheld. If the error is not ascertained until after the making of the return on Form 941 for the quarter in which such wages are paid, the undercollection may be corrected by an adjustment on the return for any subsequent quarter of the same calendar year, subject, however, to the limitations noted in paragraph (a) of this section. The amount of any undercollection adjusted in accordance with this paragraph shall be paid to the district director, without interest, at the time prescribed for payment of the tax for the quarter in which such adjustment is made. If an adjustment is made pursuant to this paragraph but the amount thereof is not paid when due, interest thereafter accrues. See section 1420 (b).

(2) If none, or less than the correct amount, of the tax is withheld from any wage payment, the employer may correct the error by deducting the amount of the undercollection from remuneration of the employee, if any, under his control after he ascertains the error. Such deduction may be made even though the remuneration, for any reason, does not constitute wages. The obligation of an employee to the employer with respect to an undercollection of tax from the employee's wages not subsequently corrected by a deduction made as prescribed herein is a matter for settlement between the employee and the employer. In this connection, see section 1622 (d), relieving the employer from liability for the tax if the tax imposed by chapter 1 of the Internal Revenue Code against which the tax withheld at source is allowable as a credit, has been paid by the employee or other person liable therefor.

(c) *More than correct amount of tax withheld.* (1) If, in any quarter, more than the correct amount of tax is deducted from any wage payment, the overcollection may be repaid to the employee in any quarter of the same calendar year. If the amount of the overcollection is repaid, the employer shall obtain and keep as part of his records the written receipt of the employee showing the date and amount of the repayment.

(2) If an overcollection in any quarter is repaid and receipted for by the employee prior to the time the return on Form 941 for such quarter is filed with the district director, the amount of such overcollection shall not be included in the return for such quarter.

(3) Subject to the limitations provided in paragraph (a), if an overcollection in any quarter is repaid and receipted for by the employee after the time the return on Form 941 for such quarter is filed and the tax is paid to the district director, the overcollection may be corrected by an adjustment on the return for any subsequent quarter of the same calendar year.

(4) Every overcollection not repaid and receipted for by the employee as provided in this paragraph must be reported and paid to the district director with the return on Form 941 for the quarter in which the overcollection is made.

(5) For information as to the manner of correcting errors in withholding which cannot be adjusted in a return for a subsequent quarter of the same calendar year, employers should consult the local district director of internal revenue.

§ 406.702 *Statutory provisions; refunds; credits; and abatements.*

SEC. 1622. INCOME TAX COLLECTED AT SOURCE.

* * * * * *

(f) *Refunds or credits.*

(1) *Employers.* Where there has been an overpayment of tax under this subchapter, refund or credit shall be made to the employer only to the extent that the amount of such overpayment was not deducted and withheld under this subchapter by the employer.

(2) *Employees.* For refund or credit in cases of excessive withholding, see section 322 (a).

[Sec. 1622 (f), as added by sec. 2 (a), Current Tax Payment Act 1943.]

* * * * * *

SEC. 3770. AUTHORITY TO MAKE ABATEMENTS, CREDITS, AND REFUNDS.

(a) *To Taxpayers*—(1) *Assessments and collections generally.* Except as otherwise provided by law in the case of income, war-profits, excess-profits, estate, and gift taxes, the Commissioner, subject to regulations prescribed by the Secretary, is authorized to remit, refund, and pay back all taxes erroneously or illegally assessed or collected, all penalties collected without authority, and all taxes that appear to be unjustly assessed or excessive in amount, or in any manner wrongfully collected.

(2) *Assessments and collections after limitation period.* Any tax (or any interest, penalty, additional amount, or addition to such tax) assessed or paid after the expiration of the period of limitation properly applicable thereto shall be considered an overpayment and shall be credited or refunded to the taxpayer if claim therefor is filed within the period of limitation for filing such claim.

* * * * * *

(4) *Credit of overpayment of one class of tax against another class of tax due.* Notwithstanding any provision of law to the contrary, the Commissioner may, in his discretion, in lieu of refunding an overpayment of tax imposed by any provision of this title, credit such overpayment against any tax due from the taxpayer under any other provision of this title.

(5) *Delegation of authority to collectors [district directors] to make refunds.* The Commissioner, with the approval of the Secretary, is authorized to delegate to collectors [district directors] any authority, duty, or function which the Commissioner is authorized or required to exercise or perform under paragraph (1), (2), (3), or (4) of this subsection, or under section 322 or 1027, where the amount involved (exclusive of interest, penalties, additions to the tax, and additional amounts) does not exceed $10,000.

* * * * * *

[Sec. 3770 (a) (1), as amended by sec. 503 (b), Second Revenue Act 1940; sec. 3770 (a) (4), as added by sec. 9 (a), Pub. Law 271 (81st Cong.); and 3770 (a) (5), added as paragraph (4) by sec. 4 (c), Current Tax Payment Act 1943, and redesignated paragraph (5) and amended by sec. 9 (a), Pub. Law 271 (81st Cong.).]

* * * * * *

§ 406.703 *Refund or credit of overpayments which are not adjustable; abatement of overassessments*—(a) *Who may make claims.* If more than the correct amount of tax, penalty, or interest is paid to the district director, the person who paid such tax, penalty, or interest to the district director may file a claim for refund of such overpayment or such person may take credit for the overpayment against the tax reported on any return on Form 941 which he subsequently files. However, refund or credit of the overpayment shall be made only to the extent that the amount of the overpayment exceeds the tax actually withheld, and penalty and interest thereon. If more than the correct amount of tax, penalty, or interest is assessed but not paid to the district director, the person against whom the assessment is made may file a claim for abatement of such overassessment.

(b) *Form of claims.* Each claim for refund or abatement under this section shall be made on Form 843 in accordance with the regulations in this part and the instructions relating to such form, and shall designate the tax-return period in which the error was ascertained. Copies of Form 843 may be obtained from any district director. If credit is taken under this section, a claim on Form 843 is not required, but the return on which such credit is claimed shall have attached as a part thereof a statement which shall constitute the claim for credit, setting forth in detail the grounds and facts relied upon in support of the credit, designating the tax-return period in which the error was ascertained, and showing such other information as is required by the regulations in this part or by the instructions relating to the return.

(c) *Limitation on claims.* No refund or credit will be allowed after the expiration of the applicable statutory period of limitations, except upon one or more of the grounds set forth in a claim filed prior to the expiration of such period. For provisions relating to the period of limitation upon refunds and credits, see § 406.707.

(d) *Claims improperly made.* Any claim which does not comply with the requirements of this section will not be considered for any purpose as a claim for refund, credit, or abatement.

(e) *Proof of representative capacity.* If a return is made by an individual who thereafter dies and a refund claim is made by a legal representative of the deceased, certified copies of the letters testamentary, letters of administration, or other similar evidence must be annexed to the claim, to show the authority of the executor, administrator, or other fiduciary by whom the claim is made. If an executor, administrator, guardian, trustee, receiver, or other fiduciary makes a return and thereafter a refund claim is made by the same fiduciary, documentary evidence to establish the legal authority of the fiduciary need not accompany the claim, provided a statement is made in the claim showing that the return was made by the fiduciary and that the latter is still acting. In such cases, if a refund or interest is to be paid, letters testamentary, letters of administration, or other evidence may be required, but should be submitted only upon the receipt of a specific request therefor. If a claim is made by a fiduciary other than the one by whom the return was made, the necessary documentary evidence should accompany the claim. The claim may be executed by the agent of the person assessed, but in such case a power of attorney must accompany the claim.

§ 406.704 *Statutory provisions; credit for tax withheld.*

SEC. 35. CREDIT FOR TAX WITHHELD ON WAGES.
The amount deducted and withheld as tax under Subchapter D of Chapter 9 during any calendar year upon the wages of any individual shall be allowed as a credit to the recipient of the income against the tax imposed by this chapter for the taxable year beginning in such calendar year. If more than one taxable year begins in any such calendar year such amount shall be allowed as a credit against the tax for the last taxable year so beginning.

[Sec. 35, as added by sec. 172 (f) (2), Revenue Act 1942, and as amended by sec. 3, Current Tax Payment Act 1943.]

SEC. 322. REFUNDS AND CREDITS.
(a) *Authorization.*
* * * * *
(2) *Excessive withholding.* Where the amount of the tax withheld at the source under Subchapter D of Chapter 9 exceeds the taxes imposed by this chapter against which the tax so withheld may be credited under section 35, the amount of such excess shall be considered an overpayment.

[Sec. 322 (a) (2), as added by sec. 172 (e) (1), Revenue Act 1942, and as amended by sec. 4 (a), Current Tax Payment Act 1943; sec. 6 (b) (9), Individual Income Tax Act 1944.]

* * * * *

§ 406.705 *Credit for tax withheld; credit or refund of overpayment of tax withheld.* (a) The credit for tax withheld at source on wages during a calendar year shall be allowed against the tax imposed by chapter 1 of the Internal Revenue Code for the taxable year of the recipient of the income which begins in such calendar year. If such recipient has more than one taxable year beginning in such calendar year, the credit shall be allowed against the tax for the last taxable year so beginning.

(b) If the tax has actually been withheld at the source, credit or refund shall be made to the recipient of the income even though such tax has not been paid over to the Government by the employer. See section 322. For the purpose of the credit, the recipient of the income is the person subject to tax imposed under chapter 1 of the Internal Revenue Code upon the wages from which the tax was withheld. For instance, if a husband and wife domiciled in a community property State make separate returns, each reporting for income tax purposes one-half of the wages received by the husband, each spouse is entitled to one-half of the credit allowable for the tax withheld at source with respect to such wages.

(c) The employee from whose wages tax has been deducted and withheld during any calendar year shall claim credit for the tax withheld on his return of tax under chapter 1 of the Code for the taxable year which begins in such calendar year and shall attach to such return the withholding statement or statements on Form W-2 furnished to him with respect to wages paid during such calendar year. If the amount of the tax withheld exceeds the tax under chapter 1 of the Code against which the tax so withheld may be credited, refund or credit of such excess will be made to the employee in accordance with the applicable provisions of the regulations prescribed under chapter 1 of the Code.

§ 406.706 *Statutory provisions; period of limitation upon refunds and credits.*

SEC. 1636. PERIOD OF LIMITATION UPON REFUNDS AND CREDITS OF CERTAIN EMPLOYMENT TAXES.
(a) *General rule.* In the case of any tax imposed by * * * subchapter D of this chapter—
(1) *Period of limitation.* Unless a claim for credit or refund is filed by the taxpayer within three years from the time the return was filed or within two years from the time the tax was paid, no credit or refund shall be allowed or made after the expiration of whichever of such periods expires the later. If no return is filed, then no credit or refund shall be allowed or made after two years from the time the tax was paid, unless before the expiration of such period a claim therefor is filed by the taxpayer.
(2) *Limit on amount of credit or refund.* The amount of the credit or refund shall not exceed the portion of the tax paid—
(A) If a return was filed, and the claim was filed within three years from the time the return was filed, during the three years immediately preceding the filing of the claim.
(B) If a claim was filed, and (i) no return was filed, or (ii) if the claim was not filed within three years from the time the return was filed, during the two years immediately preceding the filing of the claim.
(C) If no claim was filed and the allowance of credit or refund is made within three years from the time the return was filed, during the three years immediately preceding the allowance of the credit or refund.
(D) If no claim was filed, and (i) no return was filed or (ii) the allowance of the credit or refund is not made within three years from the time the return was filed, during the two years immediately preceding the allowance of the credit or refund.
(b) *Penalties, etc.* The provisions of subsection (a) of this section shall apply to any penalty or sum assessed or collected with respect to the tax imposed by * * * subchapter D of this chapter.
(c) *Date of filing return and date of payment of tax.* For the purposes of this section—
(1) If a return for any period ending with or within a calendar year is filed before March 15 of the succeeding calendar year, such return shall be considered filed on March 15 of such succeeding calendar year; and
(2) If a tax with respect to remuneration paid during any period ending with or within a calendar year is paid before March 15 of the succeeding calendar year, such tax shall be considered paid on March 15 of such succeeding calendar year.
(d) *Application of section.* The provisions of this section shall apply only to those taxes imposed by * * * subchapter D of this chapter, which are required to be collected and paid by making and filing returns.
(e) *Effective date.* The provisions of this section shall not apply to any tax paid or collected with respect to remuneration paid during any calendar year before 1951 or to any penalty or sum paid or collected with respect to such tax.

[Sec. 1636, as added by sec. 207 (a), Social Security Act Amendments 1950.]

§ 406.707 *Period of limitation upon refunds and credits*—(a) *In general.* Unless a claim for refund or credit of an overpayment is filed within three years from the time the return was filed, or within two years from the time the tax was paid, the Commissioner is prohibited, after both periods have expired, from allowing or making a refund or credit of such overpayment. If no return is filed, the Commissioner is prohibited from allowing or making a refund or credit of the overpayment after two years from the time the tax was paid unless before the expiration of such two-year period a claim therefor is filed.

(b) *Limitation on amount of refund or credit.* The limitation on the amount of refund or credit shall be determined in accordance with section 1636 (a) (2).

(c) *Penalties.* The provisions of this section as to the tax required to be deducted and withheld are also applicable to any penalty or other sum assessed or collected with respect to such tax.

(d) *Date of filing return and payment of tax.* For the purposes of this section, if a return for any period ending with or within a calendar year is filed before March 15 of the succeeding calendar year, it shall be deemed filed on March 15 of such succeeding calendar year. Likewise, if any tax required to be deducted and withheld during any period ending with or within a calendar year is paid before March 15 of the succeeding calendar year, such tax shall be deemed paid on March 15 of such succeeding calendar year.

SUBPART H—MISCELLANEOUS PROVISIONS

§ 406.800 *Statutory provisions; jeopardy assessment.*

SEC. 1627. OTHER LAWS APPLICABLE.
All provisions of law, including penalties, applicable with respect to the tax imposed by section 1400 shall, insofar as applicable and not inconsistent with the provisions of this subchapter [subchapter D of chapter 9], be applicable with respect to the tax under this subchapter.

[Sec. 1627, as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 3660. JEOPARDY ASSESSMENT.
(a) If the Commissioner believes that the collection of any tax (other than income tax, estate tax, and gift tax) under any provision of the internal-revenue laws will be jeopardized by delay, he shall, whether or not the time otherwise prescribed by law for making return and paying such tax has expired, immediately assess such tax (together with all interest and penalties the assessment of which is provided for by law). Such tax, penalties, and interest shall thereupon become immediately due and payable, and immediate notice and demand shall be made by the collector [district director] for the payment thereof. Upon failure or refusal to pay such tax, penalty, and interest, collection thereof by distraint shall be lawful without regard to the period prescribed in section 3690.
(b) The collection of the whole or any part of the amount of such assessment may be stayed by filing with the collector [district director] a bond in such amount, not exceeding double the amount as to which the stay is desired, and with such sureties as the collector [district director] deems necessary, conditioned upon the payment of the amount collection of which is stayed, at the time at which, but for this section, such amount would be due.

§ 406.801 *Jeopardy assessments.* (a) Whenever, in the opinion of the district director, the collection of the tax will be jeopardized by delay, he should assess the tax, together with all penalties and interest due. Upon assessment such tax, penalty, and interest shall become immediately due and payable.

(b) The collection of the whole or any part of the amount of the jeopardy assessment may be stayed by filing with the district director a bond in such amount, not exceeding double the amount with respect to which the stay is desired, and with such sureties as the district director deems necessary. Such bond shall be conditioned upon the payment of the amount, collection of which is stayed, at the time at which, but for the jeopardy assessment, such amount would be due. In lieu of surety or sureties the taxpayer may deposit with the district director negotiable bonds or notes of the United States, or negotiable bonds or notes fully guaranteed by the United States, having a par value not less than the amount of the bond required to be furnished, together with an agreement authorizing the district director in case of default to collect or sell such bonds or notes so deposited.

(c) Upon refusal to pay, or failure to pay or give bond, the district director will proceed immediately to collect the tax, penalty, and interest by distraint without regard to the period prescribed in section 3690.

§ 406.802 *Statutory provisions; period of limitation upon assessment and collection.*

SEC. 1635. PERIOD OF LIMITATION UPON ASSESSMENT AND COLLECTION OF CERTAIN EMPLOYMENT TAXES.
(a) *General rule.* The amount of any tax imposed by * * * subchapter D of this chapter shall (except as otherwise provided in the following subsections of this section) be assessed within three years after the return was filed, and no proceeding in court without assessment for the collection of such tax shall be begun after the expiration of such period.
(b) *False return or no return.* In the case of a false or fraudulent return with intent to evade tax or of a failure to file a return, the tax may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time.
(c) *Willful attempt to evade tax.* In case of a willful attempt in any manner to defeat or evade tax, the tax may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time.
(d) *Collection after assessment.* Where the assessment of any tax imposed by * * * subchapter D of this chapter has been made within the period of limitation properly applicable thereto, such tax may be collected by distraint or by a proceeding in court, but only if begun (1) within six years after the assessment of the tax, or (2) prior to the expiration of any period for collection agreed upon in writing by the Commissioner and the taxpayer.
(e) *Date of filing of return.* For the purposes of this section, if a return for any period ending with or within a calendar year is filed before March 15 of the succeeding calendar year, such return shall be considered filed on March 15 of such succeeding calendar year.
(f) *Application of section.* The provisions of this section shall apply only to those taxes imposed by * * * subchapter D of this chapter, which are required to be collected and paid by making and filing returns.
(g) *Effective date.* The provisions of this section shall not apply to any tax imposed with respect to remuneration paid during any calendar year before 1951.

[Sec. 1635, as added by sec. 207 (a), Social Security Act Amendments 1950.]

§ 406.803 *Period of limitation upon assessment and collection.* Section 1635 provides, in general, for a three-year period of limitation on the assessment of the tax required to be withheld. This period of limitation is measured from the date the return is filed, except that if a return for any period ending with or within a calendar year is filed before March 15 of the succeeding calendar year, such return shall be deemed filed on March 15 of such succeeding calendar year. For example, if quarterly returns are filed for the four quarters of 1954 on April 30, July 31, and October 31, 1954, and on January 31, 1955, the period of limitation for assessment with respect to the tax required to be reported on each such return is measured from March 15, 1955. However, if any of such returns is filed after March 15, 1955, the period of limitation for assessment of the tax required to be reported on that return is measured from the date it is in fact filed. Where the tax is assessed within the statutory period of limitation, such tax may be collected by distraint or by a proceeding in court, if begun (a) within six years after the assessment of the tax, or (b) prior to the expiration of any period for collection agreed upon in writing by the Commissioner and the taxpayer. In the case of a false or fraudulent return with intent to evade tax or of a failure to file a return, and in the case of a willful attempt in any manner to defeat or evade tax, the tax required to be reported on the return may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time.

§ 406.804 *Statutory provisions; collection of tax in Puerto Rico.*

SEC. 3811. COLLECTION OF TAXES IN PUERTO RICO * * *.
(a) *Puerto Rico.* Notwithstanding any other provision of law respecting taxation in Puerto Rico, all taxes imposed * * * by subchapters * * * D of chapter 9, shall be collected under the direction of the Secretary and shall be paid into the Treasury of the United States as internal revenue collections. All provisions of the laws of the United States applicable to the administration, collection, and enforcement * * * of any tax imposed by subchapter * * * D of chapter 9, shall, in respect to such tax, extend to and be applicable in Puerto Rico in the same manner and to the same extent as if Puerto Rico were a State, and as if the term "United States" when used in a geographical sense included Puerto Rico.
* * * * *
(c) *Definition.* As used in this section, the term "tax" includes any penalty with respect to the tax, any addition to the tax, and any additional amount with respect to the tax, provided for by any law of the United States.

[Sec. 3811 (a), as added by sec. 208 (b), Social Security Act Amendments 1950, and as amended and redesignated as subsection (a) by sec. 221 (1), Revenue Act 1950; and sec. 3811 (c), as added by sec. 221 (1), Revenue Act 1950.]

§ 406.805 *Collection of tax in Puerto Rico.* All provisions of the laws of the United States relating to the administration, collection, and enforcement (such as the provisions relating to the ascertainment, return, determination, redetermination, assessment, collection, remission, credit, and refund) of the income tax withheld at source on wages under section 1622 shall, in respect of such tax, extend to and be applicable in Puerto Rico in the same manner and to the same extent as if Puerto Rico were a State, and as if the term "United States" when used in a geographical sense included Puerto Rico.

§ 406.806 *Statutory provisions; acts to be performed by agents.*

SEC. 1632. ACTS TO BE PERFORMED BY AGENTS.
In case a fiduciary, agent or other person has the control, receipt, custody, or disposal of, or pays the wages of an employee or group of employees, employed by one or more employers, the Commissioner, under regulations prescribed by him with the approval of the Secretary, is authorized to designate such fiduciary, agent or other person to perform such acts as are required of employers under this chapter [chapter 9 of the Internal Revenue Code] and as the Commissioner may specify. Except as may be otherwise prescribed by the Commissioner with the approval of the Secretary, all provisions of law (including penalties) applicable in respect of an employer shall be applicable to a fiduciary, agent or other person so designated but, except as so provided, the employer for whom such fiduciary, agent or other person acts shall remain subject to the provisions of law (including penalties) applicable in respect of employers.

[Sec. 1632, as added by sec. 2 (a), Current Tax Payment Act 1943.]

§ 406.807 *Acts to be performed by agents.* If an employer pays wages to an employee or group of employees through a fiduciary, agent, or other person who also has the control, receipt, custody, or disposal of, or pays the wages payable by another employer to such employee or group of employees, the Commissioner may, subject to such terms and conditions as he deems proper, authorize such fiduciary, agent, or other person to perform such acts as are required of employers under the statute and the regulations in this part. Application for authorization to perform such acts, signed by such fiduciary, agent, or other person, should be filed with the Commissioner of Internal Revenue, Washington 25, D. C. If the fiduciary, agent, or other person is authorized by the Commissioner to perform such acts as are required of employers under the statute and regulations, all provisions of law (including penalties) and of the regulations prescribed in pursuance of law applicable in respect of an employer shall be applicable to such fiduciary, agent, or other person. However, each employer for whom such fiduciary, agent, or other person acts shall remain subject to all provisions of law (including penalties) and of the regulations prescribed in pursuance of law applicable in respect of employers. (See also § 406.310.)

§ 406.808 *Statutory provisions; additions to tax for failure to pay an assessment after notice and demand.*

SEC. 1420. COLLECTION AND PAYMENT OF TAXES.
* * * * *
(b) *Addition to tax in case of delinquency.* If the tax is not paid when due, there shall be added as part of the tax interest (except in the case of adjustments made in accordance with the provisions of sections 1401 (c) and 1411) at the rate of 6 per centum per

annum from the date the tax became due until paid.

* * * * *

SEC. 3655. NOTICE AND DEMAND FOR TAX.

(a) *Delivery.* Where it is not otherwise provided, the collector [district director] shall in person or by deputy, within ten days after receiving any list of taxes from the Commissioner, give notice to each person liable to pay any taxes stated therein, to be left at his dwelling or usual place of business, or to be sent by mail, stating the amount of such taxes and demanding payment thereof.

(b) *Addition to tax for nonpayment.* If such person does not pay the taxes, within ten days after the service or the sending by mail of such notice, it shall be the duty of the collector [district director] or his deputy to collect the said taxes with a penalty of 5 per centum additional upon the amount of taxes, and interest at the rate of 6 per centum per annum from the date of such notice to the date of payment * * *.

* * * * *

§ 406.809 *Interest.* If the tax is not paid to the district director when due and is not adjusted under § 406.701, interest accrues at the rate of 6 percent per annum.

§ 406.810 *Addition to tax for failure to pay an assessment after notice and demand.* (a) If tax, penalty, or interest is assessed and the entire amount thereof is not paid within 10 days after the date of issuance of notice and demand for payment thereof, based on such assessment, there accrues under section 3655 (except as provided in paragraph (b) of this section) a penalty of 5 percent of the assessment remaining unpaid at the expiration of such period.

(b) If, within 10 days after the date of issuance of notice and demand, a claim for abatement of any amount of the assessment is filed with the district director, the 5 percent penalty does not attach with respect to such amount. If the claim is rejected in whole or in part and the amount rejected is not paid, the district director shall issue notice and demand for such amount. If payment is not made within 10 days after the date the district director issues the notice and demand, the 5 percent penalty attaches with respect to the amount rejected. The filing of the claim does not stay the running of interest.

§ 406.811 *Statutory provisions; additions to tax for delinquent or false returns.*

SEC. 3612. RETURNS EXECUTED BY COMMISSIONER OR COLLECTOR [DISTRICT DIRECTOR].

* * * * *

(d) *Additions to tax—(1) Failure to file return.* In case of any failure to make and file a return or list within the time prescribed by law, or prescribed by the Commissioner or the collector [district director] in pursuance of law, the Commissioner shall add to the tax 25 per centum of its amount, except that when a return is filed after such time and it is shown that the failure to file it was due to a reasonable cause and not to willful neglect, no such addition shall be made to the tax: *Provided,* That in the case of a failure to make and file a return required by law, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, if the last date so prescribed for filing the return is after August 20, 1935, then there shall be added to the tax, in lieu of such 25 per centum: 5 per centum if the failure is for not more than 30 days, with an additional 5 per centum for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 per centum in the aggregate.

(2) *Fraud.* In case a false or fraudulent return or list is willfully made, the Commissioner shall add to the tax 50 per centum of its amount.

* * * * *

(e) *Collection of additions to tax.* The amount added to any tax under paragraphs (1) and (2) of subsection (d) shall be collected at the same time and in the same manner and as a part of the tax unless the tax has been paid before the discovery of the neglect, falsity, or fraud, in which case the amount so added shall be collected in the same manner as the tax.

* * * * *

SEC. 1631. FAILURE OF EMPLOYER TO FILE RETURN.

In case of a failure to make and file any return required under this chapter within the time prescribed by law or prescribed by the Commissioner in pursuance of law, unless it is shown that such failure is due to reasonable cause and not to willful neglect, the addition to the tax or taxes required to be shown on such return shall not be less than $5.

[Sec. 1631, as added by sec. 2 (a), Current Tax Payment Act 1943, and as amended by sec. 6, Pub. Law 271 (81st Cong.); sec. 209 (d), Social Security Act Amendments 1950.]

§ 406.812 *Additions to tax for delinquent or false returns—(a) Delinquent returns—(1) Ad valorem addition.* (i) If a person fails to make and file a return required by the regulations in this part within the prescribed time, a certain percent of the amount of the tax is added to the tax unless the return is later filed and failure to file the return within the prescribed time is shown to be due to reasonable cause and not to willful neglect. Two classes of delinquents are subject to this addition to the tax:

(*a*) Those who do not file returns and for whom returns are made by a district director, a collection officer, or the Commissioner; and

(*b*) Those who file tardy returns and are unable to show reasonable cause for the delay.

The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate, subject, however, to the minimum addition to the tax set forth in subparagraph (2) of this paragraph. In computing the period of delinquency all Sundays and holidays after the due date are counted.

(ii) A person who files a tardy return and wishes to avoid the addition to the tax for delinquency must make an affirmative showing of all facts alleged as a reasonable cause for failure to file the return on time in the form of a statement which should be attached to the return as a part thereof.

(2) *Minimum addition.* If a person fails to make and file a return required by the regulations in this part within the prescribed time, unless it is shown that the failure is due to reasonable cause and not to willful neglect, the addition to the tax or taxes required to be shown on such return shall not be less than $5. The addition to the tax or taxes shall be computed as provided in subparagraph (1) of this paragraph, and if less than $5 shall be increased to $5.

(b) *False returns.* If a false or fraudulent return is willfully made, the addition to tax under section 3612 (d) (2) is 50 percent of the total tax due for the entire period involved, including any tax previously paid.

§ 406.813 *Statutory provisions; penalties.*

SEC. 2707. PENALTIES.

(a) Any person who willfully fails to pay, collect, or truthfully account for and pay over the tax * * * or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall, in addition to other penalties provided by law, be liable to a penalty of the amount of the tax evaded, or not paid, collected, or accounted for and paid over, to be assessed and collected in the same manner as taxes are assessed and collected. No penalty shall be assessed under this subsection for any offense for which a penalty may be assessed under authority of section 3612.

(b) Any person required under this subchapter to pay any tax, or required by law or regulations made under authority thereof to make a return, keep any records, or supply any information, for the purposes of the computation, assessment, or collection of any tax imposed by this subchapter who willfully fails to pay such tax, make such returns, keep such records, or supply such information, at the time or times required by law or regulations, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than one year, or both, together with the costs of prosecution.

(c) Any person required under this subchapter to collect, account for and pay over any tax imposed by this subchapter, who willfully fails to collect or truthfully account for and pay over such tax, and any person who willfully attempts in any manner to evade or defeat any tax imposed by this subchapter or the payment thereof, shall, in addition to other penalties provided by law, be guilty of a felony and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

(d) The term "person" as used in this section includes an officer or employee of a corporation, or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

SEC. 3616. PENALTIES.

Whenever any person—

(a) *False returns.* Delivers or discloses to the collector [district director] or deputy any false or fraudulent list, return, account, or statement, with intent to defeat or evade the valuation, enumeration, or assessment intended to be made; or,

(b) *Neglect to obey summons.* Being duly summoned to appear to testify, or to appear and produce books as required under section 3615, neglects to appear or to produce said books—

he shall be fined not exceeding $1,000, or be imprisoned not exceeding one year, or both, at the discretion of the court, with costs of prosecution.

* * * * *

SEC. 3793. PENALTIES AND FORFEITURES.

* * * * *

(b) *Fraudulent returns, affidavits, and claims—(1) Assistance in preparation or presentation.* Any person who willfully aids or assists in, or procures, counsels, or advises the preparation or presentation under, or in connection with any matter arising under, the internal revenue laws, of a false or fraudulent return, affidavit, claim, or document, shall (whether or not such falsity or fraud is with the knowledge or consent of the person authorized or required to present such return, affidavit, claim, or document) be guilty of a felony, and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

(2) *Person defined.* The term "person" as used in this subsection includes an officer or employee of a corporation or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

* * * * *

SEC. 286. CONSPIRACY TO DEFRAUD THE GOVERNMENT WITH RESPECT TO CLAIMS [TITLE 18, UNITED STATES CODE].

Whoever enters into any agreement, combination, or conspiracy to defraud the United States, or any department or agency thereof, by obtaining or aiding to obtain the payment or allowance of any false, fictitious or fraudulent claim, shall be fined not more than $10,000 or imprisoned not more than ten years, or both.

SEC. 287. FALSE, FICTITIOUS, OR FRAUDULENT CLAIMS [TITLE 18, UNITED STATES CODE].

Whoever makes or presents to any person or officer in the civil, military, or naval service of the United States, or to any department or agency thereof, any claim upon or against the United States, or any department or agency thereof, knowing such claim to be false, fictitious, or fraudulent, shall be fined not more than $10,000 or imprisoned not more than five years, or both.

SEC. 1001. STATEMENTS OR ENTRIES GENERALLY [TITLE 18, UNITED STATES CODE].

Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both.

SEC. 1621. PERJURY GENERALLY [TITLE 18, UNITED STATES CODE].

Whoever, having taken an oath before a competent tribunal, officer, or person, in any case in which a law of the United States authorizes an oath to be administered, that he will testify, declare, depose, or certify truly, or that any written testimony, declaration, deposition, or certificate by him subscribed, is true, willfully and contrary to such oath states or subscribes any material matter which he does not believe to be true, is guilty of perjury, and shall, except as otherwise expressly provided by law, be fined not more than $2,000 or imprisoned not more than five years, or both.

SEC. 1627. OTHER LAWS APPLICABLE.

All provisions of law, including penalties, applicable with respect to the tax imposed by section 1400 shall, insofar as applicable and not inconsistent with the provisions of this subchapter [subchapter D of chapter 9], be applicable with respect to the tax under this subchapter.

[Sec. 1627, as added by sec. 2 (a), Current Tax Payment Act 1943.]

SEC. 1429. RULES AND REGULATIONS.

* * * The Commissioner, with the approval of the Secretary, shall make and publish rules and regulations for the enforcement of this subchapter.

SEC. 3791. RULES AND REGULATIONS.

(a) *Authorization—(1) In general.* * * * the Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this title [Internal Revenue Code].

(2) *In case of change in law.* The Commissioner may make all such regulations, not otherwise provided for, as may have become necessary by reason of any alteration of law in relation to internal revenue.

(b) *Retroactivity of regulations or rulings.* The Secretary, or the Commissioner with the approval of the Secretary, may prescribe the extent, if any, to which any ruling, regulation, or Treasury Decision, relating to the internal revenue laws, shall be applied without retroactive effect.

§ 406.814 *Promulgation of regulations.* In pursuance of sections 1429, 1627, and 3791 of the Internal Revenue Code, and other provisions of the internal revenue laws, the foregoing regulations are hereby prescribed.

[F. R. Doc. 53-10736; Filed, Dec. 28, 1953; 8:45 a. m.]

## TITLE 32—NATIONAL DEFENSE

### Chapter VII—Department of the Air Force

**Subchapter F—Reserve Forces**

PART 861—OFFICERS' RESERVE

APPOINTMENT OF OFFICERS IN THE REGULAR AIR FORCE

Sections 861.101 to 861.107 supersede §§ 861.101 to 861.108 (15 F. R. 3483-85):

Sec.
861.101 Purpose.
861.102 Policy.
861.103 Definitions.
861.104 Responsibility.
861.105 Testing and selection of applications.
861.106 Who may apply.
861.107 Instructions.

AUTHORITY: §§ 861.101 to 861.107 issued under sec. 502, 61 Stat. 882; 10 U. S. C. 506. Interpret or apply sec. 506, 61 Stat. 890; 10 U. S. C. 506c.

DERIVATION: AFR 36-5.

§ 861.101 *Purpose.* Sections 861.101 to 861.107 establish eligibility requirements and procedure for application and appointment of commissioned officers in the Regular Air Force. It applies to all persons desiring consideration for such appointment except those persons applying for appointment in the Medical Service, United States Air Force, Judge Advocate General's Department, and cadets and midshipmen of the United States Military and Naval Academies being appointed in the Regular Air Force upon graduation.

§ 861.102 *Policy.* The policy of the Air Force is to conduct an orderly and gradual buildup of the Regular Air Force toward authorized strength. This buildup will be accomplished primarily by tendering Regular Air Force appointments annually to those non-Regular officers who have demonstrated outstanding officer qualities and ability in specialties particularly suited to the Air Force. The mission of the Air Force dictates that a large proportion of the appointees possess aeronautical ratings.

§ 861.103 *Definitions.* For the purpose of §§ 861.101 to 861.107, the following terms will apply:

(a) *Immediate superior.* The officer to whom an applicant is immediately responsible for the performance of his assigned duty and who is responsible for the preparation of the applicant's AF Form 77, "USAF Officer Effectiveness Report".

(b) *Organization commander.* The commander responsible for the operation and administration of the organization to which the applicant is actually assigned.

(c) *Test control officer.* The officer responsible for administering personnel research tests.

(d) *Commander of major air command.* The commander responsible for the operation and administration of any organization designated a major air command who reports directly to the Chief of Staff, United States Air Force, and under whose command jurisdiction the applicant's organization of assignment falls.

§ 861.104 *Responsibility.* The Director of Training, Headquarters United States Air Force, will:

(a) Transmit testing authority and instructions.

(b) Obtain United States Air Force Performance Reports-Integration Form (AF PRT 422a) from superior officers.

(c) Determine the relative standing of applicants on the basis of performance reports, aptitude tests, and biographical inventories.

(d) Prepare a file on applicants for consideration by the Secretary of the Air Force Personnel Council.

(e) Notify applicants of the final decision on their applications.

(f) Tender Regular Air Force appointments to those persons selected and who are medically qualified for such appointments.

§ 861.105 *Testing and selection of applicants.* The testing and selection of applicants will normally be conducted to appoint two groups of Regular officers each year.

(a) *Application and testing periods.* Applications may be submitted during the periods January 1 to February 28 and July 1 to August 31 each year. Applications received by the Director of Training, Headquarters United States Air Force, other than during these periods will be returned without action. Field testing will commence 30 days after the opening date of each application period. During testing periods, which will be approximately 60 days in duration, each applicant will complete the United States Air Force Officer Aptitude Test, Biographical Inventory and comply with any other pertinent instructions.

(b) *Reapplicants.* An applicant who has been rejected for Regular Air Force appointment under §§ 861.101 to 861.107 (or previous issues thereof) may reapply within established application periods one year after date of previous application provided that all eligibility requirements are met at that time. Only one reapplication may be submitted. Waivers of this requirement will not be

granted. Failure to meet eligibility criteria is not considered as failing to be selected, and those previously having been disqualified administratively, but now eligible under §§ 861.101 to 861.107, may reapply during any application period.

(c) *Processing and consideration.* After field action is completed, applications will be processed in Headquarters United States Air Force. Processing will include obtaining records required to complete applicants' files and computing applicants' composite scores based on the results of tests and performance reports. Completed files on applicants will then be referred to the Secretary of the Air Force Personnel Council for final consideration. Applicants will be either selected for appointment, deferred for reconsideration, or rejected. Only those persons considered to be best qualified will be selected. Due consideration will be given practical experience, academic achievement, qualification in a particularly desired Air Force Specialty, manner of performance, and being graduated as a "distinguished graduate" from the Air Force Reserve Officers' Training Corps, aviation cadet training or United States Air Force Officer Candidate School.

(d) *Notification of appointment, deferral, or rejection.* Applicants selected for appointment will be recommended to the President for nomination to and confirmation by the Senate. When confirmed, applicants will be tendered appointments in the Regular Air Force in the grades of first or second lieutenant in accordance with paragraph (e) of this section. Concurrently, deferred and rejected applicants will be notified of action taken on their applications.

(e) *Grade and seniority.* Statutory limitations provide that active Federal commissioned service performed after December 31, 1947 only, not to exceed 5 years, will be credited for the purpose of determining permanent grades and seniority. Only that service performed in any component of the Army or Air Force after obtaining the age of 21 years is creditable for this purpose. An officer credited with less than 3 years of such service will be appointed in the grade of second lieutenant. Those credited with 3 or more years of such service will be appointed in the grade of first lieutenant. Any higher temporary grade held in the Air Force will not be affected by acceptance of a Regular Air Force appointment.

(f) *Delay of appointment.* To prevent loss of seniority among new Regular officers and to eliminate a delay in promoting Regular second lieutenants already on the promotion list, the appointment of all officers who are within 6 months of becoming eligible for appointment in the grade of first lieutenant, Regular Air Force, at time of selection will be deferred until the date on which they complete 3 years of service as described in paragraph (e) of this section. Officers whose appointments are temporarily delayed and whose current service statements will expire before appointment can be tendered will be permitted to sign indefinite service statements with the proviso that they will be released from active duty without delay in the event their appointment fails to materialize for any reason and they express a desire for release in writing.

§ 861.106 *Who may apply.* Any person who meets the following eligibility requirements may apply for appointment in the Regular Air Force:

(a) *Current status.* At time of application, an applicant must hold a valid appointment as a Reserve officer of the Air Force, and must be serving as a commissioned officer in the active military service.

(b) *Prior commissioned service.* At time of application, an applicant must have completed at least 18 months' active Federal commissioned service within the 3-year period immediately preceding application. Not less than 6 months of this service must have been spent in the performance of duty other than as a student, in a travel status, awaiting assignment, on leave, or other such duty status. Short tours of active duty of 90 days or less may not be included in computing service for this purpose.

(c) *Age.* On the opening date of period for submission of application, an applicant may not exceed the age of 27 years by more than the number of years, months, and days (not to exceed 4 years, 6 months) he has served on active duty since December 31, 1947, as a commissioned officer of the Army of the United States or the Air Force. At the time of appointment, a successful applicant may not exceed the age of 27 years by more than the number of years, months, and days (not to exceed 5 years) of active Federal commissioned service performed by him since December 31, 1947, with the Army of the United States or the Air Force. The above age restriction for appointment in the Regular Air Force is established in sec. 506, 61 Stat. 890; 10 U. S. C. 506c; therefore, waivers of the maximum allowable age for appointment in the Regular Air Force are precluded by law.

(d) *Citizenship.* An applicant must be a citizen of the United States. An applicant who is not a citizen by birth must furnish a certificate by an officer, notary public, or other person authorized by law to administer oaths, giving the following information:

I certify that I have this date seen the original certificate of Citizenship Number ---- (or certified copy of court order establishing citizenship) stating that ----------
(Full name)
---------- was admitted to United States Citizenship by the ---------- Court of ----------, ---------- on --------.
(District or County) (State) (Date)
The following person was named in the certificate as a minor child: ----------;
(Full name)
age ---------.

NOTE: Facsimiles or copies, photographic or otherwise, will not be made of naturalization certificates under any circumstances. Act 25 June 1948 (62 Stat. 767; 18 U. S. C. 1426 (h)) provides that whoever, without lawful authority, prints, photographs, makes or executes any print or impression in the likeness of a certificate of arrival, declaration of intention to become a citizen, or certificate of naturalization or citizenship, or any part thereof, shall be fined not more than $5,000 or imprisoned not more than five years, or both.

(e) *Education.* At time of application, an applicant must have satisfactorily completed, or have been granted credit for, a minimum of 60 semester-hours (or 90 quarter-hours) toward a baccalaureate degree from a nationally or regionally accredited college or university or have successfully completed the General Educational Development Test (College Level), administered by the United States Armed Forces Institute. Although not required, a baccalaureate degree is desirable, particularly in the fields of engineering, the basic sciences, or management and its related fields.

(1) Applicants whose credits are from other than a nationally or regionally accredited institution will be considered as meeting the educational requirements upon presentation of evidence that their credits are acceptable for admission in at least full junior standing to a nationally or regionally accredited college or university.

(2) The passing scores for the General Educational Development Test (College Level), for the purpose of §§ 861.101 to 861.107 only, are:

| | |
|---|---|
| (i) Test I | 61 |
| (ii) Test II | 70 |
| (iii) Test III | 72 |
| (iv) Test IV | 68 |

(f) *Medical.* An applicant must be medically qualified for appointment in the Regular Air Force. Standard Form 88, "Report of Medical Examination," and Standard Form 89, "Report of Medical History," will not be submitted with application. Those applicants selected for Regular appointment will be asked to undergo a medical examination prior to being tendered appointments.

(g) *Dependents.* Male applicants are not restricted with regard to dependents. However, a female applicant who has any legal or other responsibility for the custody, control, care, maintenance, or support of a dependent under 18 years of age may not be appointed a Regular Air Force officer. A woman having a stepchild or foster child under 18 years of age and such child is within her household for a period of more than 30 days each year or who otherwise stands in relationship of parent to such child may not be appointed.

§ 861.107 *Instructions*—(a) *Applicant.* Any person who is eligible under § 861.106, may be considered for Regular appointment by complying with these instructions. Failure to comply with subparagraph (1) of this paragraph in all respects will preclude an applicant from being considered for appointment.

(1) *Submitting application.* Proper application must be submitted during the periods indicated in § 861.105 (a) to the applicant's immediate superior. A proper application consits of the following documents:

(i) AF Form 17, "Application for Commission in the United States Air Force" completed in duplicate.

(ii) Originals or photostatic copies of properly authenticated transcripts of all college credits or the military test report from United States Air Force Institute indicating scores attained in the General Educational Development Test (College Level). An applicant reapplying, who has submitted transcripts or a General Educational Development Test report with a previous application under §§ 861.101 to 861.107, may attach a statement to that effect giving date of previous application.

(iii) One copy of DD Form 98, "Loyalty Certificate for Personnel of the Armed Forces" and one copy of DD Form 98a, "Consolidated List of Organizations Designated by the Attorney General on October 30, 1950, pursuant to Executive Order 9835."

(iv) Certificate from an officer verifying citizenship by naturalization as required by § 861.106 (d), if applicable.

(2) *Completing AF Form 17.* For the purpose of §§ 861.101 to 861.107, instructions on AF Form 17, August 23, 1949, are revised and supplemented as follows:

(i) *Item 11, section I.* Below the heading "Other Schools," enter all military schools attended by the applicant and indicate the period of attendance, title of course, whether successfully completed, and final grade or class standing if known.

(ii) *Item 17, section I.* Enter all supplementary schooling completed by the applicant or in process such as extension or correspondence courses, examinations for credit, or home study without supervision and indicate type of study, titles of courses, and credit granted or expected to be granted.

(iii) *Item 11, section II.* If the applicant holds an aeronautical rating, indicate whether currently or flying status. If the applicant holds an aeronautical rating and is not on flying status, give reasons therefor.

(iv) *Item 12, section II.* Enter names and other required information of all immediate superior officers under whom the applicant has served directly as a commissioned officer for periods of 90 days or more during the 3-year period immediately preceding application, except the immediate superior to whom application is submitted.

(v) *Item 13, section II.* Enter names and other required information of superior officers (other than those listed in item 12) who have either exercised supervision over the applicant or have closely observed the applicant in the performance of duty for a period of 90 or more days during the 3-year period immediately preceding application.

(3) *Service statement.* The service statement of the person to include date of expiration will be indicated in paragraph 14, section II, of AF Form 17, dated August 23, 1949, or the remarks paragraph of AF Form 17, dated September 1, 1952. Persons who submit valid applications and are subsequently relieved from active duty will be considered for Regular commissions. Applicants in this category who are selected will be tendered appointments provided that they are medically qualified and do not exceed the maximum statutory age for initial appointment as specified in § 861.106 (c).

(4) *Change of address.* The military address furnished on the AF Form 17 will be used for the purpose of contacting an applicant with regard to his application. The applicant will give immediate notice to the Director of Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., of any change of address, permanent or temporary (if for 15 days or more), between submission of application and notification of final action. If such a change of address occurs prior to completion of field testing, notification will be made by electrical means.

(5) *Reporting for testing.* An applicant will report for testing at the designated time and place or make prior arrangements satisfactory to the appropriate base commander. Applicants who have been scheduled for testing and who proceed on temporary duty, permanent change of station, or leave prior to being tested, will report to the nearest base with testing facilities to be scheduled for testing. To be tested, such applicants must present copy of letter from Headquarters United States Air Force acknowledging receipt of application and containing authority for being tested to any commander of a base where testing facilities are available.

(6) *Replying to communications.* Applicants who do not promptly reply to and or comply with all communications and instructions regarding their applications and testing will be considered as being no longer interested in a Regular commission and their applications may be abandoned by Headquarters United States Air Force.

(7) *Comprising test questions.* Applicants are directed not to discuss the contents of the United States Air Force Officer Aptitude Test after its completion. Since officers are selected for Regular appointments on a competitive basis, any applicants who have advance information concerning test questions will be at a decided advantage over all other applicants.

(8) *Distinguished graduates of Air Force Reserve Officers' Training Corps, Aviation Cadet Training, or United States Air Force Officer Candidate School.* An applicant who has been designated a "distinguished graduate" should attach a copy of the letter of designation to his application to insure that special consideration is given for such achievement.

(b) *Immediate superior.* The immediate superior will review the application for completeness and correctness and forward the application within 3 working days of receipt to the applicant's organization commander. The forwarding indorsement will contain a statement regarding the applicant's suitability for appointment in the Regular Air Force. The officer evaluation report referred to on AF Form 17 will not be prepared by the immediate superior at time application is indorsed to the organization commander.

(c) *Organization commander.* After receipt of the application, the organization commander will:

(1) Determine if applicant meets the eligibility requirements for applying, and if application has been supported with the necessary documents. Sections 861.106 and 861.107 (a) (1) will be used as a checklist for this purpose.

(2) Return incomplete applications by indorsement directly to the applicant with reasons therefor. Information copies of all indorsements returning applications will be furnished the Director of Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C.

(3) Indorse complete applications with a statement to the effect that the applicant's records have been examined carefully, the applicant is eligible under §§ 861.101 to 861.107, the application is complete, and nothing was found in the applicant's file of a sufficient derogatory nature to preclude further consideration of the application.

(4) Furnish sufficient explanation of the circumstances in the event of derogatory information or questionable findings.

(5) Indorse completed applications direct to the Director of Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C. Applications from organizations located overseas will be forwarded by airmail.

(6) Advise the Director of Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., if, between date of application and final action by Headquarters United States Air Force, any matter comes to his attention with regard to an applicant under his command which would materially affect (favorably or unfavorably) the applicant's qualifications for Regular Air Force appointment. Such communications will be classified appropriately.

(7) Upon receipt of notification of testing appointment for any member of his organization, issue necessary instructions directing travel where necessary and specifying time and place applicant must report for testing. If the applicant will not be available at the specified time, advise the base commander responsible for testing that it is not feasible for applicant to report and request that another date and/or testing point be designated.

(d) *Commander of major air command.* The commander of each major air command will monitor and coordinate the testing of applicants by base commanders and determine the appropriate base for testing.

(1) *Testing authority.* Authority to test applicants will be forwarded by the Director of Training, Headquarters United States Air Force, directly to the commander of the major air command or on occasion directly to the appropriate base commanders. Persons will be tested only upon receipt of this specific authority or upon presentation by applicants of acknowledgement letters from Headquarters United States Air Force indicating receipt of their applications. Testing authority will be transmitted either by letter or electrical communication. Upon receipt of testing authority, the commander of the major air command will relay instructions for testing to his base commanders for completion of testing.

(2) *Inability to accomplish testing.* Upon notification by a base commander that testing cannot be accomplished,

the commander of the major air command will take the following action by electrical means:

(i) If testing cannot be accomplished because applicant is located in an area normally serviced by another base but still under the jurisdiction of the same major air command, testing authority will be transferred to the appropriate base. This authority may be delegated to base commanders for automatic implementation.

(ii) If the applicant is located outside the geographical jurisdiction of the major air command, testing authority will be transferred to the appropriate major air command for action. Information copies of all communications either written or electrical transferring testing authority between major air commands will be furnished to the Director of Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C.

(iii) If a base commander is unable to accomplish testing for reasons other than the applicant's absence from the base area, the commander of the major air command will make every effort to resolve the problem and arrange for testing. If a solution does not appear feasible, the commander of the major air command will promptly advise the Director of Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., with a brief statement of the circumstances.'

(e) *Base commander.* Immediately upon receipt of testing authority from Headquarters United States Air Force or a major air command, or upon presentation by an applicant of a letter from Headquarters United States Air Force acknowledging receipt of his application, base commanders will make arrangements to test applicants. Applicants will be scheduled for testing during one of the testing periods set forth in § 861.105 (a). Priority will be given to applicants who may be under orders for change of station or who are not in the active military service. In conjunction with their notifications, applicants will be advised regarding any documents or records which they may be required to furnish for completion of their application. In order to test applicants, base commanders will:

(1) Request organization commanders of applicants on active duty to issue necessary instructions, directing travel where necessary, and specifying the time and place of testing.

(2) Furnish written notification to applicants who are not in the active military service, specifying the time and place for testing and informing them that cost of travel, quarters, and subsistence will be at no expense to the Government. Every effort will be made to schedule such applicants at times convenient to them.

(3) Give applicants upon arrival for testing a brief orientation to consist of:

(i) A brief welcome, an explanation of how applicants will be scheduled and rules of the testing center, including a description of messing, billeting, and other facilities.

(ii) Direction not to discuss test questions with any other applicants for the reason stated in § 861.107 (a) (7).

(4) If the responsible test control officer is an applicant for a Regular Air Force commission, appoint a Regular Air Force officer to administer the test to the test control officer.

[SEAL] K. E. THIEBAUD,
*Colonel, U. S. Air Force,*
*Air Adjutant General.*

PART 861—OFFICERS' RESERVE

SHORT AND SPECIAL TOURS OF ACTIVE DUTY

1. Sections 861.1151 to 861.1166 supersede §§ 861.1151 to 861.1177 (16 F. R. 165–167; 32 CFR 861.1151–861.1177)

SHORT AND SPECIAL TOURS OF ACTIVE DUTY

Sec.
861.1151 Purpose.
861.1152 Policy.
861.1153 Definitions.
861.1154 Duration of tours.
861.1155 Place of duty.
861.1156 Eligibility for training.
861.1157 Employees of the United States Government or District of Columbia.
861.1158 Application.
861.1159 Medical examination.
861.1160 Waivers of medical defects.
861.1161 Reservists medically disqualified.
861.1162 Travel.
861.1163 Leave.
861.1164 Supply.
861.1165 Special tours for medical and dental officers.
861.1166 Letter of application and medical certificate forms.

AUTHORITY: §§ 861.1151 to 861.1166 issued under R. S. 161; sec. 202, 61 Stat. 500 as amended; 5 U. S. C. 22, 171a. Interpret or apply secs. 32, 41 Stat. 776 as amended; 35 Stat. 780, 40 Stat. 72 as amended; 10 U. S. C. 361, 369, 371, 371b, 422, 426, 427.

DERIVATION: AFR 35-76.

§ 861.1151 *Purpose.* Sections 861.1151 to 861.1166 establish the qualifications of officers (other than general officers) and airmen of the Air Force Reserve who may be ordered to short or special tours of active duty for the purpose of indivdual training, training with units, attendance at schools, or for the convenience of the Government. Sections 861.1151 to 861.1166 also set forth the procedure whereby doctors of medicine and dentistry who are Air Force Reserve Forces officers may be ordered to special tours of active duty to fill vancancies in Air Force base medical activities in the immediate vicinity of their residences.

§ 861.1152 *Policy.* To accrue maximum benefit to the Air Force Reserve, eligible individuals may be authorized active duty for training purposes as outlined in §§ 861.1151 to 861.1166.

§ 861.1153 *Definitions.* For the purpose of §§ 861.1151 to 861.1166 the following definitions will apply:

(a) *Short tour.* A tour of active duty for training for the purpose of maintaining individual or unit proficiency.

(b) *Special tour.* A tour of active duty for training for the convenience of the Government for which the Reservist must have volunteered. Special tours of active duty for Reserve program projects must be for the accomplishment of projects relating solely to the Reserve programs and must benefit the Air Force Reserve. Requests for approval of such tours must be justified in detail to Headquarters United States Air Force. These tours will be granted only if the duties to be performed are beyond the normal responsibility of the Regular Air Force to the Air Force Reserve. Special tours of active duty training may be authorized for but not limited to the following purposes:

(1) Advance party support for the operation of unit active duty training bases when the units concerned train at bases other than their home bases.

(2) Air Force Reserve members of local committees on Air Force Reserve policy may be ordered to special tours of active duty for the purpose of attending committee meetings, by the Continental Air Command without prior approval of Headquarters United States Air Force.

(c) *Tour for school training.* A tour of active duty for training to attend accredited service schools conducted by the Air University, the Air Training Command, and joint service schools.

§ 861.1154 *Duration of tours*—(a) *Short tours.* Short tours will be of 15 consecutive days' duration, including traveltime. A Reservist may not receive more than one short tour of active duty in any fiscal year.

(b) *Special tours.* Special tours may not be of more than 90 days' duration, including traveltime. A Reservist may not serve on special tours more than a total of 90 days in any fiscal year. These tours will be approved only by Headquarters United States Air Force and must be justified as specified in § 861.1153 (b).

(c) *Attendance at schools.* Normally, Reservists will be ordered to tours for school training for a period not to exceed 90 consecutive days, including traveltime. However, because of traveltime involved and variance in the duration of courses, Reservists may be authorized active duty of sufficient duration, including traveltime, to complete the courses they are selected to attend.

(d) *Active duty training without pay.* Active duty training without pay is not authorized.

§ 861.1155 *Place of duty.* All Reservists ordered to short or special tours of active duty will perform the duty at the place to which assigned, unless otherwise ordered.

§ 861.1156 *Eligibility for training*—(a) *Reservists assigned to program elements in Training Categories A, B and C.* Reservists assigned to program elements in Training Categories A, B, and C (see §§ 861.1 to 861.13) are authorized a 15-day short tour annually.

(b) *Reservists assigned to program elements in Training Category D.* Reservists assigned to program elements in Training Category D (see §§ 861.1 to 861.13) are eligible for 15-day short tours, contingent upon the availability of funds. When funds are made available, such persons will be given priority for short tours in the order of their awarded Availability Classification Codes. Those persons most readily available for active military service will be given the higher priority.

(c) *Ineligible reservists.* The following members of the Air Force Reserve are ineligible for 15-day short tours, special tours, or tours for school training, except those Reservists listed in subparagraph (1) of this paragraph who are eligible for special tours and tours for school training.

(1) Nonaffiliated Reservists of the Ready and Standby Reserve (Training Category F).

(2) Ineligible Reservists of the Ready and Standby Reserve (Training Category G).

(3) Reservists on the Inactive Status List of the Standby Reserve.

(4) Reservists who are drawing a pension, disability allowance, disability compensation, retired pay, or retirement pay, and who have not waived such entitlements. (Such a waiver will be executed in accordance with § 861.1158 (a) (4).

(5) Reservists retired without pay.

(6) Officers of the Air Force Reserve currently serving in warrant or enlisted status in the Air Force.

(7) Reservists whose appointment or enlistment will expire prior to the completion of a tour of duty.

§ 861.1157 *Employees of the United States Government or District of Columbia.* (a) A Reservist who is a full-time employee of the Federal Government will not be ordered to active duty training to perform duties in the same position he occupies as a civilian employee.

(b) Members of the Air Force Reserve who are granted annual leave upon expiration of the 15 days' military leave which is authorized by law, for the purpose of performing further military duty, are entitled to receive the compensation of their civilian position for the period of such annual leave in addition to the pay and allowances authorized for the military duty without regard to dual compensation laws.

§ 861.1158 *Application*—(a) *Short tours or tours for school training.* Each Reservist desiring a 15-day short tour or a tour for school training will submit a letter application, in duplicate, using § 861.1166 (a) as a guide. The application must be complete to include medical examination in accordance with § 861.1159, if required, and will be submitted to the unit of assignment in sufficient time to insure its receipt not later than 30 days prior to the expected effective date of active duty.

(1) *Reservists assigned to mobilization positions.* Reservists assigned in a mobilization assignment or mobilization designation will forward their applications to the activity to which they are assigned.

(2) *Reservists assigned to ready reserve units.* Reservists assigned to Air Force Reserve combat, combat support, or flying training wings are not required to submit short tour applications for wing encampments. Applications for individual short tours or tours for school training will be submitted through the unit of assignment.

(3) *Reservists assigned to Air Force Reserve specialist training or Volunteer Air Reserve training units.* Reservists assigned to Air Force Reserve specialist training or Volunteer Air Reserve training units will submit applications through channels to the appropriate Continental Air Command numbered air force headquarters.

(4) *Reservists who are drawing pensions, disability allowance, etc.* Reservists who are drawing pensions, disability allowance, disability compensation, retired pay, or retirement pay must waive such entitlements prior to entry on active duty.

(b) *Special tours.* Justification for special tours will be forwarded by the unit concerned, through channels, to Headquarters United States Air Force as prescribed in § 861.1153 (b). Application of the person concerned will be included.

§ 861.1159 *Medical examination*—(a) *Medical requirements.* All applicants for active duty must be medically qualified for active military service and must meet the appropriate medical requirements. Rated personnel on flying status will receive a medical examination for flying. Other personnel will receive the standard medical examination, if required.

(b) *For tours not in excess of 30 days.* Reservists selected for tours of active duty for periods not in excess of 30 days will be ordered to active duty without prior medical examination, except as provided in paragraph (d) of this section.

(c) *For tours in excess of 30 days.* Reservists applying for tours of active duty for periods in excess of 30 days will be required to undergo a medical examination without expense to the Government for travel or pay. Medical examinations accomplished not more than 90 days and normally not less than 45 days prior to the expected date of entry on active duty are acceptable. Examinations may be performed at the military installations nearest the Reservist's place of residence having the medical facilities to accomplish such examinations.

(d) *Action to be taken upon reporting.* Upon reporting, for active duty, each Reservist, if he considers himself qualified for full military duty, will execute, in duplicate a certificate as shown in § 861.1166 (b) (1). If he does not consider himself so qualified and, therefore, cannot conscientiously execute the certificate, he will be ordered by the commander of the base at which the training is to be accomplished to submit to a medical examination. In any event, if a Reservist, upon reporting for active duty, possesses an obvious physical disability, is ill, has been injured in any way since last taking a medical examination, or is drawing a pension, disability allowance, or disability compensation, he must submit to a medical examination.

(e) *Action to be taken upon relief.* Upon relief from active duty, each Reservist will execute a certificate as shown in § 861.1166 (b) (2). However, if the Reservist believes that his physical condition has materially changed during his active duty tour or if he is suffering from any disability or defect that was not present at the beginning of his tour, he will be ordered by the commander of his training base to submit to a medical examination. If this examination is made, particular attention will be given to recording the defects or conditions which have arisen during his tour of duty as they may form the basis of a claim against the Government.

(f) *Inapplicable portions of standard medical examination.* Wherever feasible, the complete standard medical examination will be accomplished. The following portions may be omitted when not clinically indicated: Serology, chest X-ray, electrocardiogram, audiogram, microscopic urinalysis, lens correction, and pelvic examination for female personnel.

(g) *Injury, disease, death, or hospitalization.* Appropriate Air Force regulations will apply in the event of injury, disease, death, or hospitalization.

§ 861.1160 *Waivers of medical defects*—(a) *Authority to approve.* Commanders are authorized to approve waivers of medical defects if a Reservist is found to be below the prescribed medical standards for general service, as outlined in applicable regulations. Due consideration will be given to granting waivers for medical defects which, in the opinion of the reviewing authority:

(1) Are static in nature.

(2) Are not subject to complication or aggravation by reason of military duty.

(3) Will not interfere with the satisfactory performance of full military duty.

(4) Will not involve hospitalization and/or time lost from duty.

(5) For rated personnel, will not, in any way, compromise performance of unlimited flying duty, flying safety, or the person's own well-being.

(b) *Personnel presenting questionable defects.* In the event a person presents a defect which, in the opinion of the reviewing authority, is questionable in nature with regard to criteria outlined in paragraph (a) of this section, the case may be forwarded to the next higher headquarters for action.

§ 861.1161 *Reservists medically disqualified*—(a) *Relief from active duty when medically disqualified.* Reservists on active duty who undergo a medical examination and who are found medically disqualified will be relieved from active duty by the commander of the base where the medical examination is taken, if waiver of medical defect is not approved by the reviewing authority. Notice to this effect will be furnished the commander who ordered the Reservist to active duty.

(b) *Administrative action required.* Upon receipt of notice of medical disqualification, the command of assignment will determine whether the person desires placement in the Ineligible Re-

serve Section or in the Retired Reserve, as appropriate, under §§ 861.1 to 861.13. If the person is ineligible for or does not desire placement in the Ineligible Reserve Section or in the Retired Reserve, separation action will be taken.

§ 861.1162 *Travel*—(a) *Less than 90 days.* For active duty tours of less than 90 consecutive days, travel by military conveyance, commercial transportation, or privately owned conveyance is authorized. When travel is performed by military or commercial transportation, the active duty and traveltime allowable will be computed on the basis of the time actually and necessarily consumed in traveling. If travel is performed by privately owned conveyance, the traveltime and the active duty time allowable will be the constructive traveltime of commercial transportation over the shortest usually traveled route. Mode of travel may be directed, however, if privately owned conveyance is used in place of available military transportation or in place of a directed mode of transportation, the traveltime and the active duty time allowable will not exceed the constructive traveltime of such available or directed mode of transportation.

(b) *More than 90 days.* For tours for school training only, travel by military conveyance, commercial transportation, or privately owned conveyance is authorized for active duty tours of 90 or more consecutive days. When travel is performed by military or commercial transportation, the active duty time and traveltime allowable will be computed on the basis of the time actually and necessarily consumed in traveling. When travel is performed by privately owned conveyance, the active duty time and the travel time allowable will be computed on the basis of 1 day for each 300 miles traveled. One day of traveltime will also be allowed for each fraction of 300 miles in excess of 150 miles.

(c) *Distance.* The distance traveled will be computed on the shortest usually traveled route as prescribed by current directives. Travel allowances will be as prescribed in current directives.

§ 861.1163 *Leave.* Reservists ordered to active duty for 30 days or more are authorized leave as indicated in current directives. Orders for active duty training will not prescribe that leave be taken within the tour of duty. Instructions issued to Reservists who are ordered to active duty training for 30 days or more will include information regarding cash settlement for unused leave credit at the termination of the tour.

§ 861.1164 *Supply.* Necessary clothing and individual equipment for enlisted Reservists will be furnished as prescribed in current directives.

§ 861.1165 *Special tours of active duty for medical and dental officers*—(a) *Intermittent service.* Where the vacancy and need exist, arrangements may be made at base level for intermittent service, for example, on a certain day or on certain days of each week, such arrangements being adaptable to the requirements of the individual's civilian practice as well as the requirements of the Air Force.

(b) *Eligibility.* All Air National Guard of the United States medical and dental officers and Air Force Reserve medical and dental officers of the Ready and Standby Reserve assigned to program elements of Training Categories A through F are eligible for consideration for participation in this program. Those persons desiring to participate in this program who are not so commissioned may apply for appointment as a Reserve officer of the Air Force under existing regulations.

(c) *Grade.* Officers selected for duty under this section will be ordered to duty in the grade in which currently commissioned in the Air Force Reserve or the Air National Guard of the United States.

(d) *Limitations*—(1) *Existing vacancies.* An officer will be placed on active duty under this section only to fill an actual requirement within the total medical or dental authorizations for the medical activity concerned.

(2) *Length of tours.* An individual tour of duty will not exceed 29 consecutive days in any instance. The cumulative total will not exceed 90 days in any one fiscal year.

(3) *Travel.* Travel allowances will be authorized as prescribed by current directives. Reimbursement for transportation of dependents and movement of household goods is not authorized. Mileage allowances will not be paid to medical officers who live in the same city or surrounding community in which the air installation is located.

(4) *Leave.* Individuals ordered to active duty under this section will not be granted leave or paid compensation in lieu thereof.

(e) *Application procedure.* (1) Interested Air Force Reserve medical or dental officers will submit typed letter applications, in duplicate (using § 861.1166 (a) as a guide), requesting duty, to the commander of the Air Force base at which the duty is desired. The actual dates the applicant will be available for duty will be indicated in the remarks section. The commander of the base will determine the need for the Reservist's services and indorse the application for approval to the commander of the active establishment organization maintaining the Reservist's field personnel records or return the application to the individual, as appropriate.

(2) Interested Air National Guard of the United States medical and dental officers will submit typed letter applications, in duplicate (using § 861.1166 (a) as a guide), indicating in the remarks section, the actual dates the applicant will be available for duty. The application will be submitted through the Air National Guard organization of assignment to the commander of the Air Force base at which the duty is desired. The base commander will determine the need for the individual's services and forward the application to the appropriate State Adjutant General, or return it through channels to the individual, as appropriate. (All references in §§ 861.1151 to 861.1166 to the State Adjutant General apply equally to the Adjutant General of the several Territories and the Commanding General of the District of Columbia.) The State Adjutant General will verify the applicant's status and return the application to the base commander indicating his approval or disapproval.

(f) *Medical qualifications.* Medical qualification will be determined under § 861.1159.

(g) *Issuance of orders.* (1) Orders for special tours of active duty may be issued by the commander of the base at which duty is desired, provided that such orders have been authorized by the commander of the active establishment organization required to maintain the applicant's field personnel records.

(2) Officers of the Air National Guard of the United States participating in this program will be ordered to active duty by the commander of the base at which duty is desired upon receipt of the approved application from the appropriate State Adjutant General.

§ 861.1166 *Letter of application and medical certificate forms*—(a) *Application for active duty.*

CROSS REFERENCE: For regulations applicable to airmen of the Air Force Reserve with respect to short or special tours of active duty for the purpose of individual training with units, attendance at school, or for the convenience of the Government, see §§ 861.1151 to 861.1166 of this chapter, *supra.*

## TITLE 46—SHIPPING

### Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments are made to Chapter II, of Title 46:

**Subchapter B—Regulations Affecting Maritime Carriers and Related Activities**

PART 222—STATEMENTS AND AGREEMENTS REQUIRED TO BE FILED

1. General Order 9 (§ 222.1; 2 F. R. 1240) is amended by striking out the word "Commission", wherever it appears therein, and by inserting in lieu thereof "Federal Maritime Board and Maritime Administrator, Department of Commerce".

2. United States Shipping Board Order, September 1, 1927 (§§ 222.11 to 222.16, inclusive), is amended—

a. By striking out "U. S. Maritime Commission", wherever it appears therein, and inserting in lieu thereof "Federal Maritime Board",

b. By striking out "Division of Regulations" and inserting in lieu thereof "Regulation Office",

c. By striking out "Commission's", wherever it appears therein, and inserting in lieu thereof "Board's", and

d. By striking out "Commission", wherever it appears therein, and inserting in lieu thereof "Board".

PART 226—FREE TIME AND DEMURRAGE CHARGES ON IMPORT PROPERTY APPLICABLE TO ALL COMMON CARRIERS BY WATER

1. General Order 69, as amended by Amendment 1 (§ 226.1 (b), (d), and (e); 14 F. R. 2044, 13 F. R. 6538), is amended by striking out "Commission", wherever it appears therein, and inserting in lieu thereof "Board".

PART 231—PUBLICATION, POSTING AND FILING OF FREIGHT AND PASSENGER RATES, FARES, AND CHARGES

1. Tariff Circular 3, February 17, 1948 (§§ 231.0 to 231.23; 13 F. R. 709, is amended:

a. By striking out, wherever it occurs therein, "Commission" and inserting in lieu thereof "Board",

b. By striking out, wherever they occur therein, the terms "United States Maritime Commission" and "U. S. Maritime Commission" and inserting in lieu thereof "Federal Maritime Board".

c. By striking out "United States Maritime Commission's", wherever it occurs therein, and inserting in lieu thereof "Federal Maritime Board's",

d. By striking out the term "USMC", wherever it occurs therein, and inserting in lieu thereof the term "FMB", and

e. By striking out "Division of Regulation", and inserting in lieu thereof "Regulation Office".

PART 235—SCHEDULES OF COMMON CARRIERS BY WATER IN FOREIGN COMMERCE

1. Order 128, Department of Commerce, July 12, 1935 (§ 235.1), is amended by striking out "Commission", wherever it appears, and inserting in lieu thereof "Federal Maritime Board".

PART 237—REPAIRS TO VESSELS UNDER BAREBOAT CHARTER

1. General Order 51 (§§ 237.1 to 237.3; 7 F. R. 910) is amended by striking out "Commission", wherever it appears therein, and inserting in lieu thereof "Maritime Administration".

PART 243—COMMERCIAL FORWARDING OF CERTAIN EXPORTS FOR FOREIGN RELIEF AND REHABILITATION

1. General Order 70, as amended by Amendment 2 (§§ 243.1 to 243.3; 15 F. R. 2877, 14 F. R. 2854), is amended by striking out "Commission", wherever it appears, and inserting in lieu thereof "Maritime Administration", and by striking out "Maritime Commission", wherever it appears therein, and inserting in lieu thereof "Maritime Administration".

PART 244—BUSINESS PRACTICES OF FREIGHT FORWARDERS

1. General Order 72 (§§ 244.2 to 244.14; 15 F. R. 3153) is amended by striking out "Commission", wherever it appears therein, and inserting in lieu thereof "Federal Maritime Board"; and by striking out "Form MC-21" and inserting in lieu thereof "Form FMB-21".

PART 246—FORMULA FOR DETERMINING SEA SPEED OF VESSELS

1. General Order 43 Revised (§§ 246.1 to 246.8; 7 F. R. 3579) is amended by striking out "U. S. Maritime Commission" in § 246.5 and inserting in lieu thereof "Maritime Administration, Department of Commerce".

**Subchapter C—Regulations Affecting Subsidized Vessels and Operators**

PART 262—MINIMUM-WAGE, MINIMUM-MANNING, AND REASONABLE WORKING CONDITIONS

1. General Order 15 (§§ 262.11, 262.12, 262.21 (b), and 262.22 (b); 2 F. R. 2627) is amended by striking out "Commission", wherever it occurs therein, and inserting in lieu thereof "Board".

2. General Order 32 (§§ 262.101 to 262.109; 5 F. R. 2229) is amended by striking out "United States Maritime Commission" and inserting in lieu thereof "Federal Maritime Board"; by striking out "Commission", wherever it occurs therein, and inserting in lieu thereof "Board"; and by striking out in § 262.103 the words "Director of the Division of Maritime Personnel" and the remainder of the section, and by inserting in lieu thereof "the Board will provide for an investigation of the views of all parties whose interests appear affected by the petition and for a report thereof to the Board"; and by striking out in § 262.105 the term "Division of Maritime Personnel", and inserting in lieu thereof "Hearing Examiners' Office".

PART 275—OUTFITTING MATERIALS AND EQUIPMENT FOR CONSTRUCTION—DIFFERENTIAL SUBSIDY VESSELS

1. General Order 37 (§§ 275.1 to 275.4; 6 F. R. 283) is amended by striking out, wherever they occur in §§ 275.1 and 275.2, the terms "Commission" and "Maritime Commission", and inserting in lieu thereof "Federal Maritime Board"; and by striking out, wherever they ocur in § 275.3, the terms "Maritime Commission" and "Commission", and inserting in lieu thereof "Maritime Administration".

PART 276—CONSTRUCTION-DIFFERENTIAL SUBSIDY REPAYMENT WHILE VESSELS NOT OPERATED IN FOREIGN TRADE

1. General Order 50 (§§ 276.1 and 276.2; 7 F. R. 588) is amended by striking out "Commission", wherever it occurs therein, and inserting in lieu thereof "Maritime Administration".

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

*Effective date.* This order shall be effective on the date of publication in the FEDERAL REGISTER.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
*Secretary.*
LOUIS S. ROTHSCHILD,
*Maritime Administrator.*

DECEMBER 22, 1953.

**Subchapter C—Regulations Affecting Subsidized Vessels and Operators**

[Gen. Order 22, Revised, Amdt. 1]

PART 282—UNIFORM SYSTEM OF ACCOUNTS FOR OPERATING-DIFFERENTIAL SUBSIDY CONTRACTORS

GENERAL ORDER OF MARITIME ADMINISTRATOR

It is hereby ordered, that the "proviso clause" appearing in and at the end of paragraph (a) *Uniform system of accounts for operating-differential subsidy contractors* of § 282.00 *General order of Maritime Administrator* (General Order 22, Revised) published in the FEDERAL REGISTER (15 F. R. 7935) is amended to read as follows: "*Provided, however,* That, Supplement No. 1 to General Order No. 22 adopted by the United States Maritime Commission on the eighth day of February 1940, as amended, 'Prescribing Accounting Procedure and Method of Applying Credits in Transactions under section 510 of the Merchant Marine Act, 1936, as amended', originally published in the FEDERAL REGISTER (5 F. R. 647), shall remain in full force and effect."

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Dated: December 21, 1953.

[SEAL] LOUIS S. ROTHSCHILD,
*Maritime Administrator.*

[F. R. Doc. 53-10773; Filed, Dec. 23, 1953; 8:48 a. m.]

---

[Gen Order 22, Supp. 1, Amdt. 1]

PART 282—UNIFORM SYSTEM OF ACCOUNTS FOR OPERATING-DIFFERENTIAL SUBSIDY CONTRACTORS

GENERAL ORDER OF MARITIME ADMINISTRATOR

It is hereby ordered, that item 2 of Supplement 1 to General Order 22 originally published in the FEDERAL REGISTER (5 F. R. 647) and which presently appears in a note to paragraph (a) of § 282.00 *General order of Maritime Administrator* (46 C. F. R. 282.00) be deleted in its entirety and that a new item 2 be inserted in lieu thereof to read as follows:

2. Upon delivery of the "new vessel" to the contractor, the gross cost of such "new vessel" to the contractor, including the price fixed by the purchase contract, plus all interest charged the contractor on advances made by the Administration to the builder during the construction period, and any other charges properly capitalizable in accordance with sound accounting practices and principles, shall be recorded in *Account 331—Floating Equipment—Vessels*, without any deduction for the credit allowed by the Administration for the "obsolete vessel". This gross acquisition cost, together with the cost of subsequent betterments, shall be depreciated on the basis of a twenty (20) year economic life expectancy, except that with respect to a wholly or partially reconstructed or reconditioned vessel the life expectancy of which has been determined to be otherwise jointly by the Secretary of the Treasury and the Administration, depreciation shall be computed on the life expectancy so determined all in accordance with General Order No. 24, Second Revision, as amended (Part 284 of this chapter).

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Dated: December 21, 1953.

[SEAL] LOUIS S. ROTHSCHILD,
*Maritime Administrator.*

[F. R. Doc. 53-10774; Filed, Dec. 28, 1953; 8:48 a. m.]

---

[Gen. Order 24, 2d Rev., Amdt. 1]

PART 284—VALUATION OF VESSELS FOR DETERMINING CAPITAL EMPLOYED AND NET EARNINGS UNDER OPERATING-DIFFERENTIAL SUBSIDY AGREEMENTS

BASIS OF VALUATION

It is hereby ordered, that paragraph (f) *Adjustments for depreciation* of § 284.2 *Basis of valuation* of this part (Gen. Order 24, 2d Rev.), published in the FEDERAL REGISTER (14 F. R. 7589) be deleted in its entirety and that a new paragraph (f) be inserted in lieu thereof to read as follows:

(f) *Adjustments for depreciation.* (1) Adjustments shall be made for depreciation on the basis of a twenty year economic life of the vessel computed from the date of final delivery upon completion of the vessel by the shipbuilder to the first owner thereof, except that with respect to a wholly or partially reconstructed or reconditioned vessel the life expectancy of which has been determined to be otherwise jointly by the Secretary of the Treasury and the Administration, depreciation shall be computed on the life expectancy so determined, and after deducting from the cost of acquisition of the residual value of such vessel, which residual value shall be deemed to be $2\frac{1}{2}$ percent of the original construction cost (meaning the full domestic construction cost insofar as vessels constructed under Title V or Title VII of the Merchant Marine Act, 1936, are concerned): *Provided, however,* That the residual value shall in no event exceed the cost of acquisition to the operator, determined as herein set forth: *And provided further,* That the residual values of "war-built vessels" acquired from the Commission by purchase under section 4 or exchange under section 8 of the Merchant Ship Sales Act of 1946 or with respect to which the prior sales price is adjusted pursuant to section 9 of that act shall be deemed to be $2\frac{1}{2}$ percent of the pre-war domestic cost thereof, as established by the Commission under the Merchant Ship Sales Act of 1946 and published in the FEDERAL REGISTER.

(2) Vessel depreciation shall be written off proportionately for the period between the date of acquisition with respect to which the cost of acquisition is determined pursuant to the provisions of this part and the date when the vessel becomes twenty years of age, except that with respect to a wholly or partially reconstructed or reconditioned vessel the life expectancy of which has been determined to be otherwise jointly by the Secretary of the Treasury and the Administration, depreciation shall be computed on the life expectancy so determined. In the case of a vessel the price of which is adjusted under Section 9 of the Merchant Ship Sales Act of 1946, the date of acquisition shall for the purpose of this paragraph be March 8, 1946, if the vessel was acquired by the operator on or before that date or the date of the original delivery of the vessel to the operator if contracted for prior to but delivered after March 8, 1946. The actual net cost of capitalizable betterments, reconstruction, or reconditioning shall be depreciated proportionately during the period between the end of the month during which such betterments, reconstruction, or reconditioning was completed and the end of the economic life of the vessel.

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Dated: December 21, 1953.

[Gen. Order 31, Amdt. 1]

PART 286—ESTABLISHMENT AND MAINTENANCE OF THE STATUTORY CAPITAL AND SPECIAL RESERVE FUNDS AND FOR THE DETERMINATION OF "CAPITAL NECESSARILY EMPLOYED IN THE BUSINESS" AND "NET EARNINGS"

NET EARNINGS

It is hereby ordered, that subparagraph (2) of paragraph (a) of § 286.3 *Net earnings* (General Order 31) published in the FEDERAL REGISTER (5 F. R. 2352) be deleted in its entirety and that a new subparagraph (2) be inserted in lieu thereof to read as follows:

(2) Insofar as vessels are concerned, depreciation shall be computed in accordance with General Order 24, 2d Revision, as amended, and on the basis of the value at which the vessels are included in "capital necessarily employed".

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Dated: December 21, 1953.

[SEAL] LOUIS S. ROTHSCHILD,
*Maritime Administrator.*

[F. R. Doc. 53-10776; Filed, Dec. 28, 1953; 8:48 a. m.]

[Gen. Order 71, Amdt. 2]

PART 291—DEFINITION OF CAPITAL NECESSARILY EMPLOYED IN THE BUSINESS

DEFINITION OF CAPITAL NECESSARILY EMPLOYED IN THE BUSINESS

It is hereby ordered, that subparagraph (3) *Depreciation* of paragraph (a) *Ship equities* of § 291.5 *Definition of capital necessarily employed in the business*, published in the FEDERAL REGISTER (14 F. R. 7936) be deleted in its entirety and that a new subparagraph (3) *Depreciation* be inserted in lieu thereof to read as follows:

(3) *Depreciation.* From the amount determined pursuant to subparagraph (1) of this paragraph there shall be deducted depreciation accrued for the period beginning with the date of acquisition of the vessel by the contractor and terminating with the beginning of the accounting period, computed on the basis of a 20-year useful life from the date of the delivery of the vessel by the shipyard, or that portion of a 20-year useful life which remains unexpired as of the date of acquisition by the contractor, and from the amount determined pursuant to subparagraph (2) of this paragraph there shall be deducted depreciation computed on the basis of that portion of a 20-year useful life of the vessel which remains unexpired at the end of the month during which the capitalizable items are completed, except that with respect to a wholly or partially reconstructed or reconditioned vessel the life expectancy of which has been determined to be otherwise jointly by the Secretary of the Treasury and the Administration, depreciation of amounts determined pursuant to subparagraphs (1) and (2) of this paragraph shall be computed on the life expectancy so determined. Such depreciation with respect to capital expenditures shall not be deducted in determining "capital necessarily employed in the business" for the accounting period in which falls the date of completion, but depreciation from the end of such month of completion to the beginning of the next accounting period shall be taken into account for the purposes of such succeeding accounting period and all subsequent accounting periods thereafter.

(Sec. 607, 49 Stat. 2005, as amended; 46 U. S. C. 1117)

Dated: December 21, 1953.

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR Parts 81, 86 ]

ESTATE AND GIFT TAXES

NOTICE OF PROPOSED RULE MAKING

Proposed amendment of Regulations 105 and Regulations 108 to conform to section 210 of the Technical Changes Act of 1953, 83d Congress, 1st Session.

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 210 of the Technical Changes Act of 1953 (67 Stat. 624) and sections 1029 and 3791 of the Internal Revenue Code (53 Stat. 157, 467, 26 U. S. C. 1029, 3791).

[SEAL] T. COLEMAN ANDREWS,
*Commissioner of Internal Revenue.*

[Regulations 105 and 108]

PART 81—ESTATE TAX UNDER CHAPTER 3 OF THE INTERNAL REVENUE CODE, AS AMENDED

PART 86—GIFT TAX UNDER CHAPTER 4 OF THE INTERNAL REVENUE CODE, AS AMENDED

In order to conform certain provisions of Regulations 105 (26 CFR, Part 81) relating to estate tax and Regulations 108 (26 CFR, Part 86) relating to gift tax to section 210 of the Technical Changes Act of 1953, such regulations are amended as follows:

PARAGRAPH 1. Section 81.24 (a) (3), as proposed to be amended by notice of proposed rule making published August 5, 1953 (18 F. R. 4599), is further amended by adding at the end thereof the following:

Notwithstanding any other provision of law or of this section, property subject to a power described in § 81.47a (h) shall be considered as property with respect to which the decedent has a general power of appointment created after October 21, 1942, exercisable by deed or will, to the extent it was treated as an interest passing to the decedent as a surviving spouse and not passing to any other person for purposes of section 812 (e) under the rules prescribed in § 81.47a (h) and section 210 of the Technical Changes Act of 1953.

An interest in property will not be so considered unless an election by the decedent as a surviving spouse was filed in the manner prescribed in § 81.47a (h). Upon the filing of such an election, the periods of limitation provided in chapter 3 of the Internal Revenue Code on the making of an assessment and beginning of distraint or proceeding in court for collection shall, with respect to any deficiency and interest thereon resulting from such election, include one year immediately following the date such election is filed, and such assessment and collection may be made notwithstanding any provision of law or rule of law which would otherwise prevent such assessment and collection.

PAR. 2. There is inserted immediately before § 81.47a the following:

SEC. 210. MARITAL DEDUCTION IN CERTAIN CASES WHERE DECEDENT DIED BEFORE APRIL 3, 1948 (TECHNICAL CHANGES ACT OF 1953)

(a) *In general.* In the case of an interest in property passing by will from the decedent, if the surviving spouse is entitled for life to all the income from such property, payable annually or at more frequent intervals, with power in the surviving spouse to use and consume such portion of the property as the surviving spouse may need or desire for her (or his) comfortable support and maintenance, and with no power in any person other than the surviving spouse to appoint any part of such property, then—

(1) The interest so passing shall, for the purposes of subparagraph (A) of section 812 (e) (1) of the Internal Revenue Code, be considered as passing to the surviving spouse; and

(2) No part of the interest so passing shall, for the purposes of subparagraph (B) (1) of section 812 (e) (1) of the Internal Revenue Code, be considered as passing to any person other than the surviving spouse.

Nothing in this subsection shall be construed to permit the same items to be twice deducted.

(b) *Election.* The provisions of subsection (a) shall apply only if the surviving spouse files an election under this section with the Secretary within one year after the date of the enactment of this Act under such regulations as the Secretary shall prescribe. If such election is so filed, the property subject to such power shall, notwithstanding any other provision of law, be considered for purposes of chapters 3 and 4 of the Internal Revenue Code as property as to which the surviving spouse had a general power of appointment exercisable by deed or will. If the surviving spouse has made an election pursuant to this section, the periods of limitation provided in chapters 3 and 4 of the Internal Revenue Code on the making of an assessment and the beginning of distraint or a proceeding in court for collection shall, with respect to any deficiency and interest thereon resulting from such election, include one year immediately following the date such election is filed, and such assessment and collection may be made notwithstanding any provision of law or any rule of law which otherwise would prevent such assessment and collection.

(c) *Interest.* No interest shall be allowed or paid on any overpayment resulting from the application of this section.

(d) *Effective date.* This section shall apply only with respect to estates of decedents dying after December 31, 1947, and on or before the date of the enactment of the Revenue Act of 1948. If refund or credit of any overpayment resulting from the application of subsections (a) and (b) is prevented on the date of the enactment of this Act, or within one year from such date, by

the operation of any law or rule of law (other than section 3760 of the Internal Revenue Code, relating to closing agreements, and other than section 3761 of such code, relating to compromises), refund or credit of such overpayment may, nevertheless, be made or allowed if claim therefor is filed within one year from the date of the enactment of this Act.

PAR. 3. Section 81.47a, as proposed to be amended by notice of proposed rule making published August 5, 1953 (18 F. R. 4599), is further amended as follows:

(A) By striking "(g)" in item (2) of the second paragraph of (a) and substituting "(h)" in lieu thereof.

(B) By substituting a comma in lieu of the word "and" in the second sentence of paragraph (b) (2) and by striking the period at the end of such sentence and adding thereto the following: ", and in the case of certain interests passing by will (whether or not in trust) from decedents dying after December 31, 1947, and on or before April 2, 1948.".

(C) By substituting for the words "and (d)" in the third sentence of paragraph (b) (2) the following: ", (d), and (h)".

(D) By substituting for the words "and (d)" in the first sentence of the second paragraph of (b) (2) the following: ", (d), and (h)".

(E) By inserting at the end thereof the following:

(h) *Certain interests passing by will from decedents dying after December 31, 1947, and on or before April 2, 1948*—(1) *In general.* Under the provisions of section 210 of the Technical Changes Act of 1953, property interests (whether or not in trust) which passed by will from decedents dying after December 31, 1947, and on or before April 2, 1948, shall, if the following conditions are met, be considered for the purposes of section 812 (e) (1) (A) as having passed from the decedent to the surviving spouse and will not be considered for the purposes of section 812 (e) (1) (B) as having passed from the decedent to any person other than the surviving spouse:

(i) The surviving spouse must be entitled for life to all the income from the property;

(ii) Such income must be payable annually or at more frequent intervals;

(iii) The surviving spouse must have the power to use and consume such portion of the property as she (or he) may need or desire for her (or his) comfort, support, and maintenance (or a broader power to use and consume);

(iv) The property must not be subject to a power in any other person to appoint any part thereof to any person other than the surviving spouse; and

(v) The surviving spouse must file an irrevocable election in the manner prescribed in subparagraph (2) of this paragraph.

The interest considered as passing to the surviving spouse under this paragraph shall be the value of the entire property to which the above conditions apply. However, amounts deducted under this paragraph may not be twice deducted from the decedent's gross estate. See § 81.47b (g). The rules prescribed in § 81.47a (c) (in the case of a trust with a power of appointment in the surviving spouse) for determining whether the surviving spouse is entitled for life to all the income from such property, payable annually or at more frequent intervals, shall be applicable in determining whether interests specified in this paragraph meet conditions (i) and (ii) enumerated above.

(2) *Election*—(i) *In general.* The provisions of subparagraph (1) of this paragraph shall apply only if the surviving spouse files an election in accordance with the following requirements: The election shall be in the form of a written statement, in duplicate, addressed to the district director in whose office the decedent's estate tax return was filed, and signed by the surviving spouse. It shall state the name of the decedent, the name and address of the surviving spouse, and shall contain a statement that such spouse elects to have the provisions of section 210 of the Technical Changes Act of 1953 apply. The statement shall specify and describe the property or interests included in the decedent's estate tax return to which the provisions of this paragraph are applicable. Such election must be placed in the mail at such a time that it would normally be received by the district director on or before August 15, 1954.

(ii) *Effect of election.* The exercise of the election referred to herein shall cause the property subject thereto to be treated as property as to which the surviving spouse had a general power of appointment exercisable by deed or will created on the date of death of the decedent. It may also operate to extend the periods of limitation for making an assessment and collecting any deficiency and interest resulting from the election. See § 81.24 (a) (3) and § 86.2 (b) (3) of this chapter.

(3) *Retroactive operation.* Where refund or credit of any overpayment resulting from the application of section 210 is prevented on August 15, 1953, or within one year from such date, by the operation of any law or rule of law (including a judicial determination but not including section 3760, relating to closing agreements, and not including section 3761, relating to compromises) refund or credit of such overpayment may, nevertheless, be made or allowed if claim therefor is filed on or before August 15, 1954. No interest shall be allowed or paid on any overpayment resulting from the application of section 210.

[F. R. Doc. 53-10737; Filed, Dec. 28, 1953; 8:45 a. m.]

PAR. 4. Section 81.47b is amended as follows:

(A) By substituting "(g)" for "(f)" in both the third and fourth sentences of paragraph (a).

(B) By inserting in paragraph (d) immediately at the end of the parenthetical sentence in example (ii) (before the closing parenthesis) the following: "As to cases in which a 'deductible interest' may exist where a life interest is coupled with a power in the case of interests passing by will from decedents dying after December 31, 1947, and on or before April 2, 1948, see paragraph (h) of § 81.47a."

(C) By inserting at the end thereof the following:

(g) *Double deductions disallowed in certain cases where decedent died on or before April 2, 1948.* No interest in property shall be allowed as a deduction under § 81.47a (h) to the extent it was allowed as a deduction under any other section of the Internal Revenue Code.

PAR. 5. Section 86.2 (b) (3), as proposed to be amended by notice of proposed rule making published August 5, 1953 (18 F. R. 4602), is further amended by adding at the end thereof the following:

Notwithstanding any other provision of law or of this section, property subject to a power described in § 81.47a (h) of this chapter, relating to estate tax shall be considered as property with respect to which the donor has a general power of appointment created after October 21, 1942, exercisable by deed or will, to the extent it was treated as an interest passing to the donor as a surviving spouse and not passing to any other person for purposes of section 812 (e) under the rules prescribed in § 81.47a (h) of this chapter and section 210 of the Technical Changes Act of 1953.

An interest in property will not be so treated unless an election by the donor as a surviving spouse was filed in the manner prescribed in § 81.47a (h) of this chapter. Upon the filing of such an election, the periods of limitation provided in chapter 4 of the Internal Revenue Code on the making of an assessment and beginning of distraint or a proceeding in court for collection shall, with respect to any deficiency and interest thereon resulting from such election, include one year immediately following the date such election is filed, and such assessment and collection may be made notwithstanding any provision of law or rule of law which would otherwise prevent such assessment and collection.

[F. R. Doc. 53-10737; Filed, Dec. 28, 1953; 8:45 a. m.]

# NOTICES

## DEPARTMENT OF THE TREASURY

### Bureau of Customs

[472.733]

FOOTWEAR WITH FIBER UPPERS AND COMPOSITION SOLES

PROSPECTIVE TARIFF CLASSIFICATION

DECEMBER 22, 1953.

It appears that footwear with raffia or sisal uppers and rubber-like composition soles, including so-called plastic and neolite-type soles, is properly classifiable under paragraph 1530 (e), Tariff Act of 1930, as modified, as footwear with uppers composed wholly or in chief value of vegetable fiber other than cotton with soles composed wholly or in chief value of india rubber or substitutes for rubber at the rate of 35 percent ad valorem on the American selling price. This is a rate of duty higher than that heretofore assessed under an established and uniform practice.

Pursuant to § 16.10a (d), Customs Regulations (19 CFR 16.10a (d)), notice is hereby given that the existing practice of classifying such merchandise under paragraph 1530 (e), as footwear with soles wholly or in chief value of materials other than india rubber, leather, or substitutes for rubber is under review in the Bureau.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of such footwear which are submitted in writing to the Bureau of Customs, Washington 25, D. C. To assure consideration, such communications must be received in the Bureau not later than 30 days from the date of this publication. No hearings will be held.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

ALASKA

NOTICE OF FILING OF PLAT OF SURVEY

EDITORIAL NOTE: A telegram was received by the Federal Register Division on December 21, 1953, from the Acting Manager, Fairbanks Land Office, stating that in Federal Register Document 53-10476, published on page 8462 of the issue for Thursday, December 17, 1953 the third paragraph should read:

Of the land described Section 18 and 19 and Lots 3, 4, 5, and 6 and the SW¼ of Section 20 are withdrawn by Public Land Order No. 386 of July 31, 1947, "for classification and survey". (Tok Junction Reserve.)

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration, Commodity Credit Corporation

GRAINS AND RELATED COMMODITIES

NOTICE OF FINAL DATE OF REDEMPTION UNDER WAREHOUSE-STORAGE LOANS MADE UNDER 1953 PRICE SUPPORT PROGRAMS

Unless earlier demand is made by CCC, warehouse-storage loans under 1953 Price Support Programs on the agricultural commodities designated in the table below mature and are due and payable on the dates indicated. Unless such loans are repaid on or before the final date for repayment specified below, or the producer notifies in writing either the PMA county committee or the PMA commodity office serving the area that the funds have been placed in the mail, CCC will purchase the commodities pursuant to the provisions of the note and loan agreement at the higher of (1) the loan value plus interest and charges or (2) the market value as determined by the appropriate PMA commodity office as of the close of the market on the final date for repayment. In the event such market value is in excess of the loan value plus interest and charges, the excess amount will be paid to the producer by the appropriate PMA commodity office.

Notwithstanding the foregoing provisions, if there is fraud or false representation by the producer in connection with the loan the purchase price applicable to such purchase by CCC shall be the market value only.

| Commodity | Maturity date | Final date for repayment |
|---|---|---|
| Winter cover crop seed | Jan. 31, 1954 | Feb. 1, 1954 |
| Flaxseed in Arizona and California | do | Do. |
| Dry edible beans in Michigan and New York | Feb. 28, 1954 | Mar. 1, 1954 |
| Grain sorghums | Mar. 31, 1954 | Mar. 31, 1954 |
| Wheat | Apr. 30, 1954 | Apr. 30, 1954 |
| Oats | do | Do. |
| Barley | do | Do. |
| Rye | do | Do. |
| Flaxseed except in Arizona and California | do | Do. |
| Dry edible beans except in Michigan and New York | do | Do. |
| Rice | do | Do. |
| Soybeans | May 31, 1954 | June 1, 1954 |
| Corn | July 31, 1954 | July 31, 1954 |

## FEDERAL POWER COMMISSION

[Docket No. G-2260]

COLORADO INTERSTATE GAS CO.

ORDER GRANTING REHEARING AND FIXING DATE OF ORAL ARGUMENT

On November 20, 1953, Colorado Interstate Gas Company (Colorado) filed an application for rehearing, pursuant to section 19 (a) of the Natural Gas Act (act), of the order of the Commission issued October 26, 1953, suspending, pursuant to section 4 of the act, certain proposed contracts with Public Service Company of Colorado and with the City of Colorado Springs, Colorado.

The order issued October 26, 1953, states that the filing appears to effect changes in the rates, classification, practices, terms and conditions of the service rendered by Colorado under its FPC Gas Tariff, Original Volume No. 1; and that the changes proposed by Colorado have not been shown to be lawful.

In its application for rehearing, Colorado alleges that the Commission has no authority to suspend the filing on the grounds that the contracts do not involve sales for resale and therefore are beyond the jurisdiction of the Commission; and that even if sales for resale are involved under such contracts they are sales for resale for industrial use only, and not subject to suspension pursuant to the provisions of section 4 (e) of the act.

In addition, Colorado requested a stay of the Commission's order issued October 26, 1953.

The Commission finds:

(1) It is necessary and appropriate to carry out the provisions of the Natural Gas Act to grant rehearing for the purpose of hearing oral argument as hereinafter ordered.

(2) The motion for stay of the order issued October 26, 1953 should be denied.

The Commission orders:

(A) The application filed on November 20, 1953, for rehearing of the order issued October 26, 1953, be and the same is hereby granted for the purpose of hearing oral argument on said application for rehearing.

(B) Oral argument be held before the Commission, commencing on January 12, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters and issues raised by the application for rehearing.

(C) Inasmuch as the proceeding at Docket No. G-2260, which includes the instant filing, has been set for January 12, 1954, the remainder of the proceeding at Docket No. G-2260 shall commence at the conclusion of the oral argument or as otherwise ordered by the Presiding Examiner.

(D) Parties who intend to participate in the oral argument shall inform the Secretary on or before December 31, 1953, of the time requested for presentation of their argument.

(E) The motion for stay of the order issued October 26, 1953, be and the same is hereby denied.

(F) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: December 16, 1953.

Issued: December 22, 1953.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10740; Filed, Dec. 28, 1953; 8:46 a. m.]

[Docket Nos. G-2306, G-2311, G-2327, G-2328]

AMERICAN LOUISIANA PIPE LINE CO. ET AL.

NOTICE OF APPLICATIONS

DECEMBER 22, 1953.

In the matters of American Louisiana Pipe Line Company, Docket No. G-2306; Texas Gas Transmission Corporation, Docket No. G-2311; Michigan Wisconsin Pipe Line Company, Docket No. G-2327; Michigan Consolidated Gas Company, Docket No. G-2328.

Take notice that there have been filed with the Federal Power Commission by the persons and on the dates hereinafter designated several interdependent applications each for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the individual applicant to construct and operate certain natural gas facilities hereinafter described, all as more fully described in the respective interdependent applications.

American Louisiana Pipe Line Company (American Louisiana), a Delaware corporation having its principal place of business in Detroit, Michigan, by its interdependent application filed in Docket No. G-2306 on November 10, 1953, requests a certificate of public convenience and necessity authorizing the construction and operation of a 30-inch and 22-inch transmission pipeline system approximately 1,121 miles in length, three compressor stations of 10,000 horsepower each, and other appurtenant equipment and facilities. The 30-inch portion of the pipeline will extend from North Tepetate, Acadia Parish, Louisiana to a point of connection with the facilities of Michigan Consolidated Gas Company near Detroit, Michigan. The 22-inch portion of the pipeline will extend from a point on American Louisiana's proposed 30-inch pipeline near Payne, Ohio, to a point of connection with the facilities of Michigan Wisconsin Pipe Line Company near Bridgman, Michigan. Near Slaughters, Kentucky, American Louisiana's proposed line will be connected with the pipeline of Texas Gas Transmission Corporation, from which American Louisiana proposes to purchase an average of 51,000 Mcf of natural gas per day. American Louisiana proposes, also, to construct two 24-inch pipelines extending from Krotz Springs, St. Landry Parish, Louisiana, and Lowry, Cameron Parish, Louisiana, to a junction point at North Tepetate, Acadia Parish, Louisiana, approximately 47.1 miles and 34.8 miles respectively.

The proposed pipeline system will have an initial capacity of approximately 300,000 Mcf per day, and American Louisiana proposes to purchase an average daily volume of 255,700 Mcf from various fields in southern Louisiana, and an average daily volume of 51,000 Mcf from Texas Gas Transmission Corporation. American Louisiana proposes to make available the natural gas to all the markets served by the American Natural Gas Company system, of which system American Louisiana is a subsidiary.

The estimated cost of construction of the facilities proposed in Docket No. G-2306 is $130,000,000 and American Louisiana proposes to finance the construction thereof by issuing $97,500,000 principal amount of 4½ percent First Mortgage Bonds, $12,000,000 principal amount of Interim Notes convertible to Preferred Stock at the option of American Louisiana with interest or dividend rate of 5½ percent, and $20,500,000 of Common Stock of $100 par value per share.

Simultaneously with the filing of American Louisiana's application, Texas Gas Transmission Corporation (Texas Gas), a Delaware corporation having its principal place of business in Owensboro, Kentucky, on November 10, 1953, filed in Docket No. G-2311 its interdependent application (necessary and proper to the completion of American Louisiana's application) for a certificate of public convenience and necessity authorizing the construction and operation of: Approximately 48.20 miles of 26-inch pipeline, in segments of various mileage, to loop presently unlooped portions of Texas Gas present pipeline system between its Lake Cormorant (6) compressor station in Mississippi, and its Slaughters (10) compressor station in Kentucky; one additional 1,500 compressor engine to be installed at Covington (No. 7) compressor station in Kentucky; and a sales meter station near Slaughters, Kentucky, for the proposed sale of natural gas to American Louisiana.

The estimated cost of construction of the facilities proposed in Docket No. G-2311 is $4,281,135, and Texas Gas proposes to finance the construction thereof from cash on hand and through a term bank loan.

Michigan Wisconsin Pipe Line Company (Michigan Wisconsin), a Delaware corporation having its principal place of business in Detroit, Michigan, on December 9, 1953, filed in Docket No. G-2327 its interdependent application (necessary and proper to the completion of the applications filed in Docket Nos. G-2306 and G-2311) for a certificate of public convenience and necessity authorizing the construction and operation of: Approximately 251.9 miles of 24-inch, 18-inch, 12-inch, 6-inch, and 4-inch pipeline loops, and 3,400 additional horsepower at existing compressor stations, principally in Illinois.

Michigan Wisconsin proposes to purchase approximately 100,000 Mcf of natural gas per day from American Louisiana to meet the present and future requirements of the markets which it serves.

The estimated cost of construction of the facilities proposed in Docket No. G-2327 is $11,435,000, and Michigan Wisconsin proposes to finance the construction thereof by issuing $6,500,000 principal amount of 4 percent First Mortgage Bonds and from cash on hand.

Michigan Consolidated Gas Company (Michigan Consolidated), a Michigan corporation having its principal place of business in Detroit, Michigan, on December 9, 1953, filed in Docket No. G-2328 its interdependent application (the remaining interdependent application necessary and proper to the completion of the applications filed in Docket Nos. G-2306, G-2311 and G-2327) for a certificate of public convenience and necessity authoritzing the construction and operation of: Facilities and appurtenances necessary in conjunction with the operation of the Six Lakes Field, located in Mecosta and Montcalm Counties in Michigan, as a storage field including a proposed compressor station in the field with approximately 32,000 horsepower; a station to receive approximately 200,000 Mcf of natural gas per day at the point of connection between its facilities and the proposed facilities of American Louisiana near Detroit, Michigan; and approximately 25.5 miles of 12-inch pipeline from a point of connection with the facilities of Michigan Wisconsin near Sparta, Michigan, to City of Muskegon, Michigan.

Michigan Consolidated estimates that the Six Lakes Field, when fully developed, will have a total storage capacity of approximately 66,000,000 Mcf and a working storage capacity of approximately 53,000,000 Mcf.

The estimated cost of the facilities proposed in Docket No. G-2328, is $12,745,900, and Michigan Consolidated proposes to finance the construction thereof from general annual construction budgets over a four-year period.

Protests or petitions to intervene in any of the above designated matters may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 11th day of January 1954.

The foregoing applications are on file with the Commission and open to public inspection.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

[F. R. Doc. 53-10738; Filed, Dec. 28, 1953; 8:46 a. m.]

[Project No. 2145]

PUBLIC UTILITY DISTRICT NO. 1 OF CHELAN COUNTY, WASHINGTON

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

DECEMBER 22, 1953.

Public notice is hereby given that Public Utility District No. 1 of Chelan County, Washington, having its office and principal place of business at Wenatchee, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for preliminary permit for proposed water-power Project No. 2145 to be located on Columbia River in Chelan and Douglas Counties, Washington, and consisting of a concrete gravity dam having a spillway section 1,192 feet long, an intake and powerhouse section integral with the dam 1,390 feet long and an earth-fill section creating a reservoir with pool at normal elevation 699 extending 41 miles upstream; a fish ladder on each bank of the stream and provision for future navigation locks; a powerhouse with an initial installation of nine units, each turbine rated at 106,000 horsepower and direct-connected to a generator rated at 65,000 kilowatts at 83 feet gross head and provisions for an ultimate installation of 14 units; a switchyard; and appurtenant facilities. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 28th day of January 1954. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

## HOUSING AND HOME FINANCE AGENCY

COMMISSIONER, COMMUNITY FACILITIES AND SPECIAL OPERATIONS

DELEGATION OF AUTHORITY WITH RESPECT TO PERFORMANCE OF CERTAIN FUNCTIONS IN CONNECTION WITH APPROVED DEFENSE COMMUNITY FACILITIES PROJECTS

1. The Commissioner, Community Facilities and Special Operations (hereinafter called "Commissioner"), is hereby authorized to take the following actions, on behalf of the Housing and Home Finance Administrator (hereinafter called "Administrator"), in connection with defense community facilities projects to be financed in whole or in part by the Housing and Home Finance Agency under the authority of Public Law 139, 82d Congress (Defense Housing and Community Facilities and Services Act of 1951, approved September 1, 1951, 42 U. S. C., 1946 ed. Sup. V 1591-1592o), as amended, or as it may be amended (hereinafter called the "Act"):

a. Waive compliance with special conditions in any contracts (including amendatory, supplementary and superseding contracts) with public and nonprofit agencies, entered into under the authority of the Act for the financing of defense community facilities projects, where it is determined that the Government's interests will not thereby be jeopardized, and authorize payments under any such contracts;

b. Decrease the amount of any grant allotment, provided, however, that no major change in project scope is involved;

c. Approve changes in project financing involving increases in the amount of financial participation by the applicant;

d. Take all other actions requisite or needed in the administration of the program authorized under the Act with respect to the financing of defense community facilities projects, except the approval of proposed projects, the allocation of loan and grant funds therefor, and any actions which would result in an increase in the approved total project cost or in allocated loan or grant funds respectively, or in a major change in project scope; and

e. Redelegate any of the authority herein delegated to such officers and employees of the Office of the Administrator as he may select.

2. This delegation of authority is not intended to revoke, repeal or supersede in any way the delegation, effective May 1, 1952, to Regional Representatives, of authority to take various actions in connection with defense community facilities projects, which was published at 17 F. R. 4469 (May 15, 1952).

(Reorg. Plan No. 3 of 1947, 61 Stat. 954; 65 Stat. 293, 305 (1951), as amended, 42 U. S. C., 1946 ed. Sup. V 1591-1592o; E. O. No. 10296, 16 F. R. 10103, 6 (October 4, 1951); 62 Stat. 1268, 1283-85 (1948), as amended, 12 U. S. C., 1946 ed. Sup. V 1701c; 63 Stat. 413, 440 (1949), 12 U. S. C., 1946 ed. Sup. V 1701d-1)

Effective this 29th day of December 1953.

ALBERT M. COLE,
*Housing and Home Finance Administrator.*

[F. R. Doc. 53-10753; Filed, Dec. 28, 1953; 8:47 a. m.]

REGIONAL REPRESENTATIVES, REGION II (ATLANTA), REGION III (CHICAGO), AND REGION V (SAN FRANCISCO)

DELEGATION OF AUTHORITY TO PERFORM FUNCTIONS IN CONNECTION WITH DEFENSE HOUSING AUTHORIZED UNDER HHFA REGULATION CR 2

1. The Regional Representative of Region II (Atlanta), Region III (Chicago), and Region V (San Francisco), Office of the Administrator, Housing and Home Finance Agency, each is hereby authorized in his respective region to take any action which it is necessary or appropriate for the Housing and Home Finance Administrator to take in the administration of HHFA Regulation CR 2, as amended February 27, 1952 (17 F. R. 1721), or as hereinafter amended, with respect to releasing applicants or their successors from their obligations under CR 2:

(a) to hold for rent structures containing one-family or two-family dwelling units, and

(b) to exclusively offer dwelling units to eligible defense workers.

2. The Regional Representative of such Region II, Region III, and Region V, each is hereby further authorized to redelegate the authority delegated under the foregoing section numbered 1 to one or more officers or employees under his administrative jurisdiction.

3. This delegation supersedes the delegation of authority effective August 14, 1952 (17 F. R. 7401), to Special Representatives McClellan Ratchford, John McCollum, and Lindley R. Durkee or his designee, with respect to the administration of HHFA Regulation CR 2, which delegation is hereby revoked.

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U. S. C., 1946 ed. Sup V 1701 c; 64 Stat. 812–822 (1950), 50 U. S. C. App., 1946 ed. Sup V 2131; 65 Stat. 392 (1951), 42 U. S. C. Sup V 1591; secs. 501, 502 and 902 E. O. 10161, Sept. 9, 1950, 15 F. R. 6176; paragraph 3, E. O. 10296, Oct. 2, 1951, 16 F. R. 10103; HHFA CR 1, March 6, 1951, 16 F. R. 2231)

Effective as of the 29th day of December 1953.

ALBERT M. COLE,
*Housing and Home Finance Administrator.*

[F. R. Doc. 53-10754; Filed, Dec. 28, 1953; 8:47 a. m.]

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28771]

CAST IRON PIPE FROM LONE STAR, TEXAS TO POINTS IN TEXAS

APPLICATION FOR RELIEF

DECEMBER 23, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Agent, for the Kansas City Southern Railway Company, Louisiana & Arkansas Railway Company, and Texas & Northern Railway Company.

Commodities involved: Cast iron pipe and fittings, carloads.

From: Lone Star, Texas.

To: Specified points in Texas.

Grounds for relief: Competition with rail carriers, circuitous routes, and to meet intrastate rates.

Schedules field containing proposed rates: Lee Douglass, Agent, I. C. C. No. 807, supp. 34.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

[F. R. Doc. 53-10746; Filed, Dec. 28, 1953; 8:46 a. m.]

[4th Sec. Application 28772]

WOODPULP FROM KRANNERT, GA., TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

DECEMBER 23, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Woodpulp, in carloads.

From: Krannert, Ga.

To: Points in official and Illinois Territories.

Grounds for relief: Rail competition, circuity to apply rates constructed on the basis of the short line distance formula, and additional origin.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1260, supp. 52.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

[F. R. Doc. 53-10747; Filed, Dec. 28, 1953; 8:46 a. m.]

[4th Sec. Application 28775]

WHOLE CORN AND RELATED ARTICLES FROM IOWA AND MINNESOTA TO POINTS IN WESTERN TRUNK-LINE TERRITORY

APPLICATION FOR RELIEF

DECEMBER 23, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Whole corn and articles taking same rates, carloads.

From: Points in Iowa and Minnesota.

To: Points in western trunk-line territory.

Grounds for relief: Rail competition, circuity.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3306, supp. 94.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

## OFFICE OF DEFENSE MOBILIZATION

[ODM (DPA) Request No. 1—DPAV 2 (d)]

PLAN AND REGULATIONS OF THE ARMY ORDNANCE INTEGRATION COMMITTEE ON OPTICAL FIRE CONTROL

NOTICE OF WITHDRAWAL OF REQUEST TO PARTICIPATE

The Army Ordnance Integration Committee on Optical Fire Control formed pursuant to section 708 of the Defense Production Act of 1950, as amended, has been dissolved and accordingly the request published in 16 F. R. 1965 on March 3, 1951, to participate in the formation and activities of that Committee in accordance with the Voluntary Plan entitled "Plan and Regulations of Ordnance Corps Governing Optical Fire Control Integration Committee" transmitted and accepted by those companies listed in the FEDERAL REGISTER (16 F. R. 1965, 16 F. R. 3315, 16 F. R. 6806, 17 F. R. 8754), has been withdrawn.

The immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act heretofore granted to those companies has been likewise withdrawn, except as to those acts performed or omitted by reason of the request which occurred prior to that withdrawal.

(Sec. 708, 67 Stat. 129, Pub. Law 95 82d Cong., E. O. 10480, August 14, 1953, 18 F. R. 4929)

Dated: December 23, 1953.

ARTHUR S. FLEMMING,

*Washington, Wednesday, December 30, 1953*

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3040

SUPPLEMENTING PROCLAMATIONS No. 2867 [1] OF DECEMBER 22, 1949, AND No. 2764 [2] OF JANUARY 1, 1948, RELATING TO TRADE AGREEMENTS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

1. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930 as amended by section 1 of the act of June 12, 1934, by the joint resolution approved June 7, 1943, by sections 2 and 3 of the act of July 5, 1945 (ch. 474, 48 Stat. 943, ch. 118, 57 Stat. 125, ch. 269, 59 Stat. 410 and 411), and by sections 4 and 6 of the Trade Agreements Extension Act of 1949 (ch. 585, 63 Stat. 698), the period for the exercise of the said authority having been extended by section 3 of the Trade Agreements Extension Act of 1949 until the expiration of three years from June 12, 1948, on October 10, 1949 he entered into a trade agreement providing for the accession to the General Agreement on Tariffs and Trade (61 Stat. (pts. 5 and 6) A7, A11 and A2051) of the Governments of the Kingdom of Denmark, the Dominican Republic, the Republic of Finland, the Kingdom of Greece, the Republic of Haiti, the Republic of Italy, the Republic of Liberia, the Republic of Nicaragua, the Kingdom of Sweden, and the Oriental Republic of Uruguay, which trade agreement for accession consists of the Annecy Protocol of Terms of Accession to the General Agreement on Tariffs and Trade, dated October 10, 1949, including the annexes thereto (64 Stat. (pt. 3) B139);

2. WHEREAS, by Proclamation 2867 of December 22, 1949 (64 Stat. (pt. 2) A380), the President proclaimed such modifications of existing duties and the other import restrictions of the United States of America and such continuance of existing customs or excise treatment of articles imported into the United States of America as were then found to be required or appropriate to carry out the said trade agreement for accession on and after January 1, 1950, which proclamation has been supplemented by Proclamation No. 2874 of March 1, 1950, Proclamation No. 2884 of April 27, 1950, and Proclamation No. 2888 of May 13, 1950 (64 Stat. (pt. 2) A390, A399, and A405).

3. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930 as amended by the acts specified in the first recital of this proclamation except the Trade Agreements Extension Act of 1949, the period for the exercise of the authority under the said section 350 having been extended by section 1 of the said Act of July 5, 1945 (ch. 269, 59 Stat. 410), until the expiration of three years from June 12, 1945, on October 30, 1947 he entered into an exclusive trade agreement with the Government of the Republic of Cuba (61 Stat. (pt. 4) 3699), which exclusive trade agreement includes certain portions of other documents made a part thereof and provides for the customs treatment in respect of ordinary customs duties of products of the Republic of Cuba imported into the United States of America;

4. WHEREAS, by Proclamation No. 2764 of January 1, 1948 (62 Stat. (pt. 2) 1465), the President proclaimed such modifications of existing duties and other import restrictions of the United States of America in respect of products of the Republic of Cuba and such continuance of existing customs and excise treatment of products of the Republic of Cuba imported into the United States of America as were then found to be required or appropriate to carry out the said exclusive trade agreement on and after January 1, 1948, which proclamation has been supplemented by the proclamations referred to in the fourth recital of the said proclamation of December 22, 1949 specified in the second recital of this proclamation, and by the said proclamations of December 22, 1949, March 1, 1950, April 27, 1950 and May

(Continued on p. 8817)

13, 1950, specified in the second recital of this proclamation;

5. WHEREAS the trade agreement for accession specified in the first recital of this proclamation, the date for the signature of which by the Government of the Oriental Republic of Uruguay was extended until December 31, 1953, has been signed by the said Government under such circumstances that it will enter into force for such Government, and such Government will become a contracting party to the said general agreement, on December 16, 1953;

6. WHEREAS I determine that the application of each of the concessions provided for in Part I of Schedule XX in Annex A of the said trade agreement for accession which were withheld from application in accordance with paragraph 4 of the said trade agreement for accession by the said proclamation of December 22, 1949, as are identified in the following list is required or appropriate to carry out, on and after December 16, 1953, the said trade agreement for accession:

| Item (paragraph): | *Rates of duty* |
|---|---|
| 19 | 23½¢ per lb. |
| 1530 (a) | 4¢ ad val. |
| 1603 | Free. |
| 1625 | Free. |
| 1627 | Free. |
| 1780 | Free. |

7. WHEREAS serious problems which have developed in the cattle and beef situation in the United States since negotiation of the said trade agreement for accession render inappropriate the application to the products specified in items 705 and 706 in Part I of Schedule XX in Annex A of the said trade agreement for accession of rates of duty lower than those now applicable thereto;

8. WHEREAS I determine that, in view of the circumstances set forth in the seventh recital of this proclamation, it is required or appropriate, in order to carry out the said trade agreement for accession as fully as possible while such circumstances exist, that the provisions of Items 705 and 706 in Part I of Schedule XX in Annex A of the said trade agreement for accession, which were withheld from application in accordance with paragraph 4 of the said trade agreement for accession by the said proclamation of December 22, 1949, be applied as though they were stated as follows:

| Tariff Act of 1930, paragraph | Description of products | Rate of duty |
|---|---|---|
| 705 | Extract of meat, including fluid. | 7½¢ per lb. |
| 706 | Meats, prepared or preserved, not specially provided for (except meat pastes, other than liver pastes, packed in air-tight containers weighing with their contents not more than 3 ounces each): | |
| | Beef packed in air-tight containers. | 3¢ per lb., but not less than 20% ad val. |
| | Other | 3¢ per lb., but not less than 20% ad val. |

9. WHEREAS I determine that, in view of the determination set forth in the sixth recital of this proclamation, the deletion of Item 1530 (a) from the list set forth in the ninth recital of the said proclamation of January 1, 1948, as amended and rectified, is required or appropriate to carry out, on and after December 16, 1953, the said exclusive trade agreement specified in the third recital of this proclamation:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including the said section 350 of the Tariff Act of 1930, as amended, do proclaim as follows:

PART I

To the end that the said trade agreement for accession specified in the first recital of this proclamation may be carried out as fully as possible, the identification of each of the concessions provided for in Part I of the said Schedule XX in Annex A which is specified in the sixth or eighth recital of this proclamation shall, on and after December 16, 1953, be included in the list set forth in the ninth recital of the said proclamation of December 22, 1949, as supplemented; *Provided*, That, unless and until the President proclaims that the circumstances set forth in the seventh recital of this proclamation no longer exist, the provisions of Items 705 and 706 in the said Part I shall be applied as though they were stated in the manner set forth in the eighth recital of this proclamation.

PART II

To the end that the said exclusive trade agreement specified in the third recital of this proclamation may be carried out, the list set forth in the ninth recital of the said proclamation of January 1, 1948, as amended and rectified, shall, on and after December 16, 1953, be further amended by deleting therefrom Item 1530 (a) referred to in the ninth recital of this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 24th day of December, in the year of our Lord nineteen hundred and [SEAL] fifty-three, and of the Independence of the United States of America the one hundred and seventy-eighth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
*Secretary of State.*

[F. R. Doc. 53-10850; Filed, Dec. 28, 1953; 3:52 p. m.]

# RULES AND REGULATIONS

## TITLE 7—AGRICULTURE

### Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

**Subchapter B—Sugar Requirements and Quotas**

[Sugar Reg. 814.20, Amdt. 2]

PART 814—ALLOTMENT OF SUGAR QUOTAS

MAINLAND CANE SUGAR AREA, 1953

*Basis and purpose.* This amendment is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of further revising Sugar Regulation 814.20 (18 F. R. 5289, 7842) which allots the 1953 sugar quota for the mainland cane sugar area.

This further revision of Sugar Regulation 814.20 is necessary to prorate quantities released by some allottees to other allottees. On June 23, 1953, a hearing was held in New Orleans, Louisiana, for the purpose of receiving evidence to enable the Secretary to make a fair, efficient, and equitable distribution of the 1953 sugar quotas for the mainland cane sugar area. All allottees have waived their right to a further hearing for the purpose of reallotting to other allottees any quantities released by one or more allottees provided the revised allotments were made on the same basis as the original allotments.

The revised allotments in the amounts set forth in this order are established on the same basis as those in the initial order, and afford a fair, efficient and equitable distribution of the quota, as required by section 205 (a) of the act.

Because of the limited time remaining in the quota year to which the allotments apply it is imperative that this amendment become effective at the earliest possible date in order to permit continued orderly marketing of sugar. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and consequently this order shall be effective when filed with the FEDERAL REGISTER.

Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, paragraph (a) of § 814.20 is hereby amended to read as follows:

§ 814.20 *Allotment of the 1953 sugar quota for the mainland cane sugar area—*(a) *Allotments.* The 1953 sugar quota for the mainland cane sugar area is hereby allotted to the following processors in amounts which appear opposite their respective names:

[Short tons, raw value]

Done at Washington, D. C., this 24th day of December 1953. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10810; Filed, Dec. 29, 1953; 8:53 a. m.]

**Subchapter I—Determination of Prices**

[Sugar Determination 878.6]

PART 878—SUGARCANE: VIRGIN ISLANDS

1954 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948, as amended, (herein referred to as "act"), after investigation, and due consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 26, 1953, the following determination is hereby issued:

§ 878.6 *Fair and reasonable prices for the 1954 crop of Virgin Islands sugarcane.* A producer of sugarcane in the Virgin Islands who processes sugarcane purchased from other producers (hereinafter referred to as "processor"), shall be deemed to have complied with the provisions of section 301 (c) (2) of the act with respect to the 1954 crop, if he pays or contracts to pay for such sugarcane in accordance with the following requirements:

(a) *Definitions.* For the purpose of this determination, the term:

(1) "Raw sugar" means 96° raw sugar.

(2) "Settlement period" means the two-week period in which sugarcane is delivered by the producer to the processor. The first such period shall start on Monday of the week grinding commences and successive periods shall start at two-week intervals thereafter.

(3) "Average price of raw sugar" means the simple average of the daily spot quotations of raw sugar of the New York Coffee and Sugar Exchange (domestic contract), adjusted to a duty paid basis by adding to each daily quotation the United States duty prevailing on Cuban raw sugar on that day, for the period on which settlement is based, except that, if the Director of the Sugar Branch determines that for any such period such average price does not reflect the true market value of raw sugar because of inadequate volume or other factors, the Director may designate the average price to be effective under this determination.

(4) "F. o. b. mill price" means the average price of raw sugar minus selling and delivery expenses (converted to a pound unit) actually incurred by the processor in the marketing of 1954 crop raw sugar (other than bags or storage in company warehouses).

(5) "Yield of raw sugar" means the yield of raw sugar per 100 pounds of sugarcane determined for each settlement period in accordance with the following procedure:

(i) A representative sample of not less than six stalks of sugarcane shall be taken from each producer's truckload or partial load and the juice extracted by a laboratory power mill. Correlating factors based on experience shall be established not less than twice weekly between the laboratory mill juice and the factory crusher juice brix and sucrose, respectively. These correlating factors then shall be applied to the laboratory mill analysis of brix and sucrose to bring the laboratory mill analysis to the equivalent of factory crusher juice analysis.

(ii) Application shall then be made of the formula,

$$R = (S - 0.3B)F$$

in which:

$R$ = Recoverable sugar yield, 96° polarization.

$S$ = Polarization of the crusher juice obtained from the sugarcane of each producer.

$B$ = Brix of the crusher juice obtained from the sugarcane of each producer.

$F$ = Factor obtained from the fraction whose numerator is the average yield of sugar, 96° polarization, obtained from the aggregate grinding during each settlement period in which the sugarcane of the producer has been ground and whose denominator is the average polarization of the crusher juice minus three-tenths of the brix of the crusher juice, both components of the denominator being obtained from the aggregate grinding during the settlement period in which the sugarcane of the producer has been ground.

(b) *Basic payment.* The processor shall pay, or contract to pay, the producer for sugarcane delivered during a settlement period the f. o. b. mill price of that portion of the raw sugar determined by applying the following applicable percentage to the yield of raw sugar from the producer's sugarcane:

| Yield of raw sugar per 100 pounds of sugarcane (pounds): | Percentage |
|---|---|
| 6.0 | 59.0 |
| 7.0 | 60.0 |
| 8.0 | 61.0 |
| 9.0 | 62.0 |
| 10.0 | 63.0 |
| 11.0 | 64.0 |
| 12.0 | 65.0 |

Intermediate points within the scale are to be interpolated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(c) *Molasses payment.* The processor shall pay the producer for each 100 pounds of sugarcane delivered an amount computed by applying the following applicable percentage to the net proceeds derived from the sale of blackstrap molasses produced per 100 pounds of sugarcane for the 1954 crop:

| Yield of raw sugar per 100 pounds of sugarcane (pounds): | Percentage |
|---|---|
| 6.0 | 86.0 |
| 7.0 | 80.0 |
| 8.0 | 74.0 |
| 9.0 | 68.0 |
| 10.0 | 62.0 |
| 11.0 | 56.0 |
| 12.0 | 50.0 |

Intermediate points within the scale are to be interpolated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(d) *Transportation allowances to producers.* Allowances made to producers by the processor for the transportation, when performed by the producers, of 1954 crop sugarcane shall be not less than such allowances made with respect to the 1953 crop. With respect to sugarcane transported by the processor at the request of the producer, such allowance shall be as agreed upon.

(e) *Reporting requirement.* The processor shall submit in duplicate to the Caribbean Area Office of the Production and Marketing Administration, San Juan, Puerto Rico, a certified statement of the actual deductions made in determining the f. o. b. mill price of raw sugar and the net proceeds from blackstrap molasses.

(f) *Subterfuge.* The processor shall not reduce returns to the producer below those determined herein through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable prices to be paid by a processor for sugarcane of the 1954 crop purchased from producers. It prescribes the minimum requirements with respect to prices for sugarcane which must be met as one of the conditions for payment under the act.

(b) *Requirements of the act.* In determining fair and reasonable prices, the act requires that a public hearing be held and investigations be made. Accordingly, on October 26, 1953, a public hearing was held in Christiansted, St. Croix, Virgin Islands, at which time interested parties presented testimony with respect to fair and reasonable prices for the 1954 crop of sugarcane. In addition, investigations have been made of conditions relating to the sugar industry in the Virgin Islands. In this price determination, consideration has been given to testimony presented at the hearing and to information resulting from investigations.

(c) *1954 price determination.* The 1954 price determination is the same as that for 1953 except that provision is made for allowances to producers by the processor for the transportation of sugarcane.

At the public hearing, testimony with respect to fair prices was submitted by one representative of the processor and one representative of the producers. The representative of the Virgin Islands Corporation, which is the only processor of sugarcane in the area, recommended that no change be made in the sharing provisions of the determination. However, evidence was submitted to show that while the Corporation was willing to continue paying the transportation allowance on producers' cane they did not want to continue hauling such cane in Corporation trucks. Data were presented showing that the net cost to the Corporation for transporting producers' cane in Corporation trucks was $1.27 per ton, compared with 61 cents per ton when cane was transported in trucks owned or hired by producers. The Corporation recommended that producers be responsible for providing transportation facilities and that they be given an allowance of 50 percent of the established trucking rates. A representative of producers recommended that with respect to cane hauled by producers the determination provide for the processor to pay 50 percent of the cost of transporting producers' sugarcane in accordance with agreed upon rates. Producers apparently are satisfied with current hauling allowances but complained that the Corporation hired most of the available trucking facilities thereby making it very difficult for the small individual producer to hire a truck to transport his sugarcane.

The cane transportation allowance recommended by both the processor and producers with respect to cane transported by the producer is the same as that paid for 1953 crop sugarcane transported in such manner. This determination provides for a continuation of such allowance. However, in the case of sugarcane transported by the Corporation, the allowance shall be as agreed upon between the parties. With respect to public trucking facilities the representative of the Corporation stated at the hearing that such facilities under contract to the Corporation would be released to individual producers upon request.

The Virgin Islands Corporation, operated under the direction of the Department of Interior primarily to promote the general welfare of the people of the Islands, is both the largest producer and, as previously mentioned, the only processor of sugarcane. Financial results of the Corporation have been generally unfavorable and because of continuing annual losses on sugar operations the standards customarily considered in price determinations in other cane producing areas cannot be applied in the usual manner. Moreover, it is recognized that the present basis for sharing the proceeds from raw sugar and molasses may not result in individually profitable operations for all producers. However, the sharing relationship specified in this determination provides returns to producers which compare favorably with those obtained by sugarcane producers in other offshore areas.

Accordingly, I hereby find and conclude that the foregoing price determination is fair and reasonable and will effectuate the price provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 23d day of December 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

### Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 925—MILK IN THE PUGET SOUND, WASHINGTON, MARKETING AREA

ORDER TERMINATING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agree-

ment Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area, hereinafter referred to as the "order," it is hereby found and determined that the provisions appearing in § 925.44 (a) (5) and (b) (5) of such order which read "for the period ending with December 31, 1953," no longer tend to effectuate the declared policy of the act.

A public hearing was held at Seattle, Washington, on August 10–11, 1953, to consider, among other things, a proposal to amend the order for the purpose of revising the conditions under which milk might be moved between regulated plants for manufacturing use. In an emergency decision dated September 10, 1953, it was concluded that certain revisions of the transfer provisions should be made for a temporary period (through December 31, 1953) pending further review in connection with consideration of proposals to amend other and related provisions of the order. An amendment making such changes operative for the balance of 1953 was made effective October 1, 1953. After further consideration in connection with the other issues of the hearing, it has been recommended by the Assistant Administrator, Production and Marketing Administration, in a decision issued December 3, 1953, that the revision of the milk transfer provisions will have continuing applicability indefinitely beyond the end of 1953. Therefore, it is necessary to extend the revised conditions for movements of milk between regulated plants to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area in the period immediately following December 31, 1953, pending the receipt of industry exceptions and consideration in connection with the issuance of a final decision and subsequent appropriate order amendments.

It is hereby found and determined that notice of proposed rule-making and public procedure thereon in connection with the issuance hereof is impractical, unnecessary and contrary to the public interest, in that (1) the information on which this action is based did not become available in sufficient time for such compliance, (2) the action continues in effect pending final action on order amendments, provisions on which the approval of handlers and producers generally was expressed prior to their adoption on October 1, 1953, (3) associations representing a majority of producers recently requested the action provided by this order, and (4) the issuance of this order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote, and maintain the orderly marketing of milk produced for the said marketing area. The changes caused by this termination order do not require of persons affected substantial or extensive preparation prior to its effective date.

*It is therefore ordered*, That the provisions of the order (No. 25), as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area which appear in § 925.44 (a) (5) and (b) (5) which read "for the period ending with December 31, 1953," be and they are hereby terminated.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 24th day of December 1953, to become effective immediately.

[SEAL] JOHN H. DAVIS,
*Assistant Secretary of Agriculture.*

[F. R. Doc. 53-10807; Filed, Dec. 29, 1953; 8:52 a. m.]

---

PART 949—MILK IN THE SAN ANTONIO, TEXAS, MARKETING AREA

CLASS II MILK; ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area, hereinafter referred to as the "order" it is hereby found and determined that:

1. From the effective date hereof through January 31, 1954, all the provisions of § 949.53 of the order, except the following, do not tend to effectuate the declared policy of the act:

§ 949.53 *Class II milk.* The price for Class II milk shall be the following:

(a) From the simple average as computed by the market administrator of the daily wholesale selling price (using the midpoint of any price range as one price) of Grade A (92 score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month, subtract 3 cents, add 20 percent thereof and multiply by 4.0.

It is hereby found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impractical, unnecessary and contrary to the public interest, in that (1) the information upon which this action is based did not become available in sufficient time for such compliance; (2) the suspension action for the aforesaid period must be taken because the purpose thereof is to provide an adjustment in the prices which would otherwise obtain during the months; and (3) the issuance of this suspension order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area. The changes caused by this suspension order do not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective immediately.

*It is therefore ordered*, That the following provisions of the order be and they are hereby suspended from the effective date hereof through January 31, 1954:

All of § 949.53 except the following:

§ 949.53 *Class II milk.* The price for Class II milk shall be the following:

(a) From the simple average as computed by the market administrator of the daily wholesale selling price (using the midpoint of any price range as one price) of Grade A (92 score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month, subtract 3 cents, add 20 percent thereof and multiply by 4.0.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 24th day of December 1953 to be effective immediately.

[SEAL] JOHN H. DAVIS,
*Assistant Secretary of Agriculture.*

[F. R. Doc. 53-10809; Filed, Dec. 29, 1953; 8:52 a. m.]

## TITLE 19—CUSTOMS DUTIES

### Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53406]

PART 6—AIR COMMERCE REGULATIONS

LIST OF INTERNATIONAL AIRPORTS

Section 6.12 of the Customs Regulations is hereby redesignated as § 6.20, and footnote 8 appended to § 6.12 is hereby redesignated as footnote 15.

(R. S. 161, sec. 7 (b), 44 Stat. 572; 5 U. S. C. 22, 49 U. S. C. 177 (b))

[SEAL] C. A. EMERICK,
*Acting Commissioner of Customs.*

Approved: December 28, 1953.

H. CHAPMAN ROSE,
*Acting Secretary of the Treasury.*

[F. R. Doc. 53-10853; Filed, Dec. 29, 1953; 8:58 a. m.]

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

*Correction*

In Federal Register Document 53-10519, published on page 8476 of the issue for Friday, December 18, 1953, the following changes should be made:

1. In paragraph 4, (j-1) should be designated (i-1) and (j) should be designated (i).

2. In paragraph 5, (n) should be designated (m).

3. In paragraph 6, (o) should be designated (n).

## TITLE 14—CIVIL AVIATION

### Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

RECAPITULATION OF PART

Because of the number of outstanding amendments to Part 4b there follows a recapitulation of Part 4b incorporating all amendments up to December 31, 1953.

Subpart A—General

APPLICABILITY AND DEFINITIONS

Sec.
4b.0 Applicability of this part.
4b.1 Definitions.

CERTIFICATION

4b.10 Eligibility for type certificates.
4b.11 Designation of applicable regulations.
4b.12 Amendment of part.
4b.13 Type certificate.
4b.14 Data required.
4b.15 Inspections and tests.
4b.16 Flight tests.
4b.17 Airworthiness, experimental, and production certificates.
4b.18 Approval of materials, parts, processes, and appliances.
4b.19 Changes in type design.

Subpart B—Flight

GENERAL

4b.100 Proof of compliance.
4b.101 Weight limitations.
4b.102 Center of gravity limitations.
4b.103 Additional limitations on weight distribution.
4b.104 Empty weight.
4b.105 Use of ballast.

PERFORMANCE

4b.110 General.
4b.111 Wing flap positions.
4b.112 Stalling speeds.
4b.113 Take-off; general.
4b.114 Take-off speeds.
4b.115 Accelerate-stop distance.
4b.116 Take-off path.
4b.117 Temperature accountability.
4b.118 Climb; general.
4b.119 Climb; all engines operating.
4b.120 One-engine-inoperative climb.
4b.121 Two-engine-inoperative climb.
4b.122 Determination of the landing distance; general.
4b.123 Landplanes.
4b.124 Seaplanes or float planes.
4b.125 Skiplanes.

CONTROLLABILITY

4b.130 Controllability; general.
4b.131 Longitudinal control.
4b.132 Directional and lateral control.
4b.133 Minimum control speed, $V_{MC}$.

TRIM

4b.140 General.
4b.141 Lateral and directional trim.
4b.142 Longitudinal trim.
4b.143 Longitudinal, directional, and lateral trim.
4b.144 Trim for airplanes with four or more engines.

STABILITY

4b.150 General.
4b.151 Static longitudinal stability.
4b.152 Stability during landing.
4b.153 Stability during approach.
4b.154 Stability during climb.
4b.155 Stability during cruising.
4b.156 Dynamic longitudinal stability.
4b.157 Static directional and lateral stability.
4b.158 Dynamic directional and lateral stability.

STALLING CHARACTERISTICS

4b.160 Stalling; symmetrical power.
4b.161 Stalling; asymmetrical power.
4b.162 Stall warning.

GROUND HANDLING CHARACTERISTICS

4b.170 Longitudinal stability and control.
4b.171 Directional stability and control.
4b.172 Shock absorption.
4b.173 Demonstrated cross wind.

WATER HANDLING CHARACTERISTICS

4b.180 Water conditions.
4b.181 Wind conditions.
4b.182 Control and stability on the water.

MISCELLANEOUS FLIGHT REQUIREMENTS

4b.190 Flutter and vibration.

Subpart C—Structure

GENERAL

4b.200 Loads.
4b.201 Strength and deformation.
4b.202 Proof of structure.

FLIGHT LOADS

4b.210 General.
4b.211 Flight envelopes.
4b.212 Effect of high lift devices.
4b.213 Symmetrical flight conditions.
4b.214 Rolling conditions.
4b.215 Yawing conditions.
4b.216 Supplementary flight conditions.

CONTROL SURFACE AND SYSTEM LOADS

4b.220 Control surface loads; general.
4b.221 Wing flaps.
4b.222 Tabs.
4b.223 Special devices.
4b.224 Primary flight control systems.
4b.225 Dual primary flight control systems.
4b.226 Ground gust conditions.
4b.227 Secondary control systems.

GROUND LOADS

4b.230 General.
4b.231 Level landing conditions.
4b.232 Tail-down landing conditions.
4b.233 One-wheel landing condition.
4b.234 Lateral drift landing condition.
4b.235 Ground handling conditions.
4b.236 Unsymmetrical loads on dual-wheel units.

WATER LOADS

4b.250 General.
4b.251 Design weights and center of gravity positions.
4b.252 Application of loads.
4b.253 Hull and main float load factors.
4b.254 Hull and main float landing conditions.
4b.255 Hull and main float take-off condition.
4b.256 Hull and main float bottom pressures.
4b.257 Auxiliary float loads.
4b.258 Seawing loads.

EMERGENCY LANDING CONDITIONS

4b.260 General.
4b.261 Structural ditching provisions.

Subpart D—Design and Construction

GENERAL

4b.300 Scope.
4b.301 Materials.
4b.302 Fabrication methods.
4b.303 Standard fastenings.
4b.304 Protection.
4b.305 Inspection provisions.
4b.306 Material strength properties and design values.
4b.307 Special factors.
4b.308 Flutter, deformation, and vibration.

CONTROL SURFACES

Sec.
4b.310 General.
4b.311 Proof of strength.
4b.312 Installation.
4b.313 Hinges.

CONTROL SYSTEMS

4b.320 General.
4b.321 Two-control airplanes.
4b.322 Trim controls and systems.
4b.323 Wing flap controls.
4b.324 Wing flap interconnection.
4b.325 Control system stops.
4b.326 Control system locks.
4b.327 Static tests.
4b.328 Operation tests.
4b.329 Control system details; general.

LANDING GEAR

4b.330 General.
4b.331 Shock absorbers.
4b.332 Landing gear tests.
4b.333 Limit load factor determination.
4b.334 Retracting mechanism.
4b.335 Wheels.
4b.336 Tires.
4b.337 Brakes.
4b.338 Skis.

HULLS AND FLOATS

4b.340 General.
4b.341 Seaplane main floats.
4b.342 Boat hulls.

PERSONNEL AND CARGO ACCOMMODATIONS

4b.350 Pilot compartment; general.
4b.351 Pilot compartment vision.
4b.352 Windshield and windows.
4b.353 Controls.
4b.354 Instrument arrangement.
4b.355 Instrument marking.
4b.356 Doors.
4b.357 Door louvres.
4b.358 Seats, berths, and safety belts.
4b.359 Cargo and baggage compartments.

EMERGENCY PROVISIONS

4b.360 General.
4b.361 Ditching.
4b.362 Emergency evacuation.

VENTILATION, HEATING, AND PRESSURIZATION

4b.370 General.
4b.371 Ventilation.
4b.372 Heating systems.
4b.373 Pressurized cabins; general
4b.374 Pressure supply.
4b.375 Pressure control.
4b.376 Tests.

FIRE PROTECTION

4b.380 General.
4b.381 Cabin interiors.
4b.382 Cargo and baggage compartments.
4b.383 Cargo compartment classification.
4b.384 Proof of compliance.
4b.385 Flammable fluid fire protection.
4b.386 Combustion heater fire protection.

MISCELLANEOUS

4b.390 Reinforcement near propellers.
4b.391 Leveling marks.

Subpart E—Powerplant Installation

INSTALLATION

4b.400 General.
4b.401 Engines.
4b.402 Propellers.
4b.403 Propeller vibration.
4b.404 Propeller pitch and speed limitations.
4b.405 Propeller clearance.
4b.406 Propeller de-icing provisions.

FUEL SYSTEM OPERATION AND ARRANGEMENT

4b.410 General.
4b.411 Fuel system independence.
4b.412 Pressure cross-feed arrangements.
4b.413 Fuel flow rate.
4b.414 Pump systems.

Sec.
4b.415 Transfer systems.
4b.416 Determination of unusable fuel supply and fuel system operation on low fuel.
4b.417 Fuel system hot weather operation.
4b.418 Flow between interconnected tanks.

FUEL SYSTEM CONSTRUCTION AND INSTALLATION

4b.420 General.
4b.421 Fuel tank tests.
4b.422 Fuel tank installation.
4b.423 Fuel tank expansion space.
4b.424 Fuel tank sump.
4b.425 Fuel tank filler connection.
4b.426 Fuel tank vents and carburetor vapor vents.
4b.427 Fuel tank outlet.
4b.428 Under-wing fueling provisions.

FUEL SYSTEM COMPONENTS

4b.430 Fuel pumps.
4b.431 Fuel pump installation.
4b.432 Fuel system lines and fittings.
4b.433 Fuel lines and fittings in designated fire zones.
4b.434 Fuel valves.
4b.435 Fuel strainer.
4b.436 Fuel system drains.
4b.437 Fuel jettisoning system.

OIL SYSTEM

4b.440 General.
4b.441 Oil tank construction.
4b.442 Oil tank tests.
4b.443 Oil tank installation.
4b.444 Oil lines and fittings.
4b.445 Oil valves.
4b.446 Oil radiators.
4b.447 Oil filters.
4b.448 Oil system drains.
4b.449 Propeller feathering system.

COOLING SYSTEM

4b.450 General.
4b.451 Cooling tests.
4b.452 Climb cooling test procedure.
4b.453 Take-off cooling test procedure.
4b.454 Cooling test procedure for flying boat operation.
4b.455 Liquid cooling systems.
4b.456 Coolant tank.
4b.457 Coolant system installation.

INDUCTION AND EXHAUST SYSTEMS

4b.460 General.
4b.461 Induction system de-icing and anti-icing provisions.
4b.462 Carburetor air preheater design.
4b.463 Induction system ducts.
4b.464 Induction system screens.
4b.465 Carburetor air cooling.
4b.466 Inter-coolers and after-coolers.
4b.467 Exhaust system and installation components.

POWERPLANT CONTROLS AND ACCESSORIES

4b.470 Powerplant controls; general.
4b.471 Throttle and A. D. I. system controls.
4b.472 Ignition switches.
4b.473 Mixture controls.
4b.474 Propeller controls.
4b.475 Fuel system controls.
4b.476 Carburetor air preheat controls.
4b.476a Supercharger controls.
4b.477 Powerplant accessories.
4b.478 Engine ignition systems.

POWERPLANT FIRE PROTECTION

4b.480 Designated fire zones.
4b.481 Flammable fluids.
4b.482 Shut-off means.
4b.483 Lines and fittings.
4b.484 Fire extinguisher systems.
4b.485 Fire detector systems.
4b.486 Fire walls.
4b.487 Cowling and nacelle skin.
4b.488 Engine accessory section diaphragm.
4b.489 Drainage and ventilation of fire zones.
4b.490 Protection of other airplane components against fire.

## Subpart F—Equipment

GENERAL

Sec.
4b.600 Scope.
4b.601 Functional and installational requirements.
4b.602 Required basic equipment.
4b.603 Flight and navigational instruments.
4b.604 Powerplant instruments.
4b.605 Miscellaneous equipment.
4b.606 Equipment, systems, and installations.

INSTRUMENTS; INSTALLATION

4b.610 General.
4b.611 Arrangement and visibility of instrument installations.
4b.612 Flight and navigational instruments.
4b.613 Powerplant instruments.

ELECTRICAL SYSTEMS AND EQUIPMENT

4b.620 General.
4b.621 Electrical system capacity.
4b.622 Generating system.
4b.623 Distribution system.
4b.624 Electrical protection.
4b.625 Electrical equipment and installation.
4b.626 Electrical system fire and smoke protection.
4b.627 Electrical system tests and analyses.

LIGHTS

4b.630 Instrument lights.
4b.631 Landing lights.
4b.632 Position light system installation.
4b.633 Position light system dihedral angles.
4b.634 Position light distribution and intensities.
4b.635 Position light color specifications.
4b.636 Riding light.
4b.637 Anti-collision light.

SAFETY EQUIPMENT

4b.640 Ice protection.
4b.641 Hand fire extinguishers.
4b.642 Flare installation.
4b.643 Safety belts.
4b.644 Safety belt signal.
4b.645 Ditching equipment.
4b.646 Stowage of safety equipment.

MISCELLANEOUS EQUIPMENT

4b.650 Radio and electronic equipment.
4b.651 Oxygen equipment and supply.
4b.652 Engine-driven accessories.
4b.653 Hydraulic systems; strength.
4b.654 Hydraulic systems; design.
4b.655 Hydraulic system fire protection.
4b.658 Vacuum systems.

## Subpart G—Operating Limitations and Information

GENERAL

4b.700 Scope.

OPERATING LIMITATIONS

4b.710 Air-speed limitations; general.
4b.711 Never-exceed speed $V_{NE}$.
4b.712 Normal operating limit speed $V_{NO}$.
4b.713 Maneuvering speed.
4b.714 Flap extended speed $V_{FE}$.
4b.715 Landing gear operating speed $V_{LO}$.
4b.716 Landing gear extended speed $V_{LE}$.
4b.717 Minimum control speed $V_{MC}$.
4b.718 Powerplant limitations.
4b.719 Airplane weight, center of gravity, and weight distribution limitations.
4b.720 Minimum flight crew.
4b.721 Types of operation.
4b.722 Maximum operating altitude.
4b.723 Maneuvering flight load factors.

MARKINGS AND PLACARDS

4b.730 General.
4b.731 Instrument markings; general.
4b.732 Air-speed indicator.
4b.733 Magnetic direction indicator.
4b.734 Powerplant instruments; general.
4b.735 Oil quantity indicators.
4b.736 Fuel quantity indicator.
4b.737 Control markings; general.
4b.738 Miscellaneous markings and placards.

AIRPLANE FLIGHT MANUAL

4b.740 General.
4b.741 Operating limitations.
4b.742 Operating procedures.
4b.743 Performance information.

AIRPLANE IDENTIFICATION DATA

4b.750 Identification plate.
4b.751 Identification marks.

AUTHORITY: §§ 4b.0 to 4b.751 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, as amended, 1009, as amended; 49 U. S. C. 551, 553.

## SUBPART A—GENERAL

### APPLICABILITY AND DEFINITIONS

§ 4b.0 *Applicability of this part.* This part establishes standards with which compliance shall be demonstrated for the issuance of a type certificate for transport category airplanes. This part, until superseded or rescinded, shall apply to all transport category airplanes for which applications for type certification in the transport category are made after the effective date of this part (November 9, 1945).

§ 4b.1 *Definitions.* As used in this part terms are defined as follows:

(a) *Administration*—(1) *Administrator.* The Administrator is the Administrator of Civil Aeronautics.

(2) *Applicant.* An applicant is a person or persons applying for approval of an airplane or any part thereof.

(3) *Approved.* Approved, when used alone or as modifying terms such as means, devices, specifications, etc., shall mean approved by the Administrator. (See § 4b.18.)

(b) *General design*—(1) *Standard atmosphere.* The standard atmosphere is an atmosphere defined as follows:

(i) The air is a dry, perfect gas,

(ii) The temperature at sea level is 59° F.,

(iii) The pressure at sea level is 29.92 inches Hg,

(iv) The temperature gradient from sea level to the altitude at which the temperature equals −67° F. is −0.003566° F./ft. and zero thereabove,

(v) The density $\rho_0$ at sea level under the above conditions is 0.002378 pounds sec.$^2$/ft.$^4$.

(2) *Maximum anticipated air temperature.* The maximum anticipated air temperature is a temperature specified for the purpose of compliance with the powerplant cooling standards. (See § 4b.451 (b).)

(3) *Airplane configuration.* Airplane configuration is a term referring to the position of the various elements affecting the aerodynamic characteristics of the airplane (e. g., wing flaps, landing gear).

(4) *Aerodynamic coefficients.* Aerodynamic coefficients are nondimensional coefficients for forces and moments. They correspond with those adopted by the U. S. National Advisory Committee for Aeronautics.

(5) *Critical engine(s).* The critical engine is that engine(s) the failure of which gives the most adverse effect on the airplane flight characteristics relative to the case under consideration.

(6) *Critical-engine-failure speed.* The critical-engine-failure speed is the airplane speed used in the determination of the take-off at which the critical engine is assumed to fail. (See § 4b.114.)

(c) *Weights*—(1) *Maximum weight.* The maximum weight of the airplane is that maximum at which compliance with the requirements of this part is demonstrated. (See § 4b.101 (a).)

(2) *Minimum weight.* The minimum weight of the airplane is that minimum at which compliance with the requirements of this part is demonstrated. (See § 4b.101 (c).)

(3) *Empty weight.* The empty weight of the airplane is a readily reproducible weight which is used in the determination of the operating weights. (See § 4b.104.)

(4) *Design maximum weight.* The design maximum weight is the maximum weight of the airplane used in structural design for flight load conditions. (See § 4b.210.)

(5) *Design minimum weight.* The design minimum weight is the minimum weight of the airplane at which compliance is shown with the structural loading conditions. (See § 4b.210.)

(6) *Design take-off weight.* The design take-off weight is the maximum airplane weight used in structural design for taxying conditions, and for landing conditions at a reduced velocity of descent. (See § 4b.210.)

(7) *Design landing weight.* The design landing weight is the maximum airplane weight used in structural design for landing conditions at the maximum velocity of descent. (See § 4b.230 (b).)

(8) *Design unit weight.* The design unit weight is a representative weight used to show compliance with the structural design requirements.

(i) Gasoline 6 pounds per U. S. gallon.

(ii) Lubricating oil 7.5 pounds per U. S. gallon.

(iii) Crew and passengers 170 pounds per person.

(d) *Speeds*—(1) IAS: Indicated air speed is equal to the pitot static air-speed indicator reading as installed in the airplane without correction for air-speed indicator system errors but including the sea level standard adiabatic compressible flow correction. (This latter correction is included in the calibration of the air-speed instrument dials.) (See §§ 4b.612 (a) and 4b.710.)

(2) CAS: Calibrated air speed is equal to the air-speed indicator reading corrected for position and instrument error. (As a result of the sea level adiabatic compressible flow correction to the air-speed instrument dial, CAS is equal to the true air speed TAS in standard atmosphere at sea level.)

(3) EAS: Equivalent air speed is equal to the air-speed indicator reading corrected for position error, instrument error, and for adiabatic compressible flow for the particular altitude. (EAS is equal to CAS at sea level in standard atmosphere.)

(4) TAS: True air speed of the airplane relative to undisturbed air. ($TAS = EAS\ (\rho_0/\rho)^{1/2}$.)

(5) $V_A$: The design maneuvering speed. (See § 4b.210 (b) (2).)

(6) $V_B$: The design speed for maximum gust intensity. (See § 4b.210 (b) (3).)

(7) $V_C$: The design cruising speed. (See § 4b.210 (b) (4).)

(8) $V_D$: The design diving speed. (See § 4b.210 (b) (5).)

(9) $V_{DF}$: The demonstrated flight diving speed. (See § 4b.190.)

(10) $V_F$: The design flap speed for flight loading conditions with wing flaps in the landing position. (See § 4b.210 (b) (1).)

(11) $V_{FE}$: The flap extended speed is a maximum speed with wing flaps in a prescribed extended position. (See § 4b.714.)

(12) $V_{LE}$: The landing gear extended speed is the maximum speed at which the airplane can be flown safely with the landing gear extended. (See § 4b.716.)

(13) $V_{LO}$: The landing gear operating speed is a maximum speed at which the landing gear can be raised or lowered safely. (See § 4b.715.)

(14) $V_{MC}$: The minimum control speed with the critical engine inoperative. (See § 4b.133.)

(15) $V_{NE}$: The never-exceed speed. (See § 4b.711.)

(16) $V_{NO}$: The normal operating limit speed. (See § 4b.712.)

(17) $V_{s_0}$: The stalling speed or the minimum steady flight speed with wing flaps in the landing position. (See §§ 4b.112 (a) and 4b.160.)

(18) $V_{s_1}$: The stalling speed or the minimum steady flight speed obtained in a specified configuration. (See § 4b.112 (b).)

(19) $V_1$: The critical-engine-failure speed. (See § 4b.114.)

(20) $V_2$: The take-off safety speed. (See § 4b.114 (b).)

(e) *Structural*—(1) *Limit load.* A limit load is the maximum load anticipated in normal conditions of operation. (See § 4b.200.)

(2) *Ultimate load.* An ultimate load is a limit load multiplied by the appropriate factor of safety. (See § 4b.200.)

(3) *Factor of safety.* The factor of safety is a design factor used to provide for the possibility of loads greater than those anticipated in normal conditions of operation and for uncertainties in design. (See § 4b.200 (a).)

(4) *Load factor.* The load factor is the ratio of a specified load to the total weight of the airplane; the specified load may be expressed in terms of any of the following: aerodynamic forces, inertia forces, or ground or water reactions.

(5) *Limit load factor.* The limit load factor is the load factor corresponding with limit loads.

(6) *Ultimate load factor.* The ultimate load factor is the load factor corresponding with ultimate loads.

(7) *Checked pitching maneuver.* A checked pitching maneuver is one in which the pitching control is suddenly displaced in one direction and then suddenly moved in the opposite direction, the deflections and timing being such as to avoid exceeding the limit maneuvering load factor.

(8) *Design wing area.* The design wing area is the area enclosed by the wing outline (including wing flaps in the retracted position and ailerons, but excluding fillets or fairings) on a surface containing the wing chords. The outline is assumed to be extended through the nacelles and fuselage to the plane of symmetry in any reasonable manner.

(9) *Balancing tail load.* A balancing tail load is that load necessary to place the airplane in equilibrium with zero pitch acceleration.

(10) *Fitting.* A fitting is a part or terminal used to join one structural member to another. (See § 4b.307 (c).)

(f) *Power installation*[1]—(1) *Brake horsepower.* Brake horsepower is the power delivered at the propeller shaft of the engine.

(2) *Take-off power.* Take-off power is the brake horsepower developed under standard sea level conditions, under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use in the normal take-off, and limited in use to a maximum continuous period as indicated in the approved engine specification.

(3) *Maximum continuous power.* Maximum continuous power is the brake horsepower developed in standard atmosphere at a specified altitude under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use during periods of unrestricted duration.

(4) *Manifold pressure.* Manifold pressure is the absolute pressure measured at the appropriate point in the induction system, usually in inches of mercury.

(5) *Critical altitude.* The critical altitude is the maximum altitude at which in standard atmosphere it is possible to maintain, at a specified rotational speed, a specified power or a specified manifold pressure. Unless otherwise stated, the critical altitude is the maximum altitude at which it is possible to maintain, at the maximum continuous rotational speed, one of the following:

(i) The maximum continuous power, in the case of engines for which this power rating is the same at sea level and at the rated altitude,

(ii) The maximum continuous rated manifold pressure, in the case of engines the maximum continuous power of which is governed by a constant manifold pressure.

(6) *Pitch setting.* Pitch setting is the propeller blade setting determined by the blade angle measured in a manner, and at a radius, specified in the instruction manual for the propeller.

(7) *Feathered pitch.* Feathered pitch is the pitch setting which in flight, with the engines stopped, gives approximately the minimum drag and corresponds with a windmilling torque of approximately zero.

(8) *Reverse pitch.* Reverse pitch is the propeller pitch setting for any blade

[1] For engine airworthiness requirements see Part 13 of this subchapter; for propeller airworthiness requirements see Part 14 of this subchapter.

angle used beyond zero pitch (e. g., the negative angle used for reverse thrust).

(g) *Fire protection*—(1) *Fireproof.* Fireproof material means a material which will withstand heat at least as well as steel in dimensions appropriate for the purpose for which it is to be used. When applied to material and parts used to confine fires in designated fire zones, fireproof means that the material or part will perform this function under the most severe conditions of fire and duration likely to occur in such zones.

(2) *Fire-resistant.* When applied to sheet or structural members, fire-resistant material means a material which will withstand heat at least as well as aluminum alloy in dimensions appropriate for the purpose for which it is to be used. When applied to fluid-carrying lines, other flammable fluid system components, wiring, air ducts, fittings, and powerplant controls, this term refers to a line and fitting assembly, component, wiring or duct, or controls which will perform the intended functions under the heat and other conditions likely to occur at the particular location.

(3) *Flame-resistant.* Flame-resistant material means material which will not support combustion to the point of propagating, beyond safe limits, a flame after the removal of the ignition source.

(4) *Flash-resistant.* Flash-resistant material means material which will not burn violently when ignited.

(5) *Flammable.* Flammable pertains to those fluids or gases which will ignite readily or explode.

(h) *Miscellaneous*—(1) *Supplemental breathing equipment.* Supplemental breathing equipment is equipment designed to supply the supplementary oxygen required to protect against anoxia at altitudes where the partial pressure of oxygen in ambient air is reduced. (See § 4b.651.)

(2) *Protective breathing equipment.* Protective breathing equipment is equipment designed to prevent the breathing of noxious gases which might be present as contaminants in the air within the airplane in emergency situations. (See § 4b.651.)

CERTIFICATION

§ 4b.10 *Eligibility for type certificates.* An airplane shall be eligible for type certification under the provisions of this part if it complies with the airworthiness provisions established by this part or if the Administrator finds that the provision or provisions not complied with are compensated for by factors which provide an equivalent level of safety: *Provided*, That the Administrator finds no feature or characteristic of the airplane which renders it unsafe for the transport category.

§ 4b.11 *Designation of applicable regulations.* (a) The provisions of this part, together with all amendments thereto effective on the date of application for type certificate, shall be considered as incorporated in the type certificate as though set forth in full.

(b) Except as otherwise provided by the Board, or pursuant to § 1.24 of this subchapter by the Administrator, any change to the type design may be accomplished, at the option of the holder of the type certificate, either in accordance with the provisions incorporated by reference in the certificate pursuant to paragraph (a) of this section, or in accordance with the provisions in effect at the time the application for change is filed.

(c) The Administrator, upon approval of a change to a type design, shall designate and keep a record of the provisions of the regulations in this subchapter with which compliance was demonstrated.

§ 4b.12 *Amendment of part.* Unless otherwise established by the Board, an amendment of this part shall be effective with respect to airplanes for which applications for type certificates are filed after the effective date of the amendment.

§ 4b.13 *Type certificate.* (a) An applicant shall be issued a type certificate when he demonstrates the eligibility of the airplane by complying with the requirements of this part in addition to the applicable requirements in Part 1 of this subchapter.

(b) The type certificate shall be deemed to include the type design (see § 4b.14 (b)), the operating limitations for the airplane (see § 4b.700), and any other conditions or limitations prescribed by the regulations in this subchapter. (See also § 4b.11 (a).)

§ 4b.14 *Data required.* (a) The applicant for a type certificate shall submit to the Administrator such descriptive data, test reports, and computations as are necessary to demonstrate that the airplane complies with the requirements of this part.

(b) The descriptive data required in paragraph (a) of this section shall be known as the type design and shall consist of such drawings and specifications as are necessary to disclose the configuration of the airplane and all the design features covered in the requirements of this part, such information on dimensions, materials, and processes as is necessary to define the structural strength of the airplane, and such other data as are necessary to permit by comparison the determination of the airworthiness of subsequent airplanes of the same type.

§ 4b.15 *Inspections and tests.* Inspections and tests shall include all those found necessary by the Administrator to insure that the airplane complies with the applicable airworthiness requirements and conforms to the following:

(a) All materials and products are in accordance with the specifications in the type design,

(b) All parts of the airplane are constructed in accordance with the drawings in the type design,

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

§ 4b.16 *Flight tests.* After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspections and testing on the ground, and proof of the conformity of the airplane with the type design, and upon receipt from the applicant of a report of flight tests performed by him, the following shall be conducted:

(a) Such official flight tests as the Administrator finds necessary to determine compliance with the requirements of this part.

(b) After the conclusion of flight tests specified in paragraph (a) of this section, such additional flight tests as the Administrator finds necessary to ascertain whether there is reasonable assurance that the airplane, its components, and equipment are reliable and function properly. The extent of such additional flight tests shall depend upon the complexity of the airplane, the number and nature of new design features, and the record of previous tests and experience for the particular airplane type, its components, and equipment. If practicable, these flight tests shall be conducted on the same airplane used in the flight tests specified in paragraph (a) of this section.

§ 4b.17 *Airworthiness, experimental, and production certificates.* (For requirements with regard to these certificates see Part 1 of this subchapter.)

§ 4b.18 *Approval of materials, parts, processes, and appliances.* (a) Materials, parts, processes, and appliances shall be approved upon a basis and in a manner found necessary by the Administrator to implement the pertinent provisions of the regulations in this subchapter. The Administrator may adopt and publish such specifications as he finds necessary to administer this regulation, and shall incorporate therein such portions of the aviation industry, Federal, and military specifications respecting such materials, parts, processes, and appliances as he finds appropriate.

NOTE: The provisions of this paragraph are intended to allow approval of materials, parts, processes, and appliances under the system of Technical Standard Orders, or in conjunction with type certification procedures for an airplane, or by any other form of approval by the Administrator.

(b) Any material, part, process, or appliance shall be deemed to have met the requirements for approval when it meets the pertinent specifications adopted by the Administrator, and the manufacturer so certifies in a manner prescribed by the Administrator.

§ 4b.19 *Changes in type design.* (For requirements with regard to changes in type design see Part 1 of this subchapter.)

SUBPART B—FLIGHT

GENERAL

§ 4b.100 *Proof of compliance.* (a) Compliance with the requirements prescribed in this subpart shall be established by flight or other tests conducted upon an airplane of the type for which a certificate of airworthiness is sought or by calculations based on such tests, provided that the results obtained by calculations are equivalent in accuracy to the results of direct testing.

(b) Compliance with each requirement shall be established at all appropriate combinations of airplane weight and center of gravity position within the range of loading conditions for which certification is sought by systematic investigation of all these combinations, except where compliance can be inferred reasonably from those combinations which are investigated.

(c) The controllability, stability, trim, and stalling characteristics of the airplane shall be established at all altitudes up to the maximum anticipated operating altitude.

(d) The applicant shall provide a person holding an appropriate pilot certificate to make the flight tests, but a designated representative of the Administrator shall pilot the airplane when it is found necessary for the determination of compliance with the airworthiness requirements.

(e) Official type tests shall be discontinued until corrective measures have been taken by the applicant when either:

(1) The applicant's test pilot is unable or unwilling to conduct any of the required flight tests, or

(2) It is found that requirements which have not been met are so substantial as to render additional test data meaningless or are of such a nature as to make further testing unduly hazardous.

(f) Adequate provision shall be made for emergency egress and for the use of parachutes by members of the crew during the flight tests.

(g) The applicant shall submit to the Administrator's representative a report covering all computations and tests required in connection with calibration of instruments used for test purposes and correction of test results to standard atmospheric conditions. The Administrator's representative shall conduct any flight tests which he finds necessary to check the calibration and correction report.

§ 4b.101 *Weight limitations.* The maximum and minimum weights at which the airplane will be suitable for operation shall be established as follows:

(a) Maximum weights shall not exceed any of the following:

(1) The weight selected by the applicant;

(2) The design weight for which the structure has been proven;

(3) The maximum weight at which compliance with all of the applicable flight requirements has been demonstrated.

(b) It shall be acceptable to establish maximum weights for each altitude and for each practicably separable operating condition (e. g., take-off, en route, landing).

(c) Minimum weights shall not be less than any of the following:

(1) The minimum weight selected by the applicant;

(2) The design minimum weight for which the structure has been proven;

(3) The minimum weight at which compliance with all of the applicable flight requirements has been demonstrated.

§ 4b.102 *Center of gravity limitations.* Center of gravity limits shall be established as the most forward position permissible and the most aft position permissible for each practicably separable operating condition in accordance with § 4b.101 (b). Limits of the center of gravity range shall not exceed any of the following:

(a) The extremes selected by the applicant;

(b) The extremes for which the structure has been proven;

(c) The extremes at which compliance with all of the applicable flight requirements has been demonstrated.

§ 4b.103 *Additional limitations on weight distribution.* If a weight and center of gravity combination is permissible only within certain load distribution limits (e. g., spanwise) which could be exceeded inadvertently, such limits shall be established together with the corresponding weight and center of gravity combinations, and shall not exceed any of the following:

(a) The limits selected by the applicant;

(b) The limits for which the structure has been proven;

(c) The limits for which compliance with all the applicable flight requirements has been demonstrated.

§ 4b.104 *Empty weight.* (a) The empty weight and the corresponding center of gravity position shall be determined by weighing the airplane. This weight shall exclude the weight of the crew and payload, but shall include the weight of all fixed ballast, unusable fuel supply (see § 4b.416), undrainable oil, total quantity of engine coolant, and total quantity of hydraulic fluid.

(b) The condition of the airplane at the time of weighing shall be one which can be easily repeated and easily defined, particularly as regards the contents of the fuel, oil, and coolant tanks, and the items of equipment installed.

§ 4b.105 *Use of ballast.* It shall be acceptable to use removable ballast to enable the airplane to comply with the flight requirements. (See §§ 4b.738 and 4b.741 (c).)

PERFORMANCE

§ 4b.110 *General.* (a) With respect to all airplanes type certificated on or after February 12, 1951, the performance prescribed in this subpart shall be determined, and compliance shall be shown, for standard atmospheric conditions and still air, except that the performance as affected by engine power, instead of being based on dry air, shall be based on 80 percent relative humidity.

(b) Each set of performance data required for a particular flight condition shall be determined with the powerplant accessories absorbing the normal amount of power appropriate to that flight condition. (See also § 4b.117.)

§ 4b.111 *Wing flap positions.* (a) The wing flap positions denoted respectively as the take-off, en route, approach, and landing positions shall be selected by the applicant. (See also § 4b.323.)

(b) It shall be acceptable to make the flap positions variable with weight and altitude.

§ 4b.112 *Stalling speeds.* (a) The speed, $V_{s_0}$, shall denote the calibrated stalling speed, or the minimum steady flight speed at which the airplane is controllable, in miles per hour, with:

(1) Engines idling, throttles closed (or not more than sufficient power for zero thrust at a speed not greater than 110 percent of the stalling speed);

(2) Propeller pitch controls in the position normally used for take-off;

(3) Landing gear extended;

(4) Wing flaps in the landing position;

(5) Cowl flaps closed;

(6) Center of gravity in the most unfavorable position within the allowable landing range;

(7) The weight of the airplane equal to the weight in connection with which $V_{s_0}$ is being used as a factor to determine a required performance.

(b) The speed, $V_{s_1}$, shall denote the calibrated stalling speed, or the minimum steady flight speed at which the airplane is controllable, in miles per hour, with:

(1) Engines idling, throttles closed (or not more than sufficient power for zero thrust at a speed not greater than 110 percent of the stalling speed);

(2) Propeller pitch controls in the position normally used for take-off, the airplane in all other respects (flaps, landing gear, etc.) in the particular condition existing in the particular test in connection with which $V_{s_1}$ is being used;

(3) The weight of the airplane equal to the weight in connection with which $V_{s_1}$ is being used as a factor to determine a required performance.

(c) Stalling speeds shall be determined by flight tests using the procedures outlined in § 4b.160.

§ 4b.113 *Take-off; general.* (a) The take-off data in §§ 4b.114 to 4b.116, inclusive, shall be determined under the following conditions:

(1) At all weights and altitudes selected by the applicant;

(2) With a constant take-off flap position for the particular weight and altitude;

(3) With the operating engines not exceeding their approved limitations at the particular altitude.

(b) All take-off data, when corrected, shall assume a level take-off surface, and shall be determined on a smooth, dry, hard-surfaced runway, in such a manner that reproduction of the performance does not require exceptional skill or alertness on the part of the pilot. (For temperature accountability data see § 4b.117. For wind and runway gradient corrections see appropriate operating rules of this subchapter.)

§ 4b.114 *Take-off speeds.* (a) The critical-engine-failure speed $V_1$, in terms of calibrated air speed, shall be selected by the applicant, but it shall not be less than the minimum speed at which the controllability is demonstrated during the take-off run to be adequate to permit proceeding safely with the take-off, using normal piloting skill, when the critical engine is suddenly made inoperative.

(b) The minimum take-off safety speed $V_2$, in terms of calibrated air speed, shall be selected by the applicant so as to permit the rate of climb required in § 4b.120 (a) and (b), but it shall not be less than:

(1) 1.20 $V_{s_1}$, for two-engine airplanes,

(2) 1.15 $V_{s_1}$ for airplanes having more than two engines,

(3) 1.10 times the minimum control speed $V_{MC}$ established under § 4b.133.

(c) If engine failure is assumed to occur at or after the attainment of $V_2$, the demonstration in which the take-off run is continued to include the take-off climb, as provided in paragraph (a) of this section, shall not be required.

§ 4b.115 *Accelerate-stop distance.* (a) The accelerate-stop distance shall be the sum of the following:

(1) The distance required to accelerate the airplane from a standing start to the speed $V_1$,

(2) Assuming the critical engine to fail at the speed $V_1$, the distance required to bring the airplane to a full stop from the point corresponding with the speed $V_1$.

(b) In addition to, or in lieu of, wheel brakes, the use of other braking means shall be acceptable in determining the accelerate-stop distance, provided that such braking means shall have been proven to be safe and reliable, that the manner of their employment is such that consistent results can be expected under normal conditions of operation, and that exceptional skill is not required to control the airplane.

(c) The landing gear shall remain extended throughout the accelerate-stop distance.

§ 4b.116 *Take-off path.* The take-off path shall be considered to consist of the following five consecutive elements:

(a) The distance required to accelerate the airplane to the speed $V_2$, assuming the critical engine to fail at the speed $V_1$.

(b) The horizontal distance traversed and the height attained by the airplane in the time required to retract the landing gear when operating at the speed $V_2$ with:

(1) The critical engine inoperative, its propeller:

(i) Windmilling with the propeller control in a position normally used during take-off until (if applicable) its rotation has been stopped (see paragraph (c) (1) of this section),

(ii) If applicable, stopped for the remainder of the gear retraction time.

(2) The landing gear extended.

(c) If applicable, the horizontal distance traversed and the height attained by the airplane in the time elapsed from the end of element (b) until the rotation of the inoperative propeller has been stopped when:

(1) The operation of stopping the propeller is initiated not earlier than the instant the airplane has attained a total height of 50 feet above the take-off surface,

(2) The airplane speed is equal to $V_2$,

(3) The landing gear is retracted,

(4) The inoperative propeller is windmilling with the propeller control in a position normally used during take-off.

(d) The horizontal distance traversed and the height attained by the airplane in the time elapsed from the end of element (c) until the time limit on the use of take-off power is reached, while operating at the speed $V_2$, with:

(1) The inoperative propeller stopped,

(2) The landing gear retracted.

(e) The slope of the flight path followed by the airplane in the configuration of element (d), but drawing not more than maximum continuous power on the operating engine(s).

§ 4b.117 *Temperature accountability.* Operating correction factors for take-off weight and take-off distance shall be determined to account for temperatures above and below standard, and when approved by the Administrator they shall be included in the Airplane Flight Manual. These factors shall be obtained as follows:

(a) For any specific airplane type, the average full temperature accountability shall be computed for the range of weights of the airplane, altitudes above sea level, and ambient temperatures required by the expected operating conditions. Account shall be taken of the temperature effect on both the aerodynamic characteristics of the airplane and on the engine power. The full temperature accountability shall be expressed per degree of temperature in terms of a weight correction, a take-off distance correction, and a change, if any, in the critical-engine-failure speed $V_1$.

(b) The operating correction factors for the airplane weight and take-off distance shall be at least one-half of the full accountability values. The value of $V_1$ shall be further corrected by the average amount necessary to assure that the airplane can stop within the runway length at the ambient temperature, except that the corrected value of $V_1$ shall not be less than a minimum at which the airplane can be controlled with the critical engine inoperative.

§ 4b.118 *Climb; general.* Compliance shall be shown with the climb requirements of §§ 4b.119 through 4b.121.

§ 4b.119 *Climb; all engines operating*—(a) *Cruising configuration.* In the cruising configuration the steady rate of climb in feet per minute at 5,000 feet shall not be less than $8V_{s_0}$. In addition the steady rate of climb shall be determined at any altitude at which the airplane is expected to operate and at any weight within the range of weights to be specified in the airworthiness certificate. The cruising configuration shall be with:

(1) Landing gear fully retracted,

(2) Wing flaps in the most favorable position,

(3) Cowl flaps (or other means of controlling the engine cooling) in the position which provides adequate cooling in the hot-day condition,

(4) Center of gravity in the most unfavorable position,

(5) All engines operating within the maximum continuous power limitations,

(6) Maximum take-off weight.

(b) *Landing configuration.* In the landing configuration the steady rate of climb in feet per minute shall not be less than $0.07\ V_{s_0}^2$ at any altitude within the range for which landing weight is to be specified in the certificate, with:

(1) Landing gear extended,

(2) Wing flaps in the landing position (see §§ 4b.111 and 4b.323),

(3) Cowl flaps in the position normally used in an approach to a landing,

(4) Center of gravity in the most unfavorable position permitted for landing,

(5) All engines operating at the take-off power available at such altitude,

(6) The weight equal to maximum landing weight for that altitude.

§ 4b.120 *One-engine-inoperative climb*—(a) *Flaps in take-off position; landing gear extended.* The steady rate of climb at any altitude within the range for which take-off weight is to be specified in the certificate, with:

(1) Wing flaps in the take-off position (see §§ 4b.111 and 4b.323),

(2) Cowl flaps in the position normally used during take-off,

(3) Center of gravity in the most unfavorable position permitted for take-off,

(4) The critical engine inoperative, its propeller windmilling with the propeller control in a position normally used during take-off,

(5) All other engines operating at the take-off power available at such altitude,

(6) The speed equal to the minimum take-off safety speed $V_2$ (see § 4b.114 (b)),

(7) The weight equal to maximum take-off weight for that altitude,

(8) Landing gear extended.

(b) *Flaps in take-off position; landing gear retracted.* With the landing gear retracted the steady rate of climb in feet per minute shall not be less than $0.035\ V_{s_1}^2$ with all other conditions as described in paragraph (a) of this section.

(c) *Flaps in en route position.* The steady rate of climb in feet per minute at any altitude at which the airplane is expected to operate, at any weight within the range of weights to be specified in the airworthiness certificate, shall be determined and shall, at a standard altitude of 5,000 feet and at the maximum take-off weight, be at least

$$\left(0.06-\frac{0.08}{N}\right)V_{s_0}^2,$$

where $N$ is the number of engines installed, with:

(1) The landing gear retracted,

(2) Wing flaps in the most favorable position,

(3) Cowl flaps or other means of controlling the engine cooling air supply in the position which provides adequate cooling in the hot-day condition,

(4) Center of gravity in the most unfavorable position,

(5) The critical engine inoperative, its propeller stopped,

(6) All remaining engines operating at the maximum continuous power available at the altitude.

(d) *Flaps in approach position.* The steady rate of climb in feet per minute shall not be less than $0.04\ V_{s_0}^2$ at any altitude within the range for which landing weight is to be specified in the certificate, with:

(1) The landing gear retracted,

(2) Wing flaps set in position such that $V_{s_1}$ does not exceed 1.10 $V_{s_0}$,

(3) Cowl flaps in the position normally used during an approach to a landing,

(4) Center of gravity in the most unfavorable position permitted for landing,

(5) The critical engine inoperative, its propeller stopped,

(6) All remaining engines operating at the take-off power available at such altitude,

(7) The weight equal to the maximum landing weight for that altitude.

§ 4b.121 *Two-engine-inoperative climb.* For airplanes with four or more engines, the steady rate of climb at any altitude at which the airplane is expected to operate, and at any weight within the range of weights to be specified in the Airplane Flight Manual, shall be determined with:

(a) The landing gear retracted,

(b) Wing flaps in the most favorable position,

(c) Cowl flaps or other means of controlling the engine cooling air supply in the position which will provide adequate cooling in the hot-day condition,

(d) Center of gravity in the most unfavorable position,

(e) The two critical engines on one side of the airplane inoperative and their propellers stopped,

(f) All remaining engines operating at the maximum continuous power available at that altitude.

§ 4b.122 *Determination of the landing distance; general.* The horizontal distance required to land and to come to a complete stop (to a speed of approximately 3 m. p. h. for seaplanes or float planes) from a point at a height of 50 feet above the landing surface shall be determined for a range of weights and altitudes selected by the applicant. In making this determination the following conditions shall apply:

(a) A steady gliding approach shall have been maintained down to the 50-foot altitude with a calibrated air speed of not less than $1.3\ V_{s_0}$.

(b) The nose of the airplane shall not be depressed, nor the forward thrust increased by application of power after reaching the 50-foot altitude.

(c) At all times during and immediately prior to the landing, the flaps shall be in the landing position, except that after the airplane is on the landing surface and the calibrated air speed has been reduced to not more than $0.9\ V_{s_0}$ the flap position may be changed.

(d) The landing shall be made in such manner that there is no excessive vertical acceleration, no tendency to bounce, nose over, ground loop, porpoise, or water loop, and in such manner that its reproduction shall not require any exceptional degree of skill on the part of the pilot, or exceptionally favorable conditions.

§ 4b.123 *Landplanes.* The landing distance referred to in § 4b.122 shall be determined on a dry, hard-surfaced runway in accordance with the following:

(a) The operating pressures on the braking system shall not be in excess of those approved by the manufacturer of the brakes,

(b) The brakes shall not be used in such manner as to produce excessive wear of brakes or tires,

(c) Means other than wheel brakes may be used in determining the landing distance: *Provided,* That:

(1) Exceptional skill is not required to control the airplane,

(2) The manner of their employment is such that consistent results could be expected under normal service, and

(3) They are regarded as reliable.

§ 4b.124 *Seaplanes or float planes.* The landing distance referred to in § 4b.122 shall be determined on smooth water.

§ 4b.125 *Skiplanes.* The landing distance referred to in § 4b.122 shall be determined on smooth, dry snow.

CONTROLLABILITY

§ 4b.130 *Controllability; general.* (a) The airplane shall be safely controllable and maneuverable during take-off, climb, level flight, descent, and landing.

(b) It shall be possible to make a smooth transition from one flight condition to another, including turns and slips, without requiring an exceptional degree of skill, alertness, or strength on the part of the pilot and without danger of exceeding the limit load factor under all conditions of operation probable for the type, including those conditions normally encountered in the event of sudden failure of any engine.

§ 4b.131 *Longitudinal control.* (a) It shall be possible at all speeds between $1.4\ V_{s_1}$ and $V_{s_1}$ to pitch the nose downward so that a prompt recovery to a speed equal to $1.4\ V_{s_1}$ can be made with the following combinations of configuration:

(1) The airplane trimmed at $1.4\ V_{s_1}$,

(2) The landing gear extended,

(3) The wing flaps in a retracted, and in an extended position,

(4) Power off, and maximum continuous power on all engines.

(b) During each of the following controllability demonstrations a change in the trim control, or the exertion of more control force than can be readily applied with one hand for a short period, shall not be required. Each maneuver shall be performed with the landing gear extended.

(1) With power off, flaps retracted, and the airplane trimmed at $1.4\ V_{s_1}$, the flaps shall be extended as rapidly as possible while maintaining the air speed approximately 40 percent above the stalling speed prevailing at any instant throughout the maneuver.

(2) The maneuver of subparagraph (1) of this paragraph shall be repeated, except that it shall be started with flaps extended and the airplane trimmed at $1.4\ V_{s_1}$, after which the flaps shall be retracted as rapidly as possible.

(3) The maneuver of subparagraph (2) of this paragraph shall be repeated, except that take-off power shall be used.

(4) With power off, flaps retracted, and the airplane trimmed at $1.4\ V_{s_1}$, take-off power shall be applied quickly while maintaining the same air speed.

(5) The maneuver of subparagraph (4) of this paragraph shall be repeated, except that the flaps shall be extended.

(6) With power off, flaps extended, and the airplane trimmed at $1.4\ V_{s_1}$, air speeds within the range of $1.1\ V_{s_1}$ to $1.7\ V_{s_1}$ or to $V_{FE}$, whichever of the two is the lesser, shall be obtained and maintained.

(c) It shall be possible without the use of exceptional piloting skill to prevent loss of altitude when wing flap retraction from any position is initiated during steady straight level flight at a speed equal to $1.1\ V_{s_1}$ with simultaneous application of not more than maximum continuous power, with the landing gear extended, and with the airplane weight equal to the maximum sea level landing weight. (See also § 4b.323.)

§ 4b.132 *Directional and lateral control*—(a) *Directional control; general.* It shall be possible, while holding the wings approximately level, to execute reasonably sudden changes in heading in either direction without encountering dangerous characteristics. Heading changes up to 15° shall be demonstrated, except that the heading change at which the rudder pedal force is 180 pounds need not be exceeded. The control shall be demonstrated at a speed equal to $1.4\ V_{s_1}$, under the following conditions:

(1) The critical engine inoperative and its propeller in the minimum drag position,

(2) Power required for level flight at $1.4\ V_{s_1}$, but not greater than maximum continuous power,

(3) Most unfavorable center of gravity position,

(4) Landing gear retracted,

(5) Wing flaps in the approach position,

(6) Maximum landing weight.

(b) *Directional control; four or more engines.* Airplanes with four or more engines shall comply with paragraph (a) of this section, except that:

(1) The two critical engines shall be inoperative, their propellers in the minimum drag position,

(2) The center of gravity shall be in the most forward position,

(3) The wing flaps shall be in the most favorable climb position.

(c) *Lateral control; general.* It shall be possible to execute 20° banked turns with and against the inoperative engine from steady flight at a speed equal to $1.4\ V_{s_1}$ with:

(1) The critical engine inoperative and its propeller in the minimum drag position,

(2) Maximum continuous power on the operating engines,

(3) Most unfavorable center of gravity position,

(4) Landing gear retracted and extended,

(5) Wing flaps in the most favorable climb position,

(6) Maximum take-off weight.

(d) *Lateral control; four or more engines.* It shall be possible to execute 20° banked turns with and against the inoperative engines from steady flight at a speed equal to $1.4\ V_{s_1}$ with maximum continuous power and with the airplane in the configuration prescribed by paragraph (b) of this section.

§ 4b.133 *Minimum control speed, $V_{MC}$.* (a) A minimum speed shall be

determined under the conditions specified in this paragraph, so that when the critical engine is suddenly made inoperative at that speed it shall be possible to recover control of the airplane, with the engine still inoperative, and maintain it in straight flight at that speed, either with zero yaw or, at the option of the applicant, with an angle of bank not in excess of 5°. Such speed shall not exceed 1.2 $V_{s_1}$ with:

(1) Take-off or maximum available power on all engines,

(2) Rearmost center of gravity,

(3) Flaps in take-off position,

(4) Landing gear retracted,

(5) Cowl flaps in the position normally used during take-off,

(6) Maximum sea level take-off weight, or such lesser weight as may be necessary to demonstrate $V_{MC}$,

(7) The airplane trimmed for take-off,

(8) The propeller of the inoperative engine windmilling, except that a different position of the propeller shall be acceptable if the specific design of the propeller control makes it more logical to assume the different position,

(9) The airplane airborne and the ground effect negligible.

(b) In demonstrating the minimum speed of paragraph (a) of this section, the rudder force required to maintain control shall not exceed 180 pounds, and it shall not be necessary to throttle the remaining engines.

(c) During recovery of the maneuver of paragraph (a) of this section the airplane shall not assume any dangerous attitude, nor shall it require exceptional skill, strength, or alertness on the part of the pilot to prevent a change of heading in excess of 20° before recovery is complete.

NOTE: Interpretation No. 1 (17 F. R. 2112, Mar. 12, 1952), adopted by the Civil Aeronautics Board, Mar. 7, 1952, provides as follows:

(1) The Board interprets and construes subparagraph (8) of § 4b.133 (a) as requiring the Administrator to accept for the purposes of § 4b.133 a value for the one-engine-inoperative minimum control speed which has been established in accordance with the provisions of that section with the propeller of the inoperative engine feathered: *Provided*, That the airplane involved is equipped with an automatic feathering device acceptable to the Administrator under § 4b.10 for demonstrating compliance with the take-off path and climb requirement of §§ 4b.116 and 4b.120 (a) and (b).

TRIM

§ 4b.140 *General.* The means used for trimming the airplane shall be such that after being trimmed and without further pressure upon, or movement of, either the primary control or its corresponding trim control by the pilot or the automatic pilot, the airplane shall comply with the trim requirements of §§ 4b.141 through 4b.144.

§ 4b.141 *Lateral and directional trim.* The airplane shall maintain lateral and directional trim under the most adverse lateral displacement of the center of gravity within the relevant operating limitations, under all normally expected conditions of operation, including operation at any speed from 1.4 $V_{s_1}$ to 90 percent of the maximum speed in level flight obtained with maximum continuous power.

§ 4b.142 *Longitudinal trim.* The airplane shall maintain longitudinal trim under the following conditions:

(a) During a climb with maximum continuous power at a speed not in excess of 1.4 $V_{s_1}$ with the landing gear retracted and the wing flaps both retracted and in the take-off position,

(b) During a glide with power off at a speed not in excess of 1.4 $V_{s_1}$ with the landing gear extended and the wing flaps both retracted and extended, with the forward center of gravity position approved for landing with the maximum landing weight, and with the most forward center of gravity position approved for landing regardless of weight,

(c) During level flight at any speed from 1.4 $V_{s_1}$ to 90 percent of the maximum speed in level flight obtained with maximum continuous power with the landing gear and wing flaps retracted, and from 1.4 $V_{s_1}$ to $V_{LE}$ with the landing gear extended.

§ 4b.143 *Longitudinal, directional, and lateral trim.* (a) The airplane shall maintain longitudinal, directional, and lateral trim at a speed equal to 1.4 $V_{s_1}$ during climbing flight with the critical engine inoperative, with

(1) The remaining engine(s) operating at maximum continuous power,

(2) Landing gear retracted,

(3) Wing flaps retracted.

(b) In demonstrating compliance with the lateral trim requirement of paragraph (a) of this section, the angle of bank of the airplane shall not be in excess of 5 degrees.

§ 4b.144 *Trim for airplanes with four or more engines.* The airplane shall maintain trim in rectilinear flight at the climb speed, configuration, and power used in establishing the rates of climb in § 4b.121, with the most unfavorable center of gravity position, and at the weight at which the two-engine-inoperative climb is equal to at least 0.01 $V_{s_0}^2$ at an altitude of 5,000 feet.

STABILITY

§ 4b.150 *General.* The airplane shall be longitudinally, directionally, and laterally stable in accordance with §§ 4b.151 through 4b.157. Suitable stability and control "feel" (static stability) shall be required in other conditions normally encountered in service if flight tests show such stability to be necessary for safe operation.

§ 4b.151 *Static longitudinal stability.* In the conditions outlined in §§ 4b.152 through 4b.155, the characteristics of the elevator control forces and friction shall comply with the following:

(a) A pull shall be required to obtain and maintain speeds below the specified trim speed, and a push shall be required to obtain and maintain speeds above the specified trim speed. This criterion shall apply at any speed which can be obtained without excessive control force, except that such speeds need not be greater than the appropriate operating limit speed or need not be less than the minimum speed in steady unstalled flight.

(b) The air speed shall return to within 10 percent of the original trim speed when the control force is slowly released from any speed within the limits defined in paragraph (a) of this section.

(c) The stable slope of stick force curve versus speed shall be such that any substantial change in speed is clearly perceptible to the pilot through a resulting change in stick force.

§ 4b.152 *Stability during landing.* The stick force curve shall have a stable slope, and the stick force shall not exceed 80 pounds at any speed between 1.1 $V_{s_1}$ and 1.8 $V_{s_1}$ with:

(a) Wing flaps in the landing position,

(b) The landing gear extended,

(c) Maximum landing weight,

(d) Throttles closed on all engines,

(e) The airplane trimmed at 1.4 $V_{s_1}$ with throttles closed.

§ 4b.153 *Stability during approach.* The stick force curve shall have a stable slope at all speeds between 1.1 $V_{s_1}$ and 1.8 $V_{s_1}$ with:

(a) Wing flaps in sea level approach position,

(b) Landing gear retracted,

(c) Maximum landing weight,

(d) The airplane trimmed at 1.4 $V_{s_1}$ and with power sufficient to maintain level flight at this speed.

§ 4b.154 *Stability during climb.* The stick force curve shall have a stable slope at all speeds between 85 and 115 percent of the speed at which the airplane is trimmed with:

(a) Wing flaps retracted,

(b) Landing gear retracted,

(c) Maximum take-off weight,

(d) 75 percent of maximum continuous power,

(e) The airplane trimmed at the best rate-of-climb speed, except that the speed need not be less than 1.4 $V_{s_1}$.

§ 4b.155 *Stability during cruising*—(a) *Landing gear retracted.* Between 1.3 $V_{s_1}$ and $V_{NE}$ the stick force curve shall have a stable slope at all speeds obtainable with a stick force not in excess of 50 pounds with:

(1) Wing flaps retracted,

(2) Maximum take-off weight,

(3) 75 percent of maximum continuous power,

(4) The airplane trimmed for level flight with 75 percent of the maximum continuous power.

(b) *Landing gear extended.* The stick force curve shall have a stable slope at all speeds between 1.3 $V_{s_1}$ and the speed at which the airplane is trimmed, except that the range of speeds need not exceed that obtainable with a stick force of 50 pounds with:

(1) Wing flaps retracted,

(2) Maximum take-off weight,

(3) 75 percent maximum continuous power, or the power for level flight at the landing gear extended speed, $V_{LE}$, whichever is the lesser,

(4) The airplane trimmed for level flight with the power specified in subparagraph (3) of this paragraph.

§ 4b.156 *Dynamic longitudinal stability.* Any short period oscillation occurring between stalling speed and maximum permissible speed appropriate to the configuration of the airplane shall be heavily damped with the primary controls free and in a fixed position.

§ 4b.157 *Static directional and lateral stability.* (a) The static directional stability, as shown by the tendency to recover from a skid with rudder free, shall be positive with all landing gear and flap positions and symmetrical power conditions, at all speeds from 1.2 $V_{s_1}$ up to the operating limit speed.

(b) The static lateral stability, as shown by the tendency to raise the low wing in a sideslip with the aileron controls free and with all landing gear and flap positions and symmetrical power conditions, shall:

(1) Be positive at the operating limit speed,

(2) Not be negative at a speed equal to 1.2 $V_{s_1}$.

(c) In straight steady sideslips (unaccelerated forward slips) the aileron and rudder control movements and forces shall be substantially proportional to the angle of sideslip, and the factor of proportionality shall lie between limits found necessary for safe operation throughout the range of sideslip angles appropriate to the operation of the airplane. At greater angles up to that at which the full rudder control is employed or a rudder pedal force of 180 pounds is obtained, the rudder pedal forces shall not reverse, and increased rudder deflection shall produce increased angles of sideslip. Sufficient bank shall accompany sideslipping to indicate clearly any departure from steady unyawed flight, unless a yaw indicator is provided.

§ 4b.158 *Dynamic directional and lateral stability.* Any short period oscillation occurring between stalling speed and maximum permissible speed appropriate to the configuration of the airplane shall be heavily damped with the primary controls free and in a fixed position.

STALLING CHARACTERISTICS

§ 4b.160 *Stalling; symmetrical power.* (a) Stalls shall be demonstrated with the airplane in straight flight and in banked turns at 30 degrees, both with power off and with power on. In the power-on conditions the power shall be that necessary to maintain level flight at a speed of 1.6 $V_{s_1}$, where $V_{s_1}$ corresponds with the stalling speed with flaps in the approach position, the landing gear retracted, and maximum landing weight.

(b) The stall demonstration shall be in the following configurations:

(1) Wing flaps and landing gear in any likely combination of positions,

(2) Representative weights within the range for which certification is sought,

(3) The center of gravity in the most adverse position for recovery.

(c) The stall demonstration shall be conducted as follows:

(1) With trim controls adjusted for straight flight at a speed of 1.4 $V_{s_1}$, the speed shall be reduced by means of the elevator control until it is steady at slightly above stalling speed; after which the elevator control shall be applied at a rate such that the airplane speed reduction does not exceed one mile per hour per second until the airplane is stalled or, if the airplane is not stalled, until the control reaches the stop.

(2) The airplane shall be considered stalled when, at an angle of attack measurably greater than that of maximum lift, the inherent flight characteristics give a clear indication to the pilot that the airplane is stalled.

NOTE: A nose-down pitch or a roll which cannot be readily arrested are typical indications that the airplane is stalled. Other indications, such as marked loss of control effectiveness, abrupt change in control force or motion, characteristic buffeting, or a distinctive vibration of the pilot's controls, may be accepted if found in a particular case to be sufficiently clear.

(3) Recovery from the stall shall be effected by normal recovery techniques, starting as soon as the airplane is stalled.

(d) During stall demonstration it shall be possible to produce and to correct roll and yaw by unreversed use of the aileron and rudder controls up to the moment the airplane is stalled; there shall occur no abnormal nose-up pitching; and the longitudinal control force shall be positive up to and including the stall.

(e) In straight flight stalls the roll occurring between the stall and the completion of the recovery shall not exceed approximately 20 degrees.

(f) In turning flight stalls the action of the airplane following the stall shall not be so violent or extreme as to make it difficult with normal piloting skill to effect a prompt recovery and to regain control of the airplane.

(g) In both the straight flight and the turning flight stall demonstrations it shall be possible promptly to prevent the airplane from stalling and to recover from the stall condition by normal use of the controls.

§ 4b.161 *Stalling; asymmetrical power.* (a) The airplane shall be safely recoverable without applying power to the inoperative engine when stalled with:

(1) The critical engine inoperative,

(3) Flaps and landing gear retracted,

(3) The remaining engines operating up to 75 percent of maximum continuous power, except that the power need not be greater than that at which the wings can be held level laterally with the use of maximum control travel.

(b) It shall be acceptable to throttle back the operating engines during the recovery from the stall.

§ 4b.162 *Stall warning.* Clear and distinctive stall warning shall be apparent to the pilot with sufficient margin to prevent inadvertent stalling of the airplane with flaps and landing gear in all normally used positions, both in straight and in turning flight. It shall be acceptable for the warning to be furnished either through the inherent aerodynamic qualities of the airplane or by a device which will give clearly distinguishable indications under all expected conditions of flight.

NOTE: A stall warning beginning at a speed 7 percent above the stalling speed is normally considered sufficient margin. Other margins may be acceptable depending upon the degree of clarity, duration, and distinctiveness of the warning and upon other characteristics of the airplane evidenced during the approach to the stall.

GROUND HANDLING CHARACTERISTICS

§ 4b.170 *Longitudinal stability and control.* (a) There shall be no uncontrollable tendency for landplanes to nose over in any reasonably expected operating condition or when rebound occurs during landing or take-off.

(b) Wheel brakes shall operate smoothly and shall exhibit no undue tendency to induce nosing over.

(c) When a tail-wheel landing gear is used it shall be possible during the take-off ground run on concrete to maintain any attitude up to thrust line level at 80 percent of $V_{s_1}$.

§ 4b.171 *Directional stability and control.* (a) There shall be no uncontrollable ground-looping tendency in 90° cross winds of velocity up to 0.2 $V_{s_0}$ at any ground speed at which the airplane is expected to operate.

(b) All landplanes shall be demonstrated to be satisfactorily controllable with no exceptional degree of skill or alertness on the part of the pilot in power-off landings at normal landing speed during which brakes or engine power are not used to maintain a straight path.

(c) Means shall be provided for directional control of the airplane during taxying.

§ 4b.172 *Shock absorption.* The shock absorbing mechanism shall not produce damage to the structure when the airplane is taxied on the roughest ground which it is reasonable to expect the airplane to encounter in normal operation.

§ 4b.173 *Demonstrated cross wind.* There shall be established a cross component of wind velocity at which it has been demonstrated to be safe to take off or land.

WATER HANDLING CHARACTERISTICS

§ 4b.180 *Water conditions.* The most adverse water conditions in which the seaplane has been demonstrated to be safe for take-off, taxying, and alighting shall be established.

§ 4b.181 *Wind conditions.* The following wind velocities shall be established:

(a) A lateral component of wind velocity not less than 0.2 $V_{s_0}$ at and below which it has been demonstrated that the seaplane is safe for taking off and alighting under all water conditions in which the seaplane is likely to be operated;

(b) A wind velocity at and below which it has been demonstrated that the seaplane is safe in taxying in all directions, under all water conditions in which the seaplane is likely to be operated.

§ 4b.182 *Control and stability on the water.* (a) In taking off, taxying, and alighting, the seaplane shall not exhibit the following:

(1) Any dangerously uncontrollable porpoising, bouncing, or swinging tendency;

(2) Any submerging of auxiliary floats or sponsons, any immersion of wing tips, propeller blades, or other parts of the seaplane which are not designed to withstand the resulting water loads;

(3) Any spray forming which would impair the pilot's view, cause damage to the seaplane, or result in ingress of an undue quantity of water.

(b) Compliance with paragraph (a) of this section shall be shown under the following conditions:

(1) All water conditions from smooth to the most adverse condition established in accordance with § 4b.180;

(2) All wind and cross-wind velocities, water currents, and associated waves and swells which the seaplane is likely to encounter in operation on water;

(3) All speeds at which the seaplane is likely to be operated on the water;

(4) Sudden failure of the critical engine, occurring at any time while the airplane is operated on water;

(5) All seaplane weights and center of gravity positions within the range of loading conditions for which certification is sought, relevant to each condition of operation.

(c) In the water conditions of paragraph (b) of this section and the corresponding wind conditions the seaplane shall be able to drift for 5 minutes with engines inoperative, aided if necessary by a sea anchor.

MISCELLANEOUS FLIGHT REQUIREMENTS

§ 4b.190 *Flutter and vibration.* (a) All parts of the airplane shall be demonstrated in flight to be free from flutter and excessive vibration under all speed and power conditions appropriate to the operation of the airplane up to at least the minimum value permitted for $V_D$ in § 4b.210 (b) (5). The maximum speeds so demonstrated shall be used in establishing the operating limitations of the airplane in accordance with § 4b.711.

(b) There shall be no buffeting condition in normal flight severe enough to interfere with the control of the airplane, to cause excessive fatigue to the crew, or to cause structural damage.[2] (See also § 4b.308.)

SUBPART C—STRUCTURE

GENERAL

§ 4b.200 *Loads.* Strength requirements of this subpart are specified in terms of limit and ultimate loads. Unless otherwise stated, the specified loads shall be considered as limit loads. In determining compliance with these requirements the following shall be applicable:

(a) The factor of safety shall be 1.5 unless otherwise specified.

(b) Unless otherwise provided, the specified air, ground, and water loads shall be placed in equilibrium with inertia forces, considering all items of mass in the airplane.

(c) All loads shall be distributed in a manner closely approximating or conservatively representing actual conditions.

[2] It is not the intent of this requirement to discourage such stall warning buffeting as does not contradict these provisions.

(d) If deflections under load significantly change the distribution of external or internal loads, the redistribution shall be taken into account.

§ 4b.201 *Strength and deformation.* (a) The structure shall be capable of supporting limit loads without suffering detrimental permanent deformations.

(b) At all loads up to limit loads the deformation shall be such as not to interfere with safe operation of the airplane.

(c) The structure shall be capable of supporting ultimate loads without failure. It shall support the load for at least 3 seconds, unless proof of strength is demonstrated by dynamic tests simulating actual conditions of load application.

(d) Where structural flexibility is such that any rate of load application likely to occur in the operating conditions might produce transient stresses appreciably higher than those corresponding with static loads, the effects of such rate of application shall be considered.

§ 4b.202 *Proof of structure.* (a) Proof of compliance of the structure with the strength and deformation requirements of § 4b.201 shall be made for all critical loading conditions.

(b) Proof of compliance by means of structural analysis shall be acceptable only when the structure conforms to types for which experience has shown such methods to be reliable. In all other cases substantiating tests shall be required.

(c) In all cases certain portions of the structure shall be tested as specified in § 4b.300.

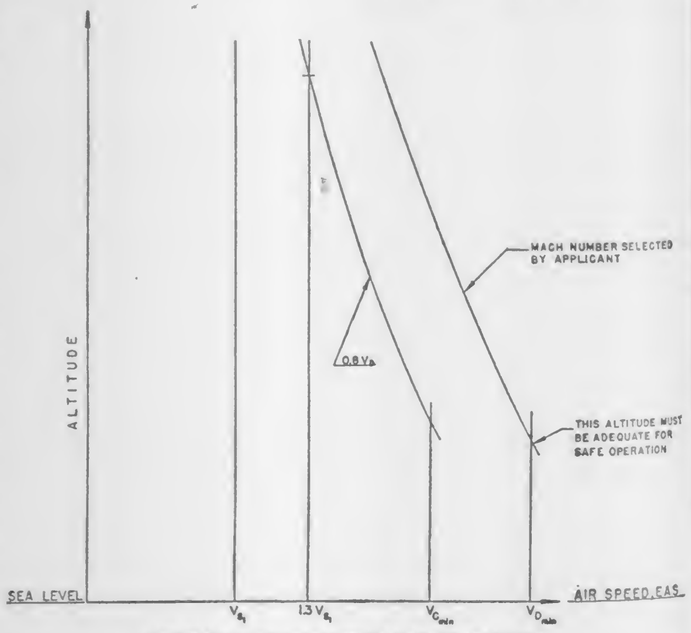

FIGURE 4b-1—Minimum design air speeds vs. altitude.

FLIGHT LOADS

§ 4b.210 *General.* Flight load requirements shall be complied with at critical altitudes within the range selected by the applicant, at all weights from the design minimum weight to the design maximum weight, the latter not being less than the design take-off weight, with any practicable distribution of disposable load within prescribed operating limitations stated in the Airplane Flight Manual (see § 4b.740). At all speeds in excess of those corresponding with a Mach number of 0.65, compressibility effects shall be taken into account.

(a) *Flight load factor.* The flight load factors specified in this subpart shall represent the component of acceleration in terms of the gravitational constant. The flight load factor shall be assumed to act normal to the longitudinal axis of the airplane, shall be equal in magnitude, and shall be opposite in direction to the airplane inertia load factor at the center of gravity.

(b) *Design air speeds.* The design air speeds shall be equivalent air speeds (EAS) and shall be chosen by the applicant, except that they shall not be less than the speeds defined in subparagraphs (1) through (5) of this paragraph. Where estimated values of the speeds $V_{S_0}$ and $V_{S_1}$ are used, such estimates shall be conservative.

(1) *Design flap speed, $V_F$.* The minimum value of the design flap speed shall be equal to 1.4 $V_{S_1}$ or 1.8 $V_{S_0}$, whichever is the greater, where $V_{S_1}$ is the stalling speed with flaps retracted at the design landing weight, and $V_{S_0}$ is the stalling speed with flaps in the landing position at the design landing weight. (See § 4b.212 (d) regarding automatic flap operation.)

(2) *Design maneuvering speed, $V_A$.* The design maneuvering speed $V_A$ shall be equal to $V_{S_1}\sqrt{n}$ where $n$ is the limit maneuvering load factor used (see § 4b.211 (a)) and $V_{S_1}$ is the stalling speed with flaps retracted at the design take-off weight. (See fig. 4b-2.)

(3) *Design speed for maximum gust intensity, $V_B$.* $V_B$ shall be the speed at which the 40 f. p. s. gust line intersects the positive $C_{Nmax}$ curve on the gust $V$–$n$ envelope. (See § 4b.211 (b) and fig. 4b-3.)

(4) *Design cruising speed, $V_C$.* The minimum design cruising speed $V_C$ shall be sufficiently greater than $V_B$ to provide for inadvertent speed increases likely to occur as a result of severe atmospheric turbulence. In the absence of a rational investigation substantiating the use of other values, $V_C$ shall not be less than $V_B$+50 (m. p. h.), except that it need not exceed the maximum speed in level flight at maximum continuous power for the corresponding altitude. At altitudes where $V_D$ is limited by Mach number, $V_C$ need not exceed 0.8 $V_D$, as shown in figure 4b-1, except that it shall not be less than 1.3 $V_{S_1}$ with the flaps retracted at the maximum altitude for which certification is desired.

(5) *Design dive speed $V_D$.* The minimum design dive speed $V_D$ shall be sufficiently greater than $V_C$ to provide for safe recovery from inadvertent upsets occurring at $V_C$. In the absence of a rational investigation, the minimum value of $V_D$ shall not be less than 1.25 $V_C$ or $V_C$+70 (m. p. h.), whichever is the greater, in the altitude range between sea level and an altitude selected by the applicant. At higher altitudes it shall be acceptable to limit $V_D$ to a Mach number selected by the applicant. (See fig. 4b-1.)

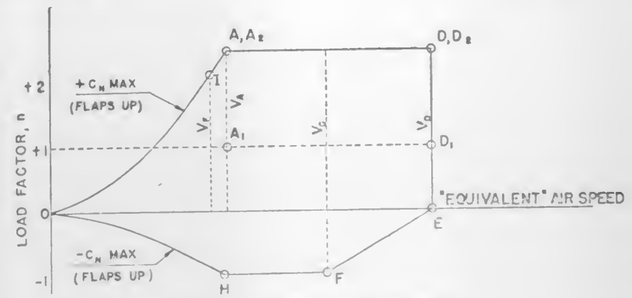

FIGURE 4b-2—Maneuvering envelope.

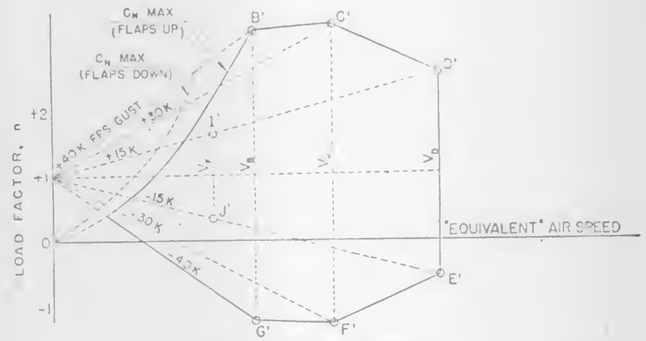

FIGURE 4b-3—Gust envelope.

§ 4b.211 *Flight envelopes.* The strength requirements shall be met at all combinations of air speed and load factor on and within the boundaries of the $V$–$n$ diagrams of figures 4b-2 and 4b-3 which represent the maneuvering and gust envelopes. These envelopes shall also be used in determining the airplane structural operating limitations as specified in § 4b.710.

(a) *Maneuvering load factors.* (See fig. 4b-2.) The airplane shall be assumed to be subjected to symmetrical maneuvers resulting in the limit load factors prescribed in subparagraphs (1) and (2) of this paragraph, except where limited by maximum (static) lift coefficients. Pitching velocities appropriate to the corresponding pull-up and steady turn maneuvers shall be taken into account. Lower values of maneuvering load factor shall be acceptable only if it is shown that the airplane embodies features of design which make it impossible to exceed such values in flight.

(1) The positive maneuvering load factor $n$ for any flight speed up to $V_D$ shall be selected by the applicant, except that it shall not be less than 2.5.

(2) The negative maneuvering load factor shall have a minimum value of −1.0 at all speeds up to $V_C$, and it shall vary linearly with speed from the value at $V_C$ to zero at $V_D$.

(b) *Gust load factors.* The airplane shall be assumed to be subjected to symmetrical vertical gusts while in level flight. The resulting limit load factors shall correspond with the following conditions:

(1) Positive (up) and negative (down) gusts of 40 f. p. s. nominal intensity at a speed $V_B$ shall be applicable where the positive 40 f. p. s. gust line intersects the positive $C_{Nmax}$ curve. If this gust intensity produces load factors greater than those obtained in condition (2) of this paragraph, it shall be acceptable to modify it at altitudes above 20,000 ft. in such a manner as to produce a load factor not less than that obtained in condition (2) of this paragraph.

(2) Positive and negative gusts of 30 f. p. s. shall be considered at $V_C$.

(3) Positive and negative gusts of 15 f. p. s. shall be considered at $V_D$.

(4) Gust load factors shall be assumed to vary linearly between the specified conditions as shown on the gust envelope of figure 4b–3.

(5) In the absence of a more rational analysis the gust load factors shall be computed by the following formula:

$$n = 1 + \frac{KUVa}{575(W/S)};$$

where

$K = \frac{1}{2}\left(\frac{W}{S}\right)^{1/4}$ (for $W/S$<16 p. s. f.), or

$K = 1.33 - \frac{2.67}{(W/S)^{3/4}}$ (for $W/S$>16 p. s. f.),

$U$ = nominal gust velocity (f. p. s.). (Note that the "effective sharp-edged" gust equals $KU$.)

$V$ = airplane speed (m. p. h.),

$W/S$ = wing loading (p. s. f.),

$a$ = slope of the airplane normal force coefficient curve $C_{N_A}$ per radian if the gust loads are applied to the wings and horizontal tail surfaces simultaneously by a rational method. It shall be acceptable to use the wing lift curve slope $C_L$ per radian when the gust load is applied to the wings only and the horizontal tail gust loads are treated as a separate condition.

§ 4b.212 *Effect of high lift devices.* When flaps or similar high lift devices intended for use at the relatively low air speeds of approach, landing, and take-off are installed, the airplane shall be assumed to be subjected to symmetrical maneuvers and gusts with the flaps in landing position at the design flap speed $V_F$ resulting in limit load factors within the range determined by the following conditions:

(a) Maneuvering to a positive limit load factor of 2.0,

(b) Positive and negative 15 fps nominal intensity gusts acting normal to the flight path in level flight,

(c) In designing flaps and supporting structure on tractor type airplanes, slipstream effects shall be taken into account as specified in § 4b.221. For other than tractor type airplanes a head-on gust of 25 feet per second with no alleviations acting along the flight path shall be considered.

(d) When automatic flap operation is provided, the airplane shall be designed for the speeds and the corresponding flap positions which the mechanism permits. (See § 4b.323.)

§ 4b.213 *Symmetrical flight conditions*—(a) *Procedure of analysis.* In the analysis of symmetrical flight conditions at least those specified in paragraphs (b), (c), and (d) of this section shall be considered. The following procedure of analysis shall be applicable:

(1) A sufficient number of points on the maneuvering and gust envelopes shall be investigated to insure that the maximum load for each part of the airplane structure is obtained. It shall be acceptable to use a conservative combined envelope for this purpose.

(2) All significant forces acting on the airplane shall be placed in equilibrium in a rational or a conservative manner. The linear inertia forces shall be considered in equilibrium with wing and horizontal tail surface loads, while the angular (pitching) inertia forces shall be considered in equilibrium with wing and fuselage aerodynamic moments and horizontal tail surface loads.

(3) Where sudden displacement of a control is specified, the assumed rate of displacement need not exceed that which actually could be applied by the pilot.

(4) In determining elevator angles and chordwise load distribution in the maneuvering conditions of paragraphs (b) and (c) of this section in turns and pull-ups, account shall be taken of the effect of corresponding pitching velocities.

(b) *Maneuvering balanced conditions.* The maneuvering conditions A through I on the maneuvering envelope (fig. 4b–2) shall be investigated, assuming the airplane to be in equilibrium with zero pitching acceleration.

(c) *Maneuvering pitching conditions.* The following conditions on figure 4b–2 involving pitching acceleration shall be investigated:

(1) $A_1$, *Unchecked pull-up at speed* $V_A$. The airplane shall be assumed to be flying in steady level flight (point $A_1$ on fig. 4b–2) and the pitching control suddenly moved to obtain extreme positive pitching (nose up), except as limited by pilot effort, § 4b.220 (a).

(2) $A_2$, *Checked maneuver at speed* $V_A$. (i) The airplane shall be assumed to be maneuvered to the positive maneuvering load factor by a checked maneuver from an initial condition of steady level flight (point $A_1$ on fig. 4b–2). The initial positive pitching portion of this maneuver may be considered to be covered by subparagraph (1) of this paragraph.

(ii) A negative pitching acceleration (nose down) of at least the following value shall be assumed to be attained concurrently with the airplane maneuvering load factor (point $A_2$ on fig. 4b-2), unless it is shown that a lesser value could not be exceeded:

$$-\frac{30}{V_A}n\ (n-1.5)\ \text{(radians/sec.}^2\text{)}$$

where $n$ is equal to the value of the positive maneuvering load factor as defined by point $A_2$ on figure 4b–2.

(3) $D_1$ *and* $D_2$ *checked maneuver at* $V_D$. The airplane shall be assumed to be subjected to a checked maneuver from steady level flight (point $D_1$ on fig. 4b–2) to the positive maneuvering load factor (point $D_2$ on fig. 4b–2) as follows:

(i) A positive pitching acceleration (nose up), equal to at least the following value, shall be assumed to be attained concurrently with the airplane load factor of unity, unless it is shown that lesser values could not be exceeded:

$$+\frac{45}{V_D}n\ (n-1.5)\ \text{(radians/sec.}^2\text{)}$$

where $n$ is equal to the value of the positive maneuvering load factor as defined by point $D_2$ on figure 4b–2.

(ii) A negative pitching acceleration (nose down) equal to at least the following value shall be assumed to be attained concurrently with the airplane positive maneuvering load factor (point $D_3$ on fig. 4b–2), unless it is shown that lesser values could not be exceeded:

$$-\frac{30}{V_D}n\ (n-1.5)\ \text{(radians/sec.}^2\text{)}$$

where $n$ is equal to the value of the positive maneuvering load factor as defined by point $D_3$ on figure 4b–2.

(d) *Gust conditions.* The gust conditions $B'$ through $J'$ on figure 4b–3 shall be investigated. The following provisions shall apply:

(1) The air load increment due to a specified gust shall be added to the initial balancing tail load corresponding with steady level flight.

(2) It shall be acceptable to include the alleviating effect of wing down-wash and of the airplane's motion in response to the gust in computing the tail gust load increment.

(3) In lieu of a rational investigation of the airplane response it shall be acceptable to apply the gust factor $K$ (see § 4b.211 (b)) to the specified gust intensity for the horizontal tail.

§ 4b.214 *Rolling conditions.* The airplane shall be designed for rolling loads resulting from the conditions specified in paragraphs (a) and (b) of this section. Unbalanced aerodynamic moments about the center of gravity shall be reacted in a rational or a conservative manner considering the principal masses furnishing the reacting inertia forces.

(a) *Maneuvering.* The following conditions, aileron deflection, and speeds, except as the deflections may be limited by pilot effort (see § 4b.220 (a)), shall be considered in combination with an airplane load factor of zero and of two-thirds of the positive maneuvering factor used in the design of the airplane. In determining the required aileron deflections, the torsional flexibility of the wing shall be taken into account in accordance with § 4b.200 (d).

(1) Conditions corresponding with steady rolling velocity shall be investigated. In addition, conditions corresponding with maximum angular acceleration shall be investigated for airplanes having engines or other weight concentrations outboard of the fuselage. For the angular acceleration conditions, it shall be acceptable to assume zero rolling velocity in the absence of a rational time history investigation of the maneuver.

(2) At speed $V_A$ a sudden deflection of the aileron to the stop shall be assumed.

(3) At speed $V_C$ the aileron deflection shall be that required to produce a rate of roll not less than that obtained in condition (2) of this paragraph.

(4) At speed $V_D$ the aileron deflection shall be that required to produce a rate of roll not less than one-third of that in condition (2) of this paragraph.

(b) *Unsymmetrical gusts.* The condition of unsymmetrical gusts shall be considered by modifying the symmetrical flight conditions $B'$ or $C'$ of figure 4b–3, whichever produces the greater load factor. It shall be assumed that 100 percent of the wing air load acts on one side of the airplane, and 80 percent acts on the other side.

§ 4b.215 *Yawing conditions.* The airplane shall be designed for loads resulting from the conditions specified in paragraphs (a) and (b) of this section. Unbalanced aerodynamic moments about the center of gravity shall be reacted in a rational or a conservative manner considering the principal masses furnishing the reacting inertia forces.

(a) *Maneuvering.* At all speeds from $V_{MC}$ to $V_A$ the following maneuvers shall be considered. In computing the tail loads it shall be acceptable to assume the yawing velocity to be zero.

(1) With the airplane in unaccelerated flight at zero yaw, it shall be assumed that the rudder control is suddenly displaced to the maximum deflection as limited by the control stops or by a 300 lb. rudder pedal force, whichever is critical.

(2) With the rudder deflected as specified in subparagraph (1) of this paragraph it shall be assumed that the airplane yaws to the resulting sideslip angle.

(3) With the airplane yawed to the static sideslip angle corresponding with the rudder deflection specified in subparagraph (1) of this paragraph, it shall be assumed that the rudder is returned to neutral.

(b) *Lateral gusts.* The airplane shall be assumed to encounter gusts of 30 f. p. s. nominal intensity normal to the plane of symmetry while in unaccelerated flight at speed $V_C$. In the absence of a rational investigation of the airplane's response to a true gust, it shall be acceptable to compute the gust loading on the vertical tail surfaces by the following formula:

$$\overline{W}=\frac{KUV_{c}a}{575}$$

where:

$\overline{W}$ = average limit unit pressure (p. s. f.),

$K=1.33-\left(\frac{4.5}{\frac{W}{S_V}}\right)^{3/4}$; except that $K$ shall not be less than 1.0. A value of $K$ obtained by rational determination shall be acceptable.

$U$ = nominal gust intensity (f. p. s.),

$V_c$ = design cruising speed (m. p. h.),

$a$ = slope of lift curve of the vertical surface $C_L$ per radian corrected for aspect ratio,

$W$ = design take-off weight (lb.),

$S_V$ = vertical surface area (sq. ft.).

§ 4b.216 *Supplementary flight conditions*—(a) *Engine torque effects.* Engine mounts and their supporting structures shall be designed for engine torque effects combined with basic flight conditions as described in subparagraphs (1) and (2) of this paragraph. The limit torque shall be obtained by multiplying the mean torque by a factor of 1.33 in the case of engines having 5 or more cylinders. For 4, 3, and 2-cylinder engines, the factors shall be 2, 3, and 4, respectively.

(1) The limit torque corresponding with take-off power and propeller speed shall act simultaneously with 75 percent of the limit loads from flight condition A (see fig. 4b–2).

(2) The limit torque corresponding with maximum continuous power and propeller speed shall act simultaneously with the limit loads from flight condition A (see fig. 4b–2).

(b) *Side load on engine mount.* The limit load factor in a lateral direction for this condition shall be equal to the maximum obtained in the yawing conditions, but shall not be less than either 1.33 or one-third the limit load factor for flight condition $A$ (see fig. 4b–2). Engine mounts and their supporting structure shall be designed for this condition which may be assumed independent of other flight conditions.

(c) *Pressurized cabin loads.* When pressurized compartments are provided for the occupants of the airplane, the following requirements shall be met. (See § 4b.373.)

(1) The airplane structure shall have sufficient strength to withstand the flight loads combined with pressure differential loads from zero up to the maximum relief valve setting. Account shall be taken of the external pressure distribution in flight.

(2) If landings are to be permitted with the cabin pressurized, landing loads shall be combined with pressure differential loads from zero up to the maximum to be permitted during landing.

(3) The airplane structure shall have sufficient strength to withstand the pressure differential loads corresponding with the maximum relief valve setting multiplied by a factor of 1.33 to provide for such effects as fatigue and stress concentration. It shall be acceptable to omit all other loads in this case.

(4) Where a pressurized cabin is separated into two or more compartments by bulkheads or floor, the primary structure shall be designed for the effects of sudden release of pressure in any compartment having external doors or windows. This condition shall be investigated for the effects resulting from the failure of the largest opening in a compartment. Where intercompartment venting is provided, it shall be acceptable to take into account the effects of such venting.

CONTROL SURFACE AND SYSTEM LOADS

§ 4b.220 *Control surface loads; general.* The control surfaces shall be designed for the limit loads resulting from the flight conditions prescribed in §§ 4b.213 through 4b.215 and the ground gust conditions prescribed in § 4b.226, taking into account the provisions of paragraphs (a) through (e) of this section.

(a) *Effect of pilot effort.* (1) In the control surface flight loading conditions the air loads on the movable surfaces and the corresponding deflections need not exceed those which could be obtained in flight by employing the maximum pilot control forces specified in fig. 4b–5, except that two-thirds of the maximum values specified for the aileron and elevator shall be acceptable when control surface hinge moments are based on reliable data. In applying this criterion, proper consideration shall be given to the effects of servo mechanisms, tabs, and automatic pilot systems in assisting the pilot.

(b) *Effect of trim tabs.* The effect of trim tabs on the main control surface design conditions need be taken into account only in cases where the surface loads are limited by pilot effort in accordance with the provisions of paragraph (a) of this section. In such cases the trim tabs shall be considered to be deflected in the direction which would assist the pilot, and the deflection shall be as follows:

(1) For elevator trim tabs the deflections shall be those required to trim the airplane at any point within the positive portion of the $V$-$n$ diagram (fig. 4b–2), except as limited by the stops.

(2) For aileron and rudder trim tabs the deflections shall be those required to trim the airplane in the critical unsymmetrical power and loading conditions, with appropriate allowance for rigging tolerances.

(c) *Unsymmetrical loads.* Horizontal tail surfaces and the supporting structure shall be designed for unsymmetrical loads arising from yawing and slipstream effects in combination with the prescribed flight conditions.

NOTE: In the absence of more rational data, the following assumptions may be made for airplanes which are conventional in regard to location of propellers, wings, tail surfaces, and fuselage shape: 100 percent of the maximum loading from the symmetrical flight conditions acting on the surface on one side of the plane of symmetry and 80 percent of this loading on the other side. Where the design is not conventional (e. g., where the horizontal tail surfaces have appreciable dihedral or are supported by the vertical tail surfaces), the surfaces and supporting structures may be designed for combined vertical and horizontal surface loads resulting from the prescribed maneuvers.

(d) *Outboard fins.* (1) When outboard fins are carried on the horizontal tail surface, the tail surfaces shall be designed for the maximum horizontal surface load in combination with the corresponding loads induced on the vertical surfaces by end plate effects. Such induced effects need not be combined with other vertical surface loads.

(2) To provide for unsymmetrical loading when outboard fins extend above and below the horizontal surface, the critical vertical surface loading (load per unit area) as determined by the provisions of this section shall also be applied as follows:

(i) 100 percent to the area of the vertical surfaces above (or below) the horizontal surface, and

(ii) 80 percent to the area below (or above) the horizontal surface.

(e) *Loads parallel to hinge line.* Control surfaces and supporting hinge brackets shall be designed for inertia loads acting parallel to the hinge line.

NOTE: In lieu of a more rational analysis the inertia loads may be assumed to be equal to $KW$, where:

$K=24$ for vertical surfaces,

$K=12$ for horizontal surfaces,

$W$ = weight of the movable surfaces.

§ 4b.221 *Wing flaps.* (a) Wing flaps, their operating mechanism, and supporting structure shall be designed for critical loads prescribed by § 4b.212 with the flaps extended to any position from fully retracted to the landing position.

(b) The effects of propeller slipstream corresponding with take-off power shall be taken into account at an airplane speed of not less than 1.4 $V_{s_1}$, where $V_{s_1}$ is the stalling speed with flaps as follows: (For automatic flaps see § 4b.212 (d).)

(1) Landing and approach settings at the design landing weight,

(2) Take-off and en route settings at the design take-off weight.

(c) It shall be acceptable to assume the airplane load factor to be equal to 1.0 for investigating the slipstream condition.

§ 4b.222 *Tabs.* The following shall apply to tabs and their installations:

(a) *Trimming tabs.* Trimming tabs shall be designed to withstand loads arising from all likely combinations of tab setting, primary control position, and airplane speed, obtainable without exceeding the flight load conditions prescribed for the airplane as a whole, when the effect of the tab is being opposed by pilot effort loads up to those specified in § 4b.220 (a).

(b) *Balancing tabs.* Balancing tabs shall be designed for deflections consistent with the primary control surface loading conditions.

(c) *Servo tabs.* Servo tabs shall be designed for all deflections consistent with the primary control surface loading conditions achievable within the pilot maneuvering effort (see § 4b.220 (a)) with due regard to possible opposition from the trim tabs.

§ 4b.223 *Special devices.* The loading for special devices employing aerodynamic surfaces, such as slots and spoilers, shall be based on test data.

§ 4b.224 *Primary flight control systems.* Elevator, aileron, and rudder control systems and their supporting structures shall be designed for loads corresponding with 125 percent of the computed hinge moments of the movable control surface in the conditions prescribed in § 4b.220, subject to the following provisions:

(a) The system limit loads, except the loads resulting from ground gusts (§ 4b.226), need not exceed those which can be produced by the pilot or pilots and

by automatic devices operating the controls. Acceptable maximum and minimum pilot loads for elevator, aileron, and rudder controls are shown in figure 4b–5. These pilot loads shall be assumed to act at the appropriate control grips or pads in a manner simulating flight conditions and to be reacted at the attachment of the control system to the control surface horn.

(b) The loads shall in any case be sufficient to provide a rugged system for service use, including considerations of jamming, ground gusts, taxying tail to wind, control inertia, and friction.

§ 4b.225 *Dual primary flight control systems.* (a) When dual controls are provided, the system shall be designed for the pilots operating in opposition, using individual pilot loads equal to 75 percent of those obtained in accordance with § 4b.224, except that the individual pilot loads shall not be less than the minimum loads specified in figure 4b–5.

(b) The control system shall be designed for the pilots acting in conjunction, using individual pilot loads equal to 75 percent of those obtained in accordance with § 4b.224.

§ 4b.226 *Ground gust conditions.* The following conditions intended to simulate the loadings on control surfaces due to ground gusts and when taxying downwind shall be investigated:

(a) The loads in the systems between the stops nearest the surfaces and the cockpit controls need not exceed those corresponding with the maxima of figure 4b–5 for each pilot alone, or with 75 percent of these maxima for each pilot when the pilots act in conjunction.

(b) The control system stops nearest the surfaces, the control system locks, and the portions of the systems, if any, between such stops and locks and the control surface horns shall be designed for limit hinge moments H obtained from the following formula:

$$H = KcSq,$$

where:

$H$ = limit hinge moment (ft. lbs.),
$c$ = mean chord of the control surface aft of the hinge line (ft.),
$S$ = area of the control surface aft of the hinge line (sq. ft.),
$q$ = dynamic pressure (p. s. f.) based on a design speed not less than $10\sqrt{W/S}+10$ (m. p. h.), except that the design speed need not exceed 60 m. p. h.,
$K$ = factor as specified in figure 4b–4.

§ 4b.227 *Secondary control systems.* Secondary controls, such as wheel brake, spoiler, and tab controls, shall be designed for the loads based on the maximum which a pilot is likely to apply to the control in question. The values of figure 4b–6 are considered acceptable.

| Surface | $K$ | Position of controls |
|---|---|---|
| (a) Aileron | 0.75 | Control column locked or lashed in mid-position. |
| (b) Aileron | *±0.50 | Ailerons at full throw. |
| (c) Elevator | *±0.75 | (c) Elevator full down. |
| (d) Elevator | | (d) Elevator full up. |
| (e) Rudder | 0.75 | (e) Rudder in neutral. |
| (f) Rudder | | (f) Rudder at full throw. |

*A positive value of $K$ indicates a moment tending to depress the surface, while a negative value of $K$ indicates a moment tending to raise the surface.

FIGURE 4b–4—Limit hinge moment factor for ground gusts.

[Limit pilot loads (one pilot)]

| Control | Maximum load | Minimum load |
|---|---|---|
| Aileron: | | |
| Stick | 100 lbs. | 40 lbs. |
| Wheel* | 80 $D$ in. lbs.** | 40 $D$ in. lbs. |
| Elevator: | | |
| Stick | 250 lbs. | 100 lbs. |
| Wheel | 300 lbs. | 100 lbs. |
| Rudder | 300 lbs. | 130 lbs. |

*The critical portions of the aileron control system shall be designed for a single tangential force having a limit value equal to 1.25 times the couple force determined from these criteria.
**$D$ = wheel diameter.

FIGURE 4b–5—Pilot control force limits (primary controls).

| Control | Limit pilot loads |
|---|---|
| Miscellaneous: *Crank wheel or lever. | $\frac{1+R}{3}\times 50$ lbs., but not less than 50 lbs. nor more than 150 lbs. ($R$ = radius). (Applicable to any angle within 20° of plane of control.) |
| Twist | 133 in. lbs. |
| Push-pull | To be chosen by applicant. |

*Limited to flap, tab, stabilizer, spoiler, and landing gear operating controls.

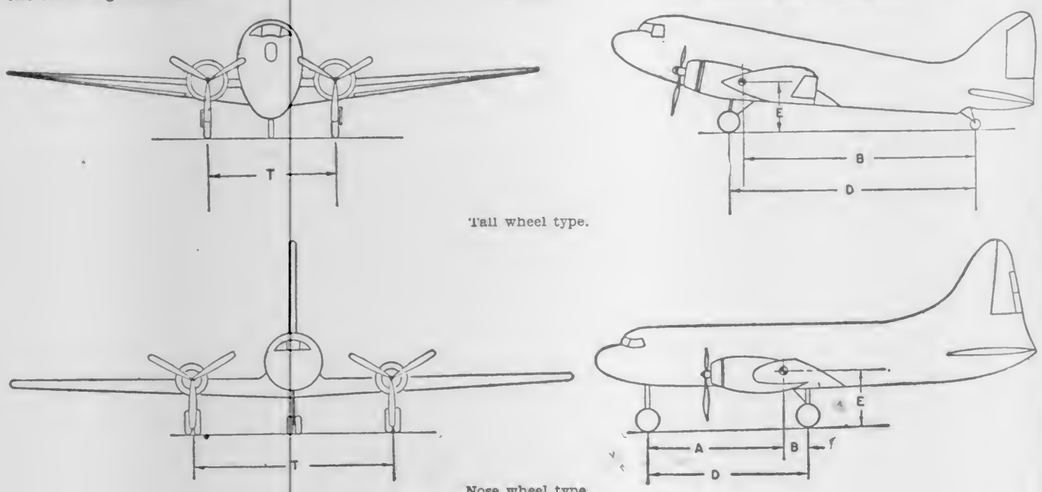

FIGURE 4b–6—Pilot control force limits (secondary controls).

### GROUND LOADS

§ 4b.230 *General.* The limit loads obtained in the conditions specified in §§ 4b.231 through 4b.236 shall be considered as external forces applied to the airplane structure and shall be placed in equilibrium by linear and angular inertia forces in a rational or conservative manner. In applying the specified conditions the provisions of paragraph (a) of this section shall be complied with. In addition, for the landing conditions of §§ 4b.231 through 4b.234 the airplane shall be assumed to be subjected to forces and descent velocities prescribed in paragraph (b) of this section. (The basic landing gear dimensional data are given in figure 4b–7.)

(a) *Center of gravity positions.* The critical center of gravity positions within the certification limits shall be selected so that the maximum design loads in each of the landing gear elements are obtained in the landing and the ground handling conditions.

(b) *Load factors, descent velocities, and design weights for landing conditions.* (1) In the landing conditions the limit vertical inertia load factors at the center of gravity of the airplane shall be chosen by the applicant, except that they shall not be less than the values which would be obtained when landing the airplane with the following limit descent velocities and weights:

Tail wheel type.

Nose wheel type.

FIGURE 4b–7—Basic landing gear dimension data.

(i) 10 f. p. s. at the design landing weight, and

(ii) 6 f. p. s. at the design take-off weight.

(2) It shall be acceptable to assume a wing lift not exceeding two-thirds of the airplane weight to exist throughout the landing impact and to act through the center of gravity of the airplane.

(3) The provisions of subparagraphs (1) and (2) of this paragraph shall be predicated on conventional arrangements of main and nose gears, or main and tail gears, and on normal operating techniques. It shall be acceptable to modify the prescribed descent velocities if it is shown that the airplane embodies features of design which make it impossible to develop these velocities. (See § 4b.332 (a) for requirements on energy absorption tests which determine the minimum limit inertia load factors corresponding with the required limit descent velocities.)

§ 4b.231 *Level landing conditions*—(a) *General.* In the level attitude the airplane shall be assumed to contact the ground at a forward velocity component parallel to the ground equal to 1.2 $V_{s_0}$ and shall be assumed to be subjected to the load factors prescribed in § 4b.230 (b) (1). The following three combinations of vertical and drag components shall be considered acting at the axle center line:

(1) *Condition of maximum wheel spin-up load.* Drag components simulating the forces required to accelerate the wheel rolling assembly up to the specified ground speed shall be combined with the vertical ground reactions existing at the instant of peak drag loads. A coefficient of friction between the tires and ground need not be assumed to be greater than 0.8. It shall be acceptable to apply this condition only to the landing gear and the directly affected attaching structure.

(2) *Condition of maximum wheel vertical load.* An aft acting drag component not less than 25 percent of the maximum vertical ground reaction shall be combined with the maximum ground reaction of § 4b.230 (b).

(3) *Condition of maximum spring-back load.* Forward-acting horizontal loads resulting from a rapid reduction of the spin-up drag loads shall be combined with the vertical ground reactions at the instant of the peak forward load. It shall be acceptable to apply this condition only to the landing gear and the directly affected structure.

(b) *Level landing; tail-wheel type.* The airplane horizontal reference line shall be assumed to be horizontal. The conditions specified in paragraph (a) of this section shall be investigated (See fig. 4b–8.)

(c) *Level landing; nose-wheel type.* The following airplane attitudes shall be considered: (See fig. 4b–8.)

(1) Main wheels shall be assumed to contact the ground with the nose wheel just clear of the ground. The conditions specified in paragraph (a) of this section shall be investigated.

(2) Nose and main wheels shall be assumed to contact the ground simultaneously. Conditions in this attitude need not be investigated if this attitude cannot reasonably be attained at the specified descent and forward velocities. The conditions specified in paragraph (a) of this section shall be investigated, except that in conditions (a) (1) and (a) (3) it shall be acceptable to investigate the nose and main gear separately neglecting the pitching moments due to wheel spin-up and spring-back loads, while in condition (a) (2) the pitching moment shall be assumed to be resisted by the nose gear.

§ 4b.232 *Tail-down landing conditions.* The following conditions shall be investigated for the load factors obtained in § 4b.230 (b) (1) with the vertical ground reactions applied to the landing gear axles.

(a) *Tail-wheel type.* The main and tail wheels shall be assumed to contact the ground simultaneously. (See fig. 4b–9). Two conditions of ground reaction on the tail wheel shall be assumed to act in the following directions:

(1) Vertical,

(2) Up and aft through the axle at 45° to the ground line.

(b) *Nose-wheel type.* The airplane shall be assumed to be at an attitude corresponding with either the stalling angle or the maximum angle permitting clearance with the ground by all parts of the airplane other than the main wheels, whichever is the lesser. (See fig. 4b–9.)

§ 4b.233 *One-wheel landing condition.* The main landing gear on one side of the airplane center line shall be assumed to contact the ground in the level attitude. (See fig. 4b–10.) The ground reactions on this side shall be the same as those obtained in § 4b.231 (a) (2). The unbalanced external loads shall be reacted by inertia of the airplane in a rational or conservative manner.

§ 4b.234 *Lateral drift landing condition.* (a) The airplane shall be assumed to be in the level attitude with only the main wheels contacting the ground. (See fig. 4b–11.)

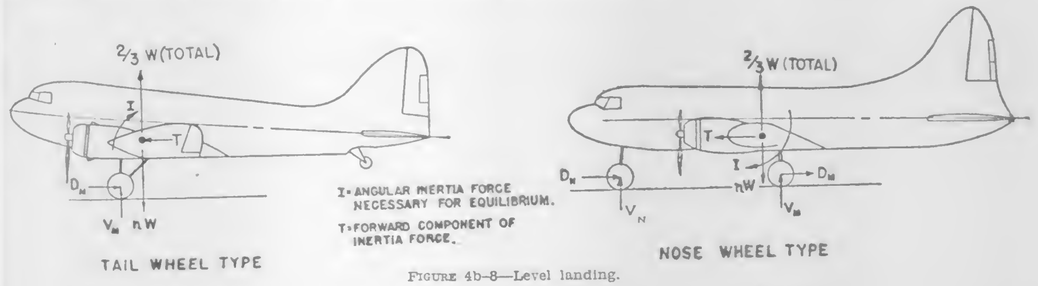

FIGURE 4b–8—Level landing.

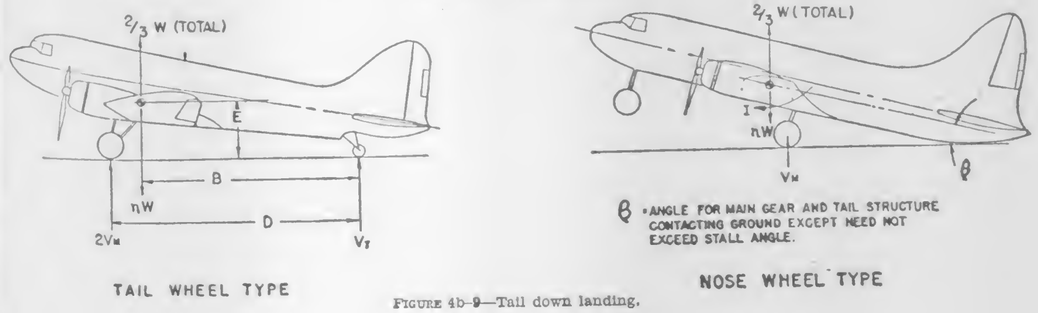

FIGURE 4b–9—Tail down landing.

(b) Side loads of 0.8 of the vertical reaction (on one side) acting inward and 0.6 of the vertical reaction (on the other side) acting outward shall be combined with one-half of the maximum vertical ground reactions obtained in the level landing conditions. These loads shall be assumed to be applied at the ground contact point and to be resisted by the inertia of the airplane. It shall be acceptable to assume the drag loads to be zero.

§ 4b.235 *Ground handling conditions.* The landing gear and airplane structure shall be investigated for the conditions of this section with the airplane at the design take-off weight, unless otherwise prescribed. No wing lift shall be considered. It shall be acceptable to assume the shock absorbers and tires to be deflected to their static position.

(a) *Take-off run.* The landing gear and the airplane structure shall be assumed to be subjected to loads not less than those encountered under conditions described in § 4b.172.

(b) *Braked roll*—(1) *Tail-wheel type.* The airplane shall be assumed to be in the level attitude with all load on the main wheels. The limit vertical load factor shall be 1.2 for the airplane at the design landing weight, and 1.0 for the airplane at the design take-off weight. A drag reaction equal to the vertical reaction multiplied by a coefficient of friction of 0.8 shall be combined with the vertical ground reaction and applied at the ground contact point. (See fig. 4b–12.)

(2) *Nose-wheel type.* The limit vertical load factor shall be 1.2 for the airplane at the design landing weight, and 1.0 for the airplane at the design take-off weight. A drag reaction equal to the vertical reaction multiplied by a coefficient of friction of 0.8 shall be combined with the vertical reaction and applied at the ground contact point of each wheel having brakes. The following two airplane attitudes shall be considered: (See fig. 4b–12.)

(i) The airplane shall be assumed to be in the level attitude with all wheels contacting the ground and the loads distributed between the main and nose gear. Zero pitching acceleration shall be assumed.

(ii) The airplane shall be assumed to be in the level attitude with only the main gear contacting the ground and the pitching moment resisted by angular acceleration.

(c) *Turning.* The airplane in the static position shall be assumed to execute a steady turn by nose gear steering or by application of differential power such that the limit load factors applied at the center of gravity are 1.0 vertically and 0.5 laterally. (See fig. 4b–13.) The side ground reaction of each wheel shall be 0.5 of the vertical reaction.

(d) *Pivoting.* The airplane shall be assumed to pivot about one side of the main gear, the brakes on that side being locked. The limit vertical load factor shall be 1.0 and the coefficient of friction 0.8. The airplane shall be assumed to be in static equilibrium, the loads being applied at the ground contact points. (See fig. 4b–14.)

(e) *Nose-wheel yawing.* (1) A vertical load factor of 1.0 at the airplane center of gravity and a side component at the nose wheel ground contact equal to 0.8 of the vertical ground reaction at that point shall be assumed.

(2) The airplane shall be assumed to be in static equilibrium with the loads resulting from the application of the brakes on one side of the main gear. The vertical load factor at the center of gravity shall be 1.0. The forward acting load at the airplane center of gravity shall be 0.8 times the vertical load on one main gear. The side and vertical loads at the ground contact point on the nose gear shall be those required for static equilibrium. The side load factor at the airplane center of gravity shall be assumed to be zero.

(f) *Tail-wheel yawing.* (1) A vertical ground reaction equal to the static load on the tail wheel in combination with a side component of equal magnitude shall be assumed.

(2) When a swivel is provided, the tail wheel shall be assumed to be swiveled 90° to the airplane longitudinal axis with the resultant load passing through the axle. When a lock, steering device, or shimmy damper is provided, the tail wheel shall also be assumed to be in the trailing position with the side load acting at the ground contact point.

§ 4b.236 *Unsymmetrical loads on dual-wheel units.* In dual-wheel units 60 percent of the total ground reaction for the unit shall be applied to one wheel and 40 percent to the other. To provide for the case of one flat tire, 60 percent of the load which would be assigned to the unit in the specified conditions shall be applied to either wheel, except that the vertical ground reaction shall not be less than the full static value.

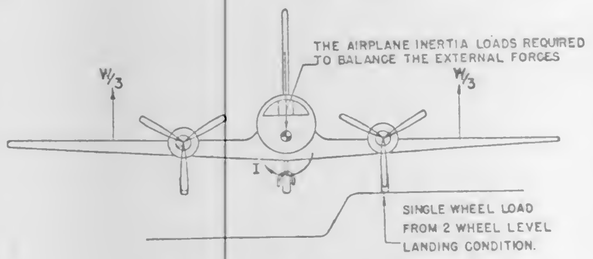

FIGURE 4b–10—One wheel landing.

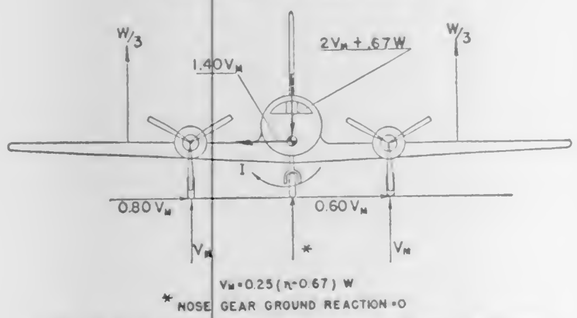

FIGURE 4b–11—Lateral drift landing.

WATER LOADS

§ 4b.250 *General.* The structure of hull and float type seaplanes shall be designed for water loads developed during take-off and landing with the seaplane in any attitude likely to occur in normal operation at appropriate forward and sinking velocities under the most severe sea conditions likely to be encountered. Unless a more rational analysis of the water loads is performed, the requirements of §§ 4b.251 through 4b.258 shall apply.

§ 4b.251 *Design weights and center of gravity positions*—(a) *Design weights.* The water load requirements shall be complied with at all operating weights up to the design landing weight except that for the take-off condition prescribed in § 4b.255 the design take-off weight shall be used.

(b) *Center of gravity positions.* The critical center of gravity positions within the limits for which certification is sought shall be considered to obtain maximum design loads for each part of the seaplane structure.

§ 4b.252 *Application of loads.* (a) The seaplane as a whole shall be assumed to be subjected to the loads corresponding with the load factors specified in § 4b.253, except as otherwise prescribed. In applying the loads resulting from the load factors prescribed in § 4b.253, it shall be permissible to distribute the loads over the hull bottom in order to avoid excessive local shear loads and bending moments at the location of water load application, using pressures not less than those prescribed in § 4b.256 (b).

(b) For twin float seaplanes, each float shall be treated as an equivalent hull on a fictitious seaplane having a weight equal to one-half the weight of the twin float seaplane.

(c) Except in the take-off condition of § 4b.255, the aerodynamic lift on the seaplane during the impact shall be assumed to be ⅔ of the weight of the seaplane.

§ 4b.253 *Hull and main float load factors.* Water reaction load factors shall be computed as follows:

For the step landing case:

$$n_W = \frac{C_1 V_{S_0}^2}{\tan^{2/3}\beta W^{1/3}};$$

For the bow and stern landing cases:

$$n_W = \frac{C_1 V_{S_0}^2}{\tan^{2/3}\beta W^{1/3}} \times \frac{K_1}{(1+r_x^2)^{2/3}};$$

where:

$n_W$ = water reaction load factor (water reaction divided by the seaplane weight);

$C_1$ = empirical seaplane operations factor equal to 0.009, except that this factor shall not be less than that necessary to obtain the minimum value of step load factor of 2.33;

$V_{S_0}$ = seaplane stalling speed (mph) with landing flaps extended in the appropriate position and with no slipstream effect;

$\beta$ = angle of dead rise at the longitudinal station at which the load factor is being determined (see fig. 4b–15a);

$W$ = seaplane design landing weight in pounds;

$K_1$ = empirical hull station weighing factor. (See fig. 4b–15b.) For a twin float seaplane, in recognition of the effect of flexibility of the attachment of the floats to the seaplane, it shall be acceptable to reduce the factor $K_1$ at the bow and stern to 0.8 of the value shown in figure 4b-15b. This reduction shall not apply to the float design but only to the design of the carry-through and seaplane structure;

$r_x$ = ratio of distance, measured parallel to hull reference axis, from the center of gravity of the seaplane to the hull longitudinal station at which the load factor is being computed to the radius of gyration in pitch of the seaplane, the hull reference axis being a straight line, in the plane of symmetry, tangential to the keel at the main step.

§ 4b.254 *Hull and main float landing conditions*—(a) *Symmetrical step landing.* The limit water reaction load factor shall be in accordance with § 4b.253. The resultant water load shall be applied at the keel through the center of gravity perpendicularly to the keel line.

(b) *Symmetrical bow landing.* The limit water reaction load factor shall be in accordance with § 4b.253. The resultant water load shall be applied at the keel ⅓ of the longitudinal distance from the bow to the step, and shall be directed perpendicularly to the keel line.

(c) *Symmetrical stern landing.* The limit water reaction load factor shall be in accordance with § 4b.253. The resultant water load shall be applied at the keel at a point 85 percent of the longitudinal distance from the step to the stern post, and shall be directed perpendicularly to the keel line.

(d) *Unsymmetrical landing; hull type and single float seaplanes.* Unsymmetrical step, bow, and stern landing conditions shall be investigated. The loading for each condition shall consist of an upward component and a side component equal, respectively, to 0.75 and 0.25 tan $\beta$ times the resultant load in the corresponding symmetrical landing condition. (See paragraphs (a), (b), and (c) of this section.) The point of application and direction of the upward component of the load shall be the same as that in the symmetrical condition, and the point of application of the side component shall be at the same longitudinal station as the upward component but directed inward perpendicularly to the plane of symmetry at a point midway between the keel and chine lines.

(e) *Unsymmetrical landing; twin float seaplanes.* The unsymmetrical loading shall consist of an upward load at the step of each float of 0.75 and a side load of 0.25 tan $\beta$ at one float times the step landing load obtained in accordance with § 4b.253. The side load shall be directed inboard perpendicularly to the plane of symmetry midway between the keel and chine lines of the float at

T = INERTIA FORCE NECESSARY TO BALANCE THE WHEEL DRAG
* $D_N$ = 0 UNLESS NOSE WHEEL IS EQUIPPED WITH BRAKES.
FOR DESIGN OF MAIN GEAR : $V_N$ = 0
FOR DESIGN OF NOSE GEAR I = 0

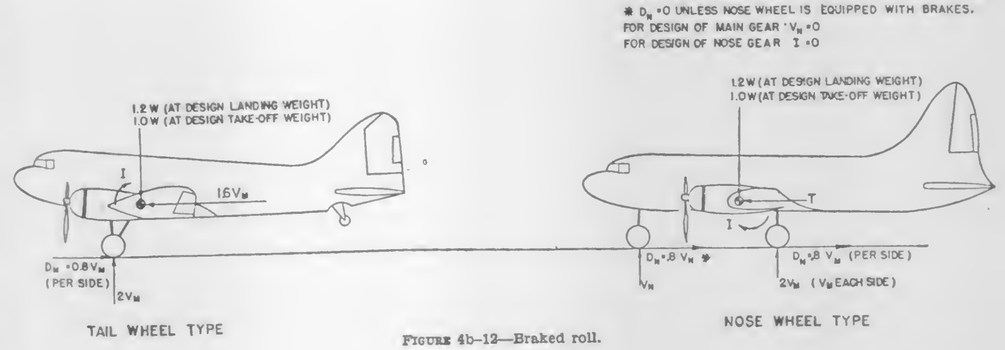

FIGURE 4b–12—Braked roll.

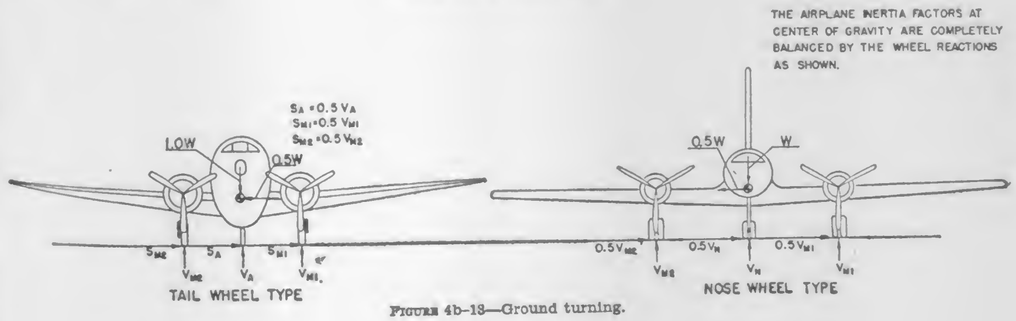

FIGURE 4b–13—Ground turning.

the same longitudinal station as the upward load.

§ 4b.255 *Hull and main float take-off condition.* The provisions of this section shall apply to the design of the wing and its attachment to the hull or main float. The aerodynamic wing lift shall be assumed to be zero. A downward inertia load shall be applied and shall correspond with the following load factor:

$$n=\frac{C_{TO}\ V_{s_1}^{\ 2}}{\tan^{2/3}\beta W^{1/3}};$$

where:
- $n$ = inertia load factor;
- $C_{TO}$ = empirical seaplane operations factor equal to 0.003;
- $V_{s_1}$ = seaplane stalling speed (mph) at the design take-off weight with the flaps extended in the appropriate take-off position;
- $\beta$ = angle of dead rise at the main step (degrees);
- $W$ = seaplane design take-off weight in pounds.

§ 4b.256 *Hull and main float bottom pressures.* The provisions of this section shall apply to the design of the hull and main float structure, including frames and bulkheads, stringers, and bottom plating. In the absence of more rational data, the pressures and distributions shall be as follows:

(a) *Local pressures.* The following pressure distributions are applicable for the design of the bottom plating and stringers and their attachments to the supporting structure. The area over which these pressures are applied shall be such as to simulate pressures occurring during high localized impacts on the hull or float, and need not extend over an area which would induce critical stresses in the frames or in the overall structure:

(1) *Unflared bottom.* The pressure at the keel (psi) shall be computed as follows:

$$P_k=C_2\frac{K_2\ V_{s_1}^{\ 2}}{\tan\beta_k};$$

where:
- $P_k$ = pressure at the keel;
- $C_2$ = 0.0016;
- $K_2$ = hull station weighing factor (see fig. 4b–15b);
- $V_{s_1}$ = seaplane stalling speed (mph) at the design take-off weight with flaps extended in the appropriate take-off position;
- $\beta_k$ = angle of dead rise at keel (see fig. 4b–15a).

The pressure at the chine shall be 0.75 $P_k$, and the pressures between the keel and chine shall vary linearly. (See fig. 4b–15c.)

(2) *Flared bottom.* The pressure distribution for a flared bottom shall be that for an unflared bottom prescribed in subparagraph (1) of this paragraph, except that the pressure at the chine shall be computed as follows:

$$P_{ch}=C_3\frac{K_2\ V_{s_1}^{\ 2}}{\tan\beta};$$

where:
- $P_{ch}$ = pressure at the chine;
- $C_3$ = 0.0012;
- $K_2$ = hull station weighing factor (see fig. 4b–15b);
- $V_{s_1}$ = seaplane stalling speed (mph) at the design take-off weight with flaps extended in the appropriate take-off position;
- $\beta$ = angle of dead rise at appropriate station.

The pressure at the beginning of the flare shall be the same as for an unflared bottom, and the pressure between the chine and the beginning of the flare shall vary linearly. (See fig. 4b–15c.)

(b) *Distributed pressures.* The following distributed pressures are applicable for the design of the frames, keel, and chine structure. These pressures shall be uniform and shall be applied simultaneously over the entire hull or main float bottom. The loads so obtained shall be carried into the sidewall structure of the hull proper, but need not be transmitted in a fore and aft direction as shear and bending loads.

(1) *Symmetrical.* The symmetrical pressures shall be computed as follows:

$$P=C_4\frac{K_2\ V_{s_0}^{\ 2}}{\tan\beta};$$

where:
- $P$ = pressure;
- $C_4$ = 0.078$C_1$ (for $C_1$ see § 4b.253);
- $K_2$ = hull station weighing factor (see fig. 4b–15b);
- $V_{s_0}$ = seaplane stalling speed (mph) with landing flaps extended in the appropriate position and with no slipstream effect;
- $\beta$ = angle of dead rise at appropriate station.

(2) *Unsymmetrical.* The unsymmetrical pressure distribution shall consist of the pressures prescribed in subparagraph (1) of this paragraph on one side of the hull or main float center line and one-half of that pressure on the other side of the hull or main float center line. (See fig. 4b–15c.)

§ 4b.257 *Auxiliary float loads.* Auxiliary floats, their attachments, and supporting structure shall be designed for the following conditions. In the cases specified in paragraphs (a), (b), (c), and (d) of this section it shall be acceptable to distribute the prescribed water loads over the float bottom to avoid excessive local loads, using bottom pressures not less than those prescribed in paragraph (f) of this section.

(a) *Step loading.* The resultant water load shall be applied in the plane of symmetry of the float at a point three-fourths of the distance from the bow to the step and shall be perpendicular to the keel. The resultant limit load shall be computed as follows, except that the value of $L$ need not exceed three times the weight of the displaced water when the float is completely submerged:

$$L=\frac{C_5\ V_{s_0}^{\ 2}\ W^{2/3}}{\tan^{2/3}\beta_s\ (1+r_y^{\ 2})^{2/3}};$$

where:
- $L$ = limit load;
- $C_5$ = 0.004;
- $V_{s_0}$ = seaplane stalling speed (mph) with landing flaps extended in the appropriate position and with no slipstream effect;
- $W$ = seaplane design landing weight in pounds;
- $\beta_s$ = angle of dead rise at a station ¾ of the distance from the bow to the step, but need not be less than 15 degrees;
- $r_y$ = ratio of the lateral distance between the center of gravity and the plane of symmetry of the float to the radius of gyration in roll.

(b) *Bow loading.* The resultant limit load shall be applied in the plane of symmetry of the float at a point one-fourth of the distance from the bow to the step and shall be perpendicular to the tangent to the keel line at that point. The magnitude of the resultant load shall be that specified in paragraph (a) of this section.

(c) *Unsymmetrical step loading.* The resultant water load shall consist of a component equal to 0.75 times the load specified in paragraph (a) of this section and a side component equal to 0.25 tan $\beta$ times the load specified in paragraph (a) of this section. The side load shall be applied perpendicularly to the plane of symmetry of the float at a point midway between the keel and the chine.

(d) *Unsymmetrical bow loading.* The resultant water load shall consist of a component equal to 0.75 times the load specified in paragraph (b) of this section and a side component equal to 0.25 tan $\beta$ times the load specified in paragraph (b) of this section. The side load shall be applied perpendicularly to the plane of symmetry at a point midway between the keel and the chine.

(e) *Immersed float condition.* The resultant load shall be applied at the centroid of the cross section of the float at a point one-third of the distance from the bow to the step. The limit load components shall be as follows:

$$\text{vertical}=\rho_g V$$

$$\text{aft}=C_{x_2}\rho V^{2/3}\ (KV_{s_0})^2$$

$$\text{side}=C_y\frac{\rho}{2}V^{2/3}\ (KV_{s_0})^2$$

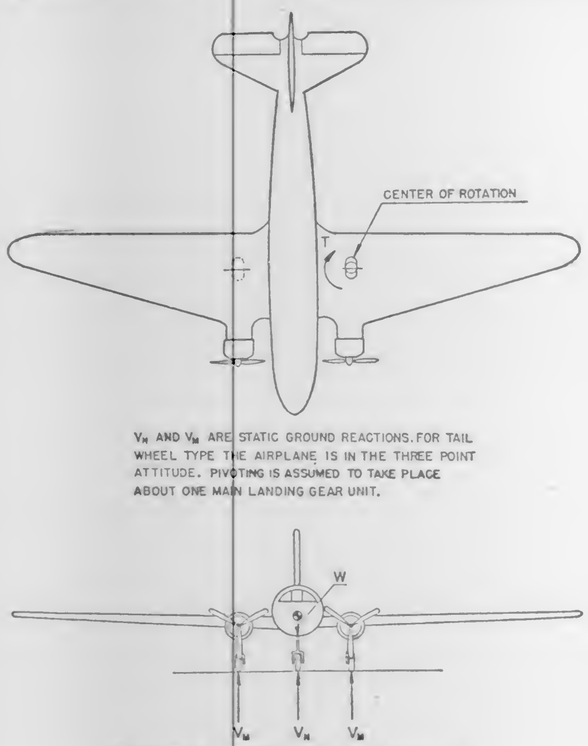
where:
- $\rho$ = mass density of water;
- $V$ = volume of float;
- $C_x$ = coefficient of drag force, equal to 0.10;
- $C_y$ = coefficient of side force, equal to 0.08;
- $K$ = 0.8, except that lower values shall be acceptable if it is shown that the floats are incapable of submerging at a speed of 0.8 $V_{s_0}$ in normal operations;
- $V_{s_0}$ = seaplane stalling speed (mph) with landing flaps extended in the appropriate position and with no slipstream effect.

(f) *Float bottom pressures.* The float bottom pressures shall be established in accordance with § 4b.256 (a) and (b). The angle of dead rise to be used in determining the float bottom pressures shall be as defined in paragraph (a) of this section.

§ 4b.258 *Seawing loads.* Seawing design loads shall be based on applicable test data.

EMERGENCY LANDING CONDITIONS

§ 4b.260 *General.* The following requirements deal with emergency conditions of landing on land or water in which the safety of the occupants shall be considered, although it is accepted that parts of the airplane may be damaged.



(a) The structure shall be designed to give every reasonable probability that all of the occupants, if they make proper use of the seats, belts, and other provisions made in the design (see § 4b.358), will escape serious injury in the event of a minor crash landing (with wheels up if the airplane is equipped with retractable landing gear) in which the occupants experience the following ultimate inertia forces relative to the surrounding structure:

| | | |
|---|---|---|
| (1) Upward | 2.0g | (Downward 4.5g) |
| (2) Forward | 9.0g | |
| (3) Sideward | 1.5g | |

(b) The use of a lesser value of the downward inertia force specified in paragraph (a) of this section shall be acceptable if it is shown that the airplane structure can absorb the landing loads corresponding with the design landing weight and an ultimate descent velocity of 5 f. p. s. without exceeding the value chosen.

(c) The inertia forces specified in paragraph (a) of this section shall be applied to all items of mass which would be apt to injure the passengers or crew if such items became loose in the event of a minor crash landing, and the supporting structure shall be designed to restrain these items.

§ 4b.261 *Structural ditching provisions.* (For structural strength considerations of ditching provisions see § 4b.361 (c).)

$V_N$ AND $V_M$ ARE STATIC GROUND REACTIONS. FOR TAIL WHEEL TYPE THE AIRPLANE IS IN THE THREE POINT ATTITUDE. PIVOTING IS ASSUMED TO TAKE PLACE ABOUT ONE MAIN LANDING GEAR UNIT.

FIGURE 4b–14—Pivoting, nose or tail wheel type.

## SUBPART D—DESIGN AND CONSTRUCTION

### GENERAL

§ 4b.300 *Scope.* The airplane shall not incorporate design features or details which experience has shown to be hazardous or unreliable. The suitability of all questionable design details or parts shall be established by tests.

§ 4b.301 *Materials.* The suitability and durability of all materials used in the airplane structure shall be established on the basis of experience or tests. All materials used in the airplane structure shall conform to approved specifications which will insure their having the strength and other properties assumed in the design data.

§ 4b.302 *Fabrication methods.* The methods of fabrication employed in constructing the airplane structure shall be such as to produce a consistently sound structure. When a fabrication process such as gluing, spot welding, or heat treating requires close control to attain this objective, the process shall be performed in accordance with an approved process specification.

§ 4b.303 *Standard fastenings.* All bolts, pins, screws, and rivets used in the structure shall be of an approved type. The use of an approved locking device or method is required for all such bolts, pins, and screws. Self-locking nuts shall not be used on bolts which are subject to rotation in operation.

§ 4b.304 *Protection.* (a) All members of the structure shall be suitably protected against deterioration or loss of strength in service due to weathering, corrosion, abrasion, or other causes.

(b) Provision for ventilation and drainage of all parts of the structure shall be made where necessary for protection.

(c) In seaplanes, special precautions shall be taken against corrosion from salt water, particularly where parts made from different metals are in close proximity.

§ 4b.305 *Inspection provisions.* Means shall be provided to permit the close examination of those parts of the airplane which require periodic inspection, adjustment for proper alignment and functioning, and lubrication of moving parts.

§ 4b.306 *Material strength properties and design values.* (a) Material strength properties shall be based on a sufficient number of tests of material conforming to specifications to establish design values on a statistical basis.

(b) The design values shall be so chosen that the probability of any structure being understrength because of material variations is extremely remote.

(c) ANC–5, ANC–18, and ANC–23, Part II values shall be used unless shown to be inapplicable in a particular case.

NOTE: ANC–5, "Strength of Metal Aircraft Elements;" ANC–18, "Design of Wood Aircraft Structures;" and ANC–23, "Sandwich Construction for Aircraft," are published by the Subcommittee on Air Force-Navy-Civil Aircraft Design Criteria, and may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

(d) The strength, detail design, and fabrication of the structure shall be such as to minimize the probability of disastrous fatigue failure.

NOTE: Points of stress concentration are one of the main sources of fatigue failure.

§ 4b.307 *Special factors.* Where there is uncertainty concerning the actual strength of a particular part of the structure, or where the strength is likely to deteriorate in service prior to normal replacement of the part, or where the strength is subject to appreciable variability due to uncertainties in manufacturing processes and inspection methods, the factor of safety prescribed in § 4b.200 (a) shall be multiplied by a special factor of a value such as to make the probability of the part being understrength from these causes extremely remote. The following special factors shall be used:

(a) *Casting factors.* (1) Where only visual inspection of a casting is to be employed, the casting factor shall be 2.0, except that it need not exceed 1.25 with respect to bearing stresses.

(2) It shall be acceptable to reduce the factor of 2.0 specified in subparagraph (1) of this paragraph to a value of 1.25 if such a reduction is substantiated by testing at least three sample castings and if the sample castings as well as all production castings are visually and radiographically inspected in accordance with an approved inspection specification. During these tests the samples shall withstand the ultimate load multiplied by the factor of 1.25 and in addition shall comply with the corresponding limit load multiplied by a factor of 1.15.

(3) Casting factors other than those contained in subparagraphs (1) and (2) of this paragraph shall be acceptable if they are found to be appropriately related to tests and to inspection procedures.

(4) A casting factor need not be employed with respect to the bearing surface of a part if the bearing factor used (see paragraph (b) of this section) is of greater magnitude than the casting factor.

(b) *Bearing factors.* (1) Bearing factors shall be used of sufficient magnitude to provide for the effects of normal relative motion between parts and in joints with clearance (free fit) which are subject to pounding or vibration. (Bearing factor values for control surface and system joints are specified in §§ 4b.313 (a) and 4b.329 (b).)

(2) A bearing factor need not be employed on a part if another special factor prescribed in this section is of greater magnitude than the bearing factor.

(c) *Fitting factors.* (1) A fitting factor of at least 1.15 shall be used on all fittings the strength of which is not proven by limit and ultimate load tests in which the actual stress conditions are simulated in the fitting and the surrounding structure. This factor shall apply to all portions of the fitting, the means of attachment, and the bearing on the members joined.

(2) In the case of integral fittings the part shall be treated as a fitting up to the point where the section properties become typical of the member.

(3) The fitting factor need not be employed where a type of joint made in accordance with approved practices is based on comprehensive test data, e. g., continuous joints in metal plating, welded joints, and scarf joints in wood.

(4) A fitting factor need not be employed with respect to the bearing surface of a part if the bearing factor used (see paragraph (b) of this section) is of greater magnitude than the fitting factor.

§ 4b.308 *Flutter, deformation, and vibration.* Compliance with the following provisions shall be shown by such calculations, resonance tests, or other tests as are found necessary by the Administrator.

(a) *Flutter prevention.* The airplane shall be designed to be free from flutter of wing and tail units, including all control and trim surfaces, and from divergence (i. e. unstable structural distortion due to aerodynamic loading), at all speeds up to 1.2 $V_D$. A smaller margin above $V_D$ shall be acceptable if the characteristics of the airplane (including the effects of compressibility) render a speed of 1.2 $V_D$ unlikely to be achieved, and if it is shown that a proper margin of damping exists at speed $V_D$. In the absence of more accurate data, the terminal velocity in a dive of 30 degrees to the horizontal shall be acceptable as the maximum speed likely to be achieved. If concentrated balance weights are used on control surfaces, their effectiveness and strength, including supporting structure, shall be substantiated.

(b) *Loss of control due to structural deformation.* The airplane shall be designed to be free from control reversal and from undue loss of longitudinal, lateral, and directional stability and control as a result of structural deformation, including that of the control surface covering, at all speeds up to the speed prescribed in paragraph (a) of this section for flutter prevention.

(c) *Vibration and buffeting.* The airplane shall be designed to withstand all vibration and buffeting which might occur in any likely operating conditions.

### CONTROL SURFACES

§ 4b.310 *General.* The requirements of §§ 4b.311 through 4b.313 shall apply to the design of fixed and movable control surfaces.

§ 4b.311 *Proof of strength.* (a) Control surface limit load tests shall be conducted to prove compliance with limit load requirements.

(b) Control surface tests shall include the horn or fitting to which the control system is attached.

(c) Analyses or individual load tests shall be conducted to demonstrate compliance with the special factor requirements for control surface hinges. (See §§ 4b.307 and 4b.313 (a).)

§ 4b.312 *Installation.* (a) Movable tail surfaces shall be so installed that there is no interference between any two surfaces when one is held in its extreme position and all the others are operated through their full angular movement.

(b) When an adjustable stabilizer is used, stops shall be provided which will limit its travel, in the event of failure of the adjusting mechanism, to a range equal to the maximum required to trim the airplane in accordance with § 4b.140.

§ 4b.313 *Hinges.* (a) Control surface hinges, except ball and roller bearings, shall incorporate a special factor of not less than 6.67 with respect to the ultimate bearing strength of the softest material used as a bearing.

(b) For hinges incorporating ball or roller bearings, the approved rating of the bearing shall not be exceeded.

(c) Hinges shall provide sufficient strength and rigidity for loads parallel to the hinge line.

### CONTROL SYSTEMS

§ 4b.320 *General.* All controls and control systems shall operate with ease, smoothness, and positiveness appropriate to their function. (See also §§ 4b.350 and 4b.353.)

§ 4b.321 *Two-control airplanes.* Two-control airplanes shall be capable of continuing safely in flight and landing in the event of failure of any one connecting element in the directional-lateral flight control system.

§ 4b.322 *Trim controls and systems.* (a) Trim controls shall be designed to safeguard against inadvertent or abrupt operation.

(b) Each trim control shall operate in the plane and with the sense of motion of the airplane. (See fig. 4b–16.)

(c) Means shall be provided adjacent to the trim control to indicate the direction of the control movement relative to the airplane motion.

(d) Means shall be provided to indicate the position of the trim device with respect to the range of adjustment. The indicating means shall be clearly visible.

(e) Trim devices shall be capable of continued normal operation in the event of failure of any one connecting or transmitting element of the primary flight control system.

(f) Trim tab controls shall be irreversible, unless the tab is appropriately balanced and shown to be free from flutter.

(g) Where an irreversible tab control system is employed, the portion from the tab to the attachment of the irreversible unit to the airplane structure shall consist of a rigid connection.

§ 4b.323 *Wing flap controls.* (a) The wing flap controls shall operate in a manner to permit the flight crew to place the flaps in all of the take-off, en route, approach, and landing positions established under § 4b.111 and to maintain these positions thereafter without further attention on the part of the crew, except for flap movement produced by an automatic flap positioning or load limiting device.

(b) The wing flap control shall be located and designed to render improbable its inadvertent operation.

(c) The rate of motion of the wing flap in response to the operation of the control and the characteristics of the automatic flap positioning or load limiting device shall be such as to obtain satisfactory flight and performance characteristics under steady or changing conditions of air speed, engine power, and airplane attitude.

(d) The wing flap control shall be designed to retract the flaps from the fully extended position during steady flight at maximum continuous engine power at all speeds below $V_F+10$ (m. p. h.).

(e) Means shall be provided to indicate the take-off, en route, approach, and landing flap positions.

(f) If any extension of the flaps beyond the landing position is possible, the flap control shall be clearly marked to identify such range of extension.

§ 4b.324 *Wing flap interconnection.* (a) The motion of wing flaps on opposite sides of the plane of symmetry shall be synchronized by a mechanical interconnection unless the airplane is demonstrated to have safe flight characteristics while the flaps are retracted on one side and extended on the other.

(b) Where a wing flap interconnection is used, it shall be designed to account for the applicable unsymmetrical loads, including those resulting from flight with the engines on one side of the plane of symmetry inoperative and the remaining engines at take-off power. For airplanes with flaps which are not subjected to slipstream conditions, the structure shall be designed for the loads imposed when the wing flaps on one side are carrying the most severe load occurring in the prescribed symmetrical conditions and those on the other side are carrying not more than 80 percent of that load.

§ 4b.325 *Control system stops.* (a) All control systems shall be provided with stops which positively limit the range of motion of the control surfaces.

(b) Control system stops shall be so located in the system that wear, slackness, or take-up adjustments will not affect adversely the control characteristics of the airplane because of a change in the range of surface travel.

(c) Control system stops shall be capable of withstanding the loads corresponding with the design conditions for the control system.

§ 4b.326 *Control system locks.* Provision shall be made to prevent damage to the control surfaces (including tabs) and the control system which might result from gusts striking the airplane while it is on the ground or water (see also § 4b.226). If a device provided for this purpose, when engaged, prevents normal operation of the control surfaces by the pilot, it shall comply with the following provisions.

(a) The device shall either automatically disengage when the pilot operates the primary flight controls in a normal manner, or it shall limit the operation of the airplane in such a manner that the pilot receives unmistakable warning at the start of take-off.

(b) Means shall be provided to preclude the possibility of the device becoming inadvertently engaged in flight.

§ 4b.327 *Static tests.* Tests shall be conducted on control systems to show compliance with limit load requirements in accordance with the following provisions.

(a) The direction of the test loads shall be such as to produce the most severe loading in the control system.

(b) The tests shall include all fittings, pulleys, and brackets used in attaching the control system to the main structure.

(c) Analyses or individual load tests shall be conducted to demonstrate compliance with the special factor requirements for control system joints subjected to angular motion. (See §§ 4b.307 and 4b.329 (b).)

§ 4b.328 *Operation tests.* An operation test shall be conducted for each control system by operating the controls from the pilot compartment with the entire system loaded to correspond with 80 percent of the limit load specified for the control system. In this test there shall be no jamming, excessive friction, or excessive deflection.

§ 4b.329 *Control system details; general.* All details of control systems shall be designed and installed to prevent jamming, chafing, and interference from cargo, passengers, and loose objects. Precautionary means shall be provided in the cockpit to prevent the entry of foreign objects into places where they would jam the control systems. Provisions shall be made to prevent the slapping of cables or tubes against other parts of the airplane. The following detail requirements shall be applicable with respect to cable systems and joints.

(a) *Cable systems.* (1) Cables, cable fittings, turnbuckles, splices, and pulleys shall be of an approved type.

(2) Cables smaller than ⅛-inch diameter shall not be used in the aileron, elevator, or rudder systems.

(3) The design of cable systems shall be such that there will be no hazardous change in cable tension throughout the range of travel under operating conditions and temperature variations.

(4) Pulley types and sizes shall correspond with the cables used.

(5) All pulleys and sprockets shall be provided with closely fitted guards to prevent the cables and chains being displaced or fouled.

(6) Pulleys shall lie in the plane passing through the cable within such limits that the cable does not rub against the pulley flange.

(7) Fairleads shall be so installed that they do not cause a change in cable direction of more than 3°.

(8) Clevis pins (excluding those not subject to load or motion) retained only by cotter pins shall not be used in the control system.

(9) Turnbuckles attached to parts having angular motion shall be installed to prevent positively any binding throughout the range of travel.

(10) Provision for visual inspection shall be made at all fairleads, pulleys, terminals, and turnbuckles.

(b) *Joints.* (1) Control system joints subjected to angular motion in push-pull systems, excepting ball and roller bearing systems, shall incorporate a special factor of not less than 3.33 with respect to the ultimate bearing strength of the softest material used as a bearing.

(2) It shall be acceptable to reduce the factor specified in subparagraph (1) of this paragraph to a value of 2.0 for joints in cable control systems.

(3) The approved rating of ball and roller bearings shall not be exceeded.

LANDING GEAR

§ 4b.330 *General.* The requirements of §§ 4b.331 through 4b.338 shall apply to the complete landing gear.

§ 4b.331 *Shock absorbers.* (a) The shock absorbing elements for the main, nose, and tail wheel units shall be substantiated by the tests specified in § 4b.332.

(b) The shock absorbing ability of the landing gear in taxying shall be demonstrated by the tests prescribed in § 4b.172.

§ 4b.332 *Landing gear tests.* The landing gear shall withstand the following tests.

(a) *Shock absorption tests.* (1) It shall be demonstrated by energy absorption tests that the limit load factors selected for design in accordance with § 4b.230 (b) for take-off and landing weights, respectively, will not be exceeded.

(2) In addition to the provisions of subparagraph (1) of this paragraph, a reserve of energy absorption shall be demonstrated by a test simulating an airplane descent velocity of 12 f. p. s. at design landing weight, assuming wing lift not greater than the airplane weight acting during the landing impact. In this test the landing gear shall not fail. (See paragraph (c) of this section.)

(b) *Limit drop tests.* (1) If compliance with the limit landing conditions specified in paragraph (a) (1) of this section is demonstrated by free drop tests, these shall be conducted on the complete airplane, or on units consisting of wheel, tire, and shock absorber in their proper relation. The free drop heights shall not be less than the following:

(i) 18.7 inches for the design landing weight conditions,

(ii) 6.7 inches for the design take-off weight conditions.

(2) If wing lift is simulated in free drop tests the landing gear shall be dropped with an effective mass equal to:

$$W_e = W\left(\frac{h+(1-L)d}{h+d}\right);$$

where:

$W_e$ = the effective weight to be used in the drop test (lbs.),

$h$ = specified free drop height (inches),

$d$ = deflection under impact of the tire (at the approved inflation pressure) plus the vertical component of the axle travel relative to the drop mass (inches),

$W = W_M$ for main gear units (lbs.), equal to the static weight on the particular unit with the airplane in the level attitude (with the nose wheel clear in the case of nose wheel type airplanes),

$W = W_T$ for tail gear units (lbs.), equal to the static weight on the tail unit with the airplane in the tail-down attitude,

$W = W_N$ for nose wheel units (lbs.), equal to the vertical component of the static reaction which would exist at the nose wheel, assuming the mass of the airplane acting at the center of gravity and exerting a force of 1.0g downward and 0.25g forward,

$L$ = the ratio of the assumed wing lift to the airplane weight, not in excess of 0.667.

(3) The attitude in which a landing gear unit is drop tested shall simulate the airplane landing condition critical for the unit.

(4) The value of $d$ used in the computation of $W_e$ in subparagraph (2) of this paragraph shall not exceed the value actually obtained in the drop test.

(c) *Reserve energy absorption drop tests.* (1) If compliance with the reserve energy absorption condition specified in paragraph (a) (2) of this section is demonstrated by free drop tests, the landing gear units shall be dropped from a free drop height of not less than 27 inches.

(2) If wing lift equal to the airplane weight is simulated, the units shall be dropped with an effective mass equal to:

$$W_e = W\left(\frac{h}{h+d}\right);$$

where the symbols and other details are the same as in paragraph (b) of this section.

§ 4b.333 *Limit load factor determination.* (a) In determining the airplane inertia limit load factor $n$ from the free drop tests specified in § 4b.332, the following formula shall be used:

$$n = n_j\frac{W_e}{W} + L;$$

where:

$n_j$ = the load factor during impact developed on the mass used in the drop test (i. e., the acceleration $dv/dt$ in g's recorded in the drop test plus 1.0). (See § 4b.332 (b) (2) for explanation of $W_e$, $W$, and $L$).

(b) The value of $n$ determined in paragraph (a) of this section shall not be greater than the limit load factor used for the landing conditions. (See § 4b.230 (b)).

§ 4b.334 *Retracting mechanism*—(a) *General.* (1) The landing gear retracting mechanism, wheel well doors, and supporting structure shall be designed for the loads occurring in the flight conditions when the gear is in the retracted position, and for the combination of friction, inertia, brake torque, and air loads occurring during retraction and extension at any air speed up to 1.6 $V_{s_1}$ (flaps in the approach position at design landing weight), and any load factor up to those specified in § 4b.212 for the flaps extended condition.

(2) The landing gear, the retracting mechanism, and the airplane structure including wheel well doors shall be designed to withstand the flight loads occurring with the landing gear in the extended position at any speed up to 0.67 $V_C$, unless other means are provided to decelerate the airplane in flight at this speed.

(3) Landing gear doors, their operating mechanism, and their supporting structure shall be designed for the conditions of air speed and load factor prescribed in subparagraphs (1) and (2) of this paragraph, and in addition they shall be designed for the yawing maneuvers prescribed for the airplane.

(b) *Landing gear lock.* A positive means shall be provided for the purpose of maintaining the landing gear in the extended position.

(c) *Emergency operation.* Emergency means of extending the landing gear shall be provided, so that the landing gear can be extended in the event of any reasonably probable failure in the normal retraction system. In any case the emergency system shall provide for the failure of any single source of hydraulic, electric, or equivalent energy supply.

(d) *Operation test.* Proper functioning of the landing gear retracting mechanism shall be demonstrated by operation tests.

(e) *Position indicator and warning device.* (1) When a retractable landing gear is used, means shall be provided for indicating to the pilot when the gear is secured in the extended and in the retracted positions.

(2) In addition to the requirement of subparagraph (1) of this paragraph, landplanes shall be provided with an aural warning device which will function continuously when all throttles are closed if the gear is not fully extended and locked.

(3) If a manual shutoff for the warning device prescribed in subparagraph (2) of this paragraph is provided, it shall be installed so that reopening the throttles will reset the warning mechanism.

(f) *Control.* The location and operation of the landing gear retraction control shall be according to the provisions of § 4b.353.

§ 4b.335 *Wheels.* Main wheels and nose wheels shall be of an approved type. The following provisions shall apply.

(a) The maximum static load rating of each main wheel and nose wheel shall not be less than the corresponding static ground reaction under the design take-off weight of the airplane and the critical center of gravity position.

(b) The maximum limit load rating of each main wheel and nose wheel shall not be less than the maximum radial limit load determined in accordance with the applicable ground load requirements of this part (see §§ 4b.230 through 4b.236).

(c) The maximum kinetic energy capacity rating of each main wheel-brake assembly shall not be less than the kinetic energy absorption requirement determined as follows:

$$KE = \frac{0.0334WV_{s_0}^2}{N};$$

where:

$KE$ = kinetic energy per wheel (ft. lb.);

$W$ = design landing weight (lb.);

$V_{s_0}$ = power-off stalling speed of the airplane (mph) at sea level at the design landing weight and in the landing configuration;

$N$ = number of main wheels.

NOTE: The expression for kinetic energy assumes an equal distribution of braking between main wheels. In cases of unequal distribution the expression requires appropriate modification.

(d) The minimum stalling speed rating of each main wheel-brake assembly, i. e., the initial speed used in the dynamometer tests, shall not be greater than the $V_{s_0}$ used in the determination of kinetic energy in accordance with paragraph (c) of this section.

NOTE: The provision of this paragraph is based upon the assumption that the testing procedures for wheel-brake assemblies involve a specified rate of deceleration, and, therefore, for the same amount of kinetic energy the rate of energy absorption (the power absorbing ability of the brake) varies inversely with the initial speed.

§ 4b.336 *Tires.* (a) Landing gear tires shall be of a proper fit on the rim of the wheel, and their approved rating shall be such that it is not exceeded under the following conditions:

(1) Airplane weight equal to the design take-off weight,

(2) Load on each main wheel tire equal to the corresponding static ground reaction at the critical center of gravity position.

(3) Load on nose wheel tires (to be compared with the dynamic rating established for such tires) equal to the reaction obtained at the nose wheel, assuming the mass of the airplane concentrated at the most critical center of gravity and exerting a force of 1.0g downward and 0.31g forward, the reactions being distributed to the nose and main wheels by the principles of statics with the drag reaction at the ground applied only at those wheels which have brakes.

§ 4b.337 *Brakes*—(a) *General.* (1) The airplane shall be equipped with brakes of an approved type. The brake ratings shall be in accordance with § 4b.335 (c) and (d).

(2) The brake system shall be so designed and constructed that in the event of a single failure in any connection or transmitting element in the brake system (excluding the operating pedal or handle), or the loss of any single source of hydraulic or other brake operating energy supply, it shall be possible to bring the airplane to rest under conditions specified in § 4b.122 with a mean deceleration during the landing roll of at least 50 percent of that obtained in de-

termining the landing distance as prescribed in that section.

(3) In applying the requirement of subparagraph (2) of this paragraph to hydraulic brakes, the brake drum, shoes, and actuators (or their equivalents) shall be considered as connecting or transmitting elements, unless it is shown that the leakage of hydraulic fluid resulting from failure of the sealing elements in these units would not reduce the braking effectiveness below that specified in subparagraph (2) of this paragraph.

(b) *Brake controls.* Brake controls shall not require excessive control forces in their operation.

(c) *Parking brake controls.* A parking brake control shall be provided and installed so that it can be set by the pilot and, without further attention, will maintain sufficient braking to prevent the airplane from rolling on a paved, level runway while take-off power on the critical engine is being applied.

§ 4b.338 *Skis.* Skis shall be of an approved type. The maximum limit load rating of each ski shall not be less than the maximum limit load determined in accordance with the applicable ground load requirements of this part. (See §§ 4b.230 through 4b.236.)

HULLS AND FLOATS

§ 4b.340 *General.* The requirements of §§ 4b.341 and 4b.342 shall apply to the design of hulls and floats.

§ 4b.341 *Seaplane main floats.* Seaplane main floats shall be of an approved type and shall comply with the provisions of §4b.250. In addition, the following shall apply.

(a) *Buoyancy.* Each seaplane main float shall have a buoyancy of 80 percent in excess of that required to support the maximum weight of the seaplane in fresh water.

(b) *Compartmentation.* Each seaplane main float shall contain not less than 5 watertight compartments. The compartments shall have approximately equal volumes.

§ 4b.342 *Boat hulls.* (a) The hulls of boat seaplanes and amphibians shall be divided into watertight compartments so that, with any two adjacent compartments flooded, the buoyancy of the hull and auxiliary floats (and wheel tires, if used) will provide a sufficient margin of positive stability to minimize capsizing in rough fresh water.

(b) For the purpose of communication between compartments, bulkheads with watertight doors shall be allowed.

PERSONNEL AND CARGO ACCOMMODATIONS

§ 4b.350 *Pilot compartment; general.* (a) The arrangement of the pilot compartment and its appurtenances shall provide safety and assurance that the pilot will be able to perform all of his duties and operate the controls in the correct manner without unreasonable concentration and fatigue.

(b) The primary flight controls listed on figure 4b–16, excluding cables and control rods, shall be so located with respect to the propellers that no portion of the pilot or the controls lies in the region between the plane of rotation of any inboard propeller and the surface generated by a line passing through the center of the propeller hub and making an angle of 5° forward or aft of the plane of rotation of the propeller.

(c) When provision is made for a second pilot, the airplane shall be controllable with equal safety from both seats.

(d) The pilot compartment shall be constructed to prevent leakage likely to be distracting to the crew or harmful to the structure when flying in rain or snow.

(e) A door shall be provided between the pilot compartment and the passenger compartment.

PRIMARY

| Controls | Movement and actuation |
|---|---|
| Aileron | Right (clockwise) for right wing down. |
| Elevator | Rearward for nose up. |
| Rudder | Right pedal forward for nose right. |

SECONDARY

| | |
|---|---|
| Flaps (or auxiliary lift devices). | Forward for flaps up; rearward for flaps down. |
| Trim tabs (or equivalent). | Rotate to produce similar rotation of the airplane about an axis parallel to the axis of the control. |

FIGURE 4b–16—Aerodynamic controls.

(f) The door prescribed in paragraph (e) of this section shall be equipped with a locking means to prevent passengers from opening the door without the pilot's permission.

(g) Vibration and noise characteristics of cockpit appurtenances shall not interfere with the safe operation of the airplane.

§ 4b.351 *Pilot compartment vision.* (a) *Nonprecipitation conditions.* (1) The pilot compartment shall be arranged to afford the pilots a sufficiently extensive, clear, and undistorted view to perform safely all maneuvers within the operating limitations of the airplane, including taxying, take-off, approach, and landing.

(2) It shall be demonstrated by day and night flight tests that the pilot compartment is free of glare and reflections which would tend to interfere with the pilots' vision.

(b) *Precipitation conditions.* (1) Means shall be provided for maintaining a sufficient portion of the windshield clear so that both pilots are afforded a sufficiently extensive view along the flight path in all normal flight attitudes of the airplane. Such means shall be designed to function under the following conditions without continuous attention on the part of the crew:

(i) In heavy rain at speeds up to 1.6 $V_{s_1}$, flaps retracted,

(ii) In the most severe icing conditions for which approval of the airplane is desired.

(2) In addition to the means prescribed in subparagraph (1) of this paragraph at least the first pilot shall be provided with a window which, when the cabin is not pressurized, is openable under the conditions prescribed in subparagraph (1) of this paragraph, and which provides the view specified in that subparagraph. The design shall be such that when the window is opened sufficient protection from the elements will be provided against the impairment of the pilot's vision.

§ 4b.352 *Windshield and windows.* (a) All internal glass panes shall be of a nonsplintering safety type.

(b) The windshield, its supporting structure, and other structure in front of the pilots shall have sufficient strength to withstand without penetration the impact of a four-pound bird when the velocity of the airplane relative to the bird along the airplane's flight path is equal to the value of $V_C$ at sea level selected in accordance with § 4b.210 (b) (4).

(c) The design of windshields and windows in pressurized airplanes shall be based on factors peculiar to high altitude operation. (See also § 4b.373.)

NOTE: Factors peculiar to high altitude operation as they may affect the design of windshields and windows include the effects of continuous and cyclic pressurization loadings, the inherent characteristics of the material used, the effects of temperatures and temperature differentials, etc.

§ 4b.353 *Controls.* (a) All cockpit controls shall be located to provide convenience in operation and in a manner tending to prevent confusion and inadvertent operation. (See also § 4b.737.)

(b) The direction of movement of controls shall be according to figures 4b–16 and 4b–17. Wherever practicable the sense of motion involved in the operation of other controls shall correspond with the sense of the effect of the operation upon the airplane or upon the part operated. All controls of a variable nature employing a rotary motion shall move clockwise from the off position, through an increasing range, to the full on position.

(c) The controls shall be so located and arranged with respect to the pilots' seats that there exists full and unrestricted movement of each control without interference from either the cockpit structure or the pilots' clothing when seated with the seat belt fastened. This shall be demonstrated for individuals ranging from 5' 2" to 6' 0" in height.

(d) Identical powerplant controls for each engine shall be located to prevent any misleading impression as to the engine to which they relate.

| Controls | Movement and actuation |
|---|---|
| **Powerplant** | |
| Throttles | Forward to increase forward thrust and rearward to increase rearward thrust. |
| Propellers | Forward to increase rpm. |
| Mixture | Forward or upward for rich. |
| Carburetor air heat | Forward or upward for cold. |
| Supercharger | Forward or upward for low blower. In the case of two-speed superchargers, forward, inward, or clockwise to increase pressure. |
| **Auxiliary** | |
| Landing gear | Down to extend. |

FIGURE 4b–17—POWERPLANT AND AUXILIARY CONTROLS.

(e) The wing flap (or auxiliary lift device) and landing gear controls shall comply with the following:

(1) The wing flap control shall be located on top of the pedestal aft of the throttle(s), centrally or to the right of the pedestal centerline and shall be not less than 10 inches aft of the landing gear control.

(2) The landing gear control shall be located to the left of the pedestal centerline.

(f) The control knobs shall be shaped in accordance with Figure 4b–22, and such knobs shall be of the same color, but of a color in contrast with that of not only the other control knobs but also the surrounding cockpit.

NOTE: Figure 4b–22 is not intended to indicate the exact size or proportion of the control knobs.

(g) Where the work load on the flight crew is such as to require a flight engineer (see § 4b.720), a flight engineer station shall be provided. The station shall be so located and arranged that the flight crew members can perform their functions efficiently and without interfering with each other.

§ 4b.354 *Instrument arrangement.* (See § 4b.611.)

§ 4b.355 *Instrument marking.* (The operational markings, instructions, and placards required for the instruments, controls, etc., are specified in §§ 4b.730 through 4b.738.)

§ 4b.356 *Doors.* (a) Airplane cabins shall be provided with at least one easily accessible external door.

(b) Means shall be provided for locking each external door and for safeguarding against opening in flight either inadvertently by persons or as a result of mechanical failure. It shall be possible to open external doors from either the inside or the outside even though persons may be crowding against the door from the inside. The means of opening shall be simple and obvious and shall be so arranged and marked that it can be readily located and operated even in darkness.

(c) Reasonable provisions shall be made to prevent the jamming of any external door as a result of fuselage deformation in a minor crash.

(d) External doors shall be so located that persons using them will not be endangered by the propellers when appropriate operating procedures are employed.

(e) Means shall be provided for a direct visual inspection of the locking mechanism by crew members to ascertain whether all external doors, including passenger, crew, service, and cargo doors, are fully locked (see also § 4b.362 (e) (5) for emergency exits). In addition, visual means shall be provided to signal to appropriate crew members that all normally used external doors are closed and in the fully locked position.

§ 4b.357 *Door louvres.* Where internal doors are equipped with louvres or other ventilating means, provision convenient to the crew shall be made for stopping the flow of air through the door when such action is found necessary.

§ 4b.358 *Seats, berths, and safety belts.* (a) *General.* At all stations designated as occupiable during take-off and landing, the seats, berths, belts, harnesses, and adjacent parts of the airplane shall be such that a person making proper use of these facilities will not suffer serious injury in the emergency landing conditions as a result of inertia forces specified in § 4b.260. Seats and berths shall be of an approved type (see also § 4b.643 concerning safety belts).

(b) *Arrangement.* (1) Passengers and crew shall be afforded protection from head injuries by one of the following means:

(i) Safety belt and shoulder harness which will prevent the head from contacting any injurious object,

(ii) Safety belt and the elimination of all injurious objects within striking radius of the head,

(iii) Safety belt and a cushioned rest which will support the arms, shoulders, head, and spine.

(2) For arrangements which do not provide a firm hand hold on seat backs, hand grips or rails shall be provided along aisles to enable passengers or crew members to steady themselves while using the aisles in moderately rough air.

(3) All projecting objects which would cause injury to persons seated or moving about the airplane in normal flight shall be padded.

(c) *Strength.* All seats and berths and their supporting structure shall be designed for occupant weight of 170 pounds with due account taken of the maximum load factors, inertia forces, and reactions between occupant, seat, and safety belt or harness corresponding with all relevant flight and ground load conditions, including the emergency landing conditions prescribed in § 4b.260. In addition, the following shall apply.

(1) Pilot seats shall be designed for the reactions resulting from the application of pilot forces to the flight controls as prescribed in § 4b.224.

(2) In determining the strength of the seat or berth attachments to the structure, and the safety belt or shoulder harness attachments to the seat, berth, or structure, the inertia forces specified in § 4b.260 (a) shall be multiplied by a factor of 1.33.

§ 4b.359 *Cargo and baggage compartments.* (See also §§ 4b.382 to 4b.384.)

(a) Each cargo and baggage compartment shall be designed for the placarded maximum weight of contents and the critical load distributions at the appropriate maximum load factors corresponding with all specified flight and ground load conditions, excluding the emergency landing conditions of § 4b.260.

(b) Provisions shall be made to prevent the contents in the compartments from becoming a hazard by shifting under the loads specified in paragraph (a) of this section.

(c) Provisions shall be made to protect the passengers and crew from injury by the contents of any compartment, taking into account the emergency landing conditions of § 4b.260.

EMERGENCY PROVISIONS

§ 4b.360 *General.* The requirements of §§ 4b.361 and 4b.362 shall apply to the emergency provisions.

§ 4b.361 *Ditching.* Compliance with this section is optional. The requirements of this section are intended to safeguard the occupants in the event of an emergency landing during overwater flight. When compliance is shown with the provisions of paragraphs (a) through (c) of this section and with the provisions of §§ 4b.362 (d), 4b.645, and 4b.646, the type certificate shall include certification to that effect. When an airplane is certificated to include ditching provisions, the recommended ditching procedures established on the basis of these requirements shall be set forth in the Airplane Flight Manual (see § 4b.742 (d)).

(a) All practicable design measures compatible with the general characteristics of the type airplane shall be taken to minimize the chance of any behavior of the airplane in an emergency landing on water which would be likely to cause immediate injury to the occupants or to make it impossible for them to escape from the airplane. The probable behavior of the airplane in a water landing shall be investigated by model tests or by comparison with airplanes of similar configuration for which the ditching characteristics are known. In this investigation account shall be taken of scoops, flaps, projections, and all other factors likely to affect the hydrodynamic characteristics of the actual airplane.

(b) It shall be shown that under reasonably probable water conditions the flotation time and trim of the airplane will permit all occupants to leave the airplane and to occupy the life rafts required by § 4b.645. If compliance with this provision is shown by buoyancy and trim computations, appropriate allowances shall be made for probable structural damage and leakage.

NOTE: In the case of fuel tanks which are equipped with fuel jettisoning provisions and which can be reasonably expected to withstand a ditching without leakage, the jettisonable volume of fuel may be considered as buoyancy volume.

(c) External doors and windows shall be designed to withstand the probable maximum local pressures, unless the effects of the collapse of such parts are taken into account in the investigation of the probable behavior of the airplane in a water landing as prescribed in paragraphs (a) and (b) of this section.

§ 4b.362 *Emergency evacuation.* Crew and passenger areas shall be provided with emergency evacuation means to permit rapid egress in the event of crash landings, whether with the landing gear extended or retracted, taking account of the possibility of the airplane being on fire. The provisions of this section shall apply to airplanes where the major portion of the passenger area is aft of the powerplant and the fuel tanks. In airplanes where the major portion of the passenger area is forward of the powerplant and the fuel tanks, or in airplanes of unconventional design where the emergency exit locations prescribed in paragraph (b) of this section would be inconsistent with safe and rapid egress of passengers, variations of emergency exit locations shall be allowed if found appropriate by the Administrator. Passenger entrance, crew, and service doors shall be considered as emergency

exits if they meet the applicable requirements of this section.

(a) *Flight crew emergency exits.* Flight crew emergency exits shall be located in the flight crew area on both sides of the airplane or as a top hatch to provide for rapid evacuation. Such exits shall not be required on small airplanes where the Administrator finds that the proximity of passenger emergency exits to the flight crew area renders them convenient and readily accessible to the flight crew.

(b) *Passenger emergency exits; type and location.* The types of exits and their location shall be as follows:

(1) Type I: A rectangular opening of not less than 24 inches wide by 48 inches high, with corner radii not greater than 4 inches, located as far aft in the passenger area as practicable in the side of the fuselage at floor level.

(2) Type II: Same as Type I (subparagraph (1) of this paragraph) except that the opening is not less than 20 inches wide by 44 inches high.

(3) Type III: A rectangular opening of not less than 20 inches wide by 36 inches high, with corner radii not greater than 4 inches, located as far aft in the passenger area as practicable in the side of the fuselage.

(4) Type IV: A rectangular opening of not less than 19 inches wide by 26 inches high, with corner radii not greater than 4 inches, located over the wing in the side of the fuselage with a step-up inside the airplane of not more than 29 inches and a step-down outside the airplane of not more than 36 inches.

NOTE: Larger openings than those specified in paragraph (b) of this section will be acceptable, whether or not of rectangular shape, provided the specified rectangular openings can be inscribed therein, and further provided that the base of the opening affords a flat surface not less than the width specified.

(c) *Passenger emergency exits; number required.* Emergency exits of type and location prescribed in paragraph (b) of this section shall be accessible to the passengers and shall be provided on each side of the fuselage in accordance with the following:

| Passenger seating capacity | Emergency exits required on each side of fuselage | | | |
|---|---|---|---|---|
| | Type I | Type II | Type III | Type IV |
| 1 to 19 inclusive | ------- | ------- | 1 | ------- |
| 20 to 39 inclusive | ------- | 1 | ------- | 1 |
| 40 to 69 inclusive | 1 | ------- | ------- | 1 |
| 70 to 99 inclusive | 1 | ------- | ------- | 2 |
| 100 to 139 inclusive | 2 | ------- | ------- | 2 |

For airplanes with a passenger capacity of over 139 there shall be, in addition to the emergency exits prescribed for a passenger seating capacity of 100 to 139, inclusive, on each side of the fuselage, one Type I emergency exit for additional passengers up to 50, these exits to be located at such strategic points as would contribute most to the safe evacuation of passengers.

NOTE: Although similar exits and their locations are prescribed for each side of the fuselage, it is not the intent of this regulation to require that the exits necessarily be at locations diametrically opposite each other.

(d) *Ditching emergency exits.* Airplanes certificated in accordance with the ditching provisions of § 4b.261 shall be shown to have, on each side of the fuselage, not less than one emergency exit located above the water line for every 35 passengers: *Provided*, That for the purposes of this paragraph an easily accessible overhead hatch of not less than the clear dimensions of Type III emergency exits (see paragraph (b) (3) of this section) shall be considered equivalent to one emergency exit on each side.

(e) *Emergency exit arrangement.* (1) Emergency exits shall consist of movable doors or hatches in the external walls of the fuselage and shall provide an unobstructed opening to the outside.

(2) All emergency exits shall be openable from the inside and from the outside.

(3) The means of opening emergency exits shall be simple and obvious and shall not require exceptional effort of a person opening them.

(4) Means shall be provided for locking each emergency exit and for safeguarding against opening in flight either inadvertently by persons or as a result of mechanical failure.

(5) Means shall be provided for a direct visual inspection of the locking mechanism by crew members to ascertain whether all emergency exits are fully locked.

(6) Provision shall be made to minimize the possibility of jamming of emergency exits as a result of fuselage deformation in a minor crash landing.

(7) For all landplane emergency exits other than Type IV (see paragraph (b) of this section) which are more than 6 feet from the ground with the airplane on the ground and the landing gear extended, means shall be provided to assist the occupants in descending to the ground.

(8) The proper functioning of emergency exit installations shall be demonstrated by test.

(f) *Emergency exit marking.* (1) All emergency exits, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exits shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches.

(2) A source or sources of light, with an energy supply independent of the main lighting system, shall be installed to illuminate all emergency exit markings. Such lights shall be designed to function automatically in a crash landing and shall also be operable manually.

(3) All emergency exits and their means of opening shall be marked on the outside of the airplane for guidance of rescue personnel.

(g) *Emergency exit access.* Passageways between individual compartments of the passenger area and passageways leading to Type I and Type II emergency exits (see paragraph (b) of this section) shall be unobstructed and shall be not less than 20 inches wide. Adjacent to emergency exits where assisting means are required by paragraph (e) (7) of this section, there shall be sufficient additional space to allow a crew member to assist in the evacuation of passengers without reduction in the unobstructed width of the passageway to such exit.

(h) *Width of main aisle.* The main passenger aisle at any point between seats shall not be less than 15 inches wide up to a height above the floor of 25 inches and not less than 20 inches wide above that height.

VENTILATION, HEATING, AND PRESSURIZATION

§ 4b.370 *General.* The requirements of §§ 4b.371 through 4b.376 shall apply to the ventilation, heating, and pressurization of the aircraft.

§ 4b.371 *Ventilation.* (a) All crew compartments shall be ventilated by providing a sufficient amount of fresh air to enable the crew members to perform their duties without undue discomfort or fatigue.

NOTE: An outside air supply of approximately 10 cubic feet per minute is considered a minimum for each crew member.

(b) Ventilating air in crew and passenger compartments shall be free of harmful or hazardous concentrations of gases or vapors.

NOTE: Carbon monoxide concentrations in excess of one part in 20,000 parts of air are considered hazardous. Carbon dioxide in excess of 3 percent by volume (sea level equivalent) is considered hazardous in the case of crew members. Higher concentrations of carbon dioxide may not necessarily be hazardous in crew compartments if appropriate protective breathing equipment is available.

(c) Provision shall be made to insure the conditions prescribed in paragraph (b) of this section in the event of reasonably probable failures or malfunctioning of the ventilating, heating, pressurization, or other systems and equipment.

NOTE: Examples of acceptable provisions include secondary isolation, integral protective devices, and crew warning and shutoff for equipment the malfunctioning of which could introduce harmful or hazardous quantities of smoke or gases.

(d) Where partitions between compartments are equipped with louvres or other means allowing air to flow between such compartments, provision convenient to the crew shall be made for stopping the flow of air through the louvres or other means when such action is found necessary. (See also § 4b.357.)

(e) Means shall be provided to enable the crew to control the temperature and quantity of ventilating air supplied to the crew compartment independently of the temperature and quantity of ventilating air supplied to other compartments.

§ 4b.372 *Heating systems.* Combustion heaters shall be of an approved type and shall comply with the fire protection requirements of § 4b.386. Engine exhaust heaters shall comply with the provisions of § 4b.467 (c) and (d).

§ 4b.373 *Pressurized cabins; general.* The design of pressurized cabins shall comply with the requirements of §§ 4b.374 through 4b.376. (See also §§ 4b.216 (c) and 4b.352.)

§ 4b.374 *Pressure supply.* (See § 4b.477 (c).)

§ 4b.375 *Pressure control.* Pressurized cabins shall be provided with at least the following valves, controls, and indicators for controlling cabin pressure.

(a) Two pressure relief valves, at least one of which is the normal regulating valve, shall be installed to limit automatically the positive pressure differential to a predetermined value at the maximum rate of flow delivered by the pressure source. The combined capacity of the relief valves shall be such that the failure of any one valve would not cause an appreciable rise in the pressure differential. The pressure differential shall be considered positive when the internal pressure is greater than the external.

(b) Two reverse pressure differential relief valves (or equivalent) shall be installed to prevent automatically a negative pressure differential which would damage the structure, except that one such valve shall be considered sufficient if it is of a design which reasonably precludes its malfunctioning.

(c) Means shall be provided by which the pressure differential can be rapidly equalized.

(d) An automatic or manual regulator for controlling the intake and/or exhaust air flow shall be installed so that the required internal pressures and air flow rates can be maintained.

(e) Instruments shall be provided at the pilot or flight engineer station showing the pressure differential, the absolute pressure in the cabin, and the rate of change of the absolute pressure.

(f) Warning indication shall be provided at the pilot or flight engineer station to indicate when the safe or preset limits on pressure differential and on absolute cabin pressure are exceeded.

(g) If the structure is not designed for pressure differentials up to the maximum relief valve setting in combination with landing loads (see § 4b.216 (c)), a warning placard shall be placed at the pilot or flight engineer station.

§ 4b.376 *Tests—(a) Strength test.* The complete pressurized cabin, including doors, windows, and all valves, shall be tested as a pressure vessel for the pressure differential specified in § 4b.216 (c) (3).

(b) *Functional tests.* The following functional tests shall be performed.

(1) To simulate the condition of regulator valves closed, the functioning and the capacity shall be tested of the positive and negative pressure differential valves and of the emergency release valve.

(2) All parts of the pressurization system shall be tested to show proper functioning under all possible conditions of pressure, temperature, and moisture up to the maximum altitude selected for certification.

(3) Flight tests shall be conducted to demonstrate the performance of the pressure supply, pressure and flow regulators, indicators, and warning signals in steady and stepped climbs and descents at rates corresponding with the maximum attainable without exceeding the operating limitations of the airplane up to the maximum altitude selected for certification.

(4) All doors and emergency exits shall be tested to ascertain that they operate properly after being subjected to the flight tests prescribed in subparagraph (3) of this paragraph.

FIRE PROTECTION

§ 4b.380 *General.* Compliance shall be shown with the fire protection requirements of §§ 4b.381 through 4b.386. (See also §§ 4b.480 through 4b.490.) In addition, the following shall apply.

(a) *Hand fire extinguishers.* Hand fire extinguishers shall be of an approved type. The types and quantities of extinguishing agents shall be appropriate for the types of fires likely to occur in the compartments where the extinguishers are intended for use. Extinguishers intended for use in personnel compartments shall be such as to minimize the hazard of toxic gas concentrations.

(b) *Built-in fire extinguishers.* Where a built-in fire extinguishing system is required, its capacity in relation to the compartment volume and ventilation rate shall be sufficient to combat any fire likely to occur in the compartment. All built-in fire extinguishing systems shall be so installed that any extinguisher agent likely to enter personnel compartments will not be hazardous to the occupants and that discharge of the extinguisher cannot result in structural damage. (See also § 4b.371.)

(c) *Protective breathing equipment.* If the airplane contains Class A or B cargo compartments (see § 4b.383), protective breathing equipment shall be installed for the use of appropriate crew members. (See § 4b.651 (h).)

§ 4b.381 *Cabin interiors.* All compartments occupied or used by the crew or passengers shall comply with the following provisions.

(a) The materials in no case shall be less than flash-resistant.

(b) The wall and ceiling linings, the covering of all upholstering, floors, and furnishings shall be flame-resistant.

(c) Compartments where smoking is to be permitted shall be equipped with ash trays of the self-contained type which are completely removable. All other compartments shall be placarded against smoking.

(d) All receptacles for used towels, papers, and waste shall be of fire-resistant material, and shall incorporate covers or other provisions for containing possible fires.

(e) At least one hand fire extinguisher shall be provided for use by the flight crew.

(f) In addition to the requirements of paragraph (e) of this section at least the following number of hand fire extinguishers conveniently located for use in passenger compartments shall be provided according to the passenger capacity of the airplane:

| Passenger capacity: | *Minimum number of fire extinguishers* |
|---|---|
| 6 or less | 0 |
| 7 through 30 | 1 |
| 31 through 60 | 2 |
| 61 or more | 3 |

§ 4b.382 *Cargo and baggage compartments.* (a) Cargo and baggage compartments shall include no controls, wiring, lines, equipment, or accessories the damage or failure of which would affect the safe operation of the airplane, unless such items are shielded, isolated, or otherwise protected so that they cannot be damaged by movement of cargo in the compartment, and so that any breakage or failure of such item will not create a fire hazard.

(b) Provision shall be made to prevent cargo or baggage from interfering with the functioning of the fire-protective features of the compartment.

(c) All materials used in the construction of cargo or baggage compartments, including tie-down equipment, shall be flame-resistant.

§ 4b.383 *Cargo compartment classification.* All cargo and baggage compartments shall include provisions for safeguarding against fires according to the following classification.

(a) *Class A.* Cargo and baggage compartments shall be classified as "A" if the presence of a possible fire therein would be easily discernible to a member of the crew while at his station, and if all parts of the compartment are easily accessible in flight. A hand fire extinguisher shall be available for each compartment. (See § 4b.380 (c) for protective breathing requirements.)

(b) *Class B.* Cargo and baggage compartments shall be classified as "B" if sufficient access is provided while in flight to enable a member of the crew to move by hand all contents and to reach effectively all parts of the compartment with a hand fire extinguisher. Compliance shall be shown with the following:

(1) The design of the compartment shall be such that, when the access provisions are being used, no hazardous quantity of smoke, flames, or extinguishing agent will enter any compartment occupied by the crew or passengers. (See § 4b.380 (c) for protective breathing requirements.)

(2) Each compartment shall be equipped with a separate system of an approved type smoke detector or fire detector other than a heat detector to give warning at the pilot or flight engineer station.

(3) Hand fire extinguishers shall be readily available for use in each compartment.

(4) The compartment shall be completely lined with fire-resistant material.

(c) *Class C.* Cargo and baggage compartments shall be classified as "C" if they do not conform to the prerequisites for the "A" or "B" classifications. Compliance shall be shown with the following.

(1) Each compartment shall be equipped with:

(i) A separate system of an approved type smoke detector or fire detector other than heat detector to give warning at the pilot or flight engineer station, and

(ii) An approved built-in fire-extinguishing system controlled from the pilot or flight engineer station.

(2) Means shall be provided to exclude hazardous quantities of smoke, flames, or extinguishing agent from en-

tering into any compartment occupied by the crew or passengers.

(3) Ventilation and drafts shall be controlled within each compartment so that the extinguishing agent provided can control any fire which may start within the compartment.

(4) The compartment shall be completely lined with fire-resistant material.

(d) *Class D.* Cargo and baggage compartments shall be classified as "D" if they are so designed and constructed that a fire occurring therein will be completely confined without endangering the safety of the airplane or the occupants. Compliance shall be shown with the following.

(1) Each compartment shall be equipped with an approved type smoke detector or fire detector other than heat detector to give warning at the pilot or flight engineer station.

(2) Means shall be provided to exclude hazardous quantities of smoke, flames, or other noxious gases from entering into any compartment occupied by the crew or passengers.

(3) Ventilation and drafts shall be controlled within each compartment so that any fire likely to occur in the compartment will not progress beyond safe limits.

NOTE: For compartments having a volume not in excess of 500 cu. ft. an airflow of not more than 1,500 cu. ft. per hour is considered acceptable. For larger compartments lesser airflow may be applicable.

(4) The compartment shall be completely lined with fire-resistant material.

(5) Consideration shall be given to the effect of heat within the compartment on adjacent critical parts of the airplane.

§ 4b.384 *Proof of compliance.* (a) Compliance with those provisions of § 4b.383 which refer to compartment accessibility, to the entry of hazardous quantities of smoke or extinguishing agent into compartments occupied by the crew or passengers, and to the dissipation of the extinguishing agent in class C compartments shall be demonstrated by tests in flight.

(b) It shall also be demonstrated during the tests prescribed in paragraph (a) of this section that no inadvertent operation of smoke or fire detectors in adjacent or other compartments within the airplane would occur as a result of fire contained in any one compartment, either during or after extinguishment, unless the extinguishing system floods such compartments simultaneously.

§ 4b.385 *Flammable fluid fire protection.* In areas of the airplane where flammable fluids or vapors might be liberated by leakage or failure in fluid systems, design precautions shall be made to safeguard against the ignition of such fluids or vapors due to the operation of other equipment, or to control any fire resulting from such ignition.

§ 4b.386 *Combustion heater fire protection*—(a) *Combustion heater fire zones.* The following shall be considered as combustion heater fire zones and shall be protected against fire in accordance with applicable provisions of §§ 4b.480 through 4b.486 and § 4b.489.

(1) Region surrounding the heater, if such region contains any flammable fluid system components other than the heater fuel system which might be damaged by heater malfunctioning or which, in case of leakage or failure, might permit flammable fluids or vapors to reach the heaters.

(2) Region surrounding the heater, if the heater fuel system incorporates fittings the leakage of which would permit fuel or vapors to enter this region.

(3) That portion of the ventilating air passage which surrounds the combustion chamber.

(b) *Ventilating air ducts.* (1) Ventilating air ducts which pass through fire zones shall be of fireproof construction.

(2) Unless isolation is provided by the use of fireproof valves or other equivalently effective means, the ventilating air duct downstream of the heater shall be of fireproof construction for a sufficient distance to assure that any fire originating from within the heater can be contained within the duct.

(3) Portions of ventilating ducts passing through regions in the airplane where flammable fluid systems are located shall be so constructed or isolated from such systems that failure or malfunctioning of the flammable fluid system components cannot introduce flammable fluids or vapors into the ventilating airstream.

(c) *Combustion air ducts.* (1) Combustion air ducts shall be of fireproof construction for a distance sufficient to prevent damage from backfiring or reverse flame propagation.

(2) Combustion air ducts shall not communicate with the ventilating airstream unless it is demonstrated that flames from backfires or reverse burning cannot enter the ventilating airstream under any conditions of ground or flight operation including conditions of reverse flow or malfunctioning of the heater or its associated components.

(3) Combustion air ducts shall not restrict prompt relief of backfires which can cause heater failure due to pressures generated within the heater.

(d) *Heater controls; general.* Provision shall be made to prevent hazardous accumulations of water or ice on or within any heater control components, control system tubing, or safety controls.

(e) *Heater safety controls.* (1) In addition to the components provided for normal continuous control of air temperature, air flow, and fuel flow, means independent of such components shall be provided with respect to each heater to shut off automatically that heater's ignition and fuel supply at a point remote from the heater when the heat exchanger temperature or ventilating air temperature exceed safe limits or when either the combustion air flow or the ventilating air flow becomes inadequate for safe operation. The means provided for this purpose for any individual heater shall be independent of all components serving other heaters the heat output of which is essential to the safe operation of the airplane.

(2) Warning means shall be provided to indicate to the crew when a heater, the heat output of which is essential to the safe operation of the airplane, has been shut off by the operation of the automatic means prescribed in subparagraph (1) of this paragraph.

(f) *Air intakes.* Combustion and ventilating air intakes shall be so located that no flammable fluids or vapors can enter the heater system under any conditions of ground or flight operation either during normal operation or as a result of malfunctioning, failure, or improper operation of other airplane components.

(g) *Heater exhaust.* Heater exhaust systems shall comply with the provisions of § 4b.467 (a) and (b). In addition, the following shall apply:

(1) Exhaust shrouds shall be sealed so that flammable fluids and hazardous quantities of vapors cannot reach the exhaust systems through joints.

(2) Exhaust systems shall not restrict the prompt relief of backfires which can cause heater failure due to pressures generated within the heater.

(h) *Heater fuel systems.* Heater fuel systems shall comply with all portions of the powerplant fuel system requirements which affect safe heater operations. In addition, heater fuel system components within the ventilating airstream shall be protected by shrouds so that leakage from such components cannot enter the ventilating airstream.

(i) *Drains.* Means shall be provided for safe drainage of fuel accumulations which might occur within the combustion chamber or the heat exchanger. Portions of such drains which operate at high temperatures shall be protected in the same manner as heater exhausts (see paragraph (g) of this section). Drains shall be protected against hazardous ice accumulations in flight and during ground operation.

MISCELLANEOUS

§ 4b.390 *Reinforcement near propellers.* Portions of the airplane near propeller tips shall have sufficient strength and stiffness to withstand the effects of the induced vibration and of ice thrown from the propeller. Windows shall not be located in such regions unless shown capable of withstanding the most severe ice impact likely to occur.

§ 4b.391 *Leveling marks.* Reference marks shall be provided for use in leveling the airplane to facilitate weight and balance determinations on the ground.

SUBPART E—POWERPLANT INSTALLATION

INSTALLATION

§ 4b.400 *General.* The powerplant installation shall be considered to include all components of the airplane which are necessary for its propulsion. It shall also be considered to include all components which affect the control of the major propulsive units or which affect their safety of operation between normal inspections or overhaul periods. (See §§ 4b.604 and 4b.613 for instrument installation and marking.)

(a) *Scope.* Reciprocating engine installations shall comply with the provisions of this subpart. Turbine engine installations shall comply with such of the provisions of this subpart as are found applicable to the specific type of installation.

(b) *Functioning.* All components of the powerplant installation shall be constructed, arranged, and installed in a manner which will assure their continued safe operation between normal inspections or overhaul periods.

(c) *Accessibility.* Accessibility shall be provided to permit such inspection and maintenance as is necessary to assure continued airworthiness.

(d) *Electrical bonding.* Electrical interconnections shall be provided to prevent the existence of differences of potential between major components of the powerplant installation and other portions of the airplane.

§ 4b.401 *Engines*—(a) *Type certification.* All engines shall be type certificated in accordance with the provisions of Part 13 of this subchapter.

(b) *Engine isolation.* The powerplants shall be arranged and isolated each from the other to permit operation in at least one configuration in a manner such that the failure or malfunctioning of any engine, or of any system of the airplane the failure of which can affect an engine, will not prevent the continued safe operation of the remaining engine(s) or require immediate action by a crew member for continued safe operation.

(c) *Control of engine rotation.* Means shall be provided for stopping and restarting the rotation of any engine individually in flight. All components provided for this purpose which are located on the engine side of the fire wall and which might be exposed to fire shall be of fire-resistant construction. If hydraulic propeller feathering systems are used for this purpose, the feathering lines on all airplanes manufactured after June 30, 1954, shall be fire-resistant under the operating conditions which may be expected to exist when feathering is being accomplished. (See also § 4b.449.)

§ 4b.402 *Propellers.* Propellers shall be type certificated in accordance with the provisions of Part 14 of this subchapter. The maximum propeller shaft rotational speed and the engine power permissible for use in the airplane shall not exceed the corresponding limits for which the propeller has been certificated.

§ 4b.403 *Propeller vibration.* The magnitude of the propeller blade vibration stresses under all normal conditions of operation shall be determined by actual measurement or by comparison with similar installations for which such measurements have been made. The vibration stresses thus determined shall not exceed values which have been demonstrated to be safe for continuous operation.

§ 4b.404 *Propeller pitch and speed limitations.* (a) The propeller pitch and speed shall be limited to values which will assure safe operation under all normal conditions and which will assure compliance with the performance requirements specified in §§ 4b.110 through 4b.125.

(b) A propeller speed limiting means shall be provided at the governor. Such means shall be set to limit the maximum possible governed engine speed to a value not exceeding the maximum permissible r. p. m.

(c) The low pitch blade stop in the propeller, or other means used to limit the low pitch position, shall be set so that the propeller speed does not exceed 103 percent of the maximum permissible engine r. p. m. under the following conditions:

(1) Propeller blades at the low pitch limit and governor inoperative, and

(2) Engine operating at take-off manifold pressure with the airplane stationary under standard atmospheric conditions.

§ 4b.405 *Propeller clearance.* With the airplane loaded to the maximum weight and at the most adverse center of gravity position and the propellers in the most adverse pitch position, the propeller clearances shall not be less than the following, unless smaller clearances are substantiated for the particular design involved.

(a) *Ground.* Seven inches of ground clearance for airplanes equipped with nose-wheel type landing gears, or nine inches of ground clearance for airplanes equipped with tail-wheel type landing gears shall be provided with the landing gear statically deflected and the airplane in the level take-off or in the taxying attitude, whichever is most critical. In addition, there shall be positive clearance between the propeller and the ground when, with the airplane in the level take-off attitude, the critical tire is completely deflated and the corresponding landing gear strut is completely bottomed.

(b) *Water.* A water clearance of 18 inches shall be provided unless compliance with § 4b.182 (a) is demonstrated with less clearance.

(c) *Structure.* (1) One inch radial clearance shall be provided between the blade tips and the airplane structure, or whatever additional radial clearance is necessary to preclude harmful vibration of the propeller or airplane.

(2) One-half inch longitudinal clearance shall be provided between the propeller blades or cuffs and all stationary portions of the airplane.

(3) Positive clearance shall be provided between other rotating portions of the propeller or spinner and all stationary portions of the airplane.

[CAR, 15 F. R. 3543, June 8, 1950, as amended by Amdt. 4b-7, 17 F. R. 11631, Dec. 20, 1952]

§ 4b.406 *Propeller de-icing provisions.* (a) Airplanes intended for operation under atmospheric conditions conducive to the formation of ice on propellers or on accessories where ice accumulation would jeopardize engine performance shall be provided with means for the prevention or removal of hazardous ice accumulations.

(b) If combustible fluid is used for propeller de-icing, the provisions of §§ 4b.480 through 4b.483, inclusive, shall be complied with.

FUEL SYSTEM OPERATION AND ARRANGEMENT

§ 4b.410 *General.* (a) The fuel system shall be constructed and arranged in such a manner as to assure a flow of fuel to each engine at a rate and pressure which have been established for proper engine functioning under all normal conditions, including all maneuvers for which the airplane is intended. (For fuel system instruments see § 4b.604.)

(b) The fuel system shall be so arranged that no one fuel pump can draw fuel from more than one tank at a time unless means are provided to prevent introducing air into the system.

§ 4b.411 *Fuel system independence.* The design of the fuel system shall comply with the requirements of § 4b.401 (b). Unless other provisions are made in compliance with this requirement, the fuel system shall be arranged to permit the supply of fuel to each engine through a system independent of any portion of a system supplying fuel to any other engine.

§ 4b.412 *Pressure cross-feed arrangements.* (a) Pressure cross-feed lines shall not pass through portions of the airplane intended to carry personnel or cargo, unless means are provided to permit the flight personnel to shut off the supply of fuel to these lines, or unless the lines are enclosed in a fuelproof and fumeproof shroud which is ventilated and drained to the exterior of the airplane.

(b) The shrouds specified in paragraph (a) of this section need not be used if the lines are routed or protected to safeguard against accidental damage and if they do not incorporate any fittings within the personnel or cargo areas.

(c) Lines which can be isolated from the remainder of the fuel system by means of valves at each end shall incorporate provisions for the relief of excessive pressures which might result from exposure of the isolated line to high ambient temperatures.

§ 4b.413 *Fuel flow rate.* (a) The ability of the fuel system to provide the required fuel flow rate shall be demonstrated when the airplane is in the attitude which represents the most adverse condition from the standpoint of fuel feed which the airplane is designed to attain. The following shall be considered in this respect:

(1) Normal ground attitude,

(2) Climb with take-off flaps, landing gear up, using take-off power, at speed $V_2$ as determined in § 4b.114 (b), at landing weight,

(3) Level flight at maximum continuous power or at the power required for level flight at $V_C$, whichever is the lesser,

(4) Glide at a speed of 1.3 $V_{s_0}$, at landing weight.

(b) During the demonstration prescribed in paragraph (a) of this section, fuel shall be delivered to the engine at a pressure not less than the minimum pressure established for proper engine operation. In addition the following shall be met.

(1) The quantity of fuel in the tank being considered shall not exceed the amount established as the unusable fuel supply for that tank, as determined by demonstrating compliance with the provisions of § 4b.416 (see also §§ 4b.420 and 4b.613 (b)), together with whatever minimum quantity of fuel it may be necessary to add for the purpose of conducting the flow test.

(2) If a fuel flowmeter is provided, the meter shall be blocked during the flow test and the fuel shall flow through the meter by-pass.

(3) It shall be acceptable to conduct the demonstration prescribed in paragraph (a) of this section by a ground test on the airplane or on a representative mock-up of the fuel system.

§ 4b.414 *Pump systems.* (a) The fuel flow rate for pump systems (main and reserve supply) shall be 0.9 pounds per hour for each take-off horsepower or 125 percent of the actual take-off fuel consumption of the engine, whichever is the greater.

(b) The fuel flow rate specified in paragraph (a) of this section shall be applicable to both the primary engine-driven pump and to emergency pumps. The fuel flow rate shall be available when the pump is running at the speed at which it would normally be operating during take-off. In the case of hand-operated pumps, the speed required shall not be more than 60 complete cycles (120 single strokes) per minute.

§ 4b.415 *Transfer systems.* The provisions of § 4b.414 shall apply to transfer systems, except that the required fuel flow rate for the engine or engines involved shall be established upon the basis of maximum continuous power and its corresponding speed instead of take-off power and its corresponding speed.

§ 4b.416 *Determination of unusable fuel supply and fuel system operation on low fuel.* (a) The quantity of fuel with which compliance with the provision of this paragraph is demonstrated shall be selected by the applicant who, in addition, shall indicate which of the conditions specified in paragraph (b) of this section are most likely to be critical from the standpoint of establishing the unusable fuel supply, and also indicate the order in which the other conditions may be critical.

(b) The unusable fuel supply for each tank used for take-off and landing shall be established as not less than the quantity at which the first evidence of malfunctioning occurs under the following conditions: (See § 4b.420.)

(1) Level flight at maximum continuous power or at the power required for level flight at $V_C$, whichever is the lesser,

(2) Climb with take-off flaps and landing gear up, at take-off power, at landing weight, and at speed $V_2$ determined in accordance with § 4b.114 (b),

(3) Rapid application of maximum continuous power and subsequent transition to a climb at speed $V_2$ determined in accordance with § 4b.114 (b), with retraction of flaps and landing gear, from a power-off glide at 1.3 $V_{s_1}$, with flaps and landing gear down, at landing weight.

(c) If an engine can be supplied with fuel from more than one tank, it shall be possible to regain the full fuel pressure of that engine in not more than 20 seconds after switching to any fuel tank after engine malfunctioning becomes apparent due to the depletion of the fuel supply in any tank from which the engine can be fed. Compliance with this provision shall be demonstrated in level flight.

(d) The unusable fuel supply for all tanks other than those used for take-off and landing shall be established as not less than the quantity at which the first evidence of malfunctioning occurs under the conditions specified in paragraph (b) (1) of this section. It shall be acceptable to demonstrate compliance with this requirement by a ground test.

§ 4b.417 *Fuel system hot weather operation.* (a) To prove satisfactory hot weather operation the airplane shall be climbed from the altitude of the airport chosen by the applicant to the altitude corresponding with that at which the one-engine-inoperative best rate of climb is not greater than the en route climb with the configuration and at the weight specified in § 4b.120 (c). There shall be no evidence of vapor lock or other malfunctioning. The climb test shall be conducted under the following conditions.

(1) All engines shall operate at maximum continuous power, except that take-off power shall be used for the altitude range extending from 1,000 feet below the critical altitude through the critical altitude. The time interval during which take-off power is used shall not exceed the take-off time limitation.

(2) The weight shall be with full fuel tanks, minimum crew, and such ballast as is required to maintain the center of gravity within allowable limits.

(3) The speed of climb shall not exceed that which will permit compliance with the minimum climb requirement specified in § 4b.119 (a).

(4) The fuel temperature shall be not less than 110° F.

(b) The test prescribed in paragraph (a) of this section shall be performed either in flight or on the ground closely simulating flight conditions. If a flight test is performed in weather sufficiently cold to interfere with the proper conduct of the test, the fuel tank surfaces, fuel lines, and other fuel system parts subjected to cooling action from cold air shall be insulated to simulate, in so far as practicable, flight in hot weather.

§ 4b.418 *Flow between interconnected tanks.* (a) In fuel systems where the tank outlets are interconnected, it shall not be possible for fuel to flow between tanks in quantities sufficient to cause an overflow of fuel from the tank vent when the airplane is operated as specified in § 4b.416 (b) and the tanks are full.

(b) If it is possible to pump fuel from one tank to another in flight, the design of the fuel tank vents and the fuel transfer system shall be such that structural damage to tanks will not occur in the event of overfilling.

FUEL SYSTEM CONSTRUCTION AND INSTALLATION

§ 4b.420 *General.* (a) Fuel tanks shall be capable of withstanding without failure all vibration, inertia, fluid, and structural loads to which they may be subjected in operation.

(b) Flexible fuel tank liners shall be of an approved type or shall be shown to be suitable for the particular application.

(c) The fuel tanks, as installed, shall be designed to withstand a minimum internal pressure of 3.5 p. s. i.

(d) Integral type fuel tanks shall be provided with facilities for inspection and repair of the tank interior.

(e) The total usable capacity of the fuel tanks shall not be less than 0.15 gallons for each maximum continuous horsepower for which the airplane is certificated.

(f) The unusable fuel capacity shall be the minimum quantity of fuel which will permit compliance with the provisions of § 4b.416.

§ 4b.421 *Fuel tank tests.* (a) Fuel tanks shall be capable of withstanding the following pressure tests without failure or leakage. It shall be acceptable to apply the pressures in a manner simulating the actual pressure distribution in service.

(1) Conventional metal tanks and nonmetallic tanks the walls of which are not supported by the airplane structure shall be submitted to a pressure of 3.5 p. s. i., or the pressure developed during the maximum ultimate acceleration of the airplane with a full tank, whichever is the greater.

(2) Integral tanks shall be submitted to a pressure of 3.5 p. s. i. unless the pressure developed during the maximum limit acceleration of the airplane with a full tank exceeds this value, in which case a hydrostatic head, or equivalent test, shall be applied to duplicate the acceleration loads in so far as possible, except that the pressure need not exceed 3.5 p. s. i. on surfaces not exposed to the acceleration loading.

(3) Nonmetallic tanks the walls of which are supported by the airplane structure shall be submitted to a pressure of 3.5 p. s. i. when mounted in the airplane structure.

(b) Tanks with large unsupported or unstiffened flat areas shall be capable of withstanding the following test, or other equivalent test, without leakage or failure.

(1) The complete tank assembly together with its supports shall be subjected to a vibration test when mounted in a manner simulating the actual installation.

(2) The tank assembly shall be vibrated for 25 hours at an amplitude of not less than one thirty-second of an inch while filled two-thirds full of water.

(3) The frequency of vibration shall be 90 percent of the maximum continuous rated speed of the engine unless some other frequency within the normal operating range of speeds of the engine is more critical, in which case the latter speed shall be employed and the time of test shall be adjusted to accomplish the same number of vibration cycles.

(4) In conjunction with the vibration test the tank assembly shall be rocked through an angle of 15° on either side of the horizontal (30° total) about an axis parallel to the axis of the fuselage.

(5) The assembly shall be rocked at the rate of 16 to 20 complete cycles per minute.

(c) In the case of nonmetallic tanks a specimen tank of the same basic construction as that to be used in the airplane, when installed in a representative test tank, shall withstand the test as specified in paragraph (b) of this section with fuel at a temperature of 110° F.

§ 4b.422 *Fuel tank installation.* (a) The method of support for fuel tanks shall not permit concentration of loads, resulting from the weight of the fuel in the tank, on unsupported tank surfaces. The following shall be applicable.

(1) Pads shall be provided to prevent chafing between the tank and its supports.

(2) Materials employed for padding shall be nonabsorbent or shall be treated to prevent the absorption of fluids.

(3) If flexible tank liners are employed they shall be so supported that the liner is not required to withstand fluid loads.

(4) Interior surfaces of tank compartments shall be smooth and free of projections which could cause wear of the liner, unless provisions are made for protection of the liner at such points or unless the construction of the liner itself provides such protection.

(b) Spaces adjacent to the surfaces of the tank shall be ventilated consistent with the size of the compartment to avoid fume accumulation in the case of minor leakage. If the tank is in a sealed compartment it shall be acceptable to limit the ventilation to that provided by drain holes of sufficient size to prevent excessive pressure resulting from altitude changes.

(c) Location of fuel tanks shall comply with the provisions of § 4b.481 (a).

(d) No portion of engine nacelle skin which lies immediately behind a major air egress opening from the engine compartment shall act as the wall of an integral tank.

(e) Fuel tanks shall be isolated from personnel compartments by means of fumeproof and fuelproof enclosures.

§ 4b.423 *Fuel tank expansion space.* (a) Fuel tanks shall be provided with an expansion space of not less than 2 percent of the tank capacity.

(b) It shall not be possible to fill the fuel tank expansion space inadvertently when the airplane is in the normal ground attitude.

§ 4b.424 *Fuel tank sump.* (a) Each fuel tank shall be provided with a sump having a capacity of not less than either 0.25 percent of the tank capacity or one-sixteenth of a gallon, whichever is the greater.

(b) The fuel tank sump capacity specified in paragraph (a) of this section shall be effective with the airplane in the normal ground attitude. The fuel tank shall be constructed to permit drainage of any hazardous quantity of water from all portions of the tank to the sump when the airplane is in the ground attitude.

(c) Fuel tank sumps shall be provided with an accessible drain to permit complete drainage of the sump on the ground. The drain shall discharge clear of all portions of the airplane and shall be provided with means for positive locking of the drain in the closed position, either manually or automatically.

§ 4b.425 *Fuel tank filler connection.* (a) The design of fuel tank filler connections shall be such as to prevent the entrance of fuel into the fuel tank compartment or any other portion of the airplane other than the tank itself.

(b) Recessed fuel tank filler connections which retain any appreciable quantity of fuel shall incorporate a drain, and the drain shall discharge clear of all portions of the airplane.

(c) The fuel tank filler cap shall provide a fuel-tight seal.

(d) The fuel tank filler connections shall be marked as prescribed in § 4b.738 (b).

§ 4b.426 *Fuel tank vents and carburetor vapor vents.* (a) Fuel tanks shall be vented from the top portion of the expansion space in such a manner that venting of the tank is effective under all normal flight conditions. The following shall be applicable.

(1) Vent outlets shall be located and constructed to prevent the possibility of being obstructed by ice or other foreign matter.

(2) The vent shall be constructed to preclude the possibility of siphoning fuel during normal operation.

(3) The vent shall be of sufficient size to prevent the existence of excessive differences of pressure between the interior and exterior of the tank during normal flight operation, during maximum rate of descent, and, if applicable, during refueling and defueling.

(4) Air spaces of tanks with interconnected outlets shall also be interconnected.

(5) There shall be no points in the vent line where moisture could accumulate with the airplane in either the ground or the level flight attitude unless drainage is provided.

(6) Vents and drainage shall not terminate at points where the discharge of fuel from the vent outlet would constitute a fire hazard or from which fumes could enter personnel compartments.

(b) Carburetors which are provided with vapor elimination connections shall be provided with a vent line to lead vapors back to one of the fuel tanks. The vents shall comply with the following.

(1) Provisions shall be incorporated in the vent system to avoid stoppage by ice.

(2) If more than one fuel tank is provided and it is necessary to use the tanks in a definite sequence, the vapor vent return line shall lead back to the fuel tank used for take-off and landing.

§ 4b.427 *Fuel tank outlet.* A fuel strainer of 8 to 16 meshes per inch shall be provided either for the fuel tank outlet or for the booster pump. Strainers shall comply with the following.

(a) The clear area of the fuel tank outlet strainer shall not be less than 5 times the area of the fuel tank outlet line.

(b) The diameter of the strainer shall not be less than the diameter of the fuel tank outlet.

(c) Finger strainers shall be accessible for inspection and cleaning.

§ 4b.428 *Under-wing fueling provisions.* Under-wing fuel tank connections shall be provided with means to prevent the escape of hazardous quantities of fuel from the tank in the event of malfunctioning of the fuel entry valve while the cover plate is removed. In addition to the normal means provided in the airplane for limiting the tank content, a means shall be installed to prevent damage to the tank in case of failure of the normal means.

FUEL SYSTEM COMPONENTS

§ 4b.430 *Fuel pumps*—(a) *Main pumps.* (1) If the engine fuel supply is maintained by means of pumps, one fuel pump for each engine shall be engine-driven.

(2) Fuel pumps shall meet the pertinent flow requirements of § 4b.413.

(3) All positive displacement fuel pumps shall incorporate an integral by-pass, unless provision is made for a continuous supply of fuel to all engines in case of failure of any one pump. Engine fuel injection pumps which are approved as an integral part of the engine need not incorporate a by-pass.

(4) If the emergency fuel pumps are all dependent upon the same source of motive power, the main fuel pumps shall be capable of providing sufficient fuel flow and pressure to maintain level flight at maximum weight and normal cruising power at an altitude of 6,000 feet with 110° F. fuel without the aid of any emergency fuel pump.

(b) *Emergency pumps.* (1) Emergency fuel pumps shall be provided to permit supplying all engines with fuel in case of failure of any one main fuel pump, except in the case of installations in which the only fuel pump used in the system is an engine fuel injection pump which is approved as an integral part of the engine.

(2) Emergency fuel pumps shall be available for immediate use in case of failure of any other fuel pump. No manipulation of fuel valves shall be necessary on the part of the crew to make an emergency fuel pump available to the engine which it is normally intended to serve when the fuel system is being operated in the configuration complying with the provisions of § 4b.411.

§ 4b.431 *Fuel pump installation.* (a) Provision shall be made to maintain the fuel pressure at the inlet to the carburetor within the range of limits established for proper engine operation.

(b) When necessary for the maintenance of the proper fuel delivery pressure, a connection shall be provided to transmit the carburetor air intake static pressure to the proper fuel pump relief valve connection. In such cases, to avoid erroneous fuel pressure reading, the gauge balance lines shall be independently connected to the carburetor inlet pressure.

§ 4b.432 *Fuel system lines and fittings.* (a) Fuel lines shall be installed and supported to prevent excessive vibration and to withstand loads due to fuel pressure and due to accelerated flight conditions.

(b) Fuel lines which are connected to components of the airplane between which relative motion could exist shall incorporate provisions for flexibility.

(c) Flexible connections in fuel lines which may be under pressure and subjected to axial loading shall employ flex-

ible hose assemblies rather than hose clamp connections.

(d) Flexible hose shall be of an approved type or shall be shown to be suitable for the particular application.

(e) Flexible hoses which might be adversely affected by exposure to high temperatures shall not be employed in locations where excessive temperatures will exist during operation or after engine shut-down.

§ 4b.433 *Fuel lines and fittings in designated fire zones.* Fuel lines and fittings in all designated fire zones (see § 4b.480) shall comply with the provisions of § 4b.483.

§ 4b.434 *Fuel valves.* In addition to the requirements of § 4b.482 for shut-off means, all fuel valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions and shall be supported so that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines attached to the valve.

§ 4b.435 *Fuel strainer.* A fuel strainer shall be provided between the fuel tank outlet and the carburetor inlet and shall comply with the following:

(a) If an engine-driven fuel pump is provided, the strainer shall be located between the tank outlet and the engine-driven pump inlet.

(b) The fuel strainer shall be accessible for drainage and cleaning, and the strainer screen shall be easily removable.

(c) The strainer shall be mounted in a manner not to cause its weight to be supported by the connecting lines or by the inlet or outlet connections of the strainer itself.

§ 4b.436 *Fuel system drains.* Drainage of the system shall be accomplished by fuel strainer drains and other drains as provided in § 4b.424. The following shall apply:

(a) Drains shall discharge clear of all portions of the airplane and shall incorporate means for positive locking of the drain in the closed position, either manually or automatically.

(b) All fuel system drains shall be accessible.

(c) If drainage of the fuel strainer permits compliance with paragraphs (a) and (b) of this section, no additional drains need be provided unless it is possible for a hazardous quantity of water or sediment to be trapped therein. (See also § 4b.483 (c).)

§ 4b.437 *Fuel jettisoning system.* If the maximum take-off weight for which the airplane is certificated exceeds 105 percent of the certificated maximum landing weight, provision shall be made for the jettisoning of fuel from the maximum take-off to the maximum landing weight.

(a) The average rate of fuel jettisoning shall be 1 percent of the maximum take-off weight per minute, except that the time required to jettison the fuel need not be less than 10 minutes. Compliance with these provisions shall be shown at maximum take-off weight, with flaps and landing gear up, and in the following flight conditions:

(1) Power-off glide at a speed of 1.4 $V_{s_1}$,

(2) Climb at the one-engine-inoperative best rate-of-climb speed with the critical engine inoperative, the remaining engine(s) at maximum continuous power.

(3) Level flight at a speed of 1.4 $V_{s_1}$, if the results of tests in conditions specified in subparagraphs (1) and (2) of this paragraph indicate that this condition could be critical.

(b) During the flight tests prescribed in paragraph (a) of this section it shall be demonstrated that the fuel jettisoning system complies with the following provisions.

(1) The fuel jettisoning system and its operation shall be free of fire hazard.

(2) The fuel shall discharge clear of all portions of the airplane.

(3) Fuel or fumes shall not enter any portion of the airplane.

(4) The jettisoning operation shall not affect adversely the controllability of the airplane.

(c) The design of the jettisoning system shall be such that it would not be possible to jettison fuel in the tanks used for take-off and landing below the level providing 45 minutes flight at 75 percent maximum continuous power, except that it shall be permissible to jettison all fuel where an auxiliary control is provided independent of the main jettisoning control.

(d) The fuel jettisoning valve shall permit the flight personnel to close the valve during any portion of the jettisoning operation. (See § 4b.475 for fuel jettisoning system controls.)

(e) Unless it is demonstrated that lowering of the flaps does not adversely affect fuel jettisoning, a placard shall be provided adjacent to the jettisoning control to warn flight personnel against jettisoning fuel while the flaps are lowered. A notation to this effect shall also be included in the Airplane Flight Manual. (See § 4b.740.)

OIL SYSTEM

§ 4b.440 *General.* (a) Each engine shall be provided with an independent oil system capable of supplying the engine with an appropriate quantity of oil at a temperature not exceeding the maximum which has been established as safe for continuous operation. (For oil system instruments see §§ 4b.604 and 4b.735.)

(b) The oil tank capacity available for the use of the engine shall not be less than the product of the endurance of the airplane under critical operating conditions times the maximum permissible oil consumption rate of the engine under the same conditions, plus a suitable margin to assure system circulation. In lieu of a rational analysis of airplane range, a fuel-oil ratio of 30:1 by volume shall be acceptable for airplanes not provided with a reserve or transfer system.

(c) If either an oil transfer system or a reserve oil system is provided, the total oil capacity need not exceed one gallon for each 40 gallons of fuel capacity.

(d) Oil-fuel ratios lower than those prescribed in paragraphs (b) and (c) of this section shall be acceptable if substantiated by data on the actual oil consumption of the engine.

(e) The ability of the oil cooling provisions to maintain the oil inlet temperature to the engine at or below the maximum established value shall be demonstrated in accordance with pertinent provisions of §§ 4b.450 through 4b.454.

§ 4b.441 *Oil tank construction.* The following requirements shall apply to the construction of the oil tank.

(a) *Oil tank expansion space.* (1) Oil tanks shall have an expansion space of not less than either 10 percent of the tank capacity or 0.5 gallon, whichever is the greater.

(2) Reserve oil tanks which have no direct connection to any engine shall have an expansion space which is not less than 2 percent of the tank capacity.

(3) It shall not be possible to fill the oil tank expansion space inadvertently when the airplane is in the normal ground attitude.

(b) *Oil tank filler connection.* (1) Recessed oil tank filler connections which retain any appreciable quantity of oil shall incorporate a drain, and the drain shall discharge clear of all portions of the airplane.

(2) The oil tank filler cap shall provide an oil-tight seal.

(3) Oil tank filler connections shall be marked as prescribed in § 4b.738 (b).

(c) *Oil tank vent.* (1) Oil tanks shall be vented from the top portion of the expansion space in such a manner that venting of the tank is effective under all normal flight conditions.

(2) Oil tank vents shall be arranged so that condensation of water vapor which might freeze and obstruct the line cannot accumulate at any point. (See also § 4b.483 (c).)

(d) *Oil tank outlet.* Provision shall be made either to prevent entrance into the tank itself or into the tank outlet of any foreign object which might obstruct the flow of oil through the system. The oil tank outlet shall not be enclosed by any screen or guard which would reduce the flow of oil below a safe value at any operating temperature condition.

(e) *Flexible oil tank liners.* Flexible oil tank liners shall be of an approved type or shall be shown to be suitable for the particular application.

§ 4b.442 *Oil tank tests.* (a) Oil tanks shall be capable of withstanding without failure all vibration, inertia, and fluid loads to which they would be subjected in operation.

(b) The provisions of § 4b.421 shall be applicable to oil tanks, except as follows.

(1) The test pressure specified in § 4b.421 (a) shall be 5 p. s. i.

(2) The test fluid specified in § 4b.421 (c) shall be oil at a temperature of 250° F.

§ 4b.443 *Oil tank installation.* The oil tank installation shall comply with the provisions of § 4b.422, except that the location of an engine oil tank in a designated fire zone shall be acceptable if the tank and its supports are of fireproof construction to the extent that damage by fire to any nonfireproof parts would not result in leakage or spillage of oil.

§ 4b.444 *Oil lines and fittings.*—(a) *General.* The provisions of § 4b.432 shall be applicable to oil lines.

(b) *Lines and fittings in designated fire zones.* Oil lines and fittings in all designated fire zones (see § 4b.480) shall comply with the provisions of § 4b.483.

(c) *Engine breather lines.* (1) Engine breather lines shall be arranged so that condensation of water vapor which might freeze and obstruct the line cannot accumulate at any point.

(2) Breathers shall discharge in a location which will not constitute a fire hazard in case foaming occurs and in a manner so that the emitted oil will not impinge upon the pilot windshield.

(3) The breather shall not discharge into the engine air induction system. (See also § 4b.483 (c).)

§ 4b.445 *Oil valves.* (a) The requirements of § 4b.482 for shut-off means shall be complied with. Closing of oil shut-off means shall not prevent feathering the propeller.

(b) All oil valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions, and they shall be supported so that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines attached to the valve.

§ 4b.446 *Oil radiators.* (a) Oil radiators shall be capable of withstanding without failure all vibration, inertia, and oil pressure loads to which they would be subjected in operation.

(b) Oil radiator air ducts shall be located so that, in case of fire, flames issuing from normal openings of the engine nacelle cannot impinge directly upon the radiator.

§ 4b.447 *Oil filters.* If the airplane is equipped with an oil filter, the filter shall be constructed or installed in such a manner that complete blocking of the flow through the filter element will not prevent the safe operation of the engine oil supply system.

§ 4b.448 *Oil system drains.* Accessible drains shall be provided to permit safe drainage of the entire oil system and shall incorporate means for the positive locking of the drain in the closed position, either manually or automatically. (See also § 4b.483 (c).)

§ 4b.449 *Propeller feathering system.* (a) If the propeller feathering system is dependent upon the use of the engine oil supply, provision shall be made to trap a quantity of oil in the tank in case the supply becomes depleted due to failure of any portion of the lubricating system other than the tank itself.

(b) The quantity of trapped oil shall be sufficient to accomplish the feathering operation and shall be available only to the feathering pump.

(c) The ability of the system to accomplish feathering with the trapped supply of oil shall be demonstrated. It shall be acceptable to make this demonstration on the ground.

COOLING SYSTEM

§ 4b.450 *General.* The powerplant cooling provisions shall be capable of maintaining the temperatures of major powerplant components, engine fluids, and the carburetor intake air within the established safe values under all conditions of ground and flight operation. (For cooling system instruments see §§ 4b.604 and 4b.734.)

§ 4b.451 *Cooling tests.*—(a) *General.* Compliance with the provisions of § 4b.450 shall be demonstrated under critical ground, water, and flight operating conditions. If the tests are conducted under conditions which deviate from the maximum anticipated air temperature (see paragraph (b) of this section), the recorded powerplant temperatures shall be corrected in accordance with the provisions of paragraphs (c) and (d) of this section. The corrected temperatures determined in this manner shall not exceed the maximum established safe values. The fuel used during the cooling tests shall be of the minimum octane number approved for the engines involved, and the mixture settings shall be those used in normal operation. The test procedures shall be as outlined in §§ 4b.452 through 4b.454.

(b) *Maximum anticipated air temperature.* The maximum anticipated air temperature (hot day condition) shall be 100° F. at sea level, decreasing from this value at the rate of 3.6° F. per thousand feet of altitude above sea level until a temperature of −67° F. is reached above which altitude the temperature shall be constant at −67° F.

(c) *Correction factor for cylinder head, oil inlet, carburetor air, and engine coolant outlet temperatures.* The cylinder head, oil inlet, carburetor air, and engine coolant outlet temperatures shall be corrected by adding the difference between the maximum anticipated air temperature and the temperature of the ambient air at the time of the first occurrence of maximum head, air, oil, or coolant temperature recorded during the cooling test, unless a more rational correction is shown to be applicable.

(d) *Correction factor for cylinder barrel temperatures.* Cylinder barrel temperatures shall be corrected by adding 0.7 of the difference between the maximum anticipated air temperature and the temperature of the ambient air at the time of the first occurrence of the maximum cylinder barrel temperature recorded during the cooling test, unless a more rational correction is shown to be applicable.

§ 4b.452 *Climb cooling test procedure.* (a) The climb cooling test shall be conducted with the critical engine inoperative and its propeller feathered.

(b) All remaining engines shall be operated at their maximum continuous power or at full throttle when above the critical altitude.

(c) After stabilizing temperatures in flight, the climb shall be started at or below the lower of the two following altitudes and shall be continued until at least 5 minutes after the occurrence of the highest temperature recorded, or until the maximum altitude is reached for which certification is desired:

(1) 1,000 feet below the engine critical altitude,

(2) 1,000 feet below the maximum altitude at which the rate of climb is equal to that established in accordance with § 4b.120 (c).

(d) The climb shall be conducted at an air speed which does not exceed the speed used in establishing the rate of climb required in § 4b.120 (c). It shall be acceptable to conduct the climb cooling test in conjunction with the take-off cooling test of § 4b.453.

§ 4b.453 *Take-off cooling test procedure.* A take-off cooling test shall be conducted to demonstrate cooling during take-off and during subsequent climb with one engine inoperative. The following procedure shall be applicable.

(a) The take-off cooling test shall be commenced by stabilizing temperatures during level flight with all engines operating at 75 percent of maximum continuous power with the appropriate cowl flap and shutter settings.

(b) After all temperatures have stabilized, the climb shall be started at the lowest practicable altitude and shall be conducted with one engine inoperative and its propeller feathered.

(c) The remaining engines shall be operated at take-off rpm and power (or at full throttle when above the take-off critical altitude) for the same time interval as take-off power is used during determination of the take-off flight path (see § 4b.116).

(d) At the end of the time interval prescribed in paragraph (c) of this section the power shall be reduced to the maximum continuous power and the climb continued until at least 5 minutes after the occurrence of the highest temperature recorded.

(e) The speed used during take-off power operation (paragraph (c) of this section) shall not exceed the speed used during determination of the take-off flight path (see § 4b.116).

§ 4b.454 *Cooling test procedure for flying boat operation.* In the case of flying boats, cooling shall be demonstrated during taxying down wind for 10 minutes at 5 mph above the step speed.

§ 4b.455 *Liquid cooling systems.* Each liquid-cooled engine shall be provided with an independent coolant system. The coolant system shall be so arranged that no air or vapor can be trapped in any portion of the system other than the expansion tank, either during filling or during operation. No flammable coolant shall be used. Means shall be provided to prevent excessive pressures from being generated in the cooling system.

§ 4b.456 *Coolant tank.*—(a) *General.* The tank shall have a usable coolant capacity of not less than one gallon and shall be capable of withstanding without failure all vibration, inertia, and fluid loads to which it would be subjected in operation. Coolant tanks shall be provided with an expansion space of not less than 10 percent of the total coolant system capacity. It shall not be possible inadvertently to fill the expansion space

with the airplane in the normal ground attitude.

(b) *Coolant tank tests.* The provisions of § 4b.421 shall be applicable to coolant tanks, except as follows.

(1) The test pressure specified in § 4b.421 (a) shall be either the sum of the pressure developed during the maximum ultimate acceleration with a full tank plus the maximum working pressure of the system, or 1.25 times the maximum working pressure of the system, whichever is the greater.

(2) The test fluid specified in § 4b.421 (c) shall be coolant at operating temperature.

(c) *Coolant tank installation.* (1) Coolant tanks shall be supported so that the tank loads will be distributed over a large portion of the tank surface.

(2) Pads shall be provided to prevent chafing between the tank and its supports.

(3) Materials employed for padding shall be nonabsorbent or shall be treated to prevent the absorption of fluids.

(d) *Coolant tank filler connection.* (1) Recessed coolant tank filler connections which retain any appreciable quantity of coolant shall incorporate a drain, and the drain shall discharge clear of all portions of the airplane.

(2) Coolant tank filler connections shall be marked as prescribed in § 4b.738 (b).

§ 4b.457 *Coolant system installation.* The following requirements shall apply to the installation of the coolant system components.

(a) *Coolant lines.* The provisions of § 4b.432 shall be applicable to coolant lines.

(b) *Fire-resistant coolant lines and fittings.* If the coolant used will ignite and burn under the conditions of powerplant fires, all lines and fittings located within designated fire zones shall comply with the provisions of § 4b.483.

(c) *Coolant radiators.* (1) Coolant radiators shall be capable of withstanding without failure all vibration, inertia, and coolant pressure loads to which they would be subjected in operation.

(2) Coolant radiators shall be supported in a manner which will permit expansion due to operating temperatures and which will prevent the transmittal of harmful vibration to the radiator.

(3) The air intake duct to the coolant radiator shall be located so that in case of fire flames issuing from normal openings of the engine nacelle cannot impinge directly upon the radiator.

(d) *Coolant system drains.* (1) One or more accessible drains shall be provided to permit drainage of the coolant system, including the coolant tank, radiator, and the engine, when the airplane is in the normal ground attitude.

(2) Drains shall discharge clear of all portions of the airplane and shall incorporate means for positive locking of the drain in the closed position.

INDUCTION AND EXHAUST SYSTEMS

§ 4b.460 *General.* (a) The engine air induction system shall permit supplying the proper quantity of air to the engine under all conditions of operation.

(b) The induction system shall provide air for proper fuel metering and mixture distribution with the induction system valves in any position.

(c) Each engine shall be provided with an alternate air source.

(d) Air intakes shall not open within the cowling, unless that portion of the cowling is isolated from the engine accessory section by means of a fireproof diaphragm, or unless provision is made to prevent the emergence of backfire flames.

(e) Alternate air intakes shall be so located as to preclude the entrance of rain, ice, or any other foreign matter.

§ 4b.461 *Induction system de-icing and anti-icing provisions*—(a) *General.* The engine air induction system shall incorporate means for the prevention and elimination of ice accumulations.

(b) *Heat rise.* Unless it is demonstrated that other means will accomplish the intent of paragraph (a) of this section, compliance with the following heat-rise provisions shall be demonstrated in air free of visible moisture at a temperature of 30° F.

(1) Airplanes equipped with altitude engines employing conventional venturi carburetors shall have a preheater capable of providing a heat rise of 120° F. when the engine is operating at 60 percent of its maximum continuous power.

(2) Airplanes equipped with altitude engines employing carburetors which embody features tending to reduce the possibility of ice formation shall have a preheater capable of providing a heat rise of 100° F. when the engine is operating at 60 percent of its maximum continuous power.

§ 4b.462 *Carburetor air preheater design.* Carburetor air preheaters shall incorporate the following provisions.

(a) Means shall be provided to assure ventilation of the preheater when the engine is being operated with cold air.

(b) The preheater shall be constructed to permit inspection of exhaust manifold parts which it surrounds and also to permit inspection of critical portions of the preheater itself.

§ 4b.463 *Induction system ducts.* Induction system ducts shall incorporate the following provisions.

(a) Induction system ducts ahead of the first stage of the supercharger shall be provided with drains to prevent hazardous accumulations of fuel and moisture in the ground attitude. The drains shall not discharge in locations which might cause a fire hazard.

(b) Sufficient strength shall be incorporated in the ducts to prevent induction system failures resulting from normal backfire conditions.

(c) Ducts which are connected to components of the airplane between which relative motion could exist shall incorporate provisions for flexibility.

(d) Induction system ducts within any fire zone for which a fire-extinguishing system is required shall be of fire-resistant construction.

§ 4b.464 *Induction system screens.* If induction system screens are employed, they shall comply with the following provisions:

(a) Screens shall be located upstream from the carburetor.

(b) Screens shall not be located in portions of the induction system which constitute the only passage through which air can reach the engine, unless the screen is so located that it can be de-iced by heated air.

(c) De-icing of induction system screens by means of alcohol alone shall not be acceptable.

(d) It shall not be possible for fuel to impinge upon the screens.

§ 4b.465 *Carburetor air cooling.* Installations employing two-stage superchargers shall be provided with means to maintain the air temperature at the inlet to the carburetor at or below the maximum established value. The demonstration of this provision shall be accomplished in accordance with § 4b.451.

§ 4b.466 *Inter-coolers and after-coolers.* Inter-coolers and after-coolers shall be capable of withstanding without failure all vibration, inertia, and air pressure loads to which they would be subjected in operation.

§ 4b.467 *Exhaust system and installation components*—(a) *General.* (1) The exhaust system shall be constructed and arranged to assure the safe disposal of exhaust gases without the existence of a fire hazard or carbon monoxide contamination of air in personnel compartments.

(2) Unless appropriate precautions are taken, exhaust system parts shall not be located in hazardous proximity to portions of any system carrying flammable fluids or vapors nor shall they be located under portions of such systems where the latter could be subject to leakage.

(3) All airplane components upon which hot exhaust gases might impinge, or which could be subjected to high temperatures due to proximity to exhaust system parts, shall be constructed of fireproof material. All exhaust system components shall be separated by means of fireproof shields from adjacent portions of the airplane which are outside the engine compartment.

(4) Exhaust gases shall not discharge in a manner to cause a fire hazard with respect to any flammable fluid vent or drain.

(5) Exhaust gases shall not discharge at a location which will cause a glare seriously affecting pilot visibility at night.

(6) All exhaust system components shall be ventilated to prevent the existence of points of excessively high temperature.

(7) Exhaust shrouds shall be ventilated or insulated to avoid during normal operation a temperature sufficiently high to ignite any flammable fluids or vapors external to the shrouds.

(b) *Exhaust piping.* (1) Exhaust piping shall be constructed of material resistant to heat and corrosion, and shall incorporate provisions to prevent failure due to expansion when heated to operating temperatures.

(2) Exhaust pipe shall be supported to withstand all vibration and inertia

loads to which they would be subjected in operation.

(3) Portions of the exhaust piping which are connected to components between which relative motion could exist shall incorporate provisions for flexibility.

(c) *Exhaust heat exchangers.* (1) Exhaust heat exchangers shall be constructed and installed to assure their ability to withstand without failure all vibration, inertia, and other loads to which they would be subjected in operation.

(2) Heat exchangers shall be constructed of materials which are suitable for continued operation at high temperatures and which are resistant to corrosion due to elements contained in exhaust gases.

(3) Provision shall be made for the inspection of all critical portions of exhaust heat exchangers.

(4) Heat exchangers shall incorporate cooling provisions wherever they are subject to contact with exhaust gases.

(5) Heat exchangers or muffs shall incorporate no stagnant areas or liquid traps which would increase the possibility of ignition of flammable fluids or vapors which might be present in case of failure or malfunctioning of components carrying flammable fluids.

(d) *Exhaust heating of ventilating air.* If an exhaust heat exchanger is used for heating ventilating air, a secondary heat exchanger shall be provided between the primary exhaust gas heat exchanger and the ventilating air system, unless it is demonstrated that other means used preclude harmful contamination of the ventilating air.

(e) *Exhaust driven turbo-superchargers.* (1) Exhaust driven turbines shall be of an approved type or shall be shown to be suitable for the particular application. They shall be installed and supported to assure their safe operation between normal inspection and overhaul periods.

(2) Provision for expansion and flexibility shall be made between exhaust conduits and the turbine.

(3) Provision shall be made for lubrication of the turbine and for cooling of those turbine parts where the temperatures are critical.

(4) Means shall be provided so that, in the event of malfunctioning of the normal turbo-supercharger control system, the turbine speed will not be greater than its maximum allowable value. The components provided for this purpose shall be independent of the normal turbo-supercharger controls with the exception of the waste gate operating components themselves.

POWERPLANT CONTROLS AND ACCESSORIES

§ 4b.470 *Powerplant controls; general.* The provisions of § 4b.353 shall be applicable to all powerplant controls with respect to location, grouping, and direction of motion, and the provisions of § 4b.737 shall be applicable to all powerplant controls with respect to marking. In addition all powerplant controls shall comply with the following.

(a) Controls shall be so located that they cannot be inadvertently operated by personnel entering, leaving, or making normal movements in the cockpit.

(b) Controls shall maintain any set position without constant attention by flight personnel. They shall not tend to creep due to control loads or vibration.

(c) Flexible controls shall be of an approved type or shall be shown to be suitable for the particular application.

(d) Controls shall have strength and rigidity to withstand operating loads without failure and without excessive deflection.

§ 4b.471 *Throttle and A. D. I. system controls.* (a) A separate throttle control shall be provided for each engine. Throttle controls shall be grouped and arranged to permit separate control of each engine and also simultaneous control of all engines.

(b) Throttle controls shall afford a positive and immediately responsive means of controlling the engines.

(c) If an antidetonant injection system is provided, the flow of ADI fluid shall be automatically controlled in relation to the amount of power produced by the engine. In addition to the automatic control, a separate control shall be provided for the ADI pumps.

§ 4b.472 *Ignition switches.* (a) Ignition switches shall provide control for each ignition circuit on each engine.

(b) Means shall be provided for quickly shutting off all ignition by the grouping of switches or by providing a master ignition control.

(c) If a master ignition control is provided, a guard shall be incorporated to prevent inadvertent operation of the control.

§ 4b.473 *Mixture controls.* (a) If mixture controls are provided, a separate control shall be provided for each engine. The mixture controls shall be grouped and arranged to permit separate control of each engine and also simultaneous control of all engines.

(b) Any intermediate position of the mixture control which corresponds with a normal operating setting shall be provided with a sensory and a visual identification.

(c) The mixture controls shall be placed in a location accessible to both pilots, except where a separate flight engineer station with a control panel is provided, in which case the mixture controls shall be accessible to the flight engineer.

§ 4b.474 *Propeller controls*—(a) *Propeller speed and pitch controls.* (1) A separate propeller speed and pitch control shall be provided for each propeller. The propeller speed and pitch controls shall be grouped and arranged to permit separate control of each propeller and also simultaneous control of all propellers.

(2) The propeller speed and pitch controls shall provide for synchronization of all propellers. (See also § 4b.404.)

(3) Propeller speed and pitch control(s) shall be placed to the right of the pilot's throttle and shall be at least 1 inch lower than the throttle controls.

(b) *Propeller feathering controls.* (1) A separate propeller feathering control shall be provided for each propeller.

(2) Propeller feathering controls shall be provided with means to prevent inadvertent operation.

(3) If feathering is accomplished by movement of the propeller pitch or speed control lever, provision shall be made to prevent the movement of this control to the feathering position during normal operation.

(c) *Propeller reversing controls.* Propeller reversing controls shall incorporate a means to prevent their inadvertent movement to the reverse position. The means provided shall require a distinct and unmistakable operation by the crew in order to place the control in the reverse regime both in flight and on the ground.

§ 4b.475 *Fuel system controls.* (See also § 4b.434.)

(a) Fuel jettisoning system controls shall be provided with guards to prevent their inadvertent operation.

(b) Fuel jettisoning system controls shall not be located in close proximity to fire extinguisher controls nor to any other controls intended to combat fire.

§ 4b.476 *Carburetor air preheat controls.* Separate carburetor air preheat controls shall be provided to regulate the temperature of the carburetor air for each engine.

§ 4b.476a *Supercharger controls.* Supercharger controls shall be accessible to the pilots, except where a separate flight engineer station with a control panel is provided, in which case they shall be accessible to the flight engineer.

§ 4b.477 *Powerplant accessories.* (a) Engine mounted accessories shall be of a type approved for installation on the engine involved, and shall utilize the provisions made on the engine for mounting.

(b) Items of electrical equipment subject to arcing or sparking shall be installed to minimize the possibility of their contact with any flammable fluids or vapors which might be present in a free state.

(c) If continued rotation of an engine-driven cabin supercharger or any remote accessory driven by the engine will constitute a hazard in case malfunctioning occurs, means shall be provided to prevent hazardous rotation of such accessory without interfering with the continued operation of the engine. (See also § 4b.371 (c).)

NOTE: Hazardous rotation may involve consideration of mechanical damage or sustained air flows which may be dangerous under certain conditions.

§ 4b.478 *Engine ignition systems.* (a) Battery ignition systems shall be supplemented with a generator which is automatically made available as an alternate source of electrical energy to permit continued engine operation in the event of the depletion of any battery.

(b) The capacity of batteries and generators shall be sufficient to meet the simultaneous demands of the engine ignition system and the greatest demands of any airplane electrical system components which would draw electrical energy from the same source.

(1) The design of the engine ignition system shall take into consideration the condition of an inoperative generator and the condition of a completely depleted battery when the generator is running at its normal operating speed.

(2) If only one battery is provided the design of the engine ignition system shall take into consideration the condition in which the battery is completely depleted and the generator is operating at idling speed.

(3) Portions of magneto ground wires for separate ignition circuits which lie on the engine side of the fire wall shall be installed, located, or protected so as to minimize the possibility of simultaneous failure of two or more wires as a result of mechanical damage, electrical faults, etc.

(4) Ground wires for any engine shall not be routed through fire zones, except those associated with the engine which the wires serve, unless those portions of the wires which are located in such fire zones are fireproof or are protected against the possibility of damage by fire in a manner to render them fireproof. (See § 4b.472 for ignition switches.)

(5) Ignition circuits shall be electrically independent of all other electrical circuits except circuits used for analyzing the operation of the ignition system.

(c) Means shall be provided to warn flight personnel if malfunctioning of any part of the electrical system is causing the continuous discharging of a battery which is necessary for engine ignition. (See § 4b.472 for ignition switches.)

POWERPLANT FIRE PROTECTION

§ 4b.480 *Designated fire zones.* (a) Designated fire zones shall comprise the following regions:

(1) Engine power section,

(2) Engine accessory section,

(3) Complete powerplant compartments in which no isolation is provided between the engine power section and the engine accessory section,

(4) Auxiliary power unit compartments,

(5) Fuel-burning heaters and other combustion equipment installations as defined by § 4b.386.

NOTE: See also § 4b.385.

(b) Designated fire zones shall be protected from fire by compliance with §§ 4b.481 through 4b.490.

(c) The nacelle area immediately behind the fire wall shall comply with the provisions of §§ 4b.385, 4b.463 (d), 4b.478 (b), (4), 4b.481 (c), 4b.482 through 4b.485 and 4b.489. If a retractable landing gear is located in this area, compliance with this paragraph is required only with the landing gear retracted.

§ 4b.481 *Flammable fluids.* (a) No tanks or reservoirs which are a part of a system containing flammable fluids or gases shall be located in designated fire zones, except where the fluid contained, the design of the system, the materials used in the tank, the shut-off means, all connections, lines, and controls are such as to provide an equally high degree of safety.

(b) Not less than one-half inch of clear air space shall be provided between any tank or reservoir and a fire wall or shroud isolating a designated fire zone.

(c) No component of a flammable fluid-carrying system shall be located in close proximity to materials which can absorb such a fluid.

§ 4b.482 *Shut-off means.* (a) Means for each individual engine and for each individual fire zone specified in § 4b.480 (a) (4) and (5) shall be provided for shutting off or otherwise preventing hazardous quantities of fuel, oil, de-icer, and other flammable fluids from flowing into, within, or through any designated fire zone, except that means need not be provided to shut off flow in lines forming an integral part of an engine. Closing the fuel shutoff valve for any engine shall not make any of the fuel supply unavailable to the remaining engines.

(b) Operation of the shutoff means shall not interfere with the subsequent emergency operation of other equipment, such as feathering the propeller.

(c) The shut-off means shall be located outside of designated fire zones, unless an equally high degree of safety is otherwise provided (see § 4b.481). It shall be shown that no hazardous quantity of flammable fluid could drain into any designated fire zone after shutting-off has been accomplished.

(d) Provisions shall be made to guard against inadvertent operation of the shutoff means and to make it possible for the crew to reopen the shutoff means in flight after it has once been closed.

§ 4b.483 *Lines and fittings.* All lines and fittings carrying flammable fluids or gases in designated fire zones shall comply with the provisions of paragraphs (a) through (c) of this section.

(a) Lines and fittings which are under pressure, or which attach directly to the engine, or which are subject to relative motion between components shall be flexible, fire-resistant lines with fire-resistant end fittings of the permanently attached, detachable, or other approved type. The provisions of this paragraph shall not apply to those lines and fittings which form an integral part of the engine.

(b) Lines and fittings which are not subject to pressure or to relative motion between components shall be of fire-resistant materials.

(c) Vent and drain lines and fittings shall be subject to the provisions of paragraphs (a) and (b) of this section, unless a failure of such line or fitting will not result in, or add to, a fire hazard.

§ 4b.484 *Fire extinguisher systems*—(a) *General.* (1) Fire extinguisher systems shall be provided to serve all designated fire zones. This requirement shall be effective with respect to applications for type certificates in accordance with the provisions of § 4b.12. In addition, all other airplanes manufactured after June 30, 1954, shall comply with this requirement, unless the engine power section is completely isolated from the engine accessory section by a fireproof diaphragm complying with the provisions of § 4b.488 and unless the cowling and nacelle skin comply with the provisions of § 4b.487, in which case fire extinguisher systems need not be provided in the engine power section.

(2) The fire extinguishing system, the quantity of extinguishing agent, and the rate of discharge shall be such as to provide two adequate discharges. It shall be possible to direct both discharges to any main engine installation. Individual "one-shot" systems shall be acceptable in the case of auxiliary power units, fuel-burning heaters, and other combustion equipment.

(3) The fire-extinguishing system for a nacelle shall be capable of protecting simultaneously all zones of the nacelle for which protection is provided.

(b) *Fire extinguishing agents.* (1) Extinguishing agents employed shall be methyl bromide, carbon dioxide, or any other agent which has been shown to provide equivalent extinguishing action.

(2) If methyl bromide, carbon dioxide, or any other toxic extinguishing agent is employed, provision shall be made to prevent the entrance of harmful concentration of fluid or fluid vapors into any personnel compartments either due to leakage during normal operation of the airplane or as a result of discharging the fire extinguisher on the ground or in flight even though a defect may exist in the extinguishing system. Compliance with this requirement shall be demonstrated by appropriate tests.

(3) If a methyl bromide system is provided, the containers shall be charged with a dry agent and shall be sealed by the fire extinguisher manufacturer or by any other party employing appropriate recharging equipment.

(c) *Extinguishing agent container pressure relief.* Extinguisher agent containers shall be provided with a pressure relief to prevent bursting of the container due to excessive internal pressures. The following provisions shall apply.

(1) The discharge line from the relief connection shall terminate outside the airplane in a location convenient for inspection on the ground.

(2) An indicator shall be provided at the discharge end of the line to provide a visual indication when the container has discharged.

(d) *Extinguishing agent container compartment temperature.* Under all conditions in which the airplane is intended for operation, the temperature range of the extinguishing agent containers shall be maintained to assure that the pressure in the containers can neither fall below the minimum necessary to provide an adequate rate of extinguisher agent discharge nor rise above a safe limit so that the system will not be prematurely discharged.

(e) *Fire-extinguishing system materials.* Materials in the fire extinguishing system shall not react chemically with the extinguishing agent so as to constitute a hazard. All components of the fire extinguishing systems located in designated fire zones shall be constructed of fireproof materials.

§ 4b.485 *Fire detector systems.* Quick-acting fire detectors of an approved type shall be provided in all designated fire zones, and they shall be sufficient in number and location to assure prompt detection of fire in such zones. Fire detectors shall comply with the following provisions:

(a) Fire detectors shall be constructed and installed to assure their ability to resist without failure all vibration, inertia, and other loads to which they would be subjected in operation.

(b) Fire detectors shall be unaffected by the exposure to oil, water, or other fluids or fumes which might be present.

(c) Means shall be provided to permit the crew to check in flight the functioning of the electric circuit associated with the fire-detection system.

(d) Wiring and other components of detector systems which are located in fire zones shall be of fire-resistant construction.

(e) Detector system components for any fire zone shall not pass through other fire zones, unless they are protected against the possibility of false warnings resulting from fires in zones through which they pass. This requirement shall not be applicable with respect to zones which are simultaneously protected by the same detector and extinguisher systems.

§ 4b.486 *Fire walls.* All engines, auxiliary power units, fuel-burning heaters, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the airplane by means of fire walls, shrouds, or other equivalent means. The following shall apply.

(a) Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of air, fluids, or flame can pass from the compartment to other portions of the airplane.

(b) All openings in the fire wall or shroud shall be sealed with close-fitting fireproof grommets, bushings, or fire-wall fittings.

(c) Fire walls and shrouds shall be constructed of fireproof material and shall be protected against corrosion.

§ 4b.487 *Cowling and nacelle skin.* (a) Cowling shall be constructed and supported so as to make it capable of resisting all vibration, inertia, and air loads to which it would be subjected in operation.

(b) Cowling shall have drainage and ventilation provisions as prescribed in § 4b.489.

(c) On airplanes equipped with a diaphragm complying with § 4b.488, the parts of the accessory section cowling which might be subjected to flame in the event of a fire in the engine power section of the nacelle shall be constructed of fireproof material and shall comply with the provisions of § 4b.486.

(d) Those portions of the cowling which would be subjected to high temperatures due to their proximity to exhaust system parts or exhaust gas impingement shall be constructed of fireproof material.

(e) The airplane shall be so designed and constructed that fire originating in the engine power or accessory sections cannot enter, either through openings or by burning through external skin, into any other zone of the nacelle where such fire would create additional hazards. If the airplane is provided with a retractable landing gear, this provision shall apply with the landing gear retracted. Fireproof materials shall be used for all nacelle skin areas which might be subjected to flame in the event of a fire originating in the engine power or accessory sections.

§ 4b.488 *Engine accessory section diaphragm.* Unless equivalent protection can be shown by other means, a diaphragm shall be provided on air-cooled engines to isolate the engine power section and all portions of the exhaust system from the engine accessory compartment. This diaphragm shall comply with the provisions of § 4b.486.

§ 4b.489 *Drainage and ventilation of fire zones.* (a) Provision shall be made for the rapid and complete drainage of all portions of designated fire zones in the event of failure or malfunctioning of components containing flammable fluids. The drainage provisions shall be so arranged that the discharged fluid will not cause an additional fire hazard.

(b) All designated fire zones shall be ventilated to prevent the accumulation of flammable vapors. Ventilation openings shall not be placed in locations which would permit the entrance of flammable fluids, vapors, or flame from other zones. The ventilation provisions shall be so arranged that the discharged vapors will not cause an additional fire hazard.

(c) Except with respect to the engine power section of the nacelle and the combustion heater ventilating air ducts, provision shall be made to permit the crew to shut off sources of forced ventilation in any fire zone, unless the extinguishing agent capacity and rate of discharge are based on maximum air flow through the zone.

§ 4b.490 *Protection of other airplane components against fire.* All airplane surfaces aft of the nacelles, in the region of one nacelle diameter on both sides of the nacelle center line, shall be constructed of fire-resistant material. This provision need not be applied to tail surfaces lying behind nacelles, unless the dimensional configuration of the aircraft is such that the tail surfaces could be affected readily by heat, flames, or sparks emanating from a designated fire zone or engine compartment of any nacelle.

SUBPART F—EQUIPMENT

GENERAL

§ 4b.600 *Scope.* The required basic equipment as prescribed in this subpart is the minimum which shall be installed in the airplane for certification. Such additional equipment as is necessary for a specific type of operation is prescribed in the operating rules of this subchapter.

§ 4b.601 *Functional and installational requirements.* Each item of equipment shall be:

(a) Of a type and design appropriate to perform its intended function,

(b) Labeled as to its identification, function, or operational limitations, or any combination of these, whichever is applicable,

(c) Installed in accordance with specified limitations of the equipment,

(d) Demonstrated to function properly in the airplane.

§ 4b.602 *Required basic equipment.* The equipment listed in §§ 4b.603 through 4b.605 shall be the required basic equipment. (See § 4b.600.)

§ 4b.603 *Flight and navigational instruments.* (See § 4b.612 for installation requirements.)

(a) Air-speed indicating system,

(b) Altimeter (sensitive),

(c) Clock (sweep-second),

(d) Free air temperature indicator,

(e) Gyroscopic bank and pitch indicator,

(f) Gyroscopic rate-of-turn indicator (with bank indicator),

(g) Gyroscopic direction indicator,

(h) Magnetic direction indicator,

(i) Rate-of-climb indicator (vertical speed),

(j) Maximum allowable air-speed indicator if an air-speed limitation results from compressibility hazards. (See § 4b.710.)

§ 4b.604 *Powerplant instruments.* (See § 4b.613 for installation requirements.)

(a) Carburetor air temperature indicator for each engine,

(b) Coolant temperature indicator for each liquid-cooled engine,

(c) Cylinder head temperature indicator for each air-cooled engine,

(d) An individual fuel pressure indicator for each engine and either an independent warning device for each engine or a master warning device for all engines with means for isolating the individual warning circuit from the master warning device,

(e) Fuel flowmeter indicator or fuel mixture indicator for each engine not equipped with an automatic altitude mixture control,

(f) Fuel quantity indicator for each fuel tank,

(g) Manifold pressure indicator for each engine,

(h) An individual oil pressure indicator for each engine and either an independent warning device for each engine or a master warning device for all engines with means for isolating the individual warning circuit from the master warning device,

(i) Oil quantity indicator for each oil tank when a transfer or oil reserve supply system is used,

(j) Oil temperature indicator for each engine,

(k) Tachometer for each engine,

(l) Fire warning indicators (see § 4b.485),

(m) A device for each engine capable of indicating to the flight crew during flight any change in the power output, if the engine is equipped with an automatic propeller feathering system the operation of which is initiated by a power output measuring system or if the total engine cylinder displacement is 2,000 cubic inches or more.

(n) A means for each reversing propeller to indicate to the pilot when the propeller is in reverse pitch.

§ 4b.605 *Miscellaneous equipment.* (a) Approved seats for all occupants (see § 4b.358),

(b) Approved safety belts for all occupants (see § 4b.643),

(c) Master switch arrangement for electrical circuits other than ignition (see §§ 4b.623 and 4b.624),

(d) Source(s) of electrical energy (see § 4b.620),

(e) Electrical protective devices (see § 4b.624),

(f) Radio communication system (two-way),

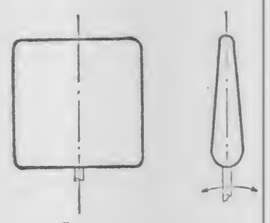
(g) Radio navigation system,

(h) Windshield wiper or equivalent for each pilot,

(i) Ignition switch for each and all engines (see § 4b.472),

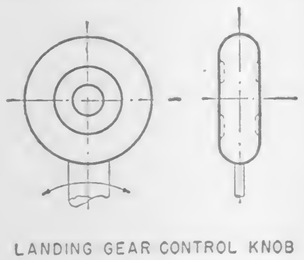
(j) Approved portable fire extinguisher (see § 4b.641).

§ 4b.606 *Equipment, systems, and installations*—(a) *Functioning and reliability.* All equipment, systems, and installations the functioning of which is necessary in showing compliance with the regulations in this subchapter shall be designed and installed to insure that they will perform their intended functions reliably under all reasonably foreseeable operating conditions.



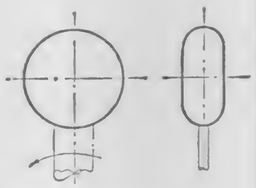
(b) *Hazards.* All equipment, systems, and installations shall be designed to safeguard against hazards to the airplane in the event of their malfunctioning or failure.

(c) *Power supply.* Where an installation the functioning of which is necessary in showing compliance with the regulations of this subchapter requires a power supply, such installation shall be considered an essential load on the power supply, and the power sources and the system shall be capable of supplying the following power loads in probable operating combinations and for probable durations:



(1) All loads connected to the system with the system functioning normally;

(2) All essential loads after failure of any one prime mover, power converter, or energy storage device;



(3) All essential loads after failure of any one engine on two- or three-engine airplanes, or after failure of any two engines on four-or-more-engine airplanes.

INSTRUMENTS; INSTALLATION

§ 4b.610 *General.* The provisions of §§ 4b.611 through 4b.613 shall apply to the installation of instruments.

§ 4b.611 *Arrangement and visibility of instrument installations.* (a) Flight, navigation, and powerplant instruments for use by each pilot shall be plainly visible to him from his station with the minimum practicable deviation from his normal position and line of vision when he is looking out and forward along the flight path.

(b) Flight instruments required by § 4b.603 shall be grouped in accordance with one of the flight instrument panels in Figure 4b-23 dependent upon which instruments are installed. The panel shall be centered as nearly as practicable about the vertical plane of the pilot's forward vision. The required flight instruments not shown in Figure 4b-23 shall be placed adjacent to the prescribed grouping.

(c) All the required powerplant instruments shall be closely grouped on the instrument panel.

(d) Identical powerplant instruments for the several engines shall be located to prevent any misleading impression as to the engines to which they relate.

(e) Powerplant instruments vital to the safe operation of the airplane shall be plainly visible to the appropriate crew members.

(f) The vibration characteristics of the instrument panel shall be such as not to impair seriously the accuracy of the instruments or to damage them.

§ 4b.612 *Flight and navigational instruments*—(a) *Air-speed indicating systems.* (1) Air-speed indicating instruments shall be of an approved type and shall be calibrated to indicate true air speed at sea level in the standard atmosphere with a minimum practicable instrument calibration error when the corresponding pitot and static pressures are applied to the instrument.

(2) The air-speed indicating system shall be calibrated to determine the system error, i. e., the relation between IAS and CAS, in flight and during the accelerated take-off ground run. The ground run calibration shall be obtained from 0.8 of the minimum value of $V_1$ to the maximum value of $V_1$, taking into account the approved altitude and weight range for the airplane. In the ground run calibration, the flap and power settings shall correspond with the values determined in the establishment of the take-off path under the provisions of § 4b.116, assuming the critical engine to fail at the minimum approved value of $V_1$.

(3) The air-speed error of the installation, excluding the air-speed indicator instrument calibration error, shall not exceed 3 percent or 5 mph, whichever is the greater, throughout the speed range from $V_{SO}$ to 1.3 $V_{S_1}$ with flaps retracted, and from 1.3 $V_{S_0}$ to $V_{FL}$ with flaps in the landing position.

(4) The air-speed indicating system shall be arranged in so far as practicable to preclude malfunctioning or serious error due to the entry of moisture, dirt, or other substances.

(5) The air-speed indicating system shall be provided with a heated pitot tube or equivalent means of preventing malfunctioning due to icing.

(6) Where duplicate air-speed indicators are required, their respective pitot tubes shall be spaced apart to avoid damage to both tubes in the event of a collision with a bird.

(b) *Static air vent and pressure altimeter systems.* (1) All instruments provided with static air case connections shall be vented to the outside atmosphere through an appropriate piping system.

(2) The vent(s) shall be so located on the airplane that its orifices will be least affected by air flow variation, moisture, or other foreign matter.

(3) The installation shall be such that the system will be air-tight, except for the vent into the atmosphere.

(4) Pressure altimeters shall be of an approved type and shall be calibrated to indicate pressure altitude in standard atmosphere with a minimum practicable instrument calibration error when the corresponding static pressures are applied to the instrument.

(5) The design and installation of the altimeter system shall be such that the error in indicated pressure altitude at sea level in standard atmosphere, excluding instrument calibration error, does not result in a reading more than 20 feet high nor more than 50 feet low in the speed range between 1.3 $V_{S_1}$ (flaps extended) and 1.8$V_{S_1}$ (flaps retracted).

(c) *Magnetic direction indicator.* (1) The magnetic direction indicator shall be installed so that its accuracy will not be excessively affected by the airplane's vibration or magnetic fields of a permanent or transient nature.

(2) After the magnetic direction indicator has been compensated, the calibration shall be such that the deviation in level flight does not exceed ±10° on any heading.

(3) A calibration placard shall be provided as specified in § 4b.733.

(d) *Automatic pilot system.* If an automatic pilot system is installed, it shall be of an approved type, and the following shall be applicable:

(1) The actuating (servo) devices shall be of such design that they can, when necessary, be disengaged positively and be overpowered by the pilot to enable him to maintain control of the airplane.

(2) A means shall be provided to indicate readily to the pilot the alignment of the actuating device in relation to the control system which it operates, except when automatic synchronization is provided.

(3) The manually operated control(s) for the system's operation shall be readily accessible to the pilot.

(4) The automatic pilot system shall be of such design and so adjusted that, within the range of adjustment available to the human pilot, it cannot produce hazardous loads on the airplane or create hazardous deviations in the flight path under any conditions of flight appropriate to its use either during normal operation or in the event of malfunctioning, assuming that corrective action is initiated within a reasonable period of time.

(e) *Instruments utilizing a power supply.* Each required flight instrument utilizing a power supply shall be provided with two independent sources of power, a means of selecting either power source, and a means of indicating the adequacy of the power being supplied to the instrument. The installation and power supply system shall be such that failure of one instrument, or of the energy supply from one source, or a fault in any part of the power distribution system, will not interfere with the proper supply of energy from the other source. (See also §§ 4b.606 (c) and 4b.623.)

(f) *Duplicate instrument systems.* If duplicate sets of flight instruments are required by the regulations in this subchapter, each set shall be provided with a completely independent operating system. Additional instruments shall not be connected to the first pilot system. If additional instruments are connected to the other system, provision shall be made to disconnect or isolate in flight such additional instruments.

§ 4b.613 *Powerplant instruments*—(a) *Instrument lines.* (1) Powerplant instrument lines carrying flammable fluids or gases under pressure shall be provided with restricted orifices or equivalent safety devices at the source of the pressure to prevent the escape of excessive fluid or gas in case of line failure.

(2) The provisions of §§ 4b.432 and 4b.433 shall be made applicable to powerplant instrument lines.

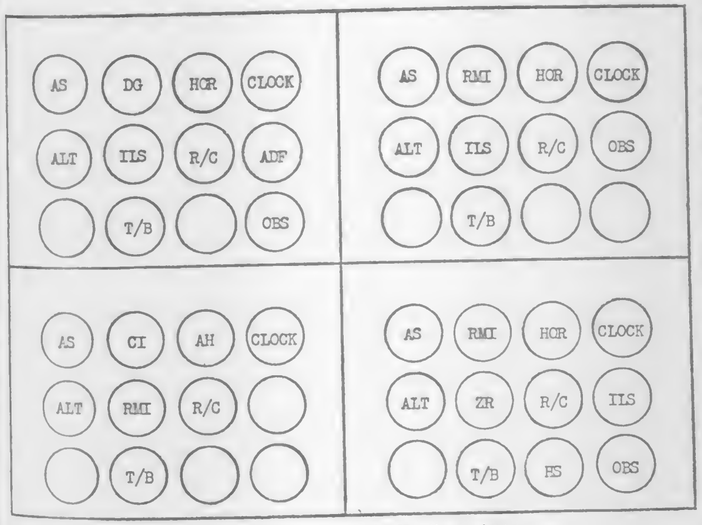
(b) *Fuel quantity indicator.* Means shall be provided to indicate to the flight crew the quantity in gallons or equivalent units of usable fuel in each tank during flight. The following shall apply.

(1) Tanks, the outlets and air spaces of which are interconnected, shall be considered as one tank for the purpose of providing separate indicators.

(2) Exposed sight gauges shall be protected against damage.

(3) Fuel quantity indicators shall be calibrated to read zero during level flight when the quantity of fuel remaining in the tank is equal to the unusable fuel supply as defined by § 4b.416 (see § 4b.736).

(c) *Fuel flowmeter system.* When a flowmeter system is installed, the metering component shall include a means for by-passing the fuel supply in the event that malfunctioning of the metering component results in a severe restriction to fuel flow.



(d) *Oil quantity indicator.* (1) A stick gauge or other equivalent means shall be provided to indicate the quantity of oil in each tank. (See § 4b.735.)

(2) If an oil transfer system or a reserve oil supply system is installed, means shall be provided to indicate to the crew during flight the quantity of oil in each tank.

ELECTRICAL SYSTEMS AND EQUIPMENT

§ 4b.620 *General.* The provisions of §§ 4b.621 through 4b.627 shall apply to all electrical systems and equipment. (See also § 4b.606.)

§ 4b.621 *Electrical system capacity.* The required generating capacity and the number and type of power sources shall be determined by an electrical load analysis and shall comply with § 4b.606 (c).

ADF—Automatic direction finder.
AH—Approach horizon.
ALT—Altimeter.
AS—Air speed.
CI—Course indicator.
DG—Direction gyro.
HOR—Artificial horizon (bank and pitch).
HS—Heading selector.
ILS—Instrument landing system.
OBS—Omni-bearing selector.
R/C—Rate of climb.
RMI—Radio magnetic indicator.
T/B—Turn and bank.
ZR—Zero reader.

FIGURE 4b-23—BASIC FLIGHT INSTRUMENT PANEL ARRANGEMENT.

§ 4b.622 *Generating system.* (a) The generating system shall be considered to include electrical power sources, main power busses, transmission cables, and associated control, regulation, and protective devices.

(b) The generating system shall be so designed that the power sources function properly both when connected in combination and independently, and the failure or malfunctioning of any power source cannot create a hazard or impair the ability of the remaining sources to supply essential loads.

(c) Means accessible in flight to appropriate crew members shall be provided for the individual and collective disconnection of electrical power sources from the main bus.

(d) Means shall be provided to indicate to appropriate crew members those generating system quantities which are essential for the safe operation of the system.

NOTE: The voltage and current supplied by each generator are quantities considered essential.

§ 4b.623 *Distribution system.* (a) The distribution system shall be considered to include all distribution busses, their associated feeders, and control and protective devices.

(b) Individual distribution systems shall be designed to insure that essential load circuits can be supplied in the event of reasonably probable faults or open circuits.

(c) Where two independent sources of electrical power for particular equipment or systems are required by the Civil Air Regulations, their electrical energy supply shall be assured.

NOTE: Various means may be used to assure a supply, such as duplicate electrical equipment, throw-over switching, and multichannel or loop circuits separately routed.

§ 4b.624 *Electrical protection.* (a) Automatic protective devices shall be provided to minimize distress to the electrical system and hazard to the airplane in the event of wiring faults or serious malfunctioning of the system or connected equipment.

(b) In the generating system the protective and control devices shall be such as to de-energize and disconnect faulty power sources and power transmission equipment from their associated busses with sufficient rapidity to provide protection against hazardous overvoltage and other malfunctioning.

(c) All resettable type circuit protective devices shall be so designed that, when an overload or circuit fault exists, they will open the circuit irrespective of the position of the operating control.

(d) Protectiye devices or their controls used in essential load circuits shall be accessible for resetting in flight.

(e) Circuits for essential loads shall have individual circuit protection.

NOTE: This provision does not necessarily require individual protection for each circuit in an essential load system (e. g., each position light in the system).

(f) If fuses are used, there shall be provided spare fuses for use in flight equal to at least 50 percent of the number of fuses of each rating required for complete circuit protection.

§ 4b.625 *Electrical equipment and installation.* (a) In showing compliance with § 4b.606 (a) and (b) with respect to the electrical system, equipment, and installation, consideration shall be given to critical environmental conditions.

NOTE: Critical environmental conditions may include temperature, pressure, humidity, ventilation, position, acceleration, vibration, and presence of detrimental substances.

(b) All electrical equipment, controls, and wiring shall be so installed that operation of any one unit or system of units will not affect adversely the simultaneous operation of any other electrical unit or system of units essential to the safe operation of the airplane.

(c) Cables shall be grouped, routed, and spaced so that damage to essential circuits will be minimized in the event of faults in heavy current-carrying cables.

(d) Batteries and their installations shall provide for ventilation, drainage of fluids, venting of gases, and protection of other parts of the airplane from corrosive battery fluids.

§ 4b.626 *Electrical system fire and smoke protection.* The design and installation of all components of the electrical system shall be in compliance with pertinent fire and smoke protection provisions of §§ 4b.371(c), 4b.385, and 4b.490. In addition, all electrical cables, terminals, and equipment which are necessary in emergency procedures and which are located in designated fire zones shall be fire-resistant.

§ 4b.627 *Electrical system tests and analyses.* It shall be demonstrated by tests and analyses that the electrical system functions properly and without electrical or thermal distress.

LIGHTS

§ 4b.630 *Instrument lights.* (a) Instrument lights shall provide sufficient illumination to make all instruments, switches, etc., easily readable.

(b) Instrument lights shall be so installed that their direct rays are shielded from the pilot's eyes and so that no objectionable reflections are visible to him.

(c) A means of controlling the intensity of illumination shall be provided, unless it is shown that non-dimmed instrument lights are satisfactory under all expected conditions of flight.

§ 4b.631 *Landing lights.* (a) Landing lights shall be of an approved type.

(b) Landing lights shall be installed so that there is no objectionable glare visible to the pilot and so that the pilot is not adversely affected by halation.

(c) Landing lights shall be installed in a location where they provide the necessary illumination for night landing.

(d) A switch for each light shall be provided, except that where multiple lights are installed at one location a single switch for the multiple lights shall be acceptable.

§ 4b.632 *Position light system installation*—(a) *General.* The provisions of §§ 4b.632 through 4b.635 shall be applicable to the position light system as a whole. The position light system shall include the items specified in paragraphs (b) through (f) of this section.

(b) *Forward position lights.* Forward position lights shall consist of a red and a green light spaced laterally as far apart as practicable and installed forward on an airplane in such a location that, with the airplane in normal flying position, the red light is displayed on the left side and the green light is displayed on the right side. The individual lights shall be of an approved type.

(c) *Rear position lights.* Rear position lights shall consist of a red and a white light mounted on the airplane as far aft as practicable and located in close proximity to each other. The individual lights shall be of an approved type.

(d) *Fuselage lights.* Fuselage lights shall consist of two white lights installed approximately in line with the forward position lights. One of these lights shall be mounted on the top of the fuselage, the other on the bottom. In the case of seaplanes, the location of the bottom fuselage light shall be subject to specific approval. The individual lights shall be of an approved type.

(e) *Flasher.* A position light flasher of an approved type shall be installed and shall comply with subparagraphs (1) through (3) of this paragraph.

(1) The forward position lights and the fuselage lights shall flash simultaneously at a rate of not less than 65 and not more than 85 flashes per minute.

(2) The rear position lights shall be energized alternately, such that the red light flashes during one flash of the forward position lights and the fuselage lights, and the white light flashes during the next flash of the forward position lights and the fuselage lights.

(3) A switch shall be provided in the system to disconnect the flasher from the circuit so that continuous light can be supplied by the forward position lights and the white rear position light with the remaining lights unenergized.

(f) *Light covers and color filters.* Light covers or color filters used shall be of noncombustible material and shall be constructed so that they will not change color or shape or suffer any appreciable loss of light transmission during normal use.

§ 4b.633 *Position light system dihedral angles.* The forward and rear position lights as installed on the airplane shall show unbroken light within dihedral angles specified in paragraphs (a) through (c) of this section.

(a) Dihedral angle L (left) shall be considered formed by two intersecting vertical planes, one parallel to the longitudinal axis of the airplane and the other at 110° to the left of the first, when looking forward along the longitudinal axis.

(b) Dihedral angle R (right) shall be considered formed by two intersecting vertical planes, one parallel to the longitudinal axis of the airplane and the other at 110° to the right of the first, when looking forward along the longitudinal axis.

(c) Dihedral angle A (aft) shall be considered formed by two intersecting vertical planes making angles of 70° to the right and 70° to the left, respectively, looking aft along the longitudinal axis, to a vertical plane passing through the longitudinal axis.

§ 4b.634 *Position light distribution and intensities*—(a) *General.* The intensities prescribed in this section are those to be provided by new equipment with all light covers and color filters in place. Intensities shall be determined with the light source operating at a steady value equal to the average luminous output of the light source at the normal operating voltage of the airplane. The light distribution and intensities of position lights shall comply with the provisions of paragraphs (b) and (c) of this section.

(b) *Forward and rear position lights.* The light distribution and intensities of forward and rear position lights shall be expressed in terms of minimum intensities in the horizontal plane, minimum intensities in any vertical plane, and maximum intensities in overlappng beams, within dihedral angles L, R, and A, and shall comply with the provisions of subparagraphs (1) through (3) of this paragraph.

(1) *Intensities in horizontal plane.* The intensities in the horizontal plane shall not be less than the values given in figure 4b–18. (The horizontal plane is the plane containing the longitudinal axis of the airplane and is perpendicular to the plane of symmetry of the airplane.)

(2) *Intensities above and below horizontal.* The intensities in any vertical plane shall not be less than the appropriate value given in figure 4b–19, where I is the minimum intensity prescribed in figure 4b–18 for the corresponding angles in the horizontal plane. (Vertical planes are planes perpendicular to the horizontal plane.)

(3) *Overlaps between adjacent signals.* The intensities in overlaps between adjacent signals shall not exceed the values given in figure 4b–20.

(c) *Fuselage lights.* The illuminating intensity of the top and the bottom fuselage lights individually shall be equivalent to that which would be furnished by a 32-candlepower lamp installed in a reflector of high reflective properties. The lights shall have a clear cover and the light distribution shall be reasonably uniform throughout approximately a hemisphere.

| Dihedral angle (light involved) | Angle from right or left of longitudinal axis, measured from dead ahead | Intensity (candles) |
|---|---|---|
| *L* and *R* (forward red and green) | 0° to 10° | 40 |
| | 10° to 20° | 30 |
| | 20° to 110° | 5 |
| *A* (Rear white) | 110° to 180° | 20 |
| *A* (Rear red) | 110° to 180° | 4 |

FIGURE 4b–18—MINIMUM INTENSITIES IN THE HORIZONTAL PLANE OF FORWARD AND REAR POSITION LIGHTS

| Angle above or below horizontal | Intensity |
|---|---|
| 0° | 1.00 I. |
| 0° to 5° | .90 I. |
| 5° to 10° | .80 I. |
| 10° to 15° | .70 I. |
| 15° to 20° | .60 I. |
| 20° to 30° | .30 I. |
| 30° to 40° | .10 I. |
| 40° to 90° | At least 2 candles. |

FIGURE 4b–19—MINIMUM INTENSITIES IN ANY VERTICAL PLANE OF FORWARD AND REAR POSITION LIGHTS

§ 4b.635 *Position light color specifications.* The colors of the position lights shall have the International Commission on Illumination chromaticity coordinates as set forth in paragraphs (a) through (c) of this section.

(a) *Aviation red.*

$y$ is not greater than 0.335,
$z$ is not greater than 0.002;

(b) *Aviation green.*

$x$ is not greater than $0.440-0.320y$,
$x$ is not greater than $y-0.170$,
$y$ is not less than $0.390-0.170x$;

(c) *Aviation white.*

$x$ is not less than 0.350,
$x$ is not greater than 0.540,
$y-y_0$ is not numerically greater than 0.01,

$y_0$ being the $y$ coordinate of the Planckian radiator for which $x_0=x$.

CROSS REFERENCE: For Special Civil Air Regulation SR–390, modifying regulations with respect to the position light system, see Note 2 to this part, *supra*.

| Overlaps | Maximum intensity | |
|---|---|---|
| | Area A (candles) | Area B (candles) |
| Green in dihedral angle *L* | 10 | 1 |
| Red in dihedral angle *R* | 10 | 1 |
| Green in dihedral angle *A* | 5 | 1 |
| Red in dihedral angle *A* | 5 | 1 |
| Rear white or rear red in dihedral angle *L* | 5 | 1 |
| Rear white or rear red in dihedral angle *R* | 5 | 1 |

NOTE: Area A represents the overlap in any plane bounded by two straight lines forming angles of 10° cos $\theta$ and 20° cos $\theta$ to the common boundary of the dihedral angles considered. Area B represents the overlap in any plane beyond 20° cos $\theta$. $\theta$ is the angle of the plane to the horizontal plane.

FIGURE 4b–20—MAXIMUM INTENSITIES IN OVERLAPPING BEAMS OF FORWARD AND REAR POSITION LIGHTS

§ 4b.636 *Riding light.* (a) When a riding (anchor) light is required for a seaplane, flying boat, or amphibian, it shall be capable of showing a white light for at least two miles at night under clear atmospheric conditions.

(b) The riding light shall be installed to show the maximum unbroken light practicable when the airplane is moored or drifting on the water. Externally hung lights shall be acceptable.

§ 4b.637 *Anti-collision light.* If an anti-collision light is used, it shall be of the rotating beacon type installed on top of the fuselage or tail in such a location that the light would not be detrimental to the crew's vision and would not detract from the conspicuity of the position lights. The color of the anti-collision light shall be aviation red in accordance with the specifications of § 4b.635 (a). The arrangement of the anti-collision light, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute, with an on-off ratio not less than 1:75. If an anti-collision light is used, it shall be permissible to install the position lights in a manner so that the forward position lights and the rear white position light are on steady while the fuselage lights and the rear red position light are not energized.

NOTE: An on-off ratio of not less than 1:75 is equivalent to a total angular light beam width of not less than approximately 5 degrees.

SAFETY EQUIPMENT

§ 4b.640 *Ice protection.* When an ice protection system is installed, it shall be of an approved type. If pneumatic boots are used, at least two independent sources of power and a positive means for the deflation of the boots shall be provided.

§ 4b.641 *Hand fire extinguishers.* (See §§ 4b.381, 4b.382, and 4b.383.)

[Amdt. 4b–6, 17 F. R. 1099, Feb. 5, 1952]

§ 4b.642 *Flare installation.* (a) Parachute flares shall be releasable from the pilot compartment and installed to minimize the danger of accidental discharge.

(b) It shall be demonstrated in flight that the flare installation is such that ejection can be accomplished without hazard to the airplane and its occupants.

(c) If recoil loads are involved in the ejection of the flares, the structure of the airplane shall withstand such loads.

§ 4b.643 *Safety belts.* Safety belts shall be of an approved type. In no case shall the rated strength of the safety belt be less than that corresponding with the ultimate load factors specified in § 4b.260 (a), taking due account of the dimensional characteristics of the safety belt installation for the specific seat or berth arrangement. Safety belts shall be attached so that no part of the anchorage will fail at a load lower than that corresponding with the ultimate load factors specified in § 4b.260 (a).

§ 4b.644 *Safety belt signal.* When means are provided to indicate to the passengers when seat belts should be fastened, the device shall be so installed that it can be operated from the seat of either pilot or copilot.

§ 4b.645 *Ditching equipment.* When the airplane is certificated for ditching in accordance with § 4b.361, and when required by the operating rules for the particular route to be flown, the ditching equipment shall be as prescribed in paragraphs (a) through (d) of this section.

(a) *Life rafts.* Life rafts shall be of an approved type. Unless excess rafts of sufficient capacity are provided, the buoyancy and seating capacity beyond the rated capacity of the rafts shall be such as to accommodate all occupants of the airplane in the event of a loss of one life raft of the largest rated capacity on board. Each life raft shall be equipped with a trailing line and with a static line, the latter designed to hold the raft near the airplane but to release it in case the airplane becomes totally submerged. Each raft shall contain obvious markings of instruction on the operation of the raft.

(b) *Life raft equipment.* Approved equipment intended for survival shall be attached to each life raft and marked for identification and method of operation.

NOTE: The extent and type of survival equipment will depend upon the route over which the airplane is operated.

(c) *Long-range signalling device.* An approved long-range signalling device

shall be provided for use in one of the life rafts.

(d) *Life preservers.* Life preservers shall be of an approved type. They shall be reversible and shall contain obvious markings of instruction on their use.

§ 4b.646 *Stowage of safety equipment.* Special stowage provisions shall be made for all prescribed safety equipment to be used in emergencies. The stowage provision shall be such that the equipment is directly accessible and its location is obvious. All safety equipment shall be protected against inadvertent damage. The stowage provisions shall be marked conspicuously to identify the contents and to facilitate removal of the equipment. In addition, the following shall specifically apply.

(a) *Emergency exit means.* The stowage provisions for the emergency exit means required by § 4b.362 (e) (7) shall be located at the exits which they are intended to serve.

(b) *Life rafts.* The provisions for the stowage of life rafts required by § 4b.645 (a) shall accommodate a sufficient number of rafts for the maximum number of occupants for which the airplane is certificated for ditching. Stowage shall be near exits through which the rafts can be launched during an unplanned ditching. Rafts automatically or remotely released on the outside of the airplane shall be attached to the airplane by means of the static line prescribed in § 4b.645 (a).

(c) *Long-range signalling device.* The stowage provisions for the long-range signalling device required by § 4b.645 (c) shall be located near an exit to be available during an unplanned ditching.

(d) *Life preservers.* The provisions for the stowage of life preservers required by § 4b.645 (d) shall accommodate one life preserver for each occupant for which the airplane is certificated for ditching. They shall be located so that a life preserver is within easy reach of each occupant while seated.

MISCELLANEOUS EQUIPMENT

§ 4b.650 *Radio and electronic equipment.* (a) In showing compliance with § 4b.606 (a) and (b) with respect to radio and electronic equipment and their installations, consideration shall be given to critical environmental conditions.

NOTE: Critical environmental conditions may include temperature, pressure, humidity, ventilation, position, acceleration, vibration, and presence of detrimental substances.

(b) Radio and electronic equipment shall be supplied with power in accordance with the provisions of § 4b.623 (c).

(c) All radio and electronic equipment, controls, and wiring shall be so installed that operation of any one unit or system of units will not affect adversely the simultaneous operation of any other radio or electronic unit or system of units required by the regulations in this subchapter.

§ 4b.651 *Oxygen equipment and supply.* When required by the operating rules of the regulations in this subpart, the supplemental and protective breathing equipment and its installation shall meet the following requirements.

(a) *General.* The oxygen system installed shall be free from hazards in itself, in its method of operation, and in its effect on other components of the airplane. Means shall be provided to enable the crew to determine the quantity of oxygen available in each source of supply.

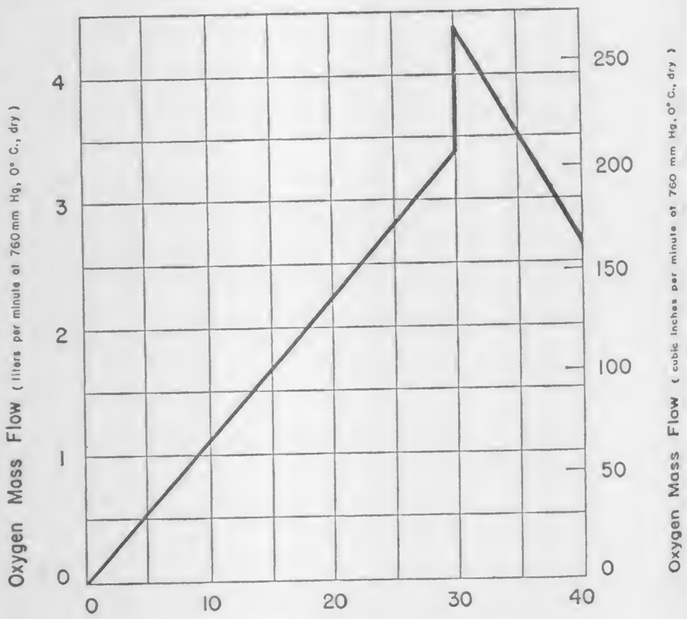
(b) *Required minimum mass flow of supplemental oxygen.* The minimum mass flow of supplemental oxygen required per person at various cabin pressure altitudes shall be at least that indicated on figure 4b–21.

(c) *Equipment standards for distribution system.* Where oxygen is to be supplied to both crew and passengers, the distribution system shall be designed to provide either:

(1) A source of supply for the flight crew on duty and a separate source for the passengers and other crew members, or

(2) A common source of supply with means provided so that the minimum supply required by the flight crew on duty can be separately reserved.

(d) *Equipment standards for dispensing units.* An individual dispensing unit shall be provided for each crew member and passenger for whom supplemental oxygen is required to be furnished. All units shall be designed to cover the nose, and at least 25 percent of the units required to be furnished shall, in addition, cover the mouth. (For crew masks to be used for protective breathing purposes see paragraph (h) of this section.)



(e) *Means for determining use of oxygen.* Means shall be provided to enable the crew to determine whether oxygen is being delivered to each user.

(f) *Fire protection.* (1) Oxygen equipment and lines shall not be located in any designated fire zone.

(2) Oxygen equipment and lines shall be protected from heat which may be generated in or escape from any designated fire zone.

(3) Oxygen equipment and lines shall be so installed that escaping oxygen cannot cause ignition of accumulations of grease, fluids, or vapors which are likely to be present in normal operation or as a result of failure or malfunctioning of any system.

(g) *Protection from rupture.* Oxygen pressure tanks and lines between tanks and the shutoff means shall be protected from the effects of unsafe temperatures, and shall be so located in the airplane as to minimize the possibility and the hazards of rupture in a crash landing.

NOTE: 1. Data based on:
a. System 100% efficient.
b. Respiratory minute volume equals 15 liters (915 cubic inches) per minute.
c. 100% oxygen above 30,000 feet.
2. For diluter–demand regulators use flow characteristics supplied by manufacturer to calculate required supply. Such flows must not be less than those indicated on this graph at delivery rate of 15 liters per minute.

FIGURE 4b–21—Minimum flow of oxygen for operation at various altitudes.

(h) *Protective breathing system.* When protective breathing equipment is required by the Civil Air Regulations, it shall be designed to protect the flight crew from the effects of smoke, carbon dioxide, and other harmful gases while on flight deck duty and while combating fires in cargo compartments (see § 4b.380 (c)). The protective breathing equipment and the necessary supply of oxygen shall be in accordance with the following provisions.

(1) The protective breathing equipment shall include masks covering the eyes, nose, and mouth, or only the nose and mouth where accessory equipment is provided to protect the eyes.

(2) A supply of protective oxygen per crew member shall be of 15-minute duration at a pressure altitude of 8,000 feet and a respiratory minute volume of 30 liters per minute BTPD.

NOTE: When a demand type oxygen system is employed, a supply of 300 liters of free oxygen at 70° F. and 760 mm Hg. pressure is considered to be of 15-minute duration at the prescribed altitude and minute volume. When a continuous flow protective breathing system is used, including a mask with a standard rebreather bag, a flow rate of 60 liters per minute at 8,000 feet (45 liters per minute at sea level) and a supply of 600 liters of free oxygen at 70° F. and 760 mm Hg. pressure is considered to be of 15-minute duration at prescribed altitude and minute volume. (BTPD refers to body temperature conditions, i. e., 37° C., at ambient pressure, dry.)

§ 4b.652 *Engine-driven accessories.* Engine-driven accessories essential to safe operation of the airplane shall be so distributed among two or more engines that the failure of any one engine will not impair the safe operation of the airplane.

§ 4b.653 *Hydraulic systems; strength*—(a) *Structural loads.* All elements of the hydraulic system shall be designed to withstand, without detrimental permanent deformation, all structural loads which may be imposed simultaneously with the maximum hydraulic loads occurring in operation.

(b) *Proof pressure tests.* All elements of the hydraulic system shall be tested to a proof pressure of 1.5 times the maximum pressure to which the part will be subjected in normal operation. In such test no part of the hydraulic system shall fail, malfunction, or suffer detrimental deformation.

(c) *Burst pressure strength.* Individual hydraulic system elements shall be designed to withstand pressures which are sufficiently increased over the pressures prescribed in paragraph (b) of this section to safeguard against rupture under service conditions.

NOTE: The following pressures, in terms of percentage of maximum operating pressure for the particular element, in most instances are sufficient to insure against rupture in service: 250 percent in units under oil pressure, 400 percent in units containing air and oil under pressure and in lines, hoses, and fittings, 300 percent in units of system subjected to back pressure.

§ 4b.654 *Hydraulic systems; design*—(a) *Pressure indication.* A means shall be provided to indicate the pressure in each main hydraulic power system.

(b) *Pressure limiting provisions.* Provision shall be made to assure that pressures in any part of the system will not exceed a safe limit above the maximum operating pressure of the system and to insure against excessive pressures resulting from fluid volumetric changes in all lines which are likely to remain closed long enough for such changes to take place. In addition, consideration shall be given to the possible occurrence of detrimental transient (surge) pressures during operation.

(c) *Installation.* Hydraulic lines, fittings, and components shall be installed and supported to prevent excessive vibration and to withstand inertia loads. All elements of the installation shall be protected from abrasion, corrosion, and mechanical damage.

(d) *Connections.* Flexible hose, or other means of providing flexibility, shall be used to connect points in a hydraulic fluid line between which there is relative motion or differential vibration.

§ 4b.655 *Hydraulic system fire protection.* When flammable type hydraulic fluid is used, the hydraulic system shall comply with the provisions of §§ 4b.385, 4b.481, 4b.482, and 4b.483.

§ 4b.658 *Vacuum systems.* (a) Means, in addition to the normal pressure relief, shall be provided to relieve automatically the pressure in the discharge lines from the vacuum pump, if the delivery temperature of the air reaches an unsafe value.

(b) Vacuum system lines and fittings on the discharge side of the pump which might contain flammable vapors or fluids shall comply with § 4b.483 if they are located in a designated fire zone. Other vacuum system components located in designated fire zones shall be fire-resistant.

SUBPART G—OPERATING LIMITATIONS AND INFORMATION

GENERAL

§ 4b.700 *Scope.* (a) The operating limitations listed in §§ 4b.710 through 4b.723 shall be established as prescribed in this part.

(b) The operating limitations, together with any other information concerning the airplane found necessary for safety during operation, shall be included in the Airplane Flight Manual (§ 4b.740), shall be expressed as markings and placards (§ 4b.730), and shall be made available by such other means as will convey the information to the crew members.

OPERATING LIMITATIONS

§ 4b.710 *Air-speed limitations; general.* When air-speed limitations are a function of weight, weight distribution, altitude, or Mach number, the values corresponding with all critical combinations of these values shall be established.

§ 4b.711 *Never-exceed speed $V_{NE}$.* (a) To allow for possible variations in the airplane characteristics and to minimize the possibility of inadvertently exceeding safe speeds, the never-exceed speed $V_{NE}$ shall be a speed established sufficiently below the lesser of:

(1) The design dive speed $V_D$ chosen in accordance with § 4b.210 (b) (5), or

(2) The maximum speed demonstrated in flight in accordance with § 4b.190.

(b) In the absence of a rational investigation, the value of $V_{NE}$ shall not exceed 0.9 times the lesser of the two speeds referred to in paragraph (a) of this section.

§ 4b.712 *Normal operating limit speed $V_{NO}$.* (a) The normal operating limit speed $V_{NO}$ shall be established not to exceed the design cruising speed $V_C$ chosen in accordance with § 4b.210 (b) (4) and sufficiently below the never-exceed speed $V_{NE}$ to make it unlikely that $V_{NE}$ would be exceeded in a moderate upset occurring at $V_{NO}$.

(b) In the absence of a rational investigation, the value of $V_{NO}$ shall not exceed 0.9 times $V_{NE}$.

§ 4b.713 *Maneuvering speed.* The maneuvering speed shall not exceed the design maneuvering speed $V_A$ determined in accordance with § 4b.210 (b) (2).

§ 4b.714 *Flap extended speed $V_{FE}$.* (a) The flap extended speed $V_{FE}$ shall be established not to exceed the lesser of:

(1) The design flap speed $V_F$ chosen in accordance with § 4b.210 (b) (1), or

(2) The design speed for slipstream effects with flaps in the landing position, chosen in accordance with § 4b.221.

(b) The value of $V_{FE}$ established in accordance with paragraph (a) of this section shall not be less than a value which provides a safe speed margin above the stall during approach and landing.

(c) It shall be acceptable to establish supplementary values of $V_{FE}$ for other combinations of flap setting, air speed, and engine power, if the structure and the flight characteristics of the airplane have been shown to be satisfactory for such combinations.

§ 4b.715 *Landing gear operating speed $V_{LO}$.* The landing gear operating speed $V_{LO}$ shall be established not to exceed a speed at which it is safe to extend or retract the landing gear as limited by design in accordance with § 4b.334 or by flight characteristics.

§ 4b.716 *Landing gear extended speed $V_{LE}$.* The landing gear extended speed $V_{LE}$ shall be established not to exceed a speed at which it has been shown that the airplane can be safely flown with the landing gear secured in the fully extended position, and for which the structure has been proven in accordance with § 4b.334.

§ 4b.717 *Minimum control speed $V_{MC}$.* (See § 4b.133.)

§ 4b.718 *Powerplant limitations.* The following powerplant limitations shall be established for the airplane. They shall not exceed the corresponding limits established as a part of the type certification of the engine and propeller installed in the airplane.

(a) *Take-off operation.* (1) Maximum rotational speed (r. p. m.),

(2) Maximum permissible manifold pressure,

(3) The time limit for use of the power which corresponds with the values established in subparagraphs (1) and (2) of this paragraph,

(4) Where the time limit established in subparagraph (3) of this paragraph exceeds two minutes, the maximum allowable cylinder head or coolant outlet, and oil temperatures,

(5) Maximum cylinder head or coolant outlet and oil temperatures, if these differ from the maximum limits for continuous operation.

(b) *Maximum continuous operation.* (1) Maximum rotational speed (r. p. m.),

(2) Maximum permissible manifold pressure,

(3) Maximum allowable cylinder head or coolant outlet, and oil temperatures.

(c) *Fuel octane rating.* The minimum octane rating of fuel required for satisfactory operation of the powerplant at the limits specified in paragraphs (a) and (b) of this section.

(d) *Cooling limitations.* The maximum sea level temperature for which satisfactory cooling has been demonstrated.

§ 4b.719 *Airplane weight, center of gravity, and weight distribution limitations.* The airplane weight, center of gravity, and weight distribution limitations shall be those prescribed in §§ 4b.101, 4b.102 and 4b.103. Where the airplane is certificated for more than one center of gravity range, the appropriate limitations with regard to weight and loading procedures shall be set forth in the Airplane Flight Manual for each separate center of gravity range.

§ 4b.720 *Minimum flight crew.* The minimum flight crew shall be established by the Administrator as that number of persons which he finds necessary for safety in the operations authorized under § 4b.721. This finding shall be based upon the work load imposed upon individual crew members with due consideration given to the accessibility and the ease of operation of all necessary controls by the appropriate crew members.

§ 4b.721 *Types of operation.* The types of operation to which the airplane is limited shall be established by the category in which it has been found eligible for certification and by the equipment installed. (See the operating rules in this subchapter.)

§ 4b.722 *Maximum operating altitude.* A maximum altitude shall be established up to which operation is permitted, as limited by flight, structural, powerplant, functional, or equipment characteristics.

§ 4b.723 *Maneuvering flight load factors.* Load factor limitations shall be established not to exceed the positive limit load factors determined from the maneuvering diagram, figure 4b–2. (See § 4b.211 (a).)

MARKINGS AND PLACARDS

§ 4b.730 *General.* (a) Markings and placards shall be displayed in conspicuous places and shall be such that they cannot be easily erased, disfigured, or obscured.

(b) Additional information, placards, and instrument markings having a direct and important bearing on safe operation of the airplane shall be required when unusual design, operating, or handling characteristics so warrant.

§ 4b.731 *Instrument markings; general.* (a) When markings are placed on the cover glass of the instrument, provision shall be made to maintain the correct alignment of the glass cover with the face of the dial.

(b) All arcs and lines shall be of sufficient width and so located that they are clearly visible to the pilot.

§ 4b.732 *Air-speed indicator.* The following markings shall be placed on the air-speed indicator. If speeds vary with altitude, means shall be provided to indicate the appropriate limitation to the pilot throughout the operating altitude range.

(a) A radial red line shall indicate the never-exceed speed $V_{NE}$ (see § 4b.711).

(b) A yellow arc extending from the red line specified in paragraph (a) of this section to the upper limit of the green arc specified in paragraph (c) of this section shall indicate the caution range.

(c) A green arc with the lower limit at $V_{s_1}$ as determined in accordance with § 4b.112 (b) with maximum take-off weight, landing gear and wing flaps retracted, and the upper limit at the normal operating limit speed $V_{NO}$ established in accordance with § 4b.712 shall indicate the normal operating range.

(d) A white arc with the lower limit at $V_{s_0}$ as determined in accordance with § 4b.112 (a) at the maximum landing weight, and the upper limit at the flaps-extended speed $V_{FE}$ as established in accordance with § 4b.714 shall indicate the flap operating range.

§ 4b.733 *Magnetic direction indicator.* A placard shall be installed on or in close proximity to the magnetic direction indicator which shall comply with the following.

(a) The placard shall contain the calibration of the instrument in a level flight attitude with engine(s) operating.

(b) The placard shall state whether the calibration was made with radio receiver(s) on or off.

(c) The calibration readings shall be in terms of magnetic headings in not greater than 45° increments.

§ 4b.734 *Powerplant instruments; general.* All required powerplant instruments shall be marked as follows.

(a) The maximum and the minimum (if applicable) safe operational limits shall be marked with red radial lines.

(b) The normal operating ranges shall be marked with a green arc not extending beyond the maximum and minimum safe operational limits.

(c) The take-off and precautionary ranges shall be marked with a yellow arc.

(d) Engine or propeller speed ranges which are restricted because of excessive vibration stresses shall be marked with red arcs.

§ 4b.735 *Oil quantity indicators.* Oil quantity indicators shall be marked in sufficient increments to indicate readily and accurately the quantity of oil.

§ 4b.736 *Fuel quantity indicator.* When the unusable fuel supply for any tank exceeds 1 gallon or 5 percent of the tank capacity, whichever is the greater, a red arc shall be marked on the indicator extending from the calibrated zero reading to the lowest reading obtainable in the level flight attitude. A notation in the Airplane Flight Manual shall be made to indicate that the fuel remaining in the tank when the quantity indicator reaches zero is not usable in flight. (See § 4b.613 (b).)

§ 4b.737 *Control markings; general.* All cockpit controls, with the exception of the primary flight controls and other controls the function of which is obvious, shall be plainly marked and/or identified as to their function and method of operation. The markings shall include the following.

(a) *Aerodynamic controls.* The secondary aerodynamic controls shall be marked to comply with §§ 4b.322 and 4b.323.

(b) *Powerplant fuel controls.* (1) Controls for fuel tank selector valves shall be marked to indicate the position corresponding with each tank and with all possible cross-feed positions.

(2) When more than one fuel tank is provided, and if safe operation depends upon the use of tanks in a specific sequence, the fuel tank selector controls shall be marked adjacent to or on the control itself to indicate the order in which the tanks should be used.

(3) Controls for engine selector valves shall be marked to indicate the position corresponding with each engine.

(c) *Accessory and auxiliary controls.* (1) When a retractable landing gear is used, the visual indicator required in § 4b.334 (e) shall be marked so that the pilot can ascertain at all times when the wheels are locked in either extreme position.

(2) Emergency controls, including fuel jettisoning and fluid shutoff controls, shall be colored red and shall be marked to indicate their function and method of operation.

§ 4b.738 *Miscellaneous markings and placards*—(a) *Baggage compartments and ballast location.* Each baggage and cargo compartment as well as the ballast location shall bear a placard stating the maximum allowable weight of contents and, if applicable, any other limitation on contents found necessary due to loading requirements.

(b) *Fuel, oil, and coolant filler openings.* The following information shall be marked on or adjacent to the appropriate filler cover:

(1) The word "fuel", the minimum permissible fuel octane number for the engines installed, and the usable fuel tank capacity (see § 4b.416),

(2) The word "oil" and the oil tank capacity,

(3) The name of the proper coolant fluid and the capacity of the coolant system.

(c) *Emergency exit placards.* (See § 4b.362 (f).)

(d) *Operating limitation placard.* A placard shall be provided in front of and in clear view of the pilots stating: "This airplane must be operated in compliance with the operating limitations specified in the CAA approved Airplane Flight Manual."

(e) *Safety equipment.* (1) Safety equipment controls which the crew is expected to operate in time of emergency, such as flares, automatic life raft releases, etc., shall be readily accessible and plainly marked as to their method of operation.

(2) When fire extinguishers and signaling and other lifesaving equipment are carried in lockers, compartments, etc., these locations shall be marked accordingly.

AIRPLANE FLIGHT MANUAL

§ 4b.740 *General.* (a) An Airplane Flight Manual shall be furnished with each airplane.

(b) The portions of the manual listed in §§ 4b.741 through 4b.743 as are appropriate to the airplane shall be verified and approved and shall be segregated, identified, and clearly distinguished from portions not so approved.

(c) Additional items of information having a direct and important bearing on safe operation shall be required when unusual design, operating, or handling characteristics so warrant.

§ 4b.741 *Operating limitations*—(a) *Air-speed limitations.* The following air-speed limitations shall be included together with sufficient information to permit marking the air-speed indicator in accordance with § 4b.732:

(1) The never-exceed speed (see § 4b.711);

(2) The normal operating limit speed (see § 4b.712), together with a statement to the effect that normal flight operations should be confined to speeds below this value, and a further statement to the effect that the range of speeds between the normal operating limit speed and the never-exceed speed should be entered with caution and with due regard to the prevailing flight and atmospheric conditions;

(3) When an air-speed limitation is based upon compressibility effects, a statement to this effect, together with information as to any symptoms, the probable behavior of the airplane, and the recommended recovery procedures;

(4) The maneuvering speed (see § 4b.210 (b) (2)), together with a statement to the effect that full application of rudder and aileron controls as well as those maneuvers which involve angles of attack near the stall should be confined to speeds below this value;

(5) The flap extended speed (see § 4b.714), together with a description of the pertinent flap positions and engine powers;

(6) The landing gear operating speed (see § 4b.715), together with a statement to the effect that this is the maximum speed at which it is safe to extend or retract the landing gear;

(7) The landing gear extended speed (see § 4b.716), if greater than the landing gear operating speed, together with a statement to the effect that this is the maximum speed at which the airplane can be flown safely with the landing gear in the extended position.

(b) *Powerplant limitations.* Information shall be included to outline and to explain all powerplant limitations (see § 4b.718) and to permit marking the instruments as required by §§ 4b.734 through 4b.736.

(c) *Weight and loading distribution.* The airplane weights and center of gravity limits required by §§ 4b.101 and 4b.102 shall be included, together with the items of equipment on which the empty weight is based. Where the variety of possible loading conditions warrants, instructions shall be included to facilitate observance of the limitations.

(d) *Flight load acceleration limits.* The positive maneuvering limit load factors for which the airplane structure has been proven shall be described in terms of accelerations, together with a statement to the effect that these accelerations limit the angle of bank in turns and limit the severity of pull-up maneuvers.

(e) *Flight crew.* The number and functions of the minimum flight crew determined in accordance with § 4b.720 shall be described.

(f) *Type of operation.* The type(s) of operating(s) shall be listed for which the airplane and its equipment installations have been approved. (See § 4b.721.)

(g) *Maximum operating altitude.* The altitude established in accordance with § 4b.722 shall be included, together with an explanation of the limiting factors.

§ 4b.742 *Operating procedures*—(a) *Normal.* Information and instructions shall be included regarding peculiarities of starting and warming the engines, taxying, operation of wing flaps, landing gear, automatic pilot, etc.

(b) *One engine inoperative.* The recommended procedure shall be described to be followed in the event of engine failure, including minimum speeds, trim, operation of remaining engine(s), operation of flaps, etc.

(c) *Propeller feathering.* The recommended procedure shall be described to be followed in stopping the rotation of propellers in flight.

(d) *Emergency procedures.* Recommended emergency procedures shall be described to be followed in the event of fire, decompression, ditching, etc.

§ 4b.743 *Performance information*—(a) *Performance data.* A summary of all pertinent performance data shall be given, including the performance data necessary for the application of the operating rules of this subchapter, together with descriptions of the conditions, air speeds, etc., under which these data were determined.

(b) *Flap controls.* Instructions shall be included describing the use and adjustment of the flap controls necessary to obtain the performance referred to in paragraph (a) of this section.

(c) *Air speeds.* The indicated air speeds corresponding with those determined for take-off shall be listed together with the procedures to be followed in the event the critical engine becomes inoperative during take-off (see § 4b.742 (b)).

(d) *Miscellaneous.* An explanation shall be included of any significant or unusual flight or ground handling characteristics.

AIRPLANE IDENTIFICATION DATA

§ 4b.750 *Identification plate.* A fireproof identification plate shall be securely attached to the structure in an accessible location where it will not likely be defaced during normal service. The identification plate shall not be placed in a location where it might be expected to be destroyed or lost in the event of an accident. The identification plate shall contain the identification data required by § 1.50 of this subchapter.

§ 4b.751 *Identification marks.* The nationality and registration marks shall be permanently affixed in accordance with § 1.100 of this subchapter.

[SEAL] M. C. MULLIGAN,
*Secretary.*

[Civil Air Regs., Amdt. 40-2]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

POSTPONEMENT OF EFFECTIVE DATE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

On April 13, 1953, the Board adopted a revision to Part 40 which contains major changes to the certification and operating rules applicable to domestic scheduled interstate air carriers. Revised Part 40 was made effective October 1, 1953. Present Parts 40 and 61 were accordingly rescinded effective that date. Because of unforeseen delays in the completion of Civil Aeronautics Manual material and issuance of operations specifications, it become impossible for air carriers to complete the necessary activities required for compliance with revised Part 40 by October 1, 1953. Consultation with the Civil Aeronautics Administration and the air carriers during September of this year indicated that this activity was expected to be completed in a relatively short time after October 1, and that, if the effective date of revised Part 40 were extended for a period of three months, an orderly transition of air carrier operations under the revised Part 40 would be permitted. Accordingly, on September 25, 1953, the Board extended the effective date of Part 40 to January 1, 1954.

It has now become apparent that expectations with respect to the completion of manual material and the issuance of air carrier operations specifications have not materialized. The Board is advised that the last of the Civil Aeronautics Manual material has been submitted to the FEDERAL REGISTER for publication, and that suitable arrangements have been made to insure that this material will be in the possession of the air carriers and agents of the Civil

Aeronautics Administration without delay. Recent consultation with the air carriers indicates that completion of air carrier manuals and other instructional material and the completion of air carrier training programs can be assured during March 1954 if the Civil Aeronautics Manuals are in the possession of the air carriers early in January as contemplated.

Although the Board regrets the additional delays which have been encountered in this activity, it is clear that the magnitude of the task has rendered many of the delays unavoidable. Furthermore, it is apparent that a complete indoctrination of all personnel involved with respect to the changes imposed under revised Part 40 and adequate training with respect to all associated procedures are essential in order that the safety of air carrier operations will not be jeopardized as a consequence of the transition. In view of the foregoing, the Board is postponing the effective date of revised Part 40 until April 1, 1954.

Since the time remaining prior to January 1, 1954, is insufficient to permit normal rule making procedure and delay beyond that date would operate contray to the purpose of the amendment, the Board finds that notice and public procedure hereon are impracticable; and since this regulation imposes no burden on any person, the amendment may be made effective without prior notice.

The Civil Aeronautics Board hereby changes the effective date of revised Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) from January 1, 1954, to April 1, 1954.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 40-2]

## PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

ELIMINATION OF REQUIREMENT FOR CERTIFICATION IN TRANSPORT CATEGORY OF AIRCRAFT USED AFTER DECEMBER 31, 1953

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

On April 13, 1953, the Board adopted revised Part 40 which contains major changes to the certification and operating rules applicable to domestic scheduled interstate air carriers. In adopting this revised part, the Board eliminated a requirement contained in § 40.21 (c) of current Part 40; namely, that aircraft used after December 31, 1953, shall be certificated in accordance with certain transport category requirements and shall be operated in accordance with transport category performance operating limitations.

Revised Part 40 was to have become effective January 1, 1954. The Board has found it necessary, however to postpone the effective date to April 1, 1954, and, accordingly, to continue in force present Part 40 until that date. This action, however, would have the practical effect of terminating the operation of nontransport category airplanes in scheduled air carrier service unless current Part 40 were amended. Since the Board has made it amply clear that these nontransport airplanes should not be required to be withdrawn from service, it appears necessary that the requirement contained in § 40.21 (c) of current Part 40 be deleted.

Since the time remaining prior to January 1, 1954, is insufficient to permit normal rule-making procedure and delay beyond that date would operate contrary to the purpose of the amendment, the Board finds that notice and public procedure hereon are impracticable; and since this regulation imposes no burden on any person, the amendment may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective immediately: By deleting § 40.21 (c).

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604; 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[Reg. No. SR-393B]

## PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

## PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; DELEGATION OF AUTHORITY TO ADMINISTRATOR TO AUTHORIZE COMPLIANCE WITH REVISED PART 40, EFFECTIVE APRIL 1, 1954, IN LIEU OF PRESENTLY EFFECTIVE PARTS 40 AND 61

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

On April 13, 1953, the Board adopted a revision to Part 40 which contains major changes to the certification and operating rules applicable to domestic scheduled interstate air carriers. Revised Part 40 was made effective October 1, 1953. Present Parts 40 and 61 were accordingly rescinded effective that date.

In order to permit the orderly transition of air carrier operations from presently effective Parts 40 and 61 to the revised Part 40, it was considered desirable that the Administrator of Civil Aeronautics be permitted, upon application by a domestic scheduled interstate air carrier, to amend the operations specifications of such air carrier to authorize compliance with selected provisions of revised Part 40 in lieu of the provisions of presently effective Parts 40 and 61 prior to October 1, 1953. In view of the foregoing, the Board adopted Special Civil Air Regulation SR-393 on April 13, 1953, authorizing the Administrator to permit operation in compliance with revised Part 40 prior to October 1, 1953. Because of unforeseen delays in the publication of manual material and the issuance of operations specifications, it became necessary to extend the effective date of revised Part 40 to January 1, 1954, and accordingly the provisions of SR-393 were extended by SR-393A until January 1, 1954. It has now become apparent, however, that the delays in publication of manual material and issuance of operations specifications have been longer than anticipated and it is extremely doubtful that such materials will be in the hands of the airlines sufficiently in advance of the January 1, 1954, effective date to enable orderly implementation of revised Part 40 on that date. The Board, therefore, is postponing the effective date of revised Part 40 and extending the authority provided by SR-393A to April 1, 1954. It is anticipated that the Administrator, in exercising this authority with respect to any particular provision, will require compliance with all related provisions of revised Part 40.

Since the purpose of this rule is to provide a means of orderly transition from presently effective to newly adopted rules, notice and public procedure hereon are considered impracticable and unnecessary and the Board finds that good cause exists for making the regulation effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board makes and promulgates the following Special Civil Air Regulation, effective immediately:

Contrary provisions of the Civil Air Regulations notwithstanding, the Administrator of Civil Aeronautics may, upon application, amend the operations specifications of an air carrier coming under the provisions of § 40.1 of revised Part 40, effective April 1, 1954, to authorize such air carrier to operate, prior to April 1, 1954, in compliance with selected provisions of Part 40, effective April 1, 1954, in lieu of the equivalent provisions of presently effective Parts 40 and 61.

This regulation supersedes Special Civil Air Regulation SR-393A and shall terminate April 1, 1954, unless sooner superseded or rescinded.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 605, 52 Stat. 1007, 1010, 1011, as amended; 49 U. S. C. 551, 554, 555, 559)

By the Civil Aeronautics Board.

[Reg. No. SR-396B]

## PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

## PART 60—AIR TRAFFIC RULES

## PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; LONG-DISTANCE DOMESTIC SCHEDULED AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

Special Civil Air Regulation SR-396A which terminates January 1, 1954, provides special operating rules for scheduled air carrier aircraft operating in long-distance domestic operations at altitudes in excess of 12,500 feet above sea level east of longitude 100° W. and at altitude in excess of 14,500 feet above sea level west of longitude 100° W. At the time SR-396A was adopted it was anticipated that revised Part 40, which incorporates similar provisions, would be in effect on January 1, 1954. It has become apparent, however, that unforeseen delays in publication of manual material and issuance of operations specifications make it extremely doubtful that such materials will be in the hands of the air carriers sufficiently in advance of the January 1, 1954, effective date to enable orderly implementation of revised Part 40 on that date. In view of the foregoing, the Board is postponing the effective date of revised Part 40 to April 1, 1954, and it is, therefore, desirable to extend the rules provided in SR-396A until that date at which time revised Part 40 will apply.

Since the time remaining prior to January 1, 1954, is insufficient to permit normal rule making procedure and delay beyond that date would operate contrary to the purpose of the regulation, the Board finds that notice and public procedure hereon are impracticable; and since this regulations imposes no additional burden on any person, the regulation may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation effective immediately:

Flights of scheduled air carriers while at altitudes in excess of 12,500 feet above sea level east of longitude 100° W. and 14,500 feet above sea level west of longitude 100° W. shall comply with the applicable provisions of the Civil Air Regulations except as follows:

a. Such flights need not comply with the requirements of §§ 60.45, 61.252, or any sections of Parts 40 and 61 concerning civil airways.

b. Such flights need not comply with the requirements of §§ 60.21, 60.43, 60.47, and 61.171 (c), except to the extent which the Administrator may prescribe.

c. Each pilot in command engaged in those operations shall be qualified for the route, if he is qualified for operations over any regular authorized route for the air carrier involved between the regular terminals for such operations.

d. Each dispatcher who dispatches aircraft on flights authorized by this regulation shall be qualified under § 61.154 of the Civil Air Regulations for operation over an authorized route for the air carrier involved between the regular terminals of such operations: *Provided*, That when he is qualified only on a portion of such route he may dispatch aircraft only after coordinating the dispatch with dispatchers who are qualified for the other portions of the route between the points to be served.

This regulation supersedes Special Civil Air Regulation SR-396A and shall terminate April 1, 1954, unless sooner superseded or rescinded.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 53-10828; Filed, Dec. 29, 1953; 8:55 a. m.]

---

[Civil Air Regs., Amdt. 61-13]

## PART 61—SCHEDULED AIR CARRIER RULES

POSTPONEMENT OF EFFECTIVE DATE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1953.

On April 13, 1953, the Civil Aeronautics Board adopted Civil Air Regulations Amendment 61-11 rescinding Part 61 of the Civil Air Regulations effective October 1, 1953. The purpose of that amendment was to discontinue these operating rules since they had been revised and transferred to revised Part 40, effective October 1, 1953, and no useful purpose would be served by the continued effect of Part 61 after that date. Because of unforeseen delay in the publication of manual material and the issuance of operations specifications, it became necessary to extend the effective date of revised Part 40 to January 1, 1954, and accordingly the rescission of Part 61 was also extended to that date.

It has now become apparent, however, that the delays in publication of manual material and issuance of operations specifications have been longer than anticipated and thus make it extremely doubtful that such materials will be in the hands of the air carriers sufficiently in advance of the January 1, 1954, effective date to enable orderly implementation of revised Part 40 on this date. In view of the foregoing, the Board is postponing the effective date of revised Part 40 to April 1, 1954, and it is thereby necessary that Part 61 be retained in effect until April 1, 1954. This amendment is for the purpose of changing the date of rescission of Part 61 to correspond with the effective date of revised Part 40.

Since the time remaining prior to January 1, 1954, is insufficient to permit normal rule-making procedure and delay beyond that date would operate contrary to the purpose of this amendment, the Board finds that notice and public procedure hereon are impracticable; and since this regulation imposes no additional burden on any person, the amendment may be made effective without prior notice.

The Civil Aeronautics Board hereby changes the effective date of Civil Air Regulations Amendment 61-11 (14 CFR Part 61, as amended) from January 1, 1954, to April 1, 1954.

(Sec. 205; 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604; 52 Stat. 1007, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 53-10826; Filed, Dec. 29, 1953; 8:55 a. m.]

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 24]

## PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.12 *Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.)* is amended between Mullen Pass, Mont., radio range station and the Missoula, Mont., radio range station by deleting the following: "Superior, Mont., radio range station;".

2. Section 600.231 is amended by changing the caption to read: "*Red civil airway No. 31 (Cheyenne, Wyo., to La Crosse, Wis.)*", and by changing the last portion to read: "From the Minneapolis, Minn., radio range station via the Stanton, Minn., nondirectional radio beacon to the La Crosse, Wis., radio range station."

3. Section 600.303 is added to read:

§ 600.303 *Red civil airway No. 103 (Kenai, Alaska, to Middleton Island, Alaska).* From the intersection of the southeast course of the Kenai, Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range to the Middleton Island, Alaska, nondirectional radio beacon.

4. Section 600.306 is added to read:

§ 600.306 *Red civil airway No. 106 (Scottsbluff, Nebr., to North Platte, Nebr.).* From the Scottsbluff, Nebr., radio range station to the intersection of the southeast course of the Scottsbluff, Nebr., radio range and the west course of the North Platte, Nebr., radio range.

5. Section 600.307 is added to read:

§ 600.307 *Red civil airway No. 107 (Stanton, Minn., to Red Wing, Minn.).* From the Stanton, Minn., nondirectional radio beacon to the intersection of the southeast course of the Minneapolis, Minn., radio range and the north course of the Rochester, Minn., radio range.

6. Section 600.638 is amended to read:

§ 600.638 *Blue civil airway No. 38 (Annette Island, Alaska, to United States-Canadian Border).* That airspace over United States territory from the intersection of the south course of the Annette Island, Alaska, radio range and the United States-Canadian Border via the Annette Island, Alaska, radio range station; Petersburg, Alaska, radio range station; the intersection of the northwest course of the Petersburg, Alaska, radio range and the southeast course of the Gustavus, Alaska, radio

range; Gustavus, Alaska, radio range station; Haines, Alaska, nondirectional radio beacon to the Whitehorse, Y. T., radio range station.

7. Section 600.6004 *VOR civil airway No. 4 (Seattle, Wash., to Washington, D. C.)* is amended by changing the last portion to read: "From the Charleston, W. Va., omnirange station via the Elkins, W. Va., omnirange station; Front Royal, Va., omnirange station; Herndon, Va., omnirange station to the point of intersection of the Herndon omnirange 089° True and the Washington, D. C., terminal omnirange 351° True radials."

8. Section 600.6006 is amended by changing the caption to read: "*VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)*", and by changing all after the Youngstown, Ohio, omnirange station to read: "Youngstown, Ohio, omnirange station, including a north alternate; Philipsburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station to the Newark Airport, Newark, N. J., ILS outer marker."

9. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended by changing all after the Selinsgrove, Pa., omnirange station to read: "Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station to the Colts Neck, N. J., omnirange station."

10. Section 600.6016 is amended by changing the caption to read: "*VOR civil airway No. 16 (Los Angeles, Calif., to Salem, Conn.)*", and by adding the last portion to read: "From the Gordonsville, Va., omnirange station via the Gordonsville omnirange 056° True radial to the Andrews, Md., radio range station; a point at latitude 38°51'00" North, longitude 76°30'00" West bearing 062° True from the Andrews, Md., radio range station; Dover, Del., omnirange station via the Dover omnirange 244° True radial. From the Colts Neck, N. J., omnirange station via the intersection of the Colts Neck omnirange 103° True and the Riverhead omnirange 222° True radials; Riverhead, N. Y., omnirange station to the point of intersection of the Riverhead omnirange 042° True and the Hartford, Conn., omnirange 130° True radials."

11. Section 600.6029 is amended by changing the caption to read: "*VOR civil airway No. 29 (Salisbury, Md., to United States-Canadian Border)*", and by changing all before the Allentown, Pa., omnirange station to read: "From the Salisbury, Md., omnirange station via the Dover, Del., omnirange station; West Chester, Pa., omnirange station; Allentown, Pa., omnirange station;".

12. Section 600.6030 is amended by changing the caption to read: "*VOR civil airway No. 30 (Milwaukee, Wis., to New York, N. Y.)*", and by changing all after the Youngstown, Ohio, omnirange station to read: "Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station to the Newark Airport, Newark, N. J., ILS outer marker."

13. Section 600.6033 is amended to read:

§ 600.6033 *VOR civil airway No. 33 (Baltimore, Md., to Buffalo, N. Y.)*. From the Baltimore, Md., omnirange station via the Harrisburg, Pa., omnirange station; Philipsburg, Pa., omnirange station; Bradford, Pa., omnirange station to the Buffalo, N. Y., omnirange station.

14. Section 600.6044 *VOR civil airway No. 44 (Columbus, Ohio, to Baltimore, Md.)* is amended by changing all after the Martinsburg, W. Va., omnirange station to read: "Martinsburg, W. Va., omnirange station; Baltimore, Md., omnirange station to the point of intersection of the Baltimore 100° True and the Dover, Del., omnirange 244° True radials, except that that portion of this civil airway which overlaps the Aberdeen danger area (D–54) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control."

15. Section 600.6046 is added to read:

§ 600.6046 *VOR civil airway No. 46 (New York, N. Y., to Riverhead, N. Y.)*. From the point of intersection of the Riverhead, N. Y., omnirange 262° True and the Wilton, Conn., omnirange 198° True radials to the Riverhead, N. Y., omnirange station.

16. Section 600.6058 *VOR civil airway No. 58 (Pittsburgh, Pa., to Hartford, Conn.)* is amended by changing all after the Wilkes-Barre-Scranton, Pa., omnirange station to read: "Wilkes-Barre-Scranton, Pa., omnirange station; Poughkeepsie, N. Y., omnirange station; Hartford, Conn., omnirange station to the point of intersection of the Hartford omnirange 130° True and the Riverhead, N. Y., omnirange 042° True radials."

17. Section 600.6072 is amended to read:

§ 600.6072 *VOR civil airway No. 72 (Youngstown, Ohio, to Albany, N. Y.)*. From the Youngstown, Ohio, omnirange station via the Bradford, Pa., omnirange station; Elmira, N. Y., omnirange station; Binghamton, N. Y., omnirange station to the Albany, N. Y., omnirange station.

18. Section 600.6091 is amended to read:

§ 600.6091 *VOR civil airway No. 91 (New York, N. Y., to Plattsburg, N. Y.)*. From the point of intersection of the Riverhead, N. Y., omnirange 262° True and the Wilton, Conn., omnigrange 198° True radials via the Wilton, Conn., omnirange station; Poughkeepsie, N. Y., omnirange station; Albany, N. Y. omnirange station to the Plattsburgh, N. Y., omnirange station.

19. Section 600.6116 is amended to read:

§ 600.6116 *VOR civil airway No. 116 (Erie, Pa., to Wilkes-Barre, Pa.)*. From the Erie, Pa., omnirange station via the Bradford, Pa., omnirange station to the Wilkes-Barre-Scranton, Pa., omnirange station.

20. Section 600.6119 is amended to read:

§ 600.6119 *VOR civil airway No. 119 (Parkersburg, W. Va., to Bradford, Pa.)*. From the Parkersburg, W. Va., omnirange station via the Wheeling, W. Va., omnirange station; Pittsburgh, Pa., omnirange station; intersection of the Pittsburgh omnirange 040° True and the Bradford omnirange 210° True radials to the Bradford, Pa., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., January 5, 1953.

[SEAL] F. B. LEE,
*Administrator of Civil Aeronautics.*

[Amdt. 24]

## PART 601—DESIGNATION OF CONTROL AREAS CONTROL ZONES, AND REPORTING POINTS

### ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.102 is amended to read:

§ 601.102 *Amber civil airway No. 2 control areas (Long Beach, Calif., to Umiat, Alaska)*. All of Amber civil airway No. 2 within the continental limits of the United States. From the intersection of the northwest course of the Snag, Yukon Territory, radio range and the United States-Canadian Border to a line extended at right angles through a point 50 miles north of the Bettles, Alaska, radio range station.

2. Section 601.231 is amended to read:

§ 601.231 *Red civil airway No. 31 control areas (Cheyenne, Wyo., to La Crosse, Wis.)*. All of Red civil airway No. 31.

3. Section 601.239 is amended to read:

§ 601.239 *Red civil airway No. 39 control areas (Bethel, Alaska, to Fairbanks, Alaska)*. All of Red civil airway No. 39.

4. Section 601.303 is added to read:

§ 601.303 *Red civil airway No. 103 control areas (Kenai, Alaska, to Middleton Island, Alaska)*. All of Red civil airway No. 103.

5. Section 601.306 is added to read:

§ 601.306 *Red civil airway No. 106 control areas (Scottsbluff, Nebr., to North Platte, Nebr.)*. All of Red civil airway No. 106.

6. Section 601.307 is added to read:

§ 601.307 *Red civil airway No. 107 control areas (Stanton, Minn., to Red Wing, Minn.)*. All of Red civil airway No. 107.

7. Section 601.627 is amended to read:

§ 601.627 *Blue civil airway No. 27 control areas (Kodiak, Alaska, to Kotzebue, Alaska)*. All of Blue civil airway No. 27.

8. Section 601.1032 *Control area extension (Scottsbluff, Nebr.)* is revoked.

9. Section 601.1032 is added to read:

§ 601.1032 *Control area extension (Kotzebue, Alaska)*. Within 5 miles either side of a line bearing 50° True extending from the Kotzebue, Alaska, non-directional radio beacon to a point 25 miles northeast.

10. Section 601.1114 is added to read:

§ 601.1114 *Control area extension (Bettles, Alaska)*. Within 5 miles either side of the southeast course of the Bettles, Alaska, radio range extending from the radio range station to a point 25 miles southeast.

11. Section 601.1400 is amended to read:

§ 601.1400 *Control area extension (King Salmon, Alaska) (King Salmon-Shemya route)*. That airspace within 5 miles either side of a line bearing 263° True from the King Salmon, Alaska, radio range station extending to a point 50 miles west of the King Salmon radio range station.

12. Section 601.1401 is amended to read:

§ 601.1401 *Control area extension (King Salmon, Alaska) (King Salmon-Adak route)*. That airspace within 5 miles either side of a line bearing 248° True from the King Salmon, Alaska, radio range station extending to a point 50 miles southwest of the King Salmon radio range station.

13. Section 601.1984 *Five mile radius zones* is amended by adding the following airports:

Kotzebue, Alaska, Wien Memorial Airport.
Bethel, Alaska, Bethel Airport.
Aniak, Alaska, Aniak Airport.
Bettles, Alaska, Bettles Airport.

14. Section 601.2342 is added to read:

§ 601.2342 *Ardmore, Okla., control zone.* Within a 5-mile radius of Ardmore Air Force Base and within 2 miles either side of the 54° True radial of the Ardmore omnirange extending from the AFB control zone to the omnirange station.

15. Section 601.2343 is added to read:

§ 601.2343 *Pine Bluff, Ark., control zone.* Within a 3-mile radius of Grider Field, within 2 miles either side of a line bearing 177° True extending from the Pine Bluff nondirectional radio beacon to a point 5 miles south, and within 2 miles either side of the 186° True and 006° True radials of the Pine Bluff omnirange extending from Grider Field to a point 5 miles north of the omnirange station.

16. Section 601.4012 *Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.)* is amended by deleting the following reporting point: "Superior, Mont., radio range station;".

17. Section 601.4015 *Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.)* is amended after "Texarkana, Ark., radio range station;" by adding the following reporting point: "Pine Bluff, Ark., nondirectional radio beacon;".

18. Section 601.4102 *Amber civil airway No. 2 (Long Beach, Calif., to Umiat, Alaska)* is amended by adding the following reporting point to present reporting points: "Bettles, Alaska, radio range station."

19. Section 601.4109 *Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.)* is amended by changing name of facility at Myrtle Beach, S. C., from "VHF radio range station" to read: "Myrtle Beach, S. C., nondirectional radio beacon,".

20. Section 601.4231 is amended by changing caption to read: "*Red civil airway No. 31 (Cheyenne, Wyo., to La Crosse, Wis.)*."

21. Section 601.4239 is amended to read:

§ 601.4239 *Red civil airway No. 39 (Bethel, Alaska, to Fairbanks, Alaska)*. Bethel, Alaska, radio range station; Aniak, Alaska, radio range station; Minchumina, Alaska, radio range station; Nenana, Alaska, radio range station.

22. Section 601.4303 is added to read:

§ 601.4303 *Red civil airway No. 103 (Kenai, Alaska, to Middleton Island, Alaska)*. No reporting point designation.

23. Section 601.4306 is added to read:

§ 601.4306 *Red civil airway No. 106 (Scottsbluff, Nebr., to North Platte, Nebr.)*. No reporting point designation.

24. Section 601.4307 is added to read:

§ 601.4307 *Red civil airway No. 107 (Stanton, Minn., to Red Wing, Minn.)*. No reporting point designation.

25. Section 601.4627 *Blue civil airway No. 27 (Kodiak, Alaska, to Kotzebue, Alaska)* is amended by adding the following reporting point: "Kotzebue, Alaska, non-directional radio beacon."

26. Section 601.6006 is amended to read:

§ 601.6006 *VOR civil airway No. 6 control areas (Oakland, Calif., to New York, N. Y.)*. All of VOR civil airway No. 6, including north and south alternates.

27. Section 601.6016 is amended to read:

§ 601.6016 *VOR civil airway No. 16 control areas (Los Angeles, Calif., to Salem, Conn.)*. All of VOR civil airway No. 16, including north and south alternates.

28. Section 601.6029 is amended to read:

§ 601.6029 *VOR civil airway No. 29 control areas (Salisbury, Md., to United States-Canadian Border)*. All of VOR civil airway No. 29.

29. Section 601.6030 is amended to read:

§ 601.6030 *VOR civil airway No. 30 control areas (Milwaukee, Wis., to New York, N. Y.)*. All of VOR civil airway No. 30, including a south alternate.

30. Section 601.6046 is added to read:

§ 601.6046 *VOR civil airway No. 46 control areas (New York, N. Y., to Riverhead, N. Y.)*. All of VOR civil airway No. 46.

31. Section 601.6072 is amended to read:

§ 601.6072 *VOR civil airway No. 72 control areas (Youngstown, Ohio, to Albany, N. Y.)*. All of VOR civil airway No. 72.

32. Section 601.6091 is amended to read:

§ 601.6091 *VOR civil airway No. 91 control areas (New York, N. Y., to Plattsburg, N. Y.)*. All of VOR civil airway No. 91.

33. Section 601.6119 is amended to read:

§ 601.6119 *VOR civil airway No. 119 control areas (Parkersburg, W. Va., to Bradford, Pa.)*. All of VOR civil airway No. 119.

34. Section 601.7001 *Domestic VOR reporting points* is amended by adding the following reporting point: Hoquiam, Wash., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. January 5, 1953.

# TITLE 26—INTERNAL REVENUE

## Chapter II—The Tax Court of the United States

### PART 701—RULES OF PRACTICE

### MISCELLANEOUS AMENDMENTS

1. In § 701.2 *Admission to practice* the first sentence of paragraph (f) is amended by changing the words "second Wednesday in September" to "last Wednesday in October."

2. In § 701.27 *Hearings; calendars; place, time, notice, attendance, continuances*, change "9:30" to "10:00" in line 4, second sentence of paragraph (a) (1).

3. In § 701.35 *Briefs* paragraph (b) *Filing* is amended by adding "(See § 701.19 and § 701.20 re extensions of time.)"

4. In § 701.44 the second sentence of paragraph (a) *How Issued* is amended by adding after "copy" the words ["not the original],". In the same sentence after "form" insert "1" to indicate a footnote. At end of § 701.44 (b), change reference to "(See Appendix I, Form 4.)" At end of § 701.44, add the following footnote:

[1] Counsel is to sign a copy—not the original.

5. In § 701.45 *Depositions* at end of paragraph (a) *Application to take*, change reference to "(See Appendix I, Form 5–A.)" At end of paragraph (h),

change reference to "(See Appendix I, Form 5–re.)" At end of paragraph (i), change reference to "(See Appendix I, Form 5–re.)"

6. In § 701.48 *Commissioners of the Tax Court* amend the first sentence of paragraph (c) by adding after "filing" the words "an original and two copies of."

7. In § 701.53 change headnote of section to "*Court records; removal-fees for copies.*" Add the following as the first paragraph of this section: The Clerk shall not permit any original record, paper, document, or exhibit filed with the Court to be taken from the courtroom or from other offices of the Court, except as ordered by a Judge of the Court, or except as the Clerk may find necessary in furnishing photostat copies of such records or transmitting originals to higher Courts for appeal purposes, but when a decision of the Court becomes final he shall proceed in accordance with § 701.31 (e) (2).

8. In § 701.61 *Computation of time; Saturdays, Sundays, and holidays,* paragraph (b), under the listing of legal holidays, after "Inauguration Day" the statutory reference is changed to "(48 Stat. 879; D. C. Code, 1951, Title 28, sec. 616.)"; in the last sentence, the statutory reference is changed to "(22 Stat. 1; D. C. Code, 1951, Title 28, sec. 616.)".

9a. In § 701.64 *Renegotiation of contracts cases,* the following paragraph headings are added:

(a) *Applicability of other rules to renegotiation cases.*

(b) *Initiation of proceedings in such cases.*

(c) *Claim by respondent for increased amount of excessive profits.*

(d) *Statutory reference.*

b. In § 701.64 (b) (1), after "§ 701.7." add a comma, and the words: "in which the authority making the determination of excessive profits shall be shown as the respondent."

c. Delete subparagraph (2) of paragraph (b) from § 701.64.

d. In first sentence of § 701.64 (a), after "Renegotiation Acts" change the footnote number to "2"; in the second sentence, after "(or to the United States when substituted therefor)", change the footnote number to "3"; at the end of the section, change footnote numbers to "2" and "3".

10. In § 701.65 (b) (2), and at end of section change footnote to "4".

PART 702—FORMS

The Appendix I, Forms, is amended to read as follows:

a. The forms listed below by small letter are not printed forms and are not obtainable from the Court. When preparing pleadings or documents involving such forms, be sure to follow § 701.4 carefully as to form, size, type, and copies of papers required, unless the number of copies is otherwise specified in the pertinent rule.

b. The forms identified below by number are printed forms, which the Court will furnish upon request. Typed copies of these printed forms may be used instead of the printed forms, except for the subpoena form, which latter must be obtained from the Court.

The forms to be found herein are as follows:

a. Petition.
4. Subpoena.
4-re. Proof of service, which appears on the reverse of the subpoena form.
5-A. Application for order to take depositions.
5-re. Certificate on return of depositions.
305. Entry of appearance.
b. Appeal bond, corporate surety.
c. Appeal bond, approved collateral.
d. Bond with corporate surety in renegotiation cases.
e. Bond with approved collateral in renegotiation cases.
f. Power of Attorney and Agreement by Corporation.
g. Power of Attorney and Agreement by Individuals.

c. At the end of the Appendix, the List of cities where hearings are held by the Court, is amended to read as follows:

Alabama:
Birmingham.
Mobile.
Arizona: Phoenix.
Arkansas: Little Rock or Memphis, Tenn.
California:
Los Angeles.
San Francisco.
Colorado: Denver.
District of Columbia: Washington.
Florida:
Jacksonville.
Miami.
Tampa.
Georgia: Atlanta.
Hawaii: Honolulu or Los Angeles, or San Francisco, Calif.
Illinois: Chicago.
Indiana: Indianapolis.
Iowa: Des Moines.
Kentucky: Louisville.
Louisiana: New Orleans.
Massachusetts: Boston.
Michigan: Detroit.
Minnesota: St. Paul.
Missouri:
Kansas City.
St. Louis.
Montana: Helena.
Nebraska: Omaha.
New Jersey: Newark (New York City).
New York:
Buffalo.
New York City.
North Carolina: Greensboro.
Ohio:
Cleveland.
Cincinnati.
Oklahoma: Oklahoma City or Tulsa.
Oregon: Portland.
Pennsylvania:
Philadelphia.
Pittsburgh.
South Carolina: Columbia.
Tennessee:
Memphis.
Nashville.
Texas:
Dallas.
Houston, or Galveston, or San Antonio.
Utah: Salt Lake City.
Washington:
Seattle.
Spokane.
West Virginia: Charleston.
Wisconsin: Milwaukee or Chicago, Ill.

(53 Stat. 160, as amended; 26 U. S. C. 1111)

Dated: December 23, 1953.

By the Court.

JOHN W. KERN,
*Chief Judge,*
*The Tax Court of the United States.*

[F. R. Doc. 53-10717; Filed, Dec. 29, 1953; 8:45 a. m.]

## TITLE 32A—NATIONAL DEFENSE, APPENDIX

### Chapter I—Office of Defense Mobilization

[Defense Mobilization Order V-1, Amdt. 1]

DMO V-1 CREATING AN INTERDEPARTMENTAL MATERIALS ADVISORY COMMITTEE

PROVIDING FOR A REPRESENTATIVE OF THE DEPARTMENT OF LABOR AS A MEMBER

1. Defense Mobilization Order V-1, issued by this Office effective November 13, 1953, creating an Interdepartmental Materials Advisory Committee, is hereby amended under paragraph 1, to provide that a representative of the Department of Labor be included in the membership of the Committee.

2. This order shall take effect immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

[F. R. Doc. 53-10821; Filed, Dec. 29, 1953; 8:54 a. m.]

[Defense Mobilization Order V-1, Supp. 2]

DMO V-1—CREATING AN INTERDEPARTMENTAL MATERIALS ADVISORY COMMITTEE

SUPP. 2—ESTABLISHMENT OF INTERDEPARTMENTAL STOCKPILE STORAGE COMMITTEE

By virtue of the authority vested in me by Executive Order 10480 of August 15, 1953, and Reorganization Plan No. 3 of June 12, 1953, and in order to obtain advice and cooperation which will facilitate the coordination of Federal policies and programs with respect to the supply of materials to meet the requirements for both current defense activities and readiness for any future national emergency, it is hereby ordered:

1. There is hereby established in the Office of Defense Mobilization an Interdepartmental Stockpile Storage Committee. The Assistant Director for Materials, Office of Defense Mobilization, shall designate the Chairman of the committee. Representatives shall be designated by the head of the indicated department or agency:

Department of Defense.
Department of the Interior.
Department of Agriculture.
General Services Administration.

2. The Interdepartmental Stockpile Storage Committee shall be advisory to the Assistant Director for Materials, ODM on problems relating to plans, programs and instructions for the storage, custody, preservation and security of stockpile materials, and other related matters.

3. This order shall become effective immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

[F. R. Doc. 53-10822; Filed, Dec. 29, 1953; 8:54 a. m.]

[Defense Mobilization Order I-5, Amdt. 1]

DMO I-5—POLICY AND AGENCY ASSIGNMENTS FOR MAINTAINING THE MOBILIZATION BASE

PROVIDING FOR A REPRESENTATIVE OF THE DEPARTMENT OF LABOR AS A MEMBER OF THE DEFENSE FACILITIES MAINTENANCE BOARD

1. Paragraph 9 of Defense Mobilization Order I-5 (formerly DMO-24, 18 F. R. 386) effective January 17, 1953, which created an interagency Defense Facilities Maintenance Board, is hereby amended to provide that a representative of the Department of Labor be included in the membership of the Board.

2. This order shall take effect immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

[F. R. Doc. 53-10823; Filed, Dec. 29, 1953; 8:54 a. m.]

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 34—CLASSIFICATION AND RATES OF POSTAGE

PART 43—TREATMENT OF DOMESTIC MAIL MATTER AT RECEIVING POST OFFICES

PART 63—INDEMNITY FOR LOSSES

MISCELLANEOUS AMENDMENTS

1. In § 34.63 *Undeliverable second-class matter* amend subparagraph (2) of paragraph (d) by striking out the words "2 cents" and inserting in lieu thereof the words "3 cents".

The foregoing amendment will become effective February 1, 1954.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 12 (a) (8), 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f)

2. In § 43.12 *Forwarding of mail* (18 F. R. 3969) amend the second sentence of paragraph (g) by striking out the words "two cents" and inserting in lieu thereof "3 cents".

The foregoing amendment will become effective February 1, 1954.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 12 (a) (8), 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f)

3. In § 63.19 *Charge for receipt for ordinary mail* strike out the words "1 cent" and insert in lieu thereof "3 cents".

The foregoing amendment will become effective February 1, 1954.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 46 Stat. 1035; 5 U. S. C. 22, 369, 39 U. S. C. 260a)

[SEAL] LOUIS J. DOYLE,
*Acting Solicitor.*

[F. R. Doc. 53-10796; Filed, Dec. 29, 1953; 8:49 a. m.]

PART 120—OCEAN MAIL SERVICE

COMPENSATION FOR TRANSPORTATION OF FOREIGN MAILS

In § 120.7 *Compensation for transportation of foreign mails,* amend paragraph (c) by the addition of a subparagraph (4) to read as follows:

(4) Payment shall be made for the transportation of United States mails and foreign closed transit mails on steamships of foreign registry and for the transportation of foreign closed transit mails on steamships of United States registry, at the rates specified in the schedule indicated below:

[Cents per pound, net weights]

| Distance conveyed (nautical miles): | *Mails, including parcel post* |
|---|---|
| Up to 300 | 1.8 |
| 300 to 600 | 2.5 |
| 600 to 1,000 | 3.1 |
| 1,000 to 1,500 | 3.6 |
| 1,500 to 2,000 | 4.0 |
| 2,000 to 2,500 | 4.4 |
| 2,500 to 3,000 | 4.7 |
| 3,000 to 3,500 | 5.0 |
| 3,500 to 4,000 | 5.3 |
| 4,000 to 5,000 | 5.6 |
| 5,000 to 6,000 | 6.1 |
| 6,000 to 7,000 | 6.5 |
| 7,000 to 8,000 | 6.8 |
| Over 8,000 | 7.1 |

The foregoing amendment shall be effective January 1, 1954.

(R. S. 161, 396, 398, as amended, 4009, as amended, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 372, 39 U. S. C. 654)

[SEAL] LOUIS J. DOYLE,
*Acting Solicitor.*

## TITLE 50—WILDLIFE

### Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING OF ANIMALS, BIRDS AND GAME FISHES

SEASONS FOR BEAVER

*Basis and purpose.* As a result of fur management investigations it has been determined that an increased number of beaver can be taken within the boundaries of the Koyukuk Fur Management Area in Alaska without endangering the future supply of such animals.

Since the following amendment is a relaxation of existing regulations applicable to the Koyukuk Fur Management Area, notice and public procedure thereon are unnecessary (60 Stat. 237, 238; 5 U. S. C. 1003).

Effective immediately upon publication in the FEDERAL REGISTER the last sentence under § 46.131 *Seasons for beaver,* of the regulations under the Alaska Game Law (57 Stat. 301, 48 U. S. C. 192–211) pertaining to the taking of beaver in Fur Districts 6 and 7 is amended to read as follows:

Limit, 10 a season, except that on the Koyukuk Fur Management Area described in § 164.1 of this chapter the limit shall be 15 a season.

(Sec. 10, 50 Stat. 919; 16 U. S. C. 6691)

Dated: December 23, 1953.

RALPH A. TUDOR,
*Acting Secretary of the Interior.*

[F. R. Doc. 53-10793; Filed, Dec. 29, 1953; 8:49 a. m.]

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

[ 7 CFR Part 51 ]

FRESH PARSNIPS[1]

UNITED STATES CONSUMER STANDARDS

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Consumer Standards for Fresh Parsnips under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with E. E. Conklin, Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t. on the thirtieth day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

GRADES

Sec.
51.2310 U. S. Grade A.
51.2311 U. S. Grade B.

OFF-GRADE

51.2312 Off-grade.

DEFINITIONS

51.2313 Similar varietal characteristics.
51.2314 Firm.
51.2315 Clean.
51.2316 Well trimmed.
51.2317 Fairly well formed.
51.2318 Fairly smooth.
51.2319 Damage.
51.2320 Diameter.
51.2321 Badly deformed.
51.2322 Slightly rough.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

GRADES

§ 51.2310 *U. S. Grade A.* U. S. Grade A consists of parsnips of similar varietal characteristics which are firm, clean, well trimmed, fairly well formed, fairly smooth; which are free from soft rot, and from damage caused by freezing, growth cracks, discoloration, pithiness, woodiness, sunburn, oil spray, dry rot, other disease, insects or mechanical or other means. Parsnips on the shown face shall be reasonably representative in size and quality of the contents of the container.

(a) Unless otherwise specified, the diameter of each parsnip shall be not less than 1 inch and not more than 2¼ inches.

(b) Incident to proper grading and handling the following tolerances, by count, shall be permitted in any lot:

(1) 5 percent for parsnips which are smaller than the specified minimum diameter;

(2) 5 percent for parsnips which are larger than the specified maximum diameter; and,

(3) 5 percent for parsnips which fail to meet the remaining requirements of the grade, including therein not more than one-half of 1 percent for parsnips affected by soft rot.

§ 51.2311 *U. S. Grade B.* U. S. Grade B consists of parsnips of similar varietal characteristics which are firm, clean, well trimmed, not badly deformed and not more than slightly rough; which are free from soft rot, and free from damage caused by freezing, growth cracks, discoloration, pithiness, woodiness, sunburn, oil spray, dry rot, other disease, insects or mechanical or other means. Parsnips on the shown face shall be reasonably representative in size and quality of the contents of the container.

(a) Unless otherwise specified, the diameter of each parsnip shall be not less than 1 inch and not more than 2¼ inches.

(b) Incident to proper grading and handling the following tolerances, by count, shall be permitted in any lot:

(1) 5 percent for parsnips which are smaller than the specified minimum diameter;

(2) 5 percent for parsnips which are larger than the specified maximum diameter; and,

(3) 10 percent for parsnips which fail to meet the remaining requirements of the grade, including therein not more than one-half of 1 percent for parsnips affected by soft rot.

OFF-GRADE

§ 51.2312 *Off-grade.* Off-grade consists of parsnips which fail to meet the requirements of the foregoing grades.

DEFINITIONS

§ 51.2313 *Similar varietal characteristics.* "Similar varietal characteristics" means that the parsnips in the lot are of the same general type.

§ 51.2314 *Firm.* "Firm" means that the root is not soft, flabby or shriveled.

§ 51.2315 *Clean.* "Clean" means that the individual parsnip is practically free from stain, dirt, and other foreign material.

§ 51.2316 *Well trimmed.* "Well trimmed" means that the tops shall be cut back to not more than 1 inch in length. Roots may be clipped, if they are neatly cut off and the appearance is not materially affected by the removal of an excessive amount.

§ 51.2317 *Fairly well formed.* "Fairly well formed" means that the root is not forked or so misshapen as to materially affect its appearance or cause a loss of more than 3 percent, by weight, in the ordinary preparation for use.

§ 51.2318 *Fairly smooth.* "Fairly smooth" means that the root is not rough, ridged or covered with secondary rootlets to an extent which materially affects its appearance or causes a loss of more than 3 percent, by weight, in the ordinary preparation for use.

§ 51.2319 *Damage.* "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the individual parsnip or parsnips in the lot, or causes a loss of more than 3 percent, by weight, in the ordinary preparation for use. Any one of the following defects or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(a) Growth cracks when deep or rough, or when appearance of the parsnip is materially affected;

(b) Discoloration when materially affecting the appearance of the root or when it causes a loss of more than 3 percent, by weight, in the ordinary preparation for use; and,

(c) Sunburn when causing a loss of more than 3 percent, by weight, in the ordinary preparation for use, except that superficial light green color at the stem end which does not materially affect the appearance of the root shall be permitted.

§ 51.2320 *Diameter.* "Diameter" means the greatest dimension of the root measured at right angles to the longitudinal axis.

§ 51.2321 *Badly deformed.* "Badly deformed" means that the parsnip root is so forked or badly misshapen as to seriously affect the appearance or cause a loss of more than 5 percent, by weight, in the ordinary preparation for use.

§ 51.2322 *Slightly rough.* "Slightly rough" means that the parsnip root is not rough, ridged or covered with secondary rootlets to an extent which seriously affects its appearance or causes a loss of more than 5 percent, by weight, in the ordinary preparation for use.

Done at Washington, D. C., this 23d day of December 1953.

[SEAL] GEORGE A. WISE,
*Acting Assistant Administrator, Production and Marketing Administration.*

## [ 7 CFR Part 930 ]

[Docket No. AO-72-A18]

HANDLING OF MILK IN TOLEDO, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Toledo, Ohio, on July 30 and 31, 1953, pursuant to notice thereof which was issued on July 20, 1953 (18 F. R. 4311).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on November 16, 1953, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on November 19, 1953 (18 F. R. 7319).

The material issues and the findings and conclusions of the recommended decision (18 F. R. 7319; F. R. Doc. 53-9753) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein subject to the following revision:

1. In column 3, page 7320, insert, following the partial paragraph at the top of the column, the following:

Exceptions were filed asserting that the evidence of record did not justify any increase in the Class I price differentials. Such exceptions failed to recognize that the increased supplies in the market would result in lower amounts being added to the stated Class I price differentials by the supply-demand adjustment than were added in period October 1951 through February 1952. They also asserted that supplies were adequate, whereas official notice is taken of the fact that Class I and Class II sales have exceeded total receipts from the regularly inspected producers in September and October. A third factor overlooked by these exceptions is that the increase in the stated portion of the Class I differentials will not have any net effect until August 1954, since any increase which might become effective in January 1954 would be more than offset by the changes in the seasonal pattern of prices which reduce the stated Class I differentials for February and April 1954 by 20 cents and 25 cents per hundredweight, respectively.

*Rulings.* Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

*Determination of representative period.* The month of October 1953, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of amendments to the order regulating the handling of milk in the Toledo, Ohio, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

*Marketing agreement and order.* Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Toledo, Ohio, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Toledo, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure as amended, governing procedures to formulate marketing agreements and orders have been met.

*It is hereby ordered.* That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of December 1953.

[SEAL] JOHN H. DAVIS,
*Assistant Secretary of Agriculture.*

*Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Toledo, Ohio, Marketing Area*

§ 930.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Toledo, Ohio, on July 30 and 31, 1953, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

*Order relative to handling.* It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Toledo, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as set forth below:

The provisions of the *"Recommended marketing agreement and amendments to the order"* contained in the recommended decision issued by the Assistant Administrator, Production and Marketing Administration on November 16, 1953 and published in the FEDERAL REGISTER on November 19, 1953 (18 F. R. 7319; F. R. Doc. 53-9753) shall be and are the terms and provisions of this order as if set forth in full herein, except for the following modification described with respect to such FEDERAL REGISTER document:

1. On page 7322, column 3, change the paragraph numbered 5 to read as follows:

5. In § 930.45 delete from paragraphs (a) and (d) the phrase "Class III milk" and substitute therefor the phrase "Class II milk"; and in paragraph (a) change the reference to "§ 930.41 (c) (2)" to read "§ 930.41 (b) (2)".

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[F. R. Doc. 53-10808; Filed, Dec. 29, 1953; 8:52 a. m.]

## [ 7 CFR Part 936 ]

HANDLING OF FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

CHANGES IN REPRESENTATION OF CERTAIN DISTRICTS ON PLUM COMMODITY COMMITTEE

Notice is hereby given that the Department is considering the proposed amendment, as hereinafter set forth, of the rules and regulations (7 CFR 936.100 et seq.: Subpart—Rules and Regulations; 18 F. R. 712, 2839) currently in effect pursuant to the amended marketing agreement and Order No. 36 (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

All persons who desire to submit written data, views, or arguments for consideration in connection with such proposed amendment should do so by forwarding the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the tenth day after the publication of this notice in the FEDERAL REGISTER.

The proposed amendment of the rules and regulations has been recommended by the Control Committee—the agency established under the amended marketing agreement and order to administer the provisions thereof—and would reapportion, as authorized in § 936.33 (k), the representation on the Plum Commodity Committee.

The proposed amendment is as follows:

Amend the provisions of § 936.118 to read:

§ 936.118 *Changes in the representation of certain districts on Plum Commodity Committee.* The representation or membership on the Plum Commodity Committee is changed to provide for:

(a) Three (3) members to represent the area included in the Fresno District and Tulare District;

(b) One (1) member to represent the area included in the Kern District and Southern California District;

(c) Two (2) members to represent the area included in the Placer District and Colfax District; and

(d) One (1) member to represent all of the territory in California not included in the foregoing districts.

Issued this 23d day of December 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

[F. R. Doc. 53-10805; Filed, Dec. 29, 1953; 8:51 a. m.]

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Reclamation

[No. 62]

HEART MOUNTAIN DIVISION, SHOSHONE PROJECT, WYOMING

PUBLIC NOTICE OF ANNUAL RENTAL CHARGES

DECEMBER 16, 1953.

1. *Water rental.* The minimum water rental charge for lands of the Heart Mountain Division for the irrigation season of 1954 and thereafter, until further notice, will be $2.50 per irrigable acre, whether water is used or not, except that such minimum charge need not be paid in any year for any acreage which the Shoshone Project Superintendent certifies is temporarily non-irrigable during the year due to seepage or land subsidence. Payment of such minimum charge will entitle each water user to such amount of water per acre as may beneficially be used by him, such amounts being based on water-holding capacity soil groups and topography. Determination of the total amount of water allowable under the minimum charge payment will be made by the Shoshone Project Superintendent, whose decision will be final, in accordance with tables of water requirements for particular soil and topographic land factors. Such tables will be compiled by the Bureau of Reclamation and will be on file and available for inspection at the office of the Shoshone Project Superintendent. Water in addition to the determined requirements, if available, will be furnished during each irrigation season at the rate of $1.25 per acre-foot for the first acre-foot of water per acre, and for $1.50 per acre-foot for the second and succeeding acre-foot of water per acre.

2. *Time of payment.* The minimum charge for water to be delivered for each irrigation season will be due and payable on the April 1 preceding that season. Charges for water delivered in excess of the minimum for each irrigation season will be due and payable by the following January 1. No water will be delivered to a water user until all charges have been paid in full.

3. *Discounts and penalties.* If payment of minimum charge is made on or before the March 1 preceding the irrigation season, a discount of 5 per cent of such charges will be allowed. To any payment of the charges made after April 1 of each year, there will be added a penalty of one-half of one per cent of the unpaid amount for each month or fraction thereof after April 1, so long as such default continues, and no water will be delivered until all charges and penalties have been paid in full.

4. *Place of payment.* All charges will be paid at the office of the Bureau of Reclamation, P. O. Box 822, Powell, Wyoming.

5. *Public Notices Nos. 53, 55, and 58 supplemented.* This notice supplements sub-paragraphs 5a (1) and (2) of Public Notices Nos. 53, 55, and sub-paragraph 24 (b) of Public Notice No. 58, Shoshone Project, Wyoming.

F. W. JONES,
*Acting Regional Director.*

---

[Commissioner's Order 26]

REGIONAL OFFICE OFFICIALS ET AL.

REDELEGATIONS OF AUTHORITY

DECEMBER 14, 1953.

SECTION 1. *Regional Office officials.* Effective immediately, authorities heretofore redelegated by the Commissioner to Regional Office officials under the plan of organization then in effect may be exercised by Regional Office officials responsible under the revised plan of organization now in effect for the functions to which the redelegations heretofore made are applicable.

SEC. 2. *Project officials.* Effective immediately, authorities heretofore redelegated by the Commissioner to District Managers and to subordinate District officials may be exercised respectively by the heads of Project or Centralized Project Offices and by subordinate Project or Centralized Project officials responsible for the functions to which the redelegations heretofore made are applicable.

SEC. 3. *Redelegation.* Effective immediately, Regional Directors may exercise the powers of redelegation within the revised plan of organization which were heretofore granted to them under former plan of organization, provided that the officials to whom authority is redelegated by Regional Directors pursuant to this section shall be those responsible for the functions to which the redelegations heretofore made are applicable.

SEC. 4. *Reservation.* Nothing in this order affects delegations made by the Department direct to subordinate officials of the Bureau.

H. F. MCPHAIL,
*Acting Commissioner.*

### Office of the Secretary

HAMPTON NATIONAL HISTORIC SITE, BALTIMORE COUNTY, MD.

ORDER ADDING CERTAIN LANDS

Whereas, the following parcel of land adjoining Hampton National Historic Site in the Ninth Election District of Baltimore County, State of Maryland, has been purchased by the United States as an addition to, and for use in administering, developing, protecting and interpreting, the said National Historic Site:

Now, therefore, by virtue of and pursuant to the authority contained in the act of August 21, 1935 (49 Stat. 666, 16 U. S. C., 1946 ed., secs. 461, et seq.), the following described land is hereby added to and made a part of the Hampton National Historic Site:

All that parcel of land situate in the Ninth Election District of Baltimore County, in the State of Maryland, and which, according to a survey dated January 27, 1953, prepared by Dollenberg Brothers, Surveyors, is found to be within the following metes, bounds, courses and distances, to wit:

Beginning for the same at a point in the center of a 50-foot road heretofore laid out, and at the beginning of the thirteenth or N. 71° 56' W., 176.45 feet line of a parcel of land which by a deed dated January 23, 1942, and recorded among the Land Records of Baltimore County in Liber J. W. B. No. 1618, folio 391, was conveyed by John Ridgely Jr., and wife to the United States of America and running thence with and binding on the thirteenth and fourteenth lines of said parcel of land, as the courses are referred to in the true meridian, the two following courses and distances, viz: N. 71° 56' W., 176.45 feet and N. 4° 27' E., 393.25 feet to the south side of Hampton Lane, heretofore laid out 50 feet wide, thence binding on the south side of said Lane as now extended, with the right and use thereof in common with others entitled thereto, N. 76° 0' E., 250.87 feet to the center of the first herein mentioned 50-foot road, as now extended, and thence binding in the center of said 50-foot road, with the right and use thereof in common with others entitled thereto, S. 11° 49' W., 518.50 feet to the place of beginning.

Containing 2.118 acres of land, more or less.

The administration, protection, and development of the land hereinabove described as a part of the said National Historic Site shall be exercised in accordance with the provisions of the act of August 21, 1935, supra.

Warning is expressly given to all unauthorized persons not to appropriate, injure, destroy, deface, or remove any feature of this addition to said Site.

In witness whereof, I have hereunto set my hand and caused the official seal of the Department of the Interior to be affixed, in the city of Washington, this 23d day of December 1953.

[SEAL] FRED G. AANDAHL,
*Assistant Secretary of the Interior.*

[Docket Nos. 10642, 10643]

WCAX BROADCASTING CORP. AND COLONIAL TELEVISION, INC.

ORDER SCHEDULING ORAL ARGUMENT

In re applications of WCAX Broadcasting Corporation, Montpelier, Vermont, Docket No. 10642, File No. BPCT-1327; Colonial Television, Inc., Montpelier, Vermont, Docket No. 10643, File No. BPCT-1557; for commercial television construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of December 1953;

The Commission having under consideration a pleading filed on October 22, 1953, by Colonial Television, Inc., seeking (a) the Commission's reversal of the Hearing Examiner's Order denying its Petitions to Amend, and (b) a request for oral argument on its exceptions to the Initial Decision;

It appearing, that Colonial Television, Inc., and WCAX were competing applicants for mutually exclusive television facilities on Channel 3, allocated to Montpelier, Vermont, and that the Commission by Memorandum Opinion and Order, issued July 1, 1953, moved both applications to the top of the A-2 processing line, upon request of the applicants; and

It further appearing, that, on July 6, 1953, the Commission addressed letters to the applicants pursuant to section 309 (b) of the Communications Act of 1934, as amended, informing the applicants that for reasons set forth therein their applications would be designated for hearing, and requesting replies within 30 days, and that WCAX, within that time, amended its application, but that no reply was received from Colonial Television, and, that, on August 14, 1953, the Commission designated both applications for consolidated hearing to commence on September 11, 1953, and, that on August 20, 1953, Colonial Television, Inc., filed a motion for continuance of the hearing until October 26, 1953, for the purpose of permitting time to amend its application with respect to its transmitter site; and

It further appearing, that the Examiner in his Memorandum Opinion and Order of August 25, 1953, on consideration of the arguments advanced by Colonial Television, Inc., granted a continuance until September 15, 1953, but denied the requested continuance for the reason that "good cause" within the meaning of § 1.811 of the Commission's rules had not been shown, and that Colonial appealed the Examiner's decision, but that the Commission in its order of September 10, 1953, denied the appeal; and

It further appearing, that on September 14, 1953, Colonial filed a petition for leave to amend which WCAX opposed, and that the Examiner on September 15, 1953,[1] denied Colonial's petition for the reason that the amendment reflected substantial changes from the original application with respect to such matters as cost of construction, programming, hours of operation, visual power, and site, and that the petition was not supported by a showing of "good cause" for late filing within the meaning of § 1.365 of the Commission's rules; and

It further appearing, that the Examiner on September 18, 1953, held Colonial Television, Inc., in default for the reason that Colonial at the hearing had announced it proposed to make a showing only with respect to its amended proposal and not in support of its original application; and

It further appearing, that the Examiner on October 2, 1953, released his Initial Decision looking toward a grant of the application of WCAX Broadcasting Co. and the default of the Colonial Television, Inc., application; and

It further appearing, that Colonial Television, Inc., in the instant appeal from the Examiner's order denying its petition to amend, argues that "good cause" for late filing of its amendment was demonstrated by (1) the illness of Colonial's consulting engineer, resulting in the amendment not having been prepared at an earlier date; (2) the lack of familiarity of Colonial's legal counsel with respect to the Commission's new expedited hearing procedure; (3) the fact that the Commission and all parties were advised well in advance that Colonial intended to file a substantial amendment; (4) the fact that no appreciable delay would have resulted from accepting the amendments; and (5) the fact that the Commission would have been given a choice between applicants; and

It further appearing, that Colonial in its pleading of October 22, 1953, has also filed numerous exceptions to the Examiner's Initial Decision and has requested oral argument thereon, and that WCAX has filed a reply and that the Broadcast Bureau has filed notice that it intends to appear and participate in oral argument although it has filed no pleading on the merits of Colonial's exceptions; and

It further appearing, that an examination of both the instant appeal from the Examiner's order denying petition to amend and the Exceptions to the Initial Decision filed by Colonial Television, Inc., reveals that each in all pertinent respects concern the same legal and factual issues, and that the public interest would be served by hearing argument on both matters simultaneously;

*It is ordered*, That oral argument on both the above-entitled appeal and exceptions to the Initial Decision filed by Colonial Television, Inc., is scheduled for January 11, 1954, at 10:00 a. m., at the offices of the Commission in Washington, D. C.

Released: December 22, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[Docket No. 10806]

SPENTONBUSH FUEL TRANSPORTATION SERVICE, INC.

ORDER TO SHOW CAUSE

In the matter of Spentonbush Fuel Transportation Service, Inc., New York, New York, Docket No. 10806; order to show cause why the license for Radiotelephone Station WC–6204 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WC–6204 licensed to Spentonbush Fuel Transportation Service, Inc., aboard the "Tug Chemung";

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated July 21, 1953, specifying that at 1031 GMT, on April 21, 1953, the operator aboard the "Tug Chemung", while engaged in radiocommunication on 2198 kc with the New York Marine Operator, failed to properly identify his radio station by transmitting the call sign WC–6204 as required by § 8.364 (a) of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Spentonbush Fuel Transportation Service, Inc. show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 1st day of March 1954;

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Spentonbush Fuel Transportation Service, Inc., 500 Fifth Avenue, New York, New York.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[Docket No. 10807]

JOSEPH F. ALLEN AND JOHN W. NELSON

ORDER TO SHOW CAUSE

In the matter of Joseph F. Allen & John W. Nelson, Aransas Pass, Texas, Docket No. 10807; order to show cause why the license for Radiotelephone Station WB–3767 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WB–3767 licensed to Joseph F. Allen & John W. Nelson aboard the vessel "V. E. Day";

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notices dated April 10, 1953, and June 10, 1953, specifying that at 1030 GMT on April 6, 1953, and at 1541 GMT on June 5, 1953, respectively, the transmitter of radio station WB–3767 radiated a strong second harmonic which was a source of interference to the aeronautical service on 5276 kc and a violation of § 8.108 of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notices of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Joseph F. Allen and John W. Nelson show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 1st day of March 1954;

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Joseph F. Allen and John W. Nelson, c/o Texas Fisherman's Co-op., Aransas Pass, Texas.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10764; Filed, Dec. 29, 1953; 8:46 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the Order to Show Cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an Order of Revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the Order to Show Cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the Order to Show Cause.

[Docket No. 10808]

JAMES DEPOLO

ORDER TO SHOW CAUSE

In the matter of James DePolo, Tacoma, Washington, Docket No. 10808; Order to show cause why the license for Radiotelephone Station WA–6405 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WA–6405 licensed to James DePolo aboard the vessel "Jimmie Boy";

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated July 13, 1953, specifying that at 2049 GMT, on May 25, 1953, the transmitter of radio station WA–6405 radiated a strong second harmonic causing interference to the aeronautical service on 5276 kc, in violation of § 8.108 of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said James DePolo show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 2d day of March 1954;

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said James DePolo, 2120 North 29th Street, Tacoma, Washington.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING
*Acting Secretary.*

[F. R. Doc. 53-10765; Filed, Dec. 29, 1953; 8:46 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the Order to Show Cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an Order of Revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the Order to Show Cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the Order to Show Cause.

[Docket No. 10809]

WILLIAM TEAF SAVAGE

ORDER TO SHOW CAUSE

In the matter of William Teaf Savage, Chincoteague, Virginia, Docket No. 10809; order to show cause why the license for Radiotelephone Station WD–2457 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WD–2457 licensed to William Teaf Savage aboard the vessel "Peggy";

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated September 2, 1952, specifying that

(1) On August 28, 1952, radio operator's license was not posted aboard the vessel "Peggy" in violation of § 8.156 of the Commission's rules.

(2) On August 28, 1952, a copy of Part 8 of the Rules Governing the Ship Service was not aboard the vessel "Peggy" in violation of § 8.367 (a) (vi) of the Commission's rules.

(3) On August 28, 1952, there was no radio station log aboard the vessel "Peggy" in violation of § 8.368 (c) of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said William Teaf Savage show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 2d day of March 1954;

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said William Teaf Savage, Chincoteague, Virginia.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 10810]

GEORGE R. GODFREY

ORDER TO SHOW CAUSE

In the matter of George R. Godfrey, Aransas Pass, Texas, Docket No. 10810; order to show cause why the license for Radiotelephone Station WB–5051 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WB–5051 licensed to George R. Godfrey aboard the vessel "D. B.";

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated April 24, 1953, specifying that at 1629 GMT, on April 22, 1953, the operator aboard the vessel "D. B.", while engaged in radiocommunication with the vessel "Hustler", failed to properly identify his radio station by transmitting the call sign WB–5051 as required by § 8.364 (a) of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said George R. Godfrey show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 3d day of March 1954;

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said George R. Godfrey, Aransas Pass, Texas.

Released: December 21, 1953.

[Docket No. 10811]

SEA FRESH CORP.

ORDER TO SHOW CAUSE

In the matter of Sea Fresh Corporation, Boston, Massachusetts, Docket No. 10811; order to show cause why the license for Radiotelephone Station WA–7893 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WA–7893 licensed to Sea Fresh Corporation aboard the vessel "Mary and Julia".

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated August 11, 1953, specifying that at 1326 GMT, on May 2, 1953, the operator aboard the vessel "Mary and Julia", while engaged in radio communication, failed to properly identify his radio station by transmitting the call sign WA–7893 as required by § 8.364 (a) of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance

with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Sea Fresh Corporation show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 3d day of March, 1954.

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Sea Fresh Corporation, 5 Commercial Wharf, Boston, Massachusetts.

Released: December 21, 1953.

[Docket No. 10812]

EDGAR W. PEEL

ORDER TO SHOW CAUSE

In the matter of Edgar W. Peel, Vallejo, California, Docket No. 10812; order to show cause why the license for Radiotelephone Station WE–7412 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WE–7412 licensed to Edgar W. Peel aboard the vessel "Wasp".

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated July 13, 1953, specifying that at 1455 GMT, on June 9, 1953, the transmitter of radio station WE–7412 radiated a strong second harmonic causing interference to the aeronautical service on 5276 kc in violation of § 8.108 of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Edgar W. Peel show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 4th day of March 1954.

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Edgar W. Peel, 524 Wallace Avenue, Vallejo, California.

Released: December 21, 1953.

[Docket No. 10813]

JAMES R. BUNDESEN

ORDER TO SHOW CAUSE

In the matter of James R. Bundesen, Pittsburg, California, Docket No. 10813; order to show cause why the license for Radiotelephone Station WB–6303 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Sttaion WB–6303 licensed to James R. Bundesen aboard the vessel "Electra".

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated July 22, 1953, specifying that at 1722 GMT, on June 12, 1953, the transmitter of radio station WB–6303 radiated a strong second harmonic causing interference to the aeronautical service on 5276 kc in violation of § 8.108 of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said James R. Bundesen show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 4th day of March 1954.

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said James R. Bundesen, 763 Central Avenue, Pittsburg, California.

Released: December 21, 1953.

[Docket No. 10814]

ARNOLD N. ENNIS

ORDER TO SHOW CAUSE

In the matter of Arnold N. Ennis, Astoria, Oregon, Docket No. 10814; order to show cause why the license for Radiotelephone Station WD–6780 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WD–6780 licensed to Arnold N. Ennis aboard the vessel "Gladys E".

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated July 22, 1953, specifying that at 2135 GMT, on June 12, 1953, the transmitter of radio station WD–6780 radiated a strong second harmonic causing interference to the aeronautical service on 5276 kc in violation of § 8.108 of the Commission's rules.

It further appearing, that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Arnold N. Ennis show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 5th day of March 1954.

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested, to the said Arnold N. Ennis, Route #1, Box 411, Astoria, Oregon.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 10815]

DON JACOBSEN

ORDER TO SHOW CAUSE

In the matter of Don Jacobsen, San Diego, California, Docket No. 10815, order to show cause why the license for Radiotelephone Station WA–5646 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WA–5646 licensed to Don Jacobsen aboard the vessel "Harold J".

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated July 22, 1953, specifying that at 1927 GMT, on June 12, 1953, the transmitter of radio station WA–5646 radiated a strong second harmonic causing interference to the aeronautical service on 5276 kc in violation of § 8.108 of the Commission's rules.

(b) At 1927 GMT, on June 12, 1953, operator aboard the vessel "Harold J", while engaged in radio communication, failed to properly identify his radio station by transmitting the call sign WA–5646 as required by § 8.364 of the Commission's rules.

It further appearing, that despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

*It is ordered*, This 18th day of December 1953, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Don Jacobsen show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 5th of March 1954.

*It is further ordered*, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Don Jacobsen, 4533 Cape May Street, San Diego, California.

Released: December 21, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10772; Filed, Dec. 29, 1953; 8:47 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the Order to Show Cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an Order of Revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the Order to Show Cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the Order to Show Cause.

## FEDERAL POWER COMMISSION

[Docket Nos. 6530, 6533]

LAKE SUPERIOR DISTRICT POWER CO. ET AL.

NOTICE OF ORDERS AUTHORIZING MERGER OR CONSOLIDATION OF FACILITIES

DECEMBER 23, 1953.

In the matters of Lake Superior District Power Company, Docket No. E–6530; Wisconsin Public Service Corporation, Menominee and Marinette Light and Traction Company, Docket No. E–6533.

Notice is hereby given that on December 17, 1953, the Federal power Commission issued its orders adopted December 16, 1953, authorizing mergers or consolidations of facilities in the above-entitled matters.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

[F. R. Doc. 53-10815; Filed, Dec. 29, 1953; 8:53 a. m.]

---

[Docket No. E 6531]

OHIO EDISON CO.

NOTICE OF ORDER AUTHORIZING ACQUISITION AND MERGER OR CONSOLIDATION OF FACILITIES

DECEMBER 23, 1953.

Notice is hereby given that on December 21, 1953, the Federal Power Commission issued its order adopted December 16, 1953, authorizing acquisition and merger or consolidation of facilities in the above-entitled matter.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

[Docket Nos. G–2035, G–2040, G–2048, G–2049, G–2050, G–2073, G–2091, G–2301]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER POSTPONING DATE OF HEARING

In the matters of Panhandle Eastern Pipe Line Company, and Panhandle Eastern Pipe Line Company, Southeastern Michigan Gas Company, Citizens Gas Fuel Company, Citizens Gas Company, Michigan Gas Utilities Company; Docket Nos. G–2035, G–2040, G–2048, G–2049, G–2050, G–2073, G–2301, Docket No. G–2091.

By its order issued November 5, 1953, the Commission fixed a date for hearing in these matters for January 5, 1954. Among the issues to be considered in these proceedings is the interpretation of and possible changes in Panhandle Eastern Pipe Line Company's (Panhandle) interruptible rate schedules.

On December 16, 1953, Panhandle filed a notice of cancellation of its interruptible rate schedules. Letters requesting comment from Panhandle's customers on the proposed cancellation were sent out by the Secretary on December 18, 1953.

It appears that in order to permit Panhandle's customers and the Commission time in which to examine Panhandle's proposed cancellation of its interruptible rate schedules in the light of these proceedings the date of hearing should be postponed.

The Commission finds: Good cause exists to postpone the date of hearing in these matters from January 5, 1954.

The Commission orders: Hearings in these matters be and the same hereby are postponed to a date to be further fixed by the Commission.

Adopted: December 22, 1953.

Issued: December 23, 1953.

By the Commission.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

[Docket No. G–2217]

NORTHERN NATURAL GAS CO.

ORDER FIXING DATE FOR RECONVENING OF HEARING

Hearings in this matter were held on October 26, 27, and 28, 1953, and then recessed to December 7, 1953. On the last mentioned date, upon motion of Commission Staff Counsel, the hearings were further postponed to a date to be thereafter fixed by order of the Commission.

The Commission orders: The public hearing heretofore ordered to be held in this matter be reconvened at 10:00 o'clock a. m. on January 18, 1954, in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

Adopted: December 22, 1953.

Issued: December 23, 1953.

By the Commission.

[Docket No. G-2313]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

DECEMBER 23, 1953.

Take notice that Texas Eastern Transmission Corporation (Applicant), a Delaware corporation having its principal place of business in Shreveport, Louisiana, filed on November 12, 1953, an application pursuant to section 7 (b) of the Natural Gas Act for an order authorizing the abandonment of certain facilities as hereinafter described.

The application recites that:

Within 30 days after permission and approval are granted herein by the Federal Power Commission, Applicant proposes to begin the dismantling and removal of the second 24" pipeline across the Arkansas River, suspended from the Chicago, Rock Island and Pacific Railroad Company bridge, authorized by the Federal Power Commission in Docket G-1439, together with the approaches thereto on the north and south banks, but retaining so much of the approaches authorized in Docket G-1439 as have been used and connected to the river crossing facilities authorized in Dockets G-1960 and G-2027.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of January 1954. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

---

[Docket No. G-2318]

LATERAL GAS PIPELINE CO.

NOTICE OF APPLICATION

DECEMBER 23, 1953.

Take notice that the Lateral Gas Pipeline Company (Applicant), an Iowa corporation with its principal place of business in Cedar Rapids, Iowa, filed on November 24, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a 4½-inch O. D. natural gas transmission pipeline approximately 27 miles in length, extending from the pipeline of the Natural Gas Pipeline Company of America (Natural) at a point approximately 2 miles southwest of the Town of Grant, Iowa, to the City of Clarinda, Iowa, and also two town border stations: one at or near the west corporate limits of Villisca, Iowa, and the other at or near the north corporate limits of Clarinda, Iowa.

Applicant estimates the cost of facilities at $267,200. It is proposed to finance such facilities by the issuance of common stock in the amount of $300,000.

The facilities above described will be utilized for the transportation of natural gas for the account of Iowa Electric Light and Power Company (Iowa Electric) for ultimate distribution in the Cities of Villisca and Clarinda, Iowa. Iowa Electric proposes to obtain its natural gas supply from Natural in the volume of 1,737 Mcf per day under a companion application, Docket No. G-2320, filed pursuant to section 7 (a) of the Natural Gas Act.

The application recites that Applicant will receive, if its proposed tariff is accepted by the Commission, annual transportation revenue of $47,987, pursuant to its contract with Iowa Electric dated November 14, 1953.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of January 1954. The application is on file with the Commission for public inspection.

[Docket No. G-2320]

IOWA ELECTRIC LIGHT AND POWER CO.

NOTICE OF APPLICATION

DECEMBER 23, 1953.

Take notice that Iowa Electric Light and Power Company (Applicant), an Iowa corporation having its principal place of business in Cedar Rapids, Iowa, filed on November 25, 1953, an application pursuant to section 7 (a) of the Natural Gas Act for an order directing the Natural Gas Pipeline Company of America to sell and deliver to Applicant a daily contract quantity of 1,737 Mcf of natural gas for ultimate distribution in the communities of Villisca and Clarinda, Iowa.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of January 1954. The application is on file with the Commission for public inspection.

[Docket No. G-2322]

LONE STAR GAS CO.

NOTICE OF APPLICATION

DECEMBER 23, 1953.

Take notice that on December 2, 1953, Lone Star Gas Company (Applicant), a Texas corporation having its office and principal place of business at Dallas, Texas, filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing construction and operation of 3.43 miles of 3½-inch O. D. transmission pipe line to extend the intersection of its Line G 3–4 with its Line G 3 in a northerly direction to Phillips Petroleum Company's Muenster repressuring station, all of said facilities being located in Cooke County, Texas.

Applicant states that Phillips Petroleum Company wishes to increase its purchases of gas for use at said repressuring station, and that the existing 2-inch line from which deliveries are now made to the station is inadequate. Capacity of the proposed line will be 1,310 Mcf per day, and Phillips Petroleum Company desires to purchase a maximum of 920 Mcf per day. Cost of the necessary facilities is estimated to be $26,286, to be defrayed from Applicant's funds on hand.

Applicant requests that its application be heard under the shortened procedure provided by the Commission's rules. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of January 1954. The application is on file with the Commission and open for public inspection.

[Project No. 739]

APPALACHIAN ELECTRIC POWER CO.

ORDER GRANTING MOTION FOR ORAL ARGUMENT

Pursuant to the provisions of § 1.31 of the Commission's general rules and regulations (18 CFR 1.31), Appalachian Electric Power Company, on December 2, 1953, filed its exceptions to the decision recommended by the Presiding Examiner in the above-entitled matter. On November 10, 1953, the staff also filed exceptions limited, however, to setting forth certain findings proposed by the staff in its brief which were not reflected in the Examiner's decision.

Licensee, on September 14, 1953, filed a motion pursuant to the provisions of § 1.31 (d) (2) of the rules requesting an opportunity to present oral argument before the Commission in support of the exceptions it intended to file.

The Commission finds: It is appropriate and in the public interest to hear oral argument on the exceptions filed in this matter.

The Commission orders: Oral argument in the above-entitled matter be had before the Commission on January 22, 1954, commencing at 10:00 a. m., e. s. t., in the Hearing Room of the Commission, 441 G Street NW., Washington, D. C., the scope and content of the argument to be as provided by the aforesaid § 1.31 of the rules.

Adopted: December 22, 1953.

Issued: December 24, 1953.

By the Commission.

[SEAL] J. H. GUTRIDE,
*Acting Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3144]

WEST PENN ELECTRIC CO.

ORDER GRANTING APPLICATION REGARDING OPEN MARKET ACQUISITIONS OF SECURITIES OF SUBSIDIARY

DECEMBER 23, 1953.

The West Penn Electric Company ("West Penn Electric"), a registered holding company, having filed an application pursuant to the Public Utility Holding Company Act of 1935 (the "act") and having designated sections 9 and 10 of the act as being applicable to the proposed transactions which are summarized as follows:

West Penn Electric proposes to purchase in the open market up to, and not in excess of, 600 additional shares of common stock of West Penn Power Company, its subsidiary. West Penn Electric presently owns 3,345,767 shares, or approximately 94.983 percent, of the common stock of West Penn Power Company. The proposed acquisition of additional shares would be accomplished prior to October 1, 1954, and would result in West Penn Electric owning at least 95 percent of such stock. During the preceding twelve months, the reported "over-the-counter" bid prices have ranged from a high of $43 per share to a low of $34.50 per share. The bid and asked prices on December 16, 1953, were $42.00 and $43.00, respectively. West Penn Electric would incur no expenses in connection with the proposed acquisition other than usual and customary brokerage commission.

The application states that no State or Federal commission, other than this Commission and the Public Service Commission of Maryland, which has authorized the proposals, has jurisdiction over the proposed transactions. West Penn Electric requests that the Commission's order herein become effective upon issuance.

Due notice having been given of the filing of the application and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application, as amended, be granted forthwith;

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said application as amended be, and it hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 70-3151]

NEW ENGLAND GAS AND ELECTRIC ASSN.

ORDER AUTHORIZING VOLUNTARY EXCHANGE OFFER BY HOLDING COMPANY FOR MINORITY INTEREST IN COMMON STOCK OF SUBSIDIARY

DECEMBER 23, 1953.

New England Gas and Electric Association ("Negas"), a registered holding company, having filed with this Commission an application-declaration and amendments thereto, pursuant to sections 7 and 10 of the Public Utility Holding Company Act of 1935 ("act"), with respect to the following proposed transaction:

Negas owns 276,722.4 shares or 97.61 percent of the outstanding common stock of its public-utility subsidiary, New Bedford Gas and Edison Light Company ("New Bedford"); the balance of 6,763.4 such shares or 2.39 percent being held by approximately 200 other holders, including three officers or directors of New Bedford who hold in the aggregate 165 shares. Negas proposes to offer to such holders, during a 60-day period, common shares of Negas at the rate of 4¾ common shares of Negas for each share of common stock of New Bedford surrendered for exchange. No fractional shares of Negas will be issued but, in lieu thereof, Negas will pay for each fractional share cash at the rate of $15 per whole share of Negas common. Based on the holdings of record on October 23, 1953, Negas estimates that it would issue 32,055 of its common shares and would make cash payments aggregating $1,070.33, in lieu of fractional shares, if all the New Bedford shares held by the minority interest should be exchanged.

Exchanges will be effected through Old Colony Trust Company, Boston. Negas intends to invite certain dealers to solicit exchanges, and proposes to pay to such dealers a commission of $1.25 per share for all New Bedford shares surrendered for exchange pursuant to such solicitations. Other fees and expenses are estimated to aggregate $5,000 as follows: filing fee $51; exchange agent $450; independent accountant $800; Burns, Blake & Rich, counsel for Negas, $500; W. A. Hill, counsel for New Bedford, $200; printing $1,000; stamp tax $300; Negas Service Corporation $500; and miscellaneous $1,199.

It is requested that the Commission's order to be entered herein become effective forthwith upon issuance.

Due notice having been given of the filing of the application-declaration, as amended, and a hearing not having been requested of or ordered by the Commission; and it appearing to the Commission that the commission to be paid to dealers and the other fees and expenses are not unreasonable, if they do not exceed the amounts estimated, and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of said act, that said application-declaration, as amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

## GENERAL SERVICES ADMINISTRATION

ASSISTANT TO THE ADMINISTRATOR

DELEGATION OF AUTHORITY TO PERFORM CERTAIN FUNCTIONS FROM DECEMBER 24, 1953, TO JANUARY 4, 1954.

1. Pursuant to the authority vested in me by section 205 (d) of the Federal Property and Administrative Services Act of 1949 (Public Law 152, 81st Congress), as amended, I hereby delegate to the Assistant to the Administrator full authority to exercise from December 24, 1953 to January 4, 1954, all of the powers, authorities, and functions vested in me as Administrator of General Services by the Federal Property and Administrative Services Act, 1949, and any other law, except those powers, authorities, and functions which can only be exercised by the Administrator or the Deputy Ad-

ministrator of General Services pursuant to the provisions of section 101 (c) and 205 (d) of the Federal Property and Administrative Services Act, 1949, or pursuant to the provisions of other law.

2. The authority contained herein may not be redelegated and shall be exercised in accordance with such administrative procedures and controls as are in force on or after the effective date hereof.

3. This delegation of authority shall be effective December 24, 1953.

Dated: December 24, 1953.

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28770]

GRAIN FROM TWIN CITIES TO SOUTHWEST

APPLICATION FOR RELIEF

DECEMBER 23, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Grain, grain products and related articles, carloads.

From: Minneapolis, Minnesota Transfer, and St. Paul, Minn.

To: Points in Louisiana, Oklahoma, and Texas.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3940, supp. 32; F. C. Kratzmeir, Agent, I. C. C. No. 3941, supp. 71; F. C. Kratzmeir, Agent, I. C. C. No. 3942, supp. 31.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

[F. R. Doc. 53-10745; Filed, Dec. 28, 1953 8:46 a. m.]

[4th Sec. Application 28773]

WOODPULP FROM DOCTORTOWN AND JESSUP, GA., TO POINTS IN OFFICIAL AND ILLINOIS TERRITORIES

APPLICATION FOR RELIEF

DECEMBER 23, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Woodpulp, in carloads.

From: Doctortown and Jessup, Ga.

To: Points in official and Illinois territories.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional origins.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1260, supp. 52.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28774]

IRON AND STEEL FROM ILLINOIS TERRITORY TO THE SOUTH

APPLICATION FOR RELIEF

DECEMBER 23, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to schedule listed below.

Commodities involved: Iron and steel articles, carloads.

From: Points in Illinois territory.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, and additional routes.

Schedules filed containing proposed rates: R. G. Raasch, Agent, I. C. C. No. 793, supp. 4.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28776]

BITUMINOUS COAL FROM BRAZIL, IND., DISTRICT TO POINTS IN WESTERN TRUNK-LINE TERRITORY

APPLICATION FOR RELIEF

DECEMBER 24, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to schedule listed below.

Commodities involved: Bituminous coal, carloads.

From: Mines in the Brazil, Ind., district.

To: Points in western trunk-line territory.

Grounds for relief: Rail competition, circuity, market competition, and to maintain grouping.

Schedules filed containing proposed rates: Baltimore and Ohio Railroad Company, C & C Series, I. C. C. No. 3040, supp. 20.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

THE NATIONAL ARCHIVES OF THE UNITED STATES — 1934

VOLUME 18 NUMBER 254

*Washington, Thursday, December 31, 1953*

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3041

IMPOSING A QUOTA ON IMPORTS OF OATS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as added by section 31 of the act of August 24, 1935, 49 Stat. 773, re-enacted by section 1 of the act of June 3, 1937, 50 Stat. 246, and as amended by section 3 of the act of July 3, 1948, 62 Stat. 1248, section 3 of the act of June 28, 1950, 64 Stat. 261, and section 8 (b) of the act of June 16, 1951, 65 Stat. 72 (7 U. S. C. 624), the Secretary of Agriculture has advised me that he has reason to believe that oats are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program undertaken by the Department of Agriculture with respect to oats pursuant to sections 301 and 401 of the Agricultural Act of 1949 (63 Stat. 1053, 1054), or to reduce substantially the amount of products processed in the United States from domestic oats with respect to which such program of the Department of Agriculture is being undertaken; and

WHEREAS, on June 6, 1953, I caused the United States Tariff Commission to make an investigation under the said section 22 with respect to hulled and unhulled oats and unhulled ground oats; and

WHEREAS the said Tariff Commission has made such investigation and has reported to me its findings and recommendations made in connection therewith; and

WHEREAS, on the basis of the said investigation and report of the Tariff Commission, I find that hulled and unhulled oats and unhulled ground oats are practically certain to be imported into the United States during the period December 23, 1953, to September 30, 1954, inclusive, under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the said price-support program with respect to oats; and

WHEREAS, I find and declare that the imposition of quantitative limitations not in excess of 23,000,000 bushels of the product of Canada and not in excess of 2,500,000 bushels of the product of other foreign countries are shown by such investigation of the Tariff Commission to be necessary in order that the entry, or withdrawal from warehouse, for consumption of oats described in the preceding paragraph of this proclamation during the period December 23, 1953, to September 30, 1954, will not render or tend to render ineffective, or materially interfere with, the said price-support program; and I further find and declare such permissible total quantity to be proportionately not less than 50 percentum of the total average aggregate annual quantity of such oats entered, or withdrawn from warehouse, for consumption during the representative period July 1, 1948, to June 30, 1951, inclusive;

WHEREAS Canada has undertaken to limit exports of oats to the United States to 23,000,000 bushels during the period from midnight December 10, 1953, to midnight September 30, 1954;

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that the total aggregate quantity of hulled and unhulled oats and unhulled ground oats, other than oats the product of Canada, entered, or withdrawn from warehouse, for consumption during the period December 23, 1953, to September 30, 1954, inclusive, shall not be permitted to exceed 2,500,000 bushels of 32 pounds each.

The provisions of this proclamation shall not apply to certified or registered seed oats for use for seeding and crop-improvement purposes, in bags tagged and sealed by an officially recognized seed-certifying agency of the country of production: *Provided,* (a) that the individual shipment amounts to 100 bushels (of 32 pounds each) or less, or (b) that the individual shipment amounts to

## TITLE 7—AGRICULTURE

### Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 728—WHEAT

SUBPART—1954–55 MARKETING YEAR

The regulations contained in § 728.409 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the determination of county normal yields of wheat for 1954, including the appraisal of yields for years in the ten-year period used in determining county normal yields for which the data are not available or in which there was no actual yield.

Prior to preparing the regulations in § 728.409, public notice (18 F. R. 8585) was given in accordance with the Administrative Procedure Act. The data, views, and recommendations pertaining to the regulations in § 728.409, which were submitted, have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 728.409 *Determination of county normal yields for 1954 crop of wheat.* (a) A normal yield for each wheat-producing county shall be determined on the basis of the average yield per acre of wheat for the county during the ten calendar years immediately preceding the year in which such normal yield is determined, adjusted for abnormal weather conditions and trends in yields. In adjusting for abnormal weather conditions, (a) if the yield in any year of the ten-year period is less than 75 per centum of the average (computed without regard to such year) on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, such year shall be eliminated in calculating the normal yield per acre; and (b) if the yield in any year of the ten-year period is more than 125 per centum of the average (computed without regard to such year) on account of abnormal weather conditions, there shall be substituted for such year a yield equiv-

alent to 125 per centum of the average (computed without regard to such year) in calculating the normal yield per acre.

(b) The adjustment for trends in yields shall be made by averaging the average yield per acre of wheat for the ten-year period, adjusted for abnormal weather conditions as indicated above, with the average yield per acre of wheat for the last three years of such ten-year period, adjusted for abnormal weather conditions.

(c) If for any year of such ten-year period the data are not available or there was no actual yield, the yield for such year shall be appraised by taking into consideration the yields in years for which data are available, abnormal weather conditions, and the yields for such year in nearby or adjacent counties, or crop reporting districts of the Agricultural Marketing Service (formerly Bureau of Agricultural Economics) in which the type of soil, topography, and farming practices associated with the production of wheat are similar.

(d) County normal yields shall be determined by the Director, Grain Division, Commodity Stabilization Service (formerly the Production and Marketing Administration). The normal yield determined for each county shall be kept readily available to the public in the county Agricultural Stabilization and Conservation office, and in the applicable State Agricultural Stabilization and Conservation office.

Done at Washington, D. C., this 30th day of December 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10905; Filed, Dec. 30, 1953; 11:19 a. m.]

## Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

### Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 814.21]

### PART 814—ALLOTMENT OF SUGAR QUOTAS

MAINLAND CANE SUGAR AREA, 1954

*Basis and purpose.* This allotment order is issued under section 205 a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of establishing preliminary allotments of the 1954 sugar quota for the mainland cane sugar area.

Section 205 (a) of the act requires the Secretary to allot a quota whenever he finds that allotment is necessary, among other things, to (1) prevent disorderly marketing of sugar or liquid sugar and (2) afford all interested persons an equitable opportunity to market sugar or liquid sugar. Current estimates of sugar production from the 1953 mainland sugarcane crop indicate that approximately 290,000 tons of sugar from that crop will be available for marketing in 1954. Should production from 1954-crop cane be no larger than that from the smallest recent crop (417,000 tons from the 1951 crop) there will be available for marketing in 1954 a quantity of sugar far in excess of the 500,000 short tons, raw value, quota for the area. Inventories of sugar which will be on hand January 1, 1954, together with production in early 1954 may make it possible for some allottees to market shortly after January 1, 1954, a quantity of sugar larger than their eventual allotment. To meet this situation the Department has requested and received from each allottee a stipulation as follows:

If the Secretary of Agriculture determines that the allotment of the 1954 sugar quota for the mainland cane sugar area is necessary, it is stipulated and agreed by the undersigned allottee as follows:

(1) Pending the holding of a public hearing and the issuance of an allotment order for 1954 based on the record of such hearing, the Secretary of Agriculture may issue a preliminary order under the Sugar Act of 1948, as amended, effective January 1, 1954, establishing a 1954 allotment for each allottee equal to 80 percent of the 1953 allotment for such allottee as established in Sugar Regulation 814.20 effective September 2, 1953.

(2) The allotment order issued following the aforesaid public hearing will not be made on the same basis as the preliminary order was made.

(3) The undersigned hereby waives its right to a hearing prior to the issuance of such preliminary allotment order and its right to object to the validity of such preliminary order issued in conformity with the terms of this stipulation.

It is found that allotment of the 1954 Mainland Cane Sugar quota is necessary to prevent disorderly marketing and to afford all interested persons equitable opportunities to market sugar processed from sugarcane produced in that area. In order to prevent an allottee from marketing a quantity of sugar in excess of its allotment under the allotment order for 1954, to be issued after a public hearing and based on the record of such hearing, it is further found that compliance with the 30-day effective date requirements of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and consequently this order shall become effective on January 1, 1954.

*Order.* Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, and in accordance with the foregoing stipulation, it is hereby ordered:

§ 814.21 *Allotment of the 1954 sugar quota for the Mainland Cane Sugar Area*—(a) *Allotments.* The 1954 sugar quota for the Mainland Cane Sugar Area is hereby allotted, to the extent shown herein, to the following processors in amounts which appear opposite their respective names:

[Short tons, raw value]

(b) *Restrictions on shipment and marketing.* Pursuant to section 209 of the act, and subject to the applicable provisions of Sugar Regulation 816 (14 F. R. 2163), all persons are hereby prohibited, during the calendar year 1954, from shipping, transporting or marketing in interstate commerce or in competition with sugar or liquid sugar in interstate or foreign commerce, any sugar or liquid sugar produced from sugarcane grown in the mainland cane sugar area after the allotment established for such persons in paragraph (a) of this section has been filled.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 205, 61 Stat. 926; 7 U. S. C. 1115)

Done at Washington, D. C., this 29th day of December 1953. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10887; Filed, Dec. 30, 1953; 8:52 a. m.]

### Subchapter I—Determination of Prices

[Sugar Determination 877.6]

### PART 877—SUGARCANE: PUERTO RICO

1953-54 CROP

Pursuant to the provisions of Section 301 (c) (2) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, and due consideration of the evidence presented at the public hearing held in San Juan, Puerto Rico, on October 22 and 23, 1953, the following determination is hereby issued:

§ 877.6 *Fair and reasonable prices for the 1953-54 crop of Puerto Rican sugarcane.* A producer of sugarcane in Puerto Rico who processes sugarcane purchased from other producers (hereinafter referred to as "processor"), shall be deemed to have complied with the provisions of section 301 (c) (2) of the act with respect to the 1953-54 crop if he pays, or contracts to pay, for such sugarcane in accordance with the requirements set forth herein.

(a) *Definitions.* For the purpose of this determination, the term:

(1) "Raw sugar" means raw sugar of 96° polarization.

(2) "Sugar yield period" means the 2-week, 4-week, semi-monthly or monthly period, as agreed upon between the producer and the processor, in which sugarcane is delivered by the producer to the processor. Semi-monthly means (i) the first 15 days of a 29, 30, 31 day month, or the first 14 days of a 28 day month; or (ii) the last 14 days of a 28 or 29 day month, the last 15 days of a 30 day month, or the last 16 days of a 31 day month.

(3) "Price of raw sugar" means the daily spot quotation of raw sugar of the New York Coffee and Sugar Exchange (domestic contract), adjusted to a duty paid basis by adding the U. S. duty prevailing on Cuban raw sugar, except, that if the Director of the Sugar Branch determines that such price does not reflect the true market value of raw sugar, the Director may designate the price to be effective under this determination.

(4) "Inferior varieties of sugarcane" means sugarcane of the Saccharum Spontaneum or Saccharum Sinense variety (including sugarcane of the Japanese, Uba, Kavangerie, Zuinga, Caladonia, Coimbatore 213 and Coimbatore 281 varieties).

(5) "Yield of raw sugar" means (i) for varieties other than inferior varieties of sugarcane, the yield of raw sugar per one hundred pounds of sugarcane determined for the sugar yield period in accordance with the following formula:

$$R = (S - 0.3B)F$$

where:

$R$ = Recoverable sugar yield, 96° polarization.

$S$ = Polarization of the crusher juice obtained from the sugarcane of each producer.

$B$ = Brix of the crusher juice obtained from the sugarcane of each producer.

$F$ = Factor obtained from the fraction whose numerator is the average yield of sugar of 96° polarization obtained from the aggregate grinding during the sugar yield period in which the sugarcane of the producer has been ground, and whose denominator is the average polarization of the crusher juice, minus three-tenths of the brix of the crusher juice, both components of the denominator being obtained from the aggregate grinding during the sugar yield period in which the sugarcane of the producer has been ground;

and (ii) for inferior varieties of sugarcane, the yield of raw sugar per 100 pounds of sugarcane determined for the sugar yield period in accordance with the formula used during the 1950-51 crop grinding season.

(b) *Basic payment.* (1) The basic payment for sugarcane delivered by the producer (colono) to the processor shall be made as agreed upon by the producer and the processor, either by the delivery to the producer of his share of raw sugar packed in customary bags, or by the payment to the producer of the money value of his share of raw sugar.

(2) For sugarcane (including inferior varieties of sugarcane) having a yield of raw sugar of 9 pounds or more, such basic payment shall be not less than the quantity of raw sugar determined by applying the following applicable percentage to the yield of raw sugar of the producer's sugarcane:

| Pounds of raw sugar per 100 pounds of sugarcane: | Percentage |
|---|---|
| 9.0 | 63.0 |
| 9.5 | 63.5 |
| 10.0 | 64.0 |
| 10.5 | 64.5 |
| 11.0 | 65.0 |
| 11.5 | 65.5 |
| 12.0 | 66.0 |
| 12.5 | 66.5 |
| 13.0 | 67.0 |
| 13.5 and over | 67.5 |

Intermediate points within the above scale are to be interpolated to the nearest one-tenth point.

(3) For sugarcane (including inferior varieties of sugarcane) having a yield of raw sugar less than 9 pounds, such basic payment shall be not less than the quantity determined by subtracting 3⅓ pounds of raw sugar from the yield of raw sugar of the producer's sugarcane.

(4) If settlement with the producer is made in cash, the processor shall pay, or contract to pay, the producer the money value of his share of raw sugar determined on the basis of the simple average price of raw sugar for the period March 1, 1954, through February 28, 1955, converted to an f. o. b. mill price by subtracting applicable admissible deductions for selling and delivery expenses on raw sugar listed in Schedule A attached hereto and made a part hereof.

(c) *Molasses payment.* For each ton of sugarcane delivered, the processor shall pay to the producer an amount equal to the product of (1) 66 percent of the net proceeds per gallon of blackstrap molasses sold of the 1953-54 crop in excess of five cents per gallon, and (2) the average production of blackstrap molasses per ton of sugarcane of the 1953-54 crop processed at each mill. A processor operating more than one mill may compute the net proceeds on the basis of the average gross proceeds from the sales of molasses produced at all mills operated by such processor. Admissible deductions for selling and delivery expenses to be used in calculating molasses net proceeds are listed in Schedule B attached hereto and made a part hereof.

(d) *Charges, services and allowances to producers.* (1) When payment is made to the producer by the delivery of raw sugar, the processor shall store and insure (or agree to store and insure) all such sugar through December 31, 1954, free of charge to the producer: *Provided*, That the producer shall bear any charges arising out of the necessity of utilizing outside storage facilities for such sugar prior to January 1, 1955.

(2) When payment is made to the producer by the delivery of raw sugar, the processor shall share (or agree to share) with the producer on a prorata basis all ocean shipping facilities available to the processor.

(3) Allowances made to producers by the processor for the 1949-50 crop shall be made for the 1953-54 crop at the rates which were effective under comparable conditions in 1949-50; services performed, the costs of which were absorbed by the processor for the 1949-50 crop, shall be performed for the 1953-54 crop: *Provided*, That nothing in this subparagraph shall be construed as prohibiting modification of practices which may be necessary because of unusual circumstances, any modifications to be subject to approval of the Caribbean Area Office of the Production and Marketing Administration, San Juan, Puerto Rico.

(e) *Reporting requirements.* (1) The processor shall submit to the Caribbean Area Office, PMA, within a reasonable time prior to the commencement of grinding, a list of those producers with whom settlement will be made in cash and those with whom settlement will be made in sugar.

(2) The processor shall submit in duplicate to the Caribbean Area Office, PMA, statements verified by a certified public accountant of the deductions made in determining the f. o. b. mill price and net proceeds from molasses.

(f) *Agency.* If sugarcane is delivered to the processor in the name of a person other than the producer thereof (commonly referred to as "purchasing agent"), the processor shall make payment to the producer of such sugarcane in accordance with the provisions of this section.

(g) *Subterfuge.* The processor shall not reduce returns to the producer below those determined in this section through any subterfuge or device whatsoever.

*Statement of Bases and Considerations*

(a) *General.* The foregoing determination provides fair and reasonable prices to be paid for sugarcane of the 1953-54 crop purchased from other producers by a processor who is also a producer of sugarcane. It prescribes the minimum requirements with respect to prices for sugarcane which must be met as one of the conditions for payment under the Act.

(b) *Requirements of the act.* The act requires that in determining fair and reasonable prices public hearings be held and investigations made. Accordingly, on October 22 and 23, 1953, a public hear-

ing was held in San Juan, Puerto Rico, at which time interested persons presented testimony with respect to fair and reasonable prices for the 1953–54 crop of sugarcane. In addition, investigations have been made of conditions relating to the sugar industry in Puerto Rico. In this price determination, consideration has been given to testimony presented at the hearing and to information resulting from the investigations.

(c) *1953–54 price determination.* The 1953–54 price determination is the same as the 1952–53 price determination except that the provision relating to the price of sugarcane from which is made raw sugar sold through programs involving the use of foreign aid funds of the United States is omitted. A price for such sugarcane originally was provided as an amendment to the 1951–52 crop determination, and continued in the 1952–53 determination, because of the over-burdened supply situation in Puerto Rico. This provision is eliminated as it no longer is applicable. The provisions of the determination relating to the calculation of net proceeds for sugar and molasses by processors operating more than one mill have been clarified.

At the public hearing, a representative of the Puerto Rico Grower-Processor Committee, a newly formed Committee representing growers of the Puerto Rico Farm Bureau and growers and processors of the Association of Sugar Producers of Puerto Rico, recommended that the provisions of the 1952–53 price determination be continued for the 1953–54 crop.

In this determination consideration has been given to the recommendation made at the public hearing, to information obtained as a result of investigations and to returns, costs and profits data of the Puerto Rican sugar industry obtained by survey during prior years and restated in terms of prospective conditions for the 1953–54 crop. Analysis of the economic position of producers and processors indicates that the sharing provisions and other requirements of this determination are fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. 1131)

Issued this 24th day of December 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

SCHEDULE A

ADMISSIBLE DEDUCTIONS FOR SELLING AND DELIVERY EXPENSES ON RAW SUGAR

Admissible deductions for selling and delivery expenses are for those expenses incurred on 1953–54 crop raw sugar which commence with the unstacking of raw sugar at the warehouse and include expenses incurred thereafter incidental to the delivery of raw sugar to the purchaser. The deductions are limited to the sum of the following expenses actually incurred at each mill operated by a processor, net of any receipts which reduce such expenses:

1. Necessary outside storage;
2. Freight from warehouse to dock, including covering cars where necessary;
3. Handling at dock, including unloading and stacking;
4. Wharfage, lighterage, and dock warehousing when incurred as an item separate from wharfage and when necessary in delivery of sugar from warehouse or mill to shipside;
5. Ocean freight;
6. Freight demurrage resulting from causes beyond the control of the shipper;

and an allowance of 8.7 cents per hundredweight of 96° raw sugar in lieu of:

7. Unstacking, tallying and loading;
8. Shore risk, marine and war risk insurance;
9. Rebagging and mending whenever and wherever incurred;
10. Brokerage or commissions and exchange;
11. Weighing, testing, sampling, mending and tarring at destination;
12. All other expenses not itemized herein;

and the following additional expenses incurred between January 1, 1955, and February 28, 1955:

13. Personal property tax;
14. Storage not covered by item 1;
15. Insurance on stored sugar.

When any of the necessary services included in items 1 through 6 and item 14 above are furnished by the processor, costs incurred shall include for each of the services rendered:

1. Direct and immediate supervisory labor;
2. Maintenance labor and supplies required for the facilities used;
3. Taxes and insurance assessed or charged to the processor on such labor and a proportionate share of retirement and pension, bonuses and vacation expenses properly allocable to such labor;
4. Direct supplies;
5. Depreciation (at rates allowed by the taxing authority), property taxes, and property insurance on the facilities used.

Administrative expenses and interest shall be excluded from the computation of costs. In the event that facilities used in providing the necessary services are also used for other purposes by the processor, only that portion of the maintenance, depreciation, property taxes, and property insurance of such facilities properly apportionable to the necessary service shall be allowed.

The Director, PMA Caribbean Area Office, may, by administrative interpretation, permit the use of the lowest rate charged by a public utility or carrier for comparable service in lieu of the costs incurred by the processor in furnishing the necessary service in the event that the costs incurred therefor cannot be accurately determined.

In determining the f. o. b. mill price of raw sugar sold or processed in Puerto Rico, equivalent selling and delivery expenses as approved by the Director, Caribbean Area Office, PMA, San Juan, Puerto Rico, may be allowed in lieu of expenses actually incurred.

The following certification shall be made on statements submitted to the Caribbean Area Office, PMA, San Juan, Puerto Rico:

CERTIFICATION

I hereby certify that the deductions set forth herein are properly chargeable as deductions for selling and delivery expenses for sugar in accordance with the determination of fair and reasonable prices for the 1953–54 crop of Puerto Rican sugarcane.

---

SCHEDULE B—DEFINITION OF ADMISSIBLE DEDUCTIONS FOR SELLING AND DELIVERY EXPENSES FOR MOLASSES

Admissible deductions for selling and delivery expenses in connection with the molasses payment provided in paragraph (c) of the 1953–54 price determination, are limited to the sum of the following expenses actually incurred at each mill operated by a processor, net of any receipts which reduce such expenses:

1. Operation of pumps to deliver molasses from mill tank to shipside or other delivery point;
2. Freight from mill tank to shipside (or to local buyers when such molasses is sold on a delivered price basis);
3. Operation of tank barges, tugs, or other marine equipment used in delivering molasses to shipside;
4. Weighing and testing;
5. Wharfage;
6. Shore risk insurance (limited in coverage from mill to shipside);
7. Freight demurrage resulting from causes beyond the control of the shipper;
8. Insular taxes on molasses produced, used, sold, brought into or consumed in Puerto Rico;
9. Brokerage paid to a bona fide broker.

When any of the necessary services included in items 1 through 9 above are furnished by the processor, costs incurred shall include for each of the services rendered:

1. Direct and immediate supervisory labor;
2. Maintenance labor and supplies required for the facilities used;
3. Taxes and insurance assessed or charged to the processor on such labor and a proportionate share of retirement and pensions;
4. Fuel, energy or other supplies;
5. Depreciation (at rates allowed by the taxing authorities), property taxes and property insurance on the facilities used.

Administrative expenses and interest shall be excluded from the computation of cost. In the event that facilities used in providing the necessary services are also used for other purposes by the processor, only that portion of the maintenance, depreciation, property taxes and property insurance of such facilities, properly apportionable to the necessary service, shall be allowed.

The Director, PMA Caribbean Area Office, may, by administrative interpretation, permit the use of the lowest rate charged by a public utility or carrier for comparable service in lieu of the cost incurred by the processor in furnishing the necessary service in the event that the costs incurred therefor cannot be accurately determined.

The following certification shall be made on statements submitted to the Caribbean Area Office, PMA, San Juan, Puerto Rico:

CERTIFICATION

I hereby certify that the deductions set forth herein are properly chargeable as deductions for selling and delivery expenses for molasses in accordance with the determination of fair and reasonable prices for the 1953–54 crop of Puerto Rican sugarcane.

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

[Docket 6090]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

NATIONAL ELECTRONIC DISTRIBUTORS ASSN., INC., ET AL.

Subpart—*Coercing and intimidating:* § 3.370 *Suppliers and sellers:* To adopt and enforce resale price program, contracts, or agreements; To adopt desired marketing practice; To cut off supplies of or otherwise discipline price cutters; To grant uniform discounts and allowances; To limit sale and distribution to member or acceptable distributors. Subpart—*Combining or conspiring:* § 3.397 *To control marketing methods, practices, and conditions;* § 3.425 *To enforce or bring about resale price maintenance;* § 3.430 *To enhance, maintain, or unify prices;* § 3.445 *To force guarantee against price decline;* § 3.450 *To limit distribution or dealing to regular, established, or acceptable channels or classes;* § 3.470 *To restrain and monopolize trade.* Subpart—*Cutting off competitors' or others' access to customers or market:* § 3.560 *Interfering generally with distributive outlets;* § 3.600 *Withholding patronage from recalcitrant suppliers.* Subpart—*Cutting off competitors' or others' supplies or service:* § 3.655 *Threatening disciplinary action or otherwise.* In connection with the purchase, offering for sale, sale, or distribution in commerce, of electronic equipment and supplies, and on the part of respondent association, its representatives, officers, directors, and members, directly or indirectly, jointly or severally, etc., entering into, cooperating in or carrying out any planned common course of action, agreement, understanding, combination or conspiracy, whether express or implied, between any two or more of said respondents or between any one or more of said respondents and any other respondents named or referred to in the order, or with two or more persons not parties to the proceeding, to (1) restrict membership in respondent National Electronic Distributors Association, Inc., by denying membership therein to wholesale distributors in electronic equipment and supplies for competitive reasons, or for any other reason which departs from respondent National Electronic Distributors Association, Inc.'s then published or generally accepted standards governing admission of new members; (2) compel, or attempt to compel, by any means or method, manufacturers of electronic equipment and supplies, to sell such products solely through members of the respondent National Electronic Distributors Association, Inc., or through established legitimate wholesale distributors, not members of respondent Association, but recognized by respondents; (3) prevent, or attempt to prevent, manufacturers of electronic equipment and supplies from selling such products to any wholesale distributors by same because such wholesale distributors are not members of respondent Association, or because they are not recognized by respondents as legitimate wholesale distributors; (4) compel, or attempt to compel, by any means or methods, manufacturers of electronic equipment and supplies to protect distributors against price decline on unsold inventory, or to grant uniform discounts or terms and conditions of sale; (5) adopt, enforce, or utilize any means or method which has as its purpose or effect the compelling, or attempting to compel, any manufacturer of electronic equipment and supplies to fix or maintain resale prices suggested by respondents; (6) originate, compile, publish and distribute, or attempt to originate, compile, publish and distribute, by any means or methods, substantially identical price lists for electronic equipment or supplies; (7) adopt, enforce or utilize any means or methods (including, without limitation, the means and methods referred to in prohibition (6, above) to fix or maintain, or attempt to fix or maintain the prices, terms or conditions of sale at which wholesalers of electronic equipment and supplies offer for sale or sell any such products; (8) give sales or any other promotional preferences to the types of electronic equipment and supplies sold by manufacturers who agree to refrain from selling merchandise to wholesale distributors who are not members of respondent Association or who are not recognized by respondents as legitimate wholesale distributors; and (9) give sales, or any other promotional preferences, to the types of electronic equipment and supplies sold by manufacturers who agree to grant and who do grant uniform cash discounts, terms, conditions of sale, or who agree to maintain resale prices, terms or conditions of sale suggested by respondents; prohibited, subject to the proviso, however, that nothing contained in the foregoing provisions of the order shall be construed to prohibit any of the respondents from acting independently, and not in combination with others, in doing any of the acts prohibited thereby.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, National Electronic Distributors Association, Inc., et al., Chicago, Ill., Docket 6090, November 5, 1953.]

*In the Matter of National Electronic Distributors Association, Inc., a Membership Corporation, Its Officers, Directors, and Members*

This proceeding was instituted by complaint which charged respondents with the use of unfair methods of competition and unfair acts and practices in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated December 4, 1953, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on November 5, 1953, and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

Said order to cease and desist, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

*It is ordered,* That respondent National Electronic Distributors Association, Inc., sometimes hereinafter referred to as respondent Association, a membership corporation, its representatives, its respondent officers, directors and members, directly or indirectly, jointly or severally, or through any corporate or other means or device, in connection with the purchase, offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of electronic equipment and supplies, do forthwith cease and desist from entering into, cooperating in or carrying out any planned common course of action, agreement, understanding, combination or conspiracy, whether express or implied, between any two or more of said respondents or between any one or more of said respondents and any other respondents named or referred to in this order, or with two or more persons not parties hereto, to do or perform any of the following acts, policies or practices:

(1) Restricting membership in respondent National Electronic Distributors Association, Inc., by denying membership therein to wholesale distributors in electronic equipment and supplies for competitive reasons, or for any other reason which departs from respondent National Electronic Distributors Association, Inc.'s then published or generally accepted standards governing admission of new members;

(2) Compelling, or attempting to compel, by any means or method, manufacturers of electronic equipment and supplies, to sell such products solely through members of the respondent National Electronic Distributors Association, Inc., or through established legitimate wholesale distributors, not members of respondent Association, but recognized by respondents;

(3) Preventing, or attempting to prevent, manufacturers of electronic equipment and supplies from selling such products to any wholesale distributors in same because such wholesale distributors are not members of respondent Association, or because they are not recognized by respondents as legitimate wholesale distributors;

(4) Compelling, or attempting to compel, by any means or methods, manufacturers of electronic equipment and supplies to protect distributors against price decline on unsold inventory, or to grant uniform discounts or terms and conditions of sale;

(5) Adopting, enforcing or utilizing any means or method which has as its purpose or effect the compelling, or attempting to compel, any manufacturer of electronic equipment and supplies to fix or maintain resale prices suggested by respondents;

(6) Originating, compiling, publishing, and distributing, or attempting to originate, compile, publish and distribute, by any means or methods, substantially identical price lists for electronic equipment or supplies;

(7) Adopting, enforcing or utilizing any means or methods (including, without limitation, the means and methods referred to in paragraph (6) foregoing) to fix or maintain, or attempt to fix or maintain the prices, terms or conditions of sale at which wholesalers of electronic equipment and supplies offer for sale or sell any such products;

(8) Giving sales or any other promotional preferences to the types of electronic equipment and supplies sold by manufacturers who agree to refrain from selling merchandise to wholesale dis-

[1] Filed as part of the original document.

tributors who are not members of respondent Association or who are not recognized by respondents as legitimate wholesale distributors;

(9) Giving sales, or any other promotional preferences, to the types of electronic equipment and supplies sold by manufacturers who agree to grant and who do grant uniform cash discounts, terms, conditions of sale, or who agree to maintain resale prices, terms or conditions of sale suggested by respondents.

*Provided*, That nothing contained in the foregoing provisions of this order shall be construed to prohibit any of the respondents from acting independently, and not in combination with others, in doing any of the acts prohibited by this order.

*It is further ordered*, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with said order.

The foregoing consent settlement is hereby accepted by the Federal Trade Commission and ordered entered of record on this the 5th day of November 1953.

Issued: December 4, 1953.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, JR., *Secretary.*

[F. R. Doc. 53-10851; Filed, Dec. 30, 1953; 8:49 a. m.]

## TITLE 17—COMMODITY AND SECURITIES EXCHANGES

### Chapter II—Securities and Exchange Commission

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

REGISTRATION AND GENERAL EXEMPTIONS

The Securities and Exchange Commission has heretofore published for comments and suggestions a proposal to adopt a new rule (Rule U-13, 17 CFR 250.13), under the Public Utility Holding Company Act of 1935 exempting certain non-utility subsidiary companies and affiliates of registered holding companies from the obligations, duties and liabilities imposed upon them as subsidiary companies or affiliates of registered holding companies. All comments and suggestions received have been carefully considered and the Commission has determined that the proposed rule should be adopted, with certain modifications.

Section 3 (d) of the act provides that the Commission "may, by rules and regulations, conditionally or unconditionally exempt any specified class or classes of persons from the obligations, duties, or liabilities imposed upon such persons as subsidiary companies or affiliates under any provision or provisions of this title • • •." The adopted rule unconditionally exempts every subsidiary company or affiliate of a registered holding company (which subsidiary company or affiliate is not (a) a holding company, (b) a public-utility company, (c) an investment company or (d) a service company) from all the obligations, duties and liabilities imposed upon it by the act as a subsidiary company or affiliate of a registered holding company: *Provided*, That the company so exempted became a subsidiary or affiliate by reason of the acquisition of its voting securities after October 31, 1953 by a registered holding company: *And provided further*, That such acquisition is in accordance with an investment program permitted by an order of the Commission entered in connection with the conversion of such registered holding company into an investment company in compliance with section 11 of the act.

At the present time there are two registered holding companies which, with Commission approval, are in the process of converting into investment companies and there are two other registered holding companies which have indicated an intention to convert into an investment company if permitted by the Commission. One of the former companies has also requested that, in connection with its transformation into an investment company, it be granted an exemption as a holding company from the provisions of the act.

The new rule will avoid the necessity of the acquired subsidiary company obtaining an exemption order otherwise required to be obtained under section 2 (a) (8) (B) of the act.

The text of the rule, as adopted, is set forth below.

The Securities and Exchange Commission, acting pursuant to the Public Utility Holding Company Act of 1935, particularly sections 3 (d) and 20 (a) thereof, and deeming such action appropriate in the public interest and in the interests of investors and consumers, hereby adopts Rule U-13 under that act, to read as follows:

§ 250.13 *Exemption of certain non-utility subsidiary companies and affiliates of registered holding companies transforming to investment companies.* Every subsidiary company or affiliate of a registered holding company which subsidiary company or affiliate is not—

(a) A holding company;

(b) A public-utility company;

(c) An investment company or investment trust, including one which is a medium for investments in securities for the benefit of a public-utility or holding company or its directors, officers or employees;

(d) A service company performing services or construction for or selling goods to associate companies of any of the classes specified in paragraphs (a) to (c) of this section; or

(e) A person controlling, directly or indirectly, any company specified in paragraphs (a) to (d) of this section;

shall be unconditionally exempt from the obligations, duties and liabilities which would otherwise be imposed upon such company as a subsidiary company or an affiliate by any provision or provisions of the act and shall not be deemed to be a subsidiary company or an affiliate within the meaning of any such provision or provisions, if such company becomes a subsidiary company or an affiliate by virtue of the direct or indirect acquisition, after October 31, 1953, by a registered holding company of voting securities issued by such subsidiary company or affiliate, and such acquisition has been made in accordance with an investment program permitted by an order of the Commission, which has become final, entered in connection with the conversion of such registered holding company into an investment company in compliance with section 11 of the act.

The foregoing action is effective December 24, 1953.

(Sec. 20, 49 Stat. 833; 15 U. S. C. 79t. Interprets or applies sec. 3, 49 Stat. 810; 15 U. S. C. 79c)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DECEMBER 24, 1953.

[F. R. Doc. 53-10903; Filed, Dec. 30, 1953; 10:17 a. m.]

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

EXEMPTION OF CERTAIN ACQUISITIONS FROM NON-AFFILIATES

The Commission, on December 4, 1953, having given notice that it had under consideration a proposed amendment to § 250.40 (Rule U-40) of the general rules and regulations promulgated under the Public Utility Holding Company Act of 1935 ("act") which amendment had been proposed in a petition filed by Reddy Kilowatt, Inc. all as more fully set forth in Holding Company Act Release No. 12238;

Due notice of the filing of said petition having been given in which all interested persons were requested to submit on or before December 22, 1953, data, views and comments regarding the requested amendment and no data, views or comments having been received during such period;

The Commission having considered the aforesaid request and the representations contained therein and acting pursuant to the authority conferred upon it by the act, particularly by sections 9 (c) (3) and 20 (a) thereof, and deeming such action appropriate in the public interest and in the interests of investors and consumers;

Notice is hereby given that the Commission has adopted the proposed amendment to Rule U-40 of the general rules and regulations promulgated under the act which amendment renumbers paragraph "(c)" thereof as paragraph "(d)" and which adds a new paragraph "(c)" the text of which is as follows:

§ 250.40 *Exemption of certain acquisitions from non-affiliates.* • • •

(c) Section 9 (a) (1) shall not apply to the acquisition of securities of a company whose principal business is the ownership and/or licensing of trade names, trade-marks and service marks used by public-utility companies in the ordinary course of their business and the preparation, distribution and/or sale of material and services related wholly to such names and marks.

(Sec. 20, 49 Stat. 833; 15 U. S. C. 79t)

This amendment is effective December 23, 1953.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DECEMBER 23, 1953.

## TITLE 19—CUSTOMS DUTIES

### Chapter I—Bureau of Customs, Department of the Treasury

PART 6—AIR COMMERCE REGULATIONS

MISCELLANEOUS AMENDMENTS

Under the authority cited in § 6.1 below, §§ 6.1 to 6.10, § 6.10a–e, and § 6.11, Title 19 of the Code of Federal Regulations, such sections being designated also as §§ 71.501 to 71.516, respectively, in Subpart K, Title 42, of such Code, are hereby amended to read as follows, the sections to be designated §§ 71.501 to 71.514, respectively, for the purposes of Subpart K of Title 42:

§ 6.1 *Regulations and supervision.* Sections 6.1 to 6.14,[1] inclusive, are prescribed by the Commissioner of Customs with the approval of the Secretary of the Treasury and the Surgeon General of the Public Health Service with the approval of the Secretary of Health, Education, and Welfare, within their respective authorities, under sections 161 and 251 of the Revised Statutes (5 U. S. C. 22, 19 U. S. C. 66); sections 7 (b) and (c), 9 (b), and 11 (b) and (c) of the Air Commerce Act of 1926, as amended (44 Stat. 572-574, 49 U. S. C. 177 (b), (c), 179 (b), 181 (b), (c)); Reorg. Plan No. 1, 3 CFR, Cum. Supp., Ch. IV, 53 Stat. 1424, 1425, sec. 102, Reorg. Plan No. 3 of 1946, 3 CFR, 1946 Supp., Ch. IV, 60 Stat. 1097; sections 431, 624, and 644 of the Tariff Act of 1930, as amended (46 Stat. 710, as amended, 759, 761, 52 Stat. 1089, 19 U. S. C. 1431, 1624, 1644); and sections 202, 215 and 361-369 of the Public Health Service Act, as amended (58 Stat. 683, 690, 703-706, 63 Stat. 835; 42 U. S. C. 202, 216, 264-272).

§ 6.2 *Scope and definitions.* For the purposes of the regulations contained in this part:

(a) Every paragraph and clause relates to customs, public health, entry, and clearance, except where it applies only to certain of these matters, which is shown by headnote or context.

(b) The regulations in this part shall not be applicable in the islands of Guam, Midway, American Samoa, Wake, and Kingman Reef, the Virgin Islands (except for Public Health purposes), and other insular possessions not specified herein.

(c) The term "United States" when used in a geographical sense means the territory comprising the several States, Territories, possessions, and the District of Columbia, including the territorial waters thereof and the overlying air space, but shall not include the Canal Zone.

(d) The term "area" shall mean any one of the following parts of the United States:

(1) The mainland,
(2) Alaska,
(3) Hawaii,
(4) Puerto Rico,
(5) The Virgin Islands (for Public Health purposes only).

(e) The term "aircraft" means civil aircraft, that is, any aircraft not used exclusively in the governmental service of the United States or a foreign country, and includes any government-owned aircraft engaged in carrying persons or property for commercial purposes.

(f) The term "aircraft commander" means the person serving on the aircraft having charge or command of its operation and navigation.

(g) The term "scheduled airline" means any individual, partnership, corporation, or association engaged in air transportation upon regular schedules to, over, or away from the United States, or from area to area, and holding a Foreign Air Carrier Permit or a Certificate of Public Convenience and Necessity issued pursuant to the Civil Aeronautics Act of 1938.

(h) The term "international airport" means any airport designated by the Secretary of the Treasury or the Commissioner of Customs as a port of entry for aircraft arriving in the United States from any place outside thereof and for the merchandise carried on such aircraft, by the Attorney General as a port of entry for aliens arriving on such aircraft, and by the Secretary of Health, Education, and Welfare as a place for quarantine inspection.

§ 6.3 *Landing requirements*—(a) *Place of landing.* Every aircraft coming into any area from any place outside thereof shall land in such area unless exempted from this requirement by the Administrator of the Civil Aeronautics Administration, Washington 25, D. C. The first landing shall be at an international airport unless permission to land elsewhere shall first be granted by the Commissioner of Customs, in cases of aircraft operated by scheduled airlines, and in all other cases by the collector or other customs officer in charge at the port of entry or customs station nearest the intended place of first landing. When the Commissioner of Customs grants permission to land elsewhere than at an international airport, he shall immediately notify the heads of the Public Health Service and of any other agency likely to be concerned with the landing, and, when a collector or other customs officer grants such permission, he shall immediately notify the principal local officer of each such agency. In cases where such permission is given, the owner, operator, or person in charge of the aircraft shall pay the additional expenses, if any, incurred in inspecting the aircraft, passengers, employees, and merchandise, including baggage, carried therein. When such permission is granted to a scheduled airline to land aircraft operating on a schedule, no inspection charge shall be made except for overtime service performed by customs officers.

(b) *Advance notice of arrival.* (1) Except as hereinafter provided for, no aircraft coming into any area from any place outside the United States or from the Virgin Islands (see § 6.2 (b)) may land in such area unless timely notice of the intended flight shall have been furnished previously, either by or at the request of the aircraft commander, to the collector or other customs officer in charge at or nearest the intended place of first landing in such area, who shall notify the immigration officer in charge at or nearest the intended place of first landing. Notice of the intended flight shall also be furnished to the quarantine officer in charge at or nearest the intended place of first landing in the case of aircraft coming into an area from any place outside the United States, and in the case of aircraft coming to a port under the control of the United States from another such port when conditions cause such aircraft to be subject to quarantine inspection under 42 CFR 71.46. Such advance notice will not be required in the case of aircraft of a scheduled airline arriving in accordance with the regular schedule filed with the collector of customs for the district in which the place of first landing in the area is situated. If dependable facilities for giving notice are not available before departure any radio equipment the plane possesses shall be utilized to give notice during its approach so far as feasible. If timely notice has not been given, or if the Government officers have not arrived, the aircraft commander on landing shall hold the aircraft and any merchandise, including baggage, thereon intact and keep the passengers and crew members in a segregated place until the inspection officers arrive. Except where the uncertainty of communication facilities is already known to the Government officers in charge, any aircraft commander for whose aircraft timely notice has not been given shall furnish a statement of the reasons for his failure to do so.

(2) Each notice of an intended flight shall specify the type of aircraft, the registration marks thereon, the name of the aircraft commander, the place of last departure, the international airport or other place at which landing has been authorized, number of alien passengers, number of citizen passengers, and the estimated time of arrival; and shall be sent so as to be received in sufficient time to enable the officers designated to inspect the aircraft to reach the international airport or such other place of first landing prior to the arrival of the aircraft.

(c) *Permission to discharge or depart.* No aircraft arriving in the United States from any place outside thereof, or in an area from another area carrying residue foreign cargo (see § 6.10) shall depart from the place of landing, or discharge any passengers or merchandise, including baggage, without receiving permis-

[1] These regulations entitled "Air Commerce Regulations" appear under two designations in the Code of Federal Regulations, i. e., 19 CFR 6.1–6.14 (Customs Duties) and 42 CFR 71.501–71.514 (Public Health).

sion from the customs officers in charge. For quarantine requirements see § 6.12.

(d) *Permit to proceed; foreign aircraft.* (1) Aircraft are subject to customs entry when brought in for repairs or when otherwise treated as imported articles. Before an aircraft which is not treated as an imported article, which is registered in a foreign country, and which arrives in the United States carrying passengers for hire or merchandise is ferried (proceeds in ballast) from the airport of first arrival to one or more airports in the United States, its commander shall obtain from the collector of customs at the airport of first arrival a permit on customs Form 4449 allowing the aircraft to proceed from airport to airport in the United States, which shall be retained on board such aircraft while in the United States. At each airport visited, the customs officer there, or, if there is none, the airport manager, shall make an endorsement on the back of such permit showing the name of the airport, date and time of arrival, date and time of departure, and purpose of the visit. The permit shall be surrendered to the collector of customs at the port of final clearance for a foreign destination, who shall satisfy himself prior to the issuance of clearance that the aircraft received proper customs treatment while in this country. The permit shall then be returned to the collector of customs at the port of issue.

(2) A copy of the permit shall be retained by the collector at the port where issued. If within 60 days after the issuance of such permit the said collector does not receive a report of the outward clearance of the aircraft covered thereby, the matter shall be reported to the supervising customs agent for investigation.

(3) Civil aircraft registered in the United States and arriving from a foreign country with passengers carried for hire or merchandise, after proper customs and quarantine treatment of all such passengers and merchandise, may be allowed to proceed upon their identity being established.

(e) *Monthly and annual requests for overtime services and licenses to unlade and lade.* A special license on customs Form 3851 running for any period up to 1 month and in multiples of months thereafter, but not to exceed 1 year nor longer than the period of the supporting bond, may be granted to a scheduled airline to unlade passengers or merchandise, including baggage, or to lade merchandise, including baggage, in the case of any or all of its planes at night or on a Sunday or holiday when customs supervision is required. The application for such a special license shall be on customs Form 3851 and shall be supplemented by a request on customs Form 3853 (modified) for overtime services of customs officers. Such request for overtime services must show the exact times when overtime services will be needed unless arrangements are made so that the proper customs officer will be notified during official hours in advance of the services requested as to the exact times that the services will be needed. The special license shall not be granted until the required bond on customs Form 3587, 7567, or 7569 shall have been filed.

(f) *Monthly and annual permits to unlade and lade.* The collector may also issue a permit running for any period up to 1 month and in multiples of months thereafter, but not to exceed 1 year, to unlade or lade during official hours any or all of the planes of a scheduled airline. Customs Form 3851 shall be used for such purpose.

(g) *Emergency or forced landing.* Should any aircraft coming into the United States from any place outside thereof, or into any area from any other area, make an emergency or forced landing in the United States, the aircraft commander shall not allow any merchandise, including baggage, to be removed from the landing place without permission of the customs and quarantine officers, nor allow any passenger or person employed thereon to depart from the landing place without permission of the quarantine officer, unless such removal or departure is necessary for purposes of safety, communication with health and customs authorities, or the preservation of life, health or property. As soon as practicable, the aircraft commander, or a member of the crew in charge, or the owner of the aircraft, shall communicate with the customs officer at the intended place of first landing or at the nearest international airport or other customs port of entry in that area and also with the nearest quarantine officer and make a full report of the circumstances of the flight and of the emergency or forced landing. Mail carried as such may be removed from such aircraft upon making an emergency or forced landing, but if so removed shall be delivered at once to a responsible officer or employee of the Postal Service.

§ 6.4 *Entry and clearance.* (a) Aircraft coming into any area from any place outside the United States or from the Virgin Islands (see § 6.2 (b)) shall be entered in such area if landing is made therein and if carrying passengers for hire or commercial cargo (see § 6.8). Aircraft proceeding from one area into another shall be entered in the latter area if landing is made therein and if carrying residue cargo. Aircraft not required to enter under this paragraph are subject to other customs or applicable quarantine requirements (see § 6.3).

(b) Entry shall be made by the aircraft commander, or by any other authorized agent of the owner or operator of the aircraft (hereinafter referred to as an authorized person),[2] at the international airport at which the first landing is made in the area. If, pursuant to § 6.3 (a), the first landing occurs at a place not an international airport, entry shall be made at the nearest international airport or customs port of entry, unless some other place is designated for that purpose by the Commissioner of Customs.

(c) Aircraft departing from any area for foreign territory, or to take aboard or discharge persons or merchandise anywhere outside the United States, or departing from any area for another area carrying merchandise destined to or through Puerto Rico or residue cargo shall be cleared (see § 6.9) in the area from which departing. Clearance is not required of aircraft not carrying passengers for hire or merchandise, but such aircraft are subject to certain requirements under the export and import licensing regulations of the Department of State relating to international traffic in arms.[2]

(d) The clearance shall be obtained by the aircraft commander or an authorized person at the customs port of entry (whether or not an international airport) at or nearest the place of last take-off from the area, unless some other place is designated for that purpose by the collector of customs.

(e) This section shall not apply to the entry of aircraft of scheduled airlines complying with the terms of § 6.5, nor to the clearance of such aircraft complying with the terms of § 6.6, nor to the clearance of any aircraft holding a permit issued by the Secretary of Commerce authorizing departure without clearance.

§ 6.5 *Entry of aircraft of scheduled airlines.* (a) Aircraft operated by scheduled airlines coming into any area from any place outside the United States or from the Virgin Islands (see § 6.2 (b)) shall be entered in the area of first landing.

(b) Aircraft operated by scheduled airlines coming from one area into another area shall be entered therein if carrying residue cargo (§ 6.10).

(c) Entry required by this section in an area shall be made at the place of landing provided for under § 6.3.

§ 6.6 *Clearance of aircraft of scheduled airlines.* (a) Aircraft operated by scheduled airlines departing for any place outside the United States may clear from the area of departure, but clearance shall be mandatory only during any period covered by a proclamation of the President that a state of war exists between foreign nations, or the aircraft is:

(1) Beginning a flight in that area; or

(2) Carrying from that area merchandise which must be listed in its general clearance declaration (§ 6.9).

(b) Aircraft operated by scheduled airlines departing from any area for another area shall clear in the area from which departing if carrying merchandise destined to or through Puerto Rico or residue foreign cargo.

(c) Clearance required by this section may be obtained by the aircraft commander or an authorized person at the customs port of entry (whether or not an international airport) at or nearest each place at which merchandise or passengers, or both, are taken aboard for discharge beyond the area. In such case the clearance shall be limited to the passengers and merchandise taken aboard at such place. Otherwise the clearance shall be obtained at the customs port of entry (whether or not an international airport) at or nearest the place of last take-off in the area unless some other place for clearance is designated by the collector of customs.

§ 6.7 *Documents.* (a) The forms described in §§ 6.8 and 6.9 shall be the primary documents required for entry and clearance of aircraft and the listing of passengers and merchandise carried thereon. The forms shall be approximately but not to exceed 8½ inches wide and 14 inches long and shall be on white bond paper that will not discolor or become brittle within 20 years. If these forms are dittoed or if the entries on them are to be dittoed, the paper must be substance 40, 17 x 22 inches, 1,000-sheet basis; if printed or typewritten, at least 25 percent rag, substance 26, 17 x 22 inches, 1,000-sheet basis. These forms and the entries thereon must be dittoed, typewritten, or printed in the English language, with ink or dye that will not fade or "feather" within 20 years. The forms to be used for the entry and clearance of the aircraft, passengers, crew members, and merchandise carried thereon, except the forms of air cargo manifest, shall be forms approved by the Commissioner of Customs and the Surgeon General. The form of air cargo manifest shall be approved by the Commissioner of Customs.

(b) The forms described in §§ 6.8 and 6.9, except the air passenger manifest, may be obtained from collectors of customs upon prepayment by the owner or operator of the aircraft. A small quantity of each of such forms shall be set aside by collectors of customs for free distribution and official use. The form of air passenger manifest may be obtained upon prepayment from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. The forms of general declaration and air passenger manifest may be printed or dittoed by private parties, provided the forms so printed or dittoed conform to the officially manufactured forms currently in use, with respect to size, wording, arrangement, style, and size of type, and paper specifications.

§ 6.8 *Documents for entry.* (a) At the time any aircraft arriving from outside the United States or from the Virgin Islands (see § 6.2 (b)) lands in any area in which entry is required by § 6.4 or § 6.5, the aircraft commander or an authorized person shall deliver a general declaration on customs Form 7507 in accordance with this section. If an aircraft arrives in an area from another area, the documents specified in § 6.10 (c) shall be delivered.

(b) A general declaration shall contain or have attached thereto the following information:

(1) A crew manifest. This manifest is not required if the aircraft is not arriving from outside the United States or from the Virgin Islands (see § 6.2 (b)).

(2) A passenger manifest, which shall show the full name and address in the United States of each arriving passenger.

(3) A cargo manifest. The cargo manifest on the general declaration, properly executed and having airway bills or consignment notes attached, will be acceptable if it bears a notation such as "Express as per airway bills attached" and shows the airway bill or consignment note numbers, if any. If the airway bills or consignment notes are not attached to the general declaration or to the separate form of cargo manifest, the full information indicated in the cargo manifest on the general declaration shall be furnished. Customs Form 5119 may be used in lieu of the cargo manifest if the baggage or other merchandise consists of a single shipment and does not exceed $250 in value. No cargo manifest or stores list shall be required for merchandise, including baggage, arriving from a foreign country and departing for the same or another foreign country on the same through flight, although any such documents on board may be inspected if necessary. (For rule applicable to arrival in an area from another area, see § 6.9 (c).)

(4) In the case of aircraft arriving in the United States on a trip which started in contiguous foreign territory, the total number of pieces of accompanied checked baggage on board shall be shown on the air cargo manifest, unless the number of pieces of baggage belonging to each passenger and crew member appears opposite the name of the respective passenger or crew member on any passenger or crew manifest required under these regulations. In the case of aircraft arriving in the United States on a trip which started in noncontiguous foreign territory or the Virgin Islands (see § 6.2 (b)), the collector may require the pertinent baggage declaration number, or, in the absence of such declaration, the number of pieces of accompanied baggage belonging to each passenger and crew member, to be shown opposite the name of the respective passenger or crew member on the passenger and crew manifest, or, if passengers and crew manifest is not required, on a separate baggage list. At ports where this information is not required, a rubber-stamp endorsement reading "Baggage as per baggage declarations filed on entry" shall be made upon the passenger and crew manifest or the baggage list, as the case may be. The baggage list, if required, shall contain, in addition to the information mentioned above, information identifying the flight as specified in the heading of the form of air passenger manifest, and that form, appropriately modified, may be used for this purpose. Unaccompanied baggage arriving in the United States under a check number from any foreign country or the Virgin Islands (see § 6.2 (b)), by air mail be shown on the air cargo manifest under the following headings:

| *Check number* | *Description of package* | *Where from* | *Destination* |
|---|---|---|---|

On the right of the foregoing information, two blank columns, one headed "Name of examining officer" and on the right thereof another column headed "Disposition" shall be provided on the air cargo manifest for use of customs officers. Unaccompanied unchecked baggage arriving as air express or air freight shall be manifested as other air express or freight.

(5) A report showing:

(i) Details of any illness suspected of being of an infectious nature that has occurred aboard the aircraft during the flight;

(ii) Details of any other condition on board the aircraft during its flight which may lead to the spread of disease;

(iii) Details of each disinsecting or sanitary treatment (place, date, time, method) during the flight (if no disinsecting has been carried out during the flight give details of most recent disinsecting);

(iv) Any animals (including birds and insects), and cultures of bacteria, fungi, and viruses, and other infectious agents on board.

(6) Such other information and statements as are indicated on the general declaration form.

(c) The general declaration required by this section shall be filed in four copies with two copies of each attached passenger manifest and three copies of each attached cargo manifest. These documents shall be disposed of as follows:

(1) One copy of the general declaration and one copy of each attached passenger manifest shall be delivered by the aircraft commander or an authorized person to the quarantine officer immediately upon the arrival at the international airport or the place of first landing in the area.

NOTE: These copies are not required for flights originating in the Virgin Islands of the United States.

(2) Two copies of the general declaration, one copy of each attached passenger manifest, and two copies of each cargo manifest shall be delivered by the aircraft commander or an authorized person immediately to the customs officer in charge at the airport or other place of arrival. One copy of the general declaration and one copy of each cargo manifest shall be retained by the aircraft commander or authorized person and forwarded promptly by him to the comptroller of customs in whose district such airport or place is located.

(3) One copy of the general declaration and one copy of each attached cargo manifest delivered to the customs officer shall be forwarded by him to the comptroller of customs above mentioned with appropriate notations thereon showing the disposition of the merchandise covered thereby. One copy of the general declaration delivered to the customs officer shall be retained by him as a record of the entry of the aircraft.

(d) The provisions of section 466, Tariff Act of 1930 as amended (19 U. S. C. 257, 258), are applicable to any aircraft of United States registry engaged in trade and arriving in the United States, as defined in section 401 (k), Tariff Act of 1930, as amended (19 U. S. C. 1401

[2] Section 431, Tariff Act of 1930, as amended (19 U. S. C. 1431): "(b) Whenever a manifest of articles or persons on board an aircraft is required for customs purposes to be signed, or produced or delivered to a customs officer, the manifest may be signed, produced, or delivered by the pilot or person in charge of the aircraft, or by any other authorized agent of the owner or operator of the aircraft, subject to such regulations as the Secretary of the Treasury may prescribe. If any irregularity of omission or commission occurs in any way in respect of any such manifest, the owner or operator of the aircraft shall be liable for any fine or penalty prescribed by law in respect of such irregularity."

[2] Information regarding requirements relating to the licensing for export and import of articles defined as arms, ammunition, and implements of war may be obtained at any customhouse.

(k)), whether from a contiguous or noncontiguous foreign country, and a notation as to any equipment installed on, or repairs made to, any such aircraft in a foreign country shall be made in the aircraft journey log book, which shall set forth a general description of the equipment or repairs and a statement of any necessity therefor. The aircraft commander or an authorized person, on the first subsequent arrival of the aircraft in the United States, shall exhibit the journey log book to the customs officer at the place of arrival. In no case is the filing of customs Form 3417 required for any such aircraft. Except as specified hereafter in this paragraph, any such equipment purchased or repairs made shall be subject to entry and deposit of duty as prescribed by § 4.14 of this chapter, but the following may be added to the entry in lieu of the filing of customs Form 3415:

This entry contains a complete account of the equipment purchased for and the repairs made to the within-mentioned aircraft during the flight covered hereby, together with the cost of such equipment and the expenses of such repairs (including the cost of installation of equipment and the cost of repair parts and material used). Application is hereby made for the ascertainment of the amount of duty due under section 466, Tariff Act of 1930, as amended.

The filing of customs Form 3415 and entry and deposit of duty on such equipment or repairs shall not be required if (1) the aircraft belongs to a scheduled airline, or to an air carrier generally authorized to operate contract passenger or cargo flights and operating between the United States and foreign territory, (2) the aircraft commander or an authorized person executes and files with the entry of the aircraft a certificate in the form set forth below, and (3) the collector is satisfied from an inspection of the journey log book and such further investigation as he may deem necessary that the facts with respect to the installation of the equipment and making of repairs were as set forth in such certificate.

CERTIFICATE RESPECTING EQUIPMENT PURCHASED FOR OR REPAIRS MADE TO UNITED STATES AIRCRAFT WHILE IN A FOREIGN COUNTRY

District No. ------
Port of ----------
Date ----------

I, ----------, certify that the installation of equipment and making of repairs noted in the journey log book of aircraft No. ------, flight No. ------, now entering from ----------, exhibited herewith were necessary by reason of stress of weather or other casualty occurring since such aircraft last left the United States and were required to secure the safety and airworthiness of the aircraft in accordance with Civil Aeronautics Administration regulations to enable the aircraft to continue its flight; or that the equipment installed and materials used in making the repairs were of the growth, produce, or manufacture of the United States and the work incident to such installation or repairs was performed by the regular crew of the aircraft or by residents of the United States.

Title ----------

(e) The provisions of section 446, Tariff Act of 1930 (19 U. S. C. 1446), relating to supplies and stores retained on board, shall be applicable to aircraft arriving in the United States from any foreign port or place or from the Virgin Islands (see § 6.2 (b)).

(f) Crew baggage declarations required by § 10.22 (b) of this chapter shall be filed by the officers and members of the crew of aircraft arriving from contiguous or noncontiguous foreign territory or from the Virgin Islands (see § 6.2 (b)).

§ 6.9 *Documents for clearance.* (a) At the time of the departure of any aircraft from any area from which clearance is required by § 6.4 or § 6.6, the aircraft commander or an authorized person shall deliver to the customs officer in charge shipper's export declarations on Commerce Form 7525–V for all cargo on the aircraft (also for the aircraft itself if it is being exported from the United States for foreign account), and a general declaration in accordance with this section. The foregoing documents may be filed pro forma if the aircraft is departing from the United States and prior to departure a proper bond is given, in which case the completed documents are to be delivered pursuant to the bond not later than the fourth day after departure: *Provided*, That, during any period covered by a proclamation of the President that a state of war exists between foreign nations, no aircraft shall be cleared for a foreign destination until the shipper's export declarations have been filed with the customs officer in charge.[4]

(b) The general declaration shall be on the same form as is required by § 6.8. Any cargo manifest delivered with the general declaration shall also be on the same forms as are required by § 6.8.

(c) When the aircraft is departing from the United States, the general declaration required by this section shall be prepared in duplicate, with a single copy of each cargo manifest. One copy of the general declaration and each air cargo manifest shall be delivered by the aircraft commander or an authorized person to the customs officer in charge to be retained by him as a record of outward clearance.

(d) One copy of the general declaration for departure from the United States shall constitute a clearance certificate when endorsed by the customs officer in charge to show that clearance is granted.

(e) One extra copy of the general declaration and one copy of the air cargo manifest shall be prepared if the aircraft is carrying merchandise other than residue cargo between the mainland and Puerto Rico. Such declaration and manifest shall be delivered to the customs officer in the area from which the aircraft is departing and shall be retained by him. If the aircraft is carrying residue cargo, a copy of the general declaration retained on board at the time of departure must have the endorsement of the customs officer in the area from which the aircraft is departing that permit to proceed is granted. (For residue cargo see § 6.10.)

[4] For export of aircraft, see 22 CFR Part 75.

§ 6.10 *Residue cargo; customs.* (a) Tariff Act of 1930, section 442 (19 U. S. C. 1442):

• • • Any vessel arriving from a foreign port or place having on board merchandise shown by the manifest to be destined to a port or ports in the United States other than the port of entry at which such vessel first arrived and made entry may proceed with such merchandise from port to port or from district to district for the unlading thereof.

(b) Tariff Act of 1930, section 443 (19 U. S. C. 1443):

Merchandise arriving in any vessel for delivery in different districts or ports of entry shall be described in the manifest in the order of the districts or ports at or in which the same is to be unladen. Before any vessel arriving in the United States with any such merchandise shall depart from the port of first arrival, the master shall obtain from the collector a permit therefor with a certified copy of the vessel's manifest showing the quantities and particulars of the merchandise entered at such port of entry and of that remaining on board.

(c) Tariff Act of 1930, section 444 (19 U. S. C. 1444):

Within twenty-four hours after the arrival of such vessel at another port of entry, the master shall report the arrival of his vessel to the collector at such port and shall produce the permit issued by the collector at the port of first arrival, together with a certified copy of his manifest.

(d) Aircraft arriving in the United States with cargo on board shown by the manifest to be destined to other ports in the same or in some other areas of the United States or outside the United States may be permitted to proceed with such cargo from port to port in the United States or to a foreign country for the unlading thereof under the procedure prescribed in paragraph (c) of this section, upon the giving of a bond on customs Form 7567 or 7569. When an aircraft arriving from outside the United States has on board no cargo and immediate clearance is requested, it may be permitted to proceed if a bond on customs Form 7567 or 7569 is on file covering such aircraft.

(e) When applying for clearance from the airport or place of first entry in the United States, the aircraft commander or an authorized person shall present to the collector (1) two copies[5] of a general declaration and two copies of each manifest[6] forming a part thereof (referred to hereinafter as abstract general declarations and manifests), covering all foreign, residue cargo, or passengers, not yet cleared by customs or other interested governmental agency and manifested or destined for discharge at other domestic or foreign airports and of all crew members, and (2) one certified copy of the original complete general declaration which was filed upon the arrival of the aircraft at such airport or place, and of the manifests forming a part thereof[7] required on entry of aircraft from noncontiguous foreign territory (referred to hereinafter as the traveling general declaration and manifest). If clearance is in order, a Permit to Proceed from One Airport to Another, which may be stamped, mimeographed, or printed on one of the abstract general declarations or on a separate sheet of paper attached thereto, shall be dated and signed by the appropriate customs officer at the airport of clearance. The documents presented by the aircraft commander or authorized person when applying for clearance shall be delivered to the aircraft commander, together with the permit to proceed, for deposit at the next international airport. The permit to proceed and a related declaration of the aircraft commander or an authorized person, to be executed on entry at a following airport, shall be substantially as follows:

[5] Other copies of abstract manifests may be required by other interested governmental agencies.

[6] Includes air bills or consignment notes used as manifests.

PERMIT TO PROCEED FROM ONE AIRPORT TO ANOTHER

Airport of Departure --------
Date ----------
Permission is hereby given aircraft -------
to proceed to ----------
(Next international airport)

The aircraft, which has arrived from and is destined to the places shown in the general declaration, is proceeding to such places of destination to discharge residue cargo, passengers, or crew members and their purchases, as listed in the attached manifests. Bond was given at the initial international airport for the cargo retained on board. Items of cargo manifested for delivery at this airport appear to have been landed.

No. of crew members not cleared by Public Health for: Quarantine ----------; medical examination of aliens ----------.
No. of passengers not cleared by Public Health for: Quarantine ----------; medical examination of aliens ----------.
No. of crew members not cleared by customs ----------.
No. of passengers not cleared by customs ----------.
No. of pieces of cargo not cleared ----------

Customs officer (title)

DECLARATION ON ENTRY OF AIRCRAFT AT FOLLOWING AIRPORT

Airport of arrival --------
Date ----------

I, ----------, commander or authorized representative of the aircraft identified in this document, declare and guarantee that there were not, when such aircraft departed from the airport of ----------, nor have been since nor now are, any more or other goods, wares, or merchandise on board than are stated in the manifests attached hereto.

Title ----------

(f) Upon arrival of the aircraft at the next airport, the aircraft commander or an authorized person shall make entry by presenting the abstract general declarations and manifests and the traveling general declaration and manifest, together with the permit to proceed, to the customs officer after the declaration at the bottom of the permit to proceed has been properly executed. The declarations and entries of crew members (customs Form 5123) who leave the aircraft at that airport with their purchases shall be detached from the traveling manifest and retained at that port. Upon departure from the second airport of arrival with foreign residue cargo, passengers, or crew members and their purchases not yet cleared by customs or other interested governmental agency, the procedure shall be the same as at the airport of first arrival, except that no new traveling general declaration and manifest shall be prepared, but the traveling general declaration and manifest as certified at the first international airport shall be delivered to the aircraft commander for deposit at the next airport of entry.

[7] If crew purchases are not listed on abstract manifests but references are made thereon to the declarations and entries of crew members (customs Form 5123) on which the articles are listed, the declaration and entries of the crew members who have not yet left the aircraft with their purchases shall be attached to the traveling manifest.

(g) The same procedure as above set forth shall be followed at any following airport to which the aircraft may proceed with foreign residue cargo, passengers, or crew members and their purchases not yet cleared by customs or other interested governmental agency. The traveling general declaration and manifest shall be retained by the collector of customs at the last domestic port of discharge.

(h) The provisions of this section shall be applicable to aircraft arriving in the United States from either contiguous or noncontiguous foreign territory or from the Virgin Islands (see § 6.2 (b)). Except as specified in this section, the customs requirements applicable to residue vessel cargo (see § 4.85 of this chapter) shall apply to residue aircraft cargo.

§ 6.11 *General provisions; customs.* Except as otherwise provided for in the regulations in this part, aircraft arriving from contiguous foreign territory and the persons and merchandise, including baggage, carried thereon shall be subject to the customs laws and regulations applicable to vehicles arriving from contiguous foreign territory; and aircraft and the passengers and merchandise, including baggage, carried thereon, arriving from any other place, shall be subject to the customs laws and regulations applicable to vessels so arriving, insofar as such laws and regulations are applicable to aircraft.

§ 6.12 *Public health requirements—*(a) *Release by Public Health Service.* When an aircraft subject to quarantine inspection in accordance with 42 CFR Part 71, arrives at an international airport or other place of first landing, the aircraft commander shall be responsible for the detention of the aircraft, its crew and passengers until they are released by the quarantine officer at the international airport or other place of first landing. Any baggage, cargo, or other contents on board such aircraft shall be held at such airport or place until released by the quarantine officer. (For procedure in case of emergency or forced landing, see § 6.3 (g).)

(b) *Restrictions on boarding aircraft and contacting personnel.* Except with the permission of the quarantine officer, no person other than the quarantine officer and quarantine employees shall be permitted to board any aircraft subject to quarantine inspection or to have contact with the crew or passengers of such aircraft until quarantine inspection of the aircraft, crew, and passengers has been completed. The same restrictions as those imposed on the crew and passengers shall be imposed on a person boarding such aircraft or having contact with a passenger or member of the crew when the quarantine officer considers such contact a possible means of spreading a quarantinable disease.

(c) *Pratique; remands.* When all necessary quarantine and sanitary measures have been applied to the aircraft and persons and things on board, pursuant to these regulations (42 CFR Part 71), the quarantine officer shall issue a certificate of free pratique, which may be stamped on a copy or copies of the general declaration for presentation to the customs officer in charge, including the traveling general declaration. Pending compliance with quarantine requirements the quarantine officer may issue a certificate of provisional pratique for the aircraft, stating the measures to be carried out. When quarantine measures cannot be completed at the place of first landing, the medical officer in charge may remand the aircraft under provisional pratique to the next airport for such additional measures as may be necessary. Aircraft arriving under provisional pratique at succeeding airports may, when quarantine measures cannot be completed there, be directed to proceed under provisional pratique to the next succeeding airport for completion of quarantine measures.

(d) *Special sanitary treatment.* Any aircraft arriving from any foreign port or place which the quarantine officer declares to be of such menace that it cannot be adequately or safely handled at the airport of first or intended landing shall be required to proceed with all passengers and persons employed on board and all mail, baggage, cargo, or other contents on board, as may be designated by such officer, to an airport indicated by such officer to have adequate facilities for such treatment as shall be prescribed by him.

(e) *Disinsectization of aircraft.*[8] An aircraft bound for any port in the United States from any port in a region designated as a yellow fever area by the Surgeon General of the Public Health Service for the purposes of this regulation or from any other region where yellow fever may have appeared shall be disinsectized in all compartments not later than thirty minutes prior to landing. The insecticide used and method of disinsectization shall be those prescribed by the Surgeon General of the Public Health Service. When on arrival of an aircraft from any yellow fever region the quarantine officer, after inspection, determines that the aircraft has not

[8] At airports where the hazard of introducing disease carrying insects exists, it is the policy of the United States Public Health Service to conduct "entomological surveillance" of the airport area. This surveillance consists of periodic entomological surveys carried on by entomologists or trained representatives for the purpose of the early detection and prompt eradication of any insect which may unknowingly have been introduced by aircraft.

been adequately disinsectized, the aircraft shall be kept tightly closed and disinsectization completed before discharge of passengers, crew, mail, baggage, cargo, or other material. No person other than quarantine officials shall be allowed on board until disinsectization is completed. Additional requirements for disinsectization of aircraft flying to or from certain regions may be prescribed by the Surgeon General of the Public Health Service, when necessary to prevent the importation or spread of insect vectors of disease.

(f) *Insecticide and method of disinsectization.* The following insecticides and disinsectization method are prescribed pursuant to paragraph (e) of this section:

(1) The insecticide shall be either Insecticidal Aerosol G–382, the formula of which is given below, or an insecticide found by the Surgeon General of the Public Health Service, upon application by an interested person, to be substantially as effective as Insecticidal Aerosol G–382:

FORMULA FOR INSECTICIDAL AEROSOL G–382

| | Percent by weight |
|---|---|
| Pyrethrum extract, purified (20 percent pyrethrins) | 5 |
| DDT (aerosol grade) | 3 |
| Cyclohexanone | 5 |
| Lubricating oil (SAE 30) | 2 |
| Freon "12" | 85 |

(2) The method of disinsectization shall be as follows:

(i) The insecticide shall be dispensed in the amount of not less than 5 grams for each 1,000 cubic feet of enclosed space in the aircraft, and shall be released or sprayed throughout all accessible compartments.

(ii) Disinsectization may be accomplished either while the aircraft is in flight or while on the ground prior to take-off, but in no case shall disinsectization be accomplished later than 30 minutes prior to the first landing at a United States port.

(iii) The ventilation system shall be stopped and all openings to the exterior kept closed while the insecticide is being released or sprayed, and for a period of not less than 3 minutes thereafter. If disinsectization is accomplished on the ground prior to take-off, the ventilation system may be opened at the end of such period, provided that the system is equipped with filters or other means for preventing the entrance of insects into the aircraft, but doors, windows, or other such openings to the exterior shall be kept closed until after the take-off, except in the case of emergency, or to permit persons applying the insecticide to debark.

(g) *General provisions.* The regulations appearing in 42 CFR Part 71 are applicable to aircraft and to passengers, merchandise, and baggage carried thereon, in the absence of express provision to the contrary (see authority cited in § 6.1).

§ 6.13 *Penalties.* (a) Any person violating any customs requirement prescribed in this part or any provision of the customs laws or regulations made applicable to aircraft by § 6.11 shall be subject to a civil penalty of $500, and any aircraft used in connection with any such violation shall be subject to seizure and forfeiture, as provided for in the customs laws. Such penalty and forfeiture may be remitted or mitigated in accordance with the provisions of §§ 23.23 to 23.25 of this chapter.

(b) Any person violating any public health regulation relating to aircraft or any provision of the public health laws or regulations made applicable to aircraft by § 6.12 shall be subject to punishment by fine or imprisonment as provided for in section 368 (a) of the Public Health Service Act (42 U. S. C. 271 (a)). Any aircraft which violates any public health regulation relating to aircraft or any provision of the public health laws or regulations made applicable to aircraft by § 6.12 shall be subject to forfeiture as provided for in section 368 (b) of the Public Health Service Act (42 U. S. C. 271 (b)). Such forfeiture may be remitted or mitigated by the Surgeon General with the approval of the Secretary of Health, Education, and Welfare.

(c) Liability to penalties with respect to any one of the sets of laws, that is, the customs laws, the public health laws, and the entry and clearance laws, under which the regulations in this part are prescribed, shall be separate from such liability with respect to any other set of such laws.

§ 6.14 *International airports; regulations.* (a) International airports will be designated after due investigation to establish the fact that a sufficient need exists in any particular district or area to justify such designation and to determine the airport best suited for such purpose.

(b) A specific airport will be designated in each case, rather than a general area or district which may include several airports.

(c) The designation as an international airport may be withdrawn if it is found that the volume of business clearing through the port does not justify maintenance of inspection equipment and personnel, if proper facilities are not provided and maintained by the airport, if the rules and regulations of the Federal Government are not complied with, or if it be found that some other location would be more advantageous.

(d) International airports shall be municipal airports, unless particular conditions which prevail warrant a departure from this requirement.

(e) Each international airport shall provide without cost to the Government suitable office and other space for the exclusive use of Federal officials connected with the port. A suitable surfaced loading area shall be provided by each airport at a convenient location with respect to such office space. Such loading area shall be reserved for the use of aircraft entering or clearing through the airport.

(f) International airports shall be open to all aircraft for entry and clearance purposes and no charge shall be made for the use of said airports for such purposes. However, in any case where an international airport authorizes any such aircraft to use such airport for the taking on or discharging of passengers or cargo, or as a base for other commercial operations or for private operations, this paragraph shall not be interpreted to mean that charges may not be made for such commercial or private use of such airport.

(g) All aircraft entering or clearing through an international airport shall receive the required servicing by airport personnel promptly and in the order of arrival or preparation for departure without discrimination. The charges made for such servicing shall in no case exceed the schedule of charges prevailing at the airport in question. A copy of said schedule of charges shall be posted in a conspicuous place at the office space provided for the use of Federal officials connected with the port.

(h) International airports shall adopt and enforce observance of such requirements for the operation of airports, including airport rules, as may be prescribed or recommended by the Civil Aeronautics Administration.

(i) Requirements in addition to all the foregoing may be imposed at a particular airport as the needs of the district or area to be served by the airport may demand.

[SEAL] D. B. STRUBINGER,
*Acting Commissioner of Customs.*

## TITLE 25—INDIANS

### Chapter I—Bureau of Indian Affairs, Department of the Interior

**Subchapter T—Patents in Fee, Competency Certificates, Sales and Reinvestment of Proceeds**

PART 241—ISSUANCE OF PATENTS IN FEE, CERTIFICATES OF COMPETENCY, SALE OF CERTAIN INDIAN LANDS, AND REINVESTMENT OF PROCEEDS

APPROVAL OF MORTGAGES AND DEEDS OF TRUST

Section 241.52, under the subheading "Mortgages and Deeds of Trust to Secure Loans to Indians", is amended to read as follows:

§ 241.52 *Approval of mortgages and deeds of trust.* The Commissioner of Indian Affairs or his authorized representative may approve mortgages or deeds of trust on any individually owned trust or restricted land whenever such lands under any law or treaty may be sold with the approval of the Secretary of the Interior or his duly authorized representative. The approval of such a mortgage or deed of trust terminates the trust or restricted status of the land only with respect to such mortgage or deed of trust and only for the purpose of permitting foreclosure or sale pursuant to the terms of the mortgage or deed of trust in accordance with the laws of the State or Territory in which the land is situated.

(R. S. 161; 5 U. S. C. 22)

RALPH A. TUDOR,
*Acting Secretary of the Interior.*

**Appendix—Extension of the Trust or Restricted Status of Certain Indian Lands**

EXTENSION OF TRUST PERIODS ON INDIAN LANDS EXPIRING DURING THE CALENDAR YEAR 1954

By virtue of and pursuant to the authority delegated by Executive Order No. 10250 of June 5, 1951, and pursuant to section 5 of the act of February 8, 1887, 24 Stat. 388, 389, the act of June 21, 1906, 34 Stat. 325, 326, and the act of March 2, 1917, 39 Stat. 969, 976, and other applicable provisions of law, it is hereby ordered that the periods of trust or other restrictions against alienation contained in any patent applying to Indian lands, whether of a tribal or individual status, which, unless extended, will expire during the calendar year 1954, be, and the same are hereby, extended for a further period of one year from the date on which any such trust or restrictions would otherwise expire.

This order is not intended to apply to any case in which Congress has specifically reserved to itself authority to extend the period of trust on tribal or individual Indian lands.

RALPH A. TUDOR,
*Acting Secretary of the Interior.*

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter I—Coast Guard, Department of the Treasury

[CGFR 53–61]

PART 135—LIGHTS FOR COAST GUARD VESSELS OF SPECIAL CONSTRUCTION

EXEMPTIONS OF STATUTORY REQUIREMENTS FOR COAST GUARD VESSELS

Certain Coast Guard vessels of special construction cannot comply with certain applicable statutory requirements relating to the lights required to be displayed by public and private vessels when navigating on the high seas or navigable waters of the United States, its territories or possessions, without seriously affecting the military characteristics and functions of the vessels concerned. It is hereby found that the Coast Guard vessels of special construction, listed in 33 CFR 135.25 (i) below, cannot comply with the provisions of Rule 2 (a) (iii), International Rules, regarding horizontal separation of range lights and are, therefore, exempted. 33 CFR 135.25 (i) describes the horizontal separation of range lights which will be carried by the Coast Guard vessels, and it is hereby found and certified that this requirement conforms as closely as feasible to applicable statutory requirements.

It is hereby found that the Coast Guard vessels of special construction, listed in 33 CFR 135.30 below, cannot comply with the requirement in Rule 2 (a) (iii), International Rules, regarding the height of the forward masthead light and are, therefore, exempted. It is hereby found and certified that the requirements in 33 CFR 135.30 (d), regarding the height the forward masthead light will be carried by the Coast Guard vessels described conform as closely as feasible to the applicable statutory requirements.

The new rule designated 33 CFR 135.35 sets forth a finding, certification, and requirement regarding the height and arc of visibility of the after anchor light for the U. S. C. G. C. Courier (WAGR–410).

The new rule designated 33 CFR 135.40 sets forth a finding, certification, and requirement regarding vertical separation of range lights for the U. S. C. G. C. Barataria (WAVP–381), U. S. C. G. C. Castle Rock (WAVP–383), and U. S. C. G. C. Yakutat (WAVP–380).

Except as otherwise provided, the Coast Guard vessels described in this document are in full compliance with the other provisions of the applicable International Rules or Inland Rules governing the areas where the vessels are being operated.

This is the second document describing exemptions of statutory requirements for Coast Guard vessels. The first document (CGFR 53–50), dated November 25, 1953, was published in the FEDERAL REGISTER dated December 1, 1953 (18 F. R. 7641, 7642).

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 167–6, dated November 17, 1953 (18 F. R. 7571), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed and shall become effective on and after January 1, 1954:

1. Section 135.25 is amended by adding a new paragraph (i), reading as follows:

§ 135.25 *International Rules; horizontal separation of range lights.* * * *

(i) The following Patrol Craft shall carry the forward masthead light and after range light with a horizontal separation of 18 feet:

U. S. C. G. C. Ariadne (WPC–101).
U. S. C. G. C. Aurora (WPC–103).
U. S. C. G. C. Dione (WPC–107).
U. S. C. G. C. Nemesis (WPC–111).
U. S. C. G. C. Nike (WPC–112).
U. S. C. G. C. Pandora (WPC–113).
U. S. C. G. C. Perseus (WPC–114).
U. S. C. G. C. Triton (WPC–116).

2. Section 135.30 is amended by adding a new paragraph (d), reading as follows:

§ 135.30 *International Rules; height of forward masthead light.* * * *

(d) The following Patrol Craft have a breadth of 25 feet and shall carry the forward masthead light at a height of 16 feet above the hull:

U. S. C. G. C Ariadne (WPC–101).
U. S. C. G. C. Aurora (WPC–103).
U. S. C. G. C. Dione (WPC–107).
U. S. C. G. C. Nemesis (WPC–111).
U. S. C. G. C. Nike (WPC–112).
U. S. C. G. C. Pandora (WPC–113).
U. S. C. G. C. Perseus (WPC–114).
U. S. C. G. C. Triton (WPC–116).

3. Part 135 is amended by adding a new § 135.35, reading as follows:

§ 135.35 *International Rules and Inland Rules; height and arc of visibility of after anchor light.* (a) Rule 11 (b), International Rules, and Article 11, Inland Rules, require that the anchor light at the stern shall be not less than 15 feet lower than the forward anchor light, and also require that this light shall be visible all around the horizon (33 U. S. C. 1451 (b), 180). Because of special construction the Coast Guard vessel named in this section cannot comply with these requirements and is, therefore, exempted.

(b) The following Auxiliary vessel shall carry the after anchor light at a height of 10 feet below the forward anchor light and the arc of visibility of the after anchor light shall be an arc of approximately 240 degrees, that is, from right aft to 120 degrees to port and 120 degrees to starboard:

U. S. C. G. C. Courier (WAGR–410).

4. Part 135 is amended by adding a new § 135.40, reading as follows:

§ 135.40 *International Rules and Inland Rules; vertical separation of range lights.* (a) Rule 2 (a) (iii), International Rules, and Article 2 (a), (e), Inland Rules, require that the vertical separation between the forward masthead light and the after range light shall be at least 15 feet (33 U. S. C. 145 (a) (iii), 172 (a), (e)). Because of special construction the Coast Guard vessels named in this section cannot comply with this requirement and are therefore exempted.

(b) The vertical separation between the forward masthead light and after range light for the U. S. C. G. C. Barataria (WAVP–381) is 7 feet 6 inches.

(c) The vertical separation between the forward masthead light and the after range light for the U. S. C. G. C. Castle Rock (WAVP–383) is 9 feet 6 inches.

(d) The vertical separation between the forward masthead light and after range light for the U. S. C. G. C. Yakutat (WAVP–380) is 11 feet 9 inches.

(Sec. 1, 59 Stat. 590, sec. 2, 65 Stat. 407; 33 U. S. C. 360, 143a. Interpret or apply sec. 6, Rule 13 (b), 65 Stat. 416, sec. 4, 62 Stat. 250; 33 U. S. C. 145k, 356)

Dated: December 23, 1953.

[SEAL] MERLIN O'NEILL,
*Vice Admiral, U. S. Coast Guard, Commandant.*

[F. R. Doc. 53–10833; Filed, Dec. 30, 1953; 8:45 a. m.]

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127 International Postal Service: Postage Rates, Service Available and Instructions for Mailing (39 CFR Part 127) make the following changes:

a. In § 127.1 *Postage rates (surface only), limits of weight, and dimensions* make the following changes:

1. Amend Table No. 2 by inserting between "Printed matter" and "Raised print for the blind" the following:

| | | | |
|---|---|---|---|
| Books... | 8 cents per pound. (Not applicable to Canada, Spain and Spanish possessions.) | 22 pounds. | Same as letters. |

2. Add the following to footnote 3 in Table No. 2:

Second-class matter mailed by publishers and registered news agents to the other countries to which Table No. 2 applies is subject to the pound rates prescribed in § 34.40 of this chapter, increased by 33⅓ percent of the total postage. The eighth zone rate shall apply to the advertising portions of publications subject to the zone rates.

b. In § 127.6 *Printed matter* amend the sentence immediately after the caption to read as follows: "Including second-class matter, except when mailed by publishers or registered news agents to certain countries, as shown in footnote 3 under Table No. 2, § 127.1."

c. Section 127.7 *Books* is amended to read as follows:

§ 127.7 *Books.* (Must not be sealed; must be endorsed "Books".)

NOTE: This section applies only to books which do not contain any publicity or advertising other than that appearing on the flyleaves addressed for delivery in Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Nicaragua, Panama, Paraguay, Peru, Philippines, Salvador (El), Uruguay, or Venezuela.

(a) *Postage rates.* Surface rate, 8 cents each pound or fraction. (For air mail rates, see individual country items.)

(b) *Limit of weight and maximum dimensions.* Same as for printed matter in general, as shown in Table No. 2, § 127.1.

(c) *Publications to which reduced rate applies.* Among the publications to which the reduced book rate applies, are the following:

Books permanently bound by stitching or stapling, or by means of spiral or plastic binding, when covered with paper, cloth, leather, or other substantial material.

Books enclosed in the usual paper jackets bearing advertisements of other books.

Music books in regular bound form.

Books consisting largely of pictures, illustrations, maps, such as a view book or atlas.

Bibles with customary incidental space for family record.

(d) *Publications to which the reduced rate does not apply.* The reduced book rate does not apply to the following:

Annual reports of organizations and institutions; also reports or minutes of their conventions or other meetings published primarily for the benefit of members.

Books containing write-ups, boosts or other advertisements, of other things than books, as, for instance, playing cards, merchandise, services, etc.

Books in any other than final or permanent form, including those of the loose-leaf binder type which are not complete or permanent when mailed but to which other pages are subsequently to be added.

Reports of corporations sent to stockholders.

House organs, including publications designed to promote the commercial interests of a firm or organization.

Telephone and other directories, including trade directories.

Publications entered as second-class matter.

Publications consisting of pictures to be colored or cut out.

Publications other than textbooks, having blank spaces for written entries, records or other hand work, such as almanacs, diaries, memorandum books and similar publications.

Periodical publications.

Sheet music.

Freight and passenger tariffs.

(e) *Permissible enclosures.* The following are permissible enclosures with books mailed at the reduced rate: A card, envelope or wrapper bearing the address of the sender, a single order form, and a single sheet not larger than approximately the size of a page, relating exclusively to the book with which enclosed. An invoice showing the price, etc., of the book may also be enclosed.

(f) *Endorsement.* Packages mailed at the book rate must be endorsed by the mailers "Book" or "Books".

d. In § 127.209 *Australia (States of New South Wales, Queensland, South Australia, Tasmania, Victoria and Western Australia; also Lord Howe Island, Thursday Island, and Norfolk Island)* add the following undesignated paragraph to subdivision (iii) of paragraph (b) (6):

Uncooked pork, including ham and bacon, and all uncooked pork products. For other meats, see subparagraph (7) of this paragraph.

e. In § 127.227 *Canada (including Newfoundland and Labrador)* amend subdivision (iv) of paragraph (b) (6) to read as follows:

(iv) Uncooked pork, including ham and bacon, and all uncooked pork products, unless accompanied by an inspection certificate issued by the U. S. Agriculture Department to the effect that the meat or product has been treated by heat of at least 156° F.

f. In § 127.249 *Finland* amend the table in subdivision (i) of paragraph (b) (4) to read as follows:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |
| From $200.01 to $300 | 65 |
| From $300.01 to $330 | 70 |

The foregoing amendment shall become effective January 1, 1954.

g. In § 127.283 *Jamaica (including Cayman Islands)* amend subdivision (ii) of paragraph (b) (5) by adding the following clause:

(d) Uncooked pork, including ham and bacon, and all uncooked pork products.

h. In § 127.367 *Trinidad and Tobago* make the following changes in subdivision (i) of paragraph (b) (5):

1. Change the caption to read: "(i) *For the protection of animals or plants.*"

2. In the text, insert the following as the first sentence: "Uncooked pork, including ham and bacon, and all uncooked pork products."

i. In § 127.377 *Venezuela* make the following changes in subdivision (ii) of paragraph (b) (7):

1. Change the caption to read: "(ii) *For the protection of animals and plants.*"

2. Insert the following immediately after the caption: "Uncooked pork, including ham and bacon, and all uncooked pork products, unless accompanied by an inspection certificate issued by the U. S. Agriculture Department to the effect that the meat or products has been treated by heat of at least 156° F."

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] LOUIS J. DOYLE,
*Acting Solicitor.*

### Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 933]

NEW MEXICO

MODIFYING EXECUTIVE ORDER NO. 5370, IN ITS ENTIRETY AND EXECUTIVE ORDER NO. 3984 IN PART TO PERMIT ISSUANCE OF OIL AND GAS LEASES

By virtue of the authority contained in the act of June 25, 1910 (36 Stat. 847, 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F. R. 4831), it is ordered as follows:

Executive Order No. 3984 of April 2, 1924, withdrawing certain public lands in aid of classification and pending determination as to the advisability of reserving the same for national park or monument purposes and Executive Order No. 5370 of June 17, 1930, withdrawing certain public lands for classification are hereby modified to permit the issuance of oil and gas leases pursuant to the oil and gas leasing provisions of the Mineral Leasing Act of February 25, 1920 (41 Stat. 437, 30 U. S. C. sec. 181, et seq.), as amended for the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN

T. 24 S., R. 22 E.,
Secs. 1, 12 and 13.
T. 26 S., R. 22 E.,
Sec. 1, SE¼, E½SW¼,
Sec. 12, E½, E½W½,
Sec. 13, E½, E½W½.
Secs. 19 to 36, inclusive.
T. 24 S., R. 23 E.,
Secs. 1 to 18, inclusive,
Secs. 20 to 23, inclusive,
Secs. 33 and 34,
Sec. 35, N½.
T. 25 S., R. 23 E.,
Sec. 34, NE¼ and S½,
Secs. 35 and 36.
T. 26 S., R. 23 E.,
Secs. 4 and 5,
Sec. 6, NE¼ and S½,
Secs. 7, 8, and 9,
Secs. 16 to 26, inclusive,
Secs. 28 to 33, inclusive.
T. 24 S., R. 24 E.,
Secs. 1 to 24, inclusive,
Sec. 30.
T. 25 S., R. 24 E.,
Sec. 11, E½,
Secs. 12 and 13,
Sec. 14, E½.
T. 24 S., R. 25 E.,
Secs. 6, 7, 18, and 19.
T. 25 S., R. 25 E.,
Secs. 7, 8, 17, and 18.

The areas described aggregate approximately 71,920 acres.

The lands described in this order, shall be open for oil and gas leasing as of the date of publication of this notice in the FEDERAL REGISTER and oil and gas lease offers received up to and including January 15, 1954, at the Land and Survey Office, Bureau of Land Management, Santa Fe, New Mexico, for lands subject to noncompetitive leasing under section 17 of the Mineral Leasing Act, as amended, shall be regarded as simultaneously filed.

During the period from the date of publication of this Order to and including January 15, 1954, the following rules must be observed in applying for oil and gas leases for the lands described herein:

(a) Each offer must cover all the Federal land subject to noncompetitive oil and gas leasing contained in a particular section and must not cover more than one section.

(b) All offers of any offeror shall be rejected if the offeror's interests, direct and indirect, in oil and gas leases and offers and applications therefor on Federal lands in the State of New Mexico, including the offers filed pursuant to this notice exceed 15,360 chargeable acres. Where a corporation, or association, files an application for the Federal lands in a section, no person who owns an interest of 10 percent or more in such corporation or association shall be eligible to file an offer for the same area.

(c) It will be necessary to file only one copy of each offer to lease and lease form for each section. If the offeror is successful, the Manager will execute the form and arrange to obtain the additional copies.

(d) Each offer, accompanied by two separate checks or money orders, must be enclosed in a separate sealed envelope. One check or money order must be for $10 to cover the filing fee. The second check or money order must cover the first year's rental (50 cents per acre).

(e) The front of each envelope must be marked to show the nature of the contents and the section involved as follows:

Oil and Gas Offer, Carlsbad Area
Sec. -- T. -- R. --

(f) Any offer filed during the prescribed period that does not conform to all the requirements of this notice shall be rejected.

If necessary, a drawing will be held to determine the successful offeror for each section. Such drawing will commence at 10 a. m., m. s. t., January 22, 1954, at the Land and Survey Office, Santa Fe, New Mexico.

RALPH A. TUDOR,
*Acting Secretary of the Interior.*

DECEMBER 24, 1953.

[F. R. Doc. 53–10842; Filed, Dec. 30, 1953; 8:47 a. m.]

## TITLE 46—SHIPPING

### Chapter I—Coast Guard, Department of the Treasury

[CGFR 53–59]

MISCELLANEOUS AMENDMENTS TO CHAPTER

A notice regarding proposed changes in the rules and regulations governing

inspection of vessels in connection with tail shaft surveys, special surveys for unclassed passenger vessels and various means of communication between radio room and wheel house and "one other place" was published in the FEDERAL REGISTER dated September 9, 1953, 18 F. R. 5433, 5434, as Items XII, XIII, and XIV on the agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on September 29, 1953, in Washington, D. C. All comments submitted were considered and changes in the proposed regulations were made where practicable.

The cancellation of 46 CFR 61.15–1, 71.35–1 to 71.35–45, inclusive, and 111.05–10 (e) deletes the requirements for special surveys on unclassed passenger vessels. Such surveys are, in effect, extensions of the work normally carried out at the annual inspection and under the other existing rules and regulations this work will be incorporated into the annual inspection. It is not intended to lower the inspection standards by this cancellation of specific requirements, but rather to have the same inspections made as deemed necessary at the annual inspections of unclassed passenger vessels. The cancellation of these rules and regulations is based on Item XIII of the agenda.

The amendment to 46 CFR 61.15–15 and the addition of a new section designated § 61.15–16 revises the requirements for tail shaft survey and drydock examination of tail shafts. The revised requirements for a tail shaft survey will apply only to ocean and coastwise vessels. The revision is in response to various appeals received requesting that the requirements for tail shaft survey and examination be reduced for vessels operating in fresh water and for those operating in salt water which are not engaged in ocean or coastwise voyages. These amendments are based on Item XII of the agenda.

The amendments to 46 CFR 113.30–5 (e) (1) and 113.30–5 (e) (1) (i) clarify the requirement regarding vessels equipped with radio installation to have an efficient means of communication between the radio room and the wheel house and "one other place" from which the vessel may be steered under normal conditions of navigation. The revised regulation describes what is meant by "one other place." The revised regulation is in agreement with the present requirement in Regulation 9 (b) of Chapter IV of the 1948 Convention for the Safety of Life at Sea, as well as the intent of such regulation. These amendments are based on Item XIV of the agenda.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate rules and regulations in accordance with the regulations cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective on and after thirty days after the date of publication of this document in the FEDERAL REGISTER:

### Subchapter F—Marine Engineering

PART 61—INSTALLATIONS, TESTS, INSPECTIONS, MARKINGS, AND OFFICIAL FORMS

SUBPART 61.15—TESTS AND INSPECTIONS OF MACHINERY AND EQUIPMENT

1. Section 61.15–1 *Special surveys for unclassed passenger vessels* is canceled.

2. Section 61.15–15 is amended to read as follows:

§ 61.15–15 *Tail shaft survey.* (a) The requirements in this section apply only to ocean and coastwise vessels.

(b) Every vessel having the tail shaft fitted with a continuous liner or having shafts of material resistive to corrosive attack of sea water, or where pressure lubrication is used, shall have the tail shaft drawn at least once in every three years; in all other cases the shaft shall be drawn at least once in every two years, or whenever deemed necessary by the Officer in Charge, Marine Inspection. However, if the circumstances warrant it, the Coast Guard District Commander may extend this time to the next regular drydocking period, but not to exceed four months: *Provided*, That when it is shown that a vessel has had a long period of lay up, the Coast Guard District Commander may grant an extension equal to the time the vessel has been out of commission, but in no case shall the extension exceed one year.

(c) Where the propelling machinery is located amidships the after bearing shall be rebushed when it is worn down to ¼ inch clearance for shafts of 9 inches or less in diameter, 5/16 inch clearance for shafts exceeding 9 inches but not exceeding 12 inches in diameter and ⅜ inch clearance for shafts exceeding 12 inches diameter. Where the propelling machinery is located aft the maximum clearance shall be one grade (1/16 inch) less than the above clearance.

3. Part 61 is amended by adding a new § 61.15–16, reading as follows:

§ 61.15–16 *Dry dock examination.* When any vessel is drydocked, examination shall be made of the propeller, stern bushing, sea connections, and fastenings if deemed necessary by the inspector.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4426–4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 391a, 392, 404–409, 411, 412, 435, 489, 366, 395, 363, 367, 536p, 1333, 463a, 50 U. S. C. App. 1275, E. O. 10402, 17 F. R. 9917; 3 CFR 1952 Supp.)

### Subchapter H—Passenger Vessels

PART 71—INSPECTION AND CERTIFICATION

SUBPART 71.35—SPECIAL SURVEYS OF UNCLASSED VESSELS (CANCELED)

4. Section 71.35–1 *Special surveys required* is canceled.

5. Section 71.35–5 *When due* is canceled.

6. Section 71.35–10 *Marine engineering and electrical engineering requirements* is canceled.

7. Section 71.35–15 *Inspector not limited* is canceled.

8. Section 71.35–20 *Scope of special survey No. 1* is canceled.

9. Section 71.35–25 *Scope of special survey No. 2* is canceled.

10. Section 71.35–30 *Scope of special survey No. 3* is canceled.

11. Section 71.35–35 *Scope of second and subsequent special survey No. 1* is canceled.

12. Section 71.35–40 *Scope of second and subsequent special survey No. 2* is canceled.

13. Section 71.35–45 *Scope of second and subsequent special survey No. 3* is canceled.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

### Subchapter J—Electrical Engineering

PART 111—ELECTRICAL SYSTEMS; GENERAL REQUIREMENTS

SUBPART 111.05—GENERAL REQUIREMENTS

14. Section 111.05–10 *Testing and inspection* is amended by canceling paragraph (e) *Special survey of unclassed passenger vessels.*

PART 113—COMMUNICATION AND ALARM SYSTEMS AND EQUIPMENT

SUBPART 113.30—SOUND POWERED TELEPHONE AND VOICE TUBE SYSTEMS

15. Section 113.30–5 (e) is amended by revising subparagraph (1) and subdivision (i) of subparagraph (1) to read as follows:

§ 113.30–5 *General requirements.*

• • •

(e) • • •

(1) Vessels equipped with a radio installation shall be provided with an efficient means of communication between the radio room and the wheel house and one other place, if any, from which the vessel may be navigated under normal conditions, as opposed to other such places established solely for emergency functions, or places used solely for docking or maneuvering, or places used occasionally while navigating the vessel in close quarters. As used in this paragraph only a location which includes the necessary apparatus to steer the vessel, give engine orders, and control the whistle will be considered a place from which the vessel may be navigated.

(i) Where the operating position of the emergency radio installation is not located in the compartment normally used for operating the main radio installation, an efficient means of communication shall be provided between the emergency radio room and the wheel house and one other place, if any, from which the vessel may be navigated under normal conditions, as opposed to other such places established solely for emergency functions, or places used solely for docking or maneuvering, or places used occasionally while navigating the vessel in close quarters.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4426, 4427, 4433, 4453, as amended, sec. 14, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1384, 1544, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 463a, 1333, 50 U. S. C. App. 1275, E. O. 10402, 17 F. R. 9917; 3 CFR 1952 Supp.)

Dated: December 23, 1953.

[SEAL] MERLIN O'NEILL,
*Vice Admiral, U. S. Coast Guard, Commandant.*

[F. R. Doc. 53–10835; Filed, Dec. 30, 1953; 8:46 a. m.]

---

[CGFR 53–25]

MISCELLANEOUS CORRECTIONS AND AMENDMENTS TO CHAPTER

The purpose of the amendments in this document is to make the necessary editorial corrections and revisions in the Vessel Inspection Regulations. The changes made are editorial in nature to correct errors, to clarify requirements of procedures, and to revise the effective date of Vessel Inspection Regulations contained in Coast Guard Federal Register Document CGFR 53–25, Federal Register Document 53–10230, which was published in the FEDERAL REGISTER dated December 5, 1953.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with R. S. 4405, as amended, and 4462, as amended (46 U. S. C. 375, 416), the following corrections and amendments are prescribed:

1. The effective date of the amendments to the specifications in Subchapter Q is changed from January 1, 1954, to April 1, 1954.

### Subchapter Q—Specifications

PART 160—LIFESAVING EQUIPMENT

SUBPART 160.002—LIFE PRESERVERS, KAPOK, ADULT AND CHILD (JACKET TYPE), MODELS 2, 3, 5 AND 6

2. Section 160.002–5 (a) (18 F. R. 5857) is corrected by changing the second sentence to read as follows:

§ 160.002–5 *Sampling, tests, and inspections*—(a) *General.* • • • Manufacturers of approved life preservers shall maintain quality control of the materials used, manufacturing operations, and the finished product so as to meet the requirements of this specification. • • •

SUBPART 160.003—LIFE PRESERVERS, CORK (JACKET TYPE), MODELS 32 AND 36

3. Section 160.003–7 (a) (18 F. R. 7860) is corrected by changing the phrase "merchant vessels and motorboats" in the first sentence to "merchant vessels or motorboats."

SUBPART 160.004—LIFE PRESERVERS, BALSA WOOD (JACKET TYPE), MODELS 42 AND 46

4. Section 160.004–1 (b) (18 F. R. 7860) is corrected by revising the phrase "models 31 and 41" to "models 32 and 42" in the title for drawing No. 160.003–1 (b): sheet 1, and by changing the phrase "models 35 and 45" to "models 36 and 46" in the title of drawing No. 160.003–1 (b): sheet 2.

5. Section 160.004–4 (c) (3) (18 F. R. 7861) is corrected by revising the reference "160.004–3 (g)" to "160.004–3 (h)."

6. Section 160.004–7 (a) (18 F. R. 7862) is corrected by changing the phrase "merchant vessels and motorboats" to "merchant vessels or motorboats" in the first sentence.

SUBPART 160.005—LIFE PRESERVERS, FIBROUS GLASS, ADULT AND CHILD (JACKET TYPE), MODELS 51, 52, 55 AND 56

7. Section 160.005–4 (c) (1) is corrected by revising Table 160.005–4 (c) (1) by inserting the words "life preservers" in the headings for columns 2 and 3 to appear immediately before the word "(minimum)"; and by changing the figure "6.5" to "7.5" in the third column opposite the item "Back pad."

8. Section 160.005–5 (b) (1) is corrected by changing the number for the table from "160.005 (b) (1)" to "160.005–5 (b) (1)" and by changing the second item under "Lot size" in the table from "101 and 200" to "101 to 200" (18 F. R. 7864).

SUBPART 160.026—WATER, EMERGENCY DRINKING (IN HERMETICALLY SEALED CONTAINERS), FOR MERCHANT VESSELS

9. Section 160.026–1 (b) is corrected by changing the phrase "above specifications" to "specifications referred to in this section" in the first sentence (18 F. R. 7865).

PART 164—MATERIALS

SUBPART 164.008—BULKHEAD PANELS FOR MERCHANT VESSELS

10. Section 164.008–2 (c) is corrected by changing the phrase "first resistance requirements" to "fire resistance requirements" (18 F. R. 7875).

11. Section 164.008–3 (b) is corrected by inserting a headnote titled "Fire resistance and integrity test."

Dated: December 23, 1953.

[SEAL] MERLIN O'NEILL,
*Vice Admiral, U. S. Coast Guard, Commandant.*

[F. R. Doc. 53–10834; Filed, Dec. 30, 1953; 8:45 a. m.]

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Docket No. 10709]

PART 11—INDUSTRIAL RADIO SERVICES

FREQUENCIES AVAILABLE FOR BASE AND MOBILE STATIONS

In the matter of amendment of §§ 11.252 and 11.302 (c) of Part 11 of the Commission's rules governing the Industrial Radio Services.

On September 30, 1953, the Commission issued a notice of proposed rule making in the above-entitled matter to provide in § 11.252 for assignment of Petroleum Radio Service frequencies to persons eligible for station licenses in the Power Radio Service in cases where a distributor of natural gas has a substantial requirement for mobile service communication with its gas supplier. It further was proposed to remove a requirement now in § 11.302 (c) of the rules that a person must be eligible for station licenses in both the Power and Petroleum Service before an assignment will be made under paragraph (c) of that section.

Written comments were received from the Central Committee of Radio Facilities of the American Petroleum Institute, the National Committee for Utilities Radio and the Lone Star Gas Company of Dallas, Texas. While no opposition to the proposed amendments was expressed, a question was raised by one of the parties as to whether or not the proposed wording of § 11.302 (c) could be interpreted to permit use of a Power Service frequency along the entire length of a long gas pipeline, to the detriment of the regional frequency assignment patterns developed in the Power Radio Service. Since the intent of both rule changes is primarily to facilitate local coordination of activities in the vicinity of joint operations, a minor change in wording to make this intent more plain has been inserted. This change in wording, however, would still permit a gas distributor to use the Petroleum Service frequency assigned to his gas supplier for all permissible communications when that, as distinguished from intercommunication only, is the desire of the parties involved.

In view of the foregoing, and it appearing that the public interest, convenience or necessity would be served thereby, and pursuant to the authority contained in sections 4 (i) and 303 of the Communications Act of 1934, as amended: *It is ordered*, This 23d day of December 1953 that the amendments to Part 11 of the Commission's rules as set forth below, are adopted effective February 1, 1954.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies Sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: December 28, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

1. In § 11.252, redesignate paragraph (c) as paragraph (d) and insert a new paragraph (c) to read as follows:

(c) In addition to the frequencies listed in paragraphs (a) and (b) of this section, a person eligible in the Power Radio Service who is engaged in the distribution of natural gas directly to consumers and who has a substantial requirement for mobile service communication with his gas supplier may be authorized to operate on the Petroleum Radio Service frequency or frequencies assigned to that supplier: *Provided, however*, That such operation shall be limited to communications in the local area common to both parties and shall relate only to gas supply and distribution activities. The application of any person seeking a frequency assignment

under the provisions of this paragraph shall be accompanied by a written statement from the natural gas supplier which: (1) Concurs in the need for such intercommunication; and (2) consents to the use by the natural gas distributor of the frequency or frequencies involved.

2. Delete the present text of § 11.302 (c) and substitute a new paragraph to read as follows:

(c) In addition to the frequencies listed in paragraphs (a) and (b) of this section, a person eligible in the Petroleum Radio Service who is engaged in the transportation natural gas by pipeline and who has a substantial requirement for mobile service communication with a public utility company purchasing such gas for distribution to the consumer may be authorized to operate on the Power Radio Service frequency or frequencies assigned to such distributors: *Provided, however,* That such operation shall be limited to communications in the local area common to both parties and shall relate only to gas supply and distribution activities. The application of any person seeking a frequency assignment under the provisions of this paragraph shall be accompanied by a written statement from the natural gas distributor which: (1) Concurs in the need for such intercommunication; and (2) consents to the use by the natural gas supplier of the frequency or frequencies involved.

[F. R. Doc. 53-10856; Filed, Dec. 30, 1953; 8:51 a. m.]

---

[Docket No. 10708]

## PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS

### EXTENSIONS AND SUPPLEMENTS; CERTAIN GENERAL PROVISIONS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of December 1953;

The Commission, having under consideration the matter of amendment of §§ 63.03, 63.04, 63.52, and 63.54 of Part 63 of the Commission's rules and regulations; and also having under consideration its notice of proposed rule making adopted herein on September 30, 1953, and published in the FEDERAL REGISTER on October 6, 1953 (18 F. R. 6359), in accordance with section 4 (a) of the Administrative Procedure Act and comments filed in response thereto;

It appearing, That the period in which interested persons were afforded an opportunity to submit comments expired on November 17, 1953, and that comments were filed by American Telephone and Telegraph Company requesting that the $100,000 and $10,000 limits proposed in the amendments to §§ 63.03 (a) and 63.05 be increased to $250,000 and $25,000, respectively, and that the $15,000 and $5,000 limits proposed in the amendments to §§ 63.03 (c) and 63.04 (c) be increased to $25,000 and $10,000, respectfully; and that no other objections were received regarding the above proposed amendments;

It further appearing, That the $250,000 limit proposed by American Telephone and Telegraph Company for applications filed under § 63.03 (a) to supplement existing facilities by construction is desirable, in view of the present and continuing high demand for service and the increasing magnitude of general construction programs;

It further appearing, That it is desirable and proper to make final the adoption of the amendments as originally proposed in the aforementioned notice of proposed rule making, except that the $100,000 limit proposed in the amendments to §§ 63.03 (a) and 63.05 should be changed to $250,000 as proposed by American Telephone and Telegraph Company;

It further appearing, That the other changes proposed by American Telephone and Telegraph Company are neither necessary nor desirable;

It further appearing, That authority for the aforesaid amendments is contained in sections 4 (i) and 214 of the Communications Act of 1934, as amended;

It further appearing, That the proposed amendments represent relaxation of the current rules and may be made effective immediately pursuant to section 4 (c) of the Administrative Procedure Act;

*It is ordered*, That, effective immediately, Part 63 (Extension of Lines and Discontinuance of Service by Carriers) of the Commission's rules and regulations is amended as follows:

1. In § 63.03 substitute the following text for the first sentence of the present text of paragraph (a): "Applications for the supplementing of existing facilities, involving an estimated construction cost not exceeding $250,000 or an annual rental not exceeding $10,000, may be made by letter to the Commission not less than 15 days prior to the acquisition or commencement of construction of the facilities involved."

2. Add a new paragraph (c) to § 63.03 to read as follows:

(c) Without regard to the other requirements of this part, and by application setting forth the need therefor, any carrier may request continuing authority, subject to termination by the Commission at any time upon ten days' notice to the carrier, to commence small projects for the supplementing of existing facilities involving estimated construction and installation costs not exceeding $15,000, or to lease and operate telephone or telegraph facilities of other companies where the rental to be paid under each such lease is not more than $5,000 for the entire term of such lease, or if the term of the lease is for a one-year period or longer, is not more than $5,000 on an annual basis: *Provided, however,* That any carrier to which continuing authority has been granted under this paragraph shall, not later than the 30th day following the end of each six month period covered by such authority, file a statement in writing making reference to this paragraph and setting forth, with respect to each project (construction, installation, lease, including any renewal thereof, and operation) which was commenced thereunder, the following information:

(1) The type of facility constructed, installed, or leased.

(2) The route mileage thereof.

(3) The termini and the points served.

(4) The cost thereof, including construction, installation or lease.

(5) Where appropriate, the name of the lessor company, and the dates of commencement and termination of the lease.

3. In § 63.04 substitute the following for the present text of paragraph (c):

(c) Without regard to the other requirements of this part, and by application setting forth the need therefor, any carrier may request continuing authority, subject to termination by the Commission at any time upon ten days' notice to the carrier, to provide temporary or emergency service by the construction or installation of facilities where the estimated construction and installation costs do not exceed $15,000, or to lease and operate telephone or telegraph facilities of other companies where the rental to be paid under each such lease is not more than $5,000 for the entire term of such lease, or if the term of the lease is for a one year period or longer, is not more than $5,000 on an annual basis: *Provided, however,* That any carrier to which continuing authority has been granted under this paragraph shall, not later than the 30th day following the end of each six month period covered by such authority, file with the Commission a statement in writing making reference to this paragraph and setting forth, with respect to each project (construction, installation, lease, including any renewals thereof, which was commenced or, in the case of leases, entered into under such authority, and renewal or renewals thereof which were in continuous effect for a period of more than one week, the following information:

(1) The type of facility constructed, installed or leased.

(2) The route mileage thereof.

(3) The termini and the points served.

(4) The cost thereof, including construction, installation or lease.

(5) Where appropriate, the name of the lessor company, and the dates of commencement and termination of the lease.

4. In § 63.05 substitute the amount of "$250,000" in each instance where "$50,000" appears.

5. In § 63.52 substitute the following for the present text:

§ 63.52 *Copies required.* Unless otherwise specified the Commission shall be furnished with an original and nine copies of applications filed under section 214 of the Communications Act: *Provided, however,* That where more than one state is involved, two additional copies shall be furnished for each additional state: *Provided further,* That, where applications involve only the supplementation of existing facilities, and the issuance of a certificate is not requested, an original and four copies of the application shall be furnished.

6. Delete § 63.54 in its entirety.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply Sec. 214, 48 Stat. 1075; 47 U. S. C. 214)

Released: December 28, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,

# TITLE 50—WILDLIFE

## Chapter I—Fish and Wildlife Service, Department of the Interior

### Subchapter I—Northwest Atlantic Commercial Fisheries

### PART 155—HADDOCK PROVISIONS

*Basis and purpose.* At its Third Annual Meeting held in New Haven, Connecticut, May 25–30, 1953, the International Commission for the Northwest Atlantic Fisheries, a body created pursuant to Article II of the International Convention for the Northwest Atlantic Fisheries signed at Washington, D. C., under date of February 9, 1949, adopted a proposal amending a proposal previously adopted by the Commission concerning the regulation of the taking of haddock in Sub-area 5 of the Convention Area. The proposal adopted at the Third Annual Meeting recommends certain changes in the definition of average mesh size in trawl nets when wet after use and authorizes the Contracting Governments to exercise discretion in determining such average mesh size.

On September 1, 1953, the proposal was accepted by the Governments of the United States and Canada, and, in accordance with the provisions of the International Convention for the Northwest Atlantic Fisheries, enters into force with respect to all Contracting Governments on January 1, 1954.

In accordance with section 4 (a) of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1067, 16 U. S. C., 1946 ed., Supp. V, 986) regulations proposed by the Secretary of the Interior to implement the proposal were submitted to the Advisory Committee to the United States Commissioners on the International Commission for the Northwest Atlantic Fisheries on November 10, 1953, at which time the proposed regulations received the approval of the Committee.

By notice of proposed rule making published in the FEDERAL REGISTER on December 2, 1953 (18 F. R. 7658), the public was invited to submit written data, views or arguments in connection with the proposed regulations to Mr. John L. Farley, Director, Fish and Wildlife Service, Department of the Interior, Washington 25, D. C., not later than 30 days from the publication of the notice in the FEDERAL REGISTER. Careful consideration has been given the views, data and arguments received, and it has been determined that the regulations appearing below should be promulgated to govern the use of trawling nets in the haddock fishery in the area described in the said regulations.

Beginning about September 1, 1953, the proposed regulations were discussed and formulated in a series of meetings with the representatives of the fishing industry affected, and the text of the proposed regulations was included in the notice of proposed rule making published December 2, 1953. Existing regulations covering the same subject matter expire on December 31, 1953, and the new regulations must become effective January 1, 1954, in order to comply with the action on May 25–30, 1953, of the International Commission for the Northwest Atlantic Fisheries. In these circumstances, it has been determined that it is both appropriate and necessary to waive the 30-day period between the date of publication and the effective date of the regulations.

Effective January 1, 1954, the following regulations, replacing Subchapter I—Northwest Atlantic Commercial Fisheries, Part 155—Haddock Provisions, are prescribed:

Sec.
155.1 Meaning of terms.
155.2 Restrictions on fishing gear.
155.3 Tampering with seals prohibited.
155.4 Employment of devices to reduce mesh size prohibited.
155.5 Certain vessels exempted.

AUTHORITY: §§ 155.1 to 155.5 issued under sec. 7, 64 Stat. 1067; 16 U. S. C. 986.

§ 155.1 *Meaning of terms.* When used in the regulations in this part, unless the content otherwise requires, terms shall have the meanings ascribed hereinafter in this section.

(a) *Vessel.* The word "vessel" denotes every kind, type, or description of watercraft, aircraft, or other contrivance, subject to the jurisdiction of the United States and, or capable of being used, as a means of transportation on water.

(b) *Haddock.* The word "haddock" denotes any fish of the species Melanogrammus aeglefinus.

(c) *Haddock fishing.* The words "haddock fishing" mean the catching, taking, or fishing for, or the attempted catching, taking, or fishing for any fish of the species Melanogrammus aeglefinus.

(d) *Trawl net.* The words "trawl net" mean any large bag net dragged in the sea by a vessel or vessels for the purpose of taking fish.

(e) *Cod end.* The words "cod end" mean the bag-like extension attached to the after end of the belly of the trawl net and used to retain the catch.

§ 155.2 *Restrictions on fishing gear.* (a) No person shall engage in haddock fishing in the northwest Atlantic Ocean north of 39°00' north latitude and west of 42°00' west longitude with a trawl net or nets, parts of nets or netting having a mesh size of less than four and one-half inches, as defined in this section.

(b) As used in this section, the term "mesh size of less than four and one-half inches" shall mean: (1) With respect to any part of the net except the cod end, the average size of any twenty consecutive meshes in any row located at least ten meshes from the side lacings measured when wet after use, and (2) with respect to the cod end, the average size of any row of meshes running the length of the cod end located at least ten meshes from the side lacings, measured when wet after use, or, at the option of the user, a cod end which has been approved, in accordance with paragraph (d) of this section, by an authorized representative of the Director of the Fish and Wildlife Service, as having a mesh size when dry before use equivalent to not less than four and one-half inches when wet after use.

(c) All measurements of meshes when wet after use shall be made by the insertion into such meshes under pressure of not less than ten nor more than fifteen pounds of a flat, wedge-shaped gauge having a taper of two inches in nine inches and a thickness of three thirty-seconds of an inch.

(d) For the purpose of approving dry cod ends before use, as contemplated by paragraph (b) of this section, the average mesh size of such cod ends shall be determined by measuring the length of any single row of meshes running the length of the cod end, parallel to the long axis of the cod end and located at least ten meshes from the side lacings, when stretched under a tension of two hundred pounds, and dividing the length by the number of meshes in such row: *Provided,* That not more than ten percent of the meshes in such row shall be more than one-half inch smaller when measured between knot centers than the average of the row. Cod ends so measured which are constructed of the twines and are of not less than the average mesh sizes specified in the table below may be approved for haddock fishing by any duly authorized employee of the Fish and Wildlife Service by the attachment to such cod end of an appropriate seal or seals.

| *Twine* | *Average mesh size* |
|---|---|
| 4-ply 45-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 50-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 75-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 80-yard manila, double strand. | 5.500 inches (5½"). |
| 109-thread cotton | 4.250 inches (4¼"). |
| All nylon | 4.250 inches (4¼"). |

§ 155.3 *Tampering with seals prohibited.* Removing, altering, defacing or in any other way tampering with seals affixed to cod ends in accordance with § 155.2 is prohibited.

§ 155.4 *Employment of devices to reduce mesh size prohibited.* The use from any vessel engaged in haddock fishing in the area described in § 155.2 of any device or method which will obstruct the meshes of the trawl net or which will otherwise, in effect, diminish the size of said meshes is prohibited: *Provided,* That a protective covering may be attached to the underside only of the cod

end alone of the net to reduce and prevent damage thereto.

§ 155.5 *Certain vessels exempted.* Nothing contained in the regulations in this part shall apply to:

(a) Any vessel having in possession haddock in amounts less than five thousand pounds or ten percent by weight of all the fish on board such vessel, whichever is larger.

(b) Any vessel duly authorized by the Director of the Fish and Wildlife Service to engage in haddock fishing for scientific purposes.

(c) Any vessel documented as a common carrier by the Government of the United States and engaged exclusively in the carriage of freight and passengers.

Dated: December 24, 1953.

RALPH A. TUDOR,
*Acting Secretary of the Interior.*

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

[ 7 CFR Part 26 ]

GRAIN STANDARDS

FEES AND CHARGES; NOTICE OF HEARING AND EXTENSION OF TIME

On November 24, 1953 there was published in the FEDERAL REGISTER pursuant to section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) a notice of a proposal to amend § 26.74 of the regulations of the Secretary of Agriculture (7 CFR 26.74) issued under authority of section 8 of the United States Grain Standards Act, as amended (7 U. S. C. 84), to read:

§ 26.74 *Fees and charges.* The fee in an appeal or a dispute shall be fixed as follows:

(a) For bulk or sacked grain in carload lots, $5.00 per car;

(b) For bulk or sacked grain in trucks and trailers, $3.00 per truck or trailer lot;

(c) For bulk or sacked grain in boats, barges, or other vessels, $1.50 per thousand bushels or fraction thereof, with a minimum of $3.00 per lot;

(d) For a submitted sample or package of grain, $2.00 per sample or package;

(e) For all lots of grain other than those referred to in paragraph (a), (b), (c), and (d) of this section, $1.50 per thousand bushels or fraction thereof, with a minimum fee of $3.00 per lot.

Charges may be made for telegrams, express, parcel post, registry fees, travel expenses, and other items paid or incurred by the Department on account of an appeal or a dispute and for oral hearings, as will reimburse the Department, all such additional items to be determined by the Administrator. Unless otherwise stated in the findings in any appeal, the fee as prescribed by this section, and no further charges, shall be deemed to be fixed and assessed.

An opportunity was extended to any person to submit written data, views, or arguments concerning the proposed amendment within 30 days after the date of publication of the notice in the FEDERAL REGISTER or until December 24, 1953. Responsible organizations in the grain industry have now requested an opportunity to present their views and comments at a public hearing. This request is hereby granted.

An informal public hearing at which all interested persons may submit their views and opinions orally or in writing with respect to the proposed amendment will be held January 18, 1954 beginning at 2:00 p. m., in Room 3028, South Agricultural Building, 14th and Independence Avenue SW., Washington, D. C. The time permitted for submitting written data, views, or arguments also is extended to January 29, 1954.

Consideration will be given to all information obtained at the hearing and to written data, views, and arguments received by the Director, Grain Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C., not later than January 29, 1954, as well as to relevant data available in the Department, before a decision is made regarding the proposed changes.

The Director, Grain Branch, Production and Marketing Administration, or an official of the Department, designated by him is hereby authorized to conduct the hearing pursuant to this notice.

Done at Washington, D. C., this 23d day of December 1953.

[SEAL] GEORGE A. DICE,
*Acting Assistant Administrator, Production and Marketing Administration.*

[F. R. Doc. 53-10838; Filed, Dec. 30, 1953; 8:46 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Part 3 ]

[Docket No. 10822]

TELEVISION BROADCAST STATIONS

MULTIPLE OWNERSHIP

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission on November 27, 1953, issued its Report and Order (FCC 53-1570) in the recent multiple ownership proceeding in Docket No. 8967, amending the Commission's rules relating to multiple ownership of broadcast stations. The provisions of § 3.636 specify a 5-station maximum for television stations, without distinction between VHF and UHF.[1] The Commission pointed out in its Report and Order, however, that several petitions had been filed urging that a distinction be drawn between VHF and UHF stations for multiple ownership purposes, and requesting that either no limitation be placed on the ownership of UHF stations, or that the limitation on television holdings be raised to 7 or 8, with no more than 5 stations in the VHF band. The Commission advised that it was engaged in a study of the position of post-freeze television stations and that it was "deferring consideration of the multiple ownership facet of the UHF question to the overall UHF study."

3. Three petitions requesting amendment of the television multiple ownership rules to permit additional ownership of UHF stations are pending before the Commission. National Broadcasting Company, Inc. requests that no limit be placed on the ownership of UHF television stations, with the present limit of 5 stations being retained for VHF. Allen B. DuMont Laboratories, Inc. requests that the rules be amended to permit ownership of a maximum of 8 television stations, with no more than 5 in the VHF band. Finally, American Broadcasting Company, Inc. (now American Broadcasting-Paramount Theaters, Inc.), requests that the multiple ownership rules be amended to permit ownership of 7 television stations, no more than 5 of which could be in the VHF band. Oppositions to the foregoing petitions were filed by Senator Edwin C. Johnson, New England Television Company, Redwood Broadcasting Company, Inc., and Fairmont Broadcasting Company.

4. The Commission is of the view that the institution of rule making proceedings looking toward amendment of its multiple ownership rules at this time to permit the ownership of additional television stations over and above the present maximum of 5 in order to encourage the rapid and effective development of the UHF band is warranted. On the basis of our review of the petitions and oppositions directed to this matter, we believe that of the proposals before us, an increase in the maximum permissible ownership of television stations to 7, no more than 5 of which may be in the VHF band, is best designed to achieve this objective consistent with preventing an undue concentration of control of television facilities.

5. In view of the foregoing, it is proposed to amend § 3.636 of the Commission's rules and regulations to increase the maximum permissible ownership of television stations to 7, no more than 5 of which may be in the VHF band.

6. Authority for adoption of the proposed amendment is contained in sections 4 (i), 303 (r), 311, 313, and 314 of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the amendment proposed herein should not be adopted may file with the Commission on or before February 1, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments prior to taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 23, 1953.

Released: December 24, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

DISSENTING OPINION OF COMMISSIONER HENNOCK

The Commission is proposing today to raise to seven the limit on multiple station ownership in television with a proviso that no more than five may be VHF stations. The sole reason for this proposal stated in the Notice is that "the institution of rule making proceedings looking toward amendment of [the] multiple ownership rules to permit the ownership of additional television stations over and above the present maximum of five" is warranted "in order to encourage the rapid and effective development of the UHF band."

At the outset let me say that I was always greatly concerned about the development of the UHF band. This concern caused me to dissent to the portion of the Sixth Report and Order which granted VHF increases in power and antenna height and thereby enhanced it at the expense of UHF. Similarly, I registered my opposition to the Commission's action of July 14, 1953, revising its application processing procedure for TV stations without according the necessary and desirable priority that should have been afforded applications for UHF stations (Public Notice 93339). Finally, I dissented to the Public Notice of August 24, 1953 which established a priority list of cities grouped in accordance with the mentioned revised procedure, because it contained no provision specifically designed to give further impetus to the development of UHF (Public Notice 94069).

I dissent to this Notice of Proposed Rule Making because in my opinion there is no justification for relaxing the multiple ownership rule in television, and because there is no valid reason for the view that such a relaxation is warranted "in order to encourage the rapid and effective development of the UHF band."

The basis for having placed the limit on the multiple ownership of TV stations at five as distinguished from seven in AM has been the recognition that there are considerably less TV than AM stations in operation. This situation is expected to continue in the immediately foreseeable future. Accordingly, no reason exists for raising the limit and none is given by the majority specifically to justify it.

It is significant that the impetus for the institution of this rule making proceeding is derived from petitions filed by networks referred to in Paragraph three of the Notice. No request for such relaxation of the multiple ownership rule has been made by a single one of the more than 300 UHF applicants or permittees who, I think, would be the persons most anxious "to encourage the rapid and effective development of the UHF band." On the contrary, opposition to the mentioned petitions was filed by two UHF permittees.

These petitions were filed in the proceeding in Docket 8967 which was concluded on November 25, 1953, after having been pending for five years, by adopting, among other things, the rule limiting the multiple ownership in television to five stations without distinction between VHF and UHF. This is the very rule the Commission now, scarcely four weeks later and even before it has become effective, proposes to amend. In its Report and Order of November 25, 1953, the Commission advised petitioners that it was engaged in a study of the position of post-freeze television stations noting that the Ultra High Frequency Television Association was also engaged along this line. Accordingly, the Commission was "deferring consideration of the multiple ownership facet of the UHF question to the overall UHF study." I am not aware that the UHF Television Association has completed its study. I would think, however, that before proposing a solution intended to encourage the development of UHF, the Commission would want to have the benefit of their findings.

In any case, presumably, the study in which the Commission was engaged has now been concluded and the instant proposal, I assume, is based on its findings. If so, these findings should be fully set forth in this Notice. For if the Commission feels that it is necessary to encourage the development of the UHF band and that the relaxation of our multiple ownership rule will accomplish this, it should particularize the areas where such encouragement is needed and show why the proposal is adapted to that end. The Notice completely fails in this respect. Dealing with a new TV field where information concerning the position of UHF is scarce and conflicting, the Notice fails to give interested persons any specific issues to which they could address their comments. Instead it leaves all to their imagination. This, I feel, is not conducive to the establishment of a sound record on which final action could be based.

Instead of proposing any change in the multiple ownership rule, I would institute a public proceeding designed to explore all facets of the UHF problem; e. g., the economics of UHF, the availability of network affiliations; the competitive relationship between VHF and UHF; the actual progress in the development and manufacture of high-power transmitting apparatus, and the manufacture and distribution of adequate receivers; and the posititon of UHF vis a vis VHF with respect to engineering, hearing schedules, programming and other basic and important factors. The resulting factual record would enable the Commission to make an enlightened judgment as to what is needed "to encourage the rapid and effective development of the UHF band," and on the basis of such a record and judgment to determine the solution that is demanded in the public interest.

[1] Section 3.636, as of the date of this decision, provides as follows:

§ 3.636 *Multiple ownership.* (a) No license for a television broadcast station shall be granted to any party (including all parties under common control[a]) if:

(1) Such party directly or indirectly owns, operates, or controls another television broadcast station which serves substantially the same area; or

(2) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other television broadcast station if the grant of such license would result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than five television broadcast stations.[aa]

(b) Paragraph (a) of this section is not applicable to non-commercial educational stations.

[a] The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

[aa] In applying the provisions of paragraph (a) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

CONCURRING STATEMENT OF COMMISSIONER ROBERT T. BARTLEY

I concur in the issuance of the instant Notice of Proposed Rule Making, for the purpose of eliciting current comments and arguments, pro and con, with respect to the proposal for increasing the maximum limitations on ownership of television stations.

However, on the basis of the arguments presented in the petitions presently before us, I am not convinced that the public interest will be served merely by raising the ceiling on television station ownership as proposed.

My ultimate position in the matter will, of course, await careful consideration of the comments filed in this rule making proceeding.

[F. R. Doc. 53-10854; Filed, Dec. 30, 1953; 8:50 a. m.]

## [ 47 CFR Part 12 ]

[Docket No. 10501]

AMATEUR RADIO SERVICE; REQUIREMENTS FOR PORTABLE AND MOBILE OPERATION

ORDER SCHEDULING ORAL ARGUMENT

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 23d day of December 1953;

The Commission having under consideration written comment filed with respect to the Notice of Proposed Rule Making (FCC 53-556) adopted May 13, 1953, in the above-entitled matter, proposing to amend § 12.91 (b) of Part 12 of the Commission's rules and regulations which relate to the Amateur Radio Service;

It appearing, That written comment filed in this proceeding by the American Radio Relay League opposed adoption of the proposed amendment contained in the said Notice of Proposed Rule Making, and requested that oral argument be held; and

It appearing, That the Commission believes that oral argument will be an aid to the proper disposition of this matter;

*It is ordered*, That the Commission will hear oral argument in the above-entitled matter on January 25, 1954, at 10:00 a. m., e. s. t., in Room 6121, New Post Office Building, 12th and Pennsylvania Avenue NW., Washington, D. C.:

*It is further ordered*, That all parties interested in the above-entitled matter, who desire to participate in the said oral argument, should so notify the Commission on or before the 15th day of January 1954.

Released: December 28, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Order No. 533]

CERTAIN DESIGNATED PERSONS

DELEGATION OF AUTHORITY TO ACT AS HEARINGS OFFICERS FOR THE DIRECTOR

NOVEMBER 10, 1953.

1. Pursuant to section 1.5 of Order No. 2583 of August 16, 1950 (15 F. R. 5643), as amended, the following named persons are hereby temporarily designated to perform the functions of hearings officers for the Director:

James A. Doyle, Portland, Oreg.
James M. Gibbons, Sacramento, Calif.

2. The above designated persons are authorized to conduct and preside at such contests and hearings as may be assigned to them from time to time and to render decisions thereon to the same effect and in the same manner as the managers of land offices are authorized by section 1.4 of Order No. 2583, and otherwise.

3. They shall conduct such proceedings and shall take all necessary actions with respect thereto, including the issuance of decisions, in accordance with the applicable laws, and the regulations (Title 43, Code of Federal Regulations, particularly Parts 220, 221, 222, and 223 thereof). Such actions shall be subject to the right of appeal to the Director to the same extent as similar actions of the managers. All actions in a proceeding before him shall be signed by the designee as "Hearings Officer".

4. The authority herein granted shall in no way interfere with or diminish the authority of the land office managers with respect to proceedings not assigned to the hearings officers.

EDWARD WOOZLEY,
*Director.*

Approved: December 24, 1953.

RALPH G. TUDOR,
*Acting Secretary of the Interior.*

[F. R. Doc. 53-10839; Filed, Dec. 30, 1953; 8:47 a. m.]

[Docket DA-429, 439]

IDAHO

RESTORATION ORDER UNDER FEDERAL POWER ACT

DECEMBER 21, 1953.

Pursuant to determinations DA-429 and 439, Idaho, of the Federal Power Commission and in accordance with Order No. 427, sections 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920, (41 Stat. 1075; 16 U. S. C. sec. 818), as amended.

IDAHO

T. 8 S., R. 13 E., B. M.
Sec. 1, NW¼SW¼, SE¼SW¼,
Sec. 2, SW¼SW¼, NE¼SW¼, N½SE¼,
Sec. 3, Lots 4, 5, SE¼, N½SW¼.

The areas described aggregate 536.50 acres.

The lands are located approximately ten (10) miles southeast of Hagerman, Idaho, and the topography in general consists of low, flat benches arising abruptly to steep, high ridges or bluffs, and have a mean elevation of approximately 2900 feet. The soil is deep, sandy clay loam with some gravel deposits and loose surface stones, and the vegetation consists principally of cheat grass, sage brush, and annual weeds. A portion of the NW¼SW¼, Section 1, the N½SE¼ and NE¼SW¼, Section 2, and N½SE¼ and Lots 4 and 5, Section 3, may be suitable for cultivation and irrigation under the desert land or homestead laws. The lands in the SE¼SW¼, Section 1, SW¼SW¼, Section 2, N½SW¼ and S½SE¼, Section 3 are considered too rough for cultivation and are primarily valuable for grazing purposes for retention in public ownership for administration by the Bureau of Land Management, as a part of the Owyhee Grazing District. The NW¼SW¼, Section 1, the NE¼SW¼ and N½SE¼, Section 2, and Lots 4 and 5, N½SE¼, Section 3, may be classified as suitable for disposal under the desert land or homestead laws, and the SE¼SW¼, Section 1, SW¼SW¼, Section 2, and the N½SW¼ and S½SE¼, Section 3 are classified for grazing purposes for retention in public ownership to be administered by the Bureau of Land Management.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, small tract, desert land, or any other non-mineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Idaho for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid, existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90 day preference filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and under which veterans and others may file application for these lands may be obtained on request in the Land Office, Boise, Idaho.

W. G. GUERNSEY,
*Regional Administrator.*

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 16, 1953.

An application, serial number Anchorage 025709, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on October 22, 1953, by Department of the Army.

The purposes of the proposed withdrawal: A firing range.

For a period of sixty (60) days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VII Bureau of Land Management, Department of the Interior at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

*Parcel No. 1*

T. 12 N., R. 3 W., S. M.
Section 30: Lots 3 and 4, E½SW¼, S½SE¼.
Section 31: Lots 1, 2, and 3, NE¼NE¼.
Section 32: Lot 1.
T. 2 N., R. 4 W., S. M.
Section 15: Lot 5.
Section 22: Lot 1.
Section 23: Lots 2 and 4, SE¼NE¼.
Section 25: Lots 1, 2, 3, and 4, NE¼NW¼, S½NE¼.
Section 26: Lot 1.

Containing approximately 864.50 acres.

*Parcel No. 2*

A parcel of land situated along Chickaloon Bay on the southerly shores of Turnagain Arm between Signal Point and Point Possession, Alaska, more particularly described as follows:

Beginning at a point on the mean high tide line of the southerly shores of Turnagain Arm at Signal Point at approximate latitude 60°58'12" North and longitude 149°49'53" West; thence S. 15°15' E. for a distance of 36,900 feet, more or less, to a point at approximate latitude 60°52'21" North and longitude 149°46'35" West; thence S. 86°20' W. for a distance of 43,750 feet, more or less, to a point at approximate latitude 60°51'52" North and longitude 150°01'14" West; thence N. 66°35' W. for a distance of 43,750 feet, more or less, to a point at approximate latitude 60°54'44" North and longitude 150°14'49" West; thence N. 39°50' W. for a distance of 38,300 feet, more or less, to a point on the south line of Section 32, T. 11 N., R. 6 W., S. M., said point being East 6,500 feet, more or less, from the southwest corner of Section 31 in said Township and Range; thence East along the south lines of Sections 32, 33, and 34 of said Township and Range for a distance of 12,700 feet, more or less, to a point on the mean high tide line of Chickaloon Bay; thence in a generally easterly direction along the mean high tide line of Chickaloon Bay and Turnagain Arm for a distance of 107,100 feet, more or less, to the point of beginning.
T. 11 N., R. 6 W., S. M.:
All.

Containing approximately 47,005 acres.

LOWELL M. PUCKETT,
*Regional Administrator, Region VII.*

## DEPARTMENT OF COMMERCE

### Office of the Secretary

[Department Order 15 (Amended)]

OFFICE OF BUSINESS ECONOMICS

STATEMENT OF ORGANIZATION

SECTION 1. *Purpose.* The purpose of this order is to designate the Office of Business Economics as a primary organization unit of the Department and to describe its organization and functions.

SEC. 2. *Designation and organization.* .01 Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 5 of 1950, the Office of Business Economics is hereby designated as a primary organization unit of the Department of Commerce. The Office of Business Economics shall be under the authority and supervision of the Assistant Secretary for Domestic Affairs and shall be directed by a Director who shall be appointed by the Secretary of Commerce and who shall report and be responsible to the Assistant Secretary for Domestic Affairs.

.02 The Office of Business Economics shall consist of the following organization units:

1. Office of the Director, including
(1) Assistant Directors.
(2) Chief Statistician.
(3) Executive Officer.
2. National Income Division.
3. Business Structure Division.
4. National Economics Division.
5. Current Business Analysis Division.
6. Balance of Payments Division.

SEC. 3. *General functions and objectives.* The general functions and objectives of the Office of Business Economics shall be to:

1. Provide business with basic economic measures of the national economy, including the balance of international payments, and current analyses of the economic situation and business outlook;

2. Perform general economic research on the functioning of the economy, including cooperative research with business organizations, other Government agencies, and university and research institutions;

3. Develop basic economic and statistical indicators;

4. Provide a basis for policy formulation of the Department with respect to Government operations insofar as they affect economic movements and tendencies; and

5. Serve as the central economic research organization of the Department, and collaborate with other primary organization units which require its economic research and statistical services in matters within the scope of this order.

SEC. 4. *Functions of organization units.* .01 The Office of the Director shall be responsible for formulating the policies, developing and coordinating the programs, and directing all operations of the Office of Business Economics. To this end the Direcor shall be assisted by

1. The Assistant Directors who shall recommend to and advise with the Director on policies and programs and advise on the practical application of such programs and policies to the operation of the Office, and shall perform such other duties as may be assigned by the Director including responsibilities for publications of the Office;

2. The Chief Statistician who shall be responsible for the development of such statistical measures and methods as may be required to facilitate the current analytical work of the office and shall cooperate with governmental and nongovernmental statistical organizations so that the statistical data of these groups may be properly utilized and adapted to the analytical program of the Office; and

3. The Executive Officer who shall assist the Director in fulfilling his responsibilities for administrative efficiency and economy in the operation of the Office. He shall secure all administrative services for the Office through the officers reporting to the Assistant Secretary for Administration.

.02 The National Income Division shall formulate and analyze the measures of the national income, gross national product and income flow to individuals, and prepare regular reports upon the position of the economy and the tendencies revealed by such data and analysis; compile analytical data on national income by industries and distributive shares indicating the origins and components of income produced, and the flow of production from basic resources to finished products; prepare estimates of income size distribution so as to describe the sources of income of recipients in different income classes, and the use of funds for taxes, consumption, and savings; and provide breakdowns of the significant income data by States, regions, and industrial areas, adapting these data for marketing and other purposes.

.03 The Business Structure Division shall analyze and report upon the structure of industry, the effect of structural

organization upon the economy, and the volume of business operations; provide current and historical data on (1) the structure of production and markets as an aid to expanding aggregate output and demand in the major industries and commodities, (2) the characteristics of the different types of businesses with particular relation to the specific markets for producers' and consumers' goods, (3) the financial organization and performance of business, and (4) changes in the business population by kinds of businesses, including analysis of the movement of firms in and out of particular lines of business; develop monthly and quarterly basic economic series on sales, consumer expenditures, capital expenditures, new and unfilled orders and inventories; and compile data on business programs, including sales and capital budgets, and on the sources and uses of business funds.

.04 The National Economics Division shall evaluate the major tendencies for expansion or contraction in the economy to provide basic guides to Government policy and guides to sound business management; develop quantitative projections to analyze the interrelationship between the different segments of the economy as well as the magnitude and significance of the economic forces at work as a basis for Office use in developing policy conclusions; analyze Government fiscal and economic policies as they affect business conditions and prospects; assist in the formulation of a program of effective action stemming from the above appraisal and analysis and aimed at a stable high level of production and employment and a vigorous expanding business system; and confer with business on the above evaluation and appraisal with a view to a common understanding as to the appropriate business and Government policies.

.05 The Current Business Analysis Division shall compile material on significant factors in the current economic situation; conduct a continuing study of current business activity and of the forces contributing to and influencing these movements and provide business with comprehensive analyses, through the Survey of Current Business, of the effects of these forces upon business activity; conduct statistical research for the purpose of assembling for publication all of the current business statistics required for the evaluation of changes in major segments of the economy and for adapting these data to the analyses of the Office and to the use of business; and analyze regional economic developments with respect to their relationship to current trends in the national economy and to the status of each region as a potential market and source of supply.

.06 The Balance of Payments Division shall compile, analyze, and interpret data on the balance of international payments and international investments of the United States, particularly as to their effect on the functioning of the domestic economy and prepare reports embodying the results of this research; analyze information concerning foreign transactions of the United States Government and arrange with other Government agencies for detailed reports covering their foreign transactions, including financial aids, goods transactions, and inventories, and prepare such data for use in the estimate of the balance of payments and gross national product of the United States; and collaborate with other primary organization units of the Department in the analysis of the international position of other countries and their capacity to utilize effectively and to service American investment capital.

SEC. 5. *Field programs.* The Office of Business Economics shall have the authority and responsibility for the determination of all programs and policies governing its operations in the field. The facilities of the Office of Field Services, Business and Defense Services Administration, shall be utilized to carry out the field programs of the Office of Business Economics.

SEC. 6. *Effect on other orders.* This order supersedes Department Order No. 15 (Amended) of June 1, 1950 (11 F. R. 177A-306, 307; 12 F. R. 3561; 15 F. R. 3596-3597). Any other orders or parts of orders the provisions of which are inconsistent or in conflict with the provisions of this order are hereby superseded or amended accordingly.

Effective date: December 1, 1953.

[SEAL] SINCLAIR WEEKS,
*Secretary of Commerce.*

[F. R. Doc. 53-10859; Filed, Dec. 30, 1953; 8:51 a. m.]

## POST OFFICE DEPARTMENT

ASSISTANT POSTMASTER GENERAL OF BUREAU OF FINANCE

DELEGATION OF AUTHORITY WITH RESPECT TO CHANGES IN RATES AND FEES

The following is the text of Order No. 55485, of the Postmaster General, dated December 23, 1953, delegating authority to the Assistant Postmaster General, Bureau of Finance, Post Office Department, to sign orders necessary to place changes in rates and fees in effect:

Pursuant to authority of section 1 (b) of Reorganization Plan No. 3 of 1949 (63 Stat. 1066), authority is hereby delegated to the Assistant Postmaster General, Bureau of Finance (including any person acting as such), in his own name, to sign orders necessary to place in effect—

(1) Changes in postage rates and other reformations consented to by the Interstate Commerce Commission under authority of section 247, title 39, United States Code;

(2) Changes in fees for special services as authorized by section 246f of title 39, United States Code; and

(3) Changes in the fee to be charged for the certificates of mailing authorized by section 260a of title 39, United States Code.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

[SEAL] LOUIS J. DOYLE,
*Acting Solicitor.*

## CIVIL AERONAUTICS BOARD

[Docket No. 2913]

UNITED AIR LINES, INC.

NOTICE OF HEARING

In the matter of the compensation for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, of United Air Lines, Inc., between the United States and Honolulu, T. H., for the period April 30, 1947, to August 7, 1952.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that hearing in the above-indicated proceeding is assigned to be held on January 18, 1954, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth and Constitution Avenue NW., Washington, D. C., before Examiner Herbert K. Bryan.

Dated at Washington, D. C., December 28, 1953.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 53-10852; Filed, Dec. 30, 1953; 8:50 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10573, 10574]

MONTGOMERY BROADCASTING CO., INC., AND ALABAMA TELEVISION CO.

ORDER SCHEDULING ORAL ARGUMENT

In re applications of Montgomery Broadcasting Co., Inc., Montgomery, Alabama, Docket No. 10573, File No. BPCT-670; William E. Benns, Jr., d/b as Alabama Television Company, Montgomery, Alabama, Docket No. 10574, File No. BPCT-1055; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of December 1953;

The Commission having under consideration:

(a) The Hearing Examiner's Initial Decision in the above-entitled proceeding, released October 7, 1953 (Mimeo. No. 96392; FCC 53D-56);

(b) Exceptions to said Initial Decision filed on October 27, 1953, by the Chief, Broadcast Bureau, Federal Communications Commission;

(c) Exceptions to said Initial Decision and accompanying Brief, filed on October 27, 1953, by William E. Benns, Jr., d/b as Alabama Television Company;

(d) Reply to Benns' Exceptions filed by Montgomery Broadcasting Company, Inc., on November 4, 1953;

(e) The Commission's Memorandum Opinion and Order of October 7, 1953 denying Benns' petition for review of the Examiner's denial of leave to amend (Mimeo. No. 95795);

(f) Petition for Rehearing with respect to said Memorandum Opinion and Order, filed by Benns on October 27, 1953;

(g) Reply to said petition for rehearing, filed by Montgomery on November 4, 1953;

It appearing, That Benns has requested oral argument before the Commission on the matters raised in its exceptions to the Initial Decision and in its petition for rehearing on the Commission's Memorandum Opinion and Order of October 7, 1953; and

It further appearing, That an examination of the exceptions and the petition for rehearing reveals that they raise the same or related legal and factual questions and that under the circumstances of this case the public interest would be served by hearing argument on both matters simultaneously;

*It is ordered*, That oral argument on both the above-described petition for rehearing and the exceptions to the Initial Decision filed by Benns and on the exceptions filed by the Broadcast Bureau is scheduled for January 11, 1954, at 10:00 a. m. at the offices of the Commission in Washington, D. C.

Released: December 28, 1953.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10855; Filed, Dec. 30, 1953; 8:50 a. m.]

## FEDERAL POWER COMMISSION

[Docket No. G-2063]

NORTHERN NATURAL GAS CO.

ORDER ISSUING CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY AND FIXING DATE FOR ORAL ARGUMENT

In this proceeding, the Commission is requested to issue a certificate of public convenience and necessity, pursuant to subsections (c) and (e) of section 7 of the Natural Gas Act, to Northern Natural Gas Company (Northern) authorizing it (1) to operate certain facilities the construction of which was authorized in this docket by orders issued May 1 and October 19, 1953, and (2) to construct and operate certain other facilities, all for the purpose of enabling Northern to increase its total overall system capacity by 300,000 Mcf per day, and its system salable capacity by approximately 278,000 Mcf per day.

To provide the additional volumes of gas required for the increased sales proposed to be made, Northern relies upon deliveries to be made to it by its subsidiary, Permian Basin Pipeline Company (Permian). Permian has already been issued a certificate of public convenience and necessity authorizing it to construct and operate facilities designed ultimately to enable it to sell and deliver to Northern up to 300,000 Mcf per day (In the Matters of Permian Basin Pipeline Company, et al., Docket Nos. G-1928, et al., Opinion No. 249 and accompanying order issued May 1, 1953). These facilities are now being constructed, and it appears from the record in this proceeding that Permian will have available for delivery to Northern volumes of gas up to 200,000 Mcf per day on or before January 1, 1954. The remaining volume of 100,000 Mcf per day will become available on or before January 1, 1955.

In Opinion No. 249 and the accompanying order issued May 1, 1953, the Commission issued Northern a partial certificate in Docket No. G-2063 authorizing it to construct, but not to operate, main-line facilities to increase its system capacity by 200,000 Mcf per day. The remaining issues in Docket No. G-2063, involving the operation of the main-line facilities authorized to be constructed by such order, construction and operation of remaining main-line facilities, necessary branch lines and loops, and the disposition of all gas to be made available from Northern's expansion program in this docket have been considered and heard in the phase of the proceeding just concluded.

In the same order the Commission in Docket No. G-2134, issued El Paso Natural Gas Company (El Paso) a certificate authorizing it to construct and operate facilities to enable it to use certain of its existing facilities to transport Permian gas for Permian's account some 200 miles northward to a point of delivery near the southern terminus of Northern's system. This order was subsequently amended by order issued November 27, 1953, to change the delivery point of the Permian gas so that El Paso is now authorized to transport such gas for the account of Northern rather than of Permian.

In addition to the authorization issued to Northern in this docket as specified above Northern was issued a temporary certificate on October 19, 1953, authorizing it to construct certain branch-line loops to enable it to deliver to existing customers during 1953-1954 the increased volume of gas which was planned to be made available as the result of the main-line construction already authorized in this docket by the order issued May 1, 1953, accompanying Opinion No. 249.

Hearings in this, the second phase of the proceeding, have been completed, and the matter is now before the Commission for decision pursuant to its order omitting the intermediate decision procedure issued November 17, 1953. As directed in that order, main and reply briefs have been filed. Pursuant to the same order, Northern has submitted to the Commission a letter dated December 3, 1953, in which it is requested that oral argument with respect to the matters and issues involved be held no later than December 15, 1953.

It is apparent from the evidence of record and from the briefs and reply briefs which have been filed that numerous issues are presented to the Commission for determination, many of which require serious and careful consideration before a decision may be rendered with respect to them. Among the issues presented are questions relating to contributions by new customers towards the cost of lateral lines to serve communities proposed to be served with natural gas for the first time, questions concerning the allocation of gas among many new and old customers of Northern, and questions relating to the applicability of Northern's tariff to the disposition of the gas proposed to be made available in this proceeding.

The record shows that the existing status on Northern's system as the result of the certificates which have already been issued is that, on or before January 1, 1954, physical facilities will have been constructed and gas will be available to enable Northern to transport, sell, and deliver up to 186,000 Mcf of natural gas per day without further construction of facilities. Further, the record shows that existing customers of Northern need, at this time, additional volumes of gas, in the specific amounts hereinafter set forth, to meet their 1953-1954 requirements. For these reasons, and upon the basis of our consideration and examination of the evidence of record and of the briefs and reply briefs which have been filed by various parties to the proceeding, we have concluded that our decision with respect to certain of the issues presented can and should be made at this time, and that a certificate should be issued authorizing Northern to operate facilities authorized to be constructed by our prior order hitherto referred to; but that oral argument concerning remaining issues should be had before we render our decision in connection therewith.

We deem it necessary to point out at the outset that we disagree with the contention of Northern and certain intervenors, existing customers of Northern, that such customers are entitled, under Northern's FPC Gas Tariff, to additional volumes of gas by reason solely of the contracts which they have executed with Northern. Contract demands, for which provision is made in Section 9 of the tariff, can only become effective upon a showing by or on behalf of existing customers as to their actual requirements. The public interest requires only the disposition to them of the amount of pipeline sales capacity necessary to meet such actual requirements.

So far as the certificate to be issued herein is concerned, we have concluded that only one customer, Minneapolis Gas Company, should receive a lesser volume of gas than it requested for 1953-1954. In this connection, we take note of the fact that Minneapolis, while continuing to maintain its position that it is entitled under Northern's tariff to a contract demand of 240,000 Mcf per day during 1953-1954, has stated in its reply brief that it is willing to accept the lesser volume proposed by the Staff, which volume is 235,315 Mcf. Such lesser volume would amount to an increase of approximately 25 percent over Minneapolis' current contract demand of 187,738 Mcf per day, and would appear to be ample to take care of the company's requirements, at least during the next two-year period. Accordingly, the order herein will provide that Northern be authorized to sell and deliver to Minneapolis Gas Company the volume of 235,315 Mcf per day, subject to the filing by Northern of an executed service agreement with Minneapolis Gas Company specifying such contract demand.

We have concluded that the increased volumes of gas sought on behalf of other existing customers of Northern for 1953-1954 are needed by such customers to enable them to meet their growing mar-

ket requirements in the communities already served by them. The increase in contract demands for each such customer, including Minneapolis Gas Company, are shown in the following table:

| Purchaser | Mcf increase or decrease in contract demand |
|---|---|
| Austin Municipal Board | 1,553 |
| Central Electric & Gas Co | 11,128 |
| Central Natural Gas Co | ------ |
| Council Bluffs Gas Co | 1,020 |
| Elkhorn Valley Gas Co | 103 |
| Interstate Power Co | [1](120) |
| Iowa Electric Light & Power Co | 10,375 |
| Northwestern Light & Power Co | 373 |
| Iowa-Illinois Gas & Electric Co | 1,661 |
| Iowa Power & Light Co | 17,624 |
| Iowa Public Service Co | 5,860 |
| Metropolitan Utilities District | 31,460 |
| Minneapolis Gas Co | 47,577 |
| Minnesota Natural Gas Co | 150 |
| Minnesota Valley Natural Gas Co | 3,430 |
| Municipal Utilities System | 851 |
| Nebraska Natural Gas Co | 1,733 |
| New Ulm Utilities Co | 943 |
| Northern States Power Co | 17,208 |
| Village of Pender | 98 |
| Peoples Gas & Electric | 3,000 |
| Perry Gas Co | 500 |
| City of Ponca | ------ |
| Western States Utilities Co | 203 |
| Kansas Power & Light Co | [1](20) |
| Unallocated; Direct and Peoples Division (equivalent contract demand) | 7,123 |
| Net increase in contract demand | 163,753 |

[1] Indicates decrease in contract demand as requested by the customer.

The record clearly shows that, to enable Northern's present customers to meet the increasing requirements of their residential and commercial consumers within the markets already served by them during the 1953–1954 season, the additional contract demands set forth in the above table should be made available to such customers forthwith, unless to do so would adversely affect the rights of other parties to the proceeding. We have concluded that such a certificate may be issued at this time without in any way prejudicing the rights of any party to the proceeding. Such conclusion necessarily has entailed decision with respect to certain subsidiary issues which must be disposed of at this time.

When Northern has completed the installation of all main line facilities proposed in this docket its sales capacity will be increased by 278,680 Mcf per day. If there is allocated 163,753 Mcf by interim order as we propose herein, the total remaining available sales capacity to be subsequently allocated will be 114,927 Mcf, derived as follows:

| | Mcf |
|---|---|
| Increased sales capacity available Jan. 1, 1954 | 185,901 |
| Additional sales capacity available Jan. 1, 1955 | 92,779 |
| Total increase in sales capacity | 278,680 |
| Allocated herein | 163,753 |
| Capacity to be disposed of by further order | 114,927 |

If gas were to be distributed to all new communities for which a supply of gas is sought in this proceeding, the total volume of gas necessary to meet the requirements of such communities on a peak day in the second year would be 144,386 Mcf. But our examination of the record indicates to us, first, that service should not be authorized in this proceeding to communities in South Dakota by means of an extension of Northern's facilities to Aberdeen, South Dakota. Northwestern Public Service Company, which represents most of these South Dakota communities, filed neither a brief nor a reply brief in this proceeding in support of its request for a supply of natural gas for service to such communities. Furthermore, the record shows that Northern has entered into a precedent agreement with Northwestern, pursuant to the terms of which Northern is obligated, subject to obtaining the requisite certificate authorization, to provide natural-gas service in the future to this area. There is no such proposal by Northern in this record, however, and we conclude that the question of the transportation, sale, and delivery of gas by Northern to Northwestern for ultimate distribution among such South Dakota communities must be deferred until such time as the parties to the precedent agreement submit to the Commission a firm proposal pertaining to such service.

Likewise, we have concluded that the record will not support a finding that Northern should be required in this proceeding to provide natural-gas service to the Wisconsin communities (including Winona, Minnesota) on whose behalf intervention was made in this proceeding.

The record shows that the most inexpensive line to serve such communities would cost approximately $14,000,000 and that the estimated load to be obtained thereby would amount to some 40,851 Mcf of gas on a peak day in the second year. The expenditure of some $14,000,000 to obtain a peak-day load of 41,000 Mcf per day in the second year must be contrasted with the expenditure of approximately $15,500,000 necessary to obtain a peak load of approximately 85,000 Mcf per day in the second year if service to all new communities other than the Wisconsin and South Dakota communities were to be directed.

We have already found that Northern's existing customers will require 163,753 Mcf to meet their peak-day requirements during 1953–1954. This volume of gas, when added to the additional volume of 41,570 Mcf sought on behalf of existing customers for 1954–1955, and the second year volume of 85,191 Mcf of gas sought on behalf of new communities other than the Wisconsin communities and the South Dakota communities previously mentioned, totals 290,514 Mcf, which is more than the total proposed overall increase in Northern's system capacity. The second-year requirements of the Wisconsin communities total 40,851 Mcf. Thus if service to Wisconsin were to be directed, it would be necessary to deny service to some other new communities on behalf of which intervention has been made, and to reduce the volumes of gas requested by Northern's existing customers for 1954–1955, or to deny the requests of Northern's existing customers for 1954–1955 in their entirety.

Except for the Wisconsin and South Dakota communities hitherto referred to, most of the new communities on behalf of which service is sought lie reasonably close to Northern's already existing pipeline system or to extensions thereof proposed by Northern in this proceeding. Service to the Wisconsin communities, on the other hand, would involve a pipeline extension of considerable magnitude into an area not hitherto served by Northern. In these circumstances, we conclude, on the basis of the record herein, that Northern should not be directed in this proceeding to provide natural-gas service to Wisconsin.

The quantity of gas potentially available for new communities, apart from those represented by Northwestern and the Wisconsin intervenors, is 85,191 Mcf. This amount, added to the volume sought on behalf of existing customers for 1954–1955, totals 126,761 Mcf, which is slightly in excess of the 114,927 Mcf per day of saleable capacity which is proposed to be made available by Northern in 1954–1955. Questions concerning which of the new communities not already discussed herein should receive natural-gas service, and concerning the disposition of this volume of gas among the new and existing customers, are included in the matters which we intend shall be argued orally before we reach our final decision with respect to the remaining issues in this proceeding.

We are aware of the fact that the certificate hereafter issued will result in increased sales of gas for industrial and boiler use. The showings made both by Northern and its existing customers contain estimates of increased volumes of annual sales in 1953–1954 some of which will involve the use of gas as boiler fuel. Concededly, Northern's operations as hereafter authorized may result in the displacement of coal by gas in some instances. But such potential displacement must be weighed against the advantages to be had from the use of natural gas by consumers in the area to be served, the public interest of which has been clearly demonstrated on the record. We do not think that the possible displacement of coal by natural gas provides sufficient reason either to deny the certificate hereafter issued, or to impose specific conditions to such certificate of the nature suggested by the coal and railroad intervenors.

On the basis of the record herein, and the briefs and reply briefs submitted by the various parties to the proceeding, the Commission further finds:

(1) Northern Natural Gas Company is a "natural-gas company" within the meaning of the Natural Gas Act, subject to the jurisdiction of the Commission, as heretofore found in the proceeding at Docket No. G–280 (3 F. P. C. 967).

(2) The main-line facilities construction of which was authorized under the certificate heretofore issued in Docket No. G–2063 by the order accompanying Opinion No. 249 issued May 1, 1953, and the loop and branch-line facilities described in the temporary certificate issued October 19, 1953, are proposed to be used in the transportation and sale of natural gas in interstate commerce, subject to the jurisdiction of the Commission, as integral parts of Northern's existing natural-gas pipeline system, and the construction and operation thereof by Northern are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Northern is able and willing properly to do the acts and to perform the service hereinafter authorized, and to conform to the provisions of the Natural Gas Act and to the requirements, rules, and regulations of the Commission thereunder.

(4) Operation of the facilities authorized to be constructed pursuant to the Commission's order issued May 1, 1953, construction and operation of the facilities described in the temporary certificate issued October 19, 1953, and the sale and delivery of natural gas by Northern to existing customers as heretofore described to enable such customers to meet their 1953–1954 market requirements are required by the public convenience and necessity, and a certificate therefor should be issued as hereinafter ordered.

(5) It is reasonable, and the public convenience and necessity require, that the provisions of § 154.22 of the Commission's regulations under the Natural Gas Act be waived, and that copies of executed service agreements, except for that with Minneapolis Gas Company, embodying contract demands of Northern's existing customers for 1953–1954 heretofore tendered for filing by Northern on November 25 and December 11, 1953, be deemed to have been filed as of the date of issuance of this order, to be effective as of December 27, 1953.

(6) The executed service agreement with Minneapolis Gas Company hitherto filed by Northern on November 25, 1953, should be rejected and Northern should be directed to file a new service agreement with Minneapolis Gas Company as hereinafter ordered.

(7) It is reasonable and in the public interest to require, as a condition to the exercise of rights under the certificate hereinafter granted, the Northern shall not sell as firm contract demand any volumes of gas in excess of the 163,753 Mcf hereinafter authorized to be sold to existing customers to meet their 1953–1954 requirements, unless and until otherwise provided by order of the Commission.

(8) It is in the public interest and it is necessary and appropriate to carry out the provisions of the Natural Gas Act to grant the motion for oral argument hitherto filed by Northern, said oral argument to be held at the time and place hereinafter designated.

The Commission orders:

(A) A certificate of public convenience and necessity be and the same is hereby issued to Northern Natural Gas Company authorizing operation of the facilities heretofore authorized to be constructed by the order accompanying Opinion No. 249 issued May 1, 1953, construction and operation of the facilities described in the temporary certificate issued October 19, 1953, and the sale and delivery of volumes of gas to existing customers of Northern to enable such customers to meet their 1953–1954 requirements as heretofore specified.

(B) This certificate shall be accepted in writing and under oath by a responsible official of Northern Natural Gas Company, and the general terms and conditions set forth in paragraphs (1), (2), (3) (i), (3) (iii), (3) (iv), and (5) of § 157.20 of the Commission's general rules and regulations, including its rules of practice and procedure (18 CFR 157.20), shall attach to the issuance of the certificate granted in paragraph (A) hereof, and to the exercise of the rights granted thereunder.

(C) As an additional condition to the exercise of rights granted herein, Northern shall not sell as firm contract demand any volumes of gas in excess of 163,753 Mcf per day herein authorized to be sold, unless and until otherwise ordered by the Commission.

(D) The provisions of § 154.22 of the Commission's rules and regulations under the Natural Gas Act be and the same hereby are waived, and copies of the executed service agreements heretofore tendered for filing by Northern on November 25 and December 11, 1953, except that with Minneapolis Gas Company, be and the same hereby are accepted for filing as of the date of issuance of this order, to be effective as of December 27, 1953.

(E) The aforesaid copy of the executed service agreement with Minneapolis Gas Company be and the same hereby is rejected, and Northern be and it hereby is directed to file, within 10 days from the date of issuance of this order, a copy of a new service agreement with Minneapolis Gas Company embodying the contract demand heretofore specified, said service agreement to be effective as of December 27, 1953.

(F) To the extent herein set forth, the motion by Northern Natural Gas Company for oral argument by and the same hereby is granted, and oral argument be held commencing at 10:00 a. m., e. s. t., on January 28, 1954, in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning all matters and issues not disposed of by the order herein.

(G) Parties to this proceeding who intend to participate in the oral argument shall so notify the Secretary of the Commission, and in such notification shall state the time requested for presentation of their argument; such notification shall be made not less than ten (10) days prior to the date heretofore fixed for the oral argument.

Adopted: December 23, 1953.

Issued: December 24, 1953.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28777]

HIDES, PELTS OR SKINS FROM ALABAMA, GEORGIA, AND LOUISIANA TO ENDICOTT, N. Y.

APPLICATION FOR RELIEF

DECEMBER 24, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Hides, pelts or skins, carloads.

From: Atlanta, Augusta and Columbus, Ga., Birmingham, Ala., and New Orleans, La.

To: Endicott, N. Y.

Grounds for relief: Competition with rail carriers and competition with water, or water-rail carriers.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1324, supp. 52; W. P. Emerson, Jr., Agent, I. C. C. No. 422, supp. 14.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 53–10801; Filed, Dec. 29, 1953; 8:50 a. m.]

[4th Sec. Application 28778]

AMMONIUM SULPHATE FROM HOUSTON, TEX., TO KANSAS CITY AND ST. LOUIS, MO.

APPLICATION FOR RELIEF

DECEMBER 24, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Fertilizer compounds, viz.: ammonium sulphate, in bulk, carloads.

From: Houston, Texas.

To: Kansas City and St. Louis, Mo.

Grounds for relief: Competition with rail carriers, circuitous routes, and competition with water carriers.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, supp. 299.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose

their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 23779]

PAPER AND PAPER ARTICLES FROM POINTS IN OFFICIAL TERRITORY TO LOWER MISSISSIPPI RIVER CROSSINGS

APPLICATIONS FOR RELIEF

DECEMBER 24, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent I. N. Doe's tariff I. C. C. No. 610 and Alt. Agent H. R. Hinsch's tariff I. C. C. No. 4367, pursuant to fourth-section order No. 16101.

Commodities involved: Paper and paper articles, carloads.

From: Specified points in official territory.

To: Lower Mississippi River Crossings, Memphis, Tenn., and south.

Grounds for relief: Rail competition, circuity, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-72, 54-104, 54-105, 54-169, 54-173, 54-191, 54-199, 54-204, 54-209]

STANDARD POWER AND LIGHT CORP. ET AL.

ORDER WITH RESPECT TO FILING OF REPORTS CONCERNING FEES AND EXPENSES

DECEMBER 23, 1953.

In the matter of Standard Power and Light Corporation, Standard Gas and Electric Company, Philadelphia Company, Market Street Railway Company; File Nos. 54-72; 54-104; 54-105; 54-169; 54-173; 54-191; 54-199; 54-204; 54-209.

The above-entitled proceedings all involve plans filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") to enable the system of the Standard Power and Light Corporation, a registered holding company, to effectuate compliance with section 11 (b) of the act. In each of the proceedings various orders have heretofore been entered by the Commission reserving jurisdiction with respect to the fees and expenses paid or to be paid by the several companies concerned with these plans for services rendered in connection therewith and related proceedings.

Pursuant to notice previously given by the Commission, applications for allowances or approval of amounts already paid have been filed with the Commission, and in some instances with the companies, but no procedure with respect to the disposition of such applications has been fixed.

The Commission has decided it to be necessary or appropriate in the public interest or for the protection of investors or consumers that as a first step in fixing the ultimate procedure to be followed and as an aid to the Commission in determining what fees and expenses it should ultimately approve, an order should be entered, under the authority conferred by section 11 (f) of the act, requiring that the companies concerned with these plans file with the Commission, either jointly or severally, a report or reports setting forth certain information.

*It is therefore ordered*, That on or before March 31, 1954, Standard Power and Light Corporation, Standard Gas and Electric Company, Philadelphia Company and Market Street Railway Company shall file with the Commission, either jointly or severally, 10 copies of a report or reports which shall set forth in a manner so as to indicate the proposed allocation thereof among such companies and their subsidiary companies, including those formerly in the system, as the case may be:

(1) The amounts of fees and expenses claimed by the respective applicants for services rendered in connection with the above-entitled and related proceedings;

(2) The amounts of fees and expenses which the paying company has already paid or is prepared to pay without modification;

(3) The amounts of fees and expenses, if any, which each company is willing to pay and which the claimants after negotiation with the company or companies involved have indicated a willingness to accept; and

(4) In cases where such negotiations have been unsuccessful, the amounts of fees and expenses which each company considers to be reasonable and which it is willing to pay.

*It is further ordered*, That any agreement as to amounts as contemplated by paragraph (3) above shall be subject to the provisions of the respective plans and to approval by the Commission and the exercise by the Commission of its full powers with respect to fees and expenses conferred by the act in connection with plans filed under section 11 (e) thereof.

*It is further ordered*, That with respect to the information required to be furnished by paragraph (4) above, such information shall be submitted directly to the Chairman of this Commission and be kept confidential unless and until a further order of this Commission shall require otherwise.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*
